CITY COUNCIL
MORENO VALLEY
RECEIVED

MORENO VALLEY
WHERE DREAMS SOAR

Financial & Administrative Services Department

MEMORANDUM

To: Mayor and City Council
Robert G. Gutierrez, City Manager

From: Steve Elam, City Treasurer

Date: October 15, 2009

Subject: Monthly Investment Report – August, 2009

Attached is the Monthly Investment Report (Treasurer's Cash and Investments Report) for the month ended August 31, 2009. All investments comply with California Government Code Section 53601 as to the types of investments allowed and the limits of each type. In addition, all investments comply with the City's annually adopted Investment Policy.

As background information, each quarter the City Council receives a Quarterly Investment Report at a regular City Council meeting. In the two months that fall between these Quarterly Investment Reports, a Monthly Investment Report is submitted to the City Council and City Manager via internal memorandum. This reporting process ensures that the Council and City Manager are kept apprised regarding the City's investments on a monthly basis, and that full public disclosure is made on a quarterly basis.

As previously reported, the City holds three investments of $1 million each in Lehman Brothers Holdings, Inc. (Lehman), out of a total general investment portfolio of nearly $233 million. As a result of the Lehman bankruptcy filing in September 2008, the City continues to pursue recovery of these investments through both legal and political channels through participation in a consortium of other public agencies that hold Lehman investments or who have a stake is seeing that public agencies receive fair and equitable recovery. So far, public agencies holding Lehman investments have been identified in 22 states, with loss exposures totaling over $1.8 billion. The political effort has been spearheaded by Senator Dianne Feinstein, Congresswoman Jackie Speier and Congresswoman Anna Eshoo with the support of the National League of Cities, National Association of Counties, U.S. Conference of Mayors, and the Association of Public Treasurers of the United States and Canada. The House Financial Services Committee held a hearing on May 5, 2009, which built on the effort begun last fall when amendments were secured in the Economic Stabilization Act of 2008 enabling the Treasury Secretary to use Troubled Asset Relief Program (TARP) funds to assist

municipalities. The coalition of public agencies with Lehman losses continues to hold a teleconference every two weeks to provide updates to coalition members. A meeting between Congressman Barney Frank, Chairman of the House Financial Services Committee, and Treasury Secretary Timothy Geithner is expected to be scheduled in the near future to discuss how TARP funds could be used to provide relief for government agencies holding Lehman investments. The City Council will be updated on these efforts as they progress.

c: Betsy M. Adams, Assistant City Manager
Patrick Beckner, Treasury Programs Supervisor

Subject: Service Levels for the Moreno Valley Fire Department

Dear Chief Hawkins,

The City has one, half funded, Battalion Chief Position in Exhibit A for the Fire Services Contract which is currently unfilled. Due to the current economic crisis, I am requesting this position remain unfilled and defunded for Fiscal Year 2009/2010.

Sincerely,

Robert G. Gutierrez
City Manager

CITY OF RIVERSIDE

Office of the City Council

August 19, 2009

To: Executive Officers and Elected Officials of Agencies Impacted by Rail Traffic
From: Councilman Steve Adams, City of Riverside
Date: August 19, 2009
Re: Port Project and Rail Impacts

In addition to being a member of the Riverside City Council, I am a member of the Riverside County Transportation Commission, and am also actively involved in the nation's goods movement issues. As you may be aware, the City of Riverside has recently challenged the Port of Los Angeles's China Shipping Terminal Expansion Project and the Port of Long Beach's Middle Harbor Redevelopment Project for failure to analyze and mitigate rail impacts on the City of Riverside.

The Ports have been steadily expanding, and are forecast to expand even more. A large and still-growing portion of the cargo is transported by rail; Riverside is not alone with being burdened by the existing and future rail traffic but with up to 128 trains every day and our 26 at grade crossings creates a unique challenge. Each train divides cities and neighborhoods and blocks traffic. Stopped traffic emits many tons of air pollution into a region already suffering from poor air quality. Stopped traffic also means stopped emergency vehicles, adding minutes of delay when seconds count in life-and-death situations. Despite Riverside's repeated requests for the Ports to meaningfully analyze the impacts from their additional trains, they have refused to look beyond their own immediate backyards.

Now, the Port of L.A. will again expand its Port capacity, adding even more trains. The Berths 302-306 Container Terminal Project (attached for your convenience) will add 1,700,000 twenty-foot container units each year, or approximately 6-7 more trains every day. That alone is a significant number of trains, but together with other projects, the number gets much worse. The China Shipping Project is estimated to add 6 trains per day and the Middle Harbor Project at least 3 trains per day. These three projects alone will add 16 trains each day. Other future projects will add even more train trips, such as the Burlington Northern Santa Fe Railroad's Southern California International Gateway Facility and the Union Pacific Railroad's Intermodal Container Transfer Facility Modernization Project. Still further Port expansions are yet to come, bringing more trains with them.

Riverside, consistent with the Regional Transportation Plan is seeking a regional solution that benefits all the stake holders. I urge you to make sure you and your constituents' voices are heard in this matter. The Ports must mitigate the impacts of the additional rail burdens they are imposing on all of us. Comments on the scope of the Berths 302-306 EIS/EIR are due August 24, 2009. Attached is the Notice of Preparation of the Draft EIR. For further information, or if you have any questions, please do not hesitate to contact me at sadams@riversideca.gov or at 951.826.5991.

Very Truly Yours,

Steve Adams

Los Angeles District Regulatory Branch
c/o Spencer D. MacNeil, D. Env.
ATTN: CESPL-CO-R-2003-01029-AOA
P.O. Box 532711
Los Angeles, CA 90053-2325

Subject: BERTHS 302-306 [APL] CONTAINER TERMINAL PROJECT;
Our File No: 08-0567.5

Dear Dr. MacNeil;

On behalf of the City of Riverside, I thank you for the opportunity to review and comment on the Notice of Preparation for the Berths 302-306 [APL] Container Terminal Project. According to the NOP, the Project will more than double the terminal cargo throughput from 1.3 Million TEUs to 3.0 Million TEUs, a 130% increase. That increase will be made possible by extending the concrete wharf by 1,250 feet (nearly a quarter of a mile); adding a new berth; doubling the number of cranes from 6 to 12; and increasing the land area from 290 acres to 346 acres. By year 2027, 45% of the terminal's cargo would travel by rail.

As I am sure you are aware, the City of Riverside is uniquely situated from having 25 at-grade rail crossings, and suffering the impacts from those crossings. Presuming that 75% of the trains will travel east through the City of Riverside, and that each train of 100 cars carries 400 TEUs, the Project will add at least 9 trains per day, 7 of which will pass through Riverside. Because the baseline percentage of cargo shipped by rail is not disclosed, but is almost certainly less than 45%, the number trains generated by the Project will be even larger, more than a 130% increase. For example, if 25% of the terminal's current throughput is transported by rail, the Project would increase the amount of rail-transported cargo by 415%. More than four times as many trains would serve that terminal.

Riverside has repeatedly commented to the Port that it is currently impacted by train traffic, up to 128 trains per day cross the City, blocking some grade crossings for more than 6 hours each day. An additional 7 or more trains each day will further cut in to the limited time that the grade crossings are not blocked, and increase the hours that vehicles are delayed at those crossings. Those delays will waste fuel and time, create air pollution in an already-impacted area, and block emergency vehicle access. They will physically divide an established community and conflict with an adopted emergency response plan.

3900 Main Street • Riverside, CA 92522 • [redacted] • www.riversideca.gov

The EIR prepared for the China Shipping project initially ignored rail impacts beyond the Port's own backyard. Only after Riverside and the Riverside County Transportation Commission commented upon the lack of rail impact analysis did the Port look further east, and even then, the analysis was flawed and inadequate. Riverside respectfully requests that the EIR for this Project must address the impacts of increasing the number of trains to and from the ports, beyond the Port and its immediate neighborhood, at least as far away as the City of Riverside. The EIR must also adequately analyze the Project's cumulative impacts. The China Shipping project will add at least 6 trains per day and the Port of Long Beach's Middle Harbor project will add 6 more; together with this Project, at least 21 more trains will be added each day. Moreover, the ICTF modernization project and the SCIG project will increase rail trips, and the Ports both have active incentive programs to increase the cargo transported by rail. The potential cumulative impacts are serious.

Fortunately, mitigation for the additional rail traffic is a simple matter of separating the rail and vehicle grades. A moderate, reasonable infrastructure fee based on cargo throughput, such as a container fee, would efficiently and effectively address the Project impacts to the Southern California region. Thank you in advance for your attention to this matter. If you have any questions, or if the City of Riverside can be of any assistance, please do not hesitate to contact us directly.

Respectfully submitted,

Gregory P. Priamos
City Attorney

The potential cumulative impacts are serious.

Fortunately, mitigation for the additional rail traffic is a simple matter of separating the rail and vehicle grades. A moderate, reasonable infrastructure fee based on cargo throughput, such as a container fee, would efficiently and effectively address the Project impacts to the Southern California region. Thank you in advance for your attention to this matter. If you have any questions, or if the City of Riverside can be of any assistance, please do not hesitate to contact us directly.

Respectfully submitted,

Gregory P. Priamos
City Attorney

You are Invited to Attend a Neighborhood Meeting

Date: November 16, 2009
Time: 6:15 PM

Location: Superior Avenue

Hosted By: Edward I. Init, Speed Hump Program Administrator

Dear Resident:

You are invited to attend a meeting to discuss the proposed placement of speed humps on Superior Avenue between Indian Street and Lake Victoria Drive. The meeting will commence at 6:15 P.M. at the intersection of Hudson Bay Drive and Superior Avenue. By attending this meeting, you will have the opportunity to participate in an effort to improve your community.

Edward Init and I will be facilitating the meeting, and we have invited Mayor Pro Tem Bonnie Flickinger to answer questions and concerns.

If you have any questions regarding this meeting, please call Edward I. Init at (951) 413-3152. Thank you for your time and I hope to see you at the meeting.

Sincerely,

Eric Lewis, P.E., T.E.
City Traffic Engineer

C: Chris A. Vogt, P.E., Director of Public Works/City Engineer
City Council

Fire Department

MEMORANDUM

To: Mayor and City Council

From: Steve Curley, Fire Chief

Date: October 21, 2009

Subject: Fire Prevention and Safety Grant

On September 21, 2009, the U.S. Department of Homeland Security Assistance to Firefighters Grant Program opened the application period for the Fire Prevention and Safety Grant, which ends on Friday, October 23, 2009 at 5 p.m. E.D.T. Due to the short time frame that the guidance documents and application was available, the Fire Department was unable to present a staff report to Council for approval prior to submitting this grant.

The Fire Department has identified the need to modernize the hazard abatement inspection process as the program was initially given to Fire Prevention with only 822 vacant parcels requiring inspection. Over the course of the first inspection cycle, and in coordination with the City's GIS Division, an additional 2,283 parcels were located that required inspections for compliance with the hazard abatement program, more than tripling the number of inspections that were originally occurring. As this is a code enforcement activity that decreases the threat to the community for a wildfire, it qualifies as a priority for funding under this grant.

In order to modernize the inspection process, the Fire Department requested the Technology Services Division provide quotes for:

- three Panasonic Toughbooks with GPS capabilities as well as all accompanying power adapters, carrying cases, and port replicators
- software licenses for Accela Wireless
- vehicle mounts for the Toughbooks
- mobile printers for printing notices in the field
- mobile broadband monthly costs in order to use Accela Wireless for conducting inspections
- a consultant to adapt the Accela Wireless Application in use by other City Divisions for conducting field inspecitons. The modifications will take approximately 40 hours to complete.

The total cost provided to the Fire Department by Technology Services for these items is $41,228. As this grant is a matching funds grant, the City would be required to provide 20% of the funding for these items, which is $8,246. The Fire Department is purposing to pay for the matching funds out its current budget from business unit 65110 object code 6251.252, which is object code used to pay for the contract with Riverside County Fire for Fire Protection Services.

The Fire Department is estimating a cost savings in personnel time for the hazard abatement program of approximately $89,664 within the first year of implementing the Accela Wireless program. This would fully recover the costs associated with this grant. Additionally, the equipment will be used when conducting their new construction inspections, tenant improvement inspections, special event inspections, and fire annual inspections. The printers will also allow the Fire Prevention Bureau to provide better customer service to the business owners as permits can be printed in the field and given to the business immediately rather than having to wait to receive their permits in the mail.

MEMORANDUM

To: Jesse Molina, City Councilman

From: Robert G. Gutierrez, City Manager

Date: October 21, 2009

Subject: Citizen Complaint - Cati Delgado

Per your October 19, 2009 email, the following is the written report you requested regarding the complaint you received from Cati Delgado last week.

At approximately 8:00 p.m. on Thursday, October 15, 2009, I received a call from you regarding an alleged incident at Towngate Park earlier that evening. You subsequently sent me an email at approximately 9:00 p.m. the same evening regarding the same issue (copy attached). You stated that you had received a call from Cati Delgado of the Moreno Valley Heat soccer team, that she was crying and that she and the team had been "rudely thrown off the soccer field" by a city employee named Angel. Since I was out of town, I called Acting City Manager Betsy Adams and advised her of the allegations and requested that she contact the appropriate City Staff to look into this matter.

After conducting an investigation, which included interviews with City Staff and Pee Wee football parents, Parks and Community Services Director Mike McCarty has provided the following information regarding the incident:

- Cati Delgado was not at Towngate Park the night she made the call to you.
- City Staff did not throw anyone off the park premises.
- Mr. McCarty was at the CRC when Ms. Delgado called to complain to City Staff. Mike offered to speak to her directly about her concerns. She refused and stated that she would call you.
- CRC Staff received numerous calls from Pee Wee Football parents that were quite upset that teenage soccer players were being allowed to kick balls into their games and were not supervised as they practiced in the end zone of the 3-5 year old children. Staff on site asked the Heat coach to please move his players back, and to move flag markings by 3 feet.

- While City Staff was speaking with a soccer coach, a soccer parent began insulting and verbally abusing the staff member. The Staff member ignored this individual and instructed the soccer coach to move the flags and walked away from the escalating situation. The coach ignored this request and was asked one last time to please move her teenage players back as someone may get hurt. The coach again refused and subsequently during the Pee Wee game a soccer player ran onto the field interfering with a football player trying to pull a flag.

- Several parents of the Pee Wee football players became quite upset, began confronting the soccer coaches and players, and decided to call the CRC. The parents also commented that they are considering bringing their complaints to City Hall because "soccer is being allowed to take over the fields, and they paid the City to have their children in a safe, fun activity."

- Ralph Delgado, Cati's husband, was also at the park and understood that the older soccer players are not to be on-site until 7:00 p.m., or after the Pee Wee players are gone as to avoid a possible safety issue. He also acknowledged at the time that it was wrong for his players to be playing into the Pee Wee fields.

Subject: urgent

Bob, I recieved a phone call at 1930 hours from Caty of the Moreno Valley Liverpool soccer team. She stated to me crying that they were rudely thrown off the the soccer field where they hold their regular soccer practice by a city employee named Angel. Please investigate on my behalf and and report back to me

Thank You.

MORENO VALLEY, CA 92552-0805

Mr. Brad Williams
President & CEO
MVP EV
14255 Elsworth Street
Moreno Valley CA 92553

Dear ~~Mr.~~ Brad Williams:

Congratulations on your success in forming your partnership with CT&T to establish a Regional Assembly & Sales (RAS) facility to produce electric vehicles at your Moreno Valley facility. Locating the new RAS facility in Moreno Valley provides a strategic site for this new operation and will produce many new quality employment opportunities. As we have discussed, the City of Moreno Valley has several funding opportunities that MVP EV could utilize in starting up the new CT&T operations. The following represents the framework for the City of Moreno Valley's assistance package:

- $107,000 from CDBG-R funding for Economic Incentive for 'Green and Technology Business' that can be used for equipment and facility upgrades
- $107,000 from CDBG-R funding for Utility Infrastructure Improvements
- $100,000 from the CDBG FY 2009/10 Budget for a Job Creation Incentive

A legal agreement will be drafted to spell out the details for the City's funding in conformance with CDBG program standards and requirements. Please note that an Agreement is subject to the consideration and approval of the Moreno Valley City Council.

If you have questions or wish to discuss this matter in greater detail, please feel free to contact me at [redacted] or via email at barryf@moval.org.

Sincerely,

Barry Foster
Economic Development Director

Moreno Valley City Council Update

Funding and Incentive Mechanisms for Alternative Energy

Presented by George Hanson and Ted Flanigan
City Council Study Session
September 15, 2009

MV00233179

Presentation Outline

- MVU's Role in the City
- Energy Efficiency Opportunities
- Solar Incentives
- A Potential New Tool: AB 811 Financing

MV00233180

What's MVU all about?

- Mission: provide reliable, economical, and safe electricity and services for the benefit of the residents of Moreno Valley
- Approximately 5,350 customers
- 4,784 residential customers
- New commercial developments and their requirements (such as Stoneridge w/ Target, Walmart, etc.)
- Municipal buildings as key customer segment

MV00233181

Energy Efficiency Programs, Incentives

- Website recommendations for residents
- Proposed Energy Efficiency Retrofits at City Hall, Police Department, Animal Shelter, Fire Station
- Technical assistance
  - Savings by Design for Stater Brothers (value $31,378)
  - Efficiency program for Val Verde USD (value $60,555)

MV00233182

Solar Program Incentives

- Solar Electric Incentive Program
  - Required by SB 1, State of California
  - Started January 1, 2008, continues for 16 years
- MVU 2008 Solar Special
  - Increased rebate from $2.20 to $4/watt
  - Highest incentive level in State of California
  - Residential participant installed 5.5kW system, received $22,000 rebate
  - Special ended December 31, 2008 (reverted back to $2.20/watt incentive level)

MV00233183

Solar Program Incentives, (Cont'd)

- Commercial and Industrial customers have contacted MVU with plans for significant solar installations
- MVU offers solar rebate and technical assistance
- Current program sets incentive at $100,000 per project

MV00233184

Future Initiatives

Energy Efficiency Programs funded by Public Benefit Funds generate immediate savings and create local, "green" jobs

1. Potential efficiency programs
   - CFL giveaways
   - Residential, commercial "Tune-ups"
   - Enhanced website/educational materials
2. Enhanced solar program
   - Consider adding "solar services" for commercial installs
3. AB 811 Financing

MV00233185

AB 811 Background

1. Assembly Bill 811 was spearheaded by the City of Palm Desert to build on Berkeley's pilot financing district model for solar systems.
2. Amends California Streets and Highways Code; defines permanent energy improvements on private properties as public benefits.
3. Governor Schwarzenegger signed the bill into law as an urgency measure on July 21, 2008.
4. Palm Desert launched AB 811 program Aug 29, 2008.
5. Within a month, over 250 Palm Desert property owners had signed up and the first $2.5 million in 7% loans were made.
6. In Sonoma County, $18 million has been reserved already in a program that launched March 25, 2009.

MV00233186

AB 811 Program Features

Easy for property owners to participate…

- Minimal document means of investing in permanent energy improvements
  - A no money down opportunity
  - 100% of measure costs financed at 7%
  - All you need is a title check and not to be in arrears
- Secured by a lien on the property, assessment repaid over 5 – 20 years.
- Assessment stays with the property if the home or business is sold before the loan is paid off.

MV00233187

Benefits for the City

- Program would be available to entire city – not just MVU.
- Low-cost means of achieving energy and environmental goals.
- Increases "green" activity, creates local jobs.
- Can be completely outsourced, or managed in regional collaborations that lessen costs.
- Can be designed to be zero net cost after two years, then continuing to deliver results at no cost to city or county.

MV00233188

Eligible Equipment: Efficiency fixtures and renewable systems

- Air conditioning and duct zoning
- Pool pumps
- Roof and wall insulation
- White roofs and roof coatings
- Energy-efficient windows, doors, and skylights
- Water heating equipment
- Efficient lighting systems and controls retrofits)
- Building controls
- Motors and controls
- Irrigation pumps and controls
- Solar photovoltaic and solar thermal systems
- Wind and geothermal systems

MV00233189

Program Highlights

- Berkeley
  - Kicked it off, but then went dark
  - Lots of PR but only a handful of installations
  - $1.5 million pilot program, 9-minute sign-up
  - Outsourced to Renewable Funding

- Palm Desert
  - 222 loans
  - $7.5 million reserved, with $3.1 million funded
  - Funded internally initially, now secured by city

MV00233190

Highlights continued

- Sonoma County
  - $100 million funded
  - County Treasury and Water Agency "seed" funds
  - Energy storefront plus extensive outreach
  - $18 million reserved in four and a half months
- Boulder, Colorado
  - Signs up block of reservations before bonding
  - Successful bond sale, taxable and non-taxable
  - Going now to second block of financing

MV00233191

Keeping Up with Developments

- Financing in current market
  - Short term financing
  - Bond market conditions
  - Underwriting standards
  - Judicial Validation
- Current real estate conditions
  - Equity or Loan-to-value ratio requirements
  - Mortgage lender waivers
- Availability of Stimulus Funds

MV00233192

City Options for Considerations

- Go it alone; benefit from "the spread"
  - Finance internally
  - Administer internally
- Outsource to 3rd party
- Join Riverside County program
- Hang on for the CSCDA statewide program

MV00233193

Conclusion

MVU welcomes guidance from the Council on adding to its portfolio of services for the community.

Financial & Administrative Services Department

MEMORANDUM

To: Mayor and City Council ✓

From: Steve Elam, Financial & Administrative Services Director

Date: July 28, 2009

Subject: Position Control Roster by Department & Division

Subsequent to the adoption of the FY 2009-10 Operating Budget, Council requested that Attachment "E" of the budget adoption staff report (City of Moreno Valley Position Control Roster) be provided with positions identified by Department and Division in addition to the benefit group. The attached report is provided in response to this request.

At the next regular City Council meeting, scheduled for August 25, 2009, Council will also receive an updated Position Control Roster that reflects the positions that were defunded in the FY 2009-10 budget.

Should you have any questions or require additional information, please contact me at extension 3024.

CITY COUNCIL
MORENO VALLEY
RECEIVED
09 AUG 26 PM 3:22

MORENO VALLEY
WHERE DREAMS SOAR

Financial & Administrative Services Department

MEMORANDUM

To: Mayor and City Council
Robert G. Gutierrez, City Manager

From: Steve Elam, City Treasurer

Date: August 26, 2009

Subject: Monthly Investment Report – July, 2009

Attached is the Monthly Investment Report (Treasurer's Cash and Investments Report) for the month ended July 31, 2009. All investments comply with California Government Code Section 53601 as to the types of investments allowed and the limits of each type. In addition, all investments comply with the City's annually adopted Investment Policy.

As background information, each quarter the City Council receives a Quarterly Investment Report at a regular City Council meeting. In the two months that fall between these Quarterly Investment Reports, a Monthly Investment Report is submitted to the City Council and City Manager via internal memorandum. This reporting process ensures that the Council and City Manager are kept apprised regarding the City's investments on a monthly basis, and that full public disclosure is made on a quarterly basis.

As reflected in the attached report, the City holds three investments of $1 million each in Lehman Brothers Holdings, Inc. (Lehman), out of a total general investment portfolio of $246 million. As a result of the Lehman bankruptcy filing in September 2008, the City continues to pursue recovery of these investments through both legal and political channels through participation in a consortium of other public agencies that hold Lehman investments or who have a stake is seeing that public agencies receive fair and equitable recovery. The political effort has been spearheaded by Senator Dianne Feinstein, Congresswoman Jackie Speier and Congresswoman Anna Eshoo with the support of the National League of Cities, National Association of Counties, U.S. Conference of Mayors, and the Association of Public Treasurers of the United States and Canada. The House Financial Services Committee held a hearing on May 5, 2009, which builds on the effort begun last fall when amendments were secured in the Economic Stabilization Act of 2008 enabling the Treasury Secretary to use Troubled Asset Relief Program (TARP) funds to assist municipalities. So far, public agencies holding Lehman investments have been identified in 22 states, with loss exposures totaling over $1.8 billion.

Please do not hesitate to contact me should you have questions or need clarification on any information presented in the attached report.

1. I hereby certify that the investments are in compliance with the investment policy adopted by the City Council. There are no items of non-compliance for this period.
2. The market values for the specific investments in the General Portfolio are provided by the City's investment custodian.
3. The market value for LAIF is provided by the State Treasurer.
4. The market values for investments held by fiscal agents and the deferred compensation plans are provided by each respective trustee or fiscal agent.
5. The City has the ability to meet its budgeted expenditures for the next six months pending any future action by City Council or any unforeseen catastrophic event.

Steve Elam
City Treasurer

MORENO VALLEY
WHERE DREAMS SOAR

CITY COUNCIL
MORENO VALLEY
RECEIVED
09 AUG 17 PM 5:11

City Manager's Office
Media and Communications Division

MEMORANDUM

To: Mayor and City Council
Robert G. Gutierrez, City Manager

From: Michelle Dawson, Assistant to the City Manager MD

Date: August 13, 2009

Subject: Legislative Update

The current status of some of the priority bills we are monitoring includes the following:

AB 155 (Mendoza) -- Would create a Local Agency Bankruptcy Committee to approve municipal bankruptcy filings in California. City position: OPPOSE. Passed the Assembly but the author opted out of having this bill voted on by the Senate Committee on Local Government.

AB 774 (Cook) – Grants the Riverside Community College District the transportation fee authority needed to provide funding to enable students to ride free on fixed route buses. City position: SUPPORT. Passed the Senate Committee on Education (9 ayes, 0 noes), to Senate Third Reading file.

AB 1403 (Eng) -- Changes the Southern California Association of Governments' (SCAG) allocation of Transportation Development Act (TDA) sales tax funds to be consistent with the rest of the State's 16 Metropolitan Planning Organizations. City position: SUPPORT. Passed the Senate Committee on Transportation and Housing (9 ayes, 2 noes), to Senate Third Reading file.

ACA 9 (Huffman) – Proposed a Constitutional amendment to change the voter-approval requirement for special taxes to 55%. City position: SUPPORT. In Assembly Suspense file.

The Legislature reconvenes from summer recess on August 17 and September 11 is the last day for any bill to be passed by the Legislature. If you would like additional information on any of the bills included in the attached report please let me know.

Attachment: Legislative Update, August 13, 2009

c: Betsy M. Adams, Assistant City Manager
Rick Hartmann, Deputy City Manager

Bills Monitored by the City of Moreno Valley:
2009-2010 Legislative Session

Private file: MorenoValleyBills

CA AB 3

AUTHOR: Perez V [D]
TITLE: Workforce Development: Renewable Energy
FISCAL COMMITTEE: yes
URGENCY CLAUSE: no
INTRODUCED: 12/01/2008
LAST AMEND: 06/01/2009
DISPOSITION: Pending
COMMITTEE: Senate Appropriations Committee
HEARING: 08/17/2009 10:00 am
SUMMARY:

Requires the Workforce Investment Board to establish a Renewable Energy Workforce Readiness Initiative to ensure green collar career placement and advancement opportunities within the renewable energy manufacturing, construction, installation, maintenance, and operation sectors and provide guidance to local workforce investment boards on assessment, training, and placement programs that reflect the local and regional economies. Provides funding pursuant to the American Recovery and Reinvestment Act of 2009.
STATUS:

07/08/2009 From SENATE Committee on LABOR AND INDUSTRIAL RELATIONS: Do pass to Committee on APPROPRIATIONS.
Position: watch

CA AB 14

AUTHOR: Fuentes [D]
TITLE: Vehicles: Nuisance Abatement: Impoundment
FISCAL COMMITTEE: no
URGENCY CLAUSE: no
INTRODUCED: 12/01/2008
LAST AMEND: 06/29/2009
DISPOSITION: Pending
FILE: 166
LOCATION: Senate Third Reading File
SUMMARY:

Authorizes a city, county or city and county to adopt an ordinance declaring a motor vehicle to be a nuisance subject to an impoundment when the motor vehicle is involved in the commission of any one or more of specified crimes related to prostitution or illegal dumping of commercial quantities of waste matter upon a public or private highway or road under certain conditions.. Requires the ordinance include a notice and the payment of specified fees. Relates to storage facility fee liability.
STATUS:

06/30/2009 In SENATE. Read second time. To third reading.
NOTES: **letter sent 3/20**
Position: **support**

CA AB 18

AUTHOR: Knight [R]
TITLE: Local Government: City Councils
FISCAL COMMITTEE: no
URGENCY CLAUSE: no
INTRODUCED: 12/01/2008
LAST AMEND: 06/10/2009
DISPOSITION: Pending

MV00233221

Bills Monitored by the City of Moreno Valley:
2009-2010 Legislative Session

FILE: 3
LOCATION: Assembly Unfinished Business - Concurrence in Senate Amendments
SUMMARY:

Amends existing law that requires a city council to, within a certain number of days of a vacancy in an elective office, fill that vacancy by appointment or call a special election to fill the vacancy. Increase the number of days in which the city council has to accomplish filling the vacancy.

STATUS:

06/24/2009 In SENATE. Read third time. Passed SENATE. *****To ASSEMBLY for concurrence.
Position: watch

MV00233222

Bills Monitored by the City of Moreno Valley:
2009-2010 Legislative Session

TITLE: State Government: Emergency Management Agency
FISCAL COMMITTEE: yes
URGENCY CLAUSE: no
INTRODUCED: 12/04/2008
LAST AMEND: 03/26/2009
DISPOSITION: Pending
LOCATION: Assembly Governmental Organization Committee
SUMMARY:

Requires the Department of Forestry and Fire Protection, the Office of the State Fire Marshal, the State Board of Fire Services, the Department of the California Highway Patrol, the Office of Traffic Safety, the California Conservation Corps, and the Emergency Medical Services Authority to create a working group to prepare a Governor's Reorganization Plan to transfers the authorities and duties of those departments to the State Emergency Management Agency.
STATUS:

03/26/2009	From ASSEMBLY Committee on GOVERNMENTAL ORGANIZATION with author's amendments.
03/26/2009	In ASSEMBLY. Read second time and amended. Re-referred to Committee on GOVERNMENTAL ORGANIZATION.

Position: watch

CA AB 55

AUTHOR: Jeffries [R]
TITLE: Water Supply Planning
FISCAL COMMITTEE: yes
URGENCY CLAUSE: no
INTRODUCED: 12/04/2008
DISPOSITION: Pending
LOCATION: Assembly Water, Parks and Wildlife Committee
SUMMARY:

Revises the definition of "project" under the California Environmental Quality Act to provide that specified business, commercial, hotel or motel, industrial, manufacturing, and mixed-use developments are within the scope of that definition only if the projected water demand of the development would be equivalent to, or greater than, the amount of water required by a 500 dwelling unit project, as determined by the public water system.
STATUS:

02/05/2009	To ASSEMBLY Committees on WATER, PARKS AND WILDLIFE and LOCAL GOVERNMENT.

Position: watch

CA AB 77

AUTHOR: Jeffries [R]
TITLE: Vehicles: Notice of Delinquent Parking Violation
FISCAL COMMITTEE: yes
URGENCY CLAUSE: no
INTRODUCED: 12/18/2008
DISPOSITION: Pending
LOCATION: Assembly Transportation Committee
SUMMARY:

Requires a parking processing agency to verify that all notices of delinquent parking violations substantially match the corresponding information on the

MV00233223

registration of the vehicle and to cancel the parking violation if the information is not a match. Deletes the requirement that a person provide a written request for cancellation of the parking violation to the parking processing agency.

CA AB 128

AUTHOR: Coto [D]
TITLE: Workers' Compensation: Cancer Presumption
FISCAL COMMITTEE: yes
URGENCY CLAUSE: no
INTRODUCED: 01/16/2009
DISPOSITION: Pending
LOCATION: Assembly Appropriations Committee
SUMMARY:

Amends existing law which establishes a presumption that cancer in cases of firefighters and peace officers is presumed to arise out of, and in the course of, employment, unless the presumption is controverted by evidence that the primary site of the cancer has been established and the carcinogen is not involved in professional exposure. Extends the presumption to a member following termination of service for a period of one year for each full year of the requisite service.

AUTHOR: Liu [D]
TITLE: Local Taxes: Graffiti
FISCAL COMMITTEE: yes
URGENCY CLAUSE: no
INTRODUCED: 02/11/2009
LAST AMEND: 07/15/2009
DISPOSITION: Pending
COMMITTEE: Assembly Appropriations Committee
HEARING: 08/19/2009 9:00 am
SUMMARY:

Relates to existing law that authorizes a city or county to levy a tax on aerosol paint containers or specified felt tip markers. Increases the amount of the tax authorized to be levied under these provisions. Deletes the authorization for the levy of a tax for containers of other marking instruments, felt tip markers, and other marking substances. Requires any jurisdiction implementing a tax to provide retailers of products subject to the tax a display and accessibility option.

MV00233246

The Motion carried unanimously by all members present.

- **Suggested Routes to School** – This involves providing walking maps for all elementary schools within MVUSD and VVUSD. After the maps are approved, they will be distributed to students and parents. This item will be continued to the August TSC meeting.

7.0 Agenda Requests

- ✓ Davis Road
- ✓ SR2S

8.0 Commission and Staff Comments

Vice Chairperson Jeff Sims asked about Indian Avenue. City Traffic Engineer Eric Lewis replied that this item had been discussed at the May TSC meeting; it is working well and no changes are recommended.

9.0 Adjournment

A MOTION was made by Commissioner Wraymond Sawyerr, seconded by Commissioner Miguel Arciniega, to adjourn the meeting.

The Motion carried unanimously by all members present.

The meeting was adjourned.

Respectfully Submitted,

Nancy Foster,
Recording Secretary

Associate Engineer Vincent Tran answered that the studies are not just based upon collisions, but also based on the 85th percentile. The majority of motorists feel comfortable driving at a certain speed. This, too, is taken into consideration.

Vice Chairperson Jeff Sims asked about the posting of speed limits. Associate Engineer Tran replied that the speed limits are posted to the nearest whole number. For example, if the speed limit is 27 mph, it is posted at 25 mph. If the speed limit is 28 mph, it is posted 30 mph.

The speed zone recertifications must be accepted in order to be enforceable by the Moreno Valley Police Department.

A MOTION was made by Commissioner Lawrence Baird, seconded by Commissioner Wraymond Sawyerr, to accept Staff's recommendation that the speed limits in the summary of recertified speed zones be declared as prima facie speed limits and as such, recommended to the City Council.

The Motion carried unanimously by all members present.

6.2 Discussion

- **Web Page Update** – Commissioner Lawrence Baird said that the web page looks super. City Traffic Engineer Eric Lewis also shared that current information has been submitted to Technical Services, and they will work it into the scheme.

- **4th of July Family Festival and Parade** – Mayor Stewart is not keen on riding in a bus. Vice Chairperson Sims has a classic convertible. VVUSD Brian Fountain can provide a banner(s) for either the convertible or the bus; however, he needs the information regarding design and verbiage as soon as possible. A convertible might be more suitable to dignitaries. Vice Chairperson Sims and VVUSD Representative Brain Fountain will meet to discuss more details. Mr. Fountain will inform MVUSD Representative Dave Raley on the outcome of the meeting. Commissioner Frank Pavlik asked if City Council had created a budget for the TSC and costs associated with pamphlets and the tent. Commissioner Lawrence Baird reminded the commissioners that the MVPD had offered a tent. He added that in past years, the Masonic Lodge and the MADD booth had made TSC literature available to those attending the Family Fest. Vice Chairperson Sims believes that the MADD booth overshadowed the TSC last year. He would like the TSC to have a larger presence and message next year. The TSC should also request donations for candy.

- **Meeting in July – A MOTION was made by Commissioner Lawrence Baird, seconded by Commissioner Miguel Arciniega, to cancel the July TSC meeting.**

CVC Section 40802 requires an Engineering and Traffic Survey, as defined in CVC Section 627, be performed when enforcing the speed limit by radar or other electronic devices.

An Engineering and Traffic Survey is based upon the premise that a reasonable speed limit is one that conforms to the behavior of the majority of motorists, and by measuring prevailing speeds, a speed limit is determined that is reasonable and effective. For a speed limit to be effective, at least 85 percent of the drivers must voluntarily comply with the law. Setting speed limits at appropriate levels will create a uniform flow of traffic, discourage violation of the law, and help maintain safe streets and highways. Speed limits are often set below prevailing speeds when other factors otherwise not readily apparent to the driver, exist on the roadway. Factors that need to be considered include, but are not limited to, collision history for the roadway segment, design speed, sight distance constraints, pedestrian / bicycle safety, and direct residential access. Staff has recommended these speed limits accordingly.

The Moreno Valley Police Department submits the following additional information for consideration:

Engineering and Traffic Surveys are critical for the radar enforcement of posted speed limits within the City of Moreno Valley. Additionally, the Riverside County Superior Court magistrate diligently verifies that there are current Engineering and Traffic Surveys on file.

Discussion

Commissioner Lawrence Baird asked what method was used to measure speed. Associate Engineer Tran replied that a radar/laser gun was utilized. The Transportation Engineering Division utilizes the MUTCD, speed zone software, and the 85th percentile. Non-peak hours are usually 9:00 to 10:00 a.m. and 2:00 to 3:00 p.m.

Commissioner Wraymond Sawyerr asked about the location in front of Albertson's, north of Pigeon Pass. Commissioner Baird noted that the traffic signal light has been very helpful (Climbing Rose).

Vice Chairperson Sims asked if the Transportation Engineering Division keeps a rolling average to verify the performance of the traffic signal. Associate Engineer Tran replied that there are before and after studies performed. This traffic signal will be examined again after all of the 2009 data has been received.

Commissioner Frank Pavlik asked why speeds are sometimes reduced if there are no collisions.

Mr. Bleckert mentioned the crooked striping on Indian near Manzanita. It is a mess and 40 mph is too fast.

- Mayor Richard Stewart thanked the commissioners for their service. He read the TSC minutes from the May meeting. Regarding the 4th of July parade, Mayor Stewart believes that as long as candy is treated in a safe and careful manner, there should be no issue. The commissioners might think about walking along the side of the vehicle.

  Mayor Stewart asked if the TSC had an action plan. He also asked about a Pedestrian Safety plan. He sees some pedestrians disregarding traffic laws. He is interested in these topics, in addition to the TSC's annual goals.

  Mayor Stewart spoke briefly on MADD. It is sometimes difficult to run the 4th of July booth alone, and MADD is a good organization to team up with.

  Mayor Stewart would like to see the Traffic Safety Commission pamphlet placed on some of the front counters throughout City facilities.

  Mayor Stewart introduced Council Member Jesse L. Molina, who is the alternate to the Traffic Safety Commissioner. He also mentioned that two TSC terms will be up for re-appointment. There are no interviews held for the appointment of TSC commissioners; however, City Council looks at the applications, attendance records, and TSC Minutes.

  Commissioner Wraymond Sawyerr asked about the Red Light Cameras. Mayor Stewart replied that the City will never get 100% compliance for any traffic law in Moreno alley.

6.0 Traffic Safety Items

6.1 Action

2009-005 Speed Zone Recertifications

Associate Engineer Vincent Tran gave a report on this subject.

The speed zones summary requires re-certification per California Vehicle Code (CVC) Section 40802.

3.0 Approval of Minutes

A MOTION was made by Commissioner Wraymond Sawyerr, seconded by Commissioner Frank Pavlik, to approve the Minutes of May 6, 2009.

The Motion carried, with Vice Chairperson Jeff Sims abstaining.

4.0 Public Hearing

There were no Public Hearing items.

5.0 Public Comments

5.1 This is the time for public comments regarding items on the agenda.

N/A

5.2 This is the time for public comments regarding items not on the agenda.

- Mr. Pete Bleckert is interested in re-opening Davis Road (also known as "History Road.) This road was in the circulation plan in the 1980's. It leads to the Fish and Game and Ducks Unlimited. It takes 26.6 miles to get there from Gilman Springs Road. Mr. Bleckert asked for the TSC's support in this matter.

  Vice Chairperson Jeff Sims replied that he is not prepared to support this matter without background information. Commissioner Wraymond Sawyerr agreed with Mr. Sims.

  City Traffic Engineer Eric Lewis informed those present that this item will be addressed at City Council level. However, the Transportation Engineering Division can add this to the next TSC agenda as a Discussion Item and give the commissioners an update as information becomes available through the City Council meetings.

  Commissioner Lawrence Baird said that Davis Road can be a neat trip to the bird reserve if you like dirt roads.

Financial & Administrative Services Department

MEMORANDUM

To: Mayor and City Council
Robert G. Gutierrez, City Manager

From: Steve Elam, Financial & Administrative Services Director

Date: July 27, 2009

Subject: Fiscal Year-End Audit

The interim audit work for the fiscal year that ended June 30, 2009 began on July 20, 2009. During the audit opening conference, a new auditing standard was discussed by Ken Al-Imam, Shareholder for Mayer Hoffman McCann, the City's current auditing firm.

This new standard provides for auditors to contact those persons responsible for audit oversight to make them aware of the risks to be addressed in the audit process and to give them the opportunity to directly contact the auditors if they are aware of any issues that should be incorporated in the audit risk assessment. The mechanism that Mayer Hoffman McCann uses to solicit such requests is the attached letter. I raised the possibility of having Mr. Al-Imam meet with the Finance Sub-Committee; while he was willing to do so, his preference was to provide the attached letter to the full City Council and City Manager.

If there are no issues that you wish to bring to the auditors' attention with respect to audit risk assessment, no action is required. If you are aware of any issues that should be addressed by the auditors, the contact information for Mr. Al-Imam is provided in the attached letter.

If you have any questions regarding the FY 2008-09 independent audit in general, please do not hesitate to contact me at x3024.

Attachment

c: Ken Al-Imam, Mayer Hoffman McCann P.C.

July 20, 2009

City Council
City of Moreno Valley

Mayer Hoffman McCann P.C. serves as the independent auditor for the City. Auditing standards (*Statement on Auditing Standards No. 114*) recommend that the auditors make those individuals charged with audit oversight aware of the **risks to be addressed by the audit process**. Examples of significant risks to be identified by the audit process are identified on the attached listing.

If you are aware of any other issues that we should factor into our assessment of the risk of material misstatement (such as knowledge of complex or unusual transactions, knowledge of fraud, etc.) please contact the undersigned at [redacted] (extension 273) or at kalimam@cbiz.com.

It is important to remember that the focus of the annual audit is to identify **errors** or **misstatements** that involve **significant amounts** reflected in the year end financial statements of the organization. The costs for requested testing beyond the normal audit scope are billed separately from the normal annual audit.

Sincerely,

MAYER HOFFMAN MCCANN P.C.

Ken Al-Imam, C.P.A.
Shareholder

Examples of Significant Misstatement Risks Addressed by the Audit Process

Year Ended June 30, 2009

Examples of the risks of significant **financial statement error** or **misstatement** that are addressed by the audit process are:

- Risk of material misstatement associated with **cash receipts** and **cash disbursements**: We plan to identify key internal controls and perform tests of those controls to determine if they are operating effectively to reduce the risk of significant error or misstatement.

- Risk of material misstatement associated with **significant assets and liabilities**: We plan to agree recorded balances for significant assets and liabilities to detailed supporting records and documentation.

- Risk of improper **revenue recognition**: We plan to test material accrued revenues for collectability and meeting applicable revenue recognition criteria.

- Risk of improper classification of **expenditures**: We plan to test expenditures for proper fund assignment, proper support, approval, and cut-off.

- Risk of error associated with identifying **capital asset** additions and deletions: We plan to test the internal controls of the Organization to properly identify and record capital asset additions and deletions.

- Risk of material misstatement associated with **investments**: We plan to compare recorded investments to investment statements to test the proper existence, valuation, ownership, and classification of recorded investments. We plan to test recorded investments for issues relating to compliance with the California Government Code and the Organization's investment policy that are required by accounting standards to be disclosed in the financial statements.

- Risk of unallowable transfers between funds: We plan to test material transfers from restricted funds for conformity to legal requirements.

MEMORANDUM

To: Mayor and City Council

From: Robert G. Gutierrez, City Manager

Date: July 20, 2009

Subject: Proposed Budget Calendar for FY 2010-11

Planning efforts are already underway for the FY 2010-11 budget process. The purpose of this memorandum is to provide you with the proposed budget calendar for FY 2010-11 to ensure that it meets with your approval.

Background

The City's FY 2009-10 budget process was compressed into a much tighter timeframe than is usually the case. This was done so that the FY 2008-09 Mid-Year Budget Review could be completed, including a comprehensive update of FY 2008-09 revenue projections and preliminary forecast of FY 2009-10 revenues. The FY 2009-10 preliminary revenue forecast provided the basis for the departmental savings targets that were incorporated in the FY 2009-10 budget development guidelines. The FY 2008-09 Mid-Year Budget Review was presented to Council on February 24, 2009; the FY 2009-10 budget kick-off meeting with departments was held the following week, on March 5, 2009.

Starting the FY 2009-10 budget process in early March represented a two-month delay from the City's usual budget calendar. However, the process was more targeted than previous budgets, as departments were able to concentrate on achieving predetermined savings targets, rather than submitting budgets that would almost certainly have to be reduced after their submittal in order to balance expenditures with revenues. This approach also enabled the Budget Review Committee to focus on how the departmental savings targets were achieved, with particular emphasis on service level impacts that would result from required staffing reductions. Had this approach not been utilized, the General Fund budget deficit of $6.3 million that was reflected in the initial Proposed Budget would have been nearly twice that amount and would have been much more difficult to balance.

Because of the intentionally delayed start to the FY 2009-10 budget process, the timeframe for Council review was also compressed. Following is a comparison of key dates for Council review and discussion during the budget process for FY 2009-10 versus the previous fiscal year.

Action	FY 2008-09 Budget	FY 2009-10 Budget
Council Member Budget Briefings	Week of May 5, 2008	Weeks of May 25 & June 1, 2009
Initial Budget Presentation	May 13, 2008	June 9, 2009
Budget Discussion	May 27, 2008	June 16, 2009
Continued Budget Discussion	June 10, 2008	June 23, 2009
Budget Adoption	June 24, 2008	June 30, 2009

Proposed Budget Calendar for FY 2010-11

As a result of Council feedback that the FY 2009-10 budget process was too compressed and did not allow enough time for discussion, the budget calendar for FY 2010-11 has been revised. Following are the proposed dates that pertain to City Council involvement in the budget process:

- Distribution of Proposed Budget — April 27, 2010
- Council Member Budget Briefings — May 4-6, 2010
- Initial Budget Presentation — May 11, 2010
- Budget Discussion — May 18, 2010 (Study Session)
- Continued Budget Discussion — May 25, 2010
- Continued Budget Discussion — June 8, 2010
- Continued Budget Discussion — June 15, 2010 (Study Session)
- Budget Adoption — June 22, 2010
- Back-up Budget Adoption (if needed) — June 29, 2010

A three-month calendar depicting the above dates is also attached for your convenient reference.

Since we continue to be in very uncertain economic times, compounded by erratic State actions impacting local governments, it should be pointed out that accelerating the budget process to allow for additional Council review time will increase the likelihood of revenue updates and other budget adjustments between initial submittal of the Proposed Budget and final budget adoption. However, provided that such adjustments are acceptable to Council, staff will meet the accelerated schedule shown above.

In addition to accelerating the budget process to allow additional time for Council review and discussion, the *Supplemental Budget Information by Department* that was included with the June 30, 2009 budget staff report will be incorporated in the initial Proposed Budget so that Council has ample time to review and discuss this information prior to budget adoption.

If you have any questions or concerns regarding the proposed budget calendar for FY 2010-11, please let me know. Otherwise, we will proceed with the FY 2010-11 budget planning process based on this calendar.

MEMORANDUM

To: Mayor and City Council
Robert G. Gutierrez, City Manager

From: Michelle Dawson, Assistant to the City Manager MD

Date: July 9, 2009

Subject: Legislative Update

The current status of some of the priority bills we are monitoring includes the following:

AB 155 (Mendoza) -- Would create a Local Agency Bankruptcy Committee to approve municipal bankruptcy filings in California. City position: OPPOSE. Passed the Assembly on June 6 (47 ayes, 25 noes), assigned to the Senate Committee on Local Government.

AB 774 (Cook) – Grants the Riverside Community College District the transportation fee authority needed to provide funding to enable students to ride free on fixed route buses. City position: SUPPORT. Passed the Assembly on May 14 (73 ayes, 0 noes), to Senate Committee on Education, where it passed with 9 – 0 on June 17.

AB 1403 (Eng) -- Changes the Southern California Association of Governments' (SCAG) allocation of Transportation Development Act (TDA) sales tax funds to be consistent with the rest of the State's 16 Metropolitan Planning Organizations. City position: SUPPORT. Passed the Assembly on May 11 (79 ayes, 1 no), referred to Senate Committee on Transportation and Housing, where it passed 9 – 2 on June 23.

September 11 is the last day for any bill to be passed by the Legislature. If you would like additional information on any of the bills included in the attached report please let me know.

Attachment: Legislative Update, July 9, 2009

MORENO VALLEY
WHERE DREAMS SOAR

Financial & Administrative Services Department

MEMORANDUM

To: Robert G. Gutierrez, City Manager

From: Steve Elam, Financial & Administrative Services Director

Date: July 8, 2009

Subject: Consideration of Parking Citation Amnesty Program

RECOMMENDED ACTION

Following an inquiry from Mayor Stewart and subsequent analysis, staff recommends that the City not implement a Parking Citation Amnesty Program, but instead refer all unpaid parking citations issued prior to January 1, 2007 to the City's collection agency for additional collection efforts.

BACKGROUND

The City's Code & Neighborhood Services Division (Code) is generally responsible for issuing citations for parking violations that occur within the City. The billing and collection functions related to these citations are currently performed by DataTicket Inc., which took over the contract from E-Tech in January 2006. DataTicket is a citation processing vendor that provides billing services but does not provide the same type of services that are provided by a traditional collection agency.

The following steps represent the typical parking citation issuance, billing and collection cycle:

- Citations are issued and collected by Code staff and then bundles of citations are sent to DataTicket for processing.
- DataTicket sends out notices to the cited party for a period of three months.
- After three months, a hold is issued on open accounts with the California Department of Motor Vehicles (DMV). In order to register a vehicle, the cited party must pay the parking citation along with the registration to remove the hold. A DMV hold remains in place for two years.
- After an additional two months and some additional noticing requirements, the Franchise Tax Board (FTB) is notified and any tax refund due to a cited party can be intercepted.

- Claims to the FTB against tax refunds can only be placed on accounts for three years.
- Accounts that are placed on DMV hold and/or sent to FTB have a relatively high collection rate.
- Cases do occur where collection happens through both DMV and FTB; when that occurs, the cited party is issued a refund.
- Due to the above DMV and FTB collection processes, it has been the City's practice to not utilize a traditional collection agency and pay their fee, which is typically 20% of the amount collected.

DISCUSSION

Mayor Stewart recently inquired if an amnesty program might be beneficial in generating additional collection activity related to unpaid parking citations. Other jurisdictions have utilized these types of programs, as have some federal agencies such as the Internal Revenue Service. Typically these programs work best when they are offered as one-time events. If these types of programs are offered as ongoing events, they tend to undermine the collectability ratios and actually provide an incentive to delay or avoid payment.

To provide the data necessary to perform an analysis of the collection activity related to parking citations, DataTicket and City staff developed a report that has divided accounts into four groups. This report has been included as an attachment. In this analysis the date of January 1, 2007, is used as the measurement point as it represents the approximate cut-off point where the collection options provided by DMV and FTB are exhausted. The term "account" is used throughout this memo and, for this purpose, is considered synonymous to an issued citation.

The first group in the analysis (Category A) captures accounts for citations issued after January 1, 2007, which have not yet been sent to DMV or FTB. These accounts are relatively young and are going through the collection letter process, as they have not yet met the criteria to go to DMV or FTB. This group represents 38,945 citations with a total original citation amount of $2,425,170 and late penalties of $316,278, for a total receivable balance of $2,741,448. To date, payments totaling $1,724,504 have been received related to this group, which represents a collection rate of 63% of the receivable balance and payment on 76% of the citations issued.

The second group in the analysis (Category B) captures accounts for citations issued after January 1, 2007, in which the accounts were referred to DMV or FTB for collection. This group represents 23,569 citations with an original citation amount of $1,581,415 and late penalties of $1,077,956, for a total receivable of $2,659,371. To date, payments for accounts in this group have totaled $1,226,493, which represents a collection rate of 46% of the receivable balance and payment on 49% of the citations issued. It is expected that the paid accounts in this group will increase as the City continues to receive payments from the FTB and DMV.

The next two groups in the analysis (Categories C & D) capture accounts that were issued before January 1, 2007, and which were sent to DataTicket from E-Tech, who was the prior company that processed citations for the City. These accounts are relatively old and collection efforts have been exhausted. Any additional collection activity on these accounts is highly unlikely. The total open or unpaid accounts in this group are 16,316 open citations for a receivable balance of $1,095,560. In a high-level review of these accounts to try to identify reasons why they remain open, the apparent causes fit into one of the following categories:

- Scofflaws: they are repeat offenders who do not pay their citations. They may be avoiding DMV collection by not maintaining a current driver's license and/or vehicle registration. They may be avoiding FTB collection by not qualifying for a State tax refund or may not be filing a tax return at all.
- Out-of-state plates: DMV cannot place a hold, nor can they be sent to FTB.
- Trailers: DMV will not place a hold on a trailer, which appears to be a significant part of this population.

To put these numbers into perspective, and to make a recommendation relating to an amnesty program, the following factors should be considered:

- Historically, the accounts that have yet to be sent to DMV or FTB, or the newer accounts that have been submitted to DMV or FTB (Categories A & B), achieve a relatively good collection rate. To include these accounts in an amnesty program may actually serve to reduce the revenue collected from these accounts. Therefore, based on the data provided in the attached analysis, these accounts are not recommended for consideration in an amnesty program.

- The older accounts (Categories C & D), where DMV hold or FTB referral could not be made, or where collection activities have been exhausted, are the population recommended for consideration in an amnesty program.
    - The penalty component related to the open accounts in this group is $344,593, or approximately 31% of the outstanding receivable balance. If an amnesty program was offered equal to the penalty amount, the City would still collect the full citation amount.
    - The drawbacks that are anticipated with the population in this group are as follows:
        - Due to the age of the accounts, any address information on the account may be outdated.
        - Due to what appears to be a high ratio of Scofflaw/Out-of-state/Trailer accounts, it is uncertain how effective any collection activity will ultimately be.

Staff has discussed with DataTicket their ability to send out notifications for an amnesty program to a targeted population, such as based on account age; DataTicket has indicated it would be possible for them to do so. DataTicket's fee for sending out the notifications to the 16,316 open accounts in Categories C & D would be $1.50 per

notice ($24,474) plus 15% of the collections. This solution is not recommended, as it would cost the City nearly $25,000 in up-front expense, without any guarantee of breaking even, especially with the 15% of collections to be retained by DataTicket. As an alternative, amnesty notifications could be sent out through a bulk mail service vendor, which would be less expensive than DataTicket. Preliminary cost estimates from bulk mail service vendors indicate that they could generate the letters for approximately $1.00 each, or $16,300 total. This option would be preferable, in that it would reduce the up-front expense and the City would also retain the full amount of payments received rather than having DataTicket retain a 15% fee. However, the downside of utilizing a bulk mail service vendor is the amnesty letters are expected to generate a significant number of phone calls, which would require staff time. This would present a workload challenge given the 36% staffing reduction in the Treasury Operations and Financial Operations Divisions that has been implemented over the past year in order to achieve the necessary budget reductions. Another alternative would be to refer all uncollected citations issued prior to January 1, 2007 to the City's collection agency, Money Control, who would retain 20% of any amounts collected. This would add another layer of collection effort but would not result in any up-front expense for the City.

To obtain additional data on the effectiveness of parking citation amnesty programs, information was obtained through the Government Finance Officers Association (GFOA). GFOA's data indicates that most amnesty programs in U.S. cities have collected between 2% and 3% of the outstanding citation balance, with the most successful programs collecting 5%. Based on this information, even if Moreno Valley offered an amnesty program that turned out to be highly successful, we would expect to collect less than $38,000 as shown below:

	Cost Recovery at Following Percentages			
	2%	3%	4%	5%
Outstanding balance of citations issued prior to 1/1/2007 ($1,095,560) minus penalties ($344,593) = $750,967 *	$15,019	$22,529	$30,039	$37,548

* Penalties would be waived per the amnesty program.

Based on the above information, if the City utilized a bulk mail service vendor, an amnesty program would only break even if collections exceeded 2%; and would be only marginally cost-effective including staff time, even at the higher recovery rates. Rather than risking $16,300 in up-front cost with no certainty of recovering this amount, referring the unpaid citations issued prior to 1/1/2007 to the City's collection agency for additional collection action is believed to be the best alternative for the City.

ALTERNATIVES

1. Adopt a Parking Citation Amnesty Program which offers a one-time waiver of the penalty amount on unpaid citations issued prior to 1/1/2007, utilizing the City's contracted citation processing vendor (DataTicket) to administer the program.

The up-front cost of this program would be approximately $25,000, with DataTicket retaining a 15% fee on all collections.

2. Adopt a Parking Citation Amnesty Program which offers a one-time waiver of the penalty amount on unpaid parking citations issued prior to 1/1/2007, with staff administering the program but utilizing a bulk mail service vendor to print and mail the amnesty notices. The up-front cost of this program would be approximately $16,300, but the City would retain the full amount of all collections. Additional staff time would be required for this alternative, compared with Alternative No. 1, which would present workload challenges considering that the Treasury Operations and Financial Operations Divisions have reduced staffing by 36% over the past year to achieve budgetary savings.

3. Do not adopt a Parking Citation Amnesty Program but assign unpaid citations issued prior to 1/1/2007 to the City's collection agency for additional collection efforts. There would be no up-front cost associated with this option, however, the collection agency would retain 20% of all collections.

4. Do not adopt a Parking Citation Amnesty Program and do not assign unpaid citations issued prior to 1/12007 to a collection agency.

The Financial & Administrative Services Department recommends Alternative No. 3, as it is believed to be the most-cost effective alternative and does not risk the loss of City funds (unbudgeted) on collection efforts that may be unsuccessful.

SUMMARY

The City issues citations to parties who are in violation of the City's Parking Ordinance. The collection activity related to parking citations has been contracted to DataTicket Inc., who sends out invoices to offenders as well as utilizing both Department of Motor Vehicles (DMV) holds and Franchise Tax Board (FTB) referrals in an effort to collect on delinquent accounts. Staff reviewed the collection characteristics related to approximately 230,000 citations with a total citation amount of $11,156,347 and total late payment penalties of $3,414,759, which resulted in a total amount receivable of $14,571,106. The study population was divided into the following aging categories:

- Category A: Citations issued since 1/1/2007 and not yet sent to the DMV or FTB. (Collection rate of approximately 63%)
- Category B: Citations issued since 1/1/2007 and referred to FTB and DMV. (Collection rate of approximately 46%)
- Categories C & D: Citations issued before 1/1/2007. (Collection rate of approximately 47%)

Based on these aging profiles, as well as information obtained from the Government Finance Officers Association (GFOA) on parking citation amnesty programs

implemented by cities throughout the U.S., staff believes the implementation of an amnesty program is unlikely to be cost-effective and does not warrant the up-front expenditure of between $16,300 and $25,000 to send out a mass mailing to over 16,000 parking violators, many of whom are likely to reside at different addresses than when the parking citation was issued. Instead, staff recommends that parking citations issued prior to 1/1/2007 be referred to the City's collection agency for additional collection efforts. The collection agency would retain 20% of the amount collected but the City would not incur any up-front cost. Referral of uncollected parking citations over three years old would continue to be referred to the collection agency on an ongoing basis.

Please let me know if you have any questions regarding this Parking Citation Amnesty Program analysis, and if you would like me to schedule a meeting with Mayor Stewart to review the results and staff's recommendation.

Audit Report

ANIMAL ADOPTION PROGRAM

Chapter 752, Statutes of 1998,
and Chapter 313, Statutes of 2004

July 1, 2001, through June 30, 2007

JOHN CHIANG
California State Controller

June 2009

MV00233293

JOHN CHIANG
California State Controller

June 30, 2009

The Honorable Richard A. Stewart
Mayor of the City of Moreno Valley
14177 Frederick Street
Moreno Valley, CA 92553

Dear Mayor Stewart:

The State Controller's Office audited the costs claimed by the City of Moreno Valley for the legislatively mandated Animal Adoption Program (Chapter 752, Statutes of 1998, and Chapter 313, Statutes of 2004) for the period of July 1, 2001, through June 30, 2007.

The city claimed $1,692,150 for the mandated program. Our audit disclosed that $122,938 is allowable and $1,569,212 is unallowable. The costs are unallowable primarily because the city claimed unsupported costs. The State paid the city $610,412. The amount paid exceeds allowable costs claimed by $487,474.

If the city performs a valid time study and projects the results to the audit period, we will review the results and revise the final report, as appropriate.

If you have any questions, please contact Jim L. Spano, Chief, Mandated Cost Audits Bureau, at [redacted]

Sincerely,

JEFFREY V. BROWNFIELD
Chief, Division of Audits

Audit Report

Summary

The State Controller's Office (SCO) audited the costs claimed by the City of Moreno Valley for the legislatively mandated Animal Adoption Program (Chapter 752, Statutes of 1998, and Chapter 313, Statutes of 2004) for the period of July 1, 2001, through June 30, 2007.

The city claimed $1,692,150 for the mandated program. Our audit disclosed that $122,938 is allowable and $1,569,212 is unallowable. The costs are unallowable primarily because the city claimed unsupported costs. The State paid the city $610,412. The amount paid exceeds allowable costs claimed by $487,474.

Background

Food and Agriculture Code sections 31108, 31752-31753, 32001, and 32003 (added and amended by Chapter 752, Statutes of 1998) attempted to end the euthanasia of adoptable and treatable animals. It expressly identifies the state policy that "no adoptable animal should be euthanized if it can be adopted into a suitable home" and that "no treatable animal should be euthanized." The legislation increases the holding period for stray and abandoned dogs, cats, and other specified animals. It also requires public or private shelters to:

- Verify the temperament of feral cats;
- Post lost-and-found lists;
- Maintain records for impounded animals; and
- Ensure that impounded animals receive necessary and prompt veterinary care.

On January 25, 1981, the Commission on State Mandates (CSM) determined that Chapter 752, Statutes of 1998, imposed a state mandate reimbursable under Government Code section 17561.

The program's parameters and guidelines establish the state mandate and define reimbursement criteria. CSM adopted the parameters and guidelines on February 28, 2002, corrected them on March 20, 2002, and last amended them on January 26, 2006. In compliance with Government Code section 17558, the SCO issues claiming instructions to assist local agencies and school districts in claiming mandated program reimbursable costs.

For fiscal year (FY) 2003-04, the Legislature suspended the Animal Adoption Program.

MV00233297

Objective, Scope, and Methodology

We conducted the audit to determine whether costs claimed represent increased costs resulting from the Animal Adoption Program for the period of July 1, 2001, through June 30, 2007.

Our audit scope included, but was not limited to, determining whether costs claimed were supported by appropriate source documents, were not funded by another source, and were not unreasonable and/or excessive.

We conducted this performance audit under the authority of Government Code sections 12410, 17558.5, and 17561. We did not audit the city's financial statements. We conducted the audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

We limited our review of the city's internal controls to gaining an understanding of the transaction flow and claim preparation process as necessary to develop appropriate auditing procedures.

Conclusion

Our audit disclosed instances of noncompliance with the requirements outlined above. These instances are described in the accompanying Summary of Program Costs (Schedule 1) and in the Findings and Recommendations section of this report.

For the audit period, the City of Moreno Valley claimed $1,692,150 for costs of the Animal Adoption Program. Our audit disclosed that $122,938 is allowable and $1,569,212 is unallowable.

For the FY 2001-02 claim, the State made no payment to the city. Our audit disclosed that $31,047 is allowable. The State will pay allowable costs claimed that exceed the amount paid, totaling $31,047, contingent upon available appropriations.

For the FY 2002-03 claim, the State made no payment to the city. Our audit disclosed that $172 is allowable. The State will pay allowable costs claimed that exceed the amount paid, totaling $172, contingent upon available appropriations.

For the FY 2004-05 claim, the State paid the city $177,149. Our audit disclosed that $45,640 is allowable. The State will offset $131,509 from other mandated program payments due to the city. Alternatively, the city may remit this amount to the State.

MV00233298

For the FY 2005-06 claim, the State paid the city $184,470. Our audit disclosed that $26,112 is allowable. The State will offset $158,358 from other mandated program payments due the city. Alternatively, the city may remit this amount to the State.

For the FY 2006-07 claim, the State paid the city $248,793. Our audit disclosed that $19,967 is allowable. The State will offset $228,826 from other mandated program payments due the city. Alternatively, the city may remit this amount to the State.

Views of Responsible Official

We issued a draft audit report on May 13, 2009. Steve Fries, Animal Services Division Manager, responded by letter dated May 29, 2009 (Attachment), noting that Findings 1 and 2 in the audit report could be subject to change pending the city's completion of a time study. The city did not respond to Findings 3 and 4. This final audit report includes the city's response.

Restricted Use

This report is solely for the information and use of the City of Moreno Valley, the California Department of Finance, and the SCO; it is not intended to be and should not be used by anyone other than these specified parties. This restriction is not intended to limit distribution of this report, which is a matter of public record.

MV00233301

Findings and Recommendations

FINDING 1— Unallowable salaries and benefits

The city claimed $888,527 in unsupported salaries and benefits, and $11,397 in duplicated one-time costs for the audit period. The related indirect costs totaled $376,268.

The salaries and benefits costs are unsupported because the city provided only unsigned and undated forms, prepared after the end of each fiscal year, which estimated the time spent annually on reimbursable activities. The city's mandate consultant provided the city with the forms that were completed with estimated annual time. In addition, the city claimed $11,397 for fiscal year (FY) 2004-05 that was previously claimed for FY 2001-02.

During the audit, we discussed the inadequate documentation with the city and its option of performing a time study to substantiate unsupported salaries and benefits. We provided the city a copy of the SCO time-study guidelines to assist them in developing the time study.

The following table summarizes the unallowable salaries and benefits:

	Fiscal Year					
	2001-02	2002-03	2004-05	2005-06	2006-07	Total
Salaries and Benefits						
One-time costs:						
Policies and procedures	$ —	$ —	$ (3,296)	$ —	$ —	$ (3,296)
Training	—	—	(8,101)	—	—	(8,101)
Subtotal	—	—	(11,397)	—	—	(11,397)
Ongoing costs:						
Holding period	(2,087)	(2,231)	(34,244)	(37,092)	(63,065)	(138,719)
Feral cats	(13,281)	(15,970)	(2,404)	(5,723)	(6,358)	(43,736)
Lost-and-found list	(61,686)	(82,595)	(2,047)	(2,041)	(2,039)	(150,408)
Non-medical records	(167,903)	(202,851)	—	(51,482)	(49,843)	(472,079)
Necessary and prompt veterinary care	(40,394)	(43,191)	—	—	—	(83,585)
Subtotal	(285,351)	(346,838)	(38,695)	(96,338)	(121,305)	(888,527)
Total salaries and benefits	(285,351)	(346,838)	(50,092)	(96,338)	(121,305)	(899,924)
Indirect costs	(150,636)	(164,953)	(8,811)	(23,034)	(28,834)	(376,268)
Audit adjustment	$ (435,987)	$ (511,791)	$ (58,903)	$ (119,372)	$ (150,139)	$ (1,276,192)

The program's parameters and guidelines require the claimant to trace claimed costs to source documents that show evidence of, and the validity of, such costs.

Recommendation

We recommend that the city maintain source documents that support the actual time employees spend to perform mandate-related activities.

MV00233302

City's Response

> The Animal Services Division understands the Division of Audits will reevaluate the submitted salaries and benefits costs upon completion of the time study currently being conducted by the Animal Services Division. The $899,924 in unsupported salaries and benefits could be subject to an adjustment based upon the results of the time study.

SCO's Comments

The finding and recommendation remain unchanged.

The SCO will review the time study currently being conducted by the city and will revise the audit finding as appropriate.

FINDING 2— Unsupported costs related to care and maintenance of dogs, cats, and other animals

The city claimed $196,716 in unsupported materials and supplies related to the Care and Maintenance of Dogs and Cats cost component, and $15,709 in materials and supplies related to the Care and Maintenance of Other Animals cost component for the audit period. The entire cost is unallowable.

The formula for care and maintenance of dogs, cats, and other animals divides total costs by the daily animal census to produce a cost per animal per day. The product is multiplied by the number of dogs, cats, and other animals that were euthanized and the number of reimbursable holding days.

For FY 2001-02, FY 2002-03, and FY 2005-06, the city provided worksheets that stated the amount of costs claimed for materials and supplies for care and maintenance of dogs, cats, and other animals. However, the city did not provide a detailed breakdown of the components claimed for care and maintenance and the worksheets provided by the city did not support the costs claimed. In addition, the city claimed the same costs in FY 2002-03 as it did for FY 2001-02 with no support documentation.

For FY 2004-05 and FY 2006-07, the city provided worksheets that stated the amount of costs claimed for materials and supplies for care and maintenance of dogs, cats, and other animals. The city also provided detailed worksheets that identified the care and maintenance cost related to salaries, benefits, indirect costs, and materials and supplies. However, the city did not provide time records or invoices to support costs claimed. Furthermore, the city only claimed materials and supplies costs.

During the audit, we discussed the inadequate documentation with the city and its option of performing a time study consistent with the program's parameters and guidelines to substantiate unsupported salaries and benefits. We agreed to review the results of the time study and revise the final audit report, as appropriate.

MV00233303

The following table summarizes the unallowable costs related to care and maintenance of dogs, cats, and other animals:

	Fiscal Year					
	2001-02	2002-03	2004-05	2005-06	2006-07	Total
Materials and Supplies						
Care and maintenance of dogs and cats	$(36,937)	$(36,937)	$(61,061)	$(25,082)	$(36,699)	$ (196,716)
Care and maintenance of other animals	—	—	(5,765)	(1,923)	(8,021)	(15,709)
Audit adjustment	$(36,937)	$(36,937)	$(66,826)	$(27,005)	$(44,720)	$ (212,425)

The parameters and guidelines require the claimant to trace claimed costs to source documents that show evidence of, and the validity of, such costs.

The parameters and guidelines state that the increased holding period for dogs and cats is the difference between four or six business days from the day after impoundment and three days from the day of capture. The parameters and guidelines state that the increased holding period for other animals is four or six business days. Four rather than six business days are applicable since the shelter was open on one weekend day. (See Food and Agricultural Code sections 31108, 31752, and 31753.)

The parameters and guidelines exclude reimbursement for the care and maintenance of the following animals:

- Stray or abandoned animals that are irremediably suffering from a serious illness or severe injury;
- Newborn stray or abandoned animals that need maternal care and have been impounded without their mothers;
- Stray or abandoned animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal;
- Owner relinquished animals; and
- Stray or abandoned animals that are ultimately redeemed, adopted, or released to a nonprofit animal rescue or adoption organization.

The parameters and guidelines require that a time study used for the care and maintenance of dogs, cats, and other animals be developed using, at a minimum, one represented month each quarter and be supported with actual source documents.

Recommendation

We recommend that the city maintain source documents that support mandate-related costs.

MV00233304

City's Response

> Results of the time study being conducted by the Animal Services Division could result in a revision in the final audit report. The $212,425 of unsupported costs could as well be subject to an adjustment based upon the results of the time study.

SCO's Comments

The finding and recommendation remain unchanged.

The SCO will review the time study currently being conducted by the city and will revise the audit finding as appropriate.

FINDING 3— Unsupported necessary and prompt veterinary care

The city claimed $33,967 in unsupported materials and supplies for FY 2006-07; $62,717 in unsupported contract services for FY 2001-02, FY 2004-05, and FY 2005-06; and $83,585 in unsupported salaries and benefits for FY 2001-02 and FY 2002-03 related to the Necessary and Prompt Veterinary Care cost component. The adjustments for unsupported salaries and benefits and related indirect costs are reported in Finding 1.

The city claimed costs for necessary and prompt veterinary care for stray and abandoned animals during the holding period. The holding period for dogs, cats, and other animals is four business days (see Finding 2). The parameters and guidelines identify veterinary procedures that are and are not reimbursable and the population of animals that is not reimbursable. The city provided only invoices that identified contractor hours and rates; the contractor invoices did not provide detail as to services provided. Consequently, we were unable to determine the reimbursable portion.

The following table summarizes the unallowable materials and supplies and contract services:

	Fiscal Year				
	2001-02	2004-05	2005-06	2006-07	Total
Necessary and Prompt Veterinary Care					
Materials and supplies	$ —	$ —	$ —	$(33,967)	$ (33,967)
Audit adjustment	$ —	$ —	$ —	$(33,967)	$ (33,967)
Contract services	$(27,867)	$(22,869)	$(11,981)	$ —	$ (62,717)
Audit adjustment	$(27,867)	$(22,869)	$(11,981)	$ —	$ (62,717)

The parameters and guidelines also state that claimant must trace claimed costs to source documents that show evidence of, and the validity of, such costs.

The parameters and guidelines state that reimbursable costs exclude injured cats and dogs that are given emergency treatment and that die during the holding period or are ultimately euthanized.

MV00233305

The parameters and guidelines specified the following veterinary procedures that are reimbursable:

- An initial physical examination of the animal to determine the animal's baseline health status and classification as "adoptable," treatable," or "non-rehabilitatable."
- A wellness vaccine administered to "treatable" or "adoptable" animals.
- Veterinary care to stabilize and/or relieve the suffering of a "treatable" animal.
- Veterinary care intended to remedy any applicable disease, injury, or congenital or hereditary condition that adversely affects the health of a "treatable" animal or that is likely to adversely affect the animal's health in the future, until the animal becomes "adoptable."

The parameters and guidelines state that the following veterinary procedures are not reimbursable:

- Emergency treatment given to injured cats and dogs;
- Administration of rabies vaccination to dogs;
- Implantation of microchip identification; and
- Euthanasia.

The parameters and guidelines identify the following population of animals that is not reimbursable:

- Animals that are irremediably suffering from a serious illness or severe injury;
- Newborn animals that need maternal care and have been impounded without their mothers;
- Animals too severely injured to move or where a veterinarian is not available and it would be more humane to dispose of the animal; and
- Stray or abandoned animals that are ultimately redeemed, adopted, or released to a non-profit animal rescue or adoption organization.

Recommendation

We recommend that the city ensure that all claimed costs are supported by appropriate documentation and at the level required by the parameters and guidelines.

City's Response

The city did not respond to this finding.

MV00233306

FINDING 4— Understated procuring equipment

The city understated materials and supplies by $16,089 for FY 2004-05 related to procuring equipment cost component. The city provided the auditor with documentation supporting this amount. However, it inadvertently omitted the amount when preparing the filed claim.

The parameters and guidelines state that procuring medical, kennel, and computer equipment necessary to comply with the reimbursable activities listed in section IV(B), to the extent the costs are not claimed as an indirect cost shall be reimbursed.

The following table summarizes the understated equipment:

	Fiscal Year 2004-05
Materials and Supplies	
Allowable equipment	$ 29,098
Less claimed equipment	(13,009)
Audit adjustment	$ 16,089

Recommendation

We recommend that the city ensure that all eligible costs are claimed.

City's Response

The city did not respond to this finding.

May 29, 2009

Jim L. Spano, Chief
Mandated Cost Audits Bureau
Division of Audits
California State Controller's Office
Post Office Box 942850
Sacramento, CA 94250-5874

Subject: City of Moreno Valley Audit Report – Animal Adoption Program; July 1, 2001 to June 30, 2007

Dear Mr. Spano:

A review of the draft audit report for the Animal Adoption Program from the period of July 1, 2001 to June 30, 2007 was performed by the Animal Services Division.

In regards to Finding 1, the Animal Services Division understands the Division of Audits will reevaluate the submitted salaries and benefits costs upon completion of the time study currently being conducted by the Animal Services Division. The $899,924 in unsupported salaries and benefits could be subject to an adjustment based upon the results of the time study.

Likewise with regards to Finding 2, results of the time study being conducted by the Animal Services Division could result in a revision in the final audit report. The $212,425 of unsupported costs could as well be subject to an adjustment based upon the results of the time study.

Denise Raymond, Animal Services Office Supervisor will remain in contact with Curt Chiesa, Auditor, regarding Animal Services Division's progress with the time study.

Sincerely,

Steve Fries
Animal Services Division Manager

July 1, 2009

John Hawkins, Riverside County Fire Chief
California Department of Forestry and Fire Protection
210 W. San Jacinto Avenue
Perris, CA 92570

Subject: Service Levels for the Moreno Valley Fire Department

Dear Chief Hawkins,

On April 22, 2009, I notified you that the City faced the possibility of reducing the fire protection services provided by the County of Riverside to the City. The formal adoption of the budget on June 30, 2009 by City Council officially reduced the number of fire personnel by four (4) positions. The positions to be eliminated are:

- 1 Fire Captain
- 1 Fire Apparatus Engineer
- 2 Firefighter II's

Please modify the services the City contracts for by these four (4) positions. Please contact Steve Curley at [redacted] should you have any questions.

Sincerely,

Robert G. Gutierrez
City Manager

MEMORANDUM

To: Mayor and City Council

From: John C. Terell, Planning Official
via Kyle A. Kollar, Community Development Director

Date: June 29, 2009

Subject: Western Realco Business Park

The Western Realco Business Park is a warehouse industrial project proposed for the southeast corner of Heacock St. and Iris Ave. in the Moreno Valley Industrial Area Specific Plan. The proposed project includes 1,484,000 square feet in 4 buildings (largest 1,103,000 square feet) on a 67-acre site. The Planning Commission held a public hearing on the project on December 4, 2008, and subsequently recommended approval of the project by the City Council. The City Council public hearing on the development has been delayed a number of times at the request of either the applicant or City Council. The hearing is currently scheduled for August 27, 2009.

The project requires City Council review due to a proposed amendment to the General Plan Circulation Element to realign and downgrade Krameria Ave. between Indian St. and Heacock St. This requested change is supported by a traffic study prepared by the applicant and reviewed and approved by the Transportation Engineering Division. All other aspects of the project comply with the City's General Plan and Municipal Code development standards. The project is consistent with the Moreno Valley Industrial Area Specific Plan that has been in place since 1989. The environmental impact report prepared for the Specific Plan anticipated the development of warehouse and industrial projects similar to the WR project.

The project has undergone substantial environmental review to study air quality, traffic and other potential impacts of the proposal. The final design of the project separates truck bays and truck routes from sensitive uses. The design and project conditions of approval lower the potential impacts of the project to a less than significant level. An environmental determination of a mitigated negative declaration is recommended for the project.

During the review of another warehouse industrial proposal, the Highland Fairview Corporate Park (HFP) , the Western Realco project was raised as a project similar in nature. While both projects include a large amount of warehouse industrial building space, they differ in a variety of ways due to their size, location and design. The HFP project is substantially larger at 2,620,000 square feet on 158 acres. The HFP project includes a zone change to permit the proposed project. The HFP project is also adjacent to residential zoning (east and south) and includes truck routes along these same boundaries. The design and mitigation of the HFP project, though substantial, was unable to reduce the potential impacts to a less than significant level, and therefore an environmental impact report was required with findings to override the potentially significant impacts of that project.

Attached are two documents. The first document is a staff-prepared matrix comparing various mitigation measures for the HFP and WR projects. Most of the mitigation measures are similar. A number of mitigation measures were not applied to the WR project given its lower level of impacts based on its size, location and design. The second document is an applicant-prepared matrix responding to concerns expressed by Raymond Johnson, an attorney involved in the HFP project litigation. Staff concurs with responses that generally reflect that concerns were studied and addressed or that the concerns do not apply to the WR project given its level of impacts, design and location.

Kyle A. Kollar, Community Development Director

Mitigation Measures – Highland Fairview	Conditions of Approval – Western RealCo	Draft Mitigation Measures – Western RealCo
MM AQ-2. The project applicant shall meet CARB standards by assuring use of lowest emission construction equipment reasonably available for use on this project. The construction fleet average shall meet or exceed Tier II level and the applicant shall provide incentives in the bidding process in selecting construction contractors that propose the lowest-emission construction equipment (i.e., high pressure injectors; smaller engine sizes; electric equipment; gasoline powered equipment with catalytic converters; and alternatively fueled construction equipment). The applicant shall also provide incentives in the bidding process in selecting grading and construction contractors that propose the use of equipment using Level III diesel particulate filters.	**The Western Realco site has sensitive receptors (residential zoning and existing homes) to the northeast (the northeast corner of the site is within the 300 foot Proximity to Residential Buffer Area) - opposite from the prevailing wind; the project design set back the truck bays a total of approximately 500 feet from sensitive receptors and routed truck traffic away from receptors. The air quality study indicated that project emissions were below significance thresholds. Project does not include night time grading.** **The Highland Fairview site has existing and potential future sensitive receptors to the east, southeast, south and southwest, areas mostly in the direction of prevailing winds, and trucks are only able to traverse roads immediately adjacent to existing and future sensitive receptors. The HFP project has a mandated setback of approximately 440 from its southern boundary to any sensitive receptor. The air quality study demonstrated that the project emissions exceeded significance thresholds. This and many other**	**MM AQ-2.** The project applicant shall ensure that construction equipment is properly maintained, including proper tuning and timing of the engines. **MM AQ-4.** Utilize alternatives fuels in construction equipment and require construction equipment to utilize the best available technology to reduce emissions or provide evidence that it is prohibitively expensive. **MM AQ-9.** Use alternative fuels and measures to maximize fleet efficiency for vehicles that will serve the proposed project on a frequent basis (e.g. forklifts, switcher tractors/ hostelling units) or provide evidence that it is prohibitively expensive.

MV00233313

	mitigation measures were offered and necessary to minimize the impacts. Project includes night time grading. **Several conditions and mitigation measures address this issue, though not to the same level, as it would the project impacts are expected to be less than those of HFP.** **P33. Use low emission mobile construction equipment and utilize existing power sources whenever feasible.** **P34. Maintain construction equipment engines by keeping them tuned.** **P35. Use low sulfur fuel for stationary construction equipment (required by SCAQMD Rules 431.1 and 431.2).** **P49. Maintain equipment and vehicle engines in good condition and in proper tune as per manufacturers' specifications.** **P50. Encourage the use of alternative clean fuel such as compressed natural gas-powered equipment with oxidation catalysis instead of diesel powered engines, or if diesel**	

MV00233314

	equipment has to be used, encourage use of particulate filters, oxidation catalysts and low sulfur diesel as defined in AQMD Rule 431.2, i.e., with less than 15 ppm sulfur content. **P52. Use low-sulfur diesel fuel with particulate traps whenever feasible.** **P53. Use alternative-fueled yard tractors or other off-road equipment whenever feasible.**	
MM AQ-4. During project construction, the project applicant shall require all contractors to turn off all construction equipment and delivery vehicles when not in use or. prohibit idling in excess of five (5) minutes.	**Issue covered.** **P47. Restrict idling emissions by using auxiliary power units/electrification and prohibit idling in excess of 5 minutes.**	
MM AQ-5. Prior to issuance of a grading permit, the project applicant shall provide a traffic control plan to the City of Moreno Valley that will describe in detail safe detours around the project construction site with temporary traffic control (e.g., flag person) during construction-related truck hauling activities, as required by the City. Construction activities that affect traffic flow on the arterial system shall be	**Issue covered** **P36. Configure construction parking to minimize traffic interference.** **P37. The Traffic Control Plan required by Transportation Engineering shall include the following:** **a. Develop a traffic plan to**

	service equipment and docking of trucks.	
MM AQ-14. Electrical hookups shall be provided for transport refrigeration units within the Commercial component (Phases II and III) to eliminate the need for idling of diesel-powered transport refrigeration units.	**Issue covered** **P56. Provide electrical sources for service equipment and docking of trucks.**	
MM AQ-15. The project applicant shall include in all new lease documents the requirement that the tenants shall utilize only trucks using refrigeration units capable of utilizing electrical hook-ups for deliveries to the tenant.	**Issue not covered - in contrast to HFP project, impacts not significant**	
MM AQ-16. The project applicant shall encourage its tenants to do the following: have a compressed workweek schedule for its employees; include electric powered and/or compressed natural gas fueled trucks and/or vehicles in fleets; require or provide incentives to use California Air Resources Board certified particulate filters that meet level III requirements; use "clean" trucks, such as 2007 or newer model year or 2010 compliant; use electric yard trucks; use trucks with a SmartWay 1.25 rating; and electrify auxiliary power units. The applicant shall provide documentation of its efforts to the satisfaction of the City.	**Issue partially covered - in contrast to HFP project, impacts not significant**	**MM AQ-9.** Use alternative fuels and measures to maximize fleet efficiency for vehicles that will serve the proposed project on a frequent basis (e.g. forklifts, switcher tractors/hostelling units) or provide evidence that it is prohibitively expensive.
MM AQ-17. The project shall be designed such that the check-in point for trucks is inside the facility property to ensure that there are no trucks	**Issue partially covered – there is no potential for queuing near sensitive receptors as would be the**	

MV00233322

queuing outside the facility.	**case with HFP.** **P47. Restrict idling emissions by using auxiliary power units/electrification and prohibit idling in excess of 5 minutes.**	
MM AQ-19. Prior to the Issuance of Occupancy Permits, written evidence shall be provided to the Planning and Transportation Engineering Divisions that the project applicant shall include in all new lease documents the requirement that the tenant shall provide employees with incentives for carpooling or impose a parking fee.	**Issue not covered - in contrast to HFP project, impacts not significant**	
MM AQ-20. The property owners association shall maximize use of electrical equipment for landscape maintenance.	**Issue not covered - in contrast to HFP project, impacts not significant**	
MM BR-3. A pre-construction clearance survey for burrowing owl shall be provided. The pre-construction survey shall be conducted by a qualified biologist no more than thirty (30) days prior to any grading or ground disturbing activities. If construction is to be initiated during the breeding season (February 1 through August 31) and burrowing owl is determined to occupy any portion of the study area during the 30-day pre-construction survey, consultation with the CDFG and USFWS shall take place and no construction	**Issue covered** **P12. A focused Burrowing Owl preconstruction survey needs to be conducted within 30 days prior to the initiation of any ground disturbances. If a Burrowing Owl is found present on the project site, the protocol of the Multi Species Habitat Conservation Program shall be followed.** **P66. If construction is to commence**	**MM BIO-1 & 5.** A pre-construction clearance survey for burrowing owl shall be conducted within the development footprints and a 500-foot buffer. A qualified biologist shall conduct the pre-construction survey no more than thirty (30) days prior to any grading or ground disturbing activities.

MV00233323

activity shall take place within 500 feet of an active nest/burrow until it has been determined that the nest/burrow is no longer active, and all juveniles have fledged the nest/burrow. No disturbance to active burrows shall occur without appropriate permitting through the MBTA and/or CDFG. If active burrowing owl burrows are detected outside the breeding season (September through January), or within the breeding season but owls are not nesting or in the process of nesting, passive relocation may be conducted following consultation with the CDFG and USFWS. Construction activity may occur within 500 feet of the active nests at the discretion of the biological monitor.	**during the raptor breeding season (January 15–July 30), a preconstruction survey for nesting raptors will be required three days prior to ground disturbance. No construction activities may occur within 500 feet of an active raptor nest unless the activity has been authorized by a qualified biologist as having no potential to interfere with nesting activity or until the biologist determines that the nest is no longer active.** **P67. A pre-construction burrowing owl survey will be conducted within the development footprint and a 500-foot buffer within 30 days of grading or other significant site disturbance.**	**MM BIO-2.** If construction is to commence during the raptor breeding season (January 15-July 30), a preconstruction survey for nesting raptors will be required three days prior to ground disturbance. No construction activities may occur within 500-feet of any active raptor nest unless a qualified biologist as having no potential to interfere with nesting activity has authorized the activity or until the biologist determines that, the nest is no longer active. **MM LU-1.** A pre-construction clearance survey for burrowing owl shall be conducted within the development footprints and a 500-foot buffer. A qualified biologist shall conduct the pre-construction survey no more than thirty (30) days prior to any grading or ground disturbing activities.
MM BR-4. Prior to issuance of a building	**Issue covered**	

MV00233324

permit, the applicant shall pay the mandatory mitigation fee for the MSHCP. The mitigation fee is a per unit fee based on the residential development and a per square feet fee based on commercial or industrial development. This will satisfy mitigation required for Impact 5.4-5 and 5.4-6.	**P23. (BP) Prior to issuance of building permits, the developer or developer's successor-in-interest shall pay all applicable impact fees, including but not limited to Transportation Uniform Mitigation fees (TUMF), Multi-species Habitat Conservation Plan (MSHCP) mitigation fees, and the City's adopted Development Impact Fees. (Ord)**	
MM N-2. No Nighttime Grading within 1,200 Feet of Residences south of Future Eucalyptus Avenue. City grading hours are from 7 a.m. to 6 p.m., Monday through Friday. No grading activities shall occur at night (8 p.m. to 7 a.m.) within 1,200 feet from any noise-sensitive land uses (i.e. occupied residences including yard areas, schools, etc.) located south of SR-60 (Exhibit 5.11-6 shows the current location of occupied residences). **Prior to the issuance of a grading permit, the project applicant shall submit a Noise Reduction Compliance Plan (NRCP) to the City as part of the grading permit submittal showing the limits of nighttime construction based on the location of occupied residential dwellings and their associated parcels, and other noise sensitive**	**Issue not covered - no night time grading is proposed as part of Western Realco project. No significant noise impacts were identified, therefore no mitigation plan required.**	

MV00233325

uses. The limits of nighttime grading shall be shown on the NRCP and grading plan submitted to the City. The limits of construction allowed at night shall be staked or posted on site, and contractors will be provided with a copy of the plan showing the limits of nighttime construction. In the event any new residential units or other noise sensitive land uses are built and occupied in the vicinity of the project site prior to completion of Phase 1 construction, nighttime construction and grading activities shall be prohibited within 1,200 feet of such residences. Compliance shall be demonstrated through a modification of the NRCP. With the implementation of this mitigation measure, the loudest noise level that would be experienced at any developed residential parcel would be less than 55 dBA (Leq) during the nighttime, and this level would be consistent with the limits established in the City's Noise Ordinance. Compliance with these standards during Phase 1 construction of the project should be assured through the Noise Reduction Compliance Plan (NRCP) and periodic monitoring of noise levels at developed residential parcels within 1,200 feet of the project site.		
MM N-3. Daytime Construction Noise. City grading hours are from 7 a.m. to 6 p.m.,	**Issue covered – sensitive receptors are located away from major site construction**	**MM N-1&2**

MV00233326

Monday through Friday. If project site grading activities must occur within 560 feet of noise-sensitive land uses during the daytime (7 a.m. to 8 p.m.), then temporary sound barriers of sufficient height and density to reduce daytime noise levels to 60 dBA (Leq) or less shall be placed between the grading activities and the noise-sensitive land uses. Prior to the issuance of a grading permit, the developer shall submit a NRCP to the City as part of the grading permit submittal showing the limits of daytime construction based on the 560 foot setback in relation to the location of occupied residential dwellings and their associated parcels and other noises sensitive uses. In the event any new residential units or other noise sensitive land uses are built and occupied in the vicinity of the project site prior to completion of Phase 1 construction, the NRCP shall be modified to show a the revised new 560 foot setback for day time construction and grading activities in relation to the new residences. With the implementation of this mitigation measure the loudest noise level that would be experienced at any developed residential parcel would be less than 60 dBA (Leq) during the daytime, and these levels would be consistent with the limits established in the City's Noise	**and away from construction routes.**	• All noise-producing construction equipment and vehicles using internal combustion engines will be equipped with mufflers, air-inlet silencers where appropriate, and any-other shrouds, shields, or other noise reducing features in good operating condition that meets or exceeds original factory specifications. Mobile or fixed "package" equipment (e.g., arc welders, air compressors) will be equipped with shrouds and noise control features that are readily available for that type of equipment. • Materials stockpiles and mobile equipment staging, parking, and maintenance areas will be located as far as practicable from adjacent residential development.

MV00233327

Ordinance. Compliance with these standards during Phase 1 construction of the project should be assured through the NRCP and periodic monitoring of noise levels at developed residential parcels within 560 feet of the project site. This mitigation measure does not apply to off-site construction.		• Construction site and access road speed limits will be established and enforced during the construction period. The Public Works Department has a standard condition of approval regarding the public nuisance aspect of the construction activities. The construction operations including building related activities and deliveries shall be restricted to Monday through Friday from 6:00 AM to 8:00 PM, excluding holidays, and from 7:00 AM to 8 PM on weekends and holidays, in accordance with City Municipal Code 8.14.040, unless otherwise extended or shortened by the City Engineer or Building Official.
MM N-4. Require Equipment Maintenance. All construction equipment shall be maintained in good working order and fitted with the appropriate silencers, mufflers or acoustic covers where applicable.	**Issue covered** **P49. Maintain equipment and vehicle engines in good condition and in proper tune as per manufacturers' specifications.**	**MM AQ-2.** The project applicant shall ensure that construction equipment is properly maintained, including proper tuning and timing of the engines.

MV00233328

MM GCC-1. The project shall be designed to meet applicable 2008 Title 24 energy efficiency requirements, or any more stringent requirements that may be adopted prior to the issuance of building permits for the project.	**Issue covered** **P38. Improve thermal integrity of the buildings and reduce thermal load with the use of automated time clocks or occupant sensors.** **P39. Install energy efficient street lighting subject to review and approval by City.** **P40. If applicable, waste heat will be captured and reemployed in nonresidential buildings.** **P42. Provide lighter color roofing and road materials to deflect heat and if feasible, tree planting programs, to comply with AQMP Miscellaneous Sources MSC-01 measure.** **P57. Install solar panels on building roof to supply electricity for office use.** **P58. Use double paned windows to reduce thermal loss, and/or provide high performance glass and window coverings at office areas to reduce HVAC loads.**	

MV00233329

	P59. Install central water heating systems and energy efficient appliances to reduce energy consumption.	
MM GCC-2. All buildings shall be designed with "cool roofs" using products certified by the Cool Roof Rating Council, and exposed roof surfaces shall use "cool paints."	**Issue partially covered - in contrast to HFP project, impacts not significant** **P42. Provide lighter color roofing and road materials to deflect heat and if feasible, tree planting programs, to comply with AQMP Miscellaneous Sources MSC-01 measure.**	**MM AQ-8.** Use light-colored roof materials to reflect heat.
MM GCC-3. The project shall install a photovoltaic array (solar panels) or other source of renewable energy generation on-site, or otherwise acquire energy from the local utility that has been generated by renewable sources, to meet the project's Phase 1 office electricity needs.	**Issue covered** **P57. Install solar panels on building roof to supply electricity for office use.**	
MM GCC-4. The design and operation of the project shall use ENERGY STAR-qualified energy efficient products for heating and cooling systems, and for built-in appliances and lighting.	**Issue covered** **P59. Install central water heating systems and energy efficient appliances to reduce energy consumption.**	
MM GCC-6. The project shall provide a minimum of two electric vehicle-charging	**Issue not covered - in contrast to HFP project, impacts not significant**	

MV00233330

stations.		
MM GCC-7. During onsite construction phases of mass grading, fine grading, and building (excluding asphalt paving, trenching, and offsite improvements), off-road construction equipment shall use biodiesel fuel (a minimum of B20, or 20 percent of biodiesel). Construction equipment exempt from this measure include those with warranties that would be voided if B20 biodiesel fuel is used. Prior to issuance of grading permits, the applicant shall provide documentation to the City that verifies that certain equipment are exempt; that a biodiesel supply has been secured; and that the construction contractor is aware that the use of biodiesel is required.	**Issue partially covered - in contrast to HFP project, impacts not significant**	**MM AQ-4.** Utilize alternatives fuels in construction equipment and require construction equipment to utilize the best available technology to reduce emissions or provide evidence that it is prohibitively expensive. **MM AQ-9.** Use alternative fuels and measures to maximize fleet efficiency for vehicles that will serve the proposed project on a frequent basis (e.g. forklifts, switcher - tractors/hostelling units) or provide evidence that it is prohibitively expensive.
MM GCC-8. Prior to issuance of a grading permit, the project shall have in place a City-approved Solid Waste Diversion and Recycling Plan that demonstrates the diversion and recycling of all salvageable and re-useable wood, metal, plastic and paper products used during project construction. A similar Plan shall be in place prior to occupancy that demonstrates the diversion and recycling of all wood, metal, plastic and paper products during on-going operation of the warehouse and office portions of	B4. (BP) Prior to the issuance of a building permit, the applicant shall submit a properly completed "Waste Management Plan" (WMP), as required, to the Compliance Official (Building Official) as a portion of the building or demolition permit process.	

MV00233331

the project. The Plans shall include the name of the waste hauler, their assumed destination for all waste and recycled materials, and the procedures that will be followed to ensure implementation of this measure.		
MM GCC-9. The project shall be certifiable under Leadership in Energy and Environmental Design (LEED). The project shall obtain the following credits from the LEED for New Construction & Major Renovations, version 2.2 (or equivalent): Sustainable Sites Credit 7.1: Heat Island Effect, Non-Roof; LEED Energy & Atmosphere Credit 1, Optimize Energy Performance, in part through installing skylights and utilizing energy efficient lighting. Demonstration of certifiability shall be provided to the satisfaction of the City, prior to the issuance of building permits.	**Not covered - in contrast to HFP project, impacts not significant**	
MM GCC-10. The project shall be designed to accommodate trucks utilizing "SmartWay Truck Efficiency" emission reduction features. Trailer tails (extenders) are incompatible with loading docks and are exempt from this measure.	**Not covered - in contrast to HFP project, impacts not significant**	
MM GCC-11. Every truck that enters the site with a gross vehicle weight rating over 10,000 pounds shall have an Engine Certification Label. If it does not have the label, it shall be prohibited from entering the project site.	**Not covered - in contrast to HFP project, impacts not significant.**	

MV00233332

Western Realco Response Sheet
March Business Center
City of Moreno Valley, CA
June 17 2009

PROJECT DESCRIPTION

COMMENT	RESPONSE
Project Description Comments	
The Project Description is inadequate, only identifying the number of employees in the first phase of the project. There is no discussion of the number of employees anticipated for the second phase	As stated on Page 3-34 of the Mitigated Negative Declaration (MND) it identifies the projected employment for the entire project of 2,486 jobs, based on Southern California Association of Governments (SCAG) information.
There is no discussion of the subsequent phases of the project, including required parking, project entrances or building location.	The MND, which is included by reference to the Staff Report, identifies parking for the entire project, and Figure 2-5 depicts the project entrances and building locations. Also see page 3-39 (Transportation/Traffic 15.f) which addresses parking. Based upon the City parking requirements the project total will require 587 parking spaces. The total provided parking will be 699 spaces.

AGRICULTURE IMPACTS

COMMENT	RESPONSE
The NEGATIVE DECLARATION is deceptive and is inadequate as an informational document. The document fails to clearly identify the major long term irreversible commitment of resources caused by the Project. Agricultural Resources:	The initial study has indicated that the proposed project requires a mitigated negative declaration and not simply a negative declaration. A mitigated negative declaration is the commonly used CEQA term to describe a project that results in significant impact which can be mitigated through various methods to less than significant. All of the mitigation is included and discussed in the document. Thus, all the impacts of the proposed project as identified in the MND are less than significant with mitigation incorporated. The project is located within the Moreno Valley Industrial Specific Plan zoned for industrial uses. Furthermore, the project is located on land that is vacant and not currently used for agricultural purposes. Since there are no existing agriculture uses for conversion, major long term irreversible commitment of Agriculture Resources do no apply.
The Negative Declaration acknowledges that it will have a significant impact on agricultural resources. According to the threshold adopted in the General Plan EIR, this project exceeds the thresholds of significance. The NEGATIVE DECLARATION states that there is no feasible mitigation measure for this impact. We disagree with this statement and propose the following mitigation measures:	Based on the City of Moreno Valley General Plan Final Program EIR dated July 2006 under Agriculture Resources the following pertains to the Thresholds of Significance: For purposes of the EIR, a significant impact would occur if implementation of the proposed project would meet any of the follow three significance criteria. • Convert Prime Farmland, Unique Farmland,

MV00233333

	or Farmland of Statewide Importance (Farmland) to non-agriculture uses • Conflict with existing zoning for agriculture use, or a Williamson Act contract; or • Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland to non-agriculture use. Based on review of The California Department Conservation and Figure 5.8.1 of the City of Moreno Valley General Plan Program Final EIR, 22 acres of the project site is designated as Farmland of Local Importance. Therefore, the existing land is not designated as Prime Farmland, Unique Farmland, or Farmland of Statewide importance. In addition, the land is not under a Williamson Act contract. Furthermore, the project does not conflict with existing zoning, since the existing zoning is industrial. Finally the site is currently vacant and is not under active farming. Since the project site does not meet the significant criteria as identified above there is no impact to Agriculture Resources as fully disclosed on page 3-6 of the MND.
PROPOSED MITIGATION MEASURE: Developer shall purchase an equal acreage of agricultural land in western Riverside County to compensate for the loss of acreage by the proposed buildings, parking lots, and roads. Satisfactory arrangements shall be made to ensure the perpetual use of this mitigation land for active agricultural purposes such as conveyance to an agricultural land conservancy.*	As identified above and on page 3-6 of the MND there is no impact to Agriculture Resources. Per CEQA, mitigation is not required when it is determined there are no impacts or impacts that are less than significant. Therefore, the proposed mitigation measure is not required nor incorporated into the final document.
There is no reason why mitigation lands must be purchased in the City of Moreno Valley. The impacts are not to the City of Moreno Valley but rather to the County of Riverside and the State of California. Similar measures have been used throughout California and other states.1 In addition to mitigating impacts to agricultural resources, the mitigation would also be effective mitigation for global warming impacts.	As identified above and on page 3-6 of the MND there is no impact to Agriculture Resources. Therefore the purchase of mitigated lands is not required in the City of Moreno Valley, the County of Riverside, or elsewhere.
AIR QUALITY	
COMMENT	**RESPONSE**
The air quality analysis fails to consider cumulative impacts. Most notably the cumulative impacts of the operational phase of the project combined with future construction phases. For SCAQMD thresholds of significance, the Project will exceed VOC, NO_X, PM_{10} and $PM_{2.5}$ thresholds for project specific and cumulative impacts. During operation, the Project will exceed VOC, NO_X, PM_{10} and $PM_{2.5}$ thresholds, for project specific and cumulative impacts, during all phases. The Project will exceed the threshold of significance for cancer risk for all	The air quality analysis includes cumulative impacts. As discussed on page 3-7 and 3-11 of the MND, the SCAQMD's approach for assessing cumulative impacts is based on AQMP forecasts of attainment of ambient air quality standards in accordance with the requirements of the Federal and State Clean Air Acts. The proposed project would be consistent with the AQMP, which is intended to bring the Basin into attainment for all criteria pollutants. Furthermore, the mass regional

operational phases for nearby receptors. Additionally, the Diesel Health Risk Assessment failed to consider the impact of adding daily diesel truck trips to FREEWAYS and sensitive users adjacent to FREEWAYS. Additionally, the analysis does not consider the addition of the proposed Project to the existing diesel contaminants on FREEWAYS. The following mitigation measures are suggested to mitigate the air quality impacts of the project: The following mitigation measures are suggested to mitigate the air quality impacts of the project: 1. All restaurants and food or beverage stores shall provide an electrical hookup for refrigeration units on delivery trucks. Trucks incapable of utilizing the electrical hookup for powering refrigeration units shall be prohibited from accessing the site. All leasing documents shall include these requirements and provide that violation of those provisions will constitute a material breach of the lease that will result in the termination of the lease. Because of the fact that these terms of the lease are designed to benefit the public, the public shall be considered to be a third party beneficiary with standing to enforce the requirements of the lease.* 2. All project entrances shall be posted with signs which state: . . . " 3. When materials are transported off-site, all material shall be covered, effectively wetted to limit visible dust emissions, or at least six inches of freeboard space from the top of the container shall be maintained. 4. Gravel pads must be installed at all access points to prevent tracking of mud onto public roads. 5. Install and maintain track out control devices in effective condition at all access points where paved and unpaved access or travel routes intersect. 6. All roadways, driveways, sidewalks, etc., to be should be completed as soon as possible. In addition, building pads should be laid as soon as possible after grading unless seeding or soil binders are used. 7. Pave all roads on construction sites. 8. Limit fugitive dust sources to 20 percent opacity. 9. Require a dust control plan for earthmoving operations. 10. The contractor or builder shall designate a person or persons to monitor the dust control program and to order increased watering, as necessary, to prevent transport of dust offsite. 11. Post a publicly visible sign with the telephone number and person to contact regarding dust complaints. This person shall respond and take corrective action with in 24 hours. 12. Install high pressure injectors on diesel construction equipment.*	emissions calculated for the proposed project (and discussed further below) are less than the applicable SCAQMD daily significance thresholds, which are designated to assess the region in attaining the applicable state and national ambient air quality standards. As such, air quality cumulative impacts would be less than significant. Based on Table 3.1 (Phase I Construction) and Table 3.2 (Phase 2 Construction) of the MND, the ROC, NOx CO, Sox, PM10 and PM2.5 all fall below the thresholds of significance. Based on Table 3-6 (Estimate of Operation-Period Localized (Onsite) Emission) of the MND, the NOx, CO, PM10,and PM2.5 do not exceed the thresholds of significance as determined by SCAQMD Daily Significance Thresholds (lbs/day). Based on Table 3-7 *(Annual DPM Concentration and Cancer Risk Values) for resident maximum exposure and school maximum exposure the estimated cancer risks will not exceed the hazard (Thresholds) Index. Since none of the impacts exceed the threshold of significance, no mitigation is required.

13. Restrict engine size of construction equipment to the minimum practical size.* 14. Use Electric construction equipment where technically feasible.* 15. Substitute gasoline-powered for diesel-powered construction equipment.* 16. Use f alternatively fueled construction equipment, using, e.g., compressed natural gas, liquefied natural gas, propane, or biodiesel.* 17. Implement activity management techniques including a) development of a comprehensive construction management plan designed to minimize the number of large construction equipment operating during any given time period; b) scheduling of construction truck trips during non-peak hours to reduce peak hour emissions; c) limitation of the length of construction work-day period; and d) phasing of construction activities.* 18. Install catalytic converters on gasoline-powered equipment.* 19. Minimize construction worker trips by requiring carpooling and providing for lunch onsite.* 20. Use electricity from power poles rather than temporary diesel power generators.* 21. Alternative diesel fuels exist that achieve PM10 and NOx reductions. PuriNOx is an alternative diesel formulation that was verified by CARB on January 31, 2001 as achieving a 14% reduction in NOx and a 63% reduction in PM10 compared to CARB diesel. It can be used in any direct-injection, heavy-duty compression ignition engine and is compatible with existing engines and existing storage, distribution, and vehicle fueling facilities. Operational experience indicates little or no difference in performance and startup time, no discernable operational differences, no increased engine noise, and significantly reduced visible smoke. 22. Electrical powered equipment should be utilized in-lieu of gasoline-powered engines where technically feasible.* 23. Prior to the issuance of a grading and building permit, the applicant shall submit verification that a ridesharing program for the construction crew has been encouraged and will be supported by the contractor via incentives or other inducements.* 24. Require each user to establish a carpool/vanpool program.* 25. Provide on-site child care or contribute to off-site child care within walking distance.* 26. Provide preferential parking for carpool/vanpool vehicles.* 27. Provide secure, weather-protected bicycle parking for employees.* 28. Provide direct safe, direct bicycle access to adjacent bicycle routes.*	

29. Provide showers and lockers for employees bicycling or walking to work.* 30. Short-term bicycle parking for retail customers and other non-commute trips.* 31. Connect bicycle lanes/paths to city-wide network.* 32. Design and locate buildings to facilitate transit access, e.g., locate building entrances near transit stops, eliminate building setbacks, etc.* 33. Construct transit facilities such as bus turnouts/bus bulbs, benches, shelters, etc.* 34. Provide shuttle service to food service establishments/commercial areas.* 35. Provide shuttle service to transit stations/multimodal centers.* 36. Implement parking fee for single-occupancy vehicle commuters.* 37. Implement parking cash-out program for non-driving employees.* 38. Provide direct, safe, attractive pedestrian access from project to transit stops and adjacent development.* 39. Implement a compressed workweek schedule.* 40. Provide electrical vehicle ("EV") and compressed natural gas ("CNG") vehicles in vehicle fleets.* 41. Install EV charging facilities for a minimum of 10% of all parking spaces.* 42. Install a CNG fueling facility.* 43. Provide preferential parking locations for EVs and CNG vehicles.* 44. Utilize electrical equipment for landscape maintenance.* 45. Utilize only CARB certified equipment for construction activities.* 46. All forklifts shall be electric or natural gas powered.* 47. Provide subsidies or incentives to employees who use public transit or carpooling, including preferential parking.* 48. Plant shade trees in parking lots to provide minimum 50% cover to reduce evaporative emissions from parked vehicles.* 49. Utilize low pressure sodium fixtures for exterior lighting including parking lots. 50. Utilize electric yard trucks.* 51. All buildings shall be constructed to LEED Platinum standards.* 52. The Project shall meet Smart Way 1.25 ratings.* 53. The project shall use only freight companies that meet Smart Way 1.25 ratings.* 54. Extend grading period sufficiently to reduce air quality impacts below a level of significance	
Many of the existing mitigation measures are uncertain and unenforceable. Measures using language such as "encourage" simply are not certain of mitigating impacts, they are speculative at best. There is no analysis to show that the mitigation measures proposed for mitigating	Based on Table 3-7 *(Annual DPM Concentration and Cancer Risk Values) for resident maximum exposure and school maximum exposure the estimated cancer risks will not exceed the hazard (Thresholds) Index. Therefore, mitigation is not

cancer risk will actually cause any reduction in cancer risk, let alone a significant reduction. For instance the requirement for electrical hookup for refrigeration units is meaningless when the main project will not require the use of refrigeration units. Similarly, the signage requirements would not appear to apply to entrances to the commercial facilities.	required to reduce cancer risk.
NOISE	
COMMENT	**RESPONSE**
The noise analysis fails to consider that noise is cumulative and that noise from one source is additive to that from other existing sources. Also, the NEGATIVE DECLARATION makes the statement that noise from FREEWAYS will mask construction noise. This is incorrect. Noise is additive, with each noise adding to the total noise pressure. This phenomenon is easily noted at any sporting event. There is a difference in the noise level generated by one screaming person when compared to the combined voices of 60,000 screaming fans.	The MND considers the cumulative effects of noise impacts. The Noise analysis in Appendix E: Noise Analysis Report and Section 11a of the MND discusses offsite traffic noise for existing conditions, and 2012 and General Plan Build Out design-year conditions with and without the project at noise sensitive uses. The 2012 "with" project analysis would not result in significant impacts; therefore, under General Plan Build Out "with" project conditions, the noise levels generated by the proposed project would not result in significant impacts. The "without" project analysis includes for all projects that would occur without the proposed project and an ambient growth factor. The "with" project includes the "without" project conditions and additional traffic caused by the proposed project. Therefore, cumulative conditions are included in both the "with" and "without" project noise analysis as presented in the MND. The MND makes no statement that noise from freeways will mask construction noise. Refer to noise section of the MND, pages 3-28 through 3-33. The project itself is separated from the nearest freeway (I-215) by March Air Force Base. Therefore, no mention of freeway noise was made nor is it necessary. Construction will be limited as required by the City Noise Ordinance. Although noise is additive, it is not additive in a linear fashion. As described on pages 1 to 3 in Appendix E: Noise Analysis Report for March Business Center Project, a logarithmic scale is used to measure noise, in terms of decibels (dB). Under the decibel scale, a doubling of sound energy corresponds to a 3-dB increase. In other words, when two identical sources are each producing sound of the same loudness, the resulting sound level at a given distance would be 3 dB higher than one source under the same conditions. For example, if one automobile produces a noise measurement of 70 dB when it passes a receiver, two cars passing simultaneously at equal distance from the observer would not produce 140 dB—rather, they would combine to produce 73 dB. Under the decibel scale, three sources of equal

	loudness together produce a sound level 5 dB louder than one source. Therefore the addition of on (1) noise source of equal sound pressure level will result in a cumulative noise increase of 3 dB. The addition of other noise sources of equal level will result in an increase of lessening amounts, i.e. 3 noise sources; 5 db, 4 noise sources; 6 dB.
The mere fact that noise exceedances will only be "temporary" does not change the fact that impacts exceed the established thresholds of significance and remain a significant impact. The following mitigation measures should be adopted: 1. Provide double glazing for all residents adjacent to or immediately across the street from the project. 2. Provide temporary noise barriers during project construction. 3. Trucks should be prohibited from using entrances and exits after the hours of 7:00 p.m. and on Sundays. 4. No generators shall be allowed.* 5.	The City's noise ordinance exempts the noise levels of construction activities of the City's Noise Standard provided that such activities take place between the hours of 7:00 am and 8:00pm. Construction of the proposed project will be limited as required by the City Noise Ordinance; therefore, impacts from construction noise would be less than significant. Additionally, based on Table 3-8 and the discussion of construction noise on page 3-29, 30 there would be no impact to sensitive receptors that are in proximity to the construction activities. Furthermore, The project will not exceed the Threshold of Significance for Modeled Traffic Noise Levels at Noise Sensitive Receptors (Table 3-9). Although construction noise impacts were determined to be less than significant per the City's noise ordinance, construction mitigation measures were proposed as part of the MND to reduce construction noise levels where they may be loud and disruptive. These mitigation measures are included on page 3-31 and 3-32 of the MND.
TRAFFIC	
COMMENT	**RESPONSE**
The analysis and conclusions of the traffic analysis are inadequate. The analysis only considers one of the thresholds of significance, LOS. The other thresholds of significance established a significant impact if there is an "increase in traffic that is substantial" (3%). The NEGATIVE DECLARATION clearly establishes that most of the area roadways will be subjected to increases in traffic that are substantial, thus triggering the threshold of significance. This is particularly true of the analysis for FREEWAYS which clearly establishes that this single project will result in traffic increases on FREEWAYS of up to 15%, well in excess of the 3% threshold. These significant impacts must be mitigated, not ignored.	The trip generation for the proposed project was estimated at less than 3,500 vehicles per day. In 2007, the 215 freeway between Van Buren and Oleander carried approximately 120,000 vehicles per day. If all proposed project traffic went to the 215 freeway, it would be less than a 3% increase. The proposed project is conditioned to mitigate direct impacts and the cumulative impacts which are covered by DIF (Development Impact Fee), which the City administers to construct improvements, and TUMF (Transportation Uniform Mitigation Fee) which fund regional improvements.
Additionally, the traffic analysis relies upon improvements that are "assumed" to be in place at the time of Project development. There is no basis for these assumptions, no program in place, no commitment by the City, no funding and no certainty that the improvements can physically be installed. Additionally, there is no commitment that these improvements will be in place prior to Project development, if ever.	As discussed in Transportation/Traffic Section of the MND, pages 3-36 through 3-39 adequately discuss necessary improvements to be installed and the funding as shown as mitigation measures associated with the project.
There is absolutely no discussion of the adequacy of parking for the facility. Based upon the site plans and the number of employees, there appear to be inadequate	Section 15(f) on pages 3-39 of the MND adequately identifies full capacity parking requirements for the project. The required amount of parking is set forth

parking.	by Section 9.11.040 in the City of Moreno Valley Municipal Code. The required amount of parking for the entire project is 587 spaces. However 699 stalls which are provided is 112 parking stall over what is required.
The analysis does not consider the indirect impact of this increased water use. Water is currently in short supply, with EMWD noting a currently "voluntary" 10 % reduction. Because of the existing water shortages, agricultural users in Riverside County are under a mandatory 20% reduction in use. This mandatory reduction is resulting in the tearing out of citrus and avocado groves and is impacting the viticulture industry	Based on the Eastern Municipal Water District (EMWD) preparation of the Water Supply Assessment (WSA) dated May 14, 2008, the project would provide adequate water supply to meet the potable water demand for the project in addition to existing future uses. See Section 16 of the MND for further details and analysis.
GREENHOUSE GASES	
COMMENT	**RESPONSE**
The Project will produce CO_2 in the amount of 990,000 pounds per day of greenhouse gasses. The Neg. Dec. minimizes this by contrasting it with the entire state of California. This ignores the importance of the cumulative effects of greenhouse gasses. CEQA literature suggests that in the absence of specific thresholds, any increase greater than zero must be considered a significant impact and an EIR must be prepared. The following g mitigation measures are suggested: 1. The Project shall be required to construct renewable energy sources sufficient to provide 100% of all electrical usage for the entire Project. 2. The Project shall be required to construct renewable energy sources sufficient to offset the equivalent of 100% of all greenhouse gas emissions from mobile sources (internal combustion engines) for the entire Project. 3. The Project shall use skylights for natural lighting. 4. All interior lighting shall be from fluorescent fixtures. 5. The Project shall be prohibited from installing any air conditioning in any space where the electrical demand is not totally offset by the production of electricity from renewable resources.	According to the Governor's Office of Planning and Research (OPR) and the CEQA Guidelines, it is up to the discretion of the lead agency to determine an appropriate significance threshold and subsequent finding of significance. The MND cites recognized, verifiable evidence from a reputable association, The Association of Environmental Professionals, in its finding. In addition, mitigation measures to minimize an already less than significant impact are recommended.
It is incredible that the NEGATIVE DECLARATION takes the caviler attitude that the exceedance of thresholds of significance for greenhouse gasses is inconsequential. This is a major problem, with the potential to end life on this earth as we know it. The NEGATIVE DECLARATION makes no real attempt to mitigate the impacts, just assertions that measures are infeasible.	According to Table 3.4 and the discussion of greenhouse gas emissions on page 3-9 to 3-11, greenhouse gas emissions are less than significant.

Subject: Fwd: Riverside County Sheriff Law Enforcement Rates for Citiesand Schools

Attachments: AGENDA - Contract Cities Meeting 2-26-09.doc; RATES City & Schools CC FINAL 090213.xls; Simplified Breakdown of the County Contract Rate.doc

Mayor and City Council,

Recently questions have been asked about how the increase in the contract rate is determined and what goes into the formula. Please refer to the attached Excel file and the folders within that file to see what is built into the rate. I am sending a 'simplified' version that breaks down categories and percentages.

In July our City will be hosting a contract cities meeting. The County folks that determine the contract rate increase will be there. They should be able to answer questions in much greater detail.

John Anderson

Dear Commanders,

Sheriff's Executive staff has requested that the Rate Package be sent electronically this year.

Please forward the Agenda for February 26, 2009 (note the meeting location change) and the Rates for Cities & Schools below.

If you have any questions call Bob Meyers 5-2722 or Mike Stone 5-2767.

Thank you,

Bob Meyers
Administrative Manager
Riverside County
Sheriff's Department

AGENDA

CONTRACT LAW ENFORCEMENT MEETING
RIVERSIDE COUNTY SHERIFF'S DEPARTMENT

February 26, 2009

Meeting Location: Moreno Valley City Council Chambers
14177 Frederick Street
Moreno Valley

Meeting begins at 9:30 a.m.

I. **Introductions**
Assistant Sheriff Pete Labahn

II. **Contract Law Enforcement Services**
Sheriff Stan Sniff

III. **County/Sheriff's Department Budget Update**
Director of Administration Will Taylor

IV. **Records Management System Rate**
Information Technology Officer John Naccarato

V. **FY 2008-09 Law Enforcement Personnel Rates**
Director of Administration Will Taylor

VI. **Round Table**

Next Meeting: Thursday June 25, 2009 at 9:30 a.m.

V090209 w/Grid#26@11/20/2008. *** CC - FINAL - 08/09 ***

MV00233344

Simplified Breakdown of the County Contract Rate
FY 08/09

The standard hourly contract rate for FY 08/09 for an undedicated supported officer (1,780 hours) is $117.30. That rate is made up of the following components:

Expense	Cost per Productive Hour	Percentage of Total Rate
Salary & Benefits	$62.8611	53.5900%
Sworn Support	$28.8156	24.5657%
Classified Support	$8.7200	7.4340%
Admin/Supervision	$0.8793	.7500%
Personnel & Recruiting	$1.6021	1.3660%
Information Services	$0.7770	.6624%
Dispatch and TRU	$8.8072	7.5083%
Accounting & Finance	$0.6926	.5905%
Technical Services Bureau	$0.6999	.5966%
Contracts & Grants Admin	$0.6649	.5668%
Countywide Cost Allocation Plan (COWCAP)	$1.1988	1.0220%
Field Training Component	$1.3701	1.1680%
Ben Clark Training Center	$0.2119	.1806%
Totals:	**$117.30**	**100.000%**

This rate is set by the County to recoup the cost of doing business. Costs fluctuate annually based on the cost of delivering the services described above.

Subject: Speeding Concern within Neighborhood (CRM MV-07861-EBAS)

Dear Mr. Barrera-Martinez:

The Transportation Engineering Division (TED) has received your request from Mayor Pro Tem Bonnie Flickinger's office regarding residential speeding on Saddlebrook Lane. TED has recently collected traffic data to determine if Saddlebrook Lane is eligible for speed humps. Based on the data, the subject portion of Saddlebrook Lane has met the minimum criteria to continue with the speed hump evaluation.

In order for staff to continue, please read the attached speed hump policy and complete the application form. Due to the high demand for speed humps we encourage you to complete the speed hump application as soon as possible. We have already included Saddlebrook Lane into the City's speed hump construction priority listing. A petition packet will be mailed to you shortly requiring you to collect signatures as evidence of support as outlined in the program's policy. Once staff receives the signature petition, we will prepare the design and organize a neighborhood meeting with your neighbors and council member to answer any further questions or concerns.

Thank you for your interest in traffic safety. If you have any other questions or comments, or need additional information regarding this request, please call Senior Engineering Technician Edward Init at [redacted] or myself, at [redacted]

Sincerely,

PUBLIC WORKS DEPARTMENT
Transportation Engineering Division

Eric Lewis, P.E., T.E.
City Traffic Engineer

MEMORANDUM

To: Mayor and City Council
Robert G. Gutierrez, City Manager

From: Michelle Dawson, Assistant to the City Manager MD

Date: June 12, 2009

Subject: Legislative Update

The current status of some of the priority bills we are monitoring includes the following:

AB 155 (Mendoza) -- Would create a Local Agency Bankruptcy Committee to approve municipal bankruptcy filings in California. City position: OPPOSE. Passed the Assembly on June 6 (47 ayes, 25 noes), waiting for committee assignment in the Senate.

AB 774 (Cook) – Grants the Riverside Community College District the transportation fee authority needed to provide funding to enable students to ride free on fixed route buses. City position: SUPPORT. Passed the Assembly on May 14 (73 ayes, 0 noes), to Senate Committee on Education, hearing date: June 17.

AB 1403 (Eng) -- Changes the Southern California Association of Governments' (SCAG) allocation of Transportation Development Act (TDA) sales tax funds to be consistent with the rest of the State's 16 Metropolitan Planning Organizations. City position: SUPPORT. Passed the Assembly on May 11 (79 ayes, 1 no), referred to Senate Committee on Transportation and Housing, hearing date pending.

June 5 was the last day to pass bills out of the house of origin, therefore any of the bills on the attached list that have not moved on to the other house have become two-year bills. If you would like additional information on any of the bills included in the attached report please let me know.

Attachment: Legislative Update, June 12, 2009

1825 Third Street
P.O. Box 59968
Riverside, CA 92517-1968

RE: T-NOW

Dear Mr. Rubio:

In response to your letter dated June 1, 2009 (see attached), the City is pleased to express our support for the T-NOW effort to heighten awareness of the use of public transportation for the students at local middle schools within the City of Moreno Valley. Although the City is facing challenging budget issues, we are able to provide a one-time commitment of $5,000 from our AB2766 Subvention funding in fiscal year 09/10 in support of the project.

Our understanding is that the monies will be used to develop a transit-related educational program that will involve students creating art projects and discussing the benefits of utilizing buses as a means of reducing emissions.

As you are aware, schools are an important focus of any outreach campaign, as it is easier to persuade young students to develop an air quality friendly lifestyle, rather than getting them to change behavior later in life. Providing education on methods to reduce single occupancy vehicle trips is key to the success of any emissions reduction strategy.

We look forward to working together with RTA on this innovative project. If you have any questions or need additional information, please contact Eric Lewis, City Traffic Engineer, at [redacted].

Sincerely,

Robert G. Gutierrez
City Manager

Riverside, CA 92517-1968

June 1, 2009

Mr. Robert G. Gutierrez
City Manager
City of Moreno Valley
14177 Frederick Street
Moreno Valley, CA 92552

Dear Mr. Gutierrez:

In western Riverside County, one of the fastest-growing regions in the nation, the soaring price of gasoline and long commutes have driven a record number of residents to trade their car keys for a bus pass.

With this kind of momentum, there's never been a better time to promote the benefits of public transportation, not just for current residents but future riders as well. That is why I support the Moreno Valley/Perris T-NOW Chapter's request for $5,000 from the City of Moreno Valley to support transit-related educational programs at area middle schools.

With your help, this grassroots group can have a positive impact on a local level.

The chapter is developing an "Air Aware" art contest this fall for students at Vista Heights, Badger Springs, Sunnymead and Vista Verde middle schools. Participating students create original artwork that illustrates how riding Riverside Transit Agency's eco-friendly buses helps reduce harmful emissions.

The City of Moreno Valley has identified $5,000 of AB2766 funds that are available for the important program. If approved, RTA would be responsible for receiving and administering said funding for the Chapter.

Thank you for your continued support of public transportation and local coalitions such as T-NOW. I look forward to your response.

Sincerely,

Larry Rubio
Chief Operating Officer

LR/mh

MEMORANDUM

To: City Council

From: Stuart Sheldon, Landscape Districts Program Manager

Date: June 4, 2009

Subject: Report on California Native Drought Tolerant Plants
MV-08067-QQ7N MOVALTRACKID:000000400986

ISSUE:

Follow up from Council meeting of May 26, 2009. Councilmember Molina requested that staff investigate California Native drought tolerant plants.

BACKGROUND:

Many plant species native to California, especially those found in the southern portion of the state, are considered to be "drought tolerant." This is because over time they have become adapted to the region's climate with its short wet winter and long dry spring/summer/fall seasons. This type of weather pattern is often referred to as a "Mediterranean" climate.

Other parts of the world share Mediterranean weather characteristics. Among them are parts of South Africa, South America, and Australia. Many of the landscape plants found in low-water use southern California gardens come from these areas. Native plants from the arid regions United States, like Arizona, New Mexico, and Texas, are also important components of our region's drought tolerant plant palette.

Since its incorporation, the City of Moreno Valley has encouraged the use of native and drought tolerant plants in local landscapes. Policy 7.3.1 of the *General Plan* Chapter 9 – "Goals and Objectives" requires that the use of turf in parkway areas be minimized, and encourages the use of native and drought tolerant species. Also, Program 7-4 of *General Plan*'s "Conservation Element" requires that the City "provide guidelines... to encourage aesthetically pleasing landscape statements that minimize water use."

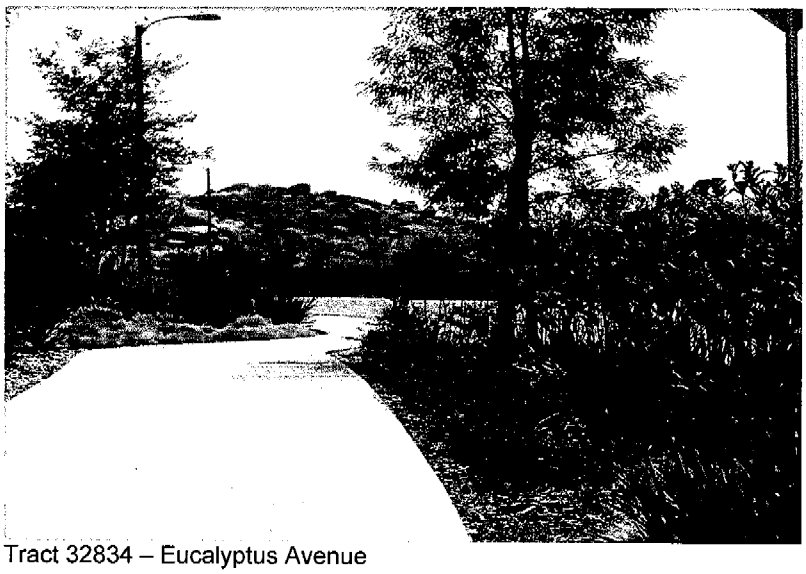
In response to this directive, Chapter 9.17 of *Municipal Code* Title 9 sets forth specific requirements for use of low water-use plants in local public, quasi-public, commercial and industrial landscapes as well as certain types of residential development. The Planning Division of the Community Development Department has produced a *Landscape Standards* booklet to "assist the public in designing

projects that require landscaping, or the preparation of a landscape plan. The document implements Chapter 9.17 of the Municipal Code (Landscape Requirements)." Many of the trees and shrubs listed in the *Landscape Standards* as desirable species are considered to be drought tolerant. This booklet is available for download by interested parties on the City's website.

DISCUSSION:

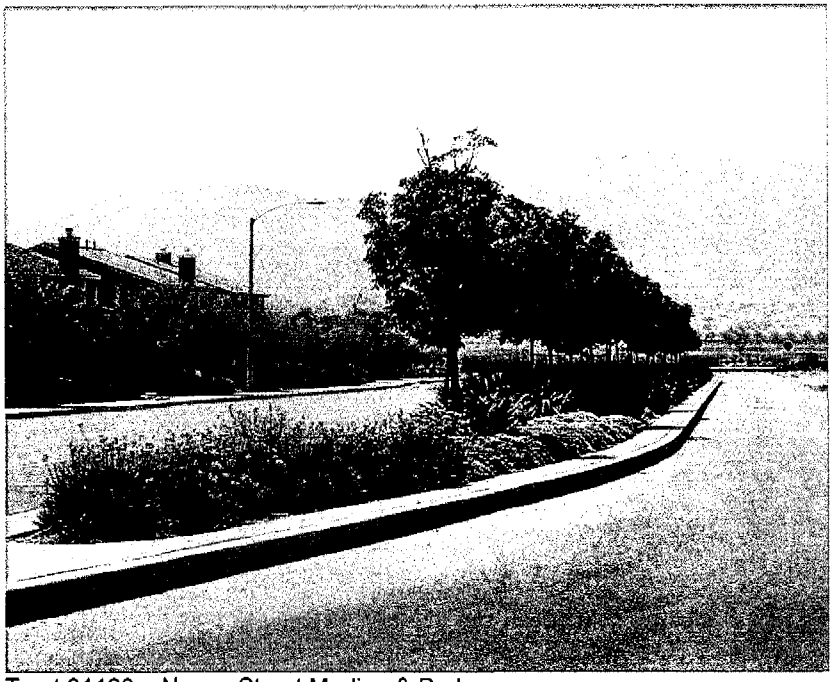
Since it started operations in 1989, the Moreno Valley Community Services District's (MVCSD) Landscape Districts Program, administered by the Special Districts Division of the Public Works Department (SDD), has led the City's efforts to develop sustainable, water-conserving, attractive public parkway and median landscapes. Please take a moment to look over the examples shown on the following pages.

Tract 31257 – Pigeon Pass Road



Tract 32834 – Eucalyptus Avenue

MV00233369



Tract 31128 – Nason Street Median & Parkway

SDD is proactively involved in projects such a those depicted above in every step of their creation, from initial project review and conditioning, through plan preparation, construction, and final acceptance into the MVCSD Landscape Districts Program. SDD's field and administrative staff collaborate effectively to produce public parkway and median landscaping that is not only pleasing to the eye, but also cost-effective to manage and operate.

SDD currently manages 211 acres of landscaped parkways, medians, and open space throughout our community. Of this total program area, 16.4% (34.6 acres) is planted with turfgrass. The majority of this grassy acreage consists of projects that were either: approved prior to city incorporation, or; prior to the adoption of the *Landscape Development Guidelines and Specifications* (Ordinance No. 247) in March of 1990, or; were included in a specific plan area expressly exempted from the *Guidelines'* requirements.

MORENO VALLEY RANCH (SPECIFIC PLAN 193)

Turfgrass, Drought Tolerant Plants, and Water Use:

The *Design Manual* for the Moreno Valley Ranch Specific Plan, approved in 1986, called for the use of turfgrass in project parkways and medians installed along arterial streets. Phase I of the project's parkway and median development in the specific plan's western portion (generally, Lasselle Street from Gentian Avenue south to Arroyo Park; Iris Avenue from Kitching Street east to Nason Street; Krameria Avenue from Kitching Street east to Lasselle Street) reflects this design requirement; forty-eight percent (48%) of this phase is planted with turfgrass.

MV00233370

In 2001, the *Design Manual* was revised to allow the use of hardscape and groundcover elements in areas that had formerly called for turf only. The Phase II streetscapes, installed in 2006, reflect this design modification; the turfgrass component of the Phase II streetscapes (generally Lasselle Street from Arroyo Park south to the Moreno Valley City Limit; Krameria Avenue from Lasselle Street north and east to the RCC Campus boundary; Camino Flores) was reduced to seventeen percent (17%) of the total Phase II parkway and median area.

The build out of the Phase II streetscapes completed the parkway and median areas of the western portion of the specific plan, which comprises the E-3 MVCSD High-Service-Level Parkway Maintenance area. There are a total of 28 acres in the E-3 Maintenance Area – 19.6 acres of shrubs, trees, and groundcover, and 8.4 acres of tree-lined turfgrass parkways and medians. Therefore, at build out, this Maintenance Area is in compliance with Chapter 9.17 of Municipal Code, which limits turf areas to no more than one-third of a project's total landscaped area.

The pictures that follow depict portions of the specific plan's Phase II streetscapes.

Phase II Lasselle Street Parkway – Drought tolerant flowering shrubs and ground cover comprise a major element of the plant palette

MV00233371

Camino Flores Parkway – Plant palette consists of California and Southwest native drought tolerant plants

Via Xavier Parkway – Flowering drought tolerant shrubs and ground cover

The preceding photos illustrate that native and drought tolerant plants are a key component of the specific plan's Phase II streetscape plant palette.

MV00233372

IRRIGATION COSTS:

Concerns were raised during the public comment portion of the May 26, 2009 Council Meeting regarding the budgeted cost for irrigating the E-3 streetscapes and medians. The statement was made that the $54,140.00 budgeted for water to irrigate the 28 acres of E-3 parkways and medians is a "waste of water, and a waste of money." Staff's response to these assertions is as follows:

- *"A waste of water"* – In 2008 a total of 80 acre feet of water was used to irrigate the 28 acres of E-3 streetscapes and medians. This is equivalent to 34.43 inches of water applied per square foot of irrigated area per year. When compared to the annual reference ETo (an abbreviation of *evapotranspiration* – which is the measure, in inches, of the amount of water taken annually from the soil by plant uptake and surface evaporation) of 56.37 inches, SDD applied only 61% of that amount. This surpasses the 0.7 "ET Adjustment Factor" mandated by the state's newly adopted Model Water Efficient Landscape Ordinance (AB 1881) by 13%. SDD and the contract maintenance forces it directs in the field are making highly efficient use of this precious resource.

- *"A waste of money"* – In 1992, SDD worked proactively with Eastern Municipal Water District (EMWD) to modify the specific plan's parkway and median irrigation systems to use recycled water supplied by the water district's Moreno Valley Regional Water Reclamation Facility. This joint project, which supplies almost 90% of the water used to irrigate the Phase I and II streetscapes, has not only saved fresh water for potable use, it has saved the specific plan's property owners a significant amount of money over the intervening 17 years. For example, if the 71 acre feet of recycled water used to irrigate the E-3 Maintenance Area in 2008 had been supplied as potable commodity, it would have cost SDD's customers an additional $40,408.00 – 216% more than the $18,715.00 spent on recycled irrigation water. SDD's partnering efforts with EMWD have saved - and continue to save - money as well as resources.

SDD is sensitive to concerns like those raised at the May 26th Council Meeting, and is encouraged by the growing awareness of property owners in the Moreno Valley Ranch community and throughout the city of the need to introduce more native and other drought tolerant plants into our public landscape areas.

Staff hopes that this report successfully demonstrates SDD's long standing commitment to providing our community with attractive and thrifty landscaping for public parkways and medians through the planting of low water use plants, and judicious and efficient use of water resources.

MEMORANDUM

To: Mayor and City Council
Robert G. Gutierrez, City Manager

From: Michelle Dawson, Assistant to the City Manager MD

Date: May 28, 2009

Subject: Legislative Update

In order to provide timely information on legislation that the City is monitoring, we have removed the Legislative Update Staff Reports from the City Council agendas and are now forwarding this information to you via memorandum every two weeks. Due to the need to submit the Legislative Updates so far in advance in order to meet the agenda preparation deadlines, the information included in these reports was often outdated by the date of the Council meeting. The attached report includes up-to-date information on all of the bills that we are monitoring.

Some of the priority bills we are monitoring include the following:

AB 155 (Mendoza) -- Would create a Local Agency Bankruptcy Committee to approve municipal bankruptcy filings in California. City position: OPPOSE. In Assembly suspense file.

AB 774 (Cook) – Grants the Riverside Community College District the transportation fee authority needed to provide funding to enable students to ride free on fixed route buses. City position: SUPPORT. Passed Assembly, referred to Senate Committee on Education, hearing date pending.

AB 1403 (Eng) -- Changes the Southern California Association of Governments' (SCAG) allocation of Transportation Development Act (TDA) sales tax funds to be consistent with the rest of the State's 16 Metropolitan Planning Organizations. City position: SUPPORT. Passed Assembly, referred to Senate Committee on Transportation and Housing, hearing date pending.

June 5 is the last day to pass bills out of the house of origin, therefore many of the bills we are monitoring will become two-year bills. If you would like additional information on any of the bills included in the attached report please let me know.

Attachment: Legislative Update, May 28, 2009

1. I hereby certify that the investments are in compliance with the Investment Policy adopted by the City Council. There are no items of non-compliance for this period.
2. The market values for the specific investments in the General Portfolio are provided by the City's investment custodian.
3. The market value for LAIF is provided by the State Treasurer.
4. The market values for investments held by fiscal agents and the deferred compensation plans are provided by each respective trustee or fiscal agent.
5. The City has the ability to meet its budgeted expenditures for the next six months pending any future action by City Council or any unforeseen catastrophic event.

Steve Elam
City Treasurer

Moreno Valley, CA 92557

Subject: Speeding Issue on Wembley Drive, Request for Speed Humps

Dear Ms. Butler:

This is in response to your e-mail regarding speeding conditions and speed humps on Wembley Drive. (See attached.)

Staff conducted an investigation and discussed this issue with the Traffic Safety Commission on April 1 and May 6, 2009. Based upon staff's evaluation, Wembley Drive does not meet the warrants necessary for the installation of speed humps.

By copy of this letter, we will request additional police enforcement in your neighborhood as resources allow. Additionally, "knuckle" striping has been added to Barclay and Wembley Drives. The Transportation Engineering Division will add Wembley Drive to our rotational deployment of the Public Awareness Radar Education Trailer (PARET). This has been shown to be an invaluable tool to remind motorists of the existing 25 mile per hour speed limit on residential streets.

Thank you for your interest in traffic safety. If you have any questions, please contact me or Mr. Edward Init, Senior Engineering Technician, at [redacted]

Sincerely,

PUBLICS WORKS DEPARTMENT

Subject: RE: Speeding in a residential area

I recommend sending this to our Traffic Safety Commission for their review and possible action or recommendation of city council action.
You can contact Nancy Foster at [redacted] or our City traffic Engineer Eric Lewis a[redacted] for more information and meeting dates and times.
The police traffic officers also attend these meetings so anything along a police enforcement line can also be discussed there.

Will you contact them and be able to attend one of the meeetings to follow through on this issue? I hope you can

Ellen Butler
22404 Wembley Drive
Moreno Valley, Ca 92557

Dear Councilman, Stewart

I'm writing of a situation that has been occurring in my neighborhood that's becoming a serious problem. I have been living here in Moreno Valley since December 2000. I'm a commuter and I work shift work. In my first year here, I came home one morning to find that a vehicle had driven across my front lawn leaving deep tracks and damage to my lawn. A few years later, the same situation occurred to the three homes across from me in one night. These vehicles could have easily ended-up in our living rooms. Just recently, on February 28, 2009, in the early afternoon, my car was parked in front of my home, hit and damaged by a hit & run driver, causing damage to the left side of my car and total replacement of my front bumper. Its one thing to be in a moving vehicle or parked at the store to encounter something like this, but to be home and have to deal with such reckless driving in the one place you should feel safe is unbarring. I live on a quiet street. Not only are there lots of kids playing around, but kids all through the neighborhood walk to and from Box Springs Elementary by way of the street in which I live.

Wembley Drive sits between a small portion of Barclay Drive and Drury Ln off the crossing of Day St/Ironwood Ave. All three of these streets are connected by two very wide street curbs. Which is the main source of the problem. Cars have a tendency to speed down the entire street. The streets are long

and it doesn¢t seem like the curbs are doing much to slow them down but excites them to go faster. Especially, driving up on Drury Ln. This is how my lawn, my neighbors¢ lawn and my car got damage. I once witness a car coming by way of Barclay Dr, speeding, hit his brakes, did a 360 degree turn and went back the way he came like nothing happen. And yes, there¢s lots of vehicles parked along the street. Just last year, a young man driving down the street, coming from Barclay Drive, was driving so fast by the time he approached the curb, leading into Drury Ln, he lost control and slammed into the back of a parked mobile home. Since I work shift work, I can tell you, I have heard cars at all given times of the day and night, speeding down the street.

I know that there are a lot of communities with lots of kids. And, that my immediate neighborhood is not the only street that experience speeding vehicles. But I would like if it could be address, and consideration could be given to possibly placing no more than two speed bumps in each of these curbs. I would also like to see a speed bump placed further down on Drury Ln, but if nothing more, it would be greatly appreciated in the curbs. For the safety of the kids and an unnecessary financial burden on homeowners please address this matter to the entire council.

Dear Mr. Pallais:

On April 22, 2009, the City of Moreno Valley provided you with information on baseball fields for consideration by the Dodgers Dream Foundation as a future Dodgers Dreamfields site located in Moreno Valley. This information was provided to you in cooperation with former Dodger great Derrel Thomas. Since providing our initial information, the City has received additional letters of support which are attached to this letter.

The City of Moreno Valley appreciates your consideration of our community for a future Dodgers Dreamfields project. It is an exciting concept and we hope to be invited to explore it further with you. If you have questions about any of the information the City of Moreno Valley has provided, or need additional information, please contact Mike McCarty, Parks & Community Services Director, at [redacted]

Sincerely,

Betsy M. Adams

Subject: Support for a Dodgers Dreamfields Project in Moreno Valley

Dear Mr. Pallais:

I understand that the City of Moreno Valley has submitted a proposal to the Dodgers Dream Foundation for consideration of a Dodgers Dreamfields project in their community. As the City's representative in the State Assembly, I am keenly aware of the City's commitment to providing safe, quality recreation programs and facilities to the community. I believe Moreno Valley would be a perfect location for a Dodgers Dreamsfield project and I wholeheartedly support their application.

With budget constraints forcing communities across the country to tighten their belts, the Dodgers Dreamfields program is a wonderful opportunity for Southern California communities to provide sports and recreation opportunities for our youth. I commend the Los Angeles Dodgers for giving back to the community in such a generous fashion.

Thank you for this opportunity to voice my support of the City of Moreno Valley's Dodgers Dreamfield proposal.

Sincerely,

Bill Emmerson

Mr. Noel Pallais
Director of Community Relations
Los Angeles Dodgers
1000 Elysian Park Avenue
Los Angeles, CA 90016

Dear Mr. Pallais:

I was recently informed that the City of Moreno Valley has submitted an application to receive a Dodgers Dream Field project in their community. As one of the fastest growing cities in California, Moreno Valley has limitless potential and would be an ideal location for a Dodgers Dreams Field project. As Moreno Valley's representative in the State Assembly and an avid baseball fan, I am excited about the prospect of a tremendous organization, such as the Dodgers helping to serve our community and I wholeheartedly support the city's application.

The state's budget crisis has forced many cities throughout California to drastically cut back on spending and I believe the Dodgers Dream Field program provides a wonderful opportunity for communities, such as Moreno Valley, to provide their youth with a wide variety of sports and recreation opportunities. I commend the Los Angeles Dodgers for giving back to the community and I wish the organization continued success this season and for many years to come.

Thank you for this opportunity to voice my support of the City of Moreno Valley's Dodgers Dream Field proposal.

Sincerely,

B. Nestande

Reference: Dodgers Dreamfields

Dear Mr. Pallais:

On behalf of the AYSO organization, I am excited as to the possibility of the City teaming up with the Dodgers Dream Foundation to provide quality ball fields for the youth in Moreno Valley. To that end, we would like to offer our support of the project.

With more than 185,000 residents in Moreno Valley, the need for safe and quality facilities is highly desirable for our community. These facilities will benefit youngsters in many ways providing them with a healthy, safe, and socially interactive environment.

On behalf of the thousands of ball players and Dodger fans in Moreno Valley, we would support and welcome the Dodgers Dream Foundation to Moreno Valley.

Sincerely,

AYSO Representative

Mr. John Hawkins
Riverside County Fire Chief
210 W. San Jacinto Avenue
Perris, CA 92570

Dear John:

Please accept this letter as the City's formal notification to the County of Riverside of the possible need to reduce fire protection services in Fiscal Year 2009/2010. As part of the budget process, the City Council is going to consider reducing the staffing on the City's three (3) fire trucks from four (4) persons to three (3) persons. Other options may also be considered, but for now, please consider this to be the City's one hundred twenty (120) days written notification for this requested reduction. I am aware that the Riverside County Fire may have concerns about this fire protection service level reduction versus others available to the City Council to consider.

I have added the level of fire truck staffing to the agenda of the next Public Safety Sub Committee meeting which is scheduled on May 18, and I am hopeful that you will be able to join us at this meeting.

Sincerely,

MEMORANDUM

To: Mayor and City Council

From: Robert G. Gutierrez, City Manager

Date: May 13, 2009

Subject: Time and Materials Based Development Fees

At the City Council meeting of April 28, the City Council approve a pilot program to collect fees for multiple-agency public improvement plans based on a time and material (T&M) service fee-based method and incorporating said pilot program in the City's Fiscal Year 2009-10 User Fee Schedule. In addition, the Council approved a second program whereby Staff would: 1) Check all plans on a T&M service fee-based method for all projects that are greater than $50 million in total value, 2) Collect a deposit equal to one-half of the current fee for plan check services, 3) For those plans that are checked by an outside plan check consultant, the City will add a 15 percent administrative charge to all invoices, and 4) not issue a permit until all plan check fees are paid in full.

The initial pilot program (multiple-agency improvement plans) included both plan check and inspection services on a T&M fee-based program. However, the second program based on the total valuation of a project only included plan check services. To be consistent, Staff would recommend both programs include a T&M fee-based program for plan check *and* inspection services.

This minor revision to the approved programs will be reflective in the proposed Fiscal Year 2009-10 User Fee Schedule being presented to the City Council for consideration at your May 26 Regular Meeting.

If you have any questions regarding Staff's recommended amendment, please contact me or Rick Hartmann, Deputy City Manager.

Subject: Time and Materials Based Development Fees

On April 21, 2009, Mayor Stewart sent a memorandum (copy attached) to me regarding a staff report scheduled for the April 28, 2009 City Council meeting addressing the possible change in development-related fees from fixed-fee basis to Time and Materials basis. This memorandum addresses the issues raised in the Mayor's memorandum.

BACKGROUND

At my direction, staff has been evaluating for a number of months the scope and issues presented by a transition from the City's current fixed-fee basis to a Time and Materials (T&M) basis for development-related fees. The proposal to institute a pilot program, put forth in the April 28th staff report referenced by the Mayor, is the direct result of this evaluation. The change to T&M-based fees has proven to be very complex, requiring significant resources to implement, and would also require a significant commitment of resources to manage and maintain. It is not a change that can be completed quickly, inexpensively, or in isolation from the City's current and future technology projects. Additionally, there are policy and logistical issues that will need to be addressed prior to changing the basis of the City's Development Services fee collection methods.

The decision to propose a pilot program was reached in an effort to respond to the development community while remaining cognizant of the realities of the City's current technological, budgetary and staffing constraints. The proposed pilot program can be developed quickly because it will function as a separate and largely manual system designed solely for the calculation and tracking of fees for a defined subset of processes. In contrast, a full conversion of development-related fees from fixed-fee to T&M basis will be a very lengthy and costly undertaking.

With the large number of development-related fees involved (over 700), staff established criteria to determine the appropriateness of applying T&M versus fixed-fee models for different fee types. Land Development, Building & Safety, Planning, and Fire Prevention have specific T&M fee calculations already in place for fees that cannot be calculated by a multiplier of the work involved. Thus, fees already calculated this way,

penalty fees, and Uniform Administrative Code fees were excluded. Next, if changing a fee resulted in an increase in cost due to the added administration requirement, it was deemed a poor candidate for a change to T&M. An example would be a Temporary Use Permit. The current Permit fee is $234. If Staff was to account for its time (i.e., T&M), the actual fee for the Permit may be significantly higher when all staff time and administrative costs are included.

DISCUSSION

Technological Issues/Constraints.
A primary consideration in moving to T&M-based fees is deciding how the process will be automated and how it will be managed. Currently the City's financial system (Oracle/OneWorld) is separate from the permitting system (Accela/Permits Plus). Additionally, many processes are still tracked using Microsoft Office products. Over the past several years, Staff has devoted thousands of hours to the development of new Permits Plus applications, integrating it with the City's Geographic Information System (GIS), and providing web access for field inspectors. The plan has been to consolidate the Development Services processes using a single system and then integrate it with the financial system. This plan was placed on hold in December 2007, due to the economic downturn, when the Enterprise Resource Planning (ERP) system replacement project was postponed at the end of the selection phase and prior to the implementation phase, saving the City approximately $2 million. It has been Staff's intent to integrate the two systems to facilitate the use and improve the functionality of these important yet dissimilar systems. The company chosen to replace the City's current financial system, New World Systems, has developed a permitting module that offers full integration with financial applications. Once the New World ERP system is implemented, it will likely be utilized for future development of permit processing and billing as well as financial applications.

All computer systems have a life cycle and the OneWorld and Permits Plus systems are quickly approaching obsolescence. Therefore, it must be noted that all design and programming time spent converting the Permits Plus system to a T&M-based fee model will have to be duplicated once a new permitting system is implemented. Based on the published "end of life" date from the manufacturers, OneWorld must be replaced by December 2013; Permits Plus has already ceased further development in favor of a new permitting product, although they have not announced when support for the existing product will cease.

To illustrate the complex task of automating a system without adjusting staff resource levels, three years ago the Land Development Division began a project to automate five grading plan check processes; the recent completion of that project included the option to utilize a T&M model. With a focused effort and additional dedicated resources, such an undertaking could be completed more quickly but Land Development's experience is demonstrative of the reality that significant resources are required to automate systems and make any significant changes to process and/or fee models. It should be noted that

the grading plan check automation included a very small percentage of Land Development's 115 fees.

Development Services Issues/Constraints.
Development Services issues and constraints are not unlike the technological issues and constrains noted above. Below is an overview of the three major development service functions and specific issues and constraints they have in converting "across-the-board" fees to T&M.

Planning. The Planning Division has 51 application types, of which 16 are T&M fee-based. Those 16 T&M fee-based application types were established – via past fee studies – because of the wide variance in processing time and effort they involve. Of the remaining 35 application types, 20 are less than $1,000, which would make them poor candidates for T&M fees in that the time involved in cost-accounting and tracking of Staff's time would substantially add to the processing costs borne by the applicant.

While the remaining 15 application types could be considered for conversion to a T&M fee structure, most of those already have per acre or per unit escalators to address the variance in time and effort involved in processing those case types. Of those application types, seven involve fees less than $5,000 (none with per acre or per unit fees), and the balance are less than $8,500, excluding per acre or per unit fees. Those remaining eight application types, then, are probably most suitable for conversion to a T&M method of collecting fees.

In summary, if Planning application fee types which are currently fixed-fee (approximately 70 percent) were converted to a time and material method, applicants would experience a 30 to100 percent increase in processing costs (depending on application type).

Building & Safety. The Building Division has 328 fixed fees, reflecting the diversity of structural, electrical, plumbing, mechanical and other permits the Division issues. Virtually all of our plan checks are performed by outside firms via contracts which provide those firms 75 percent of the plan check fees collected by the City. This arrangement motivates those firms to pursue their duties with an emphasis on economizing on time. Converting to a T&M basis (i.e., 'hourly') may encourage those firms to consume more time performing plan checks and would require Building & Safety Staff with contractor management responsibilities not now required.

During non-recessionary economic periods, the City issues an average of 5,000 building permits annually. With a T&M-based approach, each of these permit applications would require individual cost accounting for plan check, field inspection and "applicant-counseling" activities. The Staff resource necessary to

perform such cost accounting would be the equivalent of 1 full-time employee. And the cost to individual permit applicants (particularly those requiring significant 'hand holding' services) could increase many times over our current fixed-fee approach.

Land Development. The Land Development Division estimates there are 115 plan check services it presently charges a fixed-fee and an equal number or more for inspections services. Plan check services are provided by both in-house Staff and consultants. In-house plan check services are performed if the checking can be completed within 21 days (Department policy) and when City Staff has the expertise and license to perform the plan check service. (The City does not have a licensed land surveyor and therefore cannot check subdivision and parcel maps.) The plans that are sent to a consultant are checked on a T&M method with a not-to-exceed amount. This insures Staff can control some plan check costs, but not all.

As noted above, converting to a T&M method of fees for services for all plan checks may encourage those firms to consume more time performing plan checks and would require Staff with significantly more responsibility and oversight not now required which may increase cost to an applicant above the current fixed-fee method of fee collection.

A suggestion of the Mayor was to calculate plan check and inspection fees on a T&M method for projects with an estimated value of over $250,000. Staff estimates that 85 percent of all projects exceed the $250,000 threshold and therefore, would not minimize Staff's impact to convert to a T&M-based fee schedule.

If the City immediately initiates a project to convert applicable Development Services fees to T&M-basis, it will necessitate one of the largest technology projects ever undertaken at the City during a time when the City is reducing staffing and postponing projects in response to the economic recession and falling revenues. The City has approximately 733 Development Services related fees from the areas shown in the table below.

DIVISION	NUMBER OF FEES
Building & Safety	328
Fire Prevention	232
Land Development	115
Planning	51
Transportation	7
TOTAL	**733**

In order to develop an estimate of the time and funds necessary to convert to T&M fees, the City would need to dedicate an estimated 4,000 hours of staff time over six to nine months in a scoping exercise and determine how to backfill staff during that time. The actual programming work that will follow the scoping exercise is expected to last at least a year and require skilled consultants to analyze, develop, and test the necessary business processes and systems. It is estimated that a minimal cost for such a project will exceed $200,000. Given the size of the project, a Request for Proposals (RFP) process may be needed to select the consultants.

A significant challenge in undertaking a project of this magnitude at this time is the City's staffing level. Currently, 66 positions have been defunded and a significant number of additional reductions will be needed next fiscal year due to the significant decline in City revenues. Couple these staffing reductions and the estimated 4,000 hours to scope the project will place significant demands on other support services.

In addition to the considerations noted above, there are policy and logistical issues that would need to be addressed before a change from fixed-fee to T&M-based fees could be implemented. The policy issues include regulating developer deposits, deciding standard amounts or percentages for deposits, setting thresholds for requiring additional deposits, and maintaining compliance with applicable laws (e.g. the Permits Streamlining Act).

There are several categories of logistical issues that would need to be addressed if the City was to immediately initiate conversion of applicable Development Services fees to a T&M basis. One such issue is the subcontracting of development services to outside experts. This is commonly done now and the City's own experience is that subcontracting plan check reviews on a T&M basis have resulted in excessive fees from consultants for non-technical items which necessitated additional submissions from developers. Staff has been told by subcontractors, they typically do not like T&M fees for development services because they do not know how to bid jobs when the City's fees are not fixed. For these reasons the most recent RFPs issued by the City for subcontracting of development services required fixed-fee submittals. If the City moves to T&M-based fees, it must resolve the issues surrounding the subcontracting of some of the work.

An additional set of unresolved issues concerns the time and cost of tracking staff time to projects, relating these factors to developer deposits and recognizing the revenues at the correct time. When T&M-based fees are implemented, additional staffing resources are typically needed to maintain the necessary data and reports. For example, T&M fees for the five Land Development grading plan checks discussed earlier include labor rates for 58 positions that could work on the projects.

SUMMARY

The study of the scope and issues presented by a transition from the City's fixed-fee to T&M model for applicable development-related fees has been an ongoing effort for many months. A change to T&M-based fees has proven to be very complex, requiring significant resources to implement. In addition, a significant commitment of staffing resources to manage and maintain T&M fees would be needed. More importantly, the City's computer replacement program placed on hold in December 2007 was a significant setback in that the new system would have allowed Staff to proceed in implementing a number of changes to the way fees are collected and managed. It is not a change that can be completed quickly, inexpensively or in isolation from the City's current work load.

Additionally, there are policy and logistical issues that will need to be addressed prior to changing the basis of the City's fee collection methods. Every city weighs the advantages and disadvantages of fixed-fee versus T&M differently, often coming to different conclusions.

If the City Council desires that staff immediately proceed to convert its development-related fees to a T&M basis, there are significant costs, staffing considerations, policy and logistical issues, and service level impacts that will need to be resolved. Addressing each of these concerns, while concurrently downsizing the organization and cutting costs in response to the severe economic recession, will require careful consideration. Moving forward with the proposed pilot program does not achieve the full conversion to T&M immediately, but it does make progress towards converting the appropriate fees to the appropriate calculation and collection model.

Attachment: Memorandum from Mayor Stewart dated April 21, 2009

CITY OF MORENO VALLEY
City Council Office

MEMORANDUM

To: Robert G. Gutierrez, City Manager
From: Richard A. Stewart, Mayor
Date: April 21, 2009
Subject: Fee Issue Set for April 28 Meeting

I know staff has been working on presenting a choice for council in regards to changing the manner in which we compute and charge fees for building projects.

I understand that the staff has NOT come up with an option for council to implement an across the board change to Time and Materials methodology, but instead desires/recommends a "pilot program" only affecting inter-jurisdictional plan checks.

As this is really a very minor percent of the fees involved, and I am not aware of the challenges technically of immediately implementing the Time and Materials method, I want as an option the across-the-board and immediate implementation, along with WHATEVER costs or/and challenges we may face in doing this. If staff would need new software, training, consultants to come in, etc., then address that and let the CITY COUNCIL make the decision.

If no such option is available in the staff report for March 28, staff may very well find that the Council may force a program without the necessary details being known.

I would recommend that the threshold for such a fee plan would be if fees are anticipated to exceed some number say around $250,000.

Hopefully such information can be obtained and appended to the staff report by Thursday.

CITY COUNCIL
MORENO VALLEY
RECEIVED

09 APR 23 PM 1:38

April 22, 2009

Mr. Noel Pallais
Director of Community Relations
Los Angeles Dodgers
1000 Elysian Park Avenue
Los Angeles CA 90016

Dear Mr. Pallais:

The City of Moreno Valley is pleased to provide the Dodgers Dream Foundation with information on baseball field sites for consideration as Dodgers Dreamfields. These sites were selected in cooperation with former Dodger great Derrel Thomas, who personally reviewed each location, with good freeway access a primary consideration for each site. For the past several years, Moreno Valley has been one of the fastest growing communities in the nation. Providing safe, quality sports facilities for our youth is a top priority for the City and we appreciate this opportunity to submit the following project site proposals for consideration by the Foundation:

Sunnymead Park Renovations
There are four existing baseball fields at Sunnymead Park that need various improvements, which are detailed below:

Salas Field — Cost estimate: $516,000
Includes constructing two new bull pens with two pitching mounds each, replacing existing sod and scoreboard, installing additional bleachers, installing commercial shade structures over all bleachers, and other miscellaneous improvements needed to improve this baseball field to Dodger Dreamfields standards.

Hayden Field — Cost estimate: $255,000
Includes replacing existing sod and scoreboard, installing commercial shade structures over all bleachers, and other miscellaneous improvements needed to improve this baseball field to Dodger Dreamfields standards.

Miles Field — Cost estimate: $295,000
Includes replacing existing sod and scoreboard, installing commercial shade structures over all bleachers, and other miscellaneous improvements needed to improve this baseball field to Dodger Dreamfields standards.

Remy Field — Cost estimate: $266,000
Includes replacing existing sod and scoreboard, installing commercial shade structures over all bleachers, and other miscellaneous improvements needed to improve this baseball field to Dodger Dreamfields standards.

Morrison Park Renovations

There are four existing baseball fields at Morrison Park with the needed improvements for each field detailed as follows:

Green Field — Cost estimate: $623,000

Includes replacing existing sod, scoreboard, and lighting system, installing brick dust, and other miscellaneous improvements needed to improve this baseball field to Dodger Dreamfields standards.

Yellow Field — Cost estimate: $641,000

Includes replacing existing sod, scoreboard, and lighting system, installing brick dust, and other miscellaneous improvements needed to improve this baseball field to Dodger Dreamfields standards.

Blue Field — Cost estimate: $644,000

Includes replacing existing sod, scoreboard, and lighting system, installing brick dust, and other miscellaneous improvements needed to improve this baseball field to Dodger Dreamfields standards.

Red Field — Cost estimate: $623,000

Includes replacing existing sod, scoreboard, and lighting system, installing brick dust, and other miscellaneous improvements needed to improve this baseball field to Dodger Dreamfields standards.

March Field Park Construction

There are 84 acres available at March Field Park which could be available to construct new baseball fields. The cost estimate to construct a 4-field "pinwheel" type of baseball complex is $26 million. If the entire 84 acres was developed with the construction of a 10-field facility, the cost estimate is $79 million. This site could be attractive for a large-scale, phased project.

On behalf of the City of Moreno Valley, our youth, and the many loyal Dodgers fans in our community, I would like to thank the Los Angeles Dodgers, the Dodgers Dream Foundation, and Mr. Derrel Thomas for making us aware of the Dodgers Dreamfields opportunity. It is an exciting concept and one we hope to be invited to explore further with you. If you have any questions about the information provided, or need additional information, please contact Mike McCarty, Parks & Community Services Director, at [redacted].

Sincerely,

Richard A. Stewart
Mayor

Mr. Noel Pallais
Director of Community Relations
Los Angeles Dodgers
1000 Elysian Park Avenue
Los Angeles, CA 90016

Dear Mr. Pallais:

It is my pleasure to write a letter of support for Moreno Valley's submittal to the Dodger Dreamfield program.

Moreno Valley has outstanding baseball, softball and t-ball programs throughout the City and our schools and community college have some truly gifted players. Moreno Valley has a standard of excellence for parks and recreation excellence and was rated number one in Riverside County for family recreation by *The Press-Enterprise*. The Parks and Community Services Department is currently working on a comprehensive Parks Master Plan to ensure that we continue to provide quality sports programs and facilities as we grow.

I am especially grateful to Dodger Legend Derrel Thomas who brought this program to our attention. I was fortunate enough to participate in the parks tour throughout the City with Mr. Thomas, and we identified a variety of options for your consideration. As a native-Californian and longtime Dodger fan it would be a particular pleasure for me to see such a collaboration move forward.

If I may be of further assistance, please do not hesitate to contact me.

Sincerely,

Robin N. Hastings
Councilwoman
City of Moreno Valley.

Subject: City of Moreno Valley Dodgers Dreamfields Proposal

Dear Mr. Pallais:

The City of Moreno Valley appreciates the opportunity to submit a proposal for the Dodgers Dreamfields program. As evidenced by the numerous City-sponsored and privately operated baseball programs and events offered in our community, the sport is a major part of Moreno Valley's culture. In fact, several current and former major league players hail from Moreno Valley.

In support of our proposal, and to familiarize the Foundation with our community, I want to offer the following information about Moreno Valley:

- Located in western Riverside County 60 miles from Los Angeles, with a population over 183,000, Moreno Valley is the second most populous city in the County.

- Moreno Valley was recently named California's eighth fastest-growing city and is projected to have a population of nearly 221,500 by 2012.

- Our community is quite diverse, comprised of 46% Hispanic, 23% White, and 20% African-American.

- Moreno Valley was voted "Number One in Riverside County for Family Recreation" by the Press-Enterprise newspaper.

- Our demographic profile includes mostly young families; the average Moreno Valley family consists of two parents with two children and most families own their home.

I think you will find that Moreno Valley would be an excellent location for a Dodgers Dreamfields project. Despite the distance from Moreno Valley to Los Angeles, a visitor to our community will see Dodgers banners, bumper stickers, and jerseys prominently and proudly displayed throughout the City. We are very excited about this opportunity and thank you for considering our proposal. If you would like additional information about our community, please don't hesitate to contact me at 951.413.3020.

Sincerely,

Robert G. Gutierrez
City Manager

Attention: Mr. Noel Pallais
Director of Community Relations

Dear Mr. Pallais:

As the Parks and Community Services Director for the City of Moreno Valley, I am excited as to the possibility of teaming up with the Dodgers Dream Foundation in providing quality ball fields for the youth of this community.

The proposal being submitted by former Dodger and huge community supporter Derrel Thomas outlines some fantastic opportunities for the City of Moreno Valley ball players and would also establish this city as a destination for teams from surrounding cities to participate.

With more than 185,000 residents in Moreno Valley, the need for quality, safe, and top notch facilities is quite necessary and desired. All projects listed in this proposal will benefit many youngsters to not only grow as an athlete, but will also provide them with a healthy , safe, and socially interactive environment to spend their spare time.

The proposal being submitted by Mr. Thomas includes a wide range of potential projects with Salas Field (the City's only true baseball field) at the top of the list. To have the help of the Dodgers Dream Foundation in completing this facility, by providing new turf, bullpens, up-to-date scoreboard, and new bleachers complete with shade structures, would create a field that players of all ages would be proud to play on.

On behalf of the thousands of ball players and Dodger fans in Moreno Valley, I would like to thank the Dodgers Dream Foundation and Mr. Thomas for providing this exciting opportunity. I also encourage you to call me if you have any questions or if you would like to tour any of the facilities listed on the proposal submitted by the City of Moreno Valley.

Sincerely,

Michael J. McCarty
Parks and Community Services Director

Subject: Support for a Dodgers Dreamfields Project in Moreno Valley

Dear Mr. Pallais:

I understand that the City of Moreno Valley has submitted a proposal to the Dodgers Dream Foundation for consideration of a Dodgers Dreamfields project in their community. As the City's representative in the State Senate, I am keenly aware of the City's commitment to providing safe, quality recreation programs and facilities to the community. I believe Moreno Valley would be a perfect location for a Dodgers Dreamsfield project and I wholeheartedly support their application.

With budget constraints forcing communities across the country to tighten their belts, the Dodgers Dreamfields program is a wonderful opportunity for Southern California communities to provide sports and recreation opportunities for our youth. I commend the Los Angeles Dodgers for giving back to the community in such a generous fashion.

Thank you for this opportunity to voice my support of the City of Moreno Valley's Dodgers Dreamfield proposal.

Dear Mr. Pallais:

It is my pleasure to write a letter of support for the City of Moreno Valley's proposal being submitted for consideration as a future Dodger's Dreamfield site. It is in Moreno Valley that Dodger Legend Derrel Thomas has located his very successful Rancho Belago Rocket's program.

Moreno Valley has an outstanding recreation program for young people and has hosted multiple championship tournaments in their city. It's easy accessibility from the 215 and 60 freeways and with several brand new hotels it is an ideal location for this venture.

As one of the fastest growing communities in the nation, Moreno Valley is continually striving to meet the need for safe, quality sports programs and facilities and thus far has done an excellent job.

When you consider the large Dodger fan base that exists in Moreno Valley, it would appear that this is a natural partnership opportunity. As the Supervisor that represents Moreno Valley on the Riverside County Board of Supervisors and as a longtime Dodger fan I wholeheartedly endorse any of the options provided by the City to become part of the Dodger's Dreamfields.

Very truly yours,

Marion Ashley

Financial & Administrative Services Department

MEMORANDUM

To: Mayor and Members of the City Council
Robert G. Gutierrez, City Manager

From: Steve Elam, Financial & Administrative Services Director

Date: April 21, 2009

Subject: Fiscal Year 2007-08 Audit Reports

The City's Comprehensive Annual Financial Report (CAFR) for fiscal year ended June 30, 2008, will be submitted to the City Council on April 28, 2009. As part of the year-end audit and CAFR preparation process, the City's outside auditor submits reports related to the City's financial statements and underlying internal controls for the period just audited, as follows:

- ***Single Audit Report on Federal Awards*** ("Single Audit Report")
- ***Communications Regarding Internal Control*** (known as the "Management Letter")
- ***Supplemental Audit Report*** (issued for the first time this year as part of a new auditing standard addressing issues such as: the auditor's responsibilities; audit focus and scope; significant difficulties in performing the audit; any disagreements with management; etc.)

The three reports listed above were issued by the City's current audit firm, Mayer Hoffman McCann P.C., and are hereby submitted for your information. All three reports are dated February 20, 2009, to coincide with the conclusion of the audit, even though the reports were not issued until April 17, 2009. Following is a brief summary of the significant findings in each report:

Single Audit Report (Attachment A)

As indicated in the Schedule of Findings and Questioned Costs (page 7), the City had no findings or questioned costs and received an unqualified audit opinion.

Management Letter (Attachment B)

As indicated on page 1 of the report, the auditor did not identify any deficiencies in internal control that were considered to be a material weakness. Seven (7) recommendations for improving internal controls are provided, along with the implementation status of each recommendation. The first two items have already been implemented; no further action is needed. The remaining five (5) recommendations are in various stages of implementation, with most nearly completed.

Supplemental Audit Report (Attachment C)

As indicated on pages 2 and 3 of the report, the auditors encountered no difficulties in performing their audit and had no disagreements with management on any financial accounting, reporting or auditing matters that could be significant to the financial statements or the auditor's report.

Please let me know if you have any questions regarding the Single Audit Report, Management Letter, or the supplemental audit report submitted by Mayer Hoffman McCann P.C. I would be pleased to meet with you to respond to questions or to provide additional information.

City of Moreno Valley, California

REPORT ON COMPLIANCE AND OTHER MATTERS AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Moreno Valley, California, as of and for the year ended June 30, 2008, which collectively comprise the City of Moreno Valley's basic financial statements and have issued our report thereon dated February 20, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Moreno Valley's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of Moreno Valley's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the basic financial statements and not to provide an opinion on the internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Moreno Valley's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the City's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the City's financial statements that is more than inconsequential will not be prevented or detected by the City's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

MV00233446

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

However, we noted other matters involving the internal control over financial reporting which we have communicated to management in a separate letter dated February 20, 2009.

This report is intended solely for the information and use of the City Council and management of the City of Moreno Valley, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

City Council
City of Moreno Valley, California

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM, INTERNAL CONTROL OVER COMPLIANCE AND ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS IN ACCORDANCE WITH OMB CIRCULAR A-133

Compliance

We have audited the compliance of the City of Moreno Valley, California, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2008. The City of Moreno Valley's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the City of Moreno Valley's management. Our responsibility is to express an opinion on the City of Moreno Valley's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Moreno Valley's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City of Moreno Valley's compliance with those requirements.

In our opinion, the City of Moreno Valley complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008.

Internal Control Over Compliance

The management of the City of Moreno Valley is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the City of Moreno Valley's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

MV00233448

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the City's internal control that might be significant deficiencies or material weaknesses as defined below.

A control deficiency in the City's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the City's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the City's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the City's internal control. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Moreno Valley as of and for the year ended June 30, 2008, and have issued our report thereon dated February 20, 2009. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the City of Moreno Valley's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the City Council, management of the City of Moreno Valley, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

CITY OF MORENO VALLEY

Notes to the Schedule of Expenditures of Federal Awards

Year ended June 30, 2008

(1) Summary of Significant Accounting Policies Applicable to the Schedule of Expenditures of Federal Awards

(a) Scope of Presentation

The accompanying schedule presents only the expenditures incurred by the City of Moreno Valley, California (City) that are reimbursable under federal programs providing financial assistance. For purposes of this schedule, financial assistance includes both federal financial assistance received directly from a federal agency, as well as federal funds received indirectly by the City from non-federal organizations. Only the portion of program expenditures reimbursable with such federal funds is reported in the accompanying schedule. Program expenditures in excess of the maximum reimbursement authorized or the portion of program expenditures that were funded with state, local or other non-federal funds are excluded from the accompanying schedule.

(b) Basis of Accounting

The expenditures included in the accompanying schedule were reported on the modified accrual basis of accounting. Expenditures reported include any property or equipment acquisitions incurred under the federal program.

(c) Subrecipients

The City of Moreno Valley incurred $273,307 of Community Development Block Grant expenditures that were paid to subrecipients.

MV00233451

CITY OF MORENO VALLEY

Schedule of Findings and Questioned Costs

Year ended June 30, 2008

(A) Summary of Auditors' Results

1. An unqualified report was issued by the auditors on the financial statements of the auditee.

2. There were no material weaknesses in internal control over financial reporting based upon our audit of the financial statements of the auditee.

3. The audit disclosed no noncompliance which is material to the financial statements of the auditee.

4. There were no material weaknesses in internal control over major programs of the auditee.

5. An unqualified report was issued by the auditors on compliance for major programs.

6. The audit disclosed no audit findings required to be reported under paragraph .510(a) of OMB Circular A-133.

7. The two major programs of the auditee were the following:

   1) Community Development Block Grant, direct award from the U.S. Department of Housing and Urban Development, CFDA #14.218.

   2) Highway Planning and Construction, passed through the State of California from the U.S. Department of Transportation, CFDA #20.205

8. The dollar threshold used to distinguish Type A and Type B programs was $300,000.

9. The auditee met the criteria to be classified as a low risk auditee, as defined by OMB Circular A-133, paragraph .530 for the purposes of determining major programs.

(B) Findings Related to the Financial Statements which are Required to be Reported in Accordance with GAGAS

There are no auditors' findings required to be reported in accordance with GAGAS.

(C) Findings and Questioned Costs for Federal Awards as Defined in Paragraph .510(a) at OMB Circular A-133

There are no auditors' findings to be reported in accordance with paragraph .510(a) at OMB Circular A-133.

City Council
City of Moreno Valley
Moreno Valley, CA

COMMUNICATIONS REGARDING INTERNAL CONTROL

In planning and performing our audit of the financial statements of the City of Moreno Valley ("City") as of and for the year ended June 30, 2008, in accordance with auditing standards generally accepted in the United States of America, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is defined to be a control deficiency, or combination of control deficiencies, that adversely affects the City's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the City's financial statements that is more than inconsequential will not be prevented or detected by the City's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. Our consideration of internal control was for the limited purpose described in the first paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. **We did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above.**

We observed the following other matters, which were not deemed to be significant deficiencies or material weaknesses and offer these comments and suggestions.

(1) Internal Controls Over Business License Adjustments

Internal controls are maximized when the employees who issue business licenses and adjust customer accounts do not also have access to customer payments. During much of the fiscal year under audit, the persons involved in processing business license payments also had the ability to make adjustments to customer balances and no independent review of these adjustments was being performed. Without an independent review of business license activity and receipts, misappropriation of funds may go undetected.

We recommended that the City establish procedures for an employee independent of business license processing and receipting to periodically review and reconcile business license activity. Beginning in May 2008, the City assigned an employee to review and reconcile monthly business activity. The City adequately resolved this control deficiency during our audit and we have no further recommendation.

Status of Prior Year Recommendations

(2) Internal Controls Over the Establishment of Employees in the Payroll System

Internal controls are maximized when only Human Resources personnel have system access rights to establish/delete employees in the system and to make other payroll master file changes (salary rate changes, etc.). During the fiscal year under audit, persons involved in processing payroll also had the ability to make master file changes.

In the prior year's letter to management, we recommended that in conjunction with the City's establishment of a new computer system, that system access rights be changed so that only Human Resources personnel have the ability to establish/delete employees in the system and to make other payroll master file changes. Due to a postponement in the establishment of a new computer system, the City assigned an employee in Human Resources to review all employee and master file payroll changes each period, beginning in June 2008. The City adequately resolved this control deficiency during our audit and we have no further recommendation.

(3) Internal Controls Over the Establishment of Vendors in the System

Internal controls are maximized when the persons that process vendor invoices for payment and that are involved in data entry for the creation of City checks do not also have the ability to establish vendors in the system. Currently, persons involved in data entry for cash disbursements also have the ability to establish vendors in the system.

We recommend that the City consider changing access rights for accounts payable personnel so that they do not have system access rights to establish vendors or payees in the system. Generally, purchasing personnel should be involved in the establishment of vendors in the system.

Management's comments regarding corrective actions planned or taken

Staff was planning to address this issue in conjunction with a business process review that would occur as part of the ERP system replacement. However, since this project has been postponed, staff decided to reassign the responsibility for establishment of vendors from Accounts Payable to Purchasing staff to achieve the desired segregation of duties. As the Financial Operations Division and the Technology Services Division worked together to effect this change, possible weaknesses in the menu security system were discovered. Therefore, it was decided to remove these potential weaknesses by establishing "rules" for each role set-up. A responsibility grid has been developed that shows which "rules" should be assigned to each role. The Technology Services Division is in the process of assigning the "rules" in accordance with this grid, which should be completed in early April. Once completed, Purchasing staff will receive training in establishing vendors in the financial system and will assume this responsibility. It is expected that this transfer of responsibility will occur before the end of this fiscal year.

(4) Periodic Inventory of Capital Assets

A periodic physical verification of capital assets is an important internal control to ensure that City capital asset records are accurate and to detect any unrecorded additions or deletions. The City has not taken an official inventory of its capital assets since June 2002.

We recommend that the City establish procedures for the periodic physical verification of City capital assets. This can be done on a rotating basis over several years. The verification can be done at a convenient time of year for each department (not necessarily at year end). Infrastructure records (streets, water lines, etc.) could be substantiated by a periodic desk review by knowledgeable individuals in the City's Public Works department to detect unrecorded assets or items that should be deleted.

Management's comments regarding corrective actions planned or taken

Management agrees that a periodic physical verification of capital assets is a desirable internal control. The new ERP system the City was planning to implement would have included a fixed asset module to facilitate the tracking of capital assets. Now that the ERP system replacement project has been postponed, procedures are being developed by the Financial Operations Division to provide for physical verification of fixed assets on a three-year cycle. Management had anticipated implementation of these procedures prior to the audit of fiscal year 2008, however, this did not occur due to other priorities. The proposed procedures will be submitted to the City's auditor for review prior to implementation.

(5) Consider Adopting City Ethics Policy

The Auditing Standards Board has determined that a Fraud Policy or Ethics Policy benefits local governments by emphasizing to employees that management believes that ethical conduct is important. The policy should also provide for a process by which employees can report unethical behavior (including that exhibited by their direct or indirect supervisor). Although *standards of conduct* have been set forth in the City's personnel policies, the City does not have a formal ethics policy that, among other objectives, provides for a clear protocol for reporting unethical conduct. A well structured ethics policy establishes organizational standards for ethics, morals, and an overall "regard for the rules" philosophical approach within an entity. Specifically, matters such as honesty, integrity, compliance with laws and regulations, adherence to corporate policy, and upholding the organization's high values and reputation are addressed. A strong ethics policy is the foundation upon which an organization builds its culture, which should then permeate all levels of personnel and guide all business dealings and transactions. This can be most effective in establishing a highly ethical and antifraud culture within any business organization.

In order to emphasize the above, it is also recommended that annually a short e mail message to all employees be sent that reminds employees that management takes seriously the ethical conduct of its employees, reminds them of the reporting process for any witnessed unethical behavior and directs their attention to the City's ethical policy.

We recommend that the City establish and implement an appropriately-designed ethics policy. We also suggest that the City implement an effective reporting mechanism for unethical behavior. Fraud and ethics training for employees has also been found to be beneficial by using case studies and role playing to train employees on how to identify questionable behavior for those "gray" areas where rationalization can often occur. Internal reporting channels, such as managers' open-door policy, hotlines for anonymous tips, and surveys, have been found to be effective.

Management's comments regarding corrective actions planned or taken

The Human Resources Department developed a draft Ethics Policy and circulated it for management review on March 3, 2009. Comments received from departments are being incorporated and the final policy should be implemented in April 2009.

(6) Consider Adopting Account Write-off Policy

The City currently does not have a formal policy addressing when customer accounts should be written off or turned over to collection. Clear written policies in this regard are helpful to cities to ensure that receivables are properly valued to represent valid collectible balances, allowance accounts are appropriately established, and timely collection efforts are consistently engaged in.

We recommend that the City consider the establishment of a formal policy authorizing management personnel with appropriate write-off and collection actions when warranted in accordance with the provisions of the policy.

Management's comments regarding corrective actions planned or taken

A policy on Accounts Receivable has been developed which addresses the topic of Account Write-offs. This policy is in the final review process and is expected to be implemented in April 2009.

(7) Adjustments Detected by Audit Process

Paragraph 19 of the Statement on Auditing Standards No. 112 requires that the auditor identify material audit adjustments in the auditor's report on internal controls. For the year ended June 30, 2008, material adjustments detected by the audit process were limited to adjustments to record accrued interest in the Redevelopment Agency and to reclassify land as land held for redevelopment.

An important element of controls over financial reporting is for management to identify adjustments necessary for financial statements to be fairly stated. We recommend that whenever possible, adjustments should be reflected in the accounting records prior to the start of the audit. When this is not possible, management should identify and communicate to the auditors the potential areas of adjustment that may need to be addressed during the audit process. This is an important element of internal control to reduce the risk of material misstatement.

Management's comments regarding corrective actions planned or taken

Management concurs with the importance of identifying adjustments necessary for financial statements to be fairly stated. To this end, staff has implemented additional procedural controls when preparing the year-end books for audit. Adjustments to record accrued interest in the Redevelopment Agency and to record reclassifications of Land and Land Held for Redevelopment have been added to the year-end process.

The City's written responses to the other matters identified in our audit are described above. We did not audit the City's responses, and accordingly, we express no opinion on them.

This communication is intended solely for the information and use of management, City Council, and others within the organization, and is not intended to be used by persons other than those specified parties.

Moreno Valley, California

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Moreno Valley ("the City") for the year ended June 30, 2008, and have issued our report thereon dated February 20, 2009. Professional standards require that we provide you with the following information related to our audit.

Our Responsibility under U.S. Generally Accepted Auditing Standards

Our responsibility, as described by professional standards, is to express opinions about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

Our responsibility is to plan and perform the audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement. In planning and performing our audit, we considered the City's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. We also considered internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with U.S. Office of Management and Budget (OMB) Circular A-133.

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit. Also in accordance with OMB Circular A-133, we examined, on a test basis, evidence about the City's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement applicable to its major federal program for the purpose of expressing an opinion on the City's compliance with those requirements. While our audit provides a reasonable basis for our opinion, it does not provide a legal determination on the City's compliance with those requirements.

Audit Focus and Scope of the Audit

An audit performed in accordance with auditing standards is designed to provide reasonable assurance of detecting errors or misstatements involving amounts significant to the financial

statements of the City. Risks of significant error or misstatement addressed by the audit process include the following:

- Fraud risk for cash receipts and cash disbursements
- Risk of material fraud or misstatement associated with investments
- Risk of improper revenue recognition
- Risk of improper classification of expenditures
- Risk of errors associated with identifying capital asset additions and deletions
- Risk of unallowable transfers between funds

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the City are described in note one to the basic financial statements.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

Examples of significant judgments and estimates reflected in the City's financial statements and disclosures include:

- Judgments concerning which capital projects represent ordinary maintenance activities necessary to keep an asset operational for its originally intended useful life versus significant improvement, replacement, and life extending projects that should be capitalized as additions to capital assets.
- Estimates involving revenues and expenses to be accrued as of year end.
- Estimates for valuation of investment fair market values.

Significant Difficulties in Performing the Audit

We encountered no difficulties in performing our audit.

Adjustments

Professional standards require us to report to you all known and likely adjustments identified during the audit, other than those that are trivial. Adjustments reflected in the financial statements included adjustments to accrue bond interest payable and to reclassify land as land held for redevelopment.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that

could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have obtained certain representations from management that are included in the management representation letter dated February 20, 2009.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion." If a consultation involves application of an accounting principle to the City's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the City's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of the City Council and management of the City and is not intended to be and should not be used by anyone other than these specified parties.

MEMORANDUM

To: Mayor and City Council

From: Barry Foster, Economic Development Director

Date: February 23, 2009

Subject: FORECLOSURE PREVENTION EVENTS

Staff wishes to provide a follow-up to Councilmember Flickinger's email of February 22 about the upcoming Foreclosure Prevention events.

The Neighborhood Preservation Division of the Economic Development Department had planned for a Foreclosure Prevention Kick-off event for this Saturday, February 28, to be followed by five local workshops for residents who may not have been able to attend the Kick-off event.

Staff's direction has always been to spread these local workshops throughout all five City Council districts. Because of limited facility availability of schools and accommodations made for councilmember schedules, two workshops had to be planned for locations that are relatively close together (Sunnymead Elementary and Sunnymead Middle Schools), though they are actually situated in two different Council Districts and spaced five weeks apart.

Regrettably, an error was made in the selection of a location for District 4. In the coordination of dates, locations, school use availability, and councilmember boundary lines, a mistake was made in identifying the name of the school for the District 4 event. Unfortunately, this resulted in two workshops being conducted in District 3 and none scheduled in District 4 – which is an area identified by HUD to be at significant risk of foreclosures. Staff accepts full responsibility for this mistake.

To rectify this error, staff is proposing to implement the following action plan:

- Continue with the five workshops as currently scheduled and located to prevent confusion that residents could experience if they received one of the 20,000+ flyers already distributed. Please note, all events are open to all City residents.

- Keep the already printed flyers and continue with the planned distribution in the Press Enterprise this Friday. In this way, attraction to Saturday's Kick-off event is not jeopardized.
- Add a NEW workshop to serve the residents of District 4. The following dates are being tentatively considered, pending confirmation of Councilmember Flickinger's schedule and Val Verde Unified School District facility availability (Rainbow Ridge Elementary School or Red Maple Elementary School):
    - Mon 4/6,
    - Wed 4/8,
    - Mon 4/27,
    - Wed 4/29,
    - Thurs. 4/30.
- Implement a supplemental marketing plan:
    - Direct HUD to conduct a second mailing to all 30, 60, 90-day delinquent properties (those having received a Notice of Default) at no cost.
    - Revise and reprint event flyers for future distribution.
        - Add the new Date / Location for District 4 event.
        - Change graphic or add "by popular demand / recognizing the need for another event..."
    - Run a third Press Enterprise insert timed a few weeks in advance of the District 4 workshop, as well as the other April events.
    - Revise website to reflect new information.
    - Revise MVTV3 slide to reflect new information.
    - Provide Chambers with information on the NEW District 4 event.
    - Redistribute flyers to churches in District 4.

Strong attendance at all three local workshops in District 3 and 4 is expected, given the foreclosure projections by HUD. The additional workshop will provide extra support to key areas most severely affected by the foreclosure crisis. As an FYI...Neighborhood Preservation has received nearly 185 RSVPs for this Saturday's Kick-Off event.

Economic Development - Neighborhood Preservation sincerely apologizes to Councilmember Flickinger for this error and the confusion it caused. Staff is committed to working hard with all the events to help with Foreclosure Prevention in the community. Please contact me with any questions.

MEMORANDUM

To: Mayor and City Council

From: Robert G. Gutierrez, City Manager

Date: February 18, 2009

Subject: Shovel-Ready Projects Submitted for Federal Economic Stimulus Funds

Mayor Pro Tem Flickinger recently requested information on the "shovel-ready" projects the City submitted for federal economic stimulus funds along with who these submittals were made to. Below is a summary of this information.

Building Projects

The new library building at the Civic Center, both phases, was submitted to the California Library Association who in turn provided this information to the American Library Association (ALA) which had responsibility for compiling the report on the requests for shovel-ready projects throughout the nation. This report was submitted to the Obama-Biden Transition Team on December 17, 2008 and included for Moreno Valley's requests of $26.2 million for Phase 1 and $15 million Phase 2 for the new library building. It appears that funds for library construction were not specifically included in the economic stimulus package recently approved by the President.

Infrastructure Projects

Forty-four street, road and highway projects were included in the City's infrastructure funding request exceeding $534 million. The request was submitted to Caltrans and to the Riverside County Transportation Commission (RCTC). A detailed listing of these projects is attached. Funds for infrastructure projects are included in the approved economic stimulus package. It is anticipated that they will flow through the states. In California, it is likely that Caltrans will receive a significant portion of these funds and at the county level the funds will likely be allocated to projects by RCTC. At this point in time, we are not aware of any infrastructure funds which will come directly to Moreno Valley.

In addition to the capital funding requests made through the federal economic stimulus process, the following projects were submitted to our federal representatives for funds through the annual federal funding authorization process:

- $1.0 million for the Heacock and Cactus Channels (March Air Reserve Base flood protection project)
- $1.5 million for Edgemont Water Service Program
- $0.4 million for Emergency Operations Center Equipment

- $0.4 million for Law Enforcement Technology
- $0.4 million for Digitization/Preservation of Historical Documents (Erna Sun collection)
- $0.5 million for Gang Prevention Program
- $0.3 million for Youth Jobs Program

The City's federal lobbyist is assisting with these funding requests. We are hopeful to receive funds through this funding effort similar to what was received last year.

If additional information is needed on the City's federal funding requests, please let me know.

C/O: Manual Topete
22570 Alessandro Boulevard
Moreno Valley, Ca 92553

Mr. Topete,

This letter is sent to memorialize our meeting at your property with Mayor Richard Stewart, John Terell and myself regarding on-going signage violations.

At the meeting, you indicated that you intended comply with the Municipal Code with the exception of the neon lights lining the windows of both your buildings. Staff stated that neon lights may be subject to approval with some modifications and an application submittal to the Planning Division requesting that the lights be considered an architectural element. You stated that you would submit the application for the neon and would also comply with the remaining violations by doing the following;

22570 Alessandro

- Apply for wall permit sign for middle sign facing Alessandro, which could include adding integrated neon accents up to 10% of store frontage.
- Replace east and west signs facing Alessandro with solid white plexiglas panels.
- Remove all neon signs from windows.
- Remove neon from parapet(s).

14340 Elsworth

- Remove parapet sign on the store.

COPY

Staff has granted you an extension until April 1, 2009, to perform/complete all the above including submitting the application to Planning reference the neon. During the extension, you will not receive staff correspondences (i.e. Warnings, Notices or Citations) nor will staff conduct reinspections of the site.

Should you have any questions or require additional assistance regarding this matter, please contact me at [redacted] or via email at alb@moval.org. Thank you.

Sincerely,

Al Brady
Code and Neighborhood Services Official

MEMORANDUM

CITY COUNCIL
MORENO VALLEY
RECEIVED
09 FEB 13 PM 2:45

To: Mayor and City Council
Robert G. Gutierrez, City Manager

From: Steve Elam, City Treasurer

Date: February 10, 2009

Subject: Monthly Investment Report

Attached is the Monthly Investment Report for the month ended November 30, 2008. All investments comply with California Government Code Section 53601 as to the types of investments allowed and the limits of each type. In addition, all investments comply with the City's annually adopted Investment Policy.

As background information, each quarter the City Council receives a Quarterly Investment Report at a regular City Council meeting. In the two months that fall between these Quarterly Investment Reports, a Monthly Investment Report is submitted to the City Council and City Manager via internal memorandum. This reporting process ensures that the Council and City Manager are kept apprised regarding the City's investments on a monthly basis, and that full public disclosure is made on a quarterly basis.

During the month of November, investments in corporate notes with a principal value of $4 million were sold at a net gain of $68,160. This action was taken to reduce the City's investment portfolio risk given the recent destabilization of the financial markets, consistent with the strategy discussed with the City Council on September 23, 2008. The proceeds from these sales were immediately reinvested in instruments that do not have the current risk associated with corporate notes, although they will also provide a lower yield.

Please do not hesitate to contact me should you have questions or need clarification on any information presented in the attached report.

MORENO VALLEY
WHERE DREAMS SOAR

CITY OF MORENO VALLEY
Parks and Recreation Department
Administration

CITY COUNCIL
MORENO VALLEY
RECEIVED
09 FEB -6 PM 3:32

MEMORANDUM

To: Mayor and City Council
Robert G. Gutierrez, City Manager

From: Michael McCarty, Director of Parks and Community Services

Date: February 5, 2009

Subject: Update on Parks and Community Services Department Major Projects and Center Rentals

1. College Park Phase II

Project Description: Located within Riverside Community College Moreno Valley Campus, the park contains two soccer fields and a tot lot. Phase II build out will include an amphitheater and sports lighting. The current Phase II improvements will only include the sports field lighting.

Status: Staff has supplied RCC-MV the plans and specifications for the sports field lighting. RCC is currently working on CEQA (which takes considerable time), drafting specifications, and bid documents for the project. At the meeting of August 13, 2008, reviewed RCC's responsibilities to take the lead on the project and put out to bid.

2. Rock Ridge Park and Cold Creek Trail Head (Beazer Homes Development)

Project Description: A pocket park and trail head located east of Nason Street, south of Eucalyptus Avenue. The park will have tot lots for ages 2-5 and 5-12, two covered picnic structures, drinking fountains, monument signage, and security lighting. The trail head will tie into a multi-use trail. Amenities include a picnic structure, drinking fountains, security lighting, and a parking lot. It is expected that the park will be completed by spring 2009, and opened early summer.

Status: The developer is in the process of installing picnic shelters and plant material.

3. Cottonwood Park

Project Description: Located on the northeast corner of Indian St. and Cottonwood Ave., the park site is approximately 7 acres in size. The park construction is funded

MV00233488

by bonds administered by the Moreno Valley Redevelopment Agency. The site will be adjacent to a fire station, which will be designed and constructed concurrently.

Status: Due to elimination of the fire station from the site, the project has been put on hold indefinitely.

4. Sheila Street / Filaree Avenue Neighborhood Park

Project Description: Located on the south corner of Perris Blvd. and Filaree Ave., the park site is approximately one-half acre in size. Funding for the park is administered by the Moreno Valley Redevelopment Agency. Planned amenities include play apparatus, two basketball half-courts, benches, and water conserving landscaping.

Status: The project is in design with Economic Development taking the lead. Citizens attending the community neighborhood meeting on January 14, 2009, approved a conceptual design for the park. Additionally, they decided they would like the park to be called 'Patriot Park'. A staff report will be going to the City Council with the citizens' recommendation. Anticipated opening is in 2010.

5. Cell Towers at JFK Park

Project Description: The two telecommunication providers will occupy one building, located just outside the outfield on first base. Each company will occupy a ball field light standard with their antennae.

Status: One of the telecommunications providers has elected to withdraw from the project. Over the next few months, staff will be working on final building design for cellular equipment and corresponding license agreement with the remaining provider.

6. Cell Tower at TownGate Park

Project Description: A telecommunication provider will occupy one building and a ball field light standard with their antennae.

Status: City Council approved the License Agreement with the applicant on November 25, 2008. Construction is anticipated to commence in winter/spring 2009.

7. Cell Tower at Weston Park

Project Description: A telecommunication provider will occupy one building and a monopine with their antennae.

Status: The project started construction on September 24, 2008. The estimated completion is March 2009.

CITY MANAGER'S OFFICE

MEMORANDUM

To: Mayor and Members of the City Council

From: Robert G. Gutierrez, City Manager

Date: January 29, 2009

Subject: Press-Enterprise Headlines re: Retirement Offers

I am sharing the attached Press-Enterprise articles for your information. Each article addresses early retirement incentives offered to employees of Riverside County and Moreno Valley, respectively. While the articles are well-written, factual accounts of very similar "golden handshake" programs offered by these agencies just two months apart, please note the difference in tone of the headlines (Moreno Valley "sweetens" its offer).

Riverside County offers early retirement packages to employees

TO LISTEN TO STOR

Download story podcast

08:58 PM PST on Wednesday, November 26, 2008

By JULIA GLICK
The Press-Enterprise

Riverside County is offering incentives for thousands of employees to retire early at the start of next year, a move officials say could save millions of dollars and reduce the need for future layoffs.

The Board of Supervisors approved a plan last week that would boost retirement benefits to retirees 50 and older who have worked five or more years for the county. They must retire between Jan. 1 and March 31 to qualify, according to county documents.

The county will save money by reducing the number of longtime employees, who generally earn more than less experienced employees with the same job title. Department heads would not be permitted to hire new people to replace them.

"The goal is to reduce the cost of county government substantially over the next couple of years," said county Human Resources Director Ron Komers. "This will accomplish that by elimination of positions, by allowing restructuring, by paying the people less who perform the work."

More than 3,400 county employees would be eligible for early retirement. The county is offering to subsidize their medical plan rates until 2011 and increase pensions by giving early retirees credit for two additional years of service.

The county is hoping at least 5 percent of eligible employees -- about 170 people -- take the package, Komers said. County staff estimates that such a response would cost the county about $11 million for the incentives but save more than $15 million annually in salaries and benefits.

Riverside County employs about 19,300 permanent employees.

The county's property tax revenues have flattened and are expected to decline next year, the county executive officer has cautioned . Recovery could take several years or more.

County Executive Officer Bill Luna has asked department heads to slash their budgets by 25 percent over the next four years. This month he capped staffing in all departments at current levels.

Moreno Valley sweetens its offer for early retirement

10:00 PM PST on Wednesday, January 28, 2009

By DAN LEE
The Press-Enterprise

Moreno Valley will offer its employees an incentive to retire early as a means of cutting expenses and avoiding layoffs.

The City Council approved a plan Tuesday to give workers credit for two additional years' service with the California Public Employees' Retirement System if they decide to apply for early retirement.

"We're making it available, and it's voluntary," City Manager Bob Gutierrez said by phone.

CalPERS provides retirement and health benefits to more than 1.6 million public employees in California.

Benefits are calculated by age, salary and length of service in CalPERS, so getting credit for two more years of service would increase those benefits.

Having employees retire early would save Moreno Valley money on salaries and benefits.

The city would have to pay CalPERS to give the employees the two years' credit, but that cost would be paid out over 20 years, city Human Resources Director Chris Paxton said by phone.

Workers must be at least 50 years old, have been a member of CalPERS for at least five years and must file for retirement between March 28 and June 26, Paxton said.

About 135 employees are eligible, he said.

John Adams, a spokesman for the Moreno Valley City Employees Association, which represents more than 200 city workers, said he does not know how many people might take the offer.

Riverside County and other agencies have made similar offers and only a handful of employees responded, Paxton told the council.

City officials expect at least a $5 million shortfall in the current fiscal year because sales and property tax revenues are not meeting projections.

Four city employees were laid off and 40 vacant employee positions were eliminated in cost-cutting moves last fall.

MV00233502

The City Council decided in June not to take a 10 percent pay increase for the current fiscal year, saving $6,780.

About $51,000 is being saved because Gutierrez and city department heads have decided not to take a 2 percent cost-of-living salary increase for at least one year.

CITY COUNCIL
MORENO VALLEY
RECEIVED
09 JAN -8 PM 1:33

MEMORANDUM

To: Mayor and City Council
Robert G. Gutierrez, City Manager

From: Michael McCarty, Director of Parks and Community Services

Date: January 8, 2009

Subject: Update on Parks and Community Services Department Major Projects and Center Rentals

1. College Park Phase II

Project Description: Located within Riverside Community College Moreno Valley Campus, the park contains two soccer fields and a tot lot. Phase II build out will include an amphitheater and sports lighting. The current Phase II improvements will only include the sports field lighting.

Status: Staff has supplied RCC-MV the plans and specifications for the sports field lighting. RCC is currently working on CEQA, drafting specifications, and bid documents for the project. At the meeting of August 13, 2008, reviewed RCC's responsibilities to take the lead on the project and put out to bid.

2. Rock Ridge Park and Cold Creek Trail Head (Beazer Homes Development)

Project Description: A pocket park and trail head located east of Nason Street, south of Eucalyptus Avenue. The park will have tot lots for ages 2-5 and 5-12, two covered picnic structures, drinking fountains, monument signage, and security lighting. The trail head will tie into a multi-use trail. Amenities include a picnic structure, drinking fountains, security lighting, and a parking lot. It is expected that the park will be completed by January 2009.

Status: The developer is in the process of installing play equipment, picnic shelters, lighting, and plant material.

3. Cottonwood Park

Project Description: Located on the northeast corner of Indian St. and Cottonwood Ave., the park site is approximately 7 acres in size. The park construction is funded by bonds administered by the Moreno Valley Redevelopment Agency. The

MV00233504

following amenities are planned for the park: play apparatus, picnic shelters, restroom, benches/tables, water conserving landscaping, and a parking lot. The site will be adjacent to a fire station, which will be designed and constructed concurrently.

Status: The project is currently on hold.

4. Sheila Street / Filaree Avenue Neighborhood Park

Project Description: Located on the south corner of Perris Blvd. and Filaree Ave., the park site is approximately one-half acre in size. Funding for the park is administered by the Moreno Valley Redevelopment Agency. Planned amenities include play apparatus, two basketball half-courts, benches, and water conserving landscaping.

Status: The project is in conceptual design. Anticipated opening is in FY 2009/2010.

5. Cell Towers at JFK Park

Project Description: The two telecommunication providers will occupy one building, located just outside the outfield on first base. Each company will occupy a ball field light standard with their antennae.

Status: Over the next few months, staff will be working on final building design for cellular equipment and corresponding license agreements.

6. Cell Tower at TownGate Park

Project Description: A telecommunication provider will occupy one building and a ball field light standard with their antennae.

Status: City Council approved the License Agreement with the applicant on November 25, 2008. Construction is anticipated to commence soon.

7. Cell Tower at Weston Park

Project Description: A telecommunication provider will occupy one building and a monopine with their antennae.

Status: The project started construction on September 24, 2008. The estimated completion is March 2009.

MV00233507

Highway 60/Nason Street

Development Activity

- Development under construction in immediate area includes Stoneridge Towne Centre, Stoneridge – Beazer, Savannah – Richmond American, Beachwood – Granite Homes, and Autumn Glen – Young Homes.
- Area is also access way to three schools, RCRMC, Aquabella and several new and/or existing housing developments between Dracaea and Cactus.

Challenges to Consider

- Timing of the two-phase Highway 60/Nason Interchange improvement project.
- Need to do "interim" traffic improvements to ensure effective traffic flow through the area.
- Interchange offramps operate at LOS E during peak hour traffic volumes (7 to 9 a.m. and 4 to 6 p.m.)

Proposal

- City/RDA to facilitate installation of two "interim" traffic signals at 60/Nason (east bound and west bound).
- Installation of interim traffic signals will improve peak hour operation to LOS C or better and avoid queuing problems.
- Cost for installation (prevailing wage/competitive bid) of two signals is estimated at $500,000.
- City/RDA to contract with Stoneridge Town Centre/Beazer to install the "interim" signals through a Reimbursement Agreement.
- City to borrow the RDA the funds to reimburse the Developer.
- RDA to repay the City's Capital Reserve fund over a 3-year period with interest.

Subject: New Departing Municipal Load Charges

Dear Mr. Ketcham:

This letter is in response to your e-mail dated December 13, 2008 that was addressed to the City Council members for the City of Moreno Valley. Your e-mail referenced the December 4, 2008 notice to Moreno Valley Utility (MVU) customers regarding Edison's efforts to bill and collect New Municipal Departing Load (NMDL) charges.

As stated in the December 4, 2008 notice, MVU believes the NMDL charge contemplated by Edison is inappropriate. MVU customers never received service from Edison. Therefore, there should not be any charges due to Edison from MVU customers for services never received. The purpose of the notice was to make sure that our customers were fully apprised of the issue in case Edison attempted to collect these fees outside the ongoing discussions between Edison and the City.

The City Council is committed to provide safe, reliable, and reasonably priced electric service to the citizens of Moreno Valley. To that end, the City Council authorized the financing of significant utility distribution infrastructure in March of 2007. That financing included the construction of the Moreno Valley Substation located just south of Cottonwood Avenue and west of Moreno Beach Drive. This facility was energized in September 2007. Prior to September 2007, there were some power outages which were caused primarily by the Edison source for the MVU system. The new substation now provides a significant improvement to the reliability for MVU customers. As a result, the frequency of power outages has been greatly reduced.

The primary MVU office is located at 14325 Frederick Street, Suite 9 in Moreno Valley, just south of City Hall. Customers can make payments, obtain information, and meet with MVU representatives Monday through Friday during business hours. As you indicate in your e-mail, there is indeed a call center located in Hemet that supports

MVU. The Hemet call center is staffed 24 hours per day by employees under contract with the City and call center representatives can be contacted by reaching calling a toll free number [redacted]. The cost to provide customer service 24 hours per day and 365 days per year is significant. The call center provides service for other enterprises besides MVU. Combining call center services permits the City to provide 24 hour service at reasonable cost to the City. When MVU was established almost five years ago, this location for the combined call center was identified as the least cost approach.

MVU has opposed and will continue to oppose the imposition of fees on MVU customers for services never provided. In fact, the City itself is in the same position that you are in this regard. Since City facilities are served by MVU, the City is an affected customer as well as the utility service provider. MVU will not abandon our customers. We are continuing to work with Edison and our own team to work towards a resolution for all MVU customers. Should the ongoing process fail to reach a resolution, MVU would continue to stand with its customers in opposing this unwarranted charge.

Sincerely,

George Hanson
Electric Utility Division Manager

Subject: Update on Parks and Community Services Department Major Projects and Center Rentals

1. College Park Phase II

Project Description: Located within Riverside Community College Moreno Valley Campus, the park contains two soccer fields and a tot lot. Phase II build out will include an amphitheater and sports lighting. The current Phase II improvements will only include the sports field lighting.

Status: Staff has supplied RCC-MV the plans and specifications for the sports field lighting. RCC is currently working on CEQA (which takes considerable time), drafting specifications, and bid documents for the project. At the meeting of August 13, 2008, reviewed RCC's responsibilities to take the lead on the project and put out to bid.

2. Rock Ridge Park and Cold Creek Trail Head (Beazer Homes Development)

Project Description: A pocket park and trail head located east of Nason Street, south of Eucalyptus Avenue. The park will have tot lots for ages 2-5 and 5-12, two covered picnic structures, drinking fountains, monument signage, and security lighting. The trail head will tie into a multi-use trail. Amenities include a picnic structure, drinking fountains, security lighting, and a parking lot. It is expected that the park will be completed by spring 2009, and opened early summer.

Status: The developer is in the process of installing picnic shelters and plant material. Rain has adversely affected the project's timing. Each rain costs a few days on delays. The benefits of this will be a longer plant establishment time.

MV00233514

3. **Patriot Park (Sheila Street / Filaree Avenue)**

Project Description: Located on the south corner of Perris Blvd. and Filaree Ave., the park site is approximately one-half acre in size. Funding for the park is administered by the Moreno Valley Redevelopment Agency. Planned amenities include play apparatus, benches, and water conserving landscaping.

Status: Construction plans are in process. Anticipated opening is in 2010.

4. **Cell Towers at JFK Park**

Project Description: A telecommunication provider will occupy one building and a ball field light standard with their antennae.

Status: Staff is working on final building design for cellular equipment and corresponding license agreement.

5. **Cell Tower at TownGate Park**

Project Description: A telecommunication provider will occupy one building and a ball field light standard with their antennae.

Status: City Council approved the license agreement with the applicant on November 25, 2008. Construction is anticipated to commence in winter/spring 2009.

6. **Cell Tower at Weston Park**

Project Description: A telecommunication provider will occupy one building and a monopine with their antennae.

Status: The project started construction on September 24, 2008. The estimated completion is spring 2009.

7. **Aqueduct Bikeway Improvements Indian to Fay**

Project Description: Aqueduct bikeway and landscaped trail head improvements in the DWR section from the southeast corner of Indian and JFK to approximately 200' past Fay Ave.

Status: This project will start construction this spring. Anticipated opening is fall/winter 2009.

MORENO VALLEY
WHERE DREAMS SOAR

CITY COUNCIL
MORENO VALLEY
RECEIVED
09 JAN 26 PM 2:20

Financial & Administrative Services Department

MEMORANDUM

To: Mayor and City Council
Robert G. Gutierrez, City Manager

From: Steve Elam, City Treasurer

Date: January 22, 2009

Subject: Monthly Investment Report

Attached is the Monthly Investment Report for the month ended October 31, 2008. All investments comply with California Government Code Section 53601 as to the types of investments allowed and the limits of each type. In addition, all investments comply with the City's annually adopted Investment Policy.

As background information, each quarter the City Council receives a Quarterly Investment Report at a regular City Council meeting. In the two months that fall between these Quarterly Investment Reports, a Monthly Investment Report is submitted to the City Council and City Manager via internal memorandum. This reporting process ensures that the Council and City Manager are kept apprised regarding the City's investments on a monthly basis, and that full public disclosure is made on a quarterly basis.

Please do not hesitate to contact me should you have questions or need clarification on any information presented in the attached report.

CITY COUNCIL
MORENO VALLEY
RECEIVED

09 NOV 18 PM 4:58

MORENO VALLEY
CITY MANAGER'S OFFICE

MEMORANDUM

To: Mayor Richard Stewart and Members of the City Council

From: Robert G. Gutierrez, City Manager

Date: November 16, 2009

Subject: INFORMATION REGARDING THE SLPP GRANT APPLICATIONS OF HIGHLAND FAIRVIEW

In early August, City Staff met with representatives of Highland Fairview to discuss the City filing for four State-Local Partnership Program (SLPP) grant applications on behalf of Highland Fairview. The four projects were: the construction of Eucalyptus Avenue, Redlands Boulevard, and Theodore Street associated with its Highland Fairview Corporate Park (HFCP) project and Cactus Avenue associated with its Aquabella aged-restricted housing project. By way of background, The Highway Safety, Traffic Reduction, Air Quality, and Port Act of 2006, commonly referred to as Proposition 1B, includes funding for two, State-Local Partnership Programs (SLPP). The first program is a formula grant program in which a city must have a voter-approved tax and/or fee to qualify. Measure A qualifies as a local match. The second SLPP program is a competitive grant program and is the source of Highland Fairview's request. A local city must have in place its own development impact fee for transportation related improvements to serve as matching funds. The City's DIF and TUMF programs qualify.

The California Transportation Commission (CTC) will be the responsible agency in awarding SLPP competitive grant program funds and Caltrans will have local oversight. A brief summary of the grant is as follows:

- The SLPP requires a local match (100%) of a uniform traffic mitigation fee up to a grant request of $1,000,000. DIF and TUMF would qualify.
- The City is the grant applicant in that the funds must be distributed by the City from its DIF/TUMP program. The State would reimburse the City for the improvements.
- The project must be prevailing wage and must follow the Public Contract Code.
- The projects must be constructed in 2010. The SLPP Guidelines state the grant recipient may have two additional years to complete the project.
- A request for SLPP grant funds must include the signature of the Chief Executive Officer or other authorized officer of the implementing agency in order for the

application to be considered and filed with the CTC by August 15 (since the 15th was a Saturday, applications were accepted until the close of business on Monday, August 17).

- The Agency will commit to have the available funds upon submittal of a grant nomination to CTC.

Highland Fairview prepared the necessary SLPP grant applications, obtaining the necessary signature and filed the request for funding on August 17.

The City received notice from the Commission and Department of Transportation, Local Assistance staff that two of Highland Fairview's proposed projects for State-Local Partnership Program (SLPP) 1-B competitive grant funds are being recommended to the Commission for funding. The two SLPP applications are: Cactus Avenue Street Improvements and Eucalyptus Street Improvements. Each application requested funding in the amount of $1 million.

We have been advised that on October 15, 2009, the California Transportation Commission took action to approve Highland Fairview's grant applications for the two projects. Based on the representation to City Staff that Highland Fairview would fully fund its projects, the City is requesting Highland Fairview deposit the necessary funds to match and construct the two projects with the City prior to the Commission's hearing dates (Cactus Avenue project is estimated to cost $6,350,000 and Eucalyptus Street Improvements $6,265,915). A copy of the letter staff sent to Highland Fairview advising them of the same is attached for your information.

The SLPP grant process requires an agency requesting grant funds to demonstrate evidence of matching developer fees. Since the City Council has not taken action to fund the two projects, staff is requesting Highland Fairview deposit the necessary funds with the City as soon as possible. Upon depositing the funds with the City, the two projects will be placed on the City Council agenda for its consideration of the grant funds and approval of the projects. If this does not occur, the Commission may remove the two projects from further consideration for the grant money due to lack of matching funds.

Please contact Chris Vogt if you have any questions on the information provided above.

Attachment: Letter to Highland Fairview dated November 16, 2009,
SLPP Grant Funds for the Cactus Avenue and Eucalyptus Avenue Improvements – Highland Fairview Properties

c: Bob Hansen, Interim City Attorney
Betsy Adams, Assistant City Manager
Chris Vogt, Public Works Director/City Engineer

CITY

1. Signage at truck driveways on Eucalyptus between Redlands and Theodore directing use of Theodore
2. Physical barriers to trucks on westbound Eucalyptus after HFCP Phase 3 opening
3. Work with Cal-Trans for placement of freeway signs on SR60 directing HFCP trucks to Theodore
4. Eliminate "Truck route" designation on Ironwood between Moreno Beach Drive and Theodore Street
5. Code Compliance and enforcement efforts for Commercial properties established
6. "Dark Sky" lighting guidelines considered for City lighting policy
7. AB811 (City finance of alternative energy installations)
8. Climate Action Plan prepared by City
9. Regional development impact fee to fund SR60 mainline improvements
10. Send a staff person to 6/12/09 AB811 conference

HIGHLAND FAIRVIEW

1. Provide information on trucks for Skechers distributors – distribution %, out-of-state trips % of total
2. Restrict distribution trucks entering Skechers facility to highest enforceable AQ standards and Smart Way 1.25 trucks as feasible
3. Average Tier II modifications to construction equipment
4. Carpooling incentives
5. Preferred parking for alternative fuel vehicles
6. Additional plug-in stations for electric vehicles
7. Added on-site solar to provide more than office demand based upon level of assistance from MV Utility.
8. Electric/propane yard goats
9. Attorney's fees
10. Disclosure to prospective residents of HF developments about nearby logistics project
11. Agricultural easement
12. Restrict diesel-powered portable generators during construction
13. Optimize energy efficiency of exterior lighting
14. Solar water heaters

SIERRA CLUB

1. Provide Agricultural Preserve contact information

PAUL GALTHER

[redacted]

PAUL6@SKECHERS.COM

Upon Phase 3 of the project, all vehicles over 10,000 pounds entering or exiting Phase 1 or Phase 2 facilities shall continue to utilize the Theodore Street entrances and exits to SR 60 unless the traffic study required prior to Phase 3 identifies compelling evidence that the failure to allow large vehicles to utilize the Redlands Ave. entrances and exits to SR 60 will cause the Theodore St. entrances and exits to SR 60 to exceed Level of Service standards of the City and that mitigation is unavailable to reduce impacts to acceptable levels and that allowing the use of Redlands Ave. will not result in any decrease in the Level of Service for Redlands Ave. for either links or intersections.

The applicant shall be responsible for constructing physical constraints on the project site itself, or within the right of way for Eucalyptus St. if approved by the City, installation of no right turn for trucks signs at Phase 1 and 2 project exits, shall pay for the installation of informational signs on SR 60 advising trucks to utilize Theodore street exits, and ~~shall subsidize City Code Enforcement in order to enforce the no right turn requirements.~~

Developer shall purchase an equal acreage (122.9 acres) of agricultural land in western Riverside County to compensate for the loss of acreage by the proposed buildings, parking lots, and roads. Satisfactory arrangements shall be made to ensure the perpetual use of this mitigation land for active agricultural purposes such as conveyance to an agricultural land conservancy.* AR 4716

~~All restaurants and food or beverage stores shall provide an electrical hookup for refrigeration units on delivery trucks. Trucks incapable of utilizing the electrical hookup for powering refrigeration units shall be prohibited from accessing the site.~~ All leasing documents shall include these requirements and provide that violation of those provisions will constitute a material breach of the lease that will result in the termination of the lease. Because of the fact that these terms of the lease are designed to benefit the public, the public shall be considered to be a third party beneficiary with standing to enforce the requirements of the lease.* AR 4717

Install high pressure injectors on diesel construction equipment.* AR 4718

Install catalytic converters on gasoline-powered equipment.* AR 4718

~~Minimize construction worker trips by requiring carpooling and providing for lunch onsite.* AR 4718~~

Require each user to establish a carpool/vanpool program.* AR 4718

~~Implement parking cash-out program for non-driving employees.* AR 4719~~

~~Implement a compressed workweek schedule.* AR 4719~~

Provide electrical vehicle ('EV") and compressed natural gas ('CNG') vehicles in vehicle fleets.* AR 4719

~~Install EV charging facilities for a minimum of 10% of all parking spaces.* AR 4719~~

Provide preferential parking locations for EVs and CNG vehicles.* AR 4719

Utilize electrical equipment for landscape maintenance.* AR 4719

Utilize only CARB certified equipment for construction activities.* AR 4719

~~Provide subsidies or incentives to employees who use public transit or carpooling including preferential parking.* AR 4719~~

~~Plant shade trees in parking lots to provide minimum 50% cover to reduce evaporative emissions from parked vehicles.* AR 4719~~

Deleted: THRESHOLD FOR DETERMINING SIGNIFICANCE¶
For the purposes of this EIR, a significant impact would occur if implementation of¶ General Plan Alternatives 1, 2, or 3 would:¶
• *Convert Prime Farmland, Unique Farmland, or Farmland of Statewide¶ Importance (Farmland) to non-agricultural use;¶*
• *Conflict with existing zoning for agricultural use, or a Williamson Act contract;¶*
or¶
• *Involve other changes in the existing environment which, due to their location or¶ nature, could result in conversion of Farmland to non-agricultural use.¶*
(General Plan FEIR P 5.8-7)¶
¶
• Purchasing conservation easements on existing agricultural land to ensure that¶ the land is never converted to urban uses;¶
(General Plan FEIR P 5.8-8)¶

Formatted: Strikethrough

Formatted: Strikethrough

Formatted: Strikethrough

Formatted: Strikethrough

Formatted: Strikethrough

Utilize electric yard trucks.* AR 4719

All buildings shall be constructed to LEED ~~Platinum~~ standards.* AR 4719

The Project shall meet SmartWay 1.25 ratings.* AR 4719

The project shall use only freight companies that meet SmartWay 1.25 ratings.* AR 4719

Extend grading period sufficiently to reduce air quality impacts below a level of significance. AR 4719

~~Provide double glazing for all residents adjacent to or immediately across the street from the project. AR 4720~~

~~Provide temporary noise barriers during project construction. AR 4720~~

~~Trucks should be prohibited from using entrances~~ and exits after the hours of 7:00 p.m. and on Sundays. AR 4720

~~No generators shall be allowed.* AR 4720~~

The Project shall be required to construct renewable energy sources sufficient toprovide 100% of all electrical usage for the entire Project. AR4721

~~The Project shall be required to construct renewable energy sources sufficient to offset the equivalent of 100% of all greenhouse gas emissions from mobile sources (internal combustion engines) for the entire Project. AR 4722~~

The Project shall be prohibited from installing any air conditioning in any space where the electrical demand is not totally offset by the production of electricity from renewable resources. AR 4722

~~A project design mitigation measure limiting the building height to 25 feet would preserve the present scenic vista from the highway AR 4801~~

~~As such a mitigation measure reducing the height of the structure to preserve some of the scenic vistas should be imposed. AR4809~~

A feasible mitigation measure worthy of consideration would be for the intended warehouse tenant Sketchers Corporation to commit to operating the facility with trucks equipped only with the latest air pollution abatement technology including diesel soot filters. ~~A simple contract condition in the Sketchers trucking agreements could implement such a program thereby mitigating the project health burdens imposed on the community. AR4801~~

Deleted: ¶

Formatted: Strikethrough

Add a mitigation measure to assure that the site lighting is compatible with "Dark Sky" specifications. AR4801

Add mitigation measures requiring a percentage of the business's personal or contracted vehicle fleet (diesel trucks), operating to and from the site, to be low or zero emission vehicles. All diesel trucks delivering to the site shall include soot filters or the latest technological equipment available. AR4801

~~Additionally, require the installation of photovoltaic solar panels over the massive roof area of the facility to offset fuels use to generate electricity. AR4801~~

Deleted: ¶

Formatted: Strikethrough

~~the SCAQMD recommends that MM AQ-I 3 is enhanced so that it specifies the conditions for approval of the General Plan Amendment, Change of Zone, Tentative Parcel Map and Plot Plan to preclude the establishment of residential and sensitive receptors of at least 500 feet from the property linear AR 4886~~

Formatted: Strikethrough

~~Therefore, in addition to MM AQ-I through AQ-I 0, SCAQMD staff recommends that the lead agency consider requiring the measures below to further mitigate PM10 emissions.~~

Formatted: Strikethrough

- ~~Alternative fueled off-road equipment or giving additional points in the job~~
- ~~bidding process to contractors who commit to using alternative fueled off-road~~
- ~~equipment.~~
- ~~All streets shall be swept at least once a day using SCAQMD Rule 1186 certified~~
- ~~street sweepers or roadway washing trucks if visible soil materials are carried to~~
- ~~adjacent streets (recommend water sweepers with reclaimed water);~~
- ~~Configure construction parking to minimize traffic interference;~~
- ~~Provide temporary traffic controls *such* as a flag person, during all phases of~~
- ~~construction to maintain smooth traffic flow.~~
- ~~Provide dedicated turn lanes for movement of construction trucks and equipment~~
- ~~on- and off-site.~~
- ~~Schedule construction activities that affect traffic flow on the arterial system to~~
- ~~off-peak hour to the extent practicable;~~
- ~~Reroute construction trucks away from congested streets and sensitive receptor~~
- ~~areas;~~
- ~~Improve traffic flow by signal synchronization~~

~~AR 4887~~

SCAQMD staff recommends modifying existing mitigation measures as follows.
MMAQ-2 All diesel powered construction equipment in use shall requires control equipment that meets, at a minimum Tier III emission requirements. In the event Tier III equipment is not available, diesel powered construction equipment in use shall require emissions control equipment with minimum of Tier II diesel standards.

~~MMA-4 During project construction, the developer shall require all contractors to turn off all construction equipment and delivery vehicles when not in use or prohibit idling in excess of 5 minutes. AR 4888~~

Formatted: Strikethrough

~~The SCAQMD recommends the lead agency consider the following additional mitigation measures to reduce diesel emissions which contribute to the projects overall impact:~~

- ~~Re-route truck traffic by adding direct off-ramps for the truck traffic or by restricting truck traffic on certain sensitive routes;~~
- Restrict operation to "clean" trucks, such as a 2007 or newer model year or 2010 compliant vehicle;
- ~~Use "clean" street sweepers compliant with SCAQMD Rule 1186.1;~~

~~Require or provide incentives to use CARB certified particulate traps that meet level 3 requirements; AR 4888~~

There should also be a clause that will insure that residents who buy these homes that are within close proximity to the Logistic Centers/warehouses are made aware of the health risks associated to the diesel sources that are in close proximity to their homes. AR 4905

~~Require all Heavy-duty Diesel Delivery Vehicles to Reduce Black Carbon Emissions: AR 4935~~

Require All Mobile Cargo Handling Equipment to Comply With the Emissions Standards for Port Equipment: AR 4935

~~The project should create incentives for early compliance with all regulatory reduction measures so that black carbon can be reduced as rapidly as possible. AR 4935~~

~~Designing buildings for passive heating and cooling, and Natural Light, including building orientation, proper orientation and placement of windows, overhangs, skylights, etc. AR 4947~~

~~Reducing the use of pavement and impermeable surfaces. AR 4947~~

Installing solar water heating systems to generate all of the Project's hot water requirements. AR 4949

~~Create a car sharing program within the planned community. AR 4950~~

~~Create a light vehicle network, such as a neighborhood electric vehicle (NEV) system. AR 4950~~

CITY ITEM 1

Signage at truck driveways on Eucalyptus between Redlands and Theodore directing use of Theodore

CITY ITEM 2

Physical barriers to trucks on westbound Eucalyptus after HFCP Phase 3 opening

Upon Phase 3 of the project, all vehicles over 10,000 pounds entering or exiting Phase 1 or Phase 2 facilities shall continue to utilize the Theodore Street entrances and exits to SR 60 unless the traffic study required prior to Phase 3 identifies compelling evidence that the failure to allow large vehicles to utilize the Redlands Ave. entrances and exits to SR 60 will cause the Theodore St. entrances and exits to SR 60 to exceed Level of Service standards of the City and that mitigation is unavailable to reduce impacts to acceptable levels and that allowing the use of Redlands Ave. will not result in any decrease in the Level of Service for Redlands Ave. for either links or intersections.

The applicant shall be responsible for constructing physical constraints on the project site itself, or within the right of way for Eucalyptus St. if approved by the City, installation of no right turn for trucks signs at Phase 1 and 2 project exits and shall pay for the installation of informational signs on SR 60 advising trucks to utilize Theodore street exits. City will be responsible for acquiring approval from Cal-Trans to post the SR-60 informational signs. City Code Enforcement will make reasonable efforts to enforce the no right turn requirements.

CITY ITEM 3

Work with Cal-Trans for placement of freeway signs on SR60 directing HFCP trucks to Theodore

Within 30 days of the execution of this agreement, the City shall submit a formal request to Caltrans for the construction of a sign or signs to be installed along the SR60 freeway directing all HFCP project traffic to the Theodore Street exit. The location, size, design and text of said sign(s) shall comply with all applicable Caltrans standards.

CITY ITEM 4

Eliminate "Truck route" designation on Ironwood between Moreno Beach Drive and Theodore Street

Within 30 days of the execution of this agreement, the City Manager, or designee, shall initiate the process to delete the "truck route" designation on Ironwood Avenue between Moreno Beach Drive and Theodore Street. IT IS UNDERSTOOD THE PUBLIC HEARING AND LEGISLATIVE PROCESS OF THE CITY COUNCIL WILL DETERMINE THE FINAL OUTCOME

HIGHLAND FAIRVIEW ITEM 1

Provide information on trucks for Skechers distributors – distribution %, out-of-state trips % of total

[Done]

HIGHLAND FAIRVIEW ITEM 2

Restrict distribution trucks entering Skechers facility to highest enforceable AQ standards and Smart Way 1.25 trucks as feasible

[To be discussed]

HIGHLAND FAIRVIEW ITEM 3

Average Tier II modifications to construction equipment

All off-road equipment with a horsepower rating of 25 hp or greater used during construction of the HFCP project shall meet a minimum Tier II rating, and 75% of said equipment shall meet a minimum Tier III rating. The percentage calculations shall be based upon the total count of the off-road equipment used.

HIGHLAND FAIRVIEW ITEM 4

Carpooling incentives

[To be discussed]

HIGHLAND FAIRVIEW ITEM 5

Preferred parking for alternative fuel vehicles

Prior to the occupancy of each building phase, parking stalls reserved for alternative fuel vehicles shall be provided. The plot plan for each building phase shall designate the number and location of all such stalls. After building occupancy, an annual review of building tenants shall be conducted by the property owner to determine the level of use of such vehicles and the demand for such reserved spaces. Spaces located closest to building entries shall be converted from general parking to alternative fuel vehicle parking to meet or exceed the demand.

HIGHLAND FAIRVIEW ITEM 6

Additional plug-in stations for electric vehicles

Prior to the occupancy of each building phase, plug-in stations (parking stalls) for electric vehicles shall be provided. The plot plan for each building phase shall designate the number and location of all such stalls. After building occupancy, an annual review of building tenants shall be conducted by the property owner to determine the level of use of such vehicles and the demand for such reserved plug-in stations. Additional plug-in stations shall be provided to meet or exceed the demand.

HIGHLAND FAIRVIEW ITEM 7

Added on-site solar to provide more than office demand based upon level of assistance from MV Utility.

[To be discussed]

HIGHLAND FAIRVIEW ITEM 8

Electric/propane "yard goats"

No diesel-powered "yard goats" shall be permitted.

Disclosure to prospective residents of HF developments about nearby logistics project

Draft Disclosure for New Residential buyers on Land owned by Highland Fairview

Buyer acknowledges that the property which Buyer is purchasing is located in the vicinity of the Highland Fairview Corporate Park project. See the attached map. In addition to commercial and office uses, there are or may be distribution warehouses for national and regional companies located within the project. As a result of these uses, there will be automobile and truck traffic, which may operate on a 24/7 basis for pickup and deliveries of products from the various buildings within the project. There may also be increased diesel fumes, noise and lights as a result of the operation of these facilities. For a complete environmental assessment of the Highland Fairview Corporate Park project, please review the Environmental Impact Report (EIR) for the project. Copies of the EIR are available from the City of Moreno Valley or from the sales/leasing staff at (project name).

Porous Pavement:

Use of porous pavements can offer benefits to reducing urban runoff and improving water quality. There is much published information regarding the use of porous pavement and most of this information, including that produced by the EPA-Urban Watershed Management Research, agrees on two basic criteria in consideration of its use:

1) The use of Porous Pavement is not suitable for heavy or high traffic areas.
2) Underlying soils must be sufficiently permeable and subgrade cannot be overly compacted.

Highland Fairview Corporate Park (HFCP) gave serious consideration, in the development of Parcel 1 (Skechers), to the use of permeable pavement as one of its design features to reduce runoff and address water quality. While the final design was unable to incorporate permeable pavement into the project, it did lead to incorporating design features that not only reduce urban runoff and improved water quality, it also achieves the goal of infiltrating runoff into the subsurface.

Early in design it was concluded that soil characteristics, compaction requirements and traffic impacts limited the practical use of permeable pavement. Permeable pavement contains little or no sand, creating the voids between the aggregate that make it permeable. The pavement relies upon a binder to hold the aggregate together, but without sand to fill the voids its strength is compromised, when compared to traditional pavement mixes. Its appearance has been compared to Rice Krispies treats. The weaker pavement combined with the heavy axle loads and high traffic areas of the truck yards and drive aisles, prohibit the use of permeable pavement. This limited our consideration of its use to the automobile parking and drive aisle areas.

The geotechnical studies found the site soil is comprised of silt, silty sand, and inter-bedded clay layers. This soil type along with the 95% relative compaction requirements make it nearly impermeable and would simply trap the runoff below the permeable pavement, saturating the base and subgrade, leading to pavement failure. Consideration was given to the use of a subdrain system to convey this water away from the base and subgrade and into the storm drain system. The concept addressed the saturation issue but was counter to the objectives of allowing enough time for runoff to infiltrate and remove pollutants. Use of permeable pavement in the auto parking and drive aisles was no longer a consideration.

The constraints and design effort led us in the direction of incorporating combined detention and water quality basins to address runoff and water quality. As design progressed, the water quality component of the combined basins changed from extended detention to infiltration. The benefit of infiltration basins not only enhanced the water quality treatment, but also ensured some degree of runoff recharge into the subsurface.

Parcel 1(Skechers) has 4 acres of combined detention and water quality basins along the north and south perimeters of the proposed parking and truck yard areas. These basins are designed as infiltration basins and intercept all the runoff from the parcel, which totals 82.6 acres. The basins are approximately 8 ft deep, the lower 2 feet of depth in these

basins have no outlet and will percolate into the soil. Select well draining material will be incorporated in the bottom of the basins during grading, to a minimum depth of 3 feet, to meet percolation requirements as conditioned by the city with the project approval.

The bottom 2 ft of these basins occupy an area of 2 acres, this equates to 4 acre-ft of volume that will percolate back into the soil. If you spread 4 acre-ft over the entire 82.6 acre site (Parcel 1) it would equate to one-half inch of water over the entire parcel area. It's conceivable this amount of percolation is similar to what is experienced in the undeveloped condition of the site, since the site has an existing slope of 2.5%. At a 2.5% slope and with a silty sand soil type, not much water would accumulate before it would find a way to runoff to the south.

The upper 6 ft of these basins serve as detention and will drain the accumulated runoff from high intensity storms over an extended period at a regulated rate. Detaining water over this extended period also allows additional time for percolation that the site is not experiencing in its current condition. In addition, the release of this detained water occurs immediately south of the project onto native soil where it works it way across undeveloped open area and in unlined drainage channels, for a distance of nearly 4 miles. This preserves the opportunity for runoff to infiltrate.

Parcel 1 totals 82.6 acres and includes the 1.8 million sf building with a footprint of 41.6 acres; truck drive aisles and loading areas total 18.1 acres; automobile parking areas total 6.8 acres; and landscaped open space areas total 16.1 acres. The landscaped open space areas are nearly 20% of the total site area, providing respectable opportunities for runoff mitigation and infiltration.

CITY COUNCIL
MORENO VALLEY
RECEIVED
09 MAY 26 PM 3:09

MEMORANDUM

R. Stewart

To: Mayor and City Council

From: John C. Terell, Planning Official

Date: May 22, 2009

Subject: Highland Fairview Corporate Park – Modifications to Conditions of Approval

On May 14, 2009, Highland Fairview Properties submitted applications requesting modifications to various conditions of approval for the Highland Fairview Corporate Park (Skechers). The requested changes involve two components of the project – medians and multi-use trails that would require a general plan amendment. The requested changes also affect over 50 conditions of approval in five general categories for two related projects – the tentative map and plot plan for the Corporate Park. The general categories and conditions of approval are identified in the attached letter from Highland Fairview. This letter was previously delivered to the City Council by Highland Fairview in April.

The request has been distributed by the Planning Division to project review staff in the various departments and divisions affected by the proposal. An internal project review staff committee meeting is set for next Tuesday to review the proposal. An initial response to the proposal will be provided to Highland Fairview within a few days after that meeting.

April 14, 2009

Mayor Richard Stewart and
Members of the City Council
City of Moreno Valley
14177 Frederick Avenue
Moreno Valley, CA 92552

SUBJECT: Modification to Conditions of Approval
Highland Fairview Corporate Park

Dear Mayor Stewart and Council Members:

Highland Fairview respectfully requests the City Council to consider the following conditions of approval imposed on the Highland Fairview Corporate Park project. As we brought up in the public hearing, these conditions are either unsuitable for the nature of this project or require unwarranted exactions that fail to meet the nexus requirement of the law. We request that the Council conduct its hearing on this matter at the earliest available opportunity in order to avoid any additional delays to the project.

1. **SR60 Landscaping**
   Existing Condition: Condition of Approval P14 on Tentative Parcel Map TPM 35629 (Resolution 2009-10) requires the preparation and processing of plans for the installation of landscaping and irrigation within the SR60 right-of-way adjacent to the project site in compliance with the SR60 Design Manual.

   Requested Action: Highland Fairview requests the removal of this condition.

   Justification: This condition has been inconsistently applied throughout the city and has been shown to be unproductive in many instances, ineffective in most cases, and arbitrary. Installation of such landscaping will only detract from the extensive landscaping designed for the project and will likely not be maintained by Caltrans. In some areas along the freeway some sparse landscaping has been installed but is very poorly maintained. In other areas, no landscaping has been installed. Currently, the freeway frontage is a mixture of areas of sparse, struggling landscape, and areas of barren, unmaintained land. Clearly, there has been no consistent application of the SR60 Design Manual criteria. To apply this requirement to the HFCP project is unreasonable.

   No project along the SR60 frontage includes a landscape treatment as extensive as that proposed with the HFCP project. Millions of dollars in landscaping and irrigation improvements are proposed to be installed along the freeway boundary, the sole purpose of which is to enhance the appearance of the project site as viewed from the freeway. The requirement to add additional basic landscaping within the freeway right-of-way will only detract from the project landscaping.

There is no assurance that Caltrans will allow landscaping to be installed within its right-of-way and no indication that they will maintain it. In fact, Caltrans staff has indicated informally that they will not allow such improvements nor will they commit to any maintenance whatsoever.

2. **Eucalyptus Avenue Median**
Existing Conditions: Several conditions require the installation of a new median within the future right-of-way of Eucalyptus Avenue.

Requested Action: Modify the applicable conditions to allow for the option to install a median along Eucalyptus Avenue.

Justification: Prior to the HFCP project, the previous Circulation Element of the General Plan did not require a median in Eucalyptus Avenue. The option of adding a median was raised by Highland Fairview as a way to enhance the street scene adjacent to the project site. The reason the median was articulated in the project plans is to enable staff to consider the issues involved before an option is selected. The median is not a requirement of the City. There is no traffic-related need for the median, nor is it required for other sections of the Eucalyptus Avenue throughout the City. Therefore, the installation of the median should be an option on the part of the project applicant.

3. **Multi-Use Trails**
Existing Condition: Several conditions imposed on the TPM and the Plot Plan require the dedication and improvement of multi-use trails on the project site.

Requested Action: Delete and/or modify all conditions requiring dedication and improvement of multi-use trails on the project site. Modify all related conditions to require that: 1) the necessary land be allocated for potential future multi-use trails, 2) site grading be designed to accommodate the future multi-use trails, 3) the multi-use trail areas be landscaped and maintained in a manner consistent with immediately adjacent areas until such time as the City decides to construct the multi-use trails, and 4) the on-going maintenance of the multi-use trails, if built, be borne by the City for the benefit of the public and not by the property owner or the local property owners' association.

Justification: There is a complete lack of nexus between the project and the City's requirement to dedicate and improve multi-use trails on the project site. The project creates absolutely no demand for these trails, therefore there is no nexus. The trails can be accommodated in the project design but the impacted land (or appropriate easements) should be acquired by the City, the trails should be constructed by the City and the trails should be maintained by the City. There should be a sunset clause in the condition such that if the City does not acquire the impacted land or easements within five years of the recordation of the Final Map for the project, the City's option to acquire the land or easements will expire.

4. **Deferral of Development Impact Fees**
Existing Conditions: The project is conditioned to pay massive development impact fees, amounting to nearly 15 million dollars.

Requested Action: Modify related conditions to defer payment of all applicable development impact fees to Certificate of Occupancy.

Justification: Development impact fees constitute a substantial financial hardship for all new construction projects. Collection of these fees at the point of building occupancy is the most equitable point in the process. It is at the point of occupancy when the building or project begins having an impact on the local infrastructure. It is at that point when the various development impact fees should be collected.

5. **Dedication and Improvement of Public Improvements**
Existing Conditions: The project approval contains dozens of conditions requiring the dedication and improvement of public facilities (streets, parkways, trails, etc.) far in excess of the demand which the project creates for such facilities.

Requested Action: Modify all related conditions to only require a fair-share contribution by the project for the dedication and improvement of all public infrastructures. Improvement credits and Reimbursement Agreements should be entered into between the City and the project for any amount the project contributes in excess of its pro-rata share for such improvements.

Justification: These conditions fail to meet the requirement for a direct nexus between the project and any required public improvements. Such conditions impose an unjust and unequal burden on some projects while benefiting the city and others unfairly at the expense of one taxpayer.

Attached is a listing of the conditions which we believe are related to each of the changes requested above. Other conditions may be impacted as a result of our detailed discussions with staff.

We look forward to discussing these issues with staff and with the City Council at the earliest possible opportunity. If questions arise during the City's review of this request, please do not hesitate to contact me directly.

Sincerely,

Iddo Benzeevi
President and CEO

Requested Changes to Resolution 2009-10
(TPM 35629)

==========

1) **SR 60 Landscaping**
   a) Delete Condition P14

2) **Eucalyptus Avenue Median**
   a) Modify Condition P20 to add "Construction of raised, planted median is optional. Subdivider may choose to install painted median."
   b) Modify Condition LD70(a)(i) to insert "(optional)" after the words "raised landscape median."
   c) Modify Condition SD-2 to insert "(optional)" after the word "median."
   d) Modify Condition SD-6 to insert "if installed by the Subdivider" after the words "median landscape" in the first sentence.
   e) Modify Condition SD-10 to insert "(optional)" after the word "median."
   f) Delete Condition SD-12 requiring installation of median landscaping.
   g) Modify Condition TE19 to insert "optional" following the word "median" in the second and fourth bullets.

3) **Multi-Use Trails**
   a) Modify Condition LD68(b) to add: "Said multi-use trail easement shall be labeled 'future,' and is contingent upon City acquisition of said easement from the landowner."
   b) Modify Condition LD68(c) to add, "The City will maintain all multi-use trails."
   c) Modify Condition LD70(a)(viii) to add, "The future trail area shall be designed and graded with the project and shall be landscaped consistent with adjacent land. The City may acquire an easement for a multi-use trail from the property owner and construct and maintain a multi-use trail."
   d) Modify Condition LD91 to add "(optional)" after the words "multi-use trail."
   e) The entire set of Conditions of Approval from Parks and Community Services Department needs to be re-written to differentiate between bike trails and multi-use trails. Future multi-use trails will be graded with the project. Easements for the multi-use trails will be acquired from the landowner by the City. The City shall be responsible for the construction and the maintenance of the multi-use trails.

4) **Deferral of Development Impact Fees**
   a) Modify Condition P23 to replace "building permits" with "Certificate of Occupancy."

5) **Dedication and Improvement of Public Infrastructure**
   a) Modify Condition LD2 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."
   b) Modify Condition LD4 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a

MV00233577

credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

c) Modify Condition LD27 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

d) Modify Condition LD46 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

e) Modify Condition LD65 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications
and/or improvements."

f) Modify Condition LD66 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

g) Modify Condition LD68 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

h) Modify Condition LD70 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

i) Modify Condition LD78 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

j) Modify Condition LD90 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

k) Modify Condition LD91 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

l) Modify Condition LD93 to add, "All dedications and improvements to public

infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

m) Modify Condition TE17 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

n) Modify Condition TE18 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

o) Modify the Parks and Community Services Department conditions to add paragraph (u) as follows, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

Requested Changes to Resolution 2009-11
(Plot Plan - PA07-0091)

==========

1) **SR 60 Landscaping**
   a) Delete Condition P10

2) **Eucalyptus Avenue Median**
   a) Modify Condition SD-2 to insert "(optional)" after the word "median."
   b) Modify Condition SD-3 to insert "(optional)" after the word "median."
   c) Modify Condition SD-7 to insert "if installed by the Subdivider" after the words "median landscape" in the first sentence.
   d) Modify Condition SD-10 to insert "(optional)" after the word "median."
   e) Delete Condition SD-12 requiring installation of median landscaping.
   f) Modify Condition TE20 to insert "optional" following the word "median" in the second and fourth bullets.

3) **Multi-Use Trails**
   a) The entire set of Conditions of Approval from Parks and Community Services Department needs to be re-written to differentiate between bike trails and multi-use trails. Future multi-use trails will be graded with the project. Easements for the multi-use trails will be acquired from the landowner by the City. The City shall be responsible for the construction and the maintenance of the multi-use trails.

4) **Deferral of Development Impact Fees**
   a) Modify Condition P19 to replace "building permits" with "Certificate of Occupancy."

5) **Dedication and Improvements of Public Infrastructure**
   a) Modify Condition P80 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."
   b) Modify Condition PD81 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."
   c) Modify Condition PD82 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."
   d) Modify Condition PD83 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure

dedications and/or improvements."

e) Modify Condition PD84 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

f) Modify Condition PD85 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

g) Modify Condition LD43 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

h) Modify Condition LD44 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

i) Modify Condition LD66 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

j) Modify Condition TE3 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

k) Modify Condition TE11 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

l) Modify Condition TE12 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

m) Modify Condition TE13 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

n) Modify Condition TE14 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure

dedications and/or improvements."

o) Modify Condition TE15 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

p) Modify Condition TE18 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

q) Modify Condition TE19 to add, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

r) Modify the Parks and Community Services Department conditions to add paragraph (u) as follows, "All dedications and improvements to public infrastructure shall be on a fair-share basis. The value of required dedications and/or improvements beyond the project's fair-share obligation shall be established as a credit against which the Subdivider may draw to offset other public infrastructure dedications and/or improvements."

Subject: RE: Council Vote on Sketchers Project

Charles:

I have long considered you a friend and a true leader in this community but must respectfully disagree with your assumption and share with you my feelings on this matter. I hope that you will consider our long friendship and what I thought was mutual respect as you consider my comments.

First, let me clarify that you are combining two seperate warehouses; the 1.5 million square foot Planning Commission approved warehouse at Iris and Heacock a week after they denied the 1.8 million square foot warehouse between Redlands and Theodore along the 60 freeway. There was a general plan amendment contained in both warehouse proposals which speaks to the consistency issue you deem hogwash and is a matter of public record.

I am truly sorry that you believe it is okay to place a 1.5 million square foot warehouse in the middle of Moreno Valley (with no freeway access) at Iris and Heacock, across the street from two schools, a church and surrounded by residential homes because it is a different developer. Do not speak to me of health, safety and welfare of our residents when you have lost your objectivity to the point that you have total disregard for the health impact on **those** residents AND school children. Where was the concern for the air quality, truck traffic and health impacts for this project? Not one person spoke during this public hearing! How do you equate that with the total outcry that occurred on the east end where it is open space? Do the residents on Iris and Heacock, who will have a much higher impact, have less value than those who are miles away from the project on the east end? It was these facts that determined my vote not the personal vendetta which drives your opposition!

The fact that you would turn away jobs, millions in economic benefit and property tax revenue when the City will lose another $2.5 million in property tax in 2009 speaks more to your personal grudge than on the issues before us. The fact that the residents supported this zone change 3-1 in favor also demonstrates your detachment from the community. The change of zone on the east end, which was from business park/industrial to light industrial, simply addresses the building size. The General Plan amendment moved and **expanded** a recreational trail. This site has direct freeway access, is not close to any schools, churches and is miles away from residential neighborhoods. Let me reiterate that we did not approve placing it in a residential neighborhood surrounded by families and school children that would require diesel trucks to drive miles through the city!!!

Your support of the untouchable General Plan fails to address the 9 General Plan amendments in two years that occurred on **your** watch -- not mine! Does this mean you were "disregarding their desire, as indicated in the current general plan, to have a sensible, well planned and controlled growth structure for the city."?! Of course not! You were making decisions based on what you felt were in the best interests of the City as a whole.

The issue of Rancho Belago, which also occurred on **your** watch -- not mine -- has absolutely nothing to do with this discussion and only demonstrates how much your opposition of that has colored your perception of the decisions that had to be made.

It would appear that your day of reckoning occurred on November 7 because of your lack of perception as to the real issues the city is facing. I hope that our friendship and long history will withstand these diametrically opposed positions but will honor whatever decision you make in that regard.

Sincerely,

Robin

Subject: Council Vote on Sketchers Project

Your unanimous vote of the Sketchers project on Tuesday February 10, 2009 certainly upheld my assumption of such a vote being a foregone conclusion.

The conversation about voting for "consistency" was much hog-wash. The area of Iris and Heacock St is properly zoned and allows 50,000 sq ft warehouses in our current general plan not 1.8 million sq ft warehousing.

It appears that it is council pay back time for favors received and or favors promised. It is now time to rename "Rancho Belago" to read "Rancho Benzieeve/Stephensville".

I believe each of you will have a day of reckoning for your total disregard for the health, safety and welfare of the citizens of this city as well as disregarding their desire, as indicated in the current general plan, to have a sensible, well planned and controlled growth structure for the city.

Once again, in my opinion, you have succumbed to the rich and famous.

Timothy M. Doss
Architectural & Planning
5154 Sierra Road
San Bernardino, CA 92407

Subject: Sunnymead Veterinary Clinic
24635 Sunnymead Blvd.
Moreno Valley, CA 92663

Dear Mr. Doss:

I have received your request for clarification regarding your desire to construct a building with the exterior wall to be located on the property line. I have requested that the fire department review your request and they have submitted the following code interpretations as they pertain to this project and offer the following.

Although the idea of a zero lot line building may be approvable under the city's planning and zoning regulations, the California Building and Fire Codes must be referenced for specific requirements regarding construction and access. The construction requirements are clear, as stated in the Building Code, regarding construction type and protection of openings for zero-lot line structures. What are not as clear are the requirements for fire department access.

The Fire Code establishes the minimum requirements for fire department access. What is does not do is determine how those requirements are to be enforced and measured. This is an intentional oversight in the code that is left to the Authority Having Jurisdiction to interpret and define. The reason for this is that not all fire departments across the state utilize the same equipment or employ the same tactics when fighting a fire. California Fire Code Section 102.8 states that when the code is silent on a particular issue, the fire code official can determine what requirements will be employed. In this case, the fire code requires that access be provided to conduct our standard 150 foot hose pulls around all portions of the structure. It has been our requirement that a firefighting pedestrian access walkway be provided via paved all weather surfaces that are a minimum of 4 feet wide. We do not allow landscape areas, trees, planter boxes, etc. to impede in this area. The intent is to provide a working area for a firefighter to extend hose lines and equipment to the rear of the building from all sides safely. Allowing a zero-lot line building will make achieving this not possible without additional measures. Not requiring this access would necessitate a change in tactics of the Moreno Valley Fire Department that we are not willing to entertain at this time.

MV00233587

The alternative to achieving on-site firefighter pedestrian access is to obtain an irrevocable emergency access easement from the neighboring parcel owner. This access easement would establish that a minimum firefighting operational will be provided from the adjacent parcel in perpetuity. Absent of this document, it will be extremely difficult for the fire department to ensure that this firefighting operational area is provided for.

For the reasons stated above, it is the opinion of this office that if the building is to remain on the property line, then an irrevocable emergency access easement will be obtained by the developer from the adjacent parcel owner and recorded as part of the deed. If this is not possible, then compliant firefighter pedestrian access shall be provided on the parcel in questions by relocating the building off the property line a minimum of 4 feet on the west side of the building. The Fire Department does not have an issue with reducing the onsite driveway width to 20 feet, as was previously discussed with you in June of this year. I will further direct you to our Planning Division for administrative relief from the 24 foot drive aisle requirements if you choose.

If you should have any questions regarding this matter, please feel free to contact me at (951) 413-3020.

Respectfully,

William L. Bopf

RE: Sundance Center Signage

Dear Mr. Costa:

I regret that you feel you are being treated unfairly, but as in my letter of October 21, 2010, the Municipal Code does not allow you to erect the signs you wish to erect. I advised you that you have two courses of action:

1. Have the owner of Sundance Center request a sign program for the entire center, and if the Planning Commission agrees, they can recommend to the City Council different signage for the center.

2. You can have the City Council revise the Municipal Code to allow the Sundance Center to have new signage along with all other similar centers.

There are reasons that other centers have larger signs. Some of them have a "Sign Program" and/or they are larger centers. Some of the centers are non-conforming, meaning their signs were up before the current Municipal Code was in force.

If you wish to change your signage, you will have to follow one of those actions. The Staff has no other option except those I have noted. Although I do not have the authority to assist you, I do want you to know that I have responded to your request and have provided you with two courses to pursue.

Sincerely,

William L. Bopf

RE: Sundance Center Signage

Dear Mr. Costa:

Mr. Tom Jerrell has reviewed this issue at the City Council meetings a number of times. In a recent response to his concern, I discussed it with the Community Development Director and provided Mr. Jerrell with a possible course of action. The sign regulations are very specific and would not allow greater signage for the subject center under the current municipal code. There may be one exception that may be of assistance in solving your concern; a shopping center can adopt a "sign program" for the center and request the approval of that program. Under that request, the Planning Commission can consider better signage for a particular center. They must approve the plan and it must still be within limits with the municipal code.

There are no quick answers to your concern. The only other alternative is to request the City Council to revise the municipal code. That course is always available, but it would require a change that was applicable to all similar shopping centers.

If you would like to pursue the "sign program" approach, the owners of the center will have to initiate the request and then we can proceed with that course of action. Please contact me or Mr. Kollar if you have the owner's permission and wish to proceed with a new sign program for the center.

Sincerely,

William L. Bopf

To All Sundance
Center Tenants

September 13, 2010
Hand Delivered
With Petition

RE: STREET SIGN PETITON FOR "THE SUNDANCE CENTER"

Dear Neighbor and Fellow Tenant,

I went to the Moreno Valley Mayor "State of The City" Luncheon Last Thursday. I met Mayor Bonnie Flickenger, and I told her that we need a bigger Street Sign at "The Sundance Center". The current "Code" only allows 72 Square Feet per side for "Sign Areas" (That's 12 Feet Wide by Six Feet Tall – Total). That's not enough Room for 18 Tenants to advertise their Businesses to "Street Traffic". Mayor Flickenger seemed very concerned about our needs here. She asked me to call her "next week".

If you will sign this "Petition" for a bigger Monument Sign for "Sundance Center", I will hand carry it over to her Office. We will ask her to help get the "Codes" changed to allow for a bigger Sign here. I will also give it to Dr. Khani so he knows our needs at the Center. Thank you for your help.

Sincerely,

Ed Costa

City of Moreno Valley
Public Works Department

MEMORANDUM

To: Ms. Robin N. Hastings, Council Member District 3

From: Prem Kumar, Deputy Public Works Director/Assistant City Engineer
John Kerenyi, Senior Engineer, Transportation Engineering Division JAK

Date: May 20, 2010

Subject: Response to Comments Received at November 16, 2009 Public Meeting Ironwood Avenue Widening from Perris Boulevard to Nason Street: Project No. 10-41572727

The Public Works Department has compiled the attached document which consists of all written comments received in connection with the subject public outreach meeting, together with staff's recommended response. The primary response has been to significantly modify the project, although all engineering-related comments are considered to be addressed in the attached response document. For completeness, we also include the recent letter to WRCOG requesting their concurrence with the new project proposal; that letter included proposed roadway cross sections, and those are likewise provided herein.

We request your concurrence and approval to disseminate the attached document to the attendee's of the November 16, 2009 meeting. We also recommend scheduling the revised project for a City Council study session; based on the feedback received at the study session, we would then prepare and submit a revised Mitigated Negative Declaration for City Council adoption at a regular meeting. We kindly request concurrence on this approach, or your input on an alternative approach to environmental clearance.

Approved by: Chris A. Vogt, Public Works Director/City Engineer

c: William Bopf, Interim City Manager

City of Moreno Valley

Public Works Department

CAPITAL PROJECTS DIVISION

Ironwood Avenue Improvements

From Perris Boulevard to Nason Street

Project No. 10-41572727

Response to Comments

Public Meeting November 16, 2009

Palm Middle School Multipurpose Room

A public meeting was held on Monday, November 16, 2009 to present the preliminary improvement plans, Project Report and Mitigated Negative Declaration prepared for the Ironwood Avenue Improvement Project. At the meeting, the design consultant Winzler & Kelly presented the project through the availability of design staff, the documents and an exhibit showing the project superimposed upon the City's GIS photo mapping showing the entire project limits. The meeting was advertised to occur between 6:30 to 8:00 pm, but questions and discussions occurred until 9:45 pm. Attendees were requested to identify themselves on a sign-in sheet, provide contact information for follow up and submit comments in writing. This report contains responses to the questions and comments raised at the meeting, and written comments received at the meeting and by email.

Background Information:

An agreement for preliminary engineering design services for this project was awarded by the City Council on June 10, 2008, to the engineering firm Winzler & Kelly. The design consultant prepared preliminary ("35 %") plans, supporting reports and a Mitigated Negative Declaration, based upon surveys and studies performed under the agreement. The engineering study resulted in preliminary engineering plans which addressed the impact of a roadway complying with the City's General Plan, which designates this roadway as a "Minor Arterial," as defined in the City's codes and standard plans.

As a step in completing the preliminary engineering phase of the project, a draft Mitigated Negative Declaration (MND) was posted for public review and submitted to the State Clearinghouse, as required by law. Upon completion of the required review period, the document was submitted to the City Council for consideration and adoption. At the City Council meeting of August 26, 2009, City staff were directed to hold a public meeting to collect public comments prior to the Council's consideration of the adoption of the MND, and to advertise the meeting in the newspaper as well as mail notices to all affected landowners.

Public Meeting:

The attendees were encouraged to inspect the plans and reports and to ask any questions of the project team staff present. The attendees were also advised of the request to distribute the comments and responses to all interested parties, resulting in the request for comments in writing and contact information for interested parties. In order to maintain a record of the discussions, three design team members also prepared notes during the meeting.

The project was introduced as an ultimate street improvement scenario, identifying the maximum impact of applying the minor arterial criteria to the project limits, in compliance with the City's General Plan, the City's reference control for all development. It was stressed that the drawings were a preliminary concept that addressed safety lines of sight and roadway curves compatible with the design speed, but not final engineering plans with all signing, fencing and utility coordination addressed. By knowing what the ultimate improvements would look like, the final design would address the improvements actually needed to provide for the public needs. As an example of the final engineering decisions to be made, it was noted that the preliminary plans also showed the limits of a three lane roadway, providing two travel lanes with a center two-way turn lane. This concept would be detailed with dirt shoulders instead of curbs and gutters.

The formal presentation during the meeting was limited, but the question and answer periods were wide ranging. The comments made at the meeting are reflective of the written comments on the forms attached to this packet. Many of the comments focused beyond the engineering considerations of the project being presented at the meeting.

The verbal and written comments received from residents at this public meeting demanded that the existing two-lane portion of the project, from Vista de Cerros Drive to Nason Street, be improved to a reduced standard in keeping with the rural nature of the neighborhood. The "minor arterial" roadway was thought to be excessive and not acceptable. A configuration providing two travel lanes, a center two-way turning median and graded shoulders was acceptable, with safety and speed control improvements.

A copy of all comments and letters received are attached, with responses to the comments directed at the design work. The following are a selection of paraphrased comments received (all comments and letters are attached):

A traffic signal or stop sign is needed, not five lanes
Correct safety issues, not the whole street
Redesign the project to improve safety and slow down traffic
Slow traffic down and address blind corners
Will there be increased truck traffic?
The City should improve Ironwood Avenue west of Perris Boulevard first
Striping on both sides of Perris Boulevard needs to be compatible for safety
Freeway backup traffic regularly uses Ironwood Avenue, not Alessandro Boulevard.
Why not extend Sunnymead Boulevard to Nason?
Why not improve Ironwood Avenue from Nason Street. to Theodore Street?
Improve Ironwood Avenue as two projects; do west of Lasselle Street. first
What affect will the project have on schools and student safety?
The street is too narrow and needs improvement for the high school
Improvement is needed, but a modified solution stressing improved safety
When is funding and construction expected?
What will occur if the project is delayed?
An EIR is needed for this project in this area
How much of my land will you be buying?
What compensation will we receive for loss of rural life and landscape?
What about access during construction, especially to the north?
Intersections at Dalehurst, Helga and Nason need safety improvements
The east curve is dangerous for accessing driveways
A full EIR is needed
The environmental document must address geological conditions
Widen to two lanes with turn lane, sidewalk, curb & gutter and stop signs
How can the General Plan be amended to reflect the rural area?

Amend the General Plan to reflect the easterly reduced roadway improvements

Response to Public Comments:

It is noted that the primary concern expressed was for the improvement of safety conditions along the roadway, principally slowing the speed of traffic. A Stop sign, or alternatively a traffic signal was requested. The City Traffic Engineer, Mr. Eric Lewis, discussed the general process of establishing the need or "Warrants" for traffic control devices, such as stop signs or signals. The necessary studies for the warrants will be coordinated with the City's Transportation Engineering Division. The preliminary plans presented at the meeting did not depict any stop signs or traffic signals for traffic control between Perris Boulevard and Nason Street. Required traffic control devices will be shown on final design plans when they are developed. The City may also install needed signs prior to construction of any improvements.

Ironwood Avenue west of Perris Boulevard is a designated truck route, and the City is preparing to improve Ironwood Avenue from Heacock Street to Perris Boulevard to the minor arterial standard. Right-of-way acquisition is currently underway, with start of construction expected in late 2011, pending funding for construction. Ironwood Avenue east of Perris Boulevard is not a truck route. Mr. Lewis noted that the City has removed the truck route designation from Ironwood Avenue between Redlands Boulevard and Theodore Street. Although trucks are not to use non-designated roads, drivers will occasionally take short cuts. Enforcement by the Police Department is the method to address continued violations.

The officially designated alternate route for freeway congestion or closure is Alessandro Boulevard, which is a designated east-west truck route. If traffic is leaving the freeway as a controlled event by Caltrans or the City, traffic would be routed southerly to Alessandro Boulevard. If the traffic is not being controlled, the nearest alternate route would likely be used, which would be Ironwood Avenue. This is noted in several comments addressing morning traffic conditions. This condition is likely to improve somewhat when Eucalyptus Avenue, south of the freeway, is extended by localized development from the Walmart on Moreno Beach Drive to Theodore Street. Additionally, the need for the improvements along Ironwood Avenue from Nason Street to Theodore Street is currently not justified by traffic volumes. Other alternates to this project, such as extending Sunnymead Boulevard to Nason Street, would be highly improbable, because residential tracts already exist along the logical alignment extension of the roadway and because this street extension is not considered in the City's General Plan.

The existing schools along the west end of the project are in areas with sidewalks and traffic signals. Portions of Ironwood Avenue at the northwest corner with Kitching Street and at the northwest corner with Lasselle Street have not been constructed to the ultimate condition. Completion of these areas will temporarily impact the student's route to school during construction only, but will have long-term public benefits of fully improved roadways, shoulders, sidewalks and curb ramps.

Questions were raised regarding the anticipated funding and construction schedule. When the project was initiated, construction was anticipated between late 2010 and 2012. Funding was anticipated from the Transportation Uniform Mitigation Fee (TUMF) program administered by the Western Riverside Council of Governments. Under this program, development impact fees are collected from development projects and directed toward roadway projects. With the current economic conditions, development impact fee revenues are curtailed and therefore the anticipated funds are not available to complete the design and construct the project. The City will revise the preliminary design plans, as discussed below, revise the project description in both the project report and the environmental documents, but will suspend work on subsequent phases of the

project due to inadequate funding. If interim improvements are necessary on any portion of the project limits, the revised preliminary design will provide the basis for work.

The final design of the improvements will not be detailed until funding for final engineering is available. The construction and right-of-way funding will be refined with the final design of the improvements. Until the final design and necessary funding are determined, no major construction or changes to the project area will be made. Routine roadway maintenance will continue.

The General Plan of the City of Moreno Valley acknowledges the location of Ironwood Avenue and dictates the City's accepted configuration of this roadway as a minor arterial, including a right-of-way width of 88 feet.

In response to feedback from the public, the City proposes to modify the project. The minor arterial standard will be applied to the in-fill improvements from Perris Boulevard to Vista de Cerros Drive. From the end of the existing curbs approximately 270 feet east of Vista de Cerros Drive to Nason Street, the City will reduce the scope of the project from the minor arterial standard (four through lanes and a turning lane), to a two-lane roadway with a two-way left-turn turn lane and bicycle lanes. Intersection widening and transition areas will be incorporated into the plans. The vertical profile will approximate the existing roadway to minimize alteration of the area. The horizontal alignment will be modified improve roadway sight distance, and engineered to minimize impact to developed parcels. The right-of-way for the project will not exceed the 88-foot-width approved by the General Plan designation. Temporary Construction Easements will also be analyzed in the final engineering drawings. The easements shown on the preliminary plans depict the maximum impact on adjacent parcels. The size of the easements can be modified by the use of retaining walls in lieu of transition slopes. The easements are for slope grading and not for the storage of construction equipment. No right-of-way acquisition will occur until final design is complete and right-of-way acquisition funding is in place. When the final engineering of the project is undertaken, the typical right-of-way procedures will be followed in accordance with established right-of-way practices. The necessary reconstruction of the existing culverts under Ironwood Avenue is anticipated to remain unchanged in the project.

As part of the final engineering plans, construction details will be analyzed, including provision of access to parcels impacted by the project. The design consultant analyzed all of the existing driveways as part of the preliminary plans. The revised configuration of improvements will affect, and probably lessen, the potential impacts. When construction ultimately occurs, the Contractor will be required to coordinate his work with the affected property owners to maintain access to the various parcels.

The engineering of the preliminary plans studied all of the existing intersections. The horizontal and vertical alignments were engineered to comply with required line-of-sight requirements specified in the California Department of Transportation Highway Design Manual. Additionally, the preliminary plans, and the proposed revision to the plans, include a two-way left turn lane. This lane will allow a driver intending to turn to leave the travel lanes until it is safe to complete the turn. The lane also provides a refuge for completion of turns onto Ironwood Avenue. The final configuration of improvements will require adjustment of the intersections along the roadway.

Residents in the Helga Lane area advised that several houses in the area need structural repair due to settlement caused by movement of the decomposed granite soils in the area, and severe shaking when trash trucks and buses pass. The geotechnical analysis, which is based on analysis of core samples taken from the project limits, found that the prevailing soil condition is fill dirt, colluvium, and/or alluvium over severely weathered (decomposed) granite. This condition is widespread in Moreno Valley and has not been found to be unusually transmissive of vibrations; therefore the project's vibration impact to adjacent properties is considered to be less than

significant. Further investigation of soil conditions will be undertaken as part of future phases of the project, and specific analysis of this issue can be performed at that time if warranted.

Additional concerns were raised relative to the impact of the wider, minor arterial roadway on the adjacent properties. With the City's decision to reduce the project to two lanes with a two-way turn lane, the project is more of a safety improvement than an increase in capacity. The reduced Project will minimize the impacts by maintaining the existing roadway capacity. The addition of the two-way turn lane will improve traffic flow, reducing the pollution and noise of traffic stopping and restarting for vehicles turning. The use of rubberized asphalt pavement will further decrease the tire noise generated by the traffic. The reduction of the project will also eliminate the installation of full street lighting, and the existing street lights will be reviewed in order to maximize intersection safety.

The project area has limited areas identified as wetlands, predominantly near the deep culverts crossing the roadway. The environmental documents include a Jurisdictional Delineation Report to assure proper review and clearance of the required work on the culverts. Work will be kept to a minimum in these areas, but some impact is unavoidable. Following the culvert work, the drainage areas will be returned to a condition as close as possible to the preconstruction conditions. But the payment of fees to an established program has been proposed as an offset for the impact made.

The design of the project minimizes the grading that will be required to complete the roadway. Most of the work will occur within the existing roadway area. Although the work will occur in areas previously disturbed by construction, the City's standard construction contract documents require that the contractor will provide access to the work area for archeological and paleontological observation and collection.

The Capital Projects Division will coordinate with the City Planning Division and the design consultant to amend the Mitigated Negative Declaration to reflect the reduced roadway configuration. Once amended, the Mitigated Negative Declaration will be readvertised for review and resubmitted to the City Council for adoption.

General Plan Amendment:

At the public meeting, the City's General Plan designation for Ironwood Avenue was raised several times. The preliminary plans presented at the meeting were based upon the minor arterial criteria called for in the General Plan. To eliminate the future imposition of the minor arterial criteria on this section of Ironwood Avenue, the meeting attendees requested that the City prepare an amendment to the General Plan to reduce the designation of Ironwood Avenue between Vista de Cerros Drive and Nason Street.

The City's General Plan is maintained by the City's Planning Division, and is a compilation of the City's development requirements based upon various studies and plans developed to define the City's ultimate condition. Many of the elements incorporated in the General Plan are reviewed periodically to keep up with growth and other changed conditions. The roadway designations reflect the needs of the City's Circulation Plan, a study of anticipated traffic patterns and volumes. The Circulation Plan is maintained by the Transportation Engineering Division

Subsequent to the public meeting, two meetings have been held between the Capital Projects Division, the Planning Division and the Transportation Engineering Division to discuss the requested amendment. The General Plan can be amended as needed, but the amendments derive from the supporting studies. The City's Transportation Division is already preparing the statistical model needed for the periodic review of the traffic projections for the Circulation Plan. The study will be complete in late 2010, and will reflect the City's projected needs through the year 2035. The

Planning Division stated a preference to address the specific issues of Ironwood Avenue with the support of the pending Circulation Plan review.

Submitted with this report is a copy of: the sign in sheets, the public comment sheets submitted, letters received, the advertisement and mailed notice for the meeting, an informational handout available at the meeting, the proposed section for the reduced three-lane configuration and a revised project description for the environmental documents and project report.

These responses and comments, and the attached copies of documents, have been prepared under the direction of John Kerenyi, Senior Engineer, P.E. with the City of Moreno Valley. For questions or comments please contact [redacted]

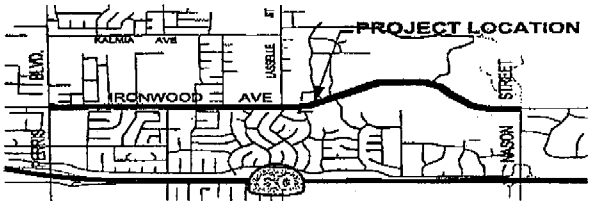
ANNOUNCEMENT OF PUBLIC MEETING

IRONWOOD AVENUE STREET IMPROVEMENTS
FROM PERRIS BOULEVARD TO NASON STREET
PROJECT NO. 10-41572727

The City of Moreno Valley's Capital Projects Division has undertaken the study of improvements to Ironwood Avenue, from Perris Boulevard to Nason Street. The preliminary design is in accord with the City's General Plan and the regional transportation plan of the Western Riverside Council of Governments (WRCOG). The work is being funded by an appropriation from WRCOG.

The project will improve approximately 2.2 miles by widening the roadway, adding sidewalk, curb and gutter, storm drain facilities, driveway aprons and improved intersections. The roadway will be aligned to minimize impacts to improved parcels. The design improves the roadway curves and driver sight lines, provides a median lane and eliminates the existing lane merges. The design will improve roadway safety and traffic flow, reduce delays due to the lane merges, and allow safer turns into and out of driveways and side streets. The design will also improve local drainage and minimize local flooding potential.



An environmental study of the project has been completed and a Mitigated Negative Declaration has been prepared for adoption under the requirement of the California Environmental Quality Act (CEQA).

You are invited to review the preliminary (35%) plans and environmental documents prepared for the project in a public open house forum. The design team will be present to answer questions and discuss the project.

The meeting will be:

Monday, November 16, 2009, 6:30 p.m. to 8:00 p.m.
at
Palm Middle School
11900 Slawson Avenue, Moreno Valley, CA 92557

Announcement of Public Meeting

Ironwood Avenue Street Improvements
From Perris Boulevard to Nason Street
Project No. 10-41572727

The City of Moreno Valley's Capital Projects Division has undertaken the study of improvements to Ironwood Avenue, from Perris Boulevard to Nason Street. The preliminary design is in accordance with the City's General Plan and the regional transportation plan of the Western Riverside Council of Governments (WRCOG). The work is being funded by an appropriation from WRCOG.

The preliminary improvement plans depict two types of improvement on Ironwood Avenue:

1) Ironwood Avenue from Perris Boulevard to Vista de Cerros Drive is almost completely improved, except for an area at the northwest corner at Kitching Street, and a section on the north side of Ironwood Avenue from west of Lasselle Street to west of Vista de Cerros Drive. These areas will be completed with curb and gutter, sidewalks and widened AC pavement. This will improve sight lines along Ironwood Avenue and remove the need to merge traffic lanes, resulting in smoother, safer traffic flow.

2) Ironwood Avenue from Vista de Cerros Drive to Nason Street is a two lane road. The preliminary plans depict the design of ultimate improvements required to meet the adopted standards for Ironwood Avenue, consistent with the westerly portion. The plans depict the vertical and horizontal alignments needed to complete curb and gutters, AC pavement, drainage improvements, intersections at cross streets and driveway aprons for the residences, while minimizing the impact on improved parcels. The plans address the radius of curves and sight lines to improve roadway safety. The plans also depict a proposed median lane to allow for safer turning into side streets and driveways.

As part of the preliminary design process, an environmental study of the project has been completed and a Mitigated Negative Declaration has been prepared for adoption under the requirements of the California Environmental Quality Act (CEQA).

You are invited to review the preliminary (35%) plans and environmental documents prepared for the project in a public open house forum. The design team will be present to answer questions and discuss the project. The meeting will be:

Monday, November 16, 2009, 6:30 p.m. to 8 p.m.
Palm Middle School
11900 Slawson Avenue Moreno Valley, CA 92557

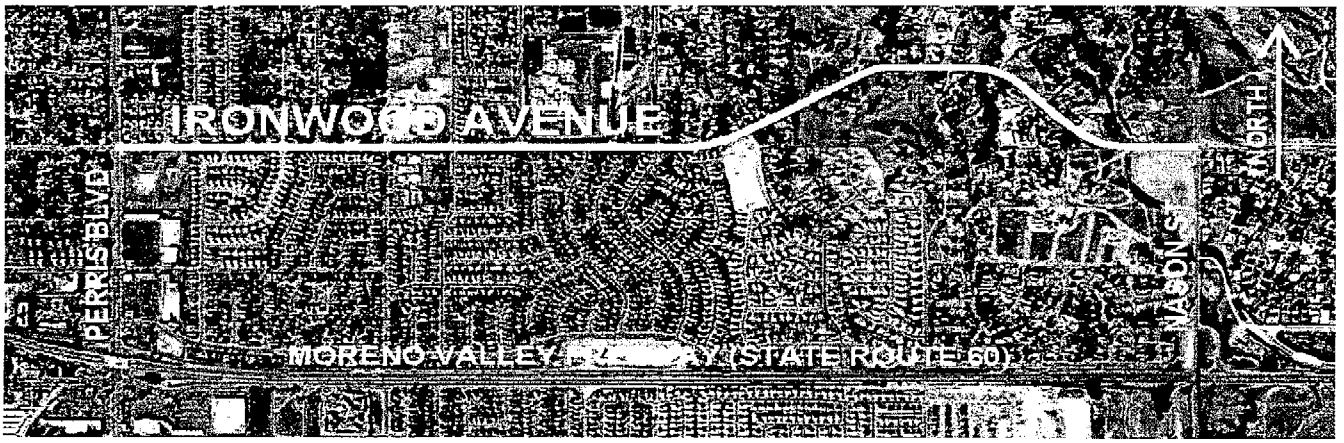
PROJECT NO. 10-41572727
IRONWOOD AVENUE IMPROVEMENTS
BETWEEN PERRIS BLVD & NASON ST

MORENO VALLEY
WHERE DREAMS SOAR

IRONWOOD AVENUE IMPROVEMENTS

From Perris Boulevard to Nason Street



Project Statistics

Length:	2.1 miles (Includes 0.8 miles of full pavement replacement between Vista De Cerros Drive and Nason Street)
Width:	88' (Perris to Vista De Cerros); 92' (Vista De Cerros to Nason)
Cross Section:	4-Lane Minor Arterial, featuring bike lanes, 4-traveled lanes, one two-way left turn lane, sidewalks, and concrete curb & gutter
Traffic:	Existing = 7,000 Cars Per Day Average Year 2030 Projection = 15,000 Cars Per Day Average
Funding:	Construction funding has not been identified.

Project Benefits

- Enhanced Driver Safety
- Enhanced Pedestrian Safety
- Enhanced Bicycle Safety
- Improved Intersections
- Improved Drainage Conditions
- Minimized Property Impacts
- Safer Driveway Access
- Quieter Pavement Materials

Good morning Mr Kumar,

You heard people the other night wanting three lanes as mentioned in my letter (attached below) and the way to ensure this happens is with a General Plan Amendment(GPA). What will happen in the next few weeks to move in this direction. People also do not want to spend any more money on engineering for a five lane road where it is presently two lanes. What assurances can you give us that efforts will focus on the GPA and three lanes?

Thank you,

George Hague

Re: Proposed widening of Ironwood Avenue

I appreciate that the City of Moreno Valley is having a meeting to allow residents to express their concerns regarding the proposed widening of Ironwood Avenue. I and many other residents question the need for the proposed widening in the eastern portion of the project.

Tables 4 and 5 (pages 26 and 27, Initial Study/Environmental Check-off List) show that the level of service (LOS) for traffic east of Steeplechase/Vista de Cerros without improvements will be the same as the area near Perris with improvement in the year 2030.

Many people living on the eastern portion of the project would be more than willing to see a center lane (but not a suicide lane) added to allow for safer left turns from and into the many driveways that are along this portion of Ironwood Avenue. The widening of the shoulders to allow for increased safety and bike lanes would also be appropriate, as would sidewalks on one side. Full turning movements at Ironwood Avenue and Nason Street should also be included in this proposal.

A traffic study needs to be done on my proposal, which will make the road safer and may also improve the traffic LOS. I am certain that it will show that Ironwood Avenue east of Steeplechase/Vista de Cerros does not warrant any improvements beyond the ones named in the preceding paragraph, which I recommend for improved safety.

The City can still count on the Western Riverside Council of Governments (WRCOG) to pay the significant portion of this if it does for the residents what it does for developers – a General Plan amendment. Changing our General Plan to include my proposal east of Steeplechase/Vista de Cerros will permit WRCOG funds to be used for the entire project length. Since it has been stated that the project will take at least five years to get started, there is plenty of time to make the necessary General Plan changes. It is my understanding that WRCOG funds are for moving traffic, and that signals or stop signs would not be added to slow the traffic. Is that correct? If they are to be added, where will they be placed?

The proposed widening project is also changing our General Plan's designation for a minor arterial and the ultimate right-of-way for this section of Ironwood Avenue from 88 feet to 92 feet. Many of those of us who use Ironwood Avenue the most request that you also change the General Plan's designation so that it will decrease the proposed width to match the proposed traffic for the next 20 or more years.

If the City is unwilling to do the sensible action and decrease the width of the eastern portion of the project, as proposed above, then you must do a full environmental impact report. Besides the significant public controversy over the project's impacts, there are other impacts that need to be further analyzed and mitigated.

Air quality/pollution impacts

The environmental checklist does not address the increase in air pollution impacts to families as the road is moved closer to their homes. For those of us living near Ironwood Avenue, the words on Page 30 do not make sense: "The project has the potential to result in significant impacts to air quality and noise that would affect people traveling along Ironwood Avenue." It is the people who live there after the construction who will have significant air quality impacts, based on the USC study (http://www.usc.edu/uscnews/newsroom/news_release.php?id=26). While Ironwood Avenue is not a highway, it will, with the City's proposed widening, become a major road, and health impacts on families – especially children – will increase.

The initial study did not analyze this increase in air pollution for residents living near a significantly wider Ironwood Avenue or try to mitigate its impacts. A full EIR needs to analyze and address these concerns, or you could not widen the road as much as proposed where it is presently two lanes.

Noise Impacts

The condition (N-1) "where feasible, noise generating will be shielded" is not sufficient to protect residents. I, however, applaud the use of rubberized asphalt. But I am concerned that when repairs or repaving is needed, then the same or better noise-reducing materials may not be used. Many people who now live along the road already suffer significant noise pollution. The rubberized asphalt will not compensate for the increase in noise caused by the road moving significantly closer to their homes. These impacts are not fully analyzed or mitigated in the City's documents. There is no mentioned, for example, of offering homes dual-glazed window or sound walls – perhaps both in some cases. A vote for a Mitigated Negative Declaration means all impacts have been analyzed and mitigated. This has not been done regarding noise; therefore a full EIR is required for this project.

Geology and Soils

There are homes along Ironwood Avenue that have pictures that vibrate on walls when trucks pass. The soil that transmits these vibrations has not been fully studied, nor has the problem been mitigated in the documents before you. With the road widening and no restriction on trucks, one would expect this situation to worsen for those who already have the problem and to begin for others. A full EIR is needed if this project is moving forward on the section that presently has two lanes.

That same EIR would need to analyze the impacts of replacing expansive soils. What impacts will result from taking soil from off the site and depositing soils to some unknown site? What will be the impact of removing soil from some off-site location to bring to the project? The impacts to both off-site locations need to be analyzed and mitigated.

Wetlands

Our city is, through mitigations, exporting our wetlands to other cities. The commuter parking lot near Home Depot destroyed a wetland area, and we paid the City of Riverside to mitigate for our loss. We are now exporting almost a half-acre of wetlands for this project to the Santa Ana Watershed Authority without requiring that the mitigation happens in our city. The cumulative impacts of losing these wetlands and many others in our city need to be analyzed in an EIR. The

same can be said for invasive species, where we are again giving money to the same organization when we have significant invasive species in our city – several patches of Arundo donax (or Giant Reed) are near Ironwood Avenue and Moreno Beach Drive as well as other places in our city.

Trees

The document mentions trees/vegetation, which will be cut down and eliminated, but it does not explain the mitigation plan for all of the raptors and songbirds/other animals that will be impacted for years to come. Where is the plan that shows residents and property owners which trees will be lost? Please explain the plan to replace these trees and vegetation. Are you going to put down irrigation lines to implement the soon-to-be approved landscape guidelines? The environmental documents need to explain how/when and by what rationale these trees will be replaced. How will they be watered so they do not die? What is the "500-foot buffer"?

Lighting

Existing lighting standards and requirements do not meet the wishes of most who live east of Vista de Cerros. Some of you may remember the citizens who protested the lights being installed in that area. The lights were eventually all significantly hooded, but the residents were still not happy with the results.

The City needs to adopt the international dark sky standards. This is especially true if you make this a five-lane road in place of the two lanes, causing these lights to be moved even closer to homes.

Archeological Resources

The City needs a culturally-affiliated Native American with knowledge in cultural resources as part of any soil disturbance. Because this project is within the sensitive Reche Hills/Moreno Hills region of our city, the above is all the more important. The Monitoring Plan needs to have provision for disposition of recovered artifacts in consultation with culturally-affiliated Native Americans. The area where there are presently two lanes must have a full EIR prepared because of the sensitive nature of these lands if you are going to add three more lanes with sidewalks.

Temporary Construction Easements

Have you told these landowners (26563, 26548, 26353, and 26386 Ironwood Avenue) that some of their lands will be used for construction equipment? Are they aware of the smell, noise, toxic emissions, and dust that will be generated next to their homes? More than a total of 28,000 square feet of land will be used from these four residences for "temporary construction easements". What mitigations are being offered to these homeowners and their neighbors? A full EIR would give them much better information than what is presently in the environmental documents for this project.

Please make a copy of the sign-in sheet and all comment cards and staff notes on comments that took place at the November 16th meeting at Palm Middle School. I would also like a copy of all letters and communications you have received on this project from individuals, groups, and organizations as well as local, state and federal agencies. Please keep me informed of all future communications, documents and public meetings in which the widening of Ironwood is to be discussed by city employees or decision-makers. Please contact me and send me information at the address below. Thank you.

Sincerely,

George Hague

Subject: [Fwd: The Widening of Ironwood Avenue]
Attachments: Attached Message Part

November 22, 2009

Dear Honorable Council Members, City Manager, Planning Commission, Traffic Engineers, Project Engineers and Designers,

This letter is a follow-up to the verbal and written comments that my wife and I made at the meeting on November 16, 2009 pertaining to the widening of Ironwood Avenue from Vista de Cerros to Nason. Please add the comments contained herein to the public record for said meeting.

We agree that the stretch of Ironwood between Vista de Cerros and Nason is in need of improvements for the safety of all residents and everyone else traveling this roadway. We adamantly disagree with the City of Moreno Valley's current General Plan and the 5 lane roadway for this area and we ask that the General Plan be revised to reflect the lifestyles and desires of the area residents before any more funds are spent to design and engineer projects for this area. I wish to keep this communication as brief as possible so I will format as many points as possible in bullet poi format.

- The current General Plan for this area does nothing to slow down the traffic through this area. As someone who lives on Ironwood Avenue and is often the first responder to accidents I know that the majority of accidents could be prevented with reduced speeds (strategically placed stop signs would take care of this), proper shoulders, left turn lanes for vehicles accessing streets or driveways off of Ironwood and guardrails to prevent vehicles from going off the roadway and down embankments.

- If turn lanes were added this would eliminate the the need for 5 lanes and many of the safety issues faced in th area. Anyone who travels this route frequently knows that the problem is a car ahead of you that has to make a left-hand turn onto a side street or into a driveway. This literally brings traffic to a screeching halt! If this section of Ironwood remains one lane in each direction but with the addition of shoulders and left-hand turn lanes for safety then the bulk of the problems would be solved and numerous accidents avoided annually. The addition of a sidewalk (or even a bridle path considering this is a rural area zoned for horses) for pedestrian traffic is also needed for the safety of pedestrians of all ages.

- I have observed the traffic patterns along this portion of Ironwood Avenue for many years now and the busies day of the year along this stretch is the 4th of July after the fireworks end. Thousands of cars pass through within roughly 30 minutes yet no traffic jams have ever occurred. Even when the freeway has been shut down due to an accident or other police activity the volume of traffic has not caused backups through this area in the years that I have lived in this particular part of the city. 5 lanes are not needed now and will not be in the futur either. The numbers forecast for the year 2030 are inflated and do not warrant 5 lanes.

- There was an accident earlier this year where a women lost control of her vehicle in the middle of the night, went off the road, down the embankment and was not rescued until several hours later when the sun came up and her vehicle could be seen. If proper guardrails were already in place the injuries she sustained and her unnecessary suffering would not have happened. What is being done to rectify these shortcomings of the

existing roadway? The issues that face us today must be addressed and rectified today.

- What is going to be done to keep vehicles from crashing into our homes, or in the case of myself and my neighbors, into our horse corrals? This could potentially free our horses resulting in accidents that can result injury and possible death of the horses as well as motorists. An incident occurred a couple of years ago in which a horse managed to get out of a corral down the street from us and it resulted in an accident in which th horse was killed and the motorists vehicle severely damaged. The current design does not include any protective measures other than a curb. Today's larger and higher vehicles are no respecter of curbs. Addition measures are absolutely necessary for everyone's safety. A 3 lane design (or 2 lanes plus turn lanes) would b step in the right direction as this will keep motorists at a greater distance from homes and other structures.

- Many residents including myself brought up the immediate need for stop signs to reduce speeds and improve safety. What is being done about this and how will we be notified of the progress toward this goal?

- What is being done now to eliminate the blind corners along this stretch? As pointed out during the meeting there are blind corners for motorists making lefthand turn off of Helga Lane and onto Ironwood going westbound as well as motorists turning eastbound out of the drive across the street from 26755 Ironwood Avenue and onto Ironwood.

- The current design requires from 66' up to 92' be utilized for the roadway and additional amenities. If the current plan allows for 88' then where will the additional footage be acquired from and at what cost to the taxpayers and at what cost to the landowners in the area? A 3 lane design (or 2 lanes plus turn lanes) would eliminate the need to acquire people's properties and would save considerable amounts of money.

- What steps are the Council and the City Planners taking to ensure that this area remains rural residential? Thi area of Moreno Valley is a rural residential area (predominantly R1 with a section of R2 properties) and to maintain the diversity in our city it needs to be kept as such for everyone's benefit. A large city like ours can n be all apartments, all tract homes, all warehouses/businesses or all rural residential. There needs to be a diversity to accommodate all lifestyles and all socio-economic groups.

- A full EIR is absolutely necessary for a project of this scope and in an area such as this.

- When a school bus passes in front of my house the walls and windows rattle with the existing road. The plan bring the road closer to the homes will increase the vibrations from both sound and shock waves and create th potential for damage to the homes. Thorough and accurate analysis of the surrounding soils is absolutely necessary to determine the viability of any project in this area, especially in light of the high concentration of shifting DG (decomposing granite).

- The current noise level along Ironwood is unacceptable. The vehicles by nature make noise and this is furthe compounded by the noise emitted by glasspack mufflers and automotive stereo systems that are allowed to gc unchecked in this city despite the laws on the book that forbid these forms of noise pollution. Bringing the noise even closer to our homes and our bedrooms is not acceptable.

- Bringing the vehicle emissions closer to our residences, ourselves and our children is not acceptable.

- My property is a horse property. My truck and horse trailer measure 46'6" from end to end. The current plan will leave me only 33' of usable driveway which means that to load my horses into the trailer I will have to pa my truck at least 13'6" into the traffic lanes of Ironwood Avenue. How would you be able to rectify this?

- In addition to the loss of our driveway which is required for trailering the horses the current plan on the book eliminates the round pen that we use for training our horses which in turn destroys the usefulness of our property. The "takings clause" of the 5th Amendment forbids this "physical invasion that destroys the usefulness of the land" without just compensation for not only the land but the loss of usefulness and the

profitableness of the land. The 2.1 million dollars that the City has earmarked for land acquisition for this project will not begin to cover the expenses incurred.

- Residents in this area rely upon natural predators to control the rodent and insect populations. We rely heavily upon the screech owls and coyotes to keep the rat and mice populations in check and we rely upon the bat population to manage the insect population (especially the West Nile carrying mosquitoes that can potentially kill our livestock) . Once streetlights and introduced these predators and others like them will seek new areas without streetlights for their own protection and survival. Unfortunately this will result in a dramatic and potentially damaging increase in the rodent and insect populations. What will be done to mitigate these issues? We do not live in an area covered with concrete and asphalt that naturally drives away these vectors. We must have these natural controls in place.

- When improvements in this area are made (regardless of the final design) will all utilities be moved underground? In an area where earthquakes and the occasional tornado are a part of life it makes no sense from a public safety standpoint to have power lines and phone lines above ground. Moving utilities underground also improves aesthetics of the area and has the potential to improve the overall value of the area.

The position of the majority in attendance at Monday night's meeting was clear. We are in need of improvements along this stretch of Ironwood for safety reasons but we are not in favor of the five lane design nor the current General Plan for this area. I, along with others, strongly urge you to revise the General Plan for this area and protect the rural way of life that we value and have paid for with everything that we have. We are teachers, salespeople, rea estate agents, members of the construction industry , musicians, mechanics as well as many other walks of life. We are people who love the city that we live in and we are people who want our way of life protected.

Why are the email addresses of all City departments and employees not available on the City's official web site? There are individuals to whom I wished this email be addressed but the City's web site does not contain this information (i.e. John Terell - I only obtained his email address through a politically active acquaintance). Please forward this email to the City Manager, Robert G. Gutierrez, as well as the members of the Traffic Safety Commission and any additional individuals or departments that may benefit from this communication. I thank you for your time, your consideration and your dedication to making Moreno Valley the place where dreams soar.

Respectfully,

Scott D. Hay

Comment: I agree that change is necessary. Where my neighbors have failed to look to the future of this area, it necessitates advancement. This being said, a modified solution presents itself of which I feel confidence in the city's engineering department having received this message. The only apparent lack of sight from the city, is the necessary safety that is required for improved safety (ie. stop signs, lights, turn lanes). Given many of the insightful statements presented tonight, a new, improved plan will be presented again to us at the next scheduled meeting.

Comment: My concern with the improvements of Ironwood are in regard to safety with the intersections of Dalehurst and Nason. Dalehurst Intersection is a terrible safety hazard in both directions. The visibility is insufficient for safe navigation. The Nason →

intersection may become a major issue if the new high school is located at that northeast portion. We currently have horrendous traffic jams around 7:30 am and from 3pm to 6pm.

I support improvements of this road to alleviate the safety issues of today and those to come if the new highschool is located at the Nason / Ironwood intersection.

I propose that the project be divided into two projects as follows Project A from Perris to Lasselle and Project B from Lasselle to Nason.

Comment: We are against a 6 lane road being made out of Ironwood in our area as it is not in keeping with our area. As proposed our Blockwall and Iron Gates would be removed. This wall matches all other Block work on our property. I can't even imagin trying to turn across 2 lanes of traffic with a horse trailer in tow. As it is now I can Pull out or Back out onto the side of the road in front of my property and watch for traffic Before pulling out. What about making improvements at 60/Nason inter-Change which Should have been done prior to the development of the Shopping Center SOUTH of the 60 Fwy. It take No less tha

MV00233643

Susan Zeitz
26386 Ironwood Ave
(2)4

45 minutes each way to get from my property to valley view Due to the traffic. This Also causes back up onto the 60 freeway's EAST offramp which means more people Avoid it. This puts more traffic onto Ironwood. Reche Canyon has more traffic AND NOISE than Ironwood and they still manage to have two lanes. When the city decided to put street lights in this Area it only served to increase speed. I Agree improvements should be made. But believe that this could be done by slowing

traffic down, by inserting
Stop Signs + Signals. I heard
tonight about the proposed
Highschool at Mason + Ironwood
Are you crazy!
NO WAY! NO in Keeping!
Traffic! To close to
Valley View! Buld
a Highschool out by
Redlands Blvd.
Ironwood through our
area does not Need
two lanes in each

MV00233645

Susan Zeitz
2ee38 Ce Tromwood Av

3

direction, I dont believe
It even needs a center lane

The city should save It's money
and put in stop signs +
Signals.

This plan doesnt make it
safer or slow down traffic
It does adversly affect those
that live there and have
Lived there for 25 +/- years.

It will increase speed
It will increase polution

~~it will give us less~~

it will increase the difficulty of getting in & out of our property.

Reche Canyon, Santa Ana Canyon & many other busy streets make do with two lane in keeping with the area's rural nature.

Don't cookie cutter our area to look like the rest of the city. Because we aren't and we don't want to be!

MV00233647

Susan Zeitz
26386 Ironwood.

(4)

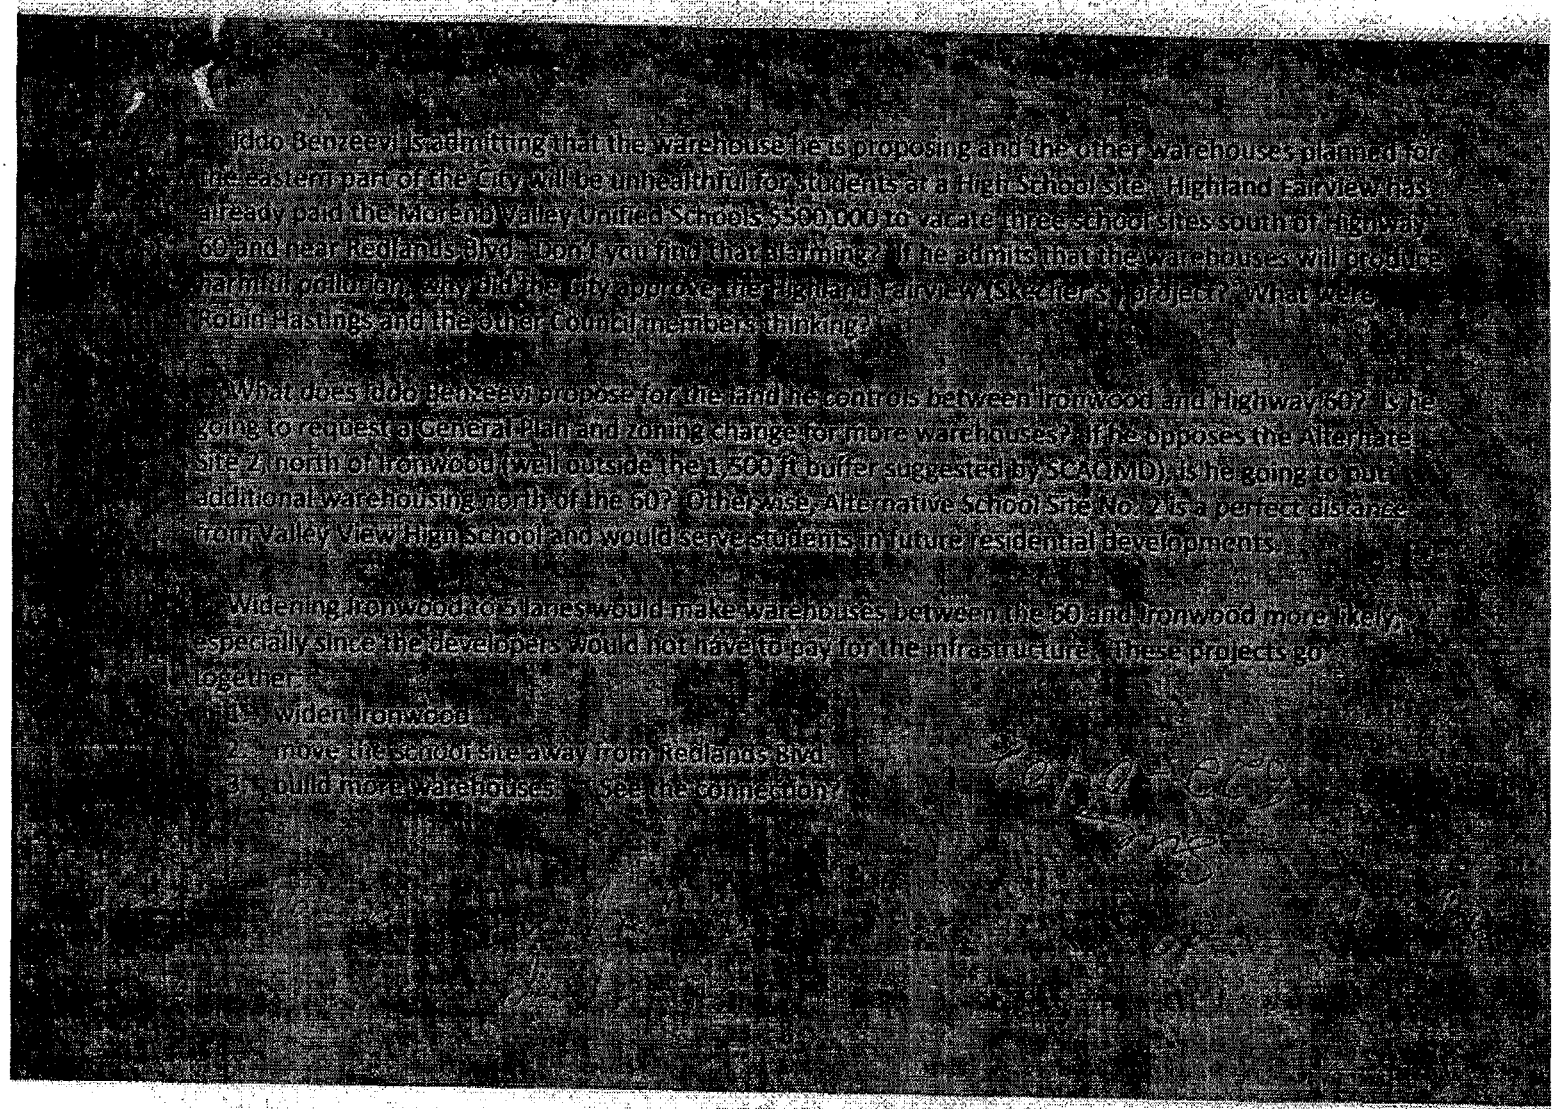
DO US A FAVOR AND

TAKE into consideration

the roads as they exist

when developing the east

end of Moreno Valley.



Is Riddo Benzeevi is admitting that the warehouse he is proposing and the other warehouses planned for the eastern part of the City will be unhealthful for students at a High School Site. Highland Fairview has already paid the Moreno Valley Unified Schools $500,000 to vacate three school sites south of Highway 60 and near Redlands Blvd. Don't you find that alarming? If he admits that the warehouses will produce harmful pollution, why did the City approve the Highland Fairview (Skechers) project? What were Robin Hastings and the other Council members thinking?

What does Riddo Benzeevi propose for the land he controls between Ironwood and Highway 60? Is he going to request a General Plan and zoning change for more warehouses? If he opposes the Alternate Site 2 north of Ironwood (well outside the 1,500 ft buffer suggested by SCAQMD), is he going to put additional warehousing north of the 60? Otherwise, Alternative School Site No. 2 is a perfect distance from Valley View High School and would serve students in future residential developments.

Widening Ironwood to 6 lanes would make warehouses between the 60 and Ironwood more likely, especially since the developers would not have to pay for the infrastructure if these projects go together.

1. widen Ironwood
2. move the School site away from Redlands Blvd
3. build more warehouses

See the connection?

HIGHLAND FAIRVIEW

14225 Corporate Way
Moreno Valley, CA 92553

RECEIVED
OCT 31 2008

October 30, 2008

Mr. Sergio San Martin
Director of Facilities Planning
Moreno Valley Unified School District
25634 Alessandro Boulevard
Moreno Valley, CA 92557

SUBJECT: Moreno Valley High School No. 5 Alternate Sites

Dear Mr. San Martin:

This letter is submitted in response to the District's recently-circulated Notice of Preparation (NOP) for an environmental impact report for the above referenced high school project. Highland Fairview owns property in the vicinity of the alternate sites and offers the following comments to assist the School District in preparing the environmental document for the project.

As the District is aware, Highland Fairview is presently in the entitlement phase for the Highland Fairview Corporate Park project, to be located southerly of SR-60 and easterly of Redlands Boulevard, approximately one-half mile southeasterly of Alternative School Site No.2 which is located east of Quincy Street and north of Ironwood Avenue. The Highland Fairview Corporate Park project proposes approximately 2,420,000 square feet of logistics uses and approximately 200,000 square feet of community commercial uses on approximately 160 acres. A Draft Environmental Impact Report (State Clearinghouse Number 2007101132) has been circulated for the project and the 45-day public review period has been completed. The details of the Corporate Park project are fully explained in the Draft EIR. Public hearings on the proposed project will begin shortly. A disk of the Draft EIR, including all appendices, is enclosed for your reference.

In its EIR analysis, the District should consider the upcoming development of the Highland Fairview Corporate Park and asses its impacts on future school sites. The District should also be aware that other projects, similar to Highland Fairview Corporate Park, have been proposed in the same vicinity by other developers, south of SR60 and due south of Alternative school Site No. 2. Based on the proximity of Alternative School Site No. 2 to these future significant non-residential projects, we would strongly advise that the District consider Alternative School Site No.1 as its preferred location for its future high school campus. We believe that it will better accommodate the Districts objectives to provide excellent educational opportunities for our children while allowing for proper economic and job development opportunities in our community.

Highland Fairview kindly requests that it continue to receive all official notices and communications regarding the proposed school site and its environmental impact report. Thank you in advance for your assistance.

Sincerely,

Iddo Benzeevi
President

MORENO VALLEY

May 4, 2010

Mr. Rick Bishop, AICP
Executive Director
Western Riverside Council of Governments
4080 Lemon Street, 3rd Floor, MS1032
Riverside, CA 92501-7985

Subject: Ironwood Avenue Improvements between Perris Boulevard and Nason Street
WRCOG Project 06-CN-MOR-1113
City Project No. 10-41572725

Dear Mr. Bishop:

On February 23, Councilmember Robin Hastings and myself met with you and Ruthanne Taylor Berger of WRCOG to discuss a hybrid concept of the above referenced street improvement project. The concept presented meets the Transportation Uniform Mitigation Fee (TUMF) Zonal Street Network development growth demands while increasing compatibility with the adjacent neighborhood residents' collective desire to retain its semi-rural neighborhood character. The City appreciates your understanding and concurrence on this hybrid concept approach.

This segment of Ironwood Avenue is part of the TUMF Program Zonal Network of streets within the City of Moreno Valley. The City's General Plan designates this roadway to be constructed to the City's "Minor Arterial" standard, providing two lanes in each direction, a center two-way turn lane curb, gutter and sidewalk. Currently, Ironwood Avenue is a mixture of two to four lanes between Perris Boulevard and Vista de Cerros Drive, and is a rural, winding two lane roadway between Vista de Cerros Drive and Nason Street.

The City received TUMF funding to complete the Preliminary Engineering (PA & ED) phase of this project. Preliminary plans were prepared using the minor arterial standard as described above. A public meeting was held to present the plans and to obtain input from the neighborhood affected by the project. Based upon the comments received, the project engineering team reviewed the design parameters and determined that a different combination of improvements would provide roadway capacity adequate to meet the projected traffic demand of 15,000 ADT at buildout.

The proposed improvements are as follows:

1. The segment of Ironwood Avenue between Perris Boulevard and Vista de Cerros Drive will be completed to the minor arterial standard, providing four lanes and a two-way left-turn lane/median.
2. The segment of Ironwood Avenue between Vista de Cerros Drive and Nason Street will be constructed to provide two lanes, a two-way turn lane, and on-street bike lanes.

MV00233651

3. The project will include construction of curb, gutter and sidewalk.
4. Intersections will be improved with turn lanes to facilitate vehicle turning movements with a minimum impact on through traffic.
5. The design will enhance safety by increasing sight distance and roadway curve radii.

The City believes it has identified a good solution that will address the ultimate roadway demand and is consistent with the TUMF improvement philosophy of accommodating future development growth. We request concurrence/approval of the proposed approach.

If you have any questions, please contact me at [redacted]

Sincerely,

Attention: Mr. David Siegenthaler
Federal Lands to Parks Program

Reference: Concession Agreement with AYSO Soccer
Federal Surplus Property for Public Park and Recreation Purposes
March Field Park, March Air Reserve Base, Moreno Valley, California

Dear Mr. Siegenthaler:

The Moreno Valley Community Services District (hereinafter referred to as "CSD") is requesting approval to enter into a concession agreement for a portion of March Field Park to AYSO Soccer for the construction, maintenance and operation of several soccer fields to be constructed at March Field Park. AYSO Soccer is the leading non-profit soccer organization in the City of Moreno Valley. AYSO Soccer is proposing to develop seven soccer fields, which will encompass approximately 25 to 30 acres of the existing 93 acre area owned by the CSD (see site plan attached). The concession agreement will be consistent with guidelines published by the National Park Service and the "Program of Utilization" for the site.

The CSD believes that by allowing AYSO Soccer to construct and maintain the facilities at this site, the project would be a public benefit for all of Moreno Valley. The CSD has a severe shortage of lighted soccer fields and without providing more playing areas participants do not get adequate practice time for instructions and many players are not able to take part in this very popular, healthy activity. With AYSO Soccer making the March Field Park there "Home Base", many other playing sites throughout the community will be freed up for usage by the thousands of players enrolled in other organizations.

AYSO Soccer alone has approximately 1,200 City of Moreno Valley participants; however they are limited to growth due to a lack of CSD facilities. Not only will AYSO Soccer provide activities to its members, they will host games with other city leagues and in addition they will provide soccer clinics (workshops) to all residents and allow times for open play for all youngsters that are not able to afford the cost of being in a league.

It is envisioned that March Field Park will be one of the premier sports parks in the City of Moreno Valley. The programs created will stimulate public use of the facility, benefiting the entire community. Being a non-profit organization, AYSO Soccer will be giving back proceeds to the site in form of maintenance, improvements and any additional money's derived (after cost are met) from sanctioned soccer tournaments. AYSO Soccer, like other concessioners will be held accountable and will meet with CSD staff on a regular basis assuring they are adhering to all stipulations within the concession agreement as well as the "Program of Utilization."

CSD staff believes this cooperative agreement with AYSO Soccer meets the requirements set forth by the National Park Service and Federal Lands Program and deems this usage as appropriate.

Please feel free to contact me if you should have any questions or require further information or clarification. Thank you for your consideration of this request.

Sincerely,

Michael McCarty
Parks and Community Services Director

RE: SLPP Grant Funds for Eucalyptus Avenue and Various Funding Methods

Dear Mr. Benzeevi,

On April 27, 2010 the City Council reviewed four options that could be considered to address the SLPP Grant for Eucalyptus Avenue and various funding methods. After some public discussion you appeared before the City Council and indicated you will proceed with the subject project in accordance with Option One (attached).

It is our mutual goal that you receive the grant funds to assist with the construction of the subject project. However, the concept of building a grant project in the manner of Option One is something the City has not done. In order for us both to understand our various roles in this unique process we need direction from the California Transportation Commission (CTC). We are therefore requesting that you receive written approval of your process from them that will allow you to build this project and receive the grant funds. Not only do we need to know that CTC approves of your role, but we need to know what is expected of the City in order for us to receive the grant funds and ultimately provide them to you and your project. Since this is your process, you will have to advise CTC to tell us what our role is in light of your concept. For your information City staff has contacted CTC for a name and address of the person you should contact. Her name and address information is:

Bimla Rhinehart
Executive Director
California Transportation Commission
1120 N Street, Room 2231 (MS-52)
Sacramento, CA 95814

We will await the requested process from CTC before we can be reasonably certain CTC will approve of the City passing on the grant funds to you for the project. Until we receive the requested direction from CTC, the City will not be able to assist you with the SLLP Grant.

Please feel free to contact me if you have any questions.

Sincerely,

William L. Bopf
Interim City Manager

Enclosure: Option One

MV00233658

OPTION ONE
Highland Fairview to Construct Eucalyptus Avenue

Goal:	Funding and Constructing the Eucalyptus Avenue Improvements for the Highland Fairview Corporate Park/Skechers project
Requirement(s):	A) City permits required (including inspections)
Funding Method(s):	Highland Fairview to fully fund the project – approximately $6.3 million; and therefore, Highland Fairview may not be eligible for SLPP grant funds.
Results:	A) Highland Fairview administers the construction project – may be the most expeditious means to construct the street improvements (i.e., California Contract Code/prevailing wage issues may not apply) B) Highland Fairview can construct underground utilities and street improvements as one operation C) The street improvements would be constructed to City standards D) Eucalyptus Avenue would be dedicated to the City upon completion E) Highland Fairview may be eligible for DIF Reimbursement per City Council adopted policy
Obstacles:	A) Requires Highland Fairview to fund the project B) Highland Fairview may not receive up to $1 million (based on reimbursement by the State) in SLPP Grant funds
Required City Action:	NA (FYI – only City Council action would be the acceptance of Improvements upon completion)

MEMORANDUM

To: Mayor and City Council
William L. Bopf, Interim City Manager

From: Steve Elam, Interim Financial & Administrative Services Director

Date: May 4, 2010

Subject: Fiscal Year-End Audit

The interim audit work for the fiscal year ending June 30, 2010 began on May 3, 2010. During the audit opening conference, a recent auditing standard was discussed by Ken Al-Imam, Shareholder for Mayer Hoffman McCann, the City's current auditing firm.

This auditing standard provides for auditors to contact those persons responsible for audit oversight to make them aware of the risks to be addressed in the audit process and to give them the opportunity to directly contact the auditors if they are aware of any issues that should be incorporated in the audit risk assessment. The mechanism that Mayer Hoffman McCann uses to solicit such requests is the attached letter.

If there are no issues that you wish to bring to the auditors' attention with respect to audit risk assessment, no action is required. If you are aware of any issues that should be addressed by the auditors, the contact information for Mr. Al-Imam is provided in the attached letter.

If you have any questions regarding the FY 2009-10 independent audit in general, please do not hesitate to contact me at x3024.

City Council
City of Moreno Valley

Mayer Hoffman McCann P.C. serves as the independent auditor for the City. Auditing standards (*Statement on Auditing Standards No. 114*) recommend that the auditors make those individuals charged with audit oversight aware of the **risks to be addressed by the audit process**. Examples of significant risks to be identified by the audit process are identified on the attached listing.

If you are aware of any other issues that we should factor into our assessment of the risk of material misstatement (such as knowledge of complex or unusual transactions, knowledge of fraud, etc.) please contact the undersigned at [redacted] (extension 273) or at kalimam@cbiz.com.

It is important to remember that the focus of the annual audit is to identify **errors** or **misstatements** that involve **significant amounts** reflected in the year end financial statements of the organization. The costs for requested testing beyond the normal audit scope are billed separately from the normal annual audit.

Sincerely,

MAYER HOFFMAN MCCANN P.C.

Ken Al-Imam, C.P.A.
Shareholder

CITY OF MORENO VALLEY

Examples of Significant Misstatement Risks Addressed by the Audit Process

Year Ended June 30, 2010

Examples of the risks of significant **financial statement error** or **misstatement** that are addressed by the audit process are:

- Risk of material misstatement associated with **cash receipts** and **cash disbursements**: We plan to identify key internal controls and perform tests of those controls to determine if they are operating effectively to reduce the risk of significant error or misstatement.

- Risk of material misstatement associated with **significant assets and liabilities**: We plan to agree recorded balances for significant assets and liabilities to detailed supporting records and documentation.

- Risk of improper **revenue recognition**: We plan to test material accrued revenues for collectability and meeting applicable revenue recognition criteria.

- Risk of improper classification of **expenditures**: We plan to test expenditures for proper fund assignment, proper support, approval, and cut-off.

- Risk of error associated with identifying **capital asset** additions and deletions: We plan to test the internal controls of the Organization to properly identify and record capital asset additions and deletions.

- Risk of material misstatement associated with **investments**: We plan to compare recorded investments to investment statements to test the proper existence, valuation, ownership, and classification of recorded investments. We plan to test recorded investments for issues relating to compliance with the California Government Code and the Organization's investment policy that are required by accounting standards to be disclosed in the financial statements.

- Risk of unallowable transfers between funds: We plan to test material transfers from restricted funds for conformity to legal requirements.

MEMORANDUM

To: Mayor and City Council Members
William L. Bopf, Interim City Manager

From: Steve Elam, Interim Financial & Administrative Services Director

Date: April 20, 2010

Subject: Fiscal Year 2008-09 Audit Reports

The City's Comprehensive Annual Financial Report (CAFR) for fiscal year ended June 30, 2009, was submitted to the City Council on March 23, 2010. As part of the year-end audit and CAFR preparation process, the City's outside auditor submits reports related to the City's financial statements and underlying internal controls for the period just audited, as follows:

- ***Single Audit Report on Federal Awards*** ("Single Audit Report")
- ***Communications Regarding Internal Control*** (known as the "Management Letter")
- ***Supplemental Audit Report*** (part of a new auditing standard addressing issues such as: the auditor's responsibilities; audit focus and scope; qualitative aspects of accounting practices; significant difficulties in performing the audit; any disagreements with management; etc.)

The three reports listed above were issued by the City's current audit firm, Mayer Hoffman McCann P.C., and are hereby submitted for your information. All three reports are dated December 23, 2009, to coincide with the conclusion of the audit, even though the reports were not issued until April 15, 2010. Following is a brief summary of the significant findings in each report:

Single Audit Report (Attachment A)

As indicated in the Schedule of Findings and Questioned Costs (page 7), the City had no findings or questioned costs and received an unqualified audit opinion.

Management Letter (Attachment B)

As indicated on page 1 of the report, the auditor did not identify any deficiencies in internal control that were considered to be a material weakness. Only one recommendation is made for improving internal controls, along with management's comments regarding corrective actions planned or taken. The status of four prior-year recommendations is also provided, indicating that all items have been adequately resolved; therefore, there are no further recommendations.

Supplemental Audit Report (Attachment C)

As indicated on pages 2 and 3 of the report, the auditors encountered no difficulties in performing their audit and had no disagreements with management on any financial accounting, reporting or auditing matters that could be significant to the financial statements or the auditor's report.

Please let me know if you have any questions regarding the Single Audit Report, Management Letter, or Supplemental Audit Report submitted by Mayer Hoffman McCann P.C. I would be pleased to meet with you to respond to questions or to provide additional information.

REPORT ON COMPLIANCE AND OTHER MATTERS AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Moreno Valley, California, as of and for the year ended June 30, 2009, which collectively comprise the City of Moreno Valley's basic financial statements and have issued our report thereon dated December 23, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Moreno Valley's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of Moreno Valley's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the basic financial statements and not to provide an opinion on the internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Moreno Valley's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the City's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the City's financial statements that is more than inconsequential will not be prevented or detected by the City's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

MV00233667

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

However, we noted other matters involving the internal control over financial reporting which we have communicated to management in a separate letter dated December 23, 2009.

This report is intended solely for the information and use of the City Council and management of the City of Moreno Valley, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

City Council
City of Moreno Valley, California

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM, INTERNAL CONTROL OVER COMPLIANCE AND ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS IN ACCORDANCE WITH OMB CIRCULAR A-133

Compliance

We have audited the compliance of the City of Moreno Valley, California, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2009. The City of Moreno Valley's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the City of Moreno Valley's management. Our responsibility is to express an opinion on the City of Moreno Valley's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Moreno Valley's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City of Moreno Valley's compliance with those requirements.

In our opinion, the City of Moreno Valley complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2009.

Internal Control Over Compliance

The management of the City of Moreno Valley is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the City of Moreno Valley's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the City's internal control that might be significant deficiencies or material weaknesses as defined below.

A control deficiency in the City's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the City's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the City's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the City's internal control. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Moreno Valley as of and for the year ended June 30, 2009, and have issued our report thereon dated December 23, 2009. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the City of Moreno Valley's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the City Council, management of the City of Moreno Valley, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

CITY OF MORENO VALLEY

Notes to the Schedule of Expenditures of Federal Awards

Year ended June 30, 2009

(1) Summary of Significant Accounting Policies Applicable to the Schedule of Expenditures of Federal Awards

(a) Scope of Presentation

The accompanying schedule presents only the expenditures incurred by the City of Moreno Valley, California (City) that are reimbursable under federal programs providing financial assistance. For purposes of this schedule, financial assistance includes both federal financial assistance received directly from a federal agency, as well as federal funds received indirectly by the City from non-federal organizations. Only the portion of program expenditures reimbursable with such federal funds is reported in the accompanying schedule. Program expenditures in excess of the maximum reimbursement authorized or the portion of program expenditures that were funded with state, local or other non-federal funds are excluded from the accompanying schedule.

(b) Basis of Accounting

The expenditures included in the accompanying schedule were reported on the modified accrual basis of accounting. Expenditures reported include any property or equipment acquisitions incurred under the federal program.

(c) Subrecipients

The City of Moreno Valley incurred $271,959 of Community Development Block Grant expenditures that were paid to subrecipients.

MV00233672

CITY OF MORENO VALLEY

Schedule of Findings and Questioned Costs

Year ended June 30, 2009

(A) Summary of Auditors' Results

1. An unqualified report was issued by the auditors on the financial statements of the auditee.

2. There were no material weaknesses in internal control over financial reporting based upon our audit of the financial statements of the auditee.

3. The audit disclosed no noncompliance which is material to the financial statements of the auditee.

4. There were no material weaknesses in internal control over major programs of the auditee.

5. An unqualified report was issued by the auditors on compliance for major programs.

6. The audit disclosed no audit findings required to be reported under paragraph .510(a) of OMB Circular A-133.

7. The two major programs of the auditee were the following:

   1) Community Development Block Grant, direct award from the U.S. Department of Housing and Urban Development, CFDA #14.218.

   2) Child and Adult Care Food Program passed through from the U.S. Department of Health and Human Services, CFDA #10.558.

8. The dollar threshold used to distinguish Type A and Type B programs was $300,000.

9. The auditee met the criteria to be classified as a low risk auditee, as defined by OMB Circular A-133, paragraph .530 for the purposes of determining major programs.

(B) Findings Related to the Financial Statements which are Required to be Reported in Accordance with GAGAS

There are no auditors' findings required to be reported in accordance with GAGAS.

(C) Findings and Questioned Costs for Federal Awards as Defined in Paragraph .510(a) at OMB Circular A-133

There are no auditors' findings to be reported in accordance with paragraph .510(a) at OMB Circular A-133.

MV00233673

CITY OF MORENO VALLEY

Summary Schedule of Prior Audit Findings

Year ended June 30, 2009

There were no prior year auditors' findings to be reported in accordance with paragraph .510(a) at OMB Circular A-133.

City of Moreno Valley
Moreno Valley, CA

COMMUNICATIONS REGARDING INTERNAL CONTROL

In planning and performing our audit of the financial statements of the City of Moreno Valley ("City") as of and for the year ended June 30, 2009, in accordance with auditing standards generally accepted in the United States of America, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is defined to be a control deficiency, or combination of control deficiencies, that adversely affects the City's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the City's financial statements that is more than inconsequential will not be prevented or detected by the City's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. Our consideration of internal control was for the limited purpose described in the first paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. **We did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above.**

However, as an added service to the City, during the course of the audit we recommended the following enhancement of internal control for consideration by the City:

(1) Internal Controls Over the Establishment of Vendors in the System

During our audit, we noted that the persons involved in data entry for cash disbursements also have the system access rights that allow them the ability to establish vendors in the system. Internal controls are maximized when the persons that process vendor invoices for payment and that are involved in data entry for the creation of City checks do not also have the ability to establish vendors in the system.

We recommend that the City consider changing access rights for accounts payable personnel so that they do not have system access rights to establish vendors or payees in the system.

Generally, purchasing personnel should be involved in the establishment of vendors in the system.

Management's comments regarding corrective actions planned or taken

Procedural as well as system controls have been implemented to achieve the appropriate segregation of duties as recommended by the auditors.

STATUS OF PRIOR YEAR RECOMMENDATIONS

(1) Periodic Inventory of Capital Assets

In last year's audit, we recommended that the City establish procedures for the periodic physical verification of City capital assets. The City adequately resolved this matter during our audit by adopting a capital asset management policy. As a result, we have no further recommendation.

(2) Ethics Policy

In last year's audit, we recommended that the City establish and implement an appropriately-designed ethics policy. The City adequately resolved this matter during our audit by adopting an ethics policy. As a result, we have no further recommendation.

(3) Account Write-off Policy

In last year's audit, we recommended that the City consider the establishment of a formal policy authorizing management personnel to perform appropriate write-off and collection actions when warranted in accordance with the provisions of that policy. The City adequately resolved this matter during out audit by adopting an Account Write-off policy. As a result, we have no further recommendation.

(4) Adjustments Detected by Audit Process

In last year's audit, we recommended that the City establish controls to minimize the number of accounting entries posted after the start of the year end audit. For the current year audit, the City made significant progress in this regard and furthermore adopted an annual audit checklist to assist in the attainment of this goal. As a result, we have no further recommendation.

The City's written responses to the other matters identified in our audit are described above. We did not audit the City's responses, and accordingly, we express no opinion on them. This communication is intended solely for the information and use of management, City Council, and

others within the organization, and is not intended to be used by persons other than those specified parties.

Attachment C

City Council
City of Moreno Valley
Moreno Valley, California

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Moreno Valley ("the City") for the year ended June 30, 2009, and have issued our report thereon dated December 23, 2009. Professional standards require that we provide you with the following information related to our audit.

Our Responsibility under U.S. Generally Accepted Auditing Standards

Our responsibility, as described by professional standards, is to express opinions about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

Our responsibility is to plan and perform the audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement. In planning and performing our audit, we considered the City's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. We also considered internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with U.S. Office of Management and Budget (OMB) Circular A-133.

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit. Also in accordance with OMB Circular A-133, we examined, on a test basis, evidence about the City's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement applicable to its major federal program for the purpose of expressing an opinion on the City's compliance with those requirements. While our audit provides a reasonable basis for our opinion, it does not provide a legal determination on the City's compliance with those requirements.

Audit Focus and Scope of the Audit

An audit performed in accordance with auditing standards is designed to provide reasonable assurance of detecting errors or misstatements involving amounts significant to the financial

statements of the City. Risks of significant error or misstatement addressed by the audit process include the following:

- Fraud risk for cash receipts and cash disbursements
- Risk of material fraud or misstatement associated with investments
- Risk of improper revenue recognition
- Risk of improper classification of expenditures
- Risk of errors associated with identifying capital asset additions and deletions
- Risk of unallowable transfers between funds

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the City are described in note one to the basic financial statements. The significant accounting policies used by City are described in Note 1 to the financial statements. As described in Note 9 to the financial statements, in 2009 the City changed accounting policies related to other postemployment benefits by adopting Statement of Governmental Accounting Standards (GASB Statement) No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. There is no cumulative effect of the accounting change as of the beginning of the year. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

Examples of significant judgments and estimates reflected in the City's financial statements and disclosures include:

- Judgments concerning which capital projects represent ordinary maintenance activities necessary to keep an asset operational for its originally intended useful life versus significant improvement, replacement, and life extending projects that should be capitalized as additions to capital assets.
- Estimates involving revenues and expenses to be accrued as of year end.
- Estimates for valuation of investment fair market values.

Significant Difficulties in Performing the Audit

We encountered no difficulties in performing our audit.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have obtained certain representations from management that are included in the management representation letter dated December 23, 2009.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion." If a consultation involves application of an accounting principle to the City's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the City's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of the City Council and management of the City and is not intended to be and should not be used by anyone other than these specified parties.

150 rally to support checkpoints

Chief: Practice keeps city's streets safer

BY TERI FIGUEROA
tfigueroa@nctimes.com

About three weeks after critics of Escondido's driver's license checkpoints asked the city's police chief to end the crackdowns or resign, his supporters staged a large rally Thursday in front of City Hall.

Driver's license checkpoints are a controversial topic in Escondido.

The checkpoints have long been criticized by Latino activists who say they disproportionately affect their community. That is because illegal immigrants, many of whom are Latinos, are barred by state law from having driver's licenses.

But supporters, like those at the rally Thursday afternoon reject such criticism and point to the city's reduction in hit-and-run crashes, which dropped by a third in Escondido between 2004 and 2008. The checkpoints started in 2004.

"Let's save lives," said rally organizer Patricia Bennett, who in 2007 formed a grassroots group called Citizens of Escondido for Road Safety.

"That's the focus," Bennett continued. "Anybody who tries to make it more than that, I am very angry with. ... How can you argue with traffic safety?"

Thursday's turnout — more than 150 people showed up — was more than three times larger

Checkpoints

Continued from Page A1

than the March 26 protest at the same spot calling for Escondido Police Chief Jim Maher to resign.

A number of the checkpoint supporters stood at the corner of Broadway Avenue and Valley Parkway waving signs — drawing honks, cheers and a few thumbs-up from passersby of all colors.

Maher showed up near the end of the rally and, using a bullhorn, thanked the crowd.

"It's not often, but I did recently read something in the paper that was true," Maher said, drawing laughter.

"It said that the checkpoints are dividing the community — and I agree. They're dividing the licensed drivers from the unlicensed drivers."

The crowd broke into cheers and applause.

"That's why we do them," Maher continued. "The only reason we do them: to keep the streets safer. And I want to remind everybody, especially the people that rally against the checkpoints, that when we do them, we make the streets safer for them, too."

In an effort to reduce the number of hit-and-run crashes, the Police Department conducts dozens of checkpoints each year.

The department conducts two kinds of checkpoints, one aimed primarily at nabbing unlicensed drivers, the other at catching drunken drivers.

Judith Yaddow, 69, holds up a sign during a rally Thursday on the front steps of Escondido City Hall.

The checkpoints solely targeting unlicensed drivers are the most troublesome to some Latino activists, who say the operations are really traps intended to ensnare illegal immigrants — a charge vigorously denied by police officials and their supporters.

"This is about enforcing the laws," Escondido resident Roy Knight, 54, said, adding that support for the checkpoints did not have an undercurrent of anti-immigration sentiment. "This isn't anti anybody."

Escondido resident Diane Snyder, 66, and her husband held a large, professionally printed sign in support of Maher.

"I was born and raised in this community, and I want it to be as safe as possible," Diane Snyder said. "They have my full support."

Many of the checkpoint supporters — some of them wearing red, white and blue clothing — said they planned to head to the Tea Party rally up the street after the hourlong event in support of Maher.

Among them were Garth and Judy Carle, who said taxes spent to enforce the law was money well spent.

"That's one area we don't mind our tax money going to," Judy Carle said.

RE: SLPP Grant Funds for the Eucalyptus Avenue Street Improvements

Dear Mr. Benzeevi,

I received your letter on April 12, 2010, which states your opposition to the City's street construction oversight and surety amounts. It is not the City's intent or objective to impede the construction of the Eucalyptus Avenue street improvements and the Highland Fairview Corporate Park (i.e., Skechers) project. The City is compelled by law to insure future public improvements are constructed to their standards and if for some reason the construction does not go well, have a means by which the City can assume ownership of the work and complete the improvements as approved by the City.

It is the City's position that the SLPP Grant requires a local agency (i.e., the City of Moreno Valley) to manage the construction of the street improvements to be eligible for SLPP Grant funds. It is also our opinion that the street improvements must comply with the Public Contract Code. However, in the spirit of cooperation, if Highland Fairview has a differing opinion and wishes to serve as the contractor and construct the street improvements itself, the City Council may approve that process.

In order to work with you to solve this circumstance as you desire, I have attached an amendment to Option One for City Council to consider. As you can see the City Council may wish to add the Eucalyptus Avenue Improvements to its Capital Improvement Plan. The City may also determine that the project could be funded by approximately 60% of your DIF payments, the SLPP Grant* and other developer payments. The other impediment to your proceeding on your own is the surety that will serve as a guarantee that the project will be completed. You may accomplish this requirement by a cash deposit of some agreed upon amount in an Escrow account. By the time you start the road project you may have completed your Rough Grading and you could use that redeemed deposit as part of what may be an agreed upon surety.

If the above process is satisfactory to you, and City Council approves, you could proceed as outlined. Please be advised that we still believe the following:

1. The State may not approve you as the contractor. If they do, fine.

2. The State may require that you pay prevailing wages. If they do not, and still honor the grant, fine.

MV00233684

3. We will require acceptable surety for the public improvement (source: State Map Act and Municipal Code).

Please advise if this alternative is acceptable to you and I will submit it to the City Council as another option to my report for the April 27, 2010 Council meeting.

Please feel free to contact me if you have other comments and/or questions.

Respectfully,

William L. Bopf
Interim City Manager

Enclosure: Option One - Amended

* Required by the SLPP Grant, some funds must be from Developer Fees and it must be a funded project on the City's CIP

OPTION ONE – Amended

(Note: Amendments are *in highlighted, underlined italic* type.)

Highland Fairview to Construct Eucalyptus Avenue

Goal: Funding and Constructing the Eucalyptus Avenue Improvements for the Highland Fairview Corporate Park/Skechers project

Requirement(s):

A) City permits required (including inspections)

Funding Method(s):

Highland Fairview to fully fund the project – approximately $6.3 million; and therefore, Highland Fairview may not be eligible for SLPP grant funds.

Results:

A) Highland Fairview administers the construction project – may be the most expeditious means to construct the street improvements (i.e., California Contract Code/prevailing wage issues may not apply)
B) Highland Fairview can construct underground utilities and street improvements as one operation
C) The street improvements would be constructed to City standards
D) Eucalyptus Avenue would be dedicated to the City upon completion
E) Highland Fairview may be eligible for DIF Reimbursement per City Council adopted policy

Obstacles:

A) Requires Highland Fairview to fund the project
B) *Requires Highland Fairview to pay its DIF obligation as required by the SLPP Grant (Approximately 60 percent of the DIF obligation paid by Highland Fairview will be credited to the street improvements)*
C) Highland Fairview may not receive up to $1 million (based on reimbursement by the State) in SLPP Grant funds

Required City Action:

A) Amend CIP Plan to include Eucalyptus Avenue improvements as a "Funded Project" for Fiscal Year 2009-10 – funding source of Highland Fairview DIF obligation and private funds
B) Instruct Staff to review the plans and specifications prepared by Highland Fairview for the Eucalyptus Avenue street improvement project
C) Instruct Staff to collect the necessary surety as required by statute and Municipal Code

Re: SLPP Grant Funds-Eucalyptus Street

Dear Bill,

I appreciate your efforts to move the Eucalyptus SLPP Grant fund project forward. To reiterate our conversation, Highland Fairview with the cooperation of the city applied for and received approval for a SLPP Grant for the construction of Eucalyptus Street. As a grant, the funds do not have to be repaid and therefore are a direct benefit to the City and its residents. It is not often that the city can receive "free" money and I am sure you share my sentiment that we should do all we can to insure that we secure this opportunity for the benefit of our community.

As part of the Highland Fairview Corporate Park (HFCP), Highland Fairview is mandated by the City's Conditions of Approval to construct Eucalyptus Street which is of course, a public improvement project and the subject of this grant. As the builder, we are therefore required to provide the City with guarantees to secure the construction of the street such as subdivision bonds or other acceptable forms of security to the city.

A concern has been raised by staff pertaining to their worry that in the unlikely event the street construction will not be completed, the city will be left with the task of collecting on the guarantee before they could secure the funds necessary to finish the job, while the "community" is inconvenienced by not having the street fully functioning.

I am somewhat perplexed. I could see the city's concern if we were talking about a major city street which is in constant use and its interruption will be of great public inconvenience. This is certainly not the case here. Eucalyptus is not an improved street nor is it in use and therefore does not currently impact the community. When the street will finally be placed in service , it will have limited use and will initially only service as access to the HFCP project (Skechers building), since there is nothing else in the vicinity today.

Therefore, should an interruption occur to the street's construction, the city will not be under any unusual time pressure to accelerate the completion of the street ahead of the normal time it takes to collect on the bonds or guarantees.

Further, The HFCP project would not receive any development or occupancy approvals without the construction of Eucalyptus Street. Therefore the project would be halted and there will be no immediate need for the street. In this unlikely event the city will definitely have plenty of time to collect on the bonds and finish the street without impacting the public.

Additionally, the amount to be guaranteed by Highland Fairview required by the City is in fact substantially higher than the actual estimated construction costs. This is primarily due to the City's unit costs and contingency levels, both of which significantly exceed our construction bid estimates and will provide an extra security cushion to the city.

In any event, if the street construction was interrupted for some reason, the City would be able to use the security we will post (bond or Letter of Credit) to complete the work.

The city will also insure that payments to the contractor will only be made after each phase of work will have been completed further limiting their exposure. If there were a situation that occurred with the street development, the City would have notice immediately. If grant funds were used to reimburse as street development takes place, appropriate documentation would be required in the submittal of the request for reimbursement.

The State and Federal programs offer significant opportunities to facilitate and expedite good projects and we look forward to working with the City to apply the governmental incentives in our community. HFCP is exactly the type of job-producing, economy-growing project that these programs were designed to assist. The City can be a great help in this effort to bring jobs and economic growth to our community.

Bill, especially in these difficult economic times, we should think out of the box and work harder to capture any opportunity we can to improve our community. I appreciate your personal interest and initiative. We remain anxious to work with your office to move our projects forward. I believe the risk to the city is de minims at best and the benefit is substantial.

Sincerely,

Iddo Benzeevi
President

MEMORANDUM

To: Mayor Flickinger and Members of the City Council

From: William L. Bopf, Interim City Manager

Date: April 12, 2010

Subject: State of the City's Finances

I am writing this e-mail in lieu of meeting with each of you personally for two reasons:

1. I have a bad cold and I don't want to expose anyone to that.
2. Two Council Members will be absent from the April 13 meeting.

In over thirty years of Public Administration I have never submitted a deficit budget. This year's draft base budget has a deficit of over $17 million.

Because of this deficit, approx. two weeks ago I submitted an E-mail to the Executive Staff to withhold any discretionary expenditure for the remainder of this fiscal year. The Staff has responded to this request very well. Every dollar we save now will help to reduce that deficit. For example:

1. The Police Department may be able to finish this fiscal year with a positive balance of $750,000.
2. The Library has agreed to spend only $40,000 of their remaining Book Budget in order to preserve the remaining $40,000 of those funds.
3. Other Departments have projected that they may save several millions of dollars.

The City Attorney came to me, even though he does not report to me, to suggest that he could forego his attendance at the League City Attorney's meeting if it would help. After some discussion we both agreed that the attendance of he and his assistant was worth more to the City than the cost.

I have been advised last Thursday that we may have committed to expend $85,000 at the March AF Reserve Base Air Show in May. I am also aware of how much we may have to spend on the two day 4th of July Community Celebration.

The Police and Fire Departments are Contract Departments. Even so, the respective Chiefs constantly attempt to reduce their hours under contract. Every time they are expected to support a special event it requires more hours under their contracts or reduced services elsewhere. When our Public Works Department (including Maintenance) and our Parks and Community Services Department respond, it involves a burden on the General Fund.

If any of these events, and others, are going to be pursued the remainder of this fiscal year the Majority of the City Council will have to vote for them and fund them through the City Reserves. There is only $50,000 left in the City Manager's Fund to be used for the whole City. The Staff was trying to preserve that amount to assist with the coming year's deficit. Of course the Staff will implement the Council's majority direction pursuant to their direction.

As we enter the Budgetary Process for the coming fiscal year it is very likely that in order to maintain anything close to the existing level of service, we will have to expend between $6 to $9 million of the City's $22.5 million Reserve Fund.

Please call me if you have any questions.

The City of Soaring Dreams

By Jeanne LaBella

PUBLIC POWER

ON THE ROAD

Moreno Valley Utility has a 17-year contract with a private firm for outage support, customer service and billing. The utility has five employees (from left) Manager George Hanson; Senior Financial Analyst Darcy Ramirez, Senior Administrative Assistant Priscilla Stopani, Electric Utility Program Coordinator Michelle Pierce, and Senior Electrical Engineer Gerald McAllister. Photos by Rosanna Hanson.

MV00233692

In 2009, the nation was in its deepest economic downturn since the Great Depression of the 1930s—and the effects of that decline were especially painful in California, where state and local agencies instituted staff furloughs, typically with four-day workweeks. But Moreno Valley's Electric Utility (known to locals as "MVU") experienced 20 percent growth in its electric load. Of course, growth was down from the projected 50 percent.

MVU is one of seven new municipal electric utilities born out of the California energy crisis of 2000 and 2001. The market manipulation that marred one of the nation's first ventures into retail competition for electricity left customers angry about exorbitant electricity rates and rolling blackouts. In those seven communities (the others are Corona, Rancho Cucamonga, Hercules, Industry, Pittsburg and Port of Stockton), customers succeeded in asserting local control and taking charge of their energy destiny.

Moreno Valley officials promote the city as a place "Where Dreams Soar." The nascent electric utility is one of those dreams. As the city of Moreno Valley grows, the electric utility grows. New commercial, residential and industrial developments in the city receive electricity service from MVU. Homes and businesses in place prior to 2004 purchase electricity from Southern California Edison Co. Retail rates for the two utilities are comparable. The City Council sets rates for the municipal utility and decided to keep electric rates on par with those charged by the investor-owned utility to avoid issues with customers in the older areas of the city.

Moreno Valley is largely a bedroom community for Los Angeles and Orange County, a place where Southern California residents can get better housing for their money, if they are willing to drive east. But it is also home for several distribution centers. The city's largest customer is a 20-acre "hoteling" facility for Ross Dress for Less, a clothing retailer that purchases unsold inventory from high-end retailers and sells it at a discount a season later in its own retail stores nationwide.

George Hanson, manager of the city's Electric Utility Division, thinks of MVU and the other new utilities in California as having just emerged from the "toddler" stage into the adolescent years. The challenges these utilities face are very different from those of older municipal utilities. Keeping pace with the rapid growth is the greatest challenge for MVU.

A visitor to Moreno Valley can quickly see which customers buy electricity from the city versus those who purchase from Southern California Edison. The city is building a new distribution system that is completely underground, while the majority of the private utility's lines are overhead. Reliability and energy efficiency are high priorities for the city. MVU Senior Electrical Engineer Gerald McAllister looks forward to the integration of the city's new substation with an outage management notification system that will direct crews to the troubled circuit, technology that will streamline the time required to make repairs and keep outages very low.

Moreno Valley today has a population of about 189,000. But the 54-square-mile city, incorporated in December 1984, is on the eastern edge of the growing Los Angeles suburbs, where development is expected to flourish over the next several decades. Today, the city serves more than 5,400 electric meters, while Southern California Edison serves about 35,000 within the city limits. As growth continues over the next two decades, MVU's customer base is projected to reach between 30,000 and 35,000 meters. Two years ago, Hanson said, he would have projected a shorter timeline, but the recession has slowed development.

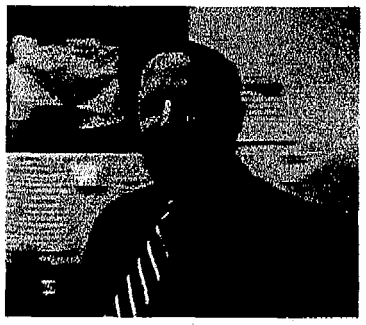
By some measures, the recession brought a welcome breather to the city's growth. The utility's biggest challenge in its short history has been to contain growth in areas served by 12,000-volt interconnections. In the fall of 2007, the city completed construction on its new 115,000-volt substation and cut four 12-kV interconnections to it.

"That was a huge reliability upgrade," Hanson said. "Now with the five remaining 12-kV interconnections, we're trying to fill in the gaps between the larger substation and these. There's some pretty substantial reaches that we need to get through, so it's not going to happen overnight, but with development, with phased growth, the goal is to have them all fed with the new substation."

MVU and the other utilities born of the California energy crisis also had to confront the perennial greed of investor-owned utilities. Southern California Edison wanted to impose "exit fees" on any customer served by the new municipal utilities. The exit fees would have applied to customers the IOU would have served, had the city-owned utility not been there.

"It's a very novel approach," Hanson said.

'I like public power better'



George Hanson began his electric utility career with Southern California Edison. Before he joined Moreno Valley, he worked for the utility in Corona, Calif., another infant spawned by the California energy crisis of 2000-01.

"I had a great career at Edison, but I like public power better because you feel you are making a contribution to the community. You see the impact on the city," he said. He likes the camaraderie found in organizations like California Municipal Utilities Association and Southern California Public Power Authority. "We're not exactly in a business that no one has ever done before, so when you run into something, then you can pick up the phone and call and say, how did you guys do that? I've enjoyed my eight years in public power." ■

Gerald McAllister and George Hanson review activity at Moreno Valley's new substation.

"They never really existed in the IOU's territory, but the investor-owned utilities were very influential at the California Public Utilities Commission in getting this tariff passed." Both Southern California Edison and Pacific Gas & Electric Co. sought to collect the fees from the new utilities. It was a big challenge for the Moreno Valley City Council, Hanson said. "Politically, the council members are still grappling with a new startup business and all the concerns that go along with that. You don't need a big gorilla standing on the sidelines threatening you with more costs."

For Moreno Valley, the dispute was settled last August. Southern California Edison sought to collect more than $7 million from the city. The company settled for a one-time payment of $1.671 million.

Hanson is relieved to have that dispute behind him. "Edison challenged the [Moreno Valley] utility when it was forming and spent over $2 million trying to defeat the utility and hamstring it during its startup," he said. "There was, right off the bat, a confrontational environment, which is tough on the elected officials." The settlement, he said, was amicable and mutually agreeable.

Local customers recognize and appreciate the value of working with a publicly owned electric utility. Commercial and industrial customers like the ease of working with the city.

"We've had calls from Edison customers in the city, asking when we are coming closer to them, saying, "I want you to serve me,'" Hanson said. He takes this as a compliment. "We do things constantly to set ourselves apart, to let folks know that we are part of the community and different than a corporation in the way we treat you as a customer," he said. "For example, on power outages, at the end of every outage we call every customer to make sure that their power was restored. That doesn't happen with the other provider in town. Some customers really appreciate that."

As it grows, MVU will become a generation owner, Hanson said. For now, it purchases energy through wholesale power contracts and schedules deliveries through the California Independent System Operator. The utility takes advantage of its abundant sunshine and offers solar energy incentives to customers. In 2008, the city paid customers $4 a watt to install solar energy. Only one residential customer took advantage of the $4 offer and installed a 5.5-kW rooftop photovoltaic system on his home. MVU continues to offer just less than $3 a watt for solar installations. Solar energy, even with incentives, is expensive. The city's contribution to the residential PV rooftop was $23,000; the homeowner paid another $30,000 for the project.

The utility also works with local developers to encourage energy efficiency in new construction. A local grocery store, Stater Brothers, took advantage of utility incentives to incorporate 15 energy-efficiency measures to its new store in Moreno Valley. The grocery company installed mechanical subcooling, floating head pressure with variable-setpoint controls, variable-speed controls, floating suction pressure, lighting controls, LED lights and occupancy sensors. The utility gave Stater Brothers an incentive payment of $31,378 for incorporating the measures into the store. ■

SUBJECT: Highland Fairview Corporate Park – Items Needed Prior to Issuance of a Grading Permit

Dear Ms. Abreau:

Per your request, the City of Moreno Valley is providing this update regarding the items that remain to be addressed prior to the issuance of the grading permit for the Highland Fairview Corporate Park project.

Please be advised that the grading plan has been approved. The items listed below are associated tasks which must be completed before the City can issue the actual grading permit. Some of these items stem from requirements of the City's Municipal Code, some are related to the project's Conditions of Approval and Mitigation Measures and others come from administrative procedures relating to grading permit issuance.

Plans
1) Tree Plan to be approved by Planning
2) Property Owner Association (POA) Landscape Plans to be approved by Planning

Payment of Fees
1) Stevens Kangaroo Rat (SKR) Fee
2) Area Drainage Fee
3) Grading and Inspection Fee
4) Parks Plan Check Fee

Site Surveys (within 30 days of permit issuance)
1) Burrowing Owl Survey
2) Bird Nesting Survey

Posting of Securities
1) Posting of Grading Bond or other security
2) Posting of Erosion Control Bond or other security

MV00233695

Required Documentation - signed by general contractor

1) Use of B20 Biodiesel fuel
2) Fugitive Dust Control Plan
3) Temporary Security Fencing Plan
4) Temporary Project Signage
5) Waste Management Plan (WMP)

The above list of permit fees and obligations are applicable to the issuance of a Rough Grading Permit. As indicated above, most of these are requirements of the City's Municipal Code. I can only confirm those that are the City's requirements. Several of those listed are required by other Agencies, in that regard, we merely collect their fees on their behalf. I can not speak for them.

Please call me if you have any questions regarding this information.

Sincerely,

William L. Bopf
Interim City Manager

Rotational Tow Program Update
Meetings with Mayor and Council Members
November, 2010

- Currently 6 tow operators on City rotational tow program; permits expire December 31.

- Ordinance to revise the program approved by Council in June, effective July 22.

- RFP for Rotational Tow Program posted on Sept. 2; due to City Clerk Oct. 12

- Thorough review of all proposals by several Depts (City Manager, Community Development, City Attorney, Financial & Admin Services, Police, Fire), including site visits.

- Item to award contracts for Rotational Tow Program is on the November 30 Council agenda (staff report will be available for operators to review when posted for the public on Wednesday, Nov. 24.) Proposing 5-year agreements effective Jan. 1.

- 9 proposals received:

    - 6 operators on program
    - Pepe's: operating in town as of August, not on current RTP because they did not have tow operators permit when new ordinance est. new program went into effect
    - 2 proposers not currently operating a facility in MV:
        - Bob's Towing (proposing to construct facility on Rivard Road, City staff has not reviewed plans)
        - Lawler's (proposing to lease facility on Nandina, site has been approved for tow use because Superior is already at that location, but no applications for Lawler's have been submitted to the City).

- Original intent of ordinance was to require proposers to have business in place prior to RFP due date, not written that way and City Attorney advised we needed to accept their proposals.

- 1 operator meets all conditions

- 6 operators have some minor compliance issues that staff feels can be met by January 1, 2011 when new agreements are proposed to begin

- 2 not in compliance, will take at least 60 days for City review and approvals, plus construction time

    - Council could provide these operators with additional time to come into compliance (City Attorney suggests no more than one year).

MEMORANDUM

10 MAR 31 PM 5:18
CITY COUNCIL
MORENO VALLEY
RECEIVED

To: Mayor and City Council
William L. Bopf, Interim City Manager

From: Michelle Dawson, Assistant to the City Manager

Date: March 31, 2010

Subject: "Moreno Valley Counts" Census Promotion Item

In September, 2009 the City submitted a proposal to the U.S. Census for funding to help promote the Census 2010 effort in Moreno Valley. The focus of the Census Partner Support Program is to reach out to the "hard to count" areas of the community that typically have a lower questionnaire return rate. The City requested and received $2,500 to design and purchase the attached chip clips to be distributed to 2,500 afterschool program participants. Each chip clip includes bilingual information regarding the importance of completing and returning the Census forms, as well as a snack. The promotion items were designed and ordered by a local Moreno Valley vendor.

The City has taken numerous actions to promote the Census 2010 effort to our residents; some of the activities we have taken to encourage participation include the following:

- Study Session presentation by a U.S. Census representative.
- Staff participated in the regional Census 2010 meeting in Cathedral City and presented a proclamation from the City Council.
- Application for Census Partner Support Program funds submitted to the U.S. Census Bureau by the City Manager's Office; received notification of award; ordered and distributed bilingual "Moreno Valley Counts" chip clips to the families of the STARS afterschool program participants.
- Letter inviting participation in a Complete Count Committee sent to 60 local agencies and organizations.
- Staff participated in the regional Census 2010 meeting in Riverside.
- For several months the Census 2010 logo has been displayed on the City's website with a link to the U.S. Census website.
- For several months a Census 2010 public service announcement has been shown on MVTV-3 numerous times each day in both English and Spanish. We have also been promoting Census participation on the MVTV-3 monthly news magazine "News Center" and in March began airing the one-minute Census video created by WRCOG in English and Spanish several times each day.

- Both the Summer 2009 and Winter 2009/2010 editions of "CityLink," the City's newsletter that is mailed to all residents, included items regarding the Census.
- The City agreed to provide space at City Hall for census workers to meet with residents and answer questions about the census process and forms (to date none of the census representatives have used the offered space).
- The City Council adopted a resolution designating March as "United States Census – Make Yourself Count" Month.

Staff is meeting with the local Census representative early next week to discuss how the returns are proceeding and if there is any more the City can do to promote the effort.

Attachment: "Moreno Valley Counts" chip clip and Census 2010 information

Censo del 2010: Fechas Claves

febrero - marzo del 2010

Los cuestionarios del Censo se envían por correo o se entregan en persona en los hogares.

marzo - abril del 2010

Se implementa el programa "Sea Contado". Habrá cuestionarios del Censo en algunos lugares públicos, disponibles para quienes no lo recibieron por correo.

1 de abril del 2010

DÍA DEL CENSO.

mayo - julio del 2010

Los empleados del Censo visitan los hogares que no devolvieron el cuestionario por correo. Recuerde que ellos han jurado proteger su información ante la ley.

31 de diciembre del 2010

Por ley, la Oficina del Censo le envía al Presidente los conteos de la población.

marzo del 2011

Por ley, la Oficina del Censo finaliza la entrega de los datos de redistribución a los estados.

Preguntas Frecuentes

1. P. ¿Quién debe llenar el cuestionario del Censo?

R. La persona a nombre de quién esté registrada la unidad de vivienda, sea propia o alquilada, debe llenar el cuestionario a nombre de cada persona que viva en la residencia en ese momento, incluyendo parientes y no parientes.

2. P. ¿Cómo se diferencia el Censo del 2010 de los anteriores?

R. En el 2010, cada residencia recibirá un breve cuestionario de sólo 10 preguntas. La información socioeconómica más detallada, que previamente se obtenía a través del Censo decenal, se le preguntará a un pequeño porcentaje de la población durante la Encuesta sobre la Comunidad Estadounidense. Para obtener más información sobre esta encuesta, visite www.2010census.gov

3. P. ¿Cómo se utilizan los datos del Censo?

R. Los datos del Censo determinan la cantidad de espacios que cada estado tendrá en la Cámara de Representantes de los EE.UU para lograr una representación justa. También ayudan a determinar la asignación de fondos federales para servicios comunitarios como: programas de comidas escolares, centros para personas de edad avanzada y construcción de nuevas carreteras y hospitales.

4. P. ¿Qué tipo de asistencia existe para ayudarle a llenar el cuestionario?

R. Las guías para ayudar a llenar el cuestionario del Censo del 2010 están disponibles en varios idiomas. Los Centros de Asistencia con el Cuestionario (QAC) también ayudarán a quienes no puedan leer o comprender el mismo. Hay cuestionarios con letras de mayor tamaño para quienes tengan impedimentos visuales y un programa de Dispositivos de Telecomunicación (TDD) para quienes tengan impedimentos auditivos. Comuníquese con el Centro Regional del Censo en su comunidad para más detalles sobre la ayuda disponible en español y para saber la localización de los Centros de Asistencia con el Cuestionario. El cuestionario del Censo del 2010 está disponible en español.

5. P. ¿Cómo cuenta la Oficina del Censo a las personas que no viven en residencias?

R. Los empleados de la Oficina del Censo se movilizan ampliamente para contar a las personas que viven en alojamientos de grupo como: viviendas universitarias, barracas militares, hogares para personas de edad avanzada y refugios, como también a quienes han sido desplazados por catástrofes naturales.

Para más información sobre el Censo del 2010, visite www.2010census.gov

10 PREGUNTAS MINUTOS

PARA QUE SE ESCUCHE NUESTRA VOZ

El Censo: datos importantes

- **¿Qué es?** El Censo es un conteo de todas las personas que viven en los Estados Unidos.
- **¿Para quién?** Toda persona que vive en los EE.UU. tiene que ser contada; personas de todas las razas y grupos étnicos, tanto ciudadanos como no ciudadanos.
- **¿Cuándo es?** Usted recibirá su cuestionario en marzo del 2010, ya sea por correo o por entrega personal. Algunas personas en áreas remotas serán contadas en persona.
- **¿Por qué?** La Constitución de los EE.UU. requiere un censo nacional cada 10 años para contar la población y determinar la cantidad de espacios que cada estado tendrá en la Cámara de Representantes de los EE.UU.
- **¿Cómo?** Los hogares deben llenar y devolver sus cuestionarios en cuanto los reciban. Los hogares que no respondan podrían recibir un cuestionario de reemplazo a principios de abril. Los empleados del Censo en su comunidad, visitarán los hogares que no devuelvan sus cuestionarios, para contarlos en persona. El representante del Censo se compromete bajo juramento a proteger su información que, por ley, es confidencial. **¡Ábrale su puerta en confianza!**

Un conteo completo: ¿Cuán importante es para su comunidad?

- Cada año, el gobierno federal asigna más de $400 mil millones de dólares a los estados y las comunidades, basado parcialmente en los datos del Censo.
- Los datos del Censo se utilizan para decidir dónde ubicar tiendas, escuelas, hospitales, nuevos proyectos de vivienda y otras facilidades comunitarias.
- Los datos del Censo determinan los distritos legislativos y congresionales, tanto locales como estatales.

Cuestionario del Censo del 2010: fácil, importante y confidencial

- El cuestionario del Censo del 2010 sólo tiene 10 preguntas y toma alrededor de 10 minutos completarlo. Se pregunta a los hogares información demográfica importante tales como: si la unidad de vivienda es alquilada o propia, la dirección de la residencia y los nombres, sexos, edades y razas de quienes viven en el hogar.
- Por ley, la Oficina del Censo no puede compartir las respuestas del cuestionario del Censo con nadie, ni siquiera con otras agencias federales y entidades policiales y del orden público.

United States® Census 2010

LA HISTORIA DEL CENSO

El primer Censo se llevó a cabo en el 1790 para determinar la cantidad de espacios que cada estado tendría en la Cámara de Representantes de los EE.UU. El Censo también se creó para entender mejor dónde vivía la gente y para establecer los patrones de asentamiento en la medida que la nación crecía.

SOBRE LA OFICINA DEL CENSO

La Oficina del Censo se estableció en el 1902. Hoy, además de administrar el Censo de la Población y la Vivienda, la Oficina del Censo realiza más de 200 encuestas anuales, incluyendo la Encuesta sobre la Comunidad Estadounidense, la Encuesta de la Población Actual y censos económicos cada cinco años.

Para progresar, lo tenemos que enviar.

MV00233703

2010 Census Key Dates

February – March 2010

Census questionnaires are mailed or delivered to households.

March – April 2010

Be Counted program is implemented. Census questionnaires are available at select public sites for individuals who did not receive one by mail.

April 1, 2010

CENSUS DAY

May – July 2010

Census takers visit households that did not return a questionnaire by mail.

Dec. 31, 2010

By law, the Census Bureau delivers population counts to the president.

March 2011

By law, the Census Bureau completes delivery of redistricting data to states.

Frequently Asked Questions

1. **Q. Who should fill out the census questionnaire?**

   A. The individual in whose name the housing unit is owned or rented should complete the questionnaire on behalf of every person living in the residence, including relatives and non-relatives.

2. **Q. How will the 2010 Census differ from previous censuses?**

   A. In 2010, every residence will receive a short questionnaire of just 10 questions. More detailed socioeconomic information previously collected through the decennial census will be asked of a small percentage of the population through the annual American Community Survey. To learn more about the American Community Survey, visit www.census.gov.

3. **Q. How are census data used?**

   A. Census data determine the number of seats each state will have in the U.S. House of Representatives. Census data also can help determine the allocation of federal funds for community services, such as school lunch programs and senior citizen centers, and new construction, such as highways and hospitals.

4. **Q. What kind of assistance is available to help people complete the questionnaire?**

   A. 2010 Census questionnaire language assistance guides are available in a variety of languages. Questionnaire Assistance Centers (QAC) will also assist those unable to read or understand the questionnaire. Large-print questionnaires are available to the visually impaired upon request, and a Teletext Device for the Deaf (TDD) program will help the hearing impaired. Contact your Regional Census Center for more details about the types of assistance available and for QAC locations.

5. **Q. How does the Census Bureau count people without a permanent residence?**

   A. Census Bureau workers undertake extensive operations to take in-person counts of people living in group quarters, such as college dormitories, military barracks, nursing homes and shelters, as well as those who have been displaced by natural disasters.

For more information about the 2010 Census, go to 2010census.gov.

10 QUESTIONS MINUTES

TO DEFINE WHO WE ARE AS A NATION

United States® Census 2010

The Census: A Snapshot

- **What:** The census is a count of everyone residing in the United States.
- **Who:** All U.S. residents must be counted—both citizens and non citizens.
- **When:** You will receive your questionnaire in March 2010 either by U.S. mail or hand delivery. Some people in remote areas will be counted in person.
- **Why:** The U.S. Constitution requires a national census once every 10 years to count the population and determine the number of seats each state will have in the U.S. House of Representatives.
- **How:** Households should complete and mail back their questionnaires upon receipt. Households that do not respond may receive a replacement questionnaire in early April. Census takers will visit households that do not return questionnaires to take a count in person.

A Complete Count: The Importance of Census Data

- Every year, the federal government allocates more than $400 billion to states and communities based, in part, on census data.
- Census data are used to determine locations for retail stores, schools, hospitals, new housing developments and other community facilities.
- Census data determine boundaries for state and local legislative and congressional districts.

2010 Census Questionnaire: Easy, Important and Safe

- With only 10 questions, the 2010 Census questionnaire takes approximately 10 minutes to complete. Households are asked to provide key demographic information, including: whether a housing unit is rented or owned; the address of the residence; and the names, genders, ages and races of others living in the household.
- By law, the Census Bureau cannot share an individual's responses with anyone, including other federal agencies and law enforcement entities.

CENSUS HISTORY

The first census took place in 1790 to determine the number of seats each state would have in the U.S. House of Representatives. The census also was created to gain a better understanding of where people lived and to establish patterns of settlement as the nation grew.

ABOUT THE CENSUS BUREAU

The Census Bureau was established in 1902. Today, in addition to administering the census of population and housing, the Census Bureau conducts more than 200 annual surveys, including the American Community Survey, the Current Population Survey and economic censuses every five years.

We can't move forward until you send it back!

Student	$6.50	$9.00
Non Resident Student	$8.13	$11.25
Current Average Cost Per Round	**$9.37**	

* Tournaments: Every third Sunday of month, the Men's Club conducts tournaments attended by 8-15 people per tournament.

SUMMARY

The Cottonwood Golf Center has averaged 11,291 rounds of golf over the last four years, which is 31 daily rounds. On average the course would need to generate 29,560 rounds of golf annually to eliminate its average annual deficit. This amounts to an increase of 81 rounds of golf played per day. The course requires a daily average of 112 rounds of golf to be self sufficient. Even if play, equipment, soda, and food sales would double from their best years, the course would still not break even. Going back to fiscal year 05/06 when the course did relatively well ($137,000 revenue), the City subsidized the golf course by $221,160.

MV00233710

PHYSICAL CONDITION

Pro Shop

The pro shop and existing building is in very poor condition. The building has suffered from termite damage in the past. It has mold and flood damage from improper drainage conditions along the north side of the building. The roof needs to be replaced and the kitchen would require extensive work to be brought up to code.

Property

The property serves as a retention basin for rain water during storms. The valley of the property is lower than the outlaying streets and collects storm runoff, and there is a lateral storm drainage system that runs through the property. This system is in poor condition due to its age and will require some lateral pipe replacement. A temporary fix could be done in house with current staff for less than $29,000 by installing a larger dimension pipe than currently installed. It would last ten to twenty years and pose no safety issues.

The Parks and Community Services Department is committed to providing recreational opportunities to a greater number of Moreno Valley residents. The residents have requested the need of another dog park and skate park. There have also been requests for a community garden.

The Cottonwood Golf Center has an average fiscal deficit of $276,974 over the past four fiscal years. Over those last four fiscal years, the rounds of golf have declined by nearly 65%.

Doubling the cost per round of golf would not eliminate the deficit that the Cottonwood Golf Center incurs. With the interest in golf declining nationwide and, closer to home with reduced rounds of golf played at the Cottonwood Golf Center, the closing of the Quail Ranch, Riverside Golf Club, and Cresta Verde Golf Club locally and other courses within the Southern California area, the Parks and Community Services Department has researched several different options for usage of this area that could possibly provide a benefit to a greater number of local residents while at the same time reducing the City's subsidy.

MV00233711

OPTION A – REMODEL PRO SHOP AND CONTINUE WITH CITY OPERATION

Partial Demo and Remodel	Estimated Cost
Partially demo existing building	$226,300
Remodel remaining structure	$200,000
Storm drain improvements	$29,000
Remodel kitchen (including grease trap)	$150,000
Replace roof	$65,000
TOTAL	**$670,300**

ESTIMATED ANNUAL REVENUES AND EXPENSES				
REVENUES				
Green Fees	**Cart/Club Rental**	**Equipment Sales**	**Soda/Food**	**Total**
$106,226	$4,730	$24,325	$1,844	$137,125
EXPENSES				
Salary and Benefits	**Contract Services**	**Materials and Supplies**	**Admin. Costs**	**Total**
$197,200	$72,400	$18,800	$64,200	$352,600
			Estimated Annual Deficit	**$215,475**

SUMMARY

Green fees, cart and club rentals, equipment sales, and soda and food sales have declined tremendously in the last four fiscal years. We would propose to restock the pro shop with golf accessories, equipment, soda, and food; increase advertisement, and offer promotions to increase play. We anticipate increasing revenues at or above the highest level in the last four fiscal years. Even with this increased revenue, salaries and benefits, contract services, and administrative charges are anticipated to increase. If revenues would grow by 50% over our best year to the amount of $205,752, the City would still incur a deficit of $146,848. This type of growth is highly unlikely especially in this type of economy. In recent months, courses in this area including Quail Ranch Golf Course, Riverside Golf Club, and Cresta Verde Golf Club have closed.

This option:

- would require additional funds that are currently not in the budget.
- would not eliminate deficit of operation for the Cottonwood Golf Center.
- would provide cooking and banquet potential.

MV00233712

OPTION B: REMODEL PRO SHOP AND LEASE TO NON PROFIT ORGANIZATION

Partial Demo and Remodel	Estimated Cost
Partially demo existing building	$226,300
Remodel remaining structure	$200,000
Storm drain improvements	$29,000
Remodel kitchen (including grease trap)	$150,000
Replace roof	$65,000
TOTAL	**$670,300**

ESTIMATED ANNUAL REVENUES AND EXPENSES				
REVENUES				
Green Fees	**Cart/Club Rental**	**Equipment Sales**	**Soda/Food**	**Total**
$106,226	$4,730	$24,325	$1,844	$137,125
EXPENSES				
Salary and Benefits	**Contract Services**	**Materials and Supplies**	**Admin. Costs**	**Total**
$165,200	$72,400	$18,800	$64,200	$320,600
			Estimated Annual Deficit	**$183,475**

SUMMARY

If staff was able to find a non-profit organization that would be willing to run the pro shop, this would only reduce salaries approximately $32,000 annually that are spent on Recreation Aides in the pro shop. The average Aide is paid $9.00 an hour and the pro shop is open on average 10 hours a day, 363 days a year.

This option:

- would require additional funds that are currently not in the budget.
- would not eliminate deficit of operation for the Cottonwood Golf Center.
- would not guarantee success for a possible tenant.

MV00233713

OPTION C – REMODEL PRO SHOP AND CONTINUE WITH OUTSIDE CONTRACTOR

Partial Demo and Remodel	Estimated Cost
Partially demo existing building	$226,300
Remodel remaining structure	$200,000
Storm drain improvements	$29,000
Remodel kitchen (including grease trap)	$150,000
Replace roof	$65,000
TOTAL	**$670,300**

REVENUE/EXPENSES	
Revenue	$0
Expenses (Water)	$50,000
Minimum 2-3 years subsidy	$100,000
Estimated Annual Deficit	**$150,000**

SUMMARY

The City has advertised the lease of the Cottonwood Golf Center on multiple occasions with one serious inquiry. The corporation formerly operated a course in Riverside, which since has claimed bankruptcy and closed its doors. This organization is still interested in entering into a contract with the City; however, there is no guarantee a similar fate as the City of Riverside encountered would not occur in Moreno Valley.

This option:

- would require additional funds that are currently not in the budget.
- could possibly reduce the City subsidy to $150,000 annually.
- could possibly create a rentable banquet facility.

MV00233714

OPTION D – DEMO AND REPLACE WITH MODULAR

Demo and Replace With Modular	Estimated Cost
Completely demo existing building	$62,382
Purchase and install modular building including utility hookups	$137,400
Storm drain improvements	$29,000
Fencing modifications required due to modular building's smaller size	$12,000
TOTAL	**$240,782**

ESTIMATED ANNUAL REVENUES AND EXPENSES				
REVENUES				
Green Fees	**Cart/Club Rental**	**Equipment Sales**	**Soda/Food**	**Total**
$106,226	$4,730	$24,325	$1,844	$137,125
EXPENSES				
Salary and Benefits	**Contract Services**	**Materials and Supplies**	**Admin. Costs**	**Total**
$197,200	$72,400	$18,800	$64,200	$352,600
			Estimated Annual Deficit	**$215,475**

SUMMARY

This option would not reduce the annual deficit, but it would eliminate the potential for a vendor that could use kitchen and banquet facilities.

This option:

- would keep the Cottonwood Golf Center open to the public.
- would be financially less expensive than Option A.
- would allow for space for possible future installation of a 190+ yard driving range parallel to Frederick Street by moving a tee and green.
- would require additional funds that are currently not in the budget.
- would provide a modular building for a pro shop but not kitchen or banquet facilities.

OPTION E – DEMO, REPLACE WITH MODULAR, AND INSTALL DRIVING RANGE

190+ Yard Driving Range Installation	Estimated Cost
Completely demo existing building	$62,832
Purchase and install modular building including utility hookups	$137,400
Storm drain improvements	$29,000
Tree removals	$5,000
Grading	$18,000
Lake modifications	$33,000
Place electrical service wiring underground	$28,000
Irrigation modifications	$8,000
Golf course modifications (tee boxes and greens)	$3,000
Monument sign removal and relocation	$17,000
Concrete mow curb and tee boxes	$23,000
Fencing installation	$45,500
Poles and golf range netting	$500,000
Driving range equipment (balls, ball return, ball washer, ball dispenser, tee mats, etc.)	$35,000
TOTAL	**$944,732**

ESTIMATED ANNUAL REVENUES AND EXPENSES				
REVENUES				
Green Fees	**Cart/Club Rental**	**Equipment Sales**	**Soda/Food**	**Total**
$159,339	$4,730	$24,325	$2,832	$191,226
EXPENSES				
Salary and Benefits	**Contract Services**	**Materials and Supplies**	**Admin. Costs**	**Total**
$209,200	$72,400	$18,800	$64,200	$364,600
			Estimated Annual Deficit	**$173,374**

SUMMARY

A driving range on average generates 50% of course revenues and would slightly increase soda/food revenues. Salaries would increase to cover the additional work required with a driving range.

This option:

- would be a very costly addition to an operation that currently is not self sufficient.
- would not guarantee the Center's ability to reduce deficit.
- would have a very high liability risk due to proximity to traffic.
- would only be open during daylight hours.

OPTION F – DEMO AND REPLACE WITH PASSIVE PARK, DOG PARK, SKATE PARK, AND COMMUNITY GARDENS (See Attachment A)

PASSIVE PARK (5 acres)

Building Demo	Estimated Cost
Building Demo	$62,832
TOTAL	**$62,832**

Passive Park Construction	Estimated Cost
2 wooden picnic arbors	$18,000
ADA drinking fountain	$4,000
2 picnic benches	$2,200
4 trash receptacles	$1,600
2 barbecues	$400
2 hot coal receptacles	$1,600
2 benches	$1,200
TOTAL	**$29,000**

Annual Maintenance	Estimated Cost
Labor at 9.5 hours weekly	$17,290
2 portable ADA toilets with weekly service	$2,232
Mowing of turf	$5,500
Water	$22,500
Electrical	$1,200
Miscellaneous supplies	$2,780
TOTAL	**$51,502**

SUMMARY OF PASSIVE PARK PORTION

The passive park:

- would keep highly visible site clean and green.
- would generate small amount of revenue with shelter rental fees.
- would provide another site for public recreation.

DOG PARK (60,000 square feet)

Dog Park Construction	Estimated Cost
Fencing demo and installation	$34,500
2 drinking fountains with pet drinkers	$8,500
2 benches	$1,200
4 pet waste stations	$1,300
TOTAL	**$45,500**

Annual Maintenance	Estimated Cost
Labor at 7.5 hours weekly	$13,650
2 portable ADA toilets with weekly service	$2,232
Mowing of turf	$1,500
Water	$5,500
Electrical	$700
Miscellaneous supplies	$3,280
TOTAL	**$26,862**

SUMMARY OF DOG PARK PORTION

A dog park that is centrally located would generate much use. With such a nice location with turf and shade trees, this would be an ideal location for possible dog training classes. These classes could be scheduled and booked through the Parks and Community Services Department and generate revenue.

The dog park:

- would respond to the interest of the public to have another dog park.
- would provide turf and shade trees.
- would be aesthetically pleasing from street.

MV00233718

SKATE PARK

Skate Park Construction	Estimated Cost
Concrete	$0
Fencing	$18,000
Skate ramps	$0
2 picnic benches	$2,200
4 trash receptacles	$1,600
ADA drinking fountain	$4,000
Signage	$1,500
Skate wave consultation	$4,000
TOTAL	**$31,300**

Annual Maintenance	Estimated Cost
Labor at 9.5 hours weekly	$17,290
Electrical	$1,200
Miscellaneous supplies	$1,280
TOTAL	**$19,770**

SUMMARY OF SKATE PARK PORTION

The skate park:

- would possibly have graffiti issues (staff and supplies).
- would address the high public demand for another skate park.
- would have low construction costs due to existing concrete slab and City-owned skate apparatus.
- would provide a centralized location.

MV00233719

COMMUNITY GARDENS (3 acres with 100-750 square foot plots and 3 acres remaining for expansion)

Community Gardens Construction	Estimated Cost
Site preparation	$8,000
Irrigation modifications	$4,000
Fencing	$8,000
Storm drain improvements	$29,000
Tool storage bin	$2,400
TOTAL	**$51,400**

Annual Maintenance	Estimated Cost
Maintained by a community gardens committee	$0
2 portable ADA toilets with weekly service	$2,232
Water	$3,750
Electrical	$0
Weed abatement (closed area)	$4,000
Miscellaneous supplies	$250
TOTAL	**$10,232**

ESTIMATED ANNUAL REVENUE	
Plot Rental	**Estimated Revenue**
$40 (15' x 50')	$4,000

ESTIMATED ANNUAL DEFICIT
$6,232

SUMMARY OF COMMUNITY GARDEN PORTION

The cost of rental was based upon the anticipated water costs for a community garden. The charge was determined to cover the cost of water. A community garden can be a very positive addition if there is strong community involvement. (See Attachment B)

The community gardens:

- would be Moreno Valley's first community gardens.
- would be in a centralized location for gardening courses.
- could possibly be very popular in hard economic times.
- would address the community's interest for community gardens.
- would be environmentally friendly.
- could present liability issues with being City property.
- could provide the community with feeling of ownership.
- could allow adjacent neighborhood to be given priority to purchase plots.

MV00233720

OPTION G – DEVELOPMENT OF SOCCER FIELDS (See Attachment C)

SOCCER FIELD #1 (225 square feet x 360 square feet)

Building Demo	Estimated Cost
Building Demo	$62,832
TOTAL	**$62,832**

Soccer Field #1 Construction	Estimated Cost
Concrete and asphalt removal	$12,000
Tree removal	$5,000
Drain lake and relocate fish	$8,000
Pump house modifications	$16,500
Soil importation costs	$120,000
Grading	$45,000
Hydro seeding turf	$12,000
Chain link fencing	$4,000
Irrigation system	$100,000
Soccer field lighting	$380,000
TOTAL	**$702,500**

Annual Maintenance	Estimated Cost
Labor at 12.5 hours weekly	$22,750
2 portable ADA toilets with weekly service	$2,232
Mowing of turf	$1,500
Water	$13,000
Electrical	$7,200
Fertilizer	$3,000
Miscellaneous Supplies	$1,280
TOTAL	**$50,962**

MV00233721

SOCCER FIELD #2 (225 square feet x 360 square feet)

Soccer Field #2 Construction	Estimated Cost
Concrete and asphalt removal	$8,000
Tree removal	$20,000
Soil importation costs	$95,000
Grading	$40,000
Hydro seeding turf	$12,000
Irrigation improvements	$100,000
Chain link fencing	$7,000
Soccer field lighting	$380,000
TOTAL	**$662,000**

Annual Maintenance	Estimated Cost
Labor at 12.5 hours weekly	$22,750
2 portable ADA toilets with weekly service	$2,232
Mowing of turf	$1,500
Water	$13,000
Electrical	$7,200
Fertilizer	$3,000
Miscellaneous Supplies	$1,280
TOTAL	**$50,962**

SOCCER FIELDS #3 AND #4 (150 square feet x 300 square feet each)

Soccer Fields #3 and #4 Construction	Estimated Cost
Lateral storm drain improvements	$2,000,000
Tree removal	$9,000
Soil importation costs	$95,000
Grading	$40,000
Hydro seeding turf	$18,000
Irrigation improvements	$185,000
Chain link fencing	$22,500
Soccer field lighting	$0
TOTAL	**$2,369,500**

Annual Maintenance	Estimated Cost
Labor at 23 hours weekly	$41,860
2 portable ADA toilets with weekly service	$2,232
Mowing of turf	$2,800
Water	$18,000
Fertilizer	$3,400
Miscellaneous Supplies	$2,560
TOTAL	**$70,852**

MV00233723

SOCCER FIELD #5 (150 square feet x 300 square feet)

Soccer Field #5 Construction	Estimated Cost
Tree removal	$12,000
Fence demolition	$1,500
Grading	$30,000
Hydro seeding turf	$12,000
Irrigation improvements	$75,000
Soccer field lighting	$0
TOTAL	**$130,500**

Annual Maintenance	Estimated Cost
Labor at 11.5 hours weekly	$20,930
2 portable ADA toilets with weekly service	$2,232
Mowing of turf	$1,400
Water	$9,000
Fertilizer	$2,700
Miscellaneous Supplies	$1,280
TOTAL	**$37,542**

SUMMARY

The shape of this portion of City property is not favorable for the construction of soccer fields. The 16-acre site would only allow for the construction of two official size fields and three smaller fields. However, at City Council meetings, residents have voiced their concerns regarding the need for lighted soccer fields for their children. We have included the cost of lighting the two official size fields, but this cost cannot be guaranteed. The proximity to residential property may not allow for enough space to obtain the required setback for stadium lighting. There would also be "spill over" lighting issues with residents in such close proximity. Excess storm water runoff is detained in the swale of this property, which would require very expensive engineering and design before any grading could begin on field #3 and #4.

Total construction cost for all five soccer fields would be $3,927,332, with the annual maintenance cost being $210,318.

The option:

- would add five new soccer fields.
- would only provide two fields that would be official size.
- would only provide two fields that could be lighted.
- would create parking issues that would need to be addressed.

MV00233724

OPTION H – DEMO AND CLOSE GOLF COURSE

Building Demo	Estimated Cost
Building Demo	$62,832
TOTAL	**$62,832**

Annual Maintenance	Estimated Cost
Contract mowing and landscape maintenance	$44,000
Irrigation water use	$30,000
Minimal irrigation repair of main lines	$7,000
TOTAL	**$81,000**

SUMMARY

The golf course is losing revenue each year, and the loss is being compounded by current economic conditions. One option is to close all golf course and pro shop operations. The intent is to close the course and maintain the property at a minimal level to avoid blighted conditions. The front of the building, parking lot, and property line landscape will be maintained status quo. These areas are highly visible from the street and need weekly maintenance. No change in current appearance will occur. The course itself will be mowed once per week at two inches. Irrigation will be reduced for the course by at least 40% with further reductions possible. The pond will be drained and left in a drained condition. Sections of turf will be brown in appearance and dry, but weeds will be kept to a minimum.

OPTION SUMMARIES:

The Parks and Community Services Department's responsibility is to provide recreational opportunities for the residents of Moreno Valley.

The City has lost over the last four years an average of $276,973 per year. Converting the highly visible property along Frederick Street at the Cottonwood Golf Center into a passive park, dog park, skate park, and community gardens would reduce the average annual deficit of this property from $276,973 to $108,356, saving the department $168,617 in the first fiscal year. In addition, this would keep this area clean and green. Staff feels that this conversion would serve far more residents with recreational opportunities than the current Cottonwood Golf Center. Initial cost of this option would be $125,000 plus the $62,000 for building demolition. Currently the golf course has $80,000 for roof placement and $51,266 for equipment replacement, which could be put toward the initial cost of this option.

Although closing the Cottonwood Golf Center will be tragic and quite unfortunate, spending $276,973 for less than 2,000 residents seems irresponsible, especially during the difficult economic times in which we find ourselves.

The possibility of repairing the pro shop area, kitchen and banquet room is an option, but would be quite costly and with no guarantee that the improved facility will generate enough money to create a cost effective golf course. City staff has unsuccessfully researched the idea of utilizing an outside contractor, twice with official Requests for Proposals and also by contacting numerous local firms. Even if this research would have proved successful, all site improvements were needed.

The other immediate possibility for this 16-acre site is to create a multi-use area including a passive park, skate park, dog park, and community gardens. This option would drastically reduce City subsidy and could offer recreational opportunities to a wide range of residents. The option of constructing soccer fields at Cottonwood Golf Center has been researched by staff. However, this option comes with numerous obstacles. These issues would be parking, high cost, and whether or not these areas could be lighted. The two primary reasons staff is unsure of the lighting possibility are ample setback and objections from residents. As City Council has seen from numerous speakers at past Council meetings, Moreno Valley has an adequate number of field space; however, the issue is lighted fields.

Another option would be to just close the golf course and have staff do minimal maintenance and watering to ensure area remains aesthetically pleasing.

Future Possibilities

We have been in contact with the Redevelopment Agency of the City of Moreno Valley and have been advised that it may be possible to change the zoning of the property. Based upon the current economy and property values, we would estimate the property would sell for $5.00 to $7.00 a square foot. This would place a value of $3.5 million to $5 million for the entire 16-acre site. This possibility would not occur for three to five years or as RDA monies become available. There would be the possibility of maintaining the passive park and dog park, which would benefit the additional development. The Parks and Community

MV00233726

Services Department feels confident that we would be able to secure other locations for community gardens and skate park.

To proceed with this idea, staff would need to seek an appraisal of property and develop a land use plan.

WHY START A COMMUNITY GARDEN?

Many families living in the city would like to grow some of their own fruits, vegetables, herbs, and flowers. Some want to save money on their food bills. Others like the freshness, flavor and wholesomeness of home-grown produce. And for many, gardening is a relaxing way to exercise and enjoy being out-of-doors. There are also families from other cultures who would like to grow traditional foods not available in the supermarket.

Community gardens beautify neighborhoods and help bring neighbors closer together. They have been proven as tools to reduce neighborhood crime--particularly when vacant, blighted lots are targeted for garden development. Community gardens provide safe, recreational green space in urban areas with little or no park land, and can contribute greatly to keeping urban air clean.

TYPES OF COMMUNITY GARDENS

DONATION GARDENS

As the name suggests donation gardens donate the vegetables and fruits they grow to local food pantries. These type gardens are generally operated by non-profit organizations.

SCHOOL GARDENS

School gardens provide an excellent hands-on learning environment. Children learn science, math and language in the garden as well as many other subjects through garden making, life skills and compassion.

MV00233728

**NEIGHBORHOOD OR ALLOTMENT GARDENS

Community gardens in neighborhood parks or vacant lots can consist of individual family plots or a group gardening effort. These gardens provide an opportunity for neighbors to come together and grow nutritious food while creating a beautiful green space for community members to spend time in.

THERAPY GARDENS

Therapy gardens provide an opportunity for physical, emotional, and spiritual health and healing. Gardens at hospitals, clinics, or special needs schools provide therapy to the disabled as well as an inexpensive source of nutrition. Gardens at elder care centers inspire residents to get exercise and fresh air while working with their neighbors in a community setting.

MARKET GARDENS

Community gardens can provide a source of income for low-income residents as well as entrepreneurs. Local growers sell produce to individuals, restaurants and in farmers' markets.

WHAT GOOD IS A COMMUNITY GARDEN?

1. **Community gardens grow leaders.** A study of the Pennsylvania Horticultural Society's community gardening efforts in the City of Brotherly Love Found that "across all neighborhoods, people who have not previously been involved in a leadership capacity have emerged. These garden leaders assume responsibility for organizing the neighbors to carry out the project and for maintaining the project.
2. **Community gardens can help feed people and save money.** Numerous studies have found that home and community gardens produce food worth hundreds of dollars. This food and financial savings can be critically important to the nutritional and financial health of families living on low incomes or in neighborhoods poorly served by grocery stores.
3. **A community garden promotes healthier communities.** In a 1980 study of 100 blocks of Atlanta, Georgia, D. R. Brogan and L. D. James found that physical characteristics – such as the presence of plants – were as important in promoting psychosocial health as the resident's socio-cultural backgrounds.
4. **Community gardening helps people learn about civic participation.** Marti Ross Bejornson, a graduate student at Northwestern University, found that inner-city Chicago gardeners gained critical skills in working with their elected officials by becoming involved in gardening projects. She concluded that, through gardening, "These formerly marginalized urban residents can gain access to public policy, economic resources, and social interaction…"
5. **Community gardens help save energy and keep urban air cool and clean.** As early as the 1840's gardening advocates were calling parks and gardens "the lungs of the city." In Sacramento, California, the planting of 500,000 shade-giving urban trees is expected to save 50 to 75 megawatts of electricity by the year 2010 – enough to cool 26,000 homes per year. And, in Chicago, researchers found that the urban forest removed tons of pollutants from the air each day.

MV00233729

6. **Community gardening provides job training.** The horticultural industry pumps billions of dollars into the U. S. economy annually. Community gardening or greening projects have been a training ground for people interested in entering the industry, particularly in inner city areas where jobs can be scarce and skills hard to acquire.
7. **Community gardening can help the homeless.** Community gardens are a source of food for the homeless in some cities, and the community garden plot can also be "the first step toward self-sufficiency," notes Ishwarbhai C. Patel, who leads urban gardening programs in New Jersey. The garden provides "a place to call 'mine' and the opportunity to grow and produce things of value," he says.
8. **Community gardening helps reduce stress.** A wide range of psycho-and physiological studies have found that exposure to green plants can relieve stress – especially in the urban areas, where excessive noise and movement can make stress levels rise.
9. **Community greening helps preserve cultural heritage.** In a 1992 study of San Jose, California's Community and Cultural Heritage Gardens, J. Dotter found that the gardens provided people with an important opportunity to maintain their cultural heritage by growing plants that play an important role in their culture's food or rituals.
10. **Community greening provides places for children to play and learn.** Community gardens and green spaces can play an important role in child development, a number of studies have found. For example, a garden can teach children how food is grown and what it looks like before arriving at the checkout counter.
11. **Community gardens make people more productive.** Psychologists have found that plants and green spaces provide the human mind with a rest. As a result, workers who have access to green spaces are more productive.
12. **Community gardens help people keep physically fit.** The President's Council on Physical fitness has called America "a land of slumbering couch potatoes." Participation in greening could change that. In 1990, M. K. Taylor found that a gardener can burn more calories in one hour of work than someone doing aerobics.
13. **Community gardens teach patience.** The long slow process of planting a garden and nurturing healthy plants can teach an important lesson to both children and adults in our fast-paced society.

KEYS TO A SUCCESSFUL COMMUNITY GARDEN

1. Get Your Neighbors Involved

There is a lot of work involved in starting a new garden. Make sure you have several people who will help you. Over the years, our experience indicates that there should be at least ten interested families to create and sustain a garden project. Survey the residents of your neighborhood to see if they are interested and would participate. Hold monthly

MV00233730

meetings of the interested group to develop and initiate plans, keep people posted on the garden's progress, and keep them involved in the process from day one.

2. Form a Garden Club
A garden club is a way of formally organizing your new group. It helps you make decisions and divide-up the work effectively. It also ensures that every one has a vested interest in the garden and can contribute to its design, development, and maintenance. It can be formed at any time during the process of starting a community garden; however, it's wise to do so early on. This way, club members can share in the many tasks of establishing the new garden. The typical garden club will have many functions, including:

- Establishing garden rules (see sample)
- Accepting and reviewing garden applications
- Making plot assignments
- Collecting garden dues (if any)
- Paying water bills
- Resolving conflicts
- The typical garden club has at least two officers: a president and a treasurer; although your garden club may have more if necessary. Elections for garden officers usually are held annually.

3. Obtain Liability Insurance
Landowners may also require that your group purchase liability insurance. Often it is a city or town providing land for a garden that is requesting insurance. They usually have a "risk manager" whose job is to protect the municipality against all risk. Whenever the town enters into a relationship, that relationship is passed before the risk manager, and the risk manager almost always says "buy insurance" to protect the town. But towns always have lots of insurance. They engage in lots of risky business. Adding a community garden to their list of risks will have almost no impact on their overall risk and on the cost of their insurance.

Basic Elements of a Community Garden
Although there are exceptions to every rule, community gardens should almost always include:

• At least 15 plots assigned to community members. These should be placed in the sunniest part of the garden. Without plots for individual participation, it is very difficult to achieve long-term community involvement. Raised bed plots, which are more expensive, should be no more than 4 feet wide (to facilitate access to plants from the sides without stepping into the bed), and between 8 and 12 feet long (it is advisable to construct your raised beds in sizes that are found in readily-available lumber, or that can be cut without too much waste). In-ground plots can be from 10 x 10 up to 20 x 20 feet. Pathways between beds and plots should be least 3 to 4 feet wide to allow space for wheelbarrows. The soil in both raised bed and in-ground plots should be amended with aged compost or manure to improve its fertility and increase its organic matter content.

MV00233731

• A simple irrigation system with one hose bib or faucet for every four plots. Hand watering with a hose is the most practical and affordable for individual plots (and it's almost a necessity when you start plants from seed). Drip and soaker-hose irrigation can be used in all areas of the garden for transplanted and established plants, but especially for deep-rooted fruit trees and ornamentals. If no one in your group is knowledgeable about irrigation, you might need some assistance in designing your irrigation system. Seek out a landscape contractor or nursery or garden center professional to help you develop a basic layout and materials list.

• An 8-foot fence around the perimeter with a drive-through gate. In our experience, this is a key element of success. Don't count on eliminating all acts of vandalism or theft, but fencing will help to keep these to tolerably low levels.

• A tool shed or other structure for storing tools, supplies, and materials. Recycled metal shipping containers make excellent storage sheds, and are almost vandal-proof. Contact the Port Authority for leads on where to find them.

• A bench or picnic table where gardeners can sit, relax, and take a break--preferably in shade. If there are no shade trees on the site, a simple arbor can be constructed from wood or pipe, and planted with chayote squash, bougainvillea, grapes, kiwis, or some other vine.

• A sign with the garden's name, sponsors, and a contact person's phone number for more information. If your community is bilingual, include information in this language.

• A shared composting area for the community gardeners. Wood pallets are easy to come-by and (when stood on-end, attached in a U-shape, and the inside covered with galvanized rabbit-wire) make excellent compost bins.

Making the garden accessible to all

Community gardens tend to attract a wide variety of people, including those with physical or other challenges. Because of this, it is helpful to think of ways to make your garden accessible to all gardeners. Building accessible raised beds for those who use wheelchairs or have trouble bending over is one way to make the garden more accessible. A portion of the area could be built in raised beds with decomposed granite paths dedicated to those with physical and other challenges.

ADA REQUIREMENTS:

5 % of the plots would require ADA accessibility. This staff would recommend placing 15 – 20 raised bed planters on the west end of the proposed community gardens with compacted decomposed granite paths between each raised bed. This location would allow for easy entrance and exit access. To meet ADA requirements would add an additional cost of approximately $15,000 to the project. These funds would cover $10,000.00 for the

MV00233732

cost of stabilized decomposed granite. $2,000.00 for the raised bed timber and $3,000.00 for the soil to fill these beds.

ADDITIONAL CONSTRUCTION COSTS:

TASK	COST
RAISED BED TIMBERS	$2,000.00
TOP SOIL	$3,000.00
STABILIZED D.G.	$10,000.00
TOTAL	$15,000.00

WHY START A COMMUNITY GARDEN?

Many families living in the city would like to grow some of their own fruits, vegetables, herbs, and flowers. Some want to save money on their food bills. Others like the freshness, flavor and wholesomeness of home-grown produce. And for many, gardening is a relaxing way to exercise and enjoy being out-of-doors. There are also families from other cultures who would like to grow traditional foods not available in the supermarket.

Community gardens beautify neighborhoods and help bring neighbors closer together. They have been proven as tools to reduce neighborhood crime--particularly when vacant, blighted lots are targeted for garden development. Community gardens provide safe, recreational green space in urban areas with little or no park land, and can contribute greatly to keeping urban air clean.

TYPES OF COMMUNITY GARDENS

DONATION GARDENS

As the name suggests donation gardens donate the vegetables and fruits they grow to local food pantries. These type gardens are generally operated by non-profit organizations.

SCHOOL GARDENS

School gardens provide an excellent hands-on learning environment. Children learn science, math and language in the garden as well as many other subjects through garden making, life skills and compassion.

MV00233735

**NEIGHBORHOOD OR ALLOTMENT GARDENS

Community gardens in neighborhood parks or vacant lots can consist of individual family plots or a group gardening effort. These gardens provide an opportunity for neighbors to come together and grow nutritious food while creating a beautiful green space for community members to spend time in.

THERAPY GARDENS

Therapy gardens provide an opportunity for physical, emotional, and spiritual health and healing. Gardens at hospitals, clinics, or special needs schools provide therapy to the disabled as well as an inexpensive source of nutrition. Gardens at elder care centers inspire residents to get exercise and fresh air while working with their neighbors in a community setting.

MARKET GARDENS

Community gardens can provide a source of income for low-income residents as well as entrepreneurs. Local growers sell produce to individuals, restaurants and in farmers' markets.

WHAT GOOD IS A COMMUNITY GARDEN?

1. **Community gardens grow leaders.** A study of the Pennsylvania Horticultural Society's community gardening efforts in the City of Brotherly Love Found that "across all neighborhoods, people who have not previously been involved in a leadership capacity have emerged. These garden leaders assume responsibility for organizing the neighbors to carry out the project and for maintaining the project.
2. **Community gardens can help feed people and save money.** Numerous studies have found that home and community gardens produce food worth hundreds of dollars. This food and financial savings can be critically important to the nutritional and financial health of families living on low incomes or in neighborhoods poorly served by grocery stores.
3. **A community garden promotes healthier communities.** In a 1980 study of 100 blocks of Atlanta, Georgia, D. R. Brogan and L. D. James found that physical characteristics – such as the presence of plants – were as important in promoting psychosocial health as the resident's socio-cultural backgrounds.
4. **Community gardening helps people learn about civic participation.** Marti Ross Bejornson, a graduate student at Northwestern University, found that inner-city Chicago gardeners gained critical skills in working with their elected officials by becoming involved in gardening projects. She concluded that, through gardening, "These formerly marginalized urban residents can gain access to public policy, economic resources, and social interaction…"
5. **Community gardens help save energy and keep urban air cool and clean.** As early as the 1840's gardening advocates were calling parks and gardens "the lungs of the city." In Sacramento, California, the planting of 500,000 shade-giving urban trees is expected to save 50 to 75 megawatts of electricity by the year 2010 – enough to cool 26,000 homes per year. And, in Chicago, researchers found that the urban forest removed tons of pollutants from the air each day.

MV00233736

6. **Community gardening provides job training.** The horticultural industry pumps billions of dollars into the U. S. economy annually. Community gardening or greening projects have been a training ground for people interested in entering the industry, particularly in inner city areas where jobs can be scarce and skills hard to acquire.
7. **Community gardening can help the homeless.** Community gardens are a source of food for the homeless in some cities, and the community garden plot can also be "the first step toward self-sufficiency," notes Ishwarbhai C. Patel, who leads urban gardening programs in New Jersey. The garden provides "a place to call 'mine' and the opportunity to grow and produce things of value," he says.
8. **Community gardening helps reduce stress.** A wide range of psycho-and physiological studies have found that exposure to green plants can relieve stress – especially in the urban areas, where excessive noise and movement can make stress levels rise.
9. **Community greening helps preserve cultural heritage.** In a 1992 study of San Jose, California's Community and Cultural Heritage Gardens, J. Dotter found that the gardens provided people with an important opportunity to maintain their cultural heritage by growing plants that play an important role in their culture's food or rituals.
10. **Community greening provides places for children to play and learn.** Community gardens and green spaces can play an important role in child development, a number of studies have found. For example, a garden can teach children how food is grown and what it looks like before arriving at the checkout counter.
11. **Community gardens make people more productive.** Psychologists have found that plants and green spaces provide the human mind with a rest. As a result, workers who have access to green spaces are more productive.
12. **Community gardens help people keep physically fit.** The President's Council on Physical fitness has called America "a land of slumbering couch potatoes." Participation in greening could change that. In 1990, M. K. Taylor found that a gardener can burn more calories in one hour of work than someone doing aerobics.
13. **Community gardens teach patience.** The long slow process of planting a garden and nurturing healthy plants can teach an important lesson to both children and adults in our fast-paced society.

KEYS TO A SUCCESSFUL COMMUNITY GARDEN

1. Get Your Neighbors Involved

There is a lot of work involved in starting a new garden. Make sure you have several people who will help you. Over the years, our experience indicates that there should be at least ten interested families to create and sustain a garden project. Survey the residents of your neighborhood to see if they are interested and would participate. Hold monthly

MV00233737

meetings of the interested group to develop and initiate plans, keep people posted on the garden's progress, and keep them involved in the process from day one.

2. Form a Garden Club
A garden club is a way of formally organizing your new group. It helps you make decisions and divide-up the work effectively. It also ensures that every one has a vested interest in the garden and can contribute to its design, development, and maintenance. It can be formed at any time during the process of starting a community garden; however, it's wise to do so early on. This way, club members can share in the many tasks of establishing the new garden. The typical garden club will have many functions, including:

- Establishing garden rules (see sample)
- Accepting and reviewing garden applications
- Making plot assignments
- Collecting garden dues (if any)
- Paying water bills
- Resolving conflicts
- The typical garden club has at least two officers: a president and a treasurer; although your garden club may have more if necessary. Elections for garden officers usually are held annually.

3. Obtain Liability Insurance
Landowners may also require that your group purchase liability insurance. Often it is a city or town providing land for a garden that is requesting insurance. They usually have a "risk manager" whose job is to protect the municipality against all risk. Whenever the town enters into a relationship, that relationship is passed before the risk manager, and the risk manager almost always says "buy insurance" to protect the town. But towns always have lots of insurance. They engage in lots of risky business. Adding a community garden to their list of risks will have almost no impact on their overall risk and on the cost of their insurance.

Basic Elements of a Community Garden
Although there are exceptions to every rule, community gardens should almost always include:

• At least 15 plots assigned to community members. These should be placed in the sunniest part of the garden. Without plots for individual participation, it is very difficult to achieve long-term community involvement. Raised bed plots, which are more expensive, should be no more than 4 feet wide (to facilitate access to plants from the sides without stepping into the bed), and between 8 and 12 feet long (it is advisable to construct your raised beds in sizes that are found in readily-available lumber, or that can be cut without too much waste). In-ground plots can be from 10 x 10 up to 20 x 20 feet. Pathways between beds and plots should be least 3 to 4 feet wide to allow space for wheelbarrows. The soil in both raised bed and in-ground plots should be amended with aged compost or manure to improve its fertility and increase its organic matter content.

MV00233738

• A simple irrigation system with one hose bib or faucet for every four plots. Hand watering with a hose is the most practical and affordable for individual plots (and it's almost a necessity when you start plants from seed). Drip and soaker-hose irrigation can be used in all areas of the garden for transplanted and established plants, but especially for deep-rooted fruit trees and ornamentals. If no one in your group is knowledgeable about irrigation, you might need some assistance in designing your irrigation system. Seek out a landscape contractor or nursery or garden center professional to help you develop a basic layout and materials list.

• An 8-foot fence around the perimeter with a drive-through gate. In our experience, this is a key element of success. Don't count on eliminating all acts of vandalism or theft, but fencing will help to keep these to tolerably low levels.

• A tool shed or other structure for storing tools, supplies, and materials. Recycled metal shipping containers make excellent storage sheds, and are almost vandal-proof. Contact the Port Authority for leads on where to find them.

• A bench or picnic table where gardeners can sit, relax, and take a break--preferably in shade. If there are no shade trees on the site, a simple arbor can be constructed from wood or pipe, and planted with chayote squash, bougainvillea, grapes, kiwis, or some other vine.

• A sign with the garden's name, sponsors, and a contact person's phone number for more information. If your community is bilingual, include information in this language.

• A shared composting area for the community gardeners. Wood pallets are easy to come-by and (when stood on-end, attached in a U-shape, and the inside covered with galvanized rabbit-wire) make excellent compost bins.

Making the garden accessible to all

Community gardens tend to attract a wide variety of people, including those with physical or other challenges. Because of this, it is helpful to think of ways to make your garden accessible to all gardeners. Building accessible raised beds for those who use wheelchairs or have trouble bending over is one way to make the garden more accessible. A portion of the area could be built in raised beds with decomposed granite paths dedicated to those with physical and other challenges.

ADA REQUIREMENTS:

5 % of the plots would require ADA accessibility. This staff would recommend placing 15 – 20 raised bed planters on the west end of the proposed community gardens with compacted decomposed granite paths between each raised bed. This location would allow for easy entrance and exit access. To meet ADA requirements would add an additional cost of approximately $15,000 to the project. These funds would cover $10,000.00 for the

MV00233739

cost of stabilized decomposed granite. $2,000.00 for the raised bed timber and $3,000.00 for the soil to fill these beds.

ADDITIONAL CONSTRUCTION COSTS:

TASK	COST
RAISED BED TIMBERS	$2,000.00
TOP SOIL	$3,000.00
STABILIZED D.G.	$10,000.00

CITY COUNCIL
MORENO VALLEY
RECEIVED
10 MAR 18 AM 8:35

MORENO VALLEY
CITY MANAGER'S OFFICE

City Manager's Office

MEMORANDUM

To: Executive Team

From: William L. Bopf, Interim City Manager WLB

Date: March 17, 2010

Subject: Administrative Direction

During the Executive Team Meeting today, Wednesday, March 17, 2010, two items were discussed:

1. All Executive Team Members are to ensure that all contracts, agreements, DDA's, development agreements, and documents that bind the City by Council action requiring the Mayor or the City Manager to sign should be forwarded to the City Clerk for filing under our Document Retention Procedure.

   Once those documents are provided to the City Clerk it is the responsibility of the Division and/or Department implementing those documents to send any Change Orders or modifications to the City Clerk in order to ensure that the records are complete. The Department/Division producing the document will keep all such documents in their files as well.

2. Staff has been receiving CRM's generated as a result of weed abatement complaints. The annual weed abatement process will be initiated this April and follows a very detailed and fair notification due process to ensure that the proper party is noticed and proper charges are assessed. At this point in the program, it is time consuming for Staff to investigate specific complaints by physical inspection. If the information on the CRM or complaint is precise enough, the CRM will indicate that the subject property is on the Weed Abatement list and will be dealt with according to the Council approved Weed Abatement Program. Using this process will conserve Staff time while they pursue the Weed Abatement Program.

All of the Executive Team Members have agreed with the handling of these two matters. Your attention to these decisions and processing of the relevant items will be appreciated.

Manhattan Beach, CA 90266

Dear Mr. Greenberg,

Although I only had a brief opportunity to meet you on Friday, I wanted to confirm that if you encounter any problems during the development of your new facility in Moreno Valley, please feel free to call me. As many others have expressed, we are very excited about your selection of the Moreno Valley site for your new distribution center. I want to assure you that this City is very appreciative of the significant economic contribution your facility will make to our community. Not only are you providing employment for our City and region, but we are well aware of the added value brought by your well respected company.

Our staff has developed a team to work with Mr. Benzeevi to process documents and plans that are essential to this project. Within the limits of required processes, some of which are not ours, we will provide Mr. Benzeevi every appropriate assistance to expedite our portion of the project.

Having worked for several major developers myself, I know how important it is to adhere to a schedule. Please be assured we are very pleased that you will be in Moreno Valley and we look forward to the Grand Opening of your distribution center at the earliest date.

My appreciation and best regards for a successful project.

Sincerely,

William L. Bopf
Interim City Manager

City Manager's Office

MEMORANDUM

To: Tow Operator's and Interested Parties
(See Distribution List Below)

From: Rick C. Hartmann, Interim Assistant City Manager

Date: March 10, 2010

Subject: **PROPOSED MEETING TO DISCUSS THE CITY OF MORENO VALLEY'S DRAFT ROTATIONAL TOW SERVICES PROGRAM DOCUMENTS**

At the request of the City Council, staff of the Police Department, Code Compliance, Financial & Administrative Services, Risk Management, City Attorney's Office, and City Manager's Office have analyzed the City's existing towing service program. Staff has made a number of edits to Chapter 12.14 regulating towing services for the City and developed a Request for Proposals and agreement for review and consideration by the City Council. The Council's Public Safety Subcommittee consisting of Mayor Bonnie Flickinger and Councilman Bill Batey have review the documents and instructed City Staff to meet with interested towing companies to discuss the draft documents .

A meeting has been scheduled for ***Thursday, March 18, 2010, in the City Council Chambers, 14177 Frederick Street, Moreno Valley, CA 92552 at 3 p.m.*** to discuss the following draft Rotational Tow Service Program documents, which are attached to this Memorandum:

- Draft Ordinance. Chapter 12.14, Police and City of Moreno Valley Rotational Tow Service has been rewritten to have consistent and complete rules and procedures for all to follow.
- Draft Request for Proposals. The draft Request for Proposals establishes a process of review of proposals submitted by tow operators or businesses that are interested in provided the service to the City.
- Draft Independent Contractor Agreement. The draft agreement sets forth the terms and conditions a tow operator or business must abide by for the duration of the contract period.

If you have any questions prior to the meeting, please feel free to contact me at 951.413.3030 or via e-mail at rickh@moval.org.

ORDINANCE No. ___

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA AMENDING TITLE 12 OF THE CITY OF MORENO VALLEY MUNICIPAL CODE BY REPEALING CHAPTER 12.14 RELATING TO ROTATIONAL TOWING SERVICES FOR THE CITY OF MORENO VALLEY AND ADDING THERETO A NEW CHAPTER 12.14 ENTITLED POLICE AND CITY OF MORENO VALLEY ROTATIONAL TOW SERVICE

The City Council of the City of Moreno Valley, California does ordain as follows:

SECTION 1: REPEAL OF CHAPTER 12.14, POLICE AND CITY OF MORENO VALLEY ROTATIONAL TOW SERVICE

Chapter 12.14, Police and City of Moreno Valley Rotational Tow Service of Title 12, Vehicles and Traffic of the Moreno Valley Municipal Code is hereby repealed. The repeal will only to be effective upon the effective date following the adoption of the reenactment of said Chapter 12.14 as set for in Section 2 of this Ordinance.

SECTION 2: ADDING CHAPTER 12.14, POLICE AND CITY OF MORENO VALLEY ROTATIONAL TOW SERVICE

Title 12, Vehicles and Traffic of the Moreno Valley Municipal Code is hereby amended by adding thereto Chapter 12.14, Police and City of Moreno Valley Rotational Tow Service to read as follows:

Chapter 12.14
POLICE AND CITY OF MORENO VALLEY ROTATIONAL TOW SERVICE

Section:

12.14.010 Intent and purpose.
12.14.020 Definitions.
12.14.030 City business license and permits required.
12.14.040 Selection of towing services.
12.14.050 Rotation tow lists.
12.14.060 Official police department and city tow operator's permit.
12.14.070 Tow truck driver's permit.
12.14.080 Tow truck classifications.
12.14.090 Liability insurance.
12.14.100 Storage facility.
12.14.110 Standard rules of operation.

MV00233749

12.14.120 Additional services to be provided.
12.14.130 Response to calls.
12.14.140 Rates.
12.14.150 Suspension and revocation.
12.14.160 Summary suspension of permit pending opportunity for hearing.
12.14.170 Hearing and procedure.
12.14.180 Hearing officer.
12.14.190 Hearing officer—Power and duties.
12.14.200 Findings and determination by the hearing officer.
12.14.210 Notice and surrender.
12.14.220 Surrender of permit.
12.14.230 Appeal to city council.
12.14.240 Permits in effect at the time of adoption.

12.14.010 Intent and purpose.

A. It is the intent of this chapter to prescribe the basic regulations for the operation of an official Rotational Tow Service Program in police emergency situations, removal of illegally parked, vehicles that are being operated contrary to law, and/or in the removal of vehicles which are apparently abandoned, or involved in an accident, or which constitute an obstruction to traffic because of mechanical failure.

B. The intent of this chapter is to also establish regulations and procedures for the abatement of abandoned, inoperative and dismantled vehicles as set forth in chapter 11.24 of this code.

C. It is the purpose of the City Council in enacting the ordinance codified in this chapter to provide a fair and impartial means of distributing requests for towing services among qualified firms, and to ensure that such service is prompt and reasonably priced, and in the best interests of the public as well as the interest of efficient policing operations for the removal of such vehicles from public streets.

12.14.020 Definitions.

Unless the context in which used requires otherwise, the following words and variant thereof, shall have the following meanings:

"Appeal" means the final level of review for written reprimands, suspensions, terminations, or review of a decision regarding disciplinary action.

"Area" means the corporate boundary of the City of Moreno Valley.

"Attendant" means individual responsible for staffing the storage yard facility.

"Base Services" means any service or Tow which is performed when the vehicle Operator or agent is present and the vehicle is not stored at the direction of an officer.

"City" means the City of Moreno Valley.

"Financial & Administrative Services Director" means the position in the Financial & Administrative Services Department in charge of the administration of the financial affairs of the City.

"Driver" means a trained and/or qualified licensed individual who operates/drives a Tow car or Tow Truck.

"Driver's Permit" means the driver's Permit issued to a driver that has completed an application and complied with the requirements outlined in Section 12.14.070.

"Enrollment Period" means the period of time when a Tow Operator or Business may submit an application for inclusion on the City's rotation Tow list.

"Garage or Storage Facility" means the area where a Tow Operator or Business stores or impounds vehicles in connection with the City's Rotational Tow Service Program and complied with the requirements outlined in Section 12.14.100.

"License Division" means the City Business license division of the Financial & Administrative Services Department.

"Load Salvage Operations" means any Operator or Business involving the recovery of a load which has been spilled, or the off-loading and reloading of a load from an overturned vehicle performed in order to upright the vehicle. This will be limited to operations involving Class B, C, and D Tow Trucks.

"Notice" means any notices shall be in writing and delivered to the other party in person, via facsimile, and/or by first-class U.S. Mail from a duly authorized representative of the City or Operator.

"Official Police and City of Moreno Valley Tow Service" or "Operator" means a Towing Operator or Business that has a valid agreement with the City and is selected to be used, on call, and on an alternate basis, where a Tow Truck is required.

"Permit" means the Operator's Permit issued to a Tow Operator or Business that has complied with all sections of this chapter to the satisfaction of the City Council.

"Personal Property" means items which are not permanently affixed to the vehicle.

"Rate" means the rate charged by the Tow Operator or Business to a vehicle's owner or his/her agent as approved by the City Council.

MV00233751

"Response Time" means the period of time between when an Operator is notified by the City or Police Department of a call to the arrival of the Tow Truck at the location requested.

"Rotational Tow Service Program" means the City's official program of selecting Tow Operators to assist the Police Department and City in removing vehicles from the public right-of-way and private property as set forth in this chapter.

"Suspension" means the removal of an Operator from the City's Tow rotation list for a specified period of time regardless of any contract period or time.

"Termination" means the permanent removal of a Tow Operator from the City's Rotation Tow List for the remainder of the term of the Tow Service Agreement and disqualification from any further participation in the City's Rotation Tow Service Program.

"Tow Car" or "Tow Truck" is a motor vehicle which has been altered or designed and equipped for and exclusively used in the business of towing vehicles by means of a crane, towbar, towline or dolly or is otherwise exclusively used to render assistance to other vehicles and in compliance with section 615 of the California Vehicle Code. Also includes slide-back carriers and wheel-lift vehicles.

"Tow Operator" or "Business" means a company approved by the City to remove, impound and store vehicles in association with the City's Rotational Tow Service Program.

"Tow Service Agreement" means a document which sets forth the terms and conditions of an agreement between the City and Operator on the Tow rotation list.

"Vehicle Recovery Operation" means an operation involving the process of uprighting an overturned vehicle or returning a vehicle to a normal position on the roadway which requires the use of auxiliary equipment due to the size or location of the vehicle. This will normally be limited to operations requiring a Class B, C, or D Tow Truck(s).

12.14.030 City business license and permits required.

A. No firm may participate in the assignment of service calls on a rotational basis by the Police Department or the City unless it has a valid City business license to do business as a Tow Operator in the City as set forth in this code.

B. No person shall operate a Tow Truck as part of the City's Rotational Tow Service in the City unless he or she holds a valid Tow Truck Driver's Permit issued by the City.

MV00233752

C. Only those Tow Operators or Businesses approved by the City and possessing a valid Tow Operator's Permit and Tow Service Agreement shall be permitted to remove, tow, impound and/or store a vehicle as part the City's Rotational Tow Service Program.

12.14.040 Selection of towing services.

A. The City Manager or his/her designee shall solicit proposals from Tow Operators to participate in the City's Rotational Tow Service Program. The proposals shall be accompanied by the fee as established by resolution of the City Council. The fee is not refundable.

B. Proposals submitted by Tow Operators shall be evaluated by City staff and presented to the City Council for approval

C. The term of a Tow Service Agreement shall not exceed five (5) years. Tow Operators not participating in the process will not be eligible to participate in the City's Rotational Tow Service until the City establishes an open enrollment period. The enrollment period shall be open for at least 30 days.

D. Only those Tow Operators who enter into a contractual agreement with the City shall be permitted and be required to affix a decal or other permanent marking "Official Police and City of Moreno Valley Rotational Tow Service" to permitted Tow Trucks. Tow truck and/or other vehicles owned and operated by the Tow Operators that have not been inspected and approved by the City to participate in the City's Rotational Tow Service Program shall not, in any way, maintain a decal or other markings or advertisement that the vehicle or vehicles are part of the Program.

E. Tow Operators applying for the City's Rotational Tow Service shall have a minimum of three (3) verifiable years of for-hire towing experience, as an owner or principal, prior to the final filing date of an enrollment period in order to qualify for the program. The City shall verify that a Tow Operator meets the minimum three (3) years of experience.

F. A Tow Operator or Business not having a valid Tow Operator Permit or Tow Services Agreement shall be prohibited from participating in the City's Rotational Tow Service Program. Any tow person violating this chapter shall be guilty of a misdemeanor and shall be prosecuted either criminally or civilly pursuant to Chapter 1.10, Civil Citations, of the Moreno Valley Municipal Code.

G. Tow Operators who enter into a contractual agreement with the City shall deposit with the City the fee established by resolution of the City Council to cover its costs to administer the terms and conditions of the Tow Service Agreement the regulations of this chapter. A Tow Operator that fails to deposit with the City the required funds as set forth in the resolution of the City Council shall be in violation of this chapter and shall be prosecuted accordingly.

MV00233753

12.14.050 Rotation Tow lists.

A. For operational reasons, the Police Department and City shall maintain separate rotation tow lists and establish policies and procedures as to fairly distribute calls to the Tow Operators or Businesses approved by the City to participate in the Rotational Tow Service Program. Each list will include the same Tow Operators as approved by the City Council and have a valid Tow Service Agreement.

B. Nothing shall prohibit a Class B, Class C or Class D operator from maintaining a place on a lighter class rotation list. (See Section 12.14.080 for description of classifications.)

Regardless of the class of Tow Truck used in response to a call from the City, charges to the vehicle's registered owner or his/her authorized agent shall not be more than the class of vehicle towed or serviced, except when recovery operations require a larger class of truck.

C. If two or more Tow Operators are called to the same incident, distribution of the vehicles shall be at the discretion of the Police Department or City.

The Police Department may direct a Tow Operator to move vehicles to help clear a roadway or for lifesaving operations. Tow Operators shall provide the requested assistance at no cost to the City.

D. At the direct request from an owner of a vehicle or his/her authorized agent, a police officer may contact any Tow Business for services unless said request would be in violation of local, state or federal law or regulation or cause a delay in protecting the public's general health and safety. If an owner of a vehicle or his/her authorized agent request a tow service of their choosing, they assume full responsibility for any fees for service the owner's tow service may impose.

E. After any type of major collision, the Police Department shall have the authority to order any Tow Operator to tow vehicles to any location necessary for investigative purposes.

12.14.060 Official police department and city tow operator's permit.

A. In addition to having a valid City Business license to conduct Business in the City, the Tow Operator participating in the City's Rotation Tow Services Program shall also apply for and receive a Tow Operator's Permit. A Tow Operator's Permit application shall be filed with the Financial & Administrative Services Director or his/her designee, shall be verified under penalty of perjury, and shall be accompanied by the fee as established by resolution of the City Council. The fee shall not be refundable. It shall contain or be accompanied by the information and documentation specified in this section. Applications for Permits to conduct the Tow Business shall be filed with the City on a form approved by the Financial & Administrative Services Director or his/her

MV00233754

designee. Such application shall demonstrate that the applicant possesses a business license pursuant to Chapter 5.02 of this code. In addition, such application shall provide the following information:

1. Name/Description. Name and description of applicant.

2. Address. Permanent home address and full business address of applicant if an individual; of each partner if a partnership; and of each officer if a corporation.

3. Garage or Storage Facility. The place where the vehicles towed are to be stored or impounded.

4. Fingerprints and Photographs. Applicant shall be fingerprinted and photographed by the Police Department upon referral of the Financial & Administrative Services Director or his/her designee, and a record check made. The cost of the foregoing shall be established by resolution of the City Council and be borne by the applicant. The photographs taken by the Police Department will be used throughout the permit process, whenever photographs are required to be made part of the record.

5. Criminal Record. A statement as to whether or not the applicant, or any officer or partner of the applicant has been convicted of a felony within the immediately preceding ten (10) years, and the nature of each such offense and the punishment or penalty assessed, thereof.

6. Vehicle Data. The number of Tow Trucks to be operated or controlled by the applicant in the conduct of the Tow Business, and the make, body style, year, vehicle identification number, state license plate number, and the name of legal and registered owner of each vehicle.

7. Vehicle Description. A description of the proposed color scheme, insignia, trade-style and any other distinctive characteristic or design to be used to identify such vehicles.

8. Previous Licensing. A statement of whether or not the applicant has ever had any permit or franchise for a Tow Business issued to him/her that has been suspended or revoked, and, if so, the circumstances of each such suspension or revocation, whether in the City or elsewhere.

9. Insurance. A certification or policy of insurance in the manner and form required by Section 12.14.090.

10. Corporation Data. If the applicant is a corporation, a copy of the current Articles of Incorporation, certified as to being true and correct by the California Secretary of State, within sixty (60) days prior to the date of application, the most

MV00233755

current corporate bylaws and any applications, permits or notifications for the issuance of shares filed with or issued by the commissioner of corporations.

11. Business Office and Telephone Maintenance. A statement that the applicant will maintain at the principal place of business located in the City of Moreno Valley, and in operating order at all times, at least one telephone line. At all times there will be an attendant in charge of said telephone or telephones to dispatch Tow Trucks in response to requests therefor. After-hour answering services fulfill this requirement.

12. Proof of Lease or Property Ownership. The applicant shall provide the City with a certified copy of a deed, title report or other documentation naming the Tow Operator as the owner of the property or provide sufficient documentation to the City's satisfaction that the Tow Operator has a financial interest in the property and therefore, the right to use the property for a Tow Business and/or Storage Facility. If the Tow Operator leases the property for a Tow Business and/or Storage Facility, proof shall be submitted to the City demonstrating the Tow Operator has a lease interest in the property to operate a Tow Business and/or Storage Facility for the duration of the City's Rotational Tow Service Program of five years.

B. Prior to the issuance of a Tow Service Agreement by the City Council, the Tow Operator shall provide evidence that:

1. The application conforms in all respects to the provisions of this chapter.

2. The applicant's garage or storage facility is located within City limits.

3. The applicant is financially responsible and otherwise able to provide the service.

4. The applicant, and all officers or partners are likely to provide Tow services in a responsible and satisfactory manner. In making such determination, the Financial & Administrative Services Director or his/her designee shall consider whether the applicant or any officer or partner of the applicant;

a. Has previously provided responsible and satisfactory tow services,

b. Has not previously violated the terms of this chapter or of any similar enactment of the City or of any other jurisdiction.

C. A Tow Operator shall not have a financial interest in any other tow business participating in the City's Rotational Tow Service Program. Any violation of this section shall cause the immediate revocation of a Tow Operator's Permit for the balance of the contract period.

MV00233756

D. A Tow Operator's Permit is valid for one year. The failure of a Tow Operator or Business to apply for and receive approval of a subsequent permit by the City shall suspend the Tow Operator from participating in the City's Rotational Tow Service Program. At such time the Tow Operator or Business is issued a valid permit, the Tow Operator or Business shall be permitted to participate in the City's Rotational Tow Service Program.

12.14.070 Tow truck driver's permit.

A. The Tow Operator shall ensure that only qualified and competent Tow drivers respond to calls initiated by the Police Department or City. All Tow Truck Drivers must obtain a permit from the City's Financial & Administrative Services Director or his/her designee. Each applicant shall be required to be photographed and fingerprinted. Each Tow Truck Driver's Permit application, including renewal, replacement and duplicate applications, shall include the following information:

1. The name of the applicant, including all other names if any, by which the applicant has been known.

2. The applicant's race, color of eyes and hair.

3. Whether the applicant has been convicted or pled guilty or nolo contendere to any felony within the prior ten (10) years, and if so, the date, nature of the offense, the punishment or penalty assessed therefor, and the court in which such conviction was obtained or plea of guilty or nolo contendere was entered.

4. The class and number of the applicant's California Driver's License and restrictions thereon, if any, and whether any license of applicant to drive has ever been suspended or refused or revoked, and if so, details of the reasons therefor and the disposition of the matter, including the dates of any such suspension or revocation.

5. A statement showing each address at which the applicant has resided during the preceding year.

6. A statement of the applicant's physical condition, including a statement of whether the applicant has ever had epilepsy, blackout periods, fainting spells, or been addicted to the use of alcohol, narcotics or other dangerous drugs.

7. A current California Driver's License record listing driving violations, if any, issued by the California Department of Motor Vehicles within thirty (30) days prior to the date of application. This California Driver's License shall be valid for the class of Tow Trucks to be driven by the driver.

B. Record Check. Applicant shall be finger printed and photographed by the Police Department upon referral of the Financial & Administrative Services Director or his/her designee, and a record check made. The fee for the foregoing shall be as set by

MV00233757

resolution of the City Council and the fee shall be paid by the applicant at the time the application is submitted. The photographs taken by the Police Department will be used in all cases where photographs are required for implementation of this chapter.

C. Employment of Qualified Drivers. Every holder of City Tow Operator Permit to do business as a Tow Operator in the City shall employ as drivers only persons who are physically and mentally fit and able to perform such duties. It shall be the responsibility of the Tow Operator Permit holder to select and employ drivers who are familiar with the streets and addresses in the City. No Tow Operator Permit holder shall employ or retain in employment any person as a driver who violates laws governing morals, motor vehicle operations, or any provision of this chapter.

D. Nontransferable. Tow Truck Driver's Permits are not transferable, except that the holder of such a Permit may use the same Permit if he or she changes employment from one Tow Operator to another.

E. Termination. Within ten (10) days of terminating any driver, the Tow Operator shall serve notice to the Police Department and the City.

F. Tow Operators shall comply with the United States Department of Transportation regulations implementing the Federal Omnibus Transportation Employee Testing Act of 1991 and subsequent revisions.

G. Tow Operators shall be enrolled in the Employer Pull Notice program as set forth in California Vehicle Code Section 1808.1. The Tow Operator shall included mandated and non-mandated employees that are required to drive as part of his/her duties for the Tow Business.

H. A Tow Truck driver's Permit is valid for one year. The failure of a Tow Truck driver to apply for and receive approval of a subsequent Permit by the City shall suspend the driver from participating in the City's Rotational Tow Service Program. At such time the Tow Truck Driver is issued a valid Permit and is employed by a Tow Operator licensed pursuant to this chapter, he/she shall be permitted to participate in the City's Rotational Tow Service Program.

12.14.080 Tow truck classifications.

A. An Operator shall equip and maintain Tow Trucks in accordance with the provisions set forth in the California Vehicle Code (CVC), Title 13 of the California Code of Regulations and the specifications contained in this chapter, and consistent with industry standards and practices by the City.

Any and all Tow Trucks used by a Tow Operator or Business in connection with the City's Rotational Tow Service Program shall be inspected annually. If the Tow Operator or Business fails to have the Tow Truck or Trucks inspected, such Tow Truck or Trucks shall not be permitted to participate in the City's Rotational Tow Service

MV00233758

Program. Once the City has inspected the Tow Truck or Trucks and has determined it meets the provisions of the California Vehicle Code and this Chapter, the Tow Truck or Trucks will be permitted to tow vehicles in connection with the City's Rotational Tow Service Program.

B. Notwithstanding Section 615 CVC, all Tow Trucks shall have recovery capabilities, wheel lift capabilities, and a boom meeting the specifications contained in this chapter. For the purpose of this chapter, "a trailer for hire that is being used to transport a vehicle" shall not qualify as a primary Tow Truck for Tow rotation lists.

A violation of the Gross Vehicle Weight Rating (GVWR) and safe loading requirements of a Tow Truck shall be cause for immediate suspension as defined and outlined in this chapter. This includes exceeding the Tow Truck's GVWR, front axle weight rating, rear axle weight rating, maximum tire weight ratings, or not maintaining fifty (50) percent of the Tow Truck's unladen weight on the front axle when lifting/carrying a load.

C. There will be four classes of Tow Trucks covered under this chapter.

1. Class A—Light Duty. A Tow Truck with a manufacturer's gross vehicle weight rating (GVWR) of at least 14,000 pounds with wheel-lift capability, and may have a car carrier.

a. A Tow Truck company that has a car carrier may be exempted from the wheel-lift capability requirements. However, the car carrier must be an additional unit.

b. A "trailer for hire" shall not be approved for listing as a Class A Tow Truck.

2. Class B—Medium Duty. A Tow Truck with a manufacturer's gross vehicle weight rating (GVWR) of at least 26,000 pounds. The Truck shall be capable of providing air to the towed vehicle's brakes.

a. A Tow Truck company may also have a car carrier. However, the car carrier must be an additional unit.

3. Class C—Heavy Duty. A Tow Truck with a manufacturer's gross vehicle weight rating (GVWR) of at least 48,000 pounds. The Truck shall be equipped with air brakes and must be capable of providing air to the towed vehicle's brakes.

4. Class D—Super Heavy Duty. A Tow Truck with a manufacturer's gross vehicle weight rating of at least 52,000 pounds. The Truck shall be equipped with air brakes and must be capable of providing air to the towed vehicle's brakes.

MV00233759

D. To properly and safely tow and service the wide variety of vehicles being operated on the highway, a Tow Operator shall equip all Tow Trucks participating in the City Rotational Tow Service Program with the appropriate equipment as required by the California Vehicle Code and other regulations governing Tow Trucks.

12.14.090 Liability insurance.

A. Insurance — Motor Vehicle Liability Policy Required. Before any Permit may be issued for a Tow company, the owner or Tow Operator shall file with the City's Risk Manager a motor vehicle liability insurance policy, or a certification of the coverage required by this section, covering each Tow Truck used in the permitted business and a California admitted corporation shall issue the liability insurance in the state of California, which policy shall conform in all respects to the requirements of this chapter.

B. Liability Amounts. The required motor vehicle liability policy shall insure the owner, the City and its officers, agents and employees as additional insured, and any other person using or responsible for the use of any such vehicle with the consent, expressed or implied of such owner, against loss from the liability imposed upon such owner or person by law for injury to, or death of any person, or damage to property growing out of the maintenance, operation or ownership of any Tow Truck, in the minimum amount set forth by the City's Risk Manager for public liability and for property damage.

C. Compliance. All motor vehicle liability policies shall be subject to the approval of the City's Risk Manager. At any time a motor vehicle liability policy is found to be insufficient for any cause, the City Manager or his/her designee will remove the affected Tow service Business from the Rotational Tow Service Program. If the owner fails to replace the motor vehicle policy or policies within ten (10) days after the City Manager gives notice of such insufficiency with good and sufficient policies approved by the Risk Manager, then the Tow Operator's Tow Service Agreement issued hereunder shall be automatically suspended until such time as a sufficient policy has been furnished. Upon direction of the City Manager, the Police Department shall enforce such suspension.

D. Policy Endorsement. Every policy and every certificate of motor vehicle liability insurance coverage filed pursuant to the provisions of this chapter shall contain the following endorsements:

1. It is hereby understood and agreed that, notwithstanding expressions or provisions consistent with or contrary thereto in this policy contained, the policy is expressly issued to cover a motor vehicle regulated by the provisions of Chapter 12.14 of the Moreno Valley Municipal Code. This policy shall inure to, and be for the benefit and protection of, each person who shall sustain any damages or injury, or to the heirs, personal representatives, administrators, executors or assigns of any such person who may be so damaged or injured or suffer death by reason of the operation of a motor vehicle covered by this policy or from the defective condition

thereof. Liability under this policy shall be in no manner abrogated or abated by the death of the tort-feasor or the insured.

2. This is a continuing liability for claims incurred up to the full amount hereof, notwithstanding any action or recovery thereon.

3. No cancellation or reduction in coverage of this policy for any reason whatsoever shall become effective until the expiration of thirty (30) days after written notice of such cancellation or reduction in coverage shall have been given in writing to the City Manager or his/her designee. The thirty (30) day period shall commence upon the date the notice is actually received by the City Manager if personally delivered, or, if by registered United States mail with return receipt requested, on the second business day after the notice is deposited in the United States Mail, postage prepaid or on the date of receipt shown on the return receipt, whichever is later.

12.14.100 Storage facility.

A. Storage Facility Standards. The Tow Operator shall provide for the City's Tow rotation program, storage space for a minimum of one-hundred (100) vehicles of outside storage and five (5) vehicles of indoor storage. Said outdoor and indoor spaces shall be dedicated to the City's Rotational Tow Service program. The following standards of performance must be maintained:

1. Storage Facilities must be located within the City and clearly marked. Any and all signage for the facilities must be in conformance with the City's municipal code.

2. All vehicles are to be stored at a Storage Facility properly zoned for this use within the City. However, vehicles that have been approved by the Department of Motor Vehicles for lien sale can be towed outside of City limits.

3. Each impounded or stored vehicle shall be a minimum of two and one-half feet from any other vehicle, structure or object.

4. All stored vehicles shall be reasonably accessible to the vehicle's owner or vehicle owner's agent and the Police Department or City for retrieval, inspection and/or identification.

5. Owners shall be able to retrieve a stored vehicle 24 hours a day, seven days a week including holidays, within one hour upon notification by the Police Department or City that the vehicle can be released to its owner or authorized agent.

6. Storage facilities shall be monitored by an electronic monitoring or security system. Said system shall be subject to review and approval by the Police

MV00233761

Department before the Tow Business is permitted to tow and store or impound vehicles as part of the City's Rotational Tow Service Program to said lot.

7. Storage Facilities shall be properly lighted and secured by a six (6) foot high fence as set forth in Title 9 of this code. The fence shall be installed in compliance with any applicable provision of this code and approved by the Police Department and City before the Tow Business is permitted to tow vehicles as part of the City's Rotational Tow Service Program.

8. Storage Facilities owned by a Tow Operator shall not be shared with another Tow Operator. However, a Tow Operator or Business may be permitted on the same lot as long as there is a clear separation between Tow Operators. Each Tow Operator shall fully comply with the provisions of this code.

B. Personal property may be removed from the vehicle and shall be released to the owner of a vehicle at the request of the vehicle owner or his/her agent. When a vehicle has been impounded for evidence or investigation, the Operator shall notify the Police Department or City depending on the agency directing the storage of the vehicle, prior to the removal of property from a stored vehicle and will provide a receipt, with a copy placed in the stored vehicle.

C. Vehicles ordered towed by the Police Department or City will only be released by the Tow Operator under the regulations of the Vehicle Code and the City of Moreno Valley. The City will provide Tow Operators with appropriate regulations including updates to these regulations as they occur.

D. Prior to the utilization of new storage facilities that were not listed on the Tow Operator's Permit application for the Rotation Tow Service Program, the Tow Operator shall obtain the approval of the City to ensure that the new Garage or Storage Facility meets all applicable regulations.

E. The Operator shall maintain, at a minimum, business hours at the primary place of business of the Tow Operator of Monday through Friday, eight a.m. to five p.m. except for the following recognized holidays: New Year's Day, President's Day, Memorial Day, Independence Day, Labor Day, Veteran's Day, Thanksgiving Day and the day after Thanksgiving Day, and Christmas Day.

F. Annual storage facility inspections. Tow Operators shall have its Storage Facility inspected annually. The failure of a Tow Operator or Business to have its Storage Facility inspected annually by the City shall have its Tow Permit suspend and shall not participate in the City's Rotational Tow Service Program. At such time the Storage Facility is inspected by the City and found to be in compliance with this Chapter, the Tow Operator or Business shall be permitted to participate in the City's Rotational Tow Service Program.

MV00233762

12.14.110 Standard rules of operation.

A. Any requests for the removal of traffic hazards shall be made through the Police Department.

B. When it becomes evident that there will be a delay in responding to a Police Department or City request for towing service, the responding Towing Operator shall advise the agency requesting the tow services if the delay will exceed the maximum response time in Section 12.14.130(A).

C. The Tow Operator or Business shall be capable of responding to Police or City requests for towing of vehicles and release a vehicle to an owner of a vehicle or his/her authorized agent twenty-four (24) hours a day, seven days a week. An answering service fulfills this requirement.

D. Removing Hazards. After being dispatched by the Police Department or City to the scene, the Tow Truck Driver shall cooperate with the police officer(s) or City official in removing hazards and illegally parked vehicles as requested. It is the duty of the police officers or City to determine when such a vehicle should be impounded or moved, and the driver shall abide by their decisions.

E. Each Towing Operator or Business shall comply with Section 27907 of the Vehicle Code of the state of California regarding signs on Tow Trucks. Only Tow Trucks bearing the name of the Tow Operator called shall be dispatched to the scene of need.

F. All Tow Operators shall conduct their business in an orderly, ethical, businesslike manner and use reasonable means to obtain and keep the confidence of the motoring public.

G. Towing Operators participating in City's Rotational Tow Service Program shall be responsible for the acts of their employees (office and field personnel) while on duty. A Tow Operator shall be responsible for damage to vehicles while in their possession.

H. A Tow Operator's records, equipment and Storage Facilities shall be subject to periodic checks by Police Department investigators and/or the City during regular Business hours. Failure to permit the periodic checks will be considered a breech of the Rotational Tow Service Agreement and shall cause the immediate suspension of the Tow Operator from the City's Rotational Tow Service Program.

I. All vehicles stored or impounded as a result of a tow ordered by the Police Department or City shall be made available to the owner of the vehicle or his representatives, an authorized insurance agent, insurance adjustor, or body shop or car dealer, for the purpose of estimating or appraising damages, with the exception of vehicles with a "police hold." The Tow Operator shall keep a written record of every

MV00233763

vehicle stored for a period longer than twelve (12) hours pursuant to section 1065(a) of the California Vehicle Code.

J. The permitted Tow Business shall record their time in and their time out on every City requested tow truck assignment. Such records shall be available and open to examination by the Police Department and/or City.

K. All permitted Tow Businesses shall submit a monthly Rotational Tow Service Program report to the Police Department and City within ten (10) Business days of the last day of each month. The report shall include the following:

1. Total Police and City impounds;

2. Number of times dispatched by Police Department or City;

3. Number of these calls resulting in impounds;

4. Number of vehicles sold on lien sale under authority of Section 3072, Civil Code, and reporting said lien sales as per authority of Section 851.2 CVC;

5. Number of vehicles sold under low value vehicles as defined by California Vehicle Code Section 22851.3;

6. Names and addresses of buyers and description of vehicles when sold;

7. Number of calls which required more than one hour's time.

L. All Tow Trucks used shall have two-way communication with the Tow Operator's communication center.

M. A Tow Operator shall not proceed with any repair work on a vehicle or place any charges against a vehicle other than those occasioned by removal from the street and storage unless authorized by the vehicle owner or his designated agent.

N. A Tow Operator, when disposing or dismantling of unclaimed vehicles, shall abide by all Civil and Vehicle Code Sections pertaining thereto.

O. All vehicles stored or impounded as a result of a tow ordered by the Police Department or City shall be towed directly to a Tow Operator's approved Storage Facility unless the Police Department, City or other person legally in charge of the vehicle requests that it be taken to some other location.

P. A Tow Operator shall not begin the lien-sale process for a minimum of fourteen (14) days after the Tow Operator took possession of a vehicle under the City's Rotational Tow Service Program.

MV00233764

Q. The City shall conduct, at a minimum, one (1) annual meeting to discuss with the Tow Operators or his/her designee, the City's Rotational Tow Service Program. Attendance at the meeting is mandatory. The City shall give a 30-day written notice of the meeting.

If a Tow Operator fails to attend the meeting, said Tow Operator shall be suspended until such time that the Tow Operator can attend an alternate annual meeting with the Police Department and City to discuss the Rotational Tow Service Program. Said meeting is mandatory and will be held within sixty (60) days from the date the meeting was originally to be held.

Failure to attend a second, rescheduled mandatory meeting will lead to the termination of the Tow Rotation Service Agreement with the City for the duration of the contract period.

12.14.120 Additional services to be provided.

Any Tow Operator selected to be part of the Rotational Tow Service Program shall provide to the City, at no charge, emergency response to aid and service all City owned and Police Department vehicles within a reasonable radius of the City.

12.14.130 Response to calls.

A. The Tow Operator shall respond to Police Department or City calls twenty-four (24) hours a day, seven days a week, within the maximum response time of twenty (20) minutes. The Tow Operator will advise the Police Department dispatch or City, at the time of notification, if they are either unable to respond or unable to meet the maximum response time. If, after accepting the call, the Tow Operator is unable to respond or will be delayed in responding, the Tow Operator shall immediately notify central dispatch or the City. The Tow Operator shall not assign calls to other Tow Operators and/or Tow Truck Drivers not employed by said tow Operator.

1. A call to a Tow Operator shall constitute one turn on the list and the Tow Operator shall be moved to the bottom of the list. This includes when the Tow Operator fails to answer the phone, is unable to respond, is unable to perform the required service, refuses to respond or provide service, or is canceled due to excessive response time. The City and Police Department shall keep separate Tow rotation lists.

2. Repeated failure to respond and/or failure(s) to respond within the maximum response time requirements, on a continuous basis, shall constitute failure to comply with the terms and conditions of this chapter and the City Council Tow service agreement.

B. A Tow Operator shall not respond to a Police Department or City call assigned to another Tow Operator unless requested to do so by the Police Department or City.

MV00233765

1. There may be times when a driver, who was not called to a scene, comes upon a collision scene where a vehicle or vehicles are blocking a roadway and a Police officer requests his/her assistance in clearing the roadway. In such a case, the driver may be requested to move the vehicle to a safe location, as directed by the officer, and leave it. There shall be no charge for this assistance, and the assistance provided shall not change the Tow Operator's place in the rotation.

12.14.140 Rates.

A. All fees and storage rates shall be charged to a vehicle's owner or authorized agent. Said fees and storage rates charged for response calls originating from the Police Department or City shall be reviewed by the City Council and shall be reasonable and not in excess of those rates charged for similar services provided in response to request initiated by any other public agency or private person. The reasonableness of the fees charged will be determined in the following manner:

1. The rate for Towing shall be from portal to portal and may be charged at a one-hour minimum. Charges in excess of one hour may be charged in fifteen (15) minute increments. There shall be no additional charges for mileage, labor, etc. Secondary towing requested by the customer may be negotiated by the Tow Operator in accordance with his/her private business practices.

B. Rates for service calls (out of gas, lock outs, etc.) shall be from portal to the end of the service, and may be at the hourly rate with a thirty (30) minute minimum. Charges in excess of thirty (30) minutes may be charged in fifteen (15) minute increments.

C. The fees added for after business hours release of a vehicle shall be no more than one-half the hourly rate, and shall only be allowed if there is no person available at the Storage Facility for release and a call back is required.

D. Storage fees shall be charged by calendar day except that vehicles stored eight hours or less shall be charged no more than one day storage.

E. The schedule of rates shall be posted in the lobby of the Tow Business. These rates shall be displayed on an eleven (11) inch by seventeen (17) inch minimum sign in one-inch lettering. Additionally, rates shall be made available upon demand to person(s) for whom the tow services were provided or his/her agent.

12.14.150 Suspension and revocation.

A. Tow Operator and Tow Truck Driver Permits may be suspended or revoked by the City after notice and hearing with respect thereto, on the following grounds:

MV00233766

1. That the Tow Operator or Truck Driver has failed to operate in accordance with the provisions of this chapter and the Tow Service Agreement approved by the City Council.

2. That the Tow Operator has failed to maintain or secure insurance on any Tow Truck.

3. That the Tow Operator has failed to provide reasonable services to the City or the Police Department.

4. That the public safety or convenience and necessity would be best served by such revocation or suspension of the Tow Permit for any Tow Operator or Business.

5. That the Tow Permit in question was obtained on the basis of misrepresentation made or induced by or on behalf of the holder of the Tow Permit.

6. That the Tow Operator has engaged in conduct which would have constituted grounds for denial of an application for such a Tow Permit.

7 That the Tow Operator Permits a Tow Truck Driver to respond to a call by the Police Department and/or City in violation of this chapter.

8. That a Tow Operator or Business intentionally overcharges or demonstrates a pattern of overcharging customers.

9. That a Tow Operator or Business fails to maintain a Tow Truck's safety equipment, safe overloading requirements of a Tow Truck, and/or a Tow Truck's gross vehicle weight rating while towing a vehicle.

10. That a Tow Operator fails to permit the Police Department and/or City to inspect its Storage Facilities.

B. The City Council shall establish the manner in which disciplinary action will be considered and the terms for suspension and even termination of a Tow Operator from the City's Rotational Tow Service Program.

C. Nothing shall preclude the City from taking the appropriate enforcement or administrative action for any violation of law.

D. Violations of the terms and conditions of the Tow Service Agreement or this chapter may be cause for disciplinary action in the following manner:

1. First violation within a twelve (12) month period – letter of written reprimand.

MV00233767

2. Second violation within a twelve (12) month period – 1 to 30-day suspension.

3. Third violation within a twelve (12) month period – 60 to 90-day suspension.

4. Fourth violation within a twelve (12) month period – termination of the Tow service agreement for the current contract period.

E. A Tow Operator or Business participating in the City's Rotational Tow Service Program found guilty of a felony is prohibited from participating in the City's Rotational Tow Services program for the current contract period.

12.14.160 Summary suspension of permit pending opportunity for hearing.

Not withstanding section 12.14.170, any police officer duly acting as such within the City has the authority to temporarily suspend a Tow Truck Driver's Permit immediately if the driver thereof is arrested for conduct which jeopardizes the public health or safety.

12.14.170 Hearing and procedure.

Prior to any suspension or revocation of a Tow Permit the City Manager or his/her designee shall give the permit holder notice of intent to suspend or revoke the permit and state the proposed grounds for the suspension and revocation. A hearing shall be held within twenty (20) days on whether a Tow Permit should be suspended or revoked. Notice of hearing shall be mailed at least ten (10) days before the hearing by certified mail, with a five-day return requested, to the permittee. If any of the foregoing notices are returned undeliverable by the United States Post Office, the hearing shall be continued to a date not less than ten (10) days from the date of the return and may then be conducted on the date to which continued whether or not the party is present.

12.14.180 Hearing officer.

All hearings under this chapter shall be held before a hearing officer. The City Manager, or his/her designee, shall be the hearing officer of the City.

12.14.190 Hearing officer—Power and duties.

The hearing officer shall hear all facts and testimony which he or she deems pertinent. The hearing officer shall not be limited by the technical rules of evidence, but may consider any evidence upon which a prudent person might rely in arranging his or her own affairs. The permittee may appear in person at the hearing or present a written statement in time for consideration at the hearing.

MV00233768

12.14.200 Findings and determination by the hearing officer.

The hearing officer may impose such conditions and take such other action as he or she deems appropriate under the circumstances to carry out the purpose of this chapter. If an interested party makes a written presentation to the hearing officer but does not appear, he or she shall be notified in writing of the decision. The hearing officer shall have thirty (30) days in which to render a decision.

12.14.210 Notice and surrender.

No temporary suspension shall be for a period of more than twenty (20) calendar days. Notice of suspension or revocation shall be given by either personal service on the permittee or by certified mail, return receipt requested and addressed to the address of record on his or her application and, where appropriate, to the address of his or her employer.

12.14.220 Surrender of permit.

A Tow Operator's Permit issued pursuant to this chapter which have been suspended or revoked must be surrendered to the Financial & Administrative Services Director or his/her designee within ten (10) days of the giving of notice to the holder that the Permit has been suspended or revoked. The operation of any Tow Business or driver authorized by any such Permit shall cease upon receipt by the holder of the notice of suspension or revocation. Such notice shall be deemed to have been received by the holder of the Permit when personally delivered to such person or, if given by certified United States mail with return receipt requested, on the second City business day after the notice has been deposited in the United States mail.

12.14.230 Appeal to city council.

Any interested party may appeal the decision of the hearing officer pursuant to the hearing and appeal procedure set forth in Sections 2.04.100 through 2.04.130.

12.14.240 Permits in effect at the time of adoption.

Any Tow Operator Permit in effective at the time this ordinance is adopted shall be null and void unless said Tow Operator is offered a Tow Service Agreement to participate in the City's Rotational Tow Service Program. Said Permit would expire on the date noted on the Tow Operator Permit. A new Tow Operator Permit may be granted at that time if all of the terms and conditions of the City and all regulations of this code are complied with.

MV00233769

SECTION 3: EFFECTIVE DATE

This ordinance shall become effective thirty days after the date of its adoption.

SECTION 4: SEVERABILITY

If any provision of the ordinance or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications, and the provisions of this ordinance are declared to be severable.

SECTION 5: NOTICE OF ADOPTION

The City Clerk shall certify to the adoption of this ordinance and cause it to be posted in at least three places within the City designated for such posting by the City Council.

Approved and adopted this ____ day of _____, 2010.

REQUEST FOR PROPOSALS

MORENO VALLEY POLICE DEPARTMENT AND CITY ROTATIONAL TOW SERVICE PROGRAM
_____, 2010

The City of Moreno Valley is inviting proposals from qualified tow operators who wish to enter into an agreement with the City for the Rotational Tow Service Program (the "RTS Program") for the removal of vehicles from the public right-of-way (i.e. "Off-Site Vehicle Removal") and for the removal of inoperative vehicles from private property (i.e. "Vehicle Abatement Services"). More specifically, the requested services include, but are not limited to: towing and storing of vehicles involved in accidents or disabled for other causes (when alternate towing is either not appropriate or is not requested by the owner or operator of the vehicle), towing and/or storing of vehicles which for other reasons are within the jurisdiction of the Moreno Valley Police Department, including towing of improperly parked vehicles, vehicles that obstruct or impede the flow of traffic, emergency lanes or walkways, and/or handicapped parking spaces, impounded/forfeited vehicles, and/or vehicles seized for evidence. In addition, the tow operators will service the City's Code Compliance Division of the Community Development Department in the towing and storage of inoperative, abandoned, and dismantled vehicles from private property as set forth in the Chapter 11.24, "Vehicle Abatement", of the City's Municipal Code.

BACKGROUND

An ordinance and agreement for the RTS Program is being developed which will include rules and regulations and performance standards. These will include, but not be limited to; rules governing response time, towing, storage, equipment, storage facilities, fees, customer relations, and disciplinary actions deemed necessary for the Police Department and City to effectively manage the RTS Program. Each participating Tow Operator must agree to abide by the terms and conditions of the agreement. Copies of the ordinance and sample agreement to be executed by the Tow Operator and City are attached as Exhibit "A" and Exhibit "B", respectively.

Approximately _____ vehicles are towed each year by the Moreno Valley Police Department. Of this amount, approximately ____ percent of the vehicles were 30-day impounds and ___ percent were towed for other reasons. Most of the vehicles towed by the Moreno Valley Police Department are associated with its safe driver checkpoint program. Frequency of these checkpoint programs may

vary, however the City currently conducts such events periodically on an as-needed-basis to reduce public safety concerns.

In addition to the Police Department activity, the City's Code Compliance Division anticipates towing approximately 100 vehicles each year from private property and public right-of-ways. Many of the vehicles towed under the City's Vehicle Abatement Program are abandoned, inoperative and/or disabled.

Tow Operators selected to participate in the City's RTS Program shall agree to pay the City for actual and reasonable costs incurred in connection with administration of the RTS Program. Tow Operators will be required to deposit $5,000 with the City to cover the expenses of the Police Department and City in the administration of the RTS Program. At any time a Tow Operator's deposit balance is less than $500, the Tow Operator shall be required to replenish its account within the 30-day notice by the City. Failure to replenish the account will be cause for suspension and/or revocation of a Tow Operator's Permit.

Proposals from Tow Operators to participate in the City's RTS Program will be evaluated by a qualified evaluation committee comprised of representatives of the City Manager's Office, Police Department, Community Development Department, Human Resources Department, and Financial & Administrative Services Department. The evaluation committee will submit the proposals and its recommendations to the City Council for review and approval of an agreement to participate on the City's RTS Program.

Included in this Request for Proposals is a summary of Chapter 12.14, "Police and City of Moreno Valley Rotational Tow Service", of the Moreno Valley Municipal Code. Each Tow Operator shall be solely responsible for examining the attached Chapter 12.14 and sample agreement (Exhibits "A" and "B") including any Addenda issued during the RFP period, and for informing itself with respect to any and all conditions, which may in any way affect the amount and nature of the Tow Operator's response, or the performance of the services in the event the Tow Operator is selected and an agreement between the two parties is entered into.

It is the responsibility of each Tow Operator to inquire to the City of Moreno Valley, prior to submission of its proposal, any aspect of this RFP which needs clarification or interpretation. If it is determined by the City that the response to the clarification or interpretation is material, a written response will be prepared and distributed as Addenda to all Tow Operators and/or individuals that have received a RFP.

GENERAL REQUIREMENTS

1. A Tow Operator submitting a proposal to participate in the City's RTS Program must have a valid City of Moreno Valley business license to

conduct business in the City as a tow operator or business at the time the proposal is submitted for consideration by the City.

2. A tow business/operator submitting an application for the City of Moreno Valley RTS Program shall not have a financial interest in any other tow company and/or applicant within the City of Moreno Valley. Financial interest includes: business license, insurance, tow truck and equipment ownership, employees, and/or storage facility, or real estate.

3. The tow operator, storage yard/office must be located within the City limits and have an active City business license to be considered for the RTS Program. If a Tow Operator's business license becomes inactive, the tow business or operator shall be removed from the RTS Program as set forth in the sample agreement. If a tow operator has more than one storage facility, each location or locations will be reviewed on an individual basis and be approved by the City Council of the City of Moreno Valley before the location is part of the RTS Program.

4. The performance period of the Agreement will be for five (5) years, beginning _____. Tow businesses and/or operators not participating in the Request for Proposals (RFP) process will not be eligible to participate in this City's RTS Program until the City establishes a subsequent open enrollment period.

5. All responses shall be prepared by and at the expenses of the Tow Operator.

6. Each response shall be executed by the Tow Operator's authorized representative or officer.

EVALUATION OF QUALIFICATIONS AND INFORMATION

Responses to the RFP will be evaluated on the basis of various factors, including, but not limited to, the following:

1. Demonstrated financial strength including, but not limited to, the Tow Operator's:
   a. Current facilities, equipment and personnel,
   b. Capability of securing financing for facilities, equipment, personnel (payroll), upgrades, replacement of vehicles, or other resources, and
   c. Credit worthiness.

2. Quality of Tow Operator's existing or proposed facilities, equipment and personnel.

3. Demonstrated and successful completion of services of similar scope and size, including, but not limited to:

a. Years of experience as an official police tow service provider or municipal service provider,
b. Timeliness of performance, and
c. Customer testimonials (i.e., satisfaction/complaints) and references.

4. Other cities' and clients' evaluations of the Tow Operator's prior or current services and any actions taken by such cities or clients regarding the Tow Operator.

5. Demonstrated safety record for the Tow Operator's tow vehicles and employees.

6. Degree to which the proposer ascertained and addressed the City of Moreno Valley's needs and priorities.

PROPOSAL SUBMITTAL REQUIREMENTS

Respondents to this RFP should, at a minimum, provide the information requested below. Interested Tow Operators are encouraged to provide additional information not specifically identified below that would help demonstrate their qualifications to provide tow services to the Police Department and City. Tow Operators should not assume their past or current experience with the City demonstrates knowledge of the City's current needs or that the City representatives that will review the responses possess knowledge of this experience. The evaluation of each response will be based upon the evaluation criteria applied to the proposals submitted.

Each response shall be formatted to provide the following information in sequence.

1. Organizational Information
   a. Provide your company's legal or official name and any DBA's used by the company and documentation to these individuals or officers authorized to commit to its proposal on behalf of the company.
   b. Provide the company's organizational structure (e.g., corporation, partnership, LLC, etc.), jurisdiction in which your company is organized and the date of such organization.
   c. Provide the company's Federal Tax Identification number.
   d. Provide the name, address, telephone, fax number and e-mail address of the person who will serve as the contact to the Police Department and City with regards to the RFP response, with authorization to make representations on behalf of and bind your company.
   e. Provide proof that your company is currently in good standing in the State of California and has the necessary permits, licenses, etc., to perform the tow services as requested.
   f. Provide a statement that your company accepts all conditions and requirements contained in this RFP, Chapter 12.14 of the Moreno Valley

Municipal Code, and sample agreement or a description of any exceptions thereto.

2. Facilities, Equipment and Personnel
   a. Facilities. Provide the address of your towing business' administrative office(s) and vehicle storage facility(ies). A fully dimensioned Site Plan of the tow operator's administrative office/storage yard shall be submitted with the application package. Plans shall be drawn to an engineer scale not to exceed 1" = 50' or less than 1" = 20', with a north arrow oriented to top of the Plan. The Plan shall be prepared as follows:
      I. Name, address and phone number of the applicant/tow operator,
      II. Property lines and lot dimensions,
      III. Dimensions of all access points to the site (pedestrian and vehicular), off-street parking areas, loading areas, and parking spaces for customers and employees,
      IV. Location of all building structures and the distances between buildings and the property lines,
      V. Location of all driveways and landscape planters or areas,
      VI. Location of all building security lights and parking lot lights (refer to Chapter 12.14 for security requirements),
      VII. Location and type of perimeter fencing, and
      VIII. Evidence that indicates the lot will accommodate the minimum number of cars required in Chapter 12.14 and comply with the required parking standards outlined in Chapter 9.11 of the Moreno Valley Municipal Code.

   b. A Deed of Trust or other legal document identifying ownership of the property to be used for a towing business. If the towing business leases the property for a towing business, provide copies of the lease or other documentation that the property owner has agreed to the use of the property for a towing business and the term of the lease is for a minimum of five (5) years.
   c. Please list any secondary facilities and provide the same information as requested in the previous paragraph (2,a).
   d. Equipment. Identify in detail each vehicle and related equipment towing business would utilize in the City's RTS program (Class A, B, C, and D tow trucks). Include the make, model, year and equipment of each vehicle. The Tow Operator may use the appropriate CHP Form(s) for a rotational tow agreement as long as said forms are current. Please describe and/or include a copy of the company's vehicle replacement policy.
   e. Personnel. Indentify all personnel that will provide services under the City's RTS Program. Include all drivers, supervisory and office personnel. The Tow Operator may use the appropriate CHP Form for a rotational tow agreement as long as said forms are current. Identify the towing business' recruitment, training and customer service practices.

3. Financial/Organizational Information
   a. Provide a brief history of the towing business and its towing services experience. Include the experience of the company's key management personnel.
   b. Provide a description of the ongoing program(s) the company has in place to identify substance abuse and to ensure maintenance of an alcohol and drug free work place.
   c. Identify how your towing business will provide the required monthly reports to include tracking of stored/impounded vehicles, release of vehicles, lien sales, and other information you feel is pertinent to the RTS Program and as requested in Chapter 12.14 of the Moreno Valley Municipal Code.
   d. Provide certificate of insurance evidencing the insurance coverage carried by your company meets the City's minimum coverage limits listed in the agreement attached as Exhibit "B".
   e. Identify the years of experience that you have as an official police/city tow service provider.
   f. List any contracts your towing business currently has or has had in the recent past (last five years), similar to the City's requirements. Give the name and contact information for each reference.
   g. State any complaints the towing business has received from cities it has contracted with within the past two years. Include equipment violations, inspection citations, etc.
   h. Indicate whether or not your towing business has been suspended or terminated from a towing program operated by another governmental agency. State the reasons for the suspension and/or termination.
   i. Describe the towing business' safety policies and all safety training provided to your employees. If the towing business has been cited, suspended or terminated for safety violations, please supply the date and description the violation and/or incident.
   j. Provide your towing business collection procedure(s) and policy(ies).
   k. Provide information about how the towing business would move a large number of vehicles in a short period of time (i.e., 10 vehicles in an hour).

4. Rates for Service
   a. Fees charged to a vehicle's owner or authorized agent for response calls originating from the Police Department or the City, shall be reasonable and not in excess of those rates charged for similar services provided in response to requests initiated by any other public agency or private person. The reasonableness of the fees charged will be determined in the following manner (Form CHP 234A may be used to list rates for services):

      l. The towing operator shall submit his/her proposed hourly rate to the city as part of this RFP. The City Council shall determine the validity and reasonableness of the submitted rate.

II. Validity will be based upon telephone quotes, posted rates, charges to retail customers, etc. Any submitted rate in excess of a towing business' retail rate will be considered invalid and will not be accepted. A towing business who submits an invalid rate shall not be allowed to resubmit a new rate and will be disqualified from City's RTS Program until the next enrollment period.
III. Reasonableness shall be determined as compared to other rates. A tow operator who submits a rate that is determined to be excessive shall be allowed to resubmit his/her rates only once during this contract period.
IV. Provide your storage and any other fee your towing business charges an owner of a vehicle or his/her authorized agent.

RFP SUBMISSION AND DEADLINE

Tow businesses and operators interested in participating in the City of Moreno Valley RTS Program shall submit the requested information, completed forms, and any other pertinent information and an RTS Application fee of $_____ to:

Jane Halstead, City Clerk
City Clerk's Office
City of Moreno Valley
14177 Frederick Street
Moreno Valley, CA 92552

All proposals shall be sealed within one envelop and clearly marked "***REQUEST FOR PROPOSALS – MORENO VALLEY POLICE DEPARTMENT AND CITY ROTATIONAL TOW SERVICE PROGRAM***."

Proposals are due to the City of Moreno Valley City Clerk's Office before 4:30 p.m. on _____, 2010. An applicant shall submit five (5) copies of the proposal and one (1) additional 8 1/2" x 11" black and white copy that is reproducible and unbound or an electronic copy as long as the format meets the previous criteria.

Failure to comply with the instruction set forth in the RFP will be considered as non-responsive and will not be accepted. If you cannot meet one or more of the terms and conditions of this RFP and/or the regulations set forth in Chapter 12.14 of the Moreno Valley municipal code, you must list separately those items and provide an explanation why such terms and conditions and regulations cannot be met. Furthermore, the City Council reserves the right to reject any and all bids at any time during this process and waive any discrepancies and/or irregularities in submitted proposals as it deems appropriate.

The city assumes no responsibility for delays caused by any package or mail delivery service. Postmarking, faxed or e-mail proposals by the due date ***WILL NOT*** substitute for receipt of a submittal. Additional time will not be granted to

any single proposer; however, additional time may be granted to all proposers when the City determines that circumstances require it.

Any questions regarding this RFP should be directed to Rick Hartmann, Interim Assistant City Manager at Moreno Valley City Hall by telephone at (951) 413-3030 or via e-mail at rickh@moval.org.

DRAFT

CITY of Moreno Valley

INDEPENDENT CONTRACTOR AGREEMENT
Rotational Tow Services Program

This Agreement is made by and between the CITY of Moreno Valley, California, a municipal corporation, hereinafter referred to as the "CITY", and the following named independent contractor, hereinafter referred to as the "TOW OPERATOR," based upon CITY policies and the following legal citations:

A. Government Code Section 53060 authorizes the engagement of persons to perform special services as an independent contractor; and

B. The public interest, convenience, necessity and general welfare will be served by this Agreement.

This Agreement is made and entered into effective the date the CITY signs this Agreement.

1. TOW OPERATOR INFORMATION

Tow Operator's Business/Company Name: _____
Address: _____
CITY: _____ State: ____ Zip: _____
Business Phone: (___) _____ Fax No. ( ) _____
E-mail address/Web site: _____
Other Contact Number: _____
Social Security Number: _____
Business License Number: _____
Federal Tax I.D. Number: _____

2. TOW OPERATOR SERVICES, FEES, AND RELEVANT DATES

W I T N E S S E T H

WHEREAS, the CITY seeks to engage the services of the TOW OPERATOR to participate in CITY Rotational Tow Services Program for towing services throughout the CITY of Moreno Valley for the removal of vehicles from the public right-of-way (i.e., "Off-site Vehicle Removal") and the removal of inoperable vehicles from private property (i.e., "Vehicle Abatement Services") at no cost or charge to the CITY, or its contract services with the Riverside County Sheriff's Department and the Riverside County Fire Department and its service provider, Cal Fire, and

WHEREAS, the CITY agrees to utilize, on a rotational basis, for Off-Site Vehicle Removal and Vehicle Abatement Services, only those TOW OPERATOR(s) located in the CITY of Moreno Valley, as defined herein and as set forth in Chapter 12.14, Police and CITY of Moreno Valley Rotational Tow

MV00233779

Service of the Moreno Valley Municipal Code and attached hereto as Exhibit "A" and made a part hereof, who have signed an Agreement with the CITY, and

WHEREAS, the TOW OPERATOR who is a signatory to this Agreement, has completed and submitted the necessary information and other documents required by the CITY (hereinafter call "Request for Proposal or RFP") attached hereto as Exhibit "B" and made a part hereof, to provide Rotational Towing Services within its corporate boundaries, and

WHEREAS, the TOW OPERATOR represents that it has the necessary expertise, licenses, equipment, storage facilities, personnel and insurance to meet all requirements of the CITY to provide towing services within the CITY of Moreno Valley, and

WHEREAS, the CITY has relied upon TOW OPERATOR's representations in entering into this Agreement.

NOW, THEREFORE, in consideration of the mutual covenants herein contained, the parties hereto agree as follows:

A. The TOW OPERATOR's Proposal is described in Exhibit "C" attached hereto and incorporated herein by this reference.

B. The TOW OPERATOR Starting Date is _____ and the TOW OPERATOR Ending Date is _____. The TOW OPERATOR shall not be responsible for delays caused by others or delays beyond the TOW OPERATOR's reasonable control (excluding delays caused by non-performance or unjustified delay by TOW OPERATOR, or his/her/its employees).

C. General Responsibilities of TOW OPERATOR.

   I. TOW OPERATOR shall provide towing services at the request and direction of the Riverside County Sheriff's Department (herein after referred to as "Moreno Valley Police Department") and CITY'S Code & Neighborhood Services Division for all tows necessary from public right-of-way and from private property. Calls for towing services from public right-of-way shall be initiated by the MORENO VALLEY POLICE DEPARTMENT and calls for towing services from private property shall be initiated by the CITY'S Code & Neighborhood Services Division under the CITY'S Vehicle Abatement Program.
   II. The OPERATOR shall be responsible for reasonable cleanup of debris left at the scene of a collision or at the direction of the MORENO VALLEY POLICE DEPARTMENT.

MV00233780

III. There shall be no charge or fee to the CITY, or MORENO VALLEY POLICE DEPARTMENT or the CITY'S Code & Neighborhood Services Division for any towing services by the OPERATOR to include vehicles towed at the request of the CITY/MORENO VALLEY POLICE DEPARTMENT in which the vehicle is used in the commission of a crime or other matters in which the vehicle must be impounded for investigation and/or further analysis. All charges or fees shall be applied only to the legal owner or registered owner of the vehicle or to the property owner as appropriate. All reference to charges or fees in this Agreement thereto shall refer to charges against the vehicle owner and not to the CITY, MORENO VALLEY POLICE DEPARTMENT or CITY'S Code & Neighborhood Services Division.

IV. The TOW OPERATOR shall maintain records of tow services furnished including a description of vehicles, nature of service and time and location of calls. Such records may be inspected at any time by the MORENO VALLEY POLICE DEPARTMENT and CITY. The OPERATOR shall mark the windshield of each vehicle towed as part of the CITY Rotational Tow Services Program to read: "MOVAL" and either "I" for "impounded" or "S" for "stored".

V. The TOW OPERATOR and its tow truck drivers shall maintain, during the entire contract period, proper licenses, in accordance with California Vehicle Code Section 12804 and the CITY as set forth in chapter 12.14 of the Moreno Valley Municipal Code.

VI. Towing vehicles will be maintained in compliance with the provisions of Sections 24605, 25253, 25300, 27700, and 27907 of California Vehicle Code and Section 9701 of the Revenue and Taxation Code and the CITY as set forth in chapter 12.14 of the Moreno Valley Municipal Code.

D. Fees for Special Operations.

I. For special operations involving Class B, C, and D tow trucks, the TOW OPERATOR shall submit his/her proposed fees for vehicle recovery operations and load salvage operations to the CITY. Fees shall be reasonable and consistent with industry standards for similar operations. Charges in excess of the one hour minimum charge outlined in this section may be charged in fifteen–minute increments.

a. Hourly rates shall be established for the following:

1) Auxiliary Equipment, e.g., airbags, converter gear/dolly, additional trailers, etc.

2) Contracted Equipment, e.g., airbags, converter gear/dolly, additional trailers, forklifts, scoop loaders, etc.

MV00233781

3) Contract labor.

b. The CITY shall determine the reasonableness of the fees for these types of operations, based upon the average of the proposed fees submitted and a comparison to industry standards for similar operations.

II. The TOW OPERATOR shall submit a mark-up rate (percentage of the cost to the TOW OPERATOR) for retail equipment and specialized labor not otherwise listed on the application.

III. If the TOW OPERATOR performs a service for which a required rate was not submitted to, and/or approved by the CITY, the TOW OPERATOR shall only be entitled to charge for the actual cost of that service. Example: contract labor rate not submitted, the TOW OPERATOR may only charge for the actual rate paid for the labor.

3. STANDARD TERMS AND CONDITIONS

A. Control of Work. TOW OPERATOR is solely responsible for the content and sequence of the work, and will not be subject to control and direction as to the details and means for accomplishing the anticipated results of services. The CITY will not provide any training to TOW OPERATOR or his/her/its employees.

B. Intent of Parties. TOW OPERATOR is, and at all times shall be, an independent contractor and nothing contained herein shall be construed as making the TOW OPERATOR or any individual whose compensation for services is paid by the TOW OPERATOR, an agent or employee of the CITY, or authorizing the TOW OPERATOR to create or assume any obligation or liability for or on behalf of the CITY, or entitling the TOW OPERATOR to any right, benefit, or privilege applicable to any officer or employee of the CITY.

C. Responsibilities of the CITY. The MORENO VALLEY POLICE DEPARTMENT and CITY'S Code Compliance Division shall each establish and maintain separate rotational lists composed solely of the TOW OPERATOR who are signatories to the Agreement unless as otherwise provided for by MORENO VALLEY POLICE DEPARTMENT or CITY procedure.

D. Legal Considerations. The TOW OPERATOR shall comply with applicable federal, state, and local laws in the performance of this Agreement.

E. TOW OPERATOR Indemnification. TOW OPERATOR shall indemnify, defend and hold the CITY, the Community Redevelopment Agency of the CITY of Moreno Valley (RDA), and the Moreno Valley Community

MV00233782

Services District (CSD), their officers, agents and employees harmless from any and all claims, damages, losses, causes of action and demands, including reasonable attorney's fees and costs, incurred in connection with or in any manner arising out of TOW OPERATOR's performance of the work contemplated by this Agreement. Acceptance of this Agreement signifies that the TOW OPERATOR is not covered under the CITY's general liability insurance, employee benefits, or worker's compensation. It further establishes that the TOW OPERATOR shall be fully responsible for such coverage.

F. CITY Indemnification. The CITY agrees to indemnify, defend and save the TOW OPERATOR and its officers, agents and employees harmless from any and all liability, claims, damages or injuries to any person, including injury to the CITY's, RDA's and CSD's employees and all claims which arise from or are connected with the negligent performance or failure to perform the services or other obligations of the CITY under this Agreement, or are caused or claim to be caused by the negligent acts of the CITY, RDA and CSD, their officers, agents or employees, or its contractor(s) or any person acting for the CITY or under its control or direction; provided, however, that this indemnification and hold harmless shall not include any claims arising from the negligence or willful misconduct of the TOW OPERATOR, its officers, agent, or employees.

G. Insurance Requirements. Where determined applicable by the CITY, TOW OPERATOR will comply with the following insurance requirements at its sole expense. Insurance companies shall be rated (A Minus: VII—Admitted) or better in Best's Insurance Rating Guide and shall be legally licensed and qualified to conduct business in the State of California:

   I. General Liability Insurance: To protect against loss from liability imposed by law for damages on account of bodily injury, including death, and/or property damage suffered or alleged to be suffered by any person or persons whomever, resulting directly or indirectly from any act or activities of the TOW OPERATOR, sub-TOW OPERATOR, or any person acting for the TOW OPERATOR or under its control or direction. Such insurance shall be maintained in full force and effect throughout the terms of the Agreement and any extension thereof in the minimum amounts provided below:
      a. Bodily Injury $1,000,000 per occurrence/ $2,000,000 aggregate
      b. Property Damage $500,000 per occurrence/ $500,000 aggregate

MV00233783

II. Minimum Limits of Insurance: Commercial Business Automobile Liability: $500,000 per accident for bodily injury and property damage with a combined single limit for Class A tow trucks. The combined single limits for Class B, C, and D shall be not less than $1,000,000. These minimum standards are to include non-owned and hired auto coverage.

III. On-Hook Coverage: Insuring the vehicle in tow with limits based on the size of the tow truck.
   a. Class A Tow Truck: $ 25,000
   b. Class B Tow Truck: $ 50,000
   c. Class C Tow Truck: $100,000
   d. Class D Tow Truck: $100,000

IV. Garage Liability: Includes premises and operations. Coverage for bodily injury and property damage with a combined single limit of not less than $50,000.

   a. Garage Keepers Liability: Shall be the same minimum as on-hook coverage for vehicles in the care, custody, and control of the TOW OPERATOR in the storage yard.

   b. Uninsured Motorist: Legal minimum combined single limit. In no case shall the required insurance coverage have a deductible greater than $1,000.

   c. Deductibles and Self-Insured Retention: Any deductible of self-insured retention must be declared to and approved by the CITY. At the option of the CITY, either: the insurer shall reduce or eliminate such deductibles or self-insured retention as respect to the City, its officers, officials, employees and volunteers; or the OPERATOR shall provide a financial guarantee satisfactory to the CITY guaranteeing payment of losses and related investigations, claim administration and defense expenses.

   d. Worker's Compensation Insurance: In such amounts as will fully comply with the laws of the State of California and which shall indemnify, insure and provide legal defense for both the TOW OPERATOR and the CITY, RDA, and CSD against any loss, claim or damage arising from any injuries or occupational diseases happening to any worker employed by the TOW OPERATOR in the course of carrying out the Agreement. This coverage may be waived if the TOW OPERATOR is determined to be functioning as a sole proprietor and the CITY provided form "Exception to

MV00233784

Worker's Compensation Coverage" is signed, notarized and attached to this Agreement

Liability and Property Damage Insurance coverage for owned and non-owned automotive equipment operated on CITY/CSD/RDA premises. Such coverage limits shall not be less than $1,000,000 combined single limit.

A Certificate of Insurance and appropriate additional insured endorsement evidencing the above applicable insurance coverage shall be submitted to the CITY Risk Manager prior to the execution of this Agreement. The Certificate of Insurance or an appropriate binder shall bear an endorsement containing the following provisions:

Solely as respect to services done by or on behalf of the named insured for the CITY of Moreno Valley, it is agreed that the CITY of Moreno Valley, the Community Redevelopment Agency of the CITY of Moreno Valley, and the Moreno Valley Community Services District, their officers, employees and agents are included as additional insured under this policy and the coverage(s) provided shall be primary insurance and not contributing with any other insurance available to the CITY of Moreno Valley, the Community Redevelopment Agency of the CITY of Moreno Valley, and the Moreno Valley Community Services District, its officers, employees and agents, under any third party liability policy

The terms of the insurance policy or policies issued to provide the above coverage shall neither be amended to reduce the required insurance limits and coverages nor shall such policies be canceled by the carrier without thirty (30) days prior written notice by certified or registered mail of amendment or cancellation to the CITY, except that cancellation for non-payment of premium shall require ten (10) days prior written notice by certified or registered mail. In the event the insurance is canceled, the TOW OPERATOR shall, prior to the cancellation date, submit to the Risk Manager new evidence of insurance in the amounts established.

H. Intellectual Property. Any system or documents developed, produced or provided under this Agreement, including any intellectual property discovered or developed by TOW OPERATOR in the course of performing or otherwise as a result of its work, shall become the sole property of the CITY unless explicitly stated otherwise in this Agreement. The TOW OPERATOR may retain copies of any and all material, including drawings, documents, and specifications, produced by the TOW OPERATOR in performance of this Agreement. The CITY and the TOW OPERATOR agree that to the extent permitted by law, until final approval by the CITY, all data shall be treated as confidential

MV00233785

and will not be released to third parties without the prior written consent of both parties.

I. Entire Agreement. This Agreement constitutes the entire agreement between the parties. There are no understandings, agreements, or representations of warranties, expressed or implied, not specified in this Agreement. This Agreement applies only to the current Proposal as attached. This Agreement may be modified or amended only by a subsequent written Agreement signed by both parties. Assignment of this Agreement is prohibited without prior written consent.

J. Suspension, Revocation and Termination. The CITY may suspend or revoke a TOW OPERATOR's permit as set forth in Chapter 12.14 of the Moreno Valley Municipal Code. In the event the CITY revokes the TOW OPERATOR's permit, this agreement with the TOW OPERATOR shall be terminated by giving at least ten (10) days written notice to the TOW OPERATOR. The written notice shall specify the date of termination. In the event the CITY terminates this Agreement for cause, the TOW OPERATOR shall perform no further work or service(s) under the Agreement unless the notice of termination authorizes such further work.

K. Recovery of City Administrative Fees and Costs. In accordance with California Vehicle Coded Section 12110(b) and in consideration of the CITY's granting of the right to tow, impound and store vehicles at the direction of the CITY pursuant to this agreement, each TOW OPERATOR shall pay the CITY for its actual and reasonable costs incurred in administering the agreement and operating a RTS Program. The administrative costs of operating a RTS Program to be recovered are, but not limited to, the following: developing a RFP and Agreement, issuance of permits, annual meeting, site inspections, DUI checkpoint coordination, correspondence with TOW OPERATOR, review of monthly reports, and enforcement of terms and conditions of the RFP, TOW OPERATOR's Proposal, and Chapter 12.14 of the Moreno Valley Municipal Code.

Prior to the beginning of service, the TOW OPERATOR shall deposit with the CITY $5,000 to cover the City of Moreno Valley's reasonably borne administrative costs (i.e., salary plus direct and indirect costs) of MORENO VALLEY POLICE DEPARTMENT and CITY personnel involved in operating the RTS Program. At such time the balance of the deposit is less than $500, the CITY shall notify the TOW OPERATOR in writing to replenish said deposit. If the TOW OPERATOR fails to replenish the deposit within thirty (30) calendar days from the date of the written notice, the CITY shall suspend the TOW OPERATOR from the RTS Program until the funds are received

MV00233786

by the CITY. If the TOW OPERATOR fails to replenish the deposit amount within sixty (60) days, this agreement with the TOW OPERATOR shall be terminated and removed from the RTS Program for the remainder of the contract period. Any outstanding CITY administrative fees are immediately due and payable.

L. Restrictions on CITY Employees. The TOW OPERATOR shall not employ any CITY employee or official in the work performed pursuant to this Agreement. No officer or employee of the CITY shall have any financial interest in this Agreement in violation of federal, state, or local law.

M. Choice of Law and Venue. The laws of the State of California shall govern the rights, obligations, duties, and liabilities of the parties to this Agreement, and shall govern the interpretation of this Agreement. Any legal proceeding arising from this Agreement shall be brought in the appropriate court located in Riverside County, State of California.

Mr. Diego Reveles
24417 Groven Lane
Moreno Valley, CA 92557

Subject: Residential Street Lighting Installation

Dear Mr. Reveles

This letter is being provided as a follow up to our conversation with you and Councilmember Molina regarding a request for new residential street lighting along a portion of Groven Lane.

Per your request, we have examined the section of Groven Lane, which runs approximately 1,015 feet east from the corner of Davis Street to the end of the cul-de-sac. There are 23 residential properties adjacent to this section of Groven Lane, which may benefit from the installation of streetlights. When new streetlights are installed in existing developments, the streetlight improvements are funded by the property owners whose properties benefit from the service. Each property owner pays an equal portion of the total installation costs along with the annual CSD Zone B charge for maintenance and operation costs on their property tax bill.

According to current City standards, new installations of residential and collector streetlights require they be installed approximately 150 feet (+/-20 feet) apart. Therefore this section of Groven Lane would require installation of an estimated 8 streetlights. Based on this number of streetlights, the installation, which consists of design, construction, and inspection costs are estimated to total $125,000.

Based upon the preliminary cost estimate, if you and other property owners in your neighborhood desire to have streetlights installed and agree to fund the costs of the installation (approximately $5,435 per parcel) and the CSD Zone B program charge, please submit a written request for a petition to:

City of Moreno Valley
Special Districts Division
P. O. Box 88005
Moreno Valley, CA 92552-0805

PUBLIC WORKS DEPARTMENT

Once the written request is received, we will prepare and send a petition for you to gather signatures among those property owners along this section of Groven Lane. A minimum of 6 property owner signatures (at least 25% of the 23 properties) is required on the petition to demonstrate support to proceed with a formal engineer's estimate and mail ballot proceeding.

In accordance with Proposition 218 legislation, property owners who are affected by any newly proposed property related charge must be given the opportunity to approve or reject the proposed charge through a mail ballot proceeding. If property owners approve by a simple majority of the valid ballots returned both the charge to fund streetlight installation costs and the annual charge for CSD Zone B services, a streetlight plan will be designed. Once the streetlight plan is reviewed and approved by the City Engineer and contract services are retained for installation of the streetlights, the improvements would be constructed.

Should you have any questions regarding this letter or the enclosed information, please feel free to contact the Special Districts Division office, Monday through Thursday from 7:30 a.m. to 5:30 p.m. at [redacted]

Sincerely,

Chris A. Vogt, P.E.
Public Works Director/City Engineer

February 2, 2010

Mr. Iddo Benzeevi
Highland Fairview Properties, LLC
14225 Corporate Way
Moreno Valley CA 92553

Dear Mr. Benzeevi:

I want to assure you, as I have stated a number of times during the past two months in which I have served in my current capacity, the City wants your projects to proceed successfully and as rapidly as possible. There has been several letters sent between our respective staff regarding the procedures involved in implementing the State and Local Partnership Program (SLPP) Grant and the projects requested by Highland Fairview. In order to eliminate any confusion on this important matter, I am taking this opportunity to advise you of the City's position on issues surrounding the requirements for implementing the SLPP projects and their attendant grants.

First of all, it is the City's position that SLPP projects must be administered by a Public Governmental Agency, such as a city or county. It is further the City's position that, pursuant to Government Code §8879.66 (G)(1), SLPP projects must:

1. Be publically bid.
2. Pay prevailing wages.
3. Be contracted by a Governmental Agency.

The SLPP Grant Guidelines require the City to have the necessary funds appropriated to the SLPP Grant project(s) prior to the beginning of construction. The Guidelines also state any and/or all SLPP Grant funds allocated to a project will be paid after the work is completed. There are a number of "reporting" requirements of the SLPP, in addition to the two previously mentioned, which will have to be adhered to in order to receive Grant funds.

It is understood that Highland Fairview and its retained legal counsel are of the opinion that a developer can construct, or contract for the construction of, the SLPP projects without public bidding or payment of prevailing wages; however, Highland Fairview has not provided the City with any legal authority supporting that position. Therefore, the

MV00233792

City must follow the requirements as it understands them so as to not jeopardize entitlement to the SLPP Grant proceeds.

With respect to the use of Development Impact Fees (DIF) to construct these projects, neither of the SLPP projects requested by Highland Fairview are designated as "funded" projects on the City's Capital Improvement Plan (CIP). In order to use DIF for either of these SLPP projects, the City Council would have to change the priorities of the CIP, identifying the two SLPP Grant projects as being "funded". Further, the amount of DIF Highland Fairview will pay is not sufficient to fund each SLPP project. It is important to note that the total amount of DIF identified in the program appears sufficient, the portions of Cactus and Eucalyptus Highland Fairview is proposing to construct only qualify for a portion of the DIF collected and are insufficient to cover the estimated cost of the projects. Therefore, portions of the SLPP Grant projects that are not funded by DIF are the cost of doing business in the City of Moreno Valley and the improvements are the financial responsibilities of Highland Fairview.

In addition, it is important to note that Highland Fairview is, by City Council policy, obligated to pay its DIF at the time a building permit is issued. If Highland Fairview wants to defer it DIF obligation until final inspection or Certificate of Occupancy, the City Council would have to amend its existing DIF policy regarding the priority of funds. With regards to the Cactus Avenue SLPP project (integral with the Aquabella Project), Highland Fairview is not obligated to pay DIF until building permits are issued. The Aquabella Project consists of approximately 3,000 homes to be constructed in 10 phases and could take considerable time to pull the permits and build out. These two facts further demonstrate the need to have the available cash to pay contractors for work performed in constructing the two SLPP grant projects. To accomplish this, either City must amend its CIP projects or Highland Fairview deposits with the City the necessary funds to construct the SLPP grant projects.

The use of DIF to fund these SLPP projects is further inhibited by Council Resolution No. 2008-104 dated August 26, 2008 (attached). Please note that the first priority for the use of DIF is to pay Bonded Indebtedness from a surplus above a two-year reserve fund and develop a fund for approved reimbursements from ten percent (10%) of the gross annual DIF collected. The City already has executed Reimbursement Agreements with developers worth over $2.5 million that provide for a priority of payment.

In summary, the City will proceed with implementing the SLPP Grant projects as follows:

1. The City is in possession of all the design and related documents.
2. The City publically bids the SLPP projects.
3. The City awards the contract(s) to the lowest responsible bidder(s).
4. Highland Fairview has provided the City with cash sufficient to pay for the construction of the projects, sufficient contingency, and administrative costs.
5. The City will be the contracting agency and will administer the project.

I am aware that Highland Fairview may not be in agreement with every conclusion included in this letter, but this is the City's current position on these matters. The procedures outlined in this letter are the procedures that the City will follow regarding the two SLPP projects requested by Highland Fairview.

In my opinion, a more practical and expeditious process that the City has already approved is the use of the City's $11 million allocation of Recovery Zone Facility Bonds (the "Bonds") for Highland Fairview's Skechers project. Using Moreno Valley's $11 million allocation in conjunction with $37 million of Riverside County's own Recovery Zone Facility Bond allocation will provide Highland Fairview with the capacity to issue a total of $48 million in Recovery Zone Facility Bonds. The City supports the use of these Bonds for Highland Fairview's projects, and in many ways believes it may be a preferred course of action. Highland Fairview may be able to use these Bonds and even benefit from the SLPP Grants. If Highland Fairview pursues the Bonds and wishes to benefit from the SLPP Grants, Highland Fairview should consult Legal Counsel to determine if Highland Fairview can pay its DIF obligations with Bond proceeds, and therefore be entitled to a SLPP Grant of $1 million. The payment of DIF from Bond proceeds may still be a "qualifying" uniform transportation mitigation fee as required by the Grant. In addition, $100,000 of this will go into the ten percent (10%) Developer Reimbursement Reserve as required by the Resolution described above. An agreement addressing the foregoing would need to be executed between the City and Highland Fairview if this option is pursued.

In conclusion, I have explained the City's position regarding the manner by which the City will implement the SLPP Grant projects. I have also tried to encourage Highland Fairview to consider the use of Recovery Zone Facility Bonds and have suggested a way for Highland Fairview to investigate, to perhaps benefit from the Bonds and the Grants.

The City is eager to see Highland Fairview's projects proceed as rapidly as possible. As I indicated in a previous letter, as soon as Highland Fairview initiates an application and/or decides how it wants to proceed with the SLPP Grant projects, the City will move as rapidly as resources allow. If things do not move satisfactorily after that, do not hesitate to call me with suggestions as to how the process may proceed more efficiently and effectively.

Sincerely,

William L. Bopf
Interim City Manager

RESOLUTION No. 2008 – 104

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA, CONCERNING THE PRIORITIZATION OF DEVELOPMENT IMPACT FEES (DIF) AND TRANSPORTATION UNIFORM MITIGATION FEES (TUMF) AND REPEAL RESOLUTION NO. 2006-19

WHEREAS, the City Council of the City of Moreno Valley, has adopted a Development Impact Fee (DIF) for the construction of local circulation improvements, including General Plan arterials, traffic signals, and freeway interchanges, and vital public facilities, and

WHEREAS, the City Council of the City of Moreno Valley, along with other jurisdictions in the Western Riverside County, has adopted a Transportation Uniform Mitigation Fee (TUMF) for the purposes of constructing major circulation improvements of local and regional benefits, and

WHEREAS, the City Council of the City of Moreno Valley, endeavors to manage these funds in a manner to provide the greatest possible benefits to the City.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

1. City Council Resolution No. 2006-19 is hereby repealed in its entirety.

2. DIF revenues shall be prioritized in the following manner: A) retirement of bonded indebtedness incurred for the construction of DIF eligible projects; B) a reserve to provide reimbursements to developers that build DIF eligible projects. The City will set aside ten percent (10%) of the gross DIF revenues collected each Fiscal Year in DIF obligation for developer reimbursements. The Financial and Administrative Services Department shall set these funds aside in conjunction with the issuance of the Comprehensive Annual Financial Report; and C) construction of DIF eligible projects

The current year DIF revenue and available DIF reserves and fund balance shall first be applied to current year debt service (principal and interest) of all DIF-related bonded indebtedness. Per City Council policy, a two-year debt service reserve shall exist and shall only be used in the event that current year DIF revenue pledged as the financing source for bonded indebtedness is insufficient to cover the current year debt service obligation. Should the reserve ever be exhausted to cover debt service and require the use of General Fund loans to cover annual debt service, the prioritization of DIF revenues shall then be: A)

MV00233796

loan repayment to the General Fund; B) replenishment of the two-year reserve; C) current year debt service; D) a reserve to provide reimbursements to developers to build DIF eligible projects; and E) construction of DIF eligible projects.

3. City staff is directed to monitor DIF credits and reimbursements that are issued by the City to assess their impact on the City's ability to allocate revenues for other City priorities.

4. To the maximum extent permitted by the TUMF program requirements, the City shall condition new developments to participate in the construction of TUMF network improvements in lieu of payment of TUMF. For projects that are jointly funded by TUMF and DIF, TUMF expenditures should be prioritized first.

5. As permitted under the TUMF program requirements, the City shall pursue the creation of financing districts that may allow a property owner, in lieu of payment of the TUMF, to participate in such a financing district for the following facilities: A) a regionally significant transportation improvement as defined as those facilities that typically are proposed to have six lanes at build-out and extend between multiple jurisdictions, or discrete usable segments thereof, as determined by Western Riverside Council of Governments (WRCOG); B) any interchange on an interchange on an interstate or state highway with an estimated construction cost of $10 million or more; and C) any bridge located on a regionally significant arterial.

APPROVED AND ADOPTED this 26th day of August, 2008.

William H. Batey II, Mayor

Applicant Review Panel
Citizens Redistricting Committee
Bureau of State Audits
555 Capital Mall, Suite #300
Sacramento, CA 95814

Dear Members of the Applicant Review Panel:

In the interests of good government for our State, I would like to express my support for the appointment of Michael McCoy of Moreno Valley, California, to the new Citizens' Redistricting Committee authorized by the voters of California at the 2008 election. It is my belief that a more sensible, community-based redistricting of our state must occur if our legislature is to become an effective organ once again that can resolve the urgent issues facing our State. Mr. McCoy would be a valuable asset in taking on this endeavor.

Mr. McCoy is a long-time resident of California who seeks to partner with other like-minded and qualified individuals on the Committee to carry out this mandate to properly redraw legislative district boundaries to better reflect existing governmental units, community cohesiveness and equitable representation of our State's many diverse interests. Specifically, Mr. McCoy would bring to the panel the following distinctive qualifications:

- Awarded a B.A. degree in Geography from Ohio State University, 1974, specializing in Urban Geography
- Experienced cartographer familiar with all aspects of map compilation and interpretation
- Experienced in applying demographic statistics that ensure equal representation
- Employment history focused on local government agencies, councils of government and mass transit agencies
- Has traveled extensively around the entire state and has visited nearly every city, town and county
- Supports inclusion of all of California's diverse peoples and is open-minded towards their views
- Active in community, fraternal, academic and professional organizations
- Retired from government service; available to devote considerable time to Committee duties

For the above stated reasons, I hope the Review Panel will look favorably upon Mr. McCoy's application package. He would bring a unique combination of government experience, mapping know-how, vast familiarity with our State's geography, and devotion to empowering as many components as possible of California's diverse communities.

If there are any questions, please do not hesitate to contact my office at 951.413.3008.

Sincerely,

Bonnie Flickinger

CITY OF MORENO VALLEY
Capital Improvement Plan - Project Details
FY 2009-2014 and Beyond

Project Title: Ironwood Avenue Improvements / Day Street to Barclay Drive

Department / Division: Economic Development Department / Capital Projects Division

Fund . Business Unit: : 892.80127 897.91727

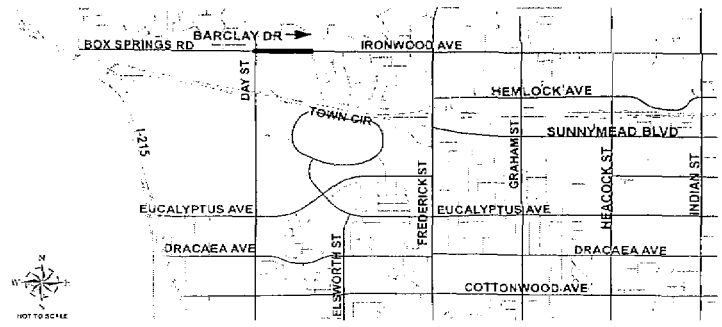
Project Status:
- ☐ New
- ☐ Delayed
- ☑ In Progress
- ☐ Deleted
- ☐ Completed
- ☐ On Hold

Project Priority in CIP Category
- ☑ Essential (Start within 1 yr)
- ☐ Necessary (Start within 1 to 3 yrs)
- ☐ Desirable (Start within 3 to 5 yrs)
- ☐ Deferrable (Start within 5 to 10 yrs)

Project Description:
This project will utilize RDA 2007 Tax Allocation Bond Funds and is eligible for TUMF funds to complete the design, environmental, right of way and construction of improvements on the south side of Ironwood Avenue from Day Street to Barclay Drive and traffic signal and inter-related improvements on Day Street at the Canyon Springs Plaza entrance and on Ironwood at Athens. The objective of this project is to provide additional eastbound lanes on the south side of Ironwood Avenue. The construction will also include curb, gutter, sidewalk, traffic signal modifications, storm drain improvements, and right-of-way acquisition.

Design: March 2009 to August 2009
Right-of-Way: Complete July 2009
Construction: February 2010 to July 2010

Project Location Map:



Justification or Significance of Improvement:
These improvements will mitigate traffic congestion by reducing travel time and fuel consumption.

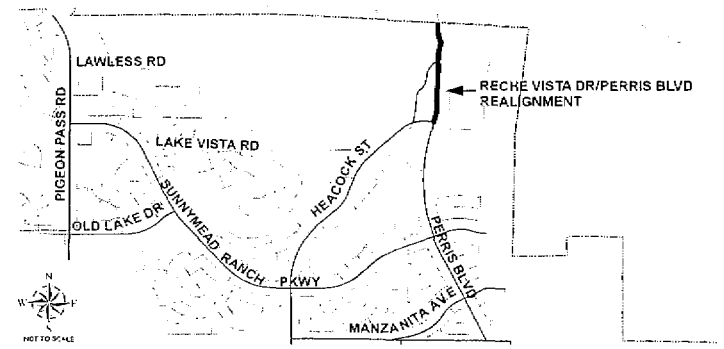
- ☑ Essential (Start within 1 yr)
- ☐ Necessary (Start within 1 to 3 yrs)
- ☐ Desirable (Start within 3 to 5 yrs)
- ☐ Deferrable (Start within 5 to 10 yrs)

Project Description:
The project will enhance transportation mobility and traffic safety, and extend a General Plan arterial roadway segment to the north City boundary where it will be joined by Riverside County's future completion of Reche Vista Drive / Reche Canyon Road CETAP Corridor project. This project will receive $1,967,000 in Federal funds as part of the STPL program. Approximately $500,000 in DIF Arterial Streets is redirected from savings realized in the Pigeon Pass Road Widening project.

Design/Environmental: Completed by September 2009
Right-of-Way: Completed by September 2009
Advertisement/Award: October 2009 to January 2010
Construction: February 2010 to September 2010

Project Location Map:



Justification or Significance of Improvement:
The project will enhance transportation mobility and traffic safety and extend a General Plan arterial roadway segment to the north City boundary.

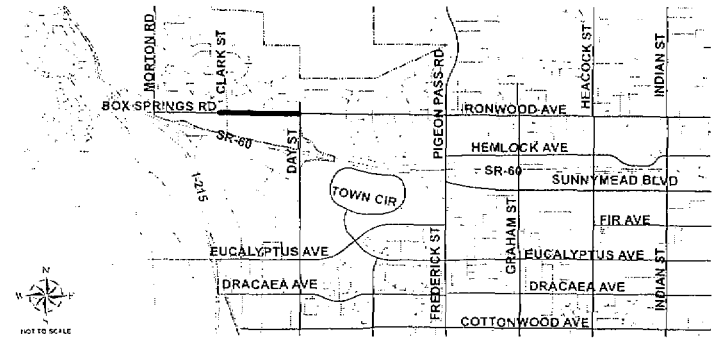
- ☐ Essential (Start within 1 yr)
- ☑ Necessary (Start within 1 to 3 yrs)
- ☐ Desirable (Start within 3 to 5 yrs)
- ☐ Deferrable (Start within 5 to 10 yrs)

Project Description:
This project utilizes FY 2008/2009 obligated TUMF funds for the PA&ED planning phase for the Box Springs Road improvements. The object of this project is to provide an additional eastbound lane on the south side of Box Springs Road. The construction will include curb, gutter, sidewalks, traffic signal modifications, storm drain improvements and right-of-way acquisitions. These improvements will mitigate traffic congestion by reducing travel time and fuel consumption.

PA&ED Completed: May 2009
Environmental clearance completed: April 2009
Design and construction on hold pending funding availability.

Project Location Map:



Justification or Significance of Improvement:
The improvements are of regional significance to the area and will mitigate traffic congestion within the region.

CITY OF MORENO VALLEY
Capital Improvement Plan - Project Details
FY 2009-2014 and Beyond

Project Title: Citywide Annual Pavement Resurfacing Program

Department / Division: Public Works Department / Capital Projects Division

Fund . Business Unit: : 125.56330 225.68722 226.79728 (125) (225) UNF

Project Status:
- ☐ New ☐ Delayed
- ☑ In Progress ☐ Deleted
- ☐ Completed ☐ On Hold

Project Priority in CIP Category
- ☑ Essential (Start within 1 yr)
- ☐ Necessary (Start within 1 to 3 yrs)
- ☐ Desirable (Start within 3 to 5 yrs)
- ☐ Deferrable (Start within 5 to 10 yrs)

Project Description:
The following 09-10 arterial, collector, and local streets are targeted for pavement rehabilitation based on the pavement condition index (PCI) and traffic data, and are subject to availability of funds in the program.
Arterials/Collectors: Based on Council's direction on 06/16/09, the bid proposal will be structured such that Kitching, Old Lake, and Indian/Manzanita-Sunny Ridge) will be constructed, with Alessandro/Old 215-Elsworth as bid Alt. A. Local Streets (pending receipt of 2009 Prop. 1B funds from State): Lakota/Oak Dell-Pahute; Kiowa Ct/Kiowa Dr-end; Kiowa Dr/Dracaea-Pahute; Baywood/Pan Am-Aqueduct Way; McDonnel/Bay-Adrienne; Courage/Bay-Alessandro; Allies/Courage-Pride; Boeing/Bay-Adrienne; Pride/Allies-Adrienne; Adrienne/Elsworth-Pride; Pan Am/Adrienne-Pahute; Harclare/Ironwood-Odessa; Odessa/Harclare-Gassen; Aaron/Harlcare-Gassen; Sunny Ridge/Indian-end; Summerfield/Indian-end; Sinaloa/Leahy-Indian; Singer/Leahy-Hanover; Old Country Rd/Sunnymead Ranch Pkwy east-Sunnymead Ranch Pkwy west; Fenton/Pleasant Run-Ironbark; Noblewood/Old County-Pleasant Run; Pleasant Run/Fenton-Old Country; Duckbill/Old Country-Manzanita and other applicable streets per the City's Pavement Management Program.
Schedule: July 2009 to June 2010

Project Location Map:

TO BE DETERMINED

Justification or Significance of Improvement:
Receipt of Proposition 1B monies for local streets is pending State budget issues. It is anticipated that the overall budget will be used as follows: $1.3 million for arterial street rehabilitation; $1.5 million for Phase 1 pavement rehabilitation (under Proposition 1B); and $965,000 for Phase 2 pavement rehabilitation. $765,000 of Measure "A" funds are being returned to fund balance for funding of the PROM Program.

CITY OF MORENO VALLEY
Capital Improvement Plan - Project Details
FY 2009-2014 and Beyond

Project Title: Box Springs Communications Site

Department / Division: Financial & Administrative Services Department / Purchasing & Facilities Division

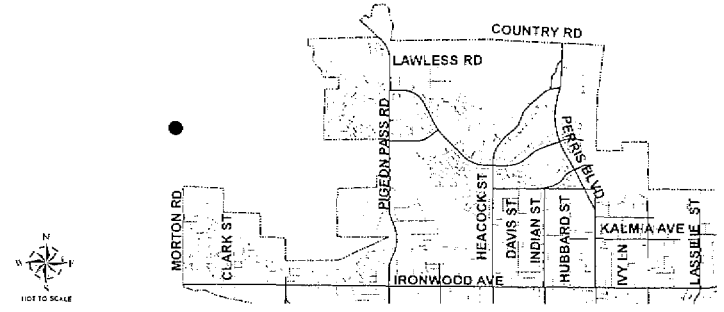
Fund . Business Unit: : 750.69021

Project Status:
- ☑ New
- ☐ Delayed
- ☐ In Progress
- ☐ Deleted
- ☐ Completed
- ☐ On Hold

Project Priority in CIP Category
- ☑ Essential (Start within 1 yr)
- ☐ Necessary (Start within 1 to 3 yrs)
- ☐ Desirable (Start within 3 to 5 yrs)
- ☐ Deferrable (Start within 5 to 10 yrs)

Project Description:
In FY 99/00, telecommunications installed six major microwave radio systems that support communications for voice, data, video and security systems. The current hub is located on leased tower space on Box Springs Mountain and is a major hub supporting 70% of the backbone communications from City Hall to Box Springs, City Yard, Library and Senior Center. This site also supports the Radio Amateur Civil Emergency Services repeater that serves as a relay for remotely linking voice, data, and video from mobile command posts in the field into the EOC during a major event or natural disaster. The objective for this project is for the City to secure a land lease from the County of Riverside Parks Department, construct a secure site that includes an equipment building, tower, backup generator and improved security that meet public safety essential services. Once completed, the City backbone communications equipment would be relocated to the new facility and would allow the City to expand with future technology needs without being at the mercy of American Towers. This would reduce our dependency on privately owned sites and annual cost increases.

Project Location Map:



Justification or Significance of Improvement:
The City's development and continuing day-to-day operations depend on this site. The current leased facility offers no financial guarantees, is extremely old, and is in disrepair. No schedule to update the building exists.

CITY OF MORENO VALLEY
Capital Improvement Plan - Project Details
FY 2009-2014 and Beyond

Project Title: Roof Replacements at Gateway and Westbluff Parks

Department / Division: Parks & Community Services Department / Community Services Division

Fund . Business Unit: : 461.68325 461.68325

Project Status:

- ☐ New
- ☐ Delayed
- ☑ In Progress
- ☐ Deleted
- ☐ Completed
- ☐ On Hold

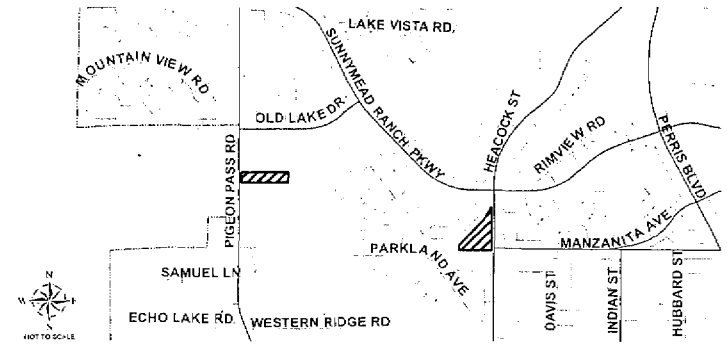
Project Priority in CIP Category

- ☑ Essential (Start within 1 yr)
- ☐ Necessary (Start within 1 to 3 yrs)
- ☐ Desirable (Start within 3 to 5 yrs)
- ☐ Deferrable (Start within 5 to 10 yrs)

Project Description:

These roofs are more than 18 years old and need to be replaced to prevent further damage to the restrooms. The City would replace the roofs with a standard standing seam roof, which has an approximate 50-year life. These sites also suffer deferred maintenance of the restroom interior and exterior, including lighting and fixtures to bring up to City standard.

Project Location Map:



Justification or Significance of Improvement:

This project will help to meet the demands fo the community.

Notice to Homeowners and Residents

The City of Moreno Valley is holding a community meeting to solicit input from residents regarding installation of multi-use sports field lighting at Shadow Mountain Park located at 23239 Presidio Hills Drive.

The park development plans and the proposed lighting of this facility were approved by the City of Moreno Valley in 2003. At the present time, staff is in the process of moving forward with the installation of the sports field lighting.

The community meeting will be held on Thursday, February 11 at 6:30 p.m. at Hidden Springs Elementary School Multi-Purpose Room, 9801 Hidden Springs Drive, Moreno Valley.

If you require additional information, please contact Lisa Smethurst, Executive Assistant, Moreno Valley Parks and Community Services, at [redacted] for questions concerning this notice.

Mr. Steve Rogers
820 Church Street
Redlands, CA 92374

Dear Mr. Rogers:

Pursuant to your request, the Mayor and I discussed your request and reviewed a series of e-mails, your letter of November 21, 2008, and the City Attorney's letter to you dated November 14, 2008.

The City Attorney's letter of November 14, 2008 also notes that your previous contacts and concerns were discussed with City Management and the City Council, and they unanimously rejected them.

You matter has been reviewed by all the relevant parties. The City's position remains, there is nothing further to discuss.

Respectfully,

William L. Bopf
Interim City Manager

Respectfully,

Bonnie Flickinger
Mayor

CITY COUNCIL
MORENO VALLEY
RECEIVED
10 JAN 27 PM 1:32

January 25, 2010

Mr. John Roebuck
U.S. Vets
15105 6th St.
Moreno Valley, CA 92518

Subject: Moreno Valley Veterans Memorial

Dear Mr. Roebuck:

On January 5, 2010, the Moreno Valley City Council adjourned in remembrance and honor of U.S. Marine Lance Corporal Omar G. Roebuck. On behalf of the City Council, staff, and residents of Moreno Valley, I want to express our deepest sympathy for your loss. America's servicemen and women are our best and brightest, and I know that your son served with honor under the most difficult circumstances.

In 2007 the City dedicated the Moreno Valley Veterans Memorial to honor those who have served in the armed forces. Located at the Moreno Valley Civic Center, 14177 Frederick Street, between the Conference and Recreation Center and the Public Safety Building, the monument features granite panels upon which the names of Moreno Valley soldiers killed in action are inscribed. The City would be honored to include Omar on the monument if that is your wish. Enclosed is the information regarding the Veterans Memorial, please contact the Parks and Community Services Department at [redacted] if you have any questions.

Sincerely,

Bonnie Flickinger
Mayor

CITY OF MORENO VALLEY

APPLICATION FOR NOMINATION FOR VETERANS MEMORIAL

The City of Moreno Valley is seeking nominations from the community for recognition on the Veterans Memorial, located at the Moreno Valley Civic Center, of servicemen and women *killed in action* (KIA). If you know of someone that you feel would be worthy of this honor, please complete the attached nomination form, provide any required documentation and forward to Moreno Valley Parks and Community Services Department at 14075 Frederick Street, Post Office Box 88005, Moreno Valley, CA 92552-0805.

Once nominations are received, the information will be submitted to the Review Committee for final approval.

For additional information, please contact Moreno Valley Parks and Community Services Department at [redacted]

VETERANS MEMORIAL REQUEST FOR RECOGNITION – KILLED IN ACTION

PURPOSE: To solicit from the community nominations for recognition at the Veterans Memorial, located at the Moreno Valley Civic Center, of servicemen and women killed in action (KIA).

POLICY:

I. Procedure for Submitting Names for Inclusion on the Veterans Memorial (Killed in Action):

A. Nomination form including full name, rank and branch of service; Report of Incident (provided by the military), birth certificate, Home of Record or proof of residency must be submitted to the City of Moreno Valley Parks and Community Services Department for consideration to be listed on the monument. *There is no charge to list KIAs on the Veterans Memorial.*

B. Once nominations are received, the information will be submitted to the Review Committee for review and approval.

C. Names will be added to the Veterans Memorial twice a year; just prior to Memorial Day and Veterans Day.

D. Only the Nominee Name, Rank and Branch of Service will appear on the Monument.

II. Nominee Qualifications:

In order for a deceased veteran to be nominated for inclusion on the Veterans Memorial, the Nominee must meet the following criteria:

A. Killed in Action as determined by the military. A certified Report of Incident, which is issued for all KIA by the military, must be submitted.

B. Died during a period of action/invasion/conflict. This includes the following, but is not limited to: World War I, World War II, Korea, Vietnam, Desert Storm, Enduring Freedom, Desert Shield, Somalia, Granada, Operation Just Cause, and Operation Iraqi Freedom. Friendly Fire is recognized as KIA (i.e., accidents such as helicopter or motor vehicle accident).

C. A certified Home of Record, birth certificate or proof of residence must list Moreno Valley, California. This includes the communities of Sunnymead, Edgemont, and Moreno prior to incorporation. Exception may be made if Nominee was born on March Air Force Base and attended Moreno Valley schools.

Nominee would be recognized on *pavers,* not the memorial, if one of the following applies:

- Nominee died while in the States and not during transportation to/from action, unless declared KIA by the military.
- Nominee died after conflict concluded.
- Nominee died from injuries sustained in conflict but died after returning to the States, unless declared KIA by military.

January 21, 2010

Mr. Iddo Benzeevi
Highland Fairview Properties, LLC
14225 Corporate Way
Moreno Valley CA 92553

Dear Mr. Benzeevi:

First let me congratulate you on reaching a settlement with the Sierra Club. Councilmember Richard Stewart reported this information at the Council's Study Session last evening, on January 19, 2010.

He also mentioned that you were pursuing the possibility of modifying a number of conditions applicable to the approval of the Highland Fairview Corporate Park Project and related matters. I have attached the minutes of the Project Review Staff Committee held on June 10, 2009. In addition, I have copies of e-mails indicating that since that meeting City Staff has worked on these with your staff through October of 2009. In those minutes a number of conditions you desire to modify were discussed. As indicated in those minutes some of those modifications will have to be approved by the Planning Commission and City Council.

In order for you to proceed with the modifications, you must initiate the appropriate requests through the Planning Division. As soon as you initiate this process, Staff will provide professional attention to your requests and advise you and your staff of all necessary steps that are required. Staff is not certain at this point of all the conditions you wish to modify; you can enumerate them in your application.

One other comment I will provide is the suggestion that you might want to confer with your environmental consultant regarding the modifications you are considering.

MV00233815

We look forward to receiving your application in the very near future. Staff will cooperate with you within the policies established by the City Council, and we certainly look forward to the successful completion of your project.

Sincerely,

William L. Bopf
Interim City Manager

CITY OF MORENO VALLEY
PROJECT REVIEW STAFF COMMITTEE
MEETING MINUTES

PA09-0013 (General Plan Amendment), P09-038 (Amended Map – Modification of Conditions), and P09-039 (Amended Plot Plan – Modification of Conditions)

The Project Review Staff Committee Meeting for this project was convened at 10:00 a.m. in Training Room. The following department and agency staff members were in attendance:

PRSC Meeting – June 10, 2009

John C. Terell – Planning
Mark Gross – Planning
Michael Lloyd – Transportation Division
Mark Sambito – Land Development
Stuart Sheldon – Special Districts
Tony Hetherman – Parks and Community Services
Denise Bagley – Economic Development

9:00 a.m.

I.	**Case No.**	**PA09-0013 (General Plan Amendment), P09-038 (Amended Map – Modification of Conditions), and P09-039 (Amended Plot Plan – Modification of Conditions)**
	Applicant:	**Highland Fairview**
	Owner:	**Highland Fairview**
	Representative:	**Wayne Peterson**
	APN:	**488-350-001 through 002 and 488-360-001 through 012.**
	Location:	**On the north side of Eucalyptus Ave., east of Redlands Blvd., west of Theodore Street and south of Highway 60**
	Proposal:	**A request to modify approximately 56 conditions of approval from the recently approved Highland Fairview Corporate Park Project and Tentative Parcel Map (PA07-0090) as well as Plot Plan (PA07-0091) to cover such items as the removal of Highway 60 landscape, providing an optional center median along Fir/Future Eucalyptus Avenue, removing a required multi-use trail along the project frontage along Fir/future Eucalyptus from Redlands Boulevard to Theodore Street, the deferral of development impact fees and the modification of conditions related to the dedication and improvement of public improvements. A General Plan Amendment is required for removal of any multi-use trail and center median.**
	RDA Area:	**No**
	Case Planner:	**Mark Gross**
	Status:	**First Review**

Planning Division Comments

General Comments

1. The comments provided in these minutes are based on current fees, ordinances, policies and conditions. Future changes could necessitate a modification of these comments.

2. The proposed General Plan amendment, modified map and plot plan include changes to approximately 56 original plot plan and map conditions of approval for the Highland Fairview Corporate Park Project (primarily including PA07-0090 and PA07-0091), which was approved by City Council on February 10, 2009. The modifications include the removal of Highway 60 landscape requirements to provide landscape along the freeway, a General Plan required multi-use trail, a landscape median along Fir/future Eucalyptus required pursuant to a General Plan amendment with the original project, the deferral of development impact fees until certificate of occupancy and various conditions of approval relating to the provision of public improvements.

3. Some of the items requested as modification of conditions of the original Highland Fairview Corporate Park Project consists of changes to the General Plan, specifically the removal of the multi-use trail and landscape median. Staff will be seeking input from affected committees regarding the proposal prior to scheduling before the Planning Commission/ and or City Council. The General Plan Amendment would require hearings before the Planning Commission and City Council.

4. At the request of the applicant, all proposed modification of conditions that do not require a General Plan Amendment can be brought forward to the City Council ahead of the items that require a General Plan Amendment. Additional fees for posting and noticing of the additional public hearing would be charged to the applicant.

5. The proposed removal of any landscape along Highway 60 is a requirement of the Highway 60 Corridor Design Manual, which has been incorporated by reference for all properties that contain freeway right of way. Any changes would require the approval of a policy change by City Council. Upon request by the applicant, this item can be provided at a separate public hearing before the City Council (see item above).

6. The proposed modification of the multi-use trail to the north side of Fir Avenue/future Eucalyptus from Redlands Blvd. to Theodore Street is a Parks and Community Services requirement that was originally approved by the Trails Committee and may need to be brought forward to that Committee before scheduling for public hearings. This item would require a public hearing before the Planning Commission and City Council (see Item No. 3 above).

7. The requested deferral of Development Impact Fees until Certificate of Occupancy has been previously approved by City Council for all new development projects and will apply to the Highland Fairview Corporate Park project should the project move forward during the timeframe of the City Council approval.

8. The request for dedication and improvement of public improvements includes conditions of approval that involve the Land Development Division and Transportation Divisions of Public Works in addition to some involvement on the part of Moreno Valley Utilities and will be addressed by those divisions/ departments. Upon request by the applicant, this item can be provided at a separate public hearing before the City Council.

9. The request for the option to construct the previously approved Eucalyptus Avenue median involves the Special Districts Division of Public Works and will be addressed by that department/division. This request requires a General Plan Amendment, and would require a public hearing before the Planning Commission and City Council (see item No. 3 above).

10. The modification of conditions appear to require an addendum to the recently approved and certified Environmental Impact Report (EIR). Items such as the removal of the multi-use trail and landscaped median along Fir/Future Eucalyptus could have an affect on studies (i.e. traffic study) included in the EIR and the overall document. It is recommended that the EIR consultant review the document and prepare information for the proposed addendum.

11. Pursuant the application form for a General Plan Amendment, a written explanation of the requested amendment and the reasons for the request, including the proposal's consistency with the goals, objectives, policies and programs of the General Plan is required to proceed with these items.

12. A modified plot plan is necessary to show any deletion of improvements, including any proposed removal of the multi-use trail and median along Fir/Future Eucalyptus Avenue.

13. Additional diagrams/maps shall be supplied by Highland Fairview that show all changes proposed to the General Plan.

14. All required application materials for General Plan Amendment related items necessary for a complete application shall be provided to staff prior to conducting any additional Project Review Staff Committee (PRSC) meetings beyond the first meeting and scheduling the items before Planning Commission and/or City Council.

15. In the April 14, 2009 letter to City Council, the Plot Plan modifications to conditions refer to P80 and PD81 through PD85 where improvements to public infrastructure are being requested on a fair share basis. As "PD" comments refer to "Police Department" and PD81 through PD85 do not exist, please clarify if these conditions are referring to Planning Division mitigation measures or Land Development conditions of approval.

16. As discussed at the Project Review Staff Committee (PRSC) meeting, Highland Fairview will be providing a letter to staff that clarifies the policy issues related to previous requests made in a letter dated April 14, 2009 to modify specific conditions of approval for the Highland Fairview Corporate Park project.

Building and Safety

Cc: Danette Fenstermacher; Brian Hixson; Mark Gross; Kyle Kollar; Rick Hartmann
Subject: RE: HFCP - Native American Monitoring Invitation

John...
I'll check with people here, but three of the five issues we originally raised have been resolved or deferred to the point where they will not impact the ability to get the project underway; the City has deferred impact fees to occupancy, HF will build the Eucalyptus median with the project, and the SR60 landscape issue has been linked to precise grading. The other two issues, trail construction and fair-share dedications, can be addressed later in the process. We do not see an urgency to bring these issues to the Council at this time.

Thanks John. We'll send the letter to the Tribal groups well in advance of a pre-grade meeting.

Regarding the Trails Committee, please be advised that Highland Fairview will not be pursuing the trails issue immediately and therefore will not need to schedule a discussion at the upcoming Trails Committee meeting.

Thank you for giving us the heads-up regarding the Committee's schedule changes.

Wayne:

We do not have any issues with the attached letter.

On a related issue, the next meeting of the Trails Board has been moved up to October 28th. We would need to know this week if HFP would want to be on this agenda to discuss the proposed revision to the trail conditions for the HFP Corporate Park. The next Trails Board meeting will not occur until next year. Please advise.

Thanks,

John

CITY COUNCIL
MORENO VALLEY
RECEIVED
11 SEP -1 PM 5:07

August 30, 2011

Mr. John R. Hawkins, Fire Chief
Riverside County Fire Department
Administrative Headquarters
210 West San Jacinto Avenue
Perris, CA 92570

Subject: Moreno Valley Fire Chief Steve Curley

Dear Chief Hawkins:

In his annual State of the City address last week, Mayor Richard Stewart specifically acknowledged Moreno Valley Fire Chief Steve Curley "for his dedication to providing public safety services with pride, integrity and professionalism." I wish to echo that sentiment and let you know that my administrative team and Chief Curley's peers on the Executive Team appreciate and respect him for all of his efforts on behalf of the Moreno Valley community.

The position of Fire Chief for a contract city is oftentimes a delicate balance in being responsive to the needs and desires of the City while being mindful of the County's mandate to provide excellent customer service in a cost effective manner. Please know that Chief Curley continues to lead our City Fire Department with a strong sense of community and loyalty which I believe is a unique quality in a contract employee. The City and County fire services partnership is a strong one, as evidenced by our recent letter of intent to extend the cooperative fire protection agreement for another three-year period. Chief Curley's effectiveness as a leader and his dedication to the City certainly play an integral part in our desire to continue this partnership.

Among the many recent efforts that I wish to commend Chief Curley for include:

- The successful planning, construction and operation of the City's new Emergency Operations Center;
- His assistance and input regarding the planning and design of the new Morrison Station scheduled to begin construction this Fall; and
- The fiduciary responsibility and attention to detail illustrated in the development and implementation of the City's 3-Year Deficit Elimination Plan. As you know, the City eliminated one of our three truck companies this Fiscal Year; while Chief Curley's disappointment with this decision was evident (and understandable), he handled this situation with the exemplary integrity and professionalism we have come to expect.

MV00233825

All too often we take outstanding employees for granted and I want to make sure that is not the case with regard to Chief Curley. Steve really does embody the Department's core values of Safety - Leadership - Integrity - Competence - Customer Service and as such I wanted to express our continued satisfaction with Steve's performance.

Sincerely,

Henry T. Garcia
City Manager

Starting a new job is quite demanding, but I did not want too much time to pass before acknowledging your commitment and service to the City of Moreno Valley. I extend my sincerest gratitude, and wish you success in your service to the City.

As my schedule allows I will plan to attend one of your meetings, and I look forward to meeting you then.

Sincerely,

Henry Garcia
City Manager

Community & Economic Development Department

MEMORANDUM

To: Mayor and City Council/Board of Directors of the Community Redevelopment Agency of the City of Moreno Valley

From: Michelle Dawson, Assistant City Manager

Date: December 22, 2011

Subject: TRANSMITTAL OF THE REDEVELOPMENT AGENCY'S FISCAL YEAR 2010/11 ANNUAL REPORT TO THE STATE CONTROLLER'S OFFICE

State Redevelopment Law (section 33080.1 of the Health & Safety Code) requires redevelopment agencies (RDAs) to submit annual reports to the State Controller's Office by December 31st of each year. The same reports are also to be submitted to each agency's Governing Board by this date, though no Board action is required.

Attached please find the following reports, which when combined are referred to as the "RDA Annual Report".

1. Fiscal Statement
2. Signed Cover Page of Statement of Indebtedness
3. Statement of Indebtedness Report
4. Audited Financial Report (2 copies)
5. State Controller's Report
6. HCD Report
7. Loan Report
8. Property Owned Report
9. Blight Report
10. Written Determination LMHF Planning & Administration Budget
11. Time limit for commencement of eminent domain proceedings with the project area

Name of Redevelopment Agency: City of Moreno Valley Redevelopment Agency

Project Area(s) Redevelopment Agency of the City of Moreno Valley

Fiscal Year 2010-2011

CALCULATION OF AVAILABLE REVENUES

AGENCY NAME Moreno Valley Redevelopment Agency

PROJECT AREA Moreno Valley Redevelopment Agency

TAX YEAR 2011-12

Reconciliation Dates: From July 1, 2010 to June 30, 2011

1.	Beginning Balance, Available Revenues	$ 12,745,821
	Adjustment made after SOI filed	
2.	Tax Increment Received - Gross All Tax Increment Revenues, to include any Tax Increment passed through to other local taxing agencies.	$ 17,614,795
3.	All other Available Revenues Received (See Instructions)	$ 405,223
4.	Revenues from any other source, included in Column E of the Reconciliation Statement, but not included in (1-3) above	$ 3,168,740
5.	Sum of Lines 1 through 4	$ 33,934,579
6.	Total amounts paid against indebtedness in previous year. (D + E on Reconciliation Statement)	$ 21,864,492
7.	Available Revenues, End of Year (5-6) **FORWARD THIS AMOUNT TO STATEMENT OF INDEBTEDNESS, COVER PAGE, LINE 4**	$ 12,070,087

NOTES:

9/30/2011

Tax Increment Revenues:

The only amount(s) to be excluded as Tax Increment Revenue are any amounts passed through to other local taxing agencies pursuant to Health and Safety Code Section 33676. Tax Increment Revenue set-aside in the Low and Moderate Income Housing Fund will be washed in the above calculation, and therefor omitted from Available Revenues at year end.

Item 4. above:

This represents any payments from any source other than Tax Increment OR available revenues. For instance, an agency funds a project with a bond issue. The previous SOI included a Disposition Development Agreement (DDA) which was fully satisfied with these bond proceeds. The DDA would be shown on the Reconciliation Statement as fully repaid under the "other" column (Col E), but with funds that were neither Tax Increment, nor "Available Revenues" as defined. The amounts used to satisfy this DDA would be included on line 4 above in order to accurately determine ending "Available Revenues".

INDEPENDENT AUDITOR'S REPORT

To the Honorable Chair and Members of the Governing Board
Community Redevelopment Agency of the City of Moreno Valley
Moreno Valley, California

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Community Redevelopment Agency of the City of Moreno Valley (Agency), a component unit of the City of Moreno Valley, California, as of and for the year ended June 30, 2011, which collectively comprise the Agency's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Agency's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Agency, as of June 30, 2011, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

We would like to draw the reader's attention to Note 9 – "California Redevelopment Agency Uncertainty". The note provides information on two bills passed, AB1X26 and 27 which dissolve redevelopment agencies effective October 1, 2011 and provide an option to avoid dissolution by making certain defined payments.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2011, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Agency's financial statements as a whole. The combining project area statements and computation of low and moderate income housing funds excess/surplus are presented for purposes of additional analysis and are not a required part of the financial statements. These are the responsibility of management and were derived from and relate directly to the underlying accounting and other records

MV00233847

used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The Agency has not presented a management's discussion and analysis that accounting principles generally accepted in the United States of America has determined is necessary to supplement, although not required to be part of, the basic financial statements.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND INTERNAL CONTROL OVER COMPLIANCE

To the Honorable Chair and Members of the Governing Board
Community Redevelopment Agency of the City of Moreno Valley
Moreno Valley, California

Compliance

We have audited the Community Redevelopment Agency of the City of Moreno Valley's (Agency) compliance with the California Health and Safety Code as required by Section 33080.1 for the year ended June 30, 2011. Compliance with the requirements referred to above is the responsibility of Agency's management. Our responsibility is to express an opinion on Agency's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Guidelines for Compliance Audits of California Redevelopment Agencies, June 2011*, issued by the State Controller and as interpreted in the *Auditing Procedures for Accomplishing Compliance Audits of California Redevelopment Agencies, August 2011*, issued by the Governmental Accounting and Auditing Committee of the California Society of Certified Public Accountants. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on redevelopment program has occurred. An audit includes examining, on a test basis, evidence about the Agency's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Agency's compliance with those requirements.

In our opinion, the Agency complied, in all material respects, with the compliance requirements referred to above that are applicable to the redevelopment program for the year ended June 30, 2011. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements that are required to be reported under *Government Auditing Standards*.

Financial Disclosure and Reporting

Redevelopment Agency Budget

Per Health and Safety Code section 33606, the Agency is to adopt a budget for the fiscal year which includes a work program and goals for the coming year. Upon inspection of the fiscal year 2010-11 budget it was noted that document did not include a work program and goals for the year.

LSL
CERTIFIED PUBLIC ACCOUNTANTS

To the Honorable Chair and Members of the Governing Board
Community Redevelopment Agency of the City of Moreno Valley

Affordable Housing

Planning and Administrative Expenditures

The agency is required annually by Health and Safety Code section 33334.3[d] to prepare a written determination showing that planning and administrative expenditures charged in the Low and Moderate Income Housing Fund were necessary for the production, improvement, or preservation of low and moderate income housing. Although a written determination was prepared for the fiscal year 2010-11, there has been no council action to receive and approve this finding as of our audit contact.

Internal Control Over Compliance

Management of the Agency is responsible for establishing and maintaining effective internal control over compliance with the compliance requirements referred to above. In planning and performing our audit, we considered the Agency's internal control over compliance to determine the auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses in internal control over compliance. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended for the information of management, the Audit Committee, and the California State Controller and it is not intended to be and should not be used by anyone other then these specified parties.

Community Redevelopment Agency
of the City of Moreno Valley

Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances of Governmental Funds to the Statement of Activities
June 30, 2011

Net change in fund balances of governmental funds	$ (27,548,138)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlay as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense.	(581,285)
Net book value of disposed assets.	(125,983)
Redevelopment projects that develop capital assets for the City of Moreno Valley are not recognized as assets of the Agency (construction in progress), but are reported as community development expenditures.	8,117,633
Repayment of principal on long-term debt consumes current financial resources of governmental funds, but does not have any effect of net assets in the statement of activities.	26,447,236
Accrued interest payable on long-term debt reported in the statement of activities does not require the use of current financial resources and, therefore, is not reported as an expenditure in governmental funds.	2,166
Proceeds of long-term debt is revenue in the governmental funds, but these are additions to the statement of net assets.	(2,397,749)
Revenues in the statement of activities that do not provided current financial resources are not reported as revenues in the statement of revenues, expenditures, and changes in fund balances. These revenues are reported as deferred revenue in the balance sheet of governmental funds.	237,520
Change in net assets of governmental activities	**$ 4,151,400**

See Notes to Financial Statements

MV00233856

Note 1: Organization and Summary of Significant Accounting

a. Policies Description of the Reporting Entity

The Community Redevelopment Agency of the City of Moreno Valley, California, is a component unit of a reporting entity that consists of the following primary and component units:

Reporting Entity:

Primary Government:

City of Moreno Valley
Component Units:

Community Redevelopment Agency of the City of Moreno Valley
Community Services District of the City of Moreno Valley
Community Facilities Districts No. 2 and No. 3
Towngate Community Facilities District No. 87-1
Moreno Valley Public Facilities Financing Corporation
Moreno Valley Public Financing Authority
Industrial Development Authority

The attached basic financial statements contain information relative only to the Community Redevelopment Agency of the City of Moreno Valley as one component unit, which is an integral part of the total reporting entity. They do not contain financial data relating to the other component units.

The Community Redevelopment Agency of the City of Moreno Valley (the Agency) was created by a City Council ordinance adopted on February 18, 1986. The Agency was established pursuant to the State of California Health and Safety Code, Section 33000, entitled Community Redevelopment Law. Its purpose is to prepare and carry out plans for the improvement, rehabilitation and redevelopment of blighted areas within the City of Moreno Valley (the City).

Governmental Accounting Standards define the reporting entity as the primary government and those component units for which the primary government is financially accountable. Financial accountability is defined as appointment of a voting majority of the component unit's board, and either: a) the primary government has the ability to impose its will, or b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government. Since the City Council of the City of Moreno Valley also serves as the Governing Board of the Agency, the City, in effect, has the ability to influence and control operations. Therefore, the City has oversight responsibility for the Agency. Accordingly, in applying the criteria of Governmental Accounting Standards, the financial statements of the Agency are included in the City's Comprehensive Annual Financial Report. There are no other entities that are considered to be component units of the Agency. The Agency has the same fiscal year end as the City and its financial statements can be obtained from the City Clerk.

MV00233857

Note 1: Organization and Summary of Significant Accounting (Continued)

b. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Major individual governmental funds are reported as separate columns in the fund financial statements.

c. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period, while grant revenues have an availability period of 120 days. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

MV00233858

Note 1: Organization and Summary of Significant Accounting (Continued)

The Agency reports the following major governmental funds:

The Project Capital Projects Fund accounts for the financing, construction and administrative activities of the Agency.

The Low and Moderate Housing Capital Projects Fund accounts for 20% of tax increment set aside for low and moderate housing activities.

The Debt Service Fund accounts for the accumulation of resources for the payment of interest and principal on long-term debt of the Agency.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed.

d. Assets, Liabilities and Net Assets or Equity

1. Investments

Investments for the Agency are reported at fair value. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

2. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds".

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are shown net of an allowance for uncollectibles.

Property tax revenue attach as an enforceable lien on property as of January 1. All secured personal property taxes and one-half of the taxes on real property are due November 1; the second installment is due February 1. All taxes are delinquent, if unpaid, on December 10 and April 10, respectively. Unsecured personal property taxes become due on the first of March each year and are delinquent on August 31. The County of Riverside bills and collects the property taxes, and remits them to the Agency in installments during the year. Property taxes received within 60 days after the Agency's fiscal year end are considered "measureable" and "available" and are accrued in the Agency's financial statements.

3. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

MV00233859

Note 1: Organization and Summary of Significant Accounting (Continued)

4. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the governmental activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than $5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Building and Improvements	5 - 50
Furniture and Equipment	3 - 15
Vehicles	3 - 10
Infrastructure	25 -50

In accordance with GASB Statement No. 34, the Agency is required to report general infrastructure assets.

Buildings are depreciated using the straight-line method over the estimated useful life of 50 years.

5. Deferred Revenue

The government reports unearned revenue on its combined balance sheet. Deferred revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the balance sheet and revenue is recognized.

6. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net assets.

7. Salary Expenditures

The Agency does not employ any personnel and relies on the City of Moreno Valley (City) for administrative services. The financial statements include expenditures for salary and other benefits, which were allocated to the Agency by the City.

MV00233860

Note 1: Organization and Summary of Significant Accounting (Continued)

8. Land Held for Redevelopment

   Land purchased for the purposes of resale (or contribution to a redevelopment project) is recorded at the Agency's cost to purchase the property or, upon entering into a contract for sale, the estimated net realizable value, if lower.

9. Fund Equity

   In the fund financial statements, government funds report the following fund balance classifications:

   Nonspendable include amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

   Restricted include amounts that are constrained on the use of resources by either (a) external creditors, grantors, contributors, or laws of regulations of other governments or (b) by law through constitutional provisions or enabling legislation.

   Committed include amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest authority, the Governing Board. The formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a minute action or a resolution.

   Assigned include amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. The Financial and Administrative Services Director is authorized to assign amounts to a specific purpose, which was established by the governing body in a resolution.

   Unassigned include the residual amounts that have not been restricted, committed, or assigned to specific purposes.

   When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Agency considers restricted amounts to be used first, then unrestricted. When an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, they are considered to be spent in the order as follows: committed, assigned and then unassigned.

Note 2: Stewardship, Compliance and Accountability

a. Budgetary Data

General Budget Policies

Budgets are legally adopted and formal budgetary integration is employed as a management control device during the year for all Governmental Fund types. From the effective date of the budget, the amounts stated therein as proposed expenditures become appropriations to the various Agency departments.

MV00233861

Note 2: Stewardship, Compliance and Accountability (Continued)

Reported budget amounts represent the original legally adopted budget as amended. The City Council, acting as the Agency Board, may approve amendments to the budget during a regular meeting, providing that sufficient monies are available and that expenditures of proceeds of taxes will not be increased beyond the constitutional appropriations limit as imposed by Article XIIIB of the State Constitution.

Individual fund budgets are, in all cases where appropriations are required, the same as the appropriation amounts. In the case of the Governmental Fund types, unexpended budgeted amounts, except for amounts relating to capital projects, lapse at the end of the budget year. Spending control for most funds is established by the amount of expenditures budgeted for each department within the fund, but management control is exercised at budgetary line item levels within the departments. Management can transfer budgeted amounts between operating programs, departments, or funds, provided that such transfers do not increase the overall budget. Appropriations that increase the budget require City Council, acting as the Agency Board, approval.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the governmental funds. Unexpended and unencumbered appropriations of the governmental funds automatically lapse at the end of the fiscal year. Encumbrances at year-end are a portion of the reserved fund balance and are reappropriated the following year.

Budget Basis Accounting

Budgets for governmental funds are adopted on a basis consistent with generally accepted accounting principles (GAAP).

Note 3: Cash and Investments

Cash and investments reported in the accompanying financial statements consisted of the following:

Cash and investment pooled with the City	$ 51,063,099

The Agency's funds are pooled with the City of Moreno Valley's cash and investments in order to generate optimum interest income. The information required by GASB Statement No. 40 related to authorized investments, credit risk, etc. is available in the annual report of the City.

MV00233862

Note 4: Notes and Loans Receivable

Notes and Loans receivable of $20,519,937 consisted primarily of loans and advances to developers for various projects. A summary of amounts owed to the Agency at June 30, 2011 follows:

Cottonwood Properties	$ 3,862,034
Rancho Dorado	5,550,000
Sheila Street Rehabilitation	2,651,875
Oakwood	2,250,000
RHDC Properties	1,866,557
CVHC	1,639,450
Ability First	824,917
Bay Family Apartments	755,000
Perris Isle	413,000
Others	707,104
Total	$ 20,519,937

Note 5: Capital Assets

A summary of changes in capital:

Depreciation expense was charged to functions/programs of the Agency as follows:

Governmental Activities:

Community development	$ 581,285

MV00233863

Note 6: Long–Term Liabilities

A description of the Agency's long-term liabilities outstanding is as follows:

Note Payable, Price Company

The Agency had recorded a long-term payable in the original amount of $2,433,744 under a development and disposition agreement and promissory note with Price Company for the reimbursement of costs of construction of a 130,000 square-foot-retail store. The note bears interest at 8% per annum and is payable solely from 50% of site-generated sales tax. Any remainder payable after September 2015 will be forgiven. The amount outstanding as of June 30, 2011 was $1,736,067.

Long-Term Liabilities to the City of Moreno Valley:

The Towngate Regional Mall notes (Sears Note), totaling $13,000,000, originated from a participation agreement (as amended) whereby the Agency acquired certain parcels within the mall for subsequent transfer to major tenants. The notes bear interest of 7.25% and are payable solely from available site-generated property tax increment and up to 50% of site-generated sales tax. Furthermore, the Agency had covenanted to use reasonable best efforts to refinance these notes with Tax Allocation Bonds, provided such financing is determined to be fiscally feasible. At June 30, 2011, accrued interest amounted to $2,200,727. During 2003-2004, the City purchased the rights to the notes from the holder. These amounts are now payable to the City and were previously reported in the Project Fund and are now reported as a long-term liability in the government-wide financial statements.

In 2005, the Agency purchased improved property from the City – the Conference and Recreation Center. The purchase price was $14,203,946. The loan note was $11,503,946 after the initial payment of $2,700,000. A subsequent principal payment of $29,124 was made in 2004-2005. The term is 20 years with 12% simple interest. The Agency will make partial interest only annual payments with a balloon payment due at the end of the term. At June 30, 2011, the outstanding principal and accrued interest balances are $11,474,822 and $6,596,258, respectively.

The Agency owes the City a total of $652,248 in future sales tax revenue for funds borrowed to finance redevelopment activities. $518,520 represents monies borrowed during 2006-2007 by the Agency. $133,728 represents monies borrowed during 2007-2008 by the Agency. The interest rate on the borrowings is 12% and repayment of the long-term payable is made when funds become available. At June 30, 2011, the outstanding accrued interest on these borrowings is $297,030.

In November 2007, the Agency issued 2007 Series B, Subordinate Taxable Tax Allocation Bonds in the original issue amount of $22,500,000. These bonds were purchased by the City of Moreno Valley, but were defeased in 2010-11.

A summary of amounts owed to the City at June 30, 2011 follows:

Borrowing Purpose	Principal	Interest
Towngate Regional Mall (Sears)	$ 13,000,000	$ 2,200,727
Conference and Recreation Center	11,474,822	6,596,258
Redevelopment	652,248	297,030
Total	$ 25,127,070	$ 9,094,015

MV00233864

Note 6: Long–Term Liabilities (Continued)

2007 Tax Allocation Bonds, Series A

In November 2007, the Agency issued 2007 Tax Allocation Bonds, Series A, in the original issue amount of $43,495,000 for the purpose of financing various redevelopment activities and other undertakings permitted under the Redevelopment Law, to fund a reserve for the bonds and to pay issuance costs. The bonds mature in serial and term fashion through August 1, 2038 and bear interest ranging from 3.5% to 5.0%. The bonds are subject to both optional and mandatory redemption prior to maturity beginning on August 1, 2017. The bonds are payable solely from Tax Increment Revenues and other funds and amounts pledged therefore pursuant to the Indenture. This issue is fully insured in the event of nonpayment by the Agency.

Year Ending June 30	Principal	Interest
2011-2012	$ 210,000	$ 2,043,484
2012-2013	220,000	2,034,884
2013-2014	230,000	2,025,884
2014-2015	230,000	2,017,259
2015-2016	235,000	2,009,121
2017-2021	1,290,000	9,898,475
2022-2026	6,415,000	9,204,840
2027-2031	10,040,000	7,187,818
2032-2036	13,655,000	4,261,125
2037-2041	9,950,000	762,500
	$ 42,475,000	$ 41,445,390

Annual maturities for certain balances of long-term debt have not been presented, as fixed maturities have not been established.

The following is a schedule of changes in long term debt of the Agency for the fiscal year ended June 30, 2011:

	Balance July 1, 2010	Additions	Deletions	Balance June 30,2011	Due Within One Year
Price Company Note	$ 2,023,648	$ -	$ 287,581	$ 1,736,067	$ -
City Loans - Principal	47,627,070	-	22,500,000	25,127,070	-
City Loans - Unpaid Interest	10,225,921	2,397,749	3,529,655	9,094,015	-
2007 Tax Allocation Bonds Series A	42,605,000	-	130,000	42,475,000	210,000
Total Long-Term Liabilities	$ 102,481,639	$ 2,397,749	$ 26,447,236	$ 78,432,152	$ 210,000

The deletions for City loans – unpaid interest includes $2,686,600 which was forgiven and does not appear in debt service principal payments on the statement of revenues, expenditures and changes in fund balances.

MV00233865

Note 7: Interfund Receivables, Payables and Transfers

Debt Service Requirements

The Agency has pledged as security for tax allocation bonds it has issued a portion of the tax increment revenue that it receives. These bonds were to provide financing for various capital projects. The Agency has committed to appropriate each year from these resources amounts sufficient to cover the principal and interest requirements on the debt. Total principal and interest remaining on the debt is $83,920,390 with annual debt service requirements indicated above. For the current year, the total tax increment revenue recognized by the Agency was $17,614,795 and the debt service obligation on the bonds was $2,180,284.

a. Advances to / from other funds

Funds	Advances Receivable	Advances Payable
Capital Projects Funds:		
Low and Moderate Housing	$ 3,386,697	$ -
Debt Service Funds:		
Tax Increment Fund	-	3,386,697
Totals	$ 3,386,697	$ 3,386,697

In June 2007, the Low and Moderate Income Housing Capital Projects Fund advanced to the Tax Increment Debt Service Fund $4,157,976 to finance the purchase of certain properties. Repayments will be made annually in an amount equal to 5% of the principal balance. Interest payments will be made annually based on the Agency's approximate average investment returns on monies. During the year, a principal payment of $178,247 was made. The outstanding balance as of June 30, 2011 was $3,386,697.

b. Transfers to / from other funds

Funds	Transfers In	Transfers Out	Net Transfers In (Out)
Capital Projects Fund:			
Administration	$ 595,863	$ -	$ 595,863
Total Projects and Administrations	595,863	-	595,863
Debt Service Fund:			
Tax Increment	-	(3,129,565)	(3,129,565)
2007 TABs Series A	2,185,030	-	2,185,030
2007 TABs Series B	348,672	-	348,672
Total Debt Service	2,533,702	(3,129,565)	(595,863)
Total Transfers In (Out)	$ 3,129,565	$ (3,129,565)	$ -

Transfers of $2,533,702 are eliminated in the consolidation of the debt service funds in order to arrive at the totals for the Statement of Revenues, Expenditures and Changes in Fund Balances, which provides net transfers in and out of $595,863. The detail shown above is displayed in the Combining Statement of Revenues, Expenditures and Changes in Fund Balances.

MV00233866

Note 7: Interfund Receivables, Payables and Transfers (Continued)

The Tax Increment Debt Service Fund transferred $595,863 to the Administration Capital Projects Fund to cover operating expenditures for the year.

The Tax Increment Debt Service Fund transferred $2,185,030 and $348,672 to the 2007 TABs Series A Debt Service Fund and the 2007 TABs Series B Debt Service Fund, respectively, to cover debt service expenditures for the year.

Note 8: Commitments and Contingencies

Riverside County Agreement

During December 1987, the City of Moreno Valley and the Agency entered into an agreement with the County of Riverside to reimburse the County for the portion of tax increment the County would have been allocated and paid had there not been a redevelopment project adopted in the City. The Agency receives these amounts up to $7 million annually. The County will receive all annual tax increment in excess of $7 million until the total increment reaches $12 million and half of annual tax increment in excess of $12 million. When total tax increment paid to the County under this agreement from increments between $7 million and $12 million reaches $75 million, tax increment in excess of $7 million annually will be split equally between the Agency and County.

During April 1988, the City of Moreno Valley and the Agency entered into an agreement with the Riverside County Flood Control and Water Conservation District (District) which specifies that the Agency shall receive 100% of the District share of the tax increment until such time the total tax increment exceeds $12 million at which time the District shall receive at least 50% of its share.

The Agency must annually demonstrate, on a project-by-project basis, that the cumulative project costs paid by the Agency for the project improvements exceed the cumulative total of District share received by the Agency. To the extent that the cumulative project costs paid by the Agency exceed the cumulative total of District share received by the Agency, the Agency will receive the balance needed from the remaining 50% of the District share.

Beginning in 2004-2005 the Agency's tax increment exceeded $12 million. The County deducts its proportionate share from the Agency's remittances. The amount retained by the County is included shown as a reduction in tax revenue, "pass through agreement payments" in the financial statements. An additional amount of $5,639,404 for pass through agreements that have not yet been remitted is included in Due to Other Governments.

Community Facilities District No. 3 Agreement

In conjunction with the issuance of the Moreno Valley Auto Mall Special Tax Bonds Series 2000 (Auto Mall Refinancing), the Agency and the City are parties to an owner participation agreement which provides that the Agency will transmit to the District the available property tax increment it receives on parcels within the District as a credit against the special parcel taxes that otherwise would be payable by the owners. Furthermore, the City has agreed to loan the Agency available sales tax generated within the District for payment directly to the parcel owners should the increment be insufficient to offset the special parcel taxes. In addition, the Agency has agreed to pay to the parcel owners, subject to certain restrictions, certain available surplus sales tax from within the District. The obligations to remit sales tax terminate by December 1, 2010.

MV00233867

Note 8: Commitments and Contingencies (Continued)

This agreement replaces a previous arrangement involving these parcels when they were included in Community Facilities District No. 2.

The amounts remitted during the year under the replacement and previous agreement to parcel owners totaled $ 105,800.

Community Facilities District No. 87-1 Agreement

In connection with the issuance of the Community Facilities District No. 87-1 (CFD) Towngate 2007 Special Tax Refunding Bonds, the Agency entered into an owner participation agreement whereby the Agency has committed tax increment for the payment of debt service requirements for these Bonds.

Self-Insurance

The Agency is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, and injuries to employees. The City of Moreno Valley established two self-insurance funds (internal service funds) to account for and finance its uninsured risks of loss. Under this program, the self-insurance funds provide coverage for up to a maximum of $300,000 for each workers' compensation claim and $250,000 for each general liability claim. The City purchases commercial insurance for claims in excess of coverage provided by the funds and for all other risks of loss. Settled claims in excess of coverage provided by the funds and for all other risks of loss. Settled claims have not exceeded this commercial coverage in any of the past three years. All funds of the Agency participate in the program and make payments to the self-insurance funds based on actuarial estimates of the amounts needed to pay prior and current year claims.

SERAF Shift

In July 2009, the California Legislature enacted ABX4-26 provides for a Supplemental Educational Revenue Augmentation Funds (SERAF). Redevelopment agencies are collectively mandated to place $1.7 billion in fiscal year 2009-2010 and $350 million in 2011-2012 The Agency's share of the SERAF for fiscal year 2010-2011 is $1,082,578. The California Redevelopment Association is continuing to be actively engaged in litigation to invalidate ABX4-26.

Note 9: California Redevelopment Agency Uncertainty

On July 18, 2011, the California Redevelopment Association ("CRA") and the League of California Cities ("League") filed a petition for writ of mandate with the California Supreme Court, requesting the Court to declare unconstitutional two bills that were passed as part of the 2011-12 State Budget, AB1X 26 and 27. AB1X 26 dissolves redevelopment agencies effective October 1, 2011. AB1X 27, give redevelopment agencies an option to avoid dissolution if it commits to making defined payments for the benefit of the State, school districts and certain special districts. In 2011-12, these payments amount to a state-wide total of $1.7 billion. In 2012-13 and subsequent years, the payments total $400 million, annually. Each city or county's share of these payments is determined based on its proportionate share of state-wide tax increment.

MV00233868

Note 9: California Redevelopment Agency Uncertainty (Continued)

CRA and the League contend that AB1X 26 and 27 are unconstitutional because they violate Proposition 22 which was passed by the voters in November, 2010. The effect of the legislation is to achieve a possible unconstitutional result, the use of redevelopment agencies' tax increment funds to benefit the State and other units of local government, by way of threatening of the dissolution of redevelopment agencies.

Therefore, the CRA and the League have requested that the Court issue a stay, suspending the effectiveness of AB1X 26 and 27 until the Court can rule on its constitutionality. CRA and the League also asked the Court to expedite the briefing and hearing of the case so that a decision can be rendered by the Court before January 15, 2012, when the first payments are due. On August 11th, the California Supreme Court agreed to hear the case and granted a partial stay which was subsequently clarified.

As of the time of the issuance of this report, the outcome of AB1X 26 and 27 upon the Agency is unknown and consequently the status and even future existence of the Agency is uncertain as such. In accordance with AB1X 27, the Agency has passed a resolution of intent to continue and will be required to make a payment to the State in the estimated amount of $6,122,305, by January 15, 2012 to avoid dissolution.

Note 10: Subsequent Events

Subsequent events are those events and transactions that occur after the end of the fiscal period but prior to issuance of the financial statements that are important for readers of the financial statements to be aware of. The Agency does not have any subsequent events to report.

Audit Information

Fiscal Year 2011

Was the Report Prepared from Audited Financial Data, and Did You Submit a Copy of the Audit?	Yes
Indicate Financial Audit Opinion	Unqualified
If Financial Audit is not yet Completed, What is the Expected Completion Date?	
If the Audit Opinion was Other than Unqualified, State Briefly the Reason Given	
Was a Compliance Audit Performed in Accordance with Health and Safety Code Section 33080.1 and the State Controller's Guidelines for Compliance Audits, and Did You Submit a Copy of the Audit?	Yes
Indicate Compliance Audit Opinion	Positive/Negative With Exceptions
If Compliance Audit is not yet Completed, What is the Expected Completion Date?	

If compliance opinion includes exceptions, state the areas of non-compliance, and describe the agency's efforts to correct.

No work program or goals for the year were documented with FY 11 budget. These were added to fiscal year 2011-12 budget.

No council action to receive and approve FY 11 written determination. Will be adopted at next Council meeting.

Redevelopment Agency of the City of Moreno Valley
Blight Report
FY 2010-2011

Redevelopment Agency staff continues to work on projects in order to alleviate or eliminate blighting conditions within the project area as well as areas within the boundary of the redevelopment.

Redevelopment Capital Projects including Tax Allocation Bonds (TABS) Projects:

- Day Street Improvements - Phase 1 of the project improved Day Street from Alessandro Boulevard to Cottonwood Avenue; Sherman Avenue from Day Street to west of Noltze Street; and Bay Avenue from Day Street to Noltze Street. Phase 1 was completed in April 2011. Phase 2 will address needed street and drainage improvements on Day Street south of Cottonwood Avenue

- Auto Mall Upgrades - This project will construct roadway improvements at the Moreno Valley Auto Mall including replacement and construction of entrance signs, and freeway pylon sign.

- Indian Basin, Appurtenant Storm Drain & Misc Improvements - The project consists of the construction of Storm Drain Line H along Ironwood Avenue from Heacock Street to the Indian Detention Basin. The improvements collect and slow the flow of floodwaters thereby protecting the surrounding area and neighborhoods located to the southeast. The project is also completing street improvements on the south side of Ironwood Avenue between Heacock Street and Nita Drive. The project is also completing storm drain Line H-1A from the Indian Detention Basin to Hubbard Street. Carryover funds are for 1-year warranty conformance.

- Ironwood Improvements/Day to Barclay - The project has been separated into two phases - Phase 1: Ironwood Avenue - Day Street / Barclay Drive; Phase 2: Day Street - North of SR-60. Phase 1 work will utilize RDA 2007 Tax Allocation Bond Funds and is eligible for TUMF funds to complete the design, environmental, right of way, and construction of improvements on the south side of Ironwood Avenue from Day Street to Barclay Drive. The

MV00233914

objective of this project is to provide additional eastbound lanes on the south side of Ironwood Avenue. The construction also includes a 24"" water mainline in Ironwood Avenue from Day Street to east of Athens Drive. The work will include curb, gutter, sidewalk, traffic signal modifications at Day Street, storm drain improvements, utility relocations, right of way acquisition, and a new traffic signal at Athens Drive. Phase 2 work consist of design and related street improvements of a new traffic signal on Day Street at the Canyon Springs Plaza entrance.

- SR 60/Moreno Beach (Phase 1) - The project consists of the reconfiguration of the two eastbound ramps (on- and off-ramps) to SR-60, the addition of an eastbound auxiliary lane, connection of Eucalyptus Avenue (west leg) to Moreno Beach Drive, addition of a traffic signal at the eastbound ramps/Moreno Beach Drive intersection, associated utility relocations, and related improvements. The improvements are considered Phase 1 of the ultimate interchange improvements.

- Fire Station 99 (Morrison Park FS) - The Morrison Park Fire Station project includes the design and construction of an essential facility. The new fire station will be constructed on a 1.5 acre site that is currently available and owned by the City.

- SR 60/Nason Bridge - This project will replace the existing SR-60 / Nason Street two-lane bridge with a four-lane bridge, complete the Nason Street improvements, install a soundwall along Elder Avenue, and construct associated work.

- Day Street Widening / Eucalyptus Avenue to 660 Feet North - This project will widen Day Street on the easterly side from Eucalyptus Avenue to 660 feet north. Roadway improvements include construction of curb, gutter, paving of the third northbound lane, drainage modification, and a signal modification at the northeast corner of Day Street and Eucalyptus Avenue. This project will provide matching funds for the SB 821 grant award for Citywide Sidewalks and Access Ramps.

- Storm Drain Improvements on Day Street South of Cottonwood Avenue - This project would include the design and construction of a storm drain system to capture flows from Day Street south of Cottonwood Avenue.

MV00233915

Housing Development Projects

a. Oakwood Apartments: The 241-unit Oakwood Apartments project is now completed. The RDA committed $3,000,000 in financial assistance. $2,250,000 was disbursed during the final stages of construction, and $750,000 will be disbursed at the achievement of stabilized occupancy.

b. Rancho Dorado Housing Project: The RDA committed a total of $4,750,000 to the first phase of the 150 unit affordable apartment project to be developed by Palm Desert Development Company. The project will be constructed in two phases, with 15 units reserved as permanent supportive housing for formerly homeless people. Construction of the first phase - which consists of 79 units, including a manager's unit - is complete. The first phase has reached stabilized occupancy, and was fully funded March 2011.

c. Hemlock Family Apartments: The RDA committed a total of $6,300,000 in financial assistance to the 78 unit affordable apartment project, including a manager's unit, to be developed by Rancho Belago Developers, Inc. The project is anticipated to begin construction in early 2012.

Redevelopment Agency of the City of Moreno Valley Low and Moderate Housing Planning & Administrative Fund

June 30, 2011

Subject: Fiscal Year 2010/2011 Redevelopment Agency Low and Moderate Housing Planning & Administration Budget

Pursuant to California Health and Safety Code Section 33334.3 (d), The Redevelopment Agency of the City of Moreno Valley Low and Moderate Housing fund for fiscal Year 2010/2011 is used for the production, improvement, and preservation of low and moderate income housing within the City of Moreno Valley.

Findings:

1. The planning & administrative expenses are necessary to improve and increase the supply of affordable units, through the development of first-time homebuyer, and rehabilitation programs for income-eligible home buyers/home owners.

2. The planning & administrative expenses are necessary for the planning and execution of new construction, acquisition, and redevelopment of affordable housing units, to be made available to income-eligible residents.

3. The planning & administration expenses are necessary for the managing and monitoring of affordable units secured by the Agency to ensure that they remain available, as affordable units, and that the units are in compliance with the required covenants.

State Controller's Report
Redevelopment Agency of the City of Moreno Valley
Time limit for commencement of eminent domain proceedings
with the project area Report
FY 2010-2011

The Redevelopment Agency of the City of Moreno Valley's limits for commencement of eminent domain has expired.

MEMORANDUM

To: Mayor and City Council
Henry T. Garcia, City Manager

From: Mike McCarty, Director of Parks and Community Services

Date: December 6, 2011

Subject: Parks and Community Services Monthly Update

SPECIAL EVENTS

Adopt-a-Pet at the Park was held on December 3 at Moreno Valley Community Park. In cooperation with the Moreno Valley Animal Shelter and the Parks and Recreation Commission, staff is happy to report that 11 dogs were adopted to loving homes and other families were encouraged to go the Animal Shelter for animals that can be adopted.

On December 8 the Moreno Valley Wind Symphony will be performing their annual holiday concert. The doors open at 6:30 p.m. and the concert begins at 7:00 p.m. Admission is free and the event is open to the public.

Santa Live was held on December 5 from 5:30 to 7:00 p.m. Children called Santa with their list or just to say "Hi." Santa asked trivia questions and gave out prizes for correct answers.

Breakfast with Santa is scheduled for December 10 from 9:00 a.m. to 11:00 a.m. at the Conference and Recreation Center for children ages 2 to 12 years. Children can enjoy a morning of games, crafts, breakfast, and a special visit from Santa. Pre-registration is required. Resident fee is $6 and non-resident fee is $8.

The Junior Chef's Holiday Workshop is scheduled for December 13 at the TownGate Community Center from 6:00 p.m. to 8:00 p.m. for children ages 4 to 12 years. The children will learn to make some fantastic holiday treats. There will be recipes and taste test of all treats made.

The Holiday Craft Session will be held at TownGate Community Center on December 15 from 6:00 p.m. to 8:00 p.m. for children ages 4 to 12 years. Children will enjoy making crafts that can be given as gifts. Resident fee is $8 and non-resident fee is $10.

PARK PROJECTS

1. March Field Park Soccer Arena

Project Description: Installation of synthetic turf on the concrete surface of the existing hockey rink. The hockey rink has not been utilized for years. Converting the hockey rink to arena soccer will provide the City another lighted soccer field as well as added revenue from the concession.

Status: Staff is waiting for an updated CMAS contract from the turf company so a contract can be reviewed. The project is planned for completion by June 2012.

2. Replacement Play Equipment at Ridgecrest, Gateway and Sunnymead Parks

Project Description: The playground equipment at these sites is outdated, not meeting current safety codes. The project will bring the play equipment up to current standards for safety and ADA.

Status: The project is in progress. Sunnymead Park has been completed and is open for use. Gateway Park and Ridgecrest Park are scheduled for completion by mid December.

3. Lasselle Sports Park

Project Description: This developer constructed (no cost to the City) project is 12¾ acres. Amenities are to include: restroom and concession, three turf football/soccer fields with natural turf, security lighting, picnic facilities, play apparatus and parking for approximately 200 vehicles.

Status: The developer is in the process of obtaining required permitting from the Department of Water Resources, EMWD, and the City. Completion of the project is planned for fall/winter 2012/2013.

4. Cell Tower at Cottonwood Equestrian Station

Project Description: An application by T-Mobile for a 50' monopine cell tower has received a conditional use permit.

Status: The applicant is working on a Telecommunications License Agreement.

PARKS MAINTENANCE DIVISION

1 Projects Completed

- Fertilized all parks.
- Overseeded Community Park sports fields.
- Aerated and sanded greens, repaired main line breaks at golf course.
- Sprayed and weeded all parks.
- Replaced dead African Sumac at City Hall.

MV00233920

2. Projects in Progress

- Repair and replant parking lot planter at Bethune Park.
- Trim palms at various park sites.
- Trim trees in contract areas *(75% complete)*.
- Repair east parking lot at Morrison Park.
- Install drainage V-ditch at Gateway Park.
- Install monument sign at Ridgecrest Park.
- Plant trees at Sunnymead Park.
- Clean storage area at golf course *(75% complete)*.
- Trim shrubs at all parks *(75% complete)*.
- Replace oak tree at CRC.
- Repair gate at Celebration Park *(75% complete)*.
- Repair drain on north side of golf course building.
- Aerate Celebration, Vista Lomas, Shadow Mountain and Towngate II Parks.
- Trim Rockridge and Patriot Parks.
- Winterize the water feature at Celebration Park.

3. Vandalism/Graffiti Damage

Vandalism and graffiti have been reported at the following areas for November: Aqueduct Bikeway ($634), Bayside ($86), Bethune ($77), Celebration ($25), Community ($288), Cottonwood Staging Area ($24), El Portero ($192), Fairway ($43), Gateway ($24), JFK ($406), Morrison ($71), Rockridge ($65), Sunnymead ($200), TownGate ($1,707), Victoriano ($200), Weston ($85), and Woodland ($158). The total cost for vandalism/graffiti was $4,285. Total labor hours for vandalism/graffiti were 90 ½ hours, approximately 11 full-time work days.

4. Park Volunteers

Court referrals performed a total of 306 hours during November. The total hours for court referrals in 2011 are 8,957, which equates to approximately 1,120 full-time work days.

RECREATION DIVISION

1. Recreation and Sports

November was a busy month for the Time for Tots program. For the month, there were more than 255 children ages 3 to 5 years registered. In addition to the fall themed educational curriculum, November also featured special activity days such as Culture Day, Election Day, Crazy Hair Day, and the annual Thanksgiving Feast.

Staff are preparing for the Time for Tots Annual Winter Celebration to be held at the Conference and Recreation Center on December 7 from 6:00 p.m. to 8:00 p.m. The children will perform three holiday classic carols and receive a special visit from Santa Claus, who will assist with the gift exchange.

MV00233921

Staff and selected dance contract instructors are preparing for the Annual Winter Contract Class Performance. This musical event will be held on December 15 from 6:00 p.m. to 8:00 p.m. at the Conference and Recreation Center and will feature performances from many of the youth dance classes.

The Fall Valley Kids Camp was held November 21 through November 23 and saw an increase in registration compared to years past. Attending children spent their vacations from school creating holiday and seasonal crafts, playing fun-filled games and activities, and much more. Staff are preparing for the upcoming winter camp at the March Field Park Community Center from December 19 through January 6. December and January are sure to be exciting at Valley Kids Camp.

2. Senior Community Center

On November 18 the Center held its Holiday Craft Fair from 9:00 a.m. to 12:00 noon. There were approximately 30 vendors in attendance and more than 300 visitors to the fair, where various holiday items were available for purchase.

On November 22 the organization "Meeting Seniors' Needs" sponsored a barbecue for the seniors in which they were served hot dogs and hamburgers.

On November 28 free flu shots were offered for seniors 65 and over. This was sponsored by Synermed.

The November Senior Birthday Party was celebrated on December 1 at 12:00 noon. This event was sponsored by the Friends of Moreno Valley Senior Center, who provided a free meal and a box of candy. Miller Jones Mortuary donated the cake and ice cream.

A trip to New York New York in Las Vegas was held on November 5-6 for $55 per person which included two free buffets

There were trips to Spotlight 29 Casino on November 11 and November 29. Cost was $25 per person with $25 free play.

A three-day trip to Laughlin was held on November 20-22. Cost was $65 per person based on double occupancy and included one free buffet.

SENIOR CENTER CLASS SPOTLIGHT

We give thanks to our Senior Center Volunteers

Dolores Mollie– Ceramics Painting Instructor

Dolores has been volunteering for over 30 years in various community settings. 12 of those years have been spent with the wonderful seniors in our center. Dolores brings the supplies and items to be painted to each class. She teaches wonderful techniques on appliqués and brush technique. New students are always welcome because her teaching style is on a person to person basis. Paint anything from cookie jars, statues, jewelry boxes and more. They make wonderful presents. Join her class just in time for the Holidays. Imagine how much a loved one would like a handmade item made especially by you.

Greetings from the Creative Writing Class at the Moreno Valley Senior Center. Do you have memories, wit and wisdom you would like to share with family and friends? Come join the class, share those memories, stimulate your imagination and tap into your creative well.

Below is a poem written by one of our class members. Our class meets every Tuesday from 10:00 a.m. to 11:00 a.m.

YULETIDE
By Anna Chase

Yuletide time is here at last
Bringing joy to lad and lass

The smell of cookies hot and spicy
Windows glowing white and icy
Candy canes and mistletoe
Laughter everywhere you go

Trees all trimmed with homemade treasures
Gifts of love that can't be measured
Lie beneath the Yuletide tree
Gaily wrapped for all to see

Tables laid with holiday fare
A feeling of love is in the air
All the family gathered there
Join their hands and say a prayer

Thank us all for one another
Dad and Mom, Sis and Brother
Close friends, the kids, the family pup
All the love that fills our cup
With wine that has the sweetest flavor
Why can't this spirit last forever?

Audrey Trice—General Volunteer

Mrs. Audrey has been a member of the senior center since the Ribbon Cutting Ceremony that inaugurated our center on March 6, 1993. We kindly refer to her as "Sugar Mama" for the tough love resemblance of a comic character from *The Proud Family* cartoon. She is always available to help the front desk or handing out bread donations. She lives for her family, her friendships, and the senior center and that is why we are privileged to be acquainted with such a wonderful human being.

Administration

MORENO VALLEY
WHERE DREAMS SOAR

MEMORANDUM

To: Mayor and City Council

From: Michael McCarty, Director of Parks and Community Services

Date: November 9, 2011

Subject: Winter Holiday Special Events

On behalf of the Parks and Community Services Department, I would like to invite you to attend our annual Winter Holiday Special Events, which will take place in early December.

Santa Live, viewed on MVTV-3, is to be held at the City of Moreno Valley Council Chambers on Monday, December 5, at 5:30 p.m. Santa Live on MVTV-3 provides a wonderful opportunity for local children to telephone Santa Claus at 951.413.3059 and give him their holiday wish list or even to just say hello. Santa will also ask trivia questions, providing prizes for the correct answers.

Breakfast with Santa will take place on Saturday, December 10, at 9:00 a.m. at the Conference and Recreation Center. Breakfast with Santa features games, crafts, and a delicious breakfast (prepared especially for them), and a special visit from Santa for children 2 to 12 years of age. Last year's event hosted more than 80 local children, and we anticipate an increased turn-out this year.

If you are planning to attend either event, please RSVP with Lisa Smethurst at extension 3701 by Monday, November 28. We would like to thank you for your continued support and look forward to seeing you at this year's events!

c: Rudy Rodriguez, Recreation Program Coordinator
Cecilia Gonzales, Community Services Supervisor

MEMORANDUM

To: Mayor and City Council
Henry T. Garcia, City Manager

From: Mike McCarty, Director of Parks and Community Services

Date: November 8, 2011

Subject: Parks and Community Services Monthly Update

SPECIAL EVENTS

"Easel on Down" to Art in the Park: Artists are invited to display their work and paint in the park. Artists are encouraged to bring two to five completed works of art for the public to view. "Easel on Down" will take place from 10:00 a.m. to 2:00 p.m. the second Saturday throughout the year at Ridgecrest Park, 28506 John F. Kennedy Dr. For more information contact Commissioner Lauretta R. Phillips at 951.247.4848 or email tagofmv@live.com or Moreno Valley Parks and Community Services at 951.413.3280.

Artober Fest: The 4th annual Artoberfest was held October 22 at the Conference and Recreation Center. This free family-oriented day-long event was sponsored by the Moreno Valley Arts Commission and the Department of Parks and Community Services. This exciting festival attracted more than 1,300 spectators. It featured more than 300 performers on three different staging areas. In addition, more than 35 artists and crafters featured booths to showcase their artwork. Numerous types of art were represented, including photography, pottery making, jewelry, oil and water color artists, sculptors, etc. Several artists painted during the day, with artist Jim Cox providing a special painting demonstration. Throughout the day, door prizes were awarded, and a silent auction was held which included items donated by local businesses as well as paintings donated by the artists attending the festival.

The City of Moreno Valley is currently accepting applications from artists to display their artwork through a new Art Loan Policy adopted by City Council earlier this year. The City's Arts Commission will review all works of art submitted for exhibition. The commission will judge the appropriateness of each piece based on common sense and an eye for family-friendly works. The policy allows works strictly from artists, living or dead, connected to Moreno Valley through residency, work or birth. The primary points of the policy include:

- The City's Arts Commission will review all works of art submitted for exhibition at a city facility. They will then make a recommendation to the City Manager who will have the final authority to approve all artwork prior to being loaned to the City for display.

- All artists will need to reside, work, or have been born in Moreno Valley. These requirements also apply to works of art submitted by family members of deceased artists.
- Works of art that are deemed too large or difficult to display, contain materials which are inherently dangerous or unstable, or are made out of materials that may decay if not kept displayed in the optimum environmental conditions will not be displayed.
- The Arts Commission will evaluate each work of art for quality, style, the type of media the artwork is displayed on, the nature of the artwork, and diversity in order to make a recommendation to the City Manager for all exhibits at city facilities.

The deadline for submittal is December 8. Art pieces will be displayed January 1-March 31. Applications are available at http://www.moval.org. For more information contact Moreno Valley Parks and Community Services at 951.413.3280.

Pet in the Park Adoption Day: Come and visit with the various animals from the Moreno Valley Animal Shelter available for adoption. The new pet addition to your family may be there! Scheduled for December 3 from 9:00 a.m. to 1:00 p.m. at Moreno Valley Community Park, 13380 Frederick Street at Cottonwood Avenue. *In the event of rain, the alternate date will be scheduled for December 10. For more information call 951.413.3280.

Santa Live: Children can talk to Santa by calling [redacted] on December 5 from 5:30 to 7:00 p.m. Children can give Santa their list or call just to say "Hi." Santa will be asking trivia questions and giving out prizes for correct answers.

Breakfast with Santa: Drop your child off for a morning of games, crafts, breakfast, and a special visit from Santa. Pre-registration is required. Event will be held at the Conference and Recreation Center on December 10 from 9:00 a.m. to 11:00 a.m. for ages 2 to 12. Resident fee is $6 and non-resident fee is $8.

Holiday Craft Session: Can't figure out what to get your family and friends for the holiday? Sign up for our holiday craft session and make something special to give as a gift. The craft session is held at TownGate Community Center on December 15 from 6:00 p.m. to 8:00 p.m. for ages 4-12. Resident fee is $8 and non-resident fee is $10.

PARK PROJECTS

1. March Field Park Soccer Arena

   Project Description: Installation of synthetic turf on the concrete surface of the existing hockey rink. The hockey rink has not been utilized for years. Converting the hockey rink to arena soccer will provide the City another lighted soccer field as well as added revenue from the concession.

   Status: Staff is continuing its investigation of synthetic turf for the site. The project is planned for completion by June 2012.

2. Replacement Play Equipment at Ridgecrest, Gateway and Sunnymead Parks

   Project Description: The playground equipment at these sites is outdated, not meeting current safety codes. The project will bring the play equipment up to current standards for safety and ADA.

MV00233937

Status: The project is in progress. Completion of the project is scheduled for December.

3. Lasselle Sports Park

Project Description: This developer constructed (no cost to the City) project is 12¾ acres. Amenities are to include: restroom and concession, three turf football/soccer fields with natural turf, security lighting, picnic facilities, play apparatus and parking for approximately 200 vehicles.

Status: The developer is in the process of obtaining required permitting from the Department of Water Resources, EMWD, and the City. Completion of the project is planned for fall/winter 2012.

PARKS MAINTENANCE DIVISION

1. Projects Completed

- Planted trees at various park sites.
- Removed pepper trees at Parque Amistad.
- Removed and replaced concrete at Parque Amistad.

2. Projects in Progress

- Repair and replant parking lot planter at Bethune Park.
- Fertilize all parks.
- Trim palms at various park sites.
- Trim trees in contract areas.
- Repair east parking lot at Morrison Park.
- Overseed Community Park sports fields.
- Clean storage area at golf course.
- Aerate and sand greens, repair main line breaks at golf course.
- Trim shrubs at all parks.
- Spray and weed all parks.
- Replace oak tree at CRC.
- Replace dead African Sumac at City Hall.

3. Vandalism/Graffiti Damage

Vandalism and graffiti have been reported at the following areas in October: Aqueduct Bikeway ($833), Bayside ($257), Celebration ($82), Community ($1,037), Edison ($100,) El Portero ($50), Fairway ($65), JFK ($127), Morrison ($72), Rockridge ($53), Shadow Mountain ($48), Sunnymead ($167), TownGate ($584), Victoriano ($91), Vista Lomas ($27), Weston ($154), Westbluff ($89), and Woodland ($191). The total cost for vandalism/graffiti was $4,027. Total labor hours for vandalism/graffiti were 89 hours, approximately 8 full-time work days.

MV00233938

4. Mobile Stage Unit

October 29, 2011: Break Through Unity Fest

5. Training

October 20, 2011: Landscape Pruning
October 27, 2011: Advanced Landscape Pruning

6. Park Volunteers

Court referrals performed a total of 378 hours during October. The total hours for court referrals in 2011 are 8,651 which equates to approximately 1,081 full-time work days.

RECREATION DIVISION

1. Recreation and Sports

Registration is underway for Valley Kids Camp. Children will enjoy a fun-filled yet safe experience including a variety of arts, crafts, games, music, talent shows and trips to Valley Skate Park. Dates are November 21-23, December 19-23, December 26-30, and January 2-6. Camp is held at March Field Park Community Center, 15325 5th Street, from 7:00 a.m. to 6:00 p.m. for ages kindergarten through 8th grades. Resident fee is $17 per day and non-resident fee is $22 per day.

For the latter half of October, Time for Tots had more than 130 children registered. October was spent enjoying creative holiday themed curriculum and celebrating the annual Fall Festival. The Time for Tots Fall Festival was held at the Conference and Recreation Center on October 27 from 10:00 a.m. to 12:00 noon. The annual event featured Trunk-or-Treating, games and activities, a musical performance by the participants, and a pumpkin patch. The Conference and Recreation Center's parking lot was full with dressed-up children and parents celebrating the special themed day. Staff would like to thank the Time for Tots parents, Brunswick Moreno Valley Bowl, the Morning Optimist Club of Moreno Valley, the Moreno Valley Police Department, and the Moreno Valley Fire Department Station #6 for their candy distribution and for making the festive event a success.

October was busy for many recreation classes. Many of the youth dance classes were maxed out with children preparing for the Winter Contract Class Performance scheduled in December. Adult classes, such as body sculpting, oil painting, and piano also saw an increase in registration.

2. Senior Community Center

On October 3 the Center held an Ice Cream Social sponsored by Synermed.

On October 6 free flu shots were provided by Rite Aid for any seniors 65 and older with their Medi-Care or Medi-Cal card.

MV00233939

On October 12 free flu shots and blood pressure checks were available for seniors 65 and older by Dr. Nizar Ibrahim.

On October 27 the Center held the annual Spaghetti Dinner sponsored by the Rotary Club. There were more than 160 seniors enjoying a delicious dinner. Most if not all the seniors walked away with a gift or prize from the opportunity drawing that was conducted.

The September Senior Birthday Party was celebrated on October 29. This event was sponsored by the Friends of Moreno Valley Senior Center, which provided a free meal and a box of candy. Miller Jones Mortuary donated the cake and ice cream.

On October 31 there was a Health and Resource Fair. There were 26 vendors present to share their information for the seniors. Approximately 130 seniors visited the fair.

There was a trip to Spotlight 29 Casino on October 1. Cost was $25 per person with $25 free play.

A trip was held on October 2 to Valley View Casino. Cost was $25 per person with $15 in free play.

An overnight trip to Buffalo Bills was held on October 11-13 for $65 per person for double occupancy which included two free buffets.

Senior Center Spotlight

"Greetings from the Creative Writing Class at the Moreno Valley Senior Center. Do you have memories, wit and wisdom you'd like to share with family and friends? Come and join the class, share those memories, stimulate your imagination and tap into your creative well. Below are some pieces written by our class members. Our class meets every Tuesday from 10:00A to 11:30A.

-Ana Christian, Facilitator

Thanksgiving Memories

"This year my daughter is having the whole family for turkey dinner in Las Vegas. Some family members would rather go to a casino. The rest of the family is apprehensive of her roasting the turkey because last time she roasted the turkey, the fire department had to come in and extinguish the turkey and blow out all the smoke. Some things a girl can never live down."

-Cathy Forten

"Thanksgiving's past when my parents were alive were festive family affairs. Much preparation time was spent in the ordering of large fresh turkey and stockpiling the associated staples. About fifteen family members would show up. No invitations were required. you just showed up. Today, it's all precooked turkey from Stater Bros and the less family attend"

-James Kraft

"Thanksgiving at Disneyland, Florida. Fifteen members of two families came together in two condos"

-Mrs. Nevins

"Which lucky turkey will be pardoned by the president? They all gobble in the barnyard, 'Pick me, pick me!'"

-Nancy Graham

"When my sister was still alive, we would get together, my six children and her four plus my sisters-in-law. At the time of giving grace, everyone at the same time said, 'Please do not let Tia Jane give grace. She takes so long the food gets cold.' I would give thanks for the whole year."

-Juanita Avila

"I had been married 2 weeks and I decided to have Thanksgiving dinner for my husband and his family. The night before I bought an 18 pound turkey, and since it said Butterball Turkey I figured it would not need any seasoning. Early the next morning, I peeled the wrapping, washed the turkey and placed it in the oven. I baked it for 5 hours. Then I set the table and when my guest came I placed the turkey in the center of the table. My husband picked up the carving set to carve the turkey. 'Yeeps', he shouted, 'The turkey is still hard as a rock. Didn't you defrost it first?"

-Ollie Eubany

"I have a photograph of my nephew Glenny when he was a child of three or four years old who was posed wearing an apron and holding a washcloth, standing on a stool with a sink full of dirty dishes from a most bountiful Thanksgiving dinner."

-Al Turnball

Subject: DRAFT Study for In-House PD

Mayor, Mayor Pro Tem, and Members of the City Council: As a follow up item to the 3-Yr Deficit Elimination Plan, Staff was directed to review the most recent study prepared for the feasibility of bringing police services in-house. The most recent In-House PD study was prepared in 2004. Cindy Owens has prepared the attached updated draft document which will be presented to the Public Safety Subcommittee next week. Mayor Stewart requested a copy of the study, which is attached for your review. Rick Teichert and I have meetings scheduled with each of you to provide information on the follow up DEP items, we will present a summary of this report at that time as well. Below for your information is just one paragraph from the Executive Summary of the study.
--Michelle

For Fiscal Year 2011/2012 the City has budgeted $41,261,770 for police services which includes 181 sworn positions and 52.5 non-sworn positions from the Sheriff's Department. This cost represents the direct cost of the police contract and other budgeted items, but does not include any City overhead costs such as contract management and financial administration. The City operated police department described in this study would have an estimated first year cost of $49,250,353 with a staff of 199 sworn positions and 106.5 non-sworn positions. Additionally, the City would need to increase staff in other City departments, such as Human Resources, in order to sufficiently support a City operated police department. The cost for the additional City staff, including overtime pay, holiday pay, and standby pay is $1,365,916 with another 17 non sworn positions added to the various City departments. ***This brings the total annual cost for a City operated police department to $50,616,269***.....Minimally the City should expect to spend $34,144,562 in start up costs to establish its own police department.

MV00233964

EXECUTIVE SUMMARY

Moreno Valley enjoys a good public safety and traffic safety record, verified by State and Federal crime and traffic safety audits. Most recently, Moreno Valley was ranked 3rd in the Nation for traffic safety and Moreno Valley has seen a decline in crime over the last three years. Policing services are currently delivered to the City through a contract with the Riverside County Sheriff's Department. The purpose of this study is to examine the feasibility, possible structure, and cost if the City were to create and maintain a City operated police department.

For Fiscal Year 2011/2012 the City has budgeted $41,261,770 for police services which includes 181 sworn positions and 52.5 non-sworn positions from the Sheriff's Department. This cost represents the direct cost of the police contract and other budgeted items, but does not include any City overhead costs such as contract management and financial administration. The City operated police department described in this study would have an estimated first year cost of $49,250,353 with a staff of 199 sworn positions and 106.5 non-sworn positions. Additionally, the City would need to increase staff in other City departments, such as Human Resources, in order to sufficiently support a City operated police department. The cost for the additional City staff, including overtime pay, holiday pay, and standby pay is $1,365,916 with another 17 non sworn positions added to the various City departments. ***This brings the total cost for a City operated police department to $50,616,269.***

As this study will explain, there are certain first year costs that can not be estimated at this time. For instance, the City does not require the full time services of an emergency services team (more commonly known as a special weapons and tactics team, SWAT), however, the City would need to consider either contracting for this service with another jurisdiction or consider training its own police officers to act in this capacity on a part time basis. Furthermore, there is the expense of purchasing specialized equipment for this team as well as the cost for the additional training for the members of the team. Another expense that can not be estimated is the cost of a City operated criminal laboratory. As these costs can not be predicted they have been excluded from the budget, however, the City could expect to see the budget increase $350,000 to $750,000 for just these two items.

As is explained in the "Police Staffing" section, the staff numbers for a City police department are higher since a City police department would need to have sufficient staff to cover absences that are now covered under the constant staffing provided in the contract with the Riverside County Sheriff's Department. Rather than contract for a particular number of people, the City contracts for a particular number of hours of service with the County. Consequently, if a deputy assigned to Moreno Valley is absent, another deputy will fill his place.

The City operated police department budget also includes the cost of a City operated police communications/dispatch center. Of the $50,616,269 total budget for a City operated police department, $2,630,388 is for personnel costs associated with operating a communications center. This amount includes overtime, shift differential, holiday pay, and standby pay. The cost does not include workman's compensation, training costs, internal service fees, and other budgetary costs associated with operating a communications center.

Minimally the City should expect to spend $34,144,562 in start up costs to establish its own police department. Major components would include vehicles and vehicle equipment; communications, dispatch and computer aided dispatch systems; records management and information technology; a telephone system; and transition costs. Of these start up costs, the most expensive component are the items required to effectively establish a communications and

dispatch center, which totals $10,416,050 and includes the cost for telecommunication towers. It should be noted that $10.4 million is considered a minimum cost for dispatch and communications. The cost for dispatch and communications could increase to over $17 million dollars depending on final quotes for purchasing equipment, purchasing land, constructing the radio towers, and other expenses. These start up costs are outlined in Table 7 on page 19; however, *not included in these start up costs is the expense of expanding the Public Safety Building to accommodate evidence and property storage, vehicle impoundment for criminal investigations, a dispatch center, and a criminal laboratory as well as the expansion of City Yard for the maintenance of police vehicles.*

The City recently completed a master plan for the incremental growth of the Public Safety Building. In that incremental plan the evidence, property and logistics expansion is included in Phase 3 along with a parking structure. The cost for that phase was estimated at $27.9 million dollars with a total cost of the expansion $104.4 million. To some extent, the City would need to revisit this master plan and potentially reprioritize the phases in order to add space to the building to accommodate a larger police force, criminal laboratory, evidence storage, property storage, vehicle impoundment, and a dispatch center. The costs mentioned here are not included in the start up costs but do need to be considered in the overall strategy for implementing a City operated police department should that be the desire of City Council.

This study will begin with an examination of patrol staffing and the number of officers needed for calls for service response and self initiated police work. It describes the number of officers needed for special units such as traffic, problem oriented policing, and special enforcement teams which provide a vital supplement to patrol.

Additional sections will describe investigative support, administrative support, and other components that are required for a City operated police department. There will then be a brief overview of the facility and equipment as well as communications and information technology. Based on the information in those sections, City staff will then outline a first year operating budget. Finally, there will be a brief discussion on the start up costs involved for creating a City operated police department.

POLICE STAFFING

In order to determine the number of police officers required to staff a City operated police department it is necessary to understand that there are two primary workload indicators for patrol operations, which are calls for services and self initiated activity.

Calls for service occur when someone contacts the police department and requests assistance. They can contact the police department by calling 9-1-1, calling the non-emergency phone number for the police department, walking into the police station, or by stopping a police officer on the street. Calls for service can be managed to some extent by separating urgent, life threatening calls from non-life threatening calls, however, the number of calls for service cannot be directly controlled by the police department.

Self initiated activity occurs at an individual officer's discretion whereby they initiate a traffic stop due to a vehicle code violation, check on parked vehicle due to suspicious circumstances, stop a pedestrian, check on a building, or perform other tasks. Self initiated work is generally started by the police officer and is not in response to a citizen request. Self initiated work can be deferred by the police officer to when the calls for service workload is lighter,

MV00233966

however, this type of activity does depend on legitimate opportunities being available which can coincide with peak times for calls for service.

To determine the number of patrol officers needed to respond for calls for service as well as to perform self-initiated work, City staff examined 12 months of data supplied by the Riverside County Sheriff's Department from their data warehousing system (April 1, 2010 - March 31, 2011). The data warehousing system utilizes information from the computer aided dispatch (CAD) system to generate information on each dispatch event. The resulting data was composed of 129,255 useable calls for service and 27,466 self initiated records for that time period.

Data obtained from the Riverside County Sheriff's Department only contains information for the primary unit that responded to a call for service or performed a self initiated activity; however, the total time consumed by an event includes not only the primary unit assigned but also the time spent on the call for service by the backup units. The amount of time spent on a call by backup units will typically be less than that of the primary unit. Backup units tend to be dispatched after the primary unit is assigned and will oftentimes clear the scene sooner than the primary unit. In order to account for the backup unit's time consumed by an event, City staff increased the average total time consumed by calls for service by 40%, which is the number MAXIMUS used in their 2004 police feasibility study.

MEASURING CALLS FOR SERVICE WORKLOAD

In order to determine how many patrol officers are needed to meet the demand for police services in the community City staff measured how much time needs to be devoted to call responses by hour of the day and day of the week. The amount of time spent on a call was measured from the time the officer was dispatched to the call to when the call for service was closed out by the officer.

Each record was broken into the time spent on the call for service by the hour of day and the appropriate day of the week. For example, a call that began at 11:45 p.m. on a Tuesday night and concluded at 1:00 a.m. on Wednesday morning was broken into 15 minutes for the 11:00 p.m. to 12:00 a.m. block of time on Tuesday with the remaining 60 minutes placed in the Wednesday 12:01 a.m. to 1:00 a.m. block.

Utilizing staff from the City's Technology Services Division, all calls for service were broken up into their appropriate day of the week and hour of day. This time was then increased by 40% to account for the time back up units may have spent on the activity and then converted from minutes to hours. The total number of hours for the day of the week and the hour of day was then averaged for the year to produce the number of hours per day of week and per hour of day that the City could expect the patrol division of the police department to spend responding to calls for service. The information in the table below reflects this information.

Table 1: Time Spent on Call for Service by Patrol Units in Moreno Valley April 2009 to March 31, 2010 (includes 40% assumption of time spent by back up units)

Moreno Valley experiences its highest call volume on weekdays from 1800 hours to 2000 hours. The single busiest period is from 1500 hours through 2300 hours on Fridays. Given that Moreno Valley is a suburban community, this is to be expected.

Each block of time in Table 1 can be interpreted as the amount of personnel hours needed to handle calls for service only during that time on that day. For example the 12.80 figure on Friday night from 2300 hours until midnight means that at least 13 officers are needed on average to handle the calls for service generated by citizens. However, staffing cannot be only for calls for service. Having sufficient time available for self initiated activity is important if the department wants to work proactively to solve crime, violence, and disorder problems through community policing. The best self initiated work involves not only vehicle stops and pedestrian checks but also time for officers to work with residents and business to solve the problems of underlying crime, violence, and disorder. Time spent in these endeavors can reduce calls for service as the conditions causing the problems improve.

Staff could not locate a universally accepted standard for how much patrol time should be consumed by calls for service. A common assumption, prior to the establishment of community oriented policing, was that a third of an officer's time should be spent on calls for service, a third of their time on self initiated activity, and a third of the time on uncommitted patrol activities.

Departments have a varying degree of time spent on patrol ranging from 30% to 65% of an officers time.

The percent of time an officer should spend responding to calls for service is a policy decision based on how the department and the community would like to see an officer spend their patrol hours. Having a large amount of time consumed by calls for service may increase response time as officers will frequently be busy on other calls. It will also reduce the time available to spend on problem solving and community policing by police officers. The department can counteract a portion of this by assigning officers, on a rotating basis, to special assignments such as problem oriented policing, burglary task force, special enforcement teams, etc.

When determining patrol staffing levels it is important to consider that in a police department, as with any other City department or organization, the number of personnel available and actually working will vary daily. Not everyone comes to work every day. Patrol officers are absent from work for a variety reasons including training, vacation, illness, court time, and special assignments. Over time, schedules may vary due to transfers, promotions, long-term injury leave and general vacancies within the police department.

For an agency the size of Moreno Valley, the City can expect to see a show up rate between 75% to 85% for patrol officers. Variables affecting sick leave usage include: the seniority of employees since more senior employees typically accrue more leave than those who are newly hired; department sick leave policies; other available leave such as compensation time in lieu of paid overtime; and work schedules. The later factor, work schedules, has an impact on the show-up rate in that if an officer perceives that they can never have a "favorable" day off then sick leave abuse may occur. There are various models of scheduling that can be reviewed to provide a greater variety of favorable shifts, however, the final shift schedule should be determined by the initial Chief of Police hired by the City should the City elect to form its own police department.

DETERMINING THE NUMBER OF OFFICERS FOR CALLS FOR SERVICE RESPONSE

Table 1 accounts for an average of 1,412 hours per week that the Moreno Valley Police Department will spend on calls for service regardless of whether the City continues to contract with the Riverside County Sheriff's Department or if the City decides to operate its own police department. Table 2 below shows the number of patrol officers needed given the current hours spent on calls for service, for dedicating 35% of a patrol officers time to calls for service, 50% of their time to calls for service and 65% of their time handling calls for service. The table also estimates the show-up rate for officers at 85%, which equates to 34 hours per week per officer based on a 40 hour work week, or of the 2,080 hours an officer is scheduled to work, he/she will attend work 1,780 hours in a given year.

Hours Per Week Spent on Calls for Service	Percent Time Spent Handling Calls For Service	Officers Needed for an 85% Show Up Rate
1,412	35%	119
1,412	50%	83
1,412	65%	64

Table 2: Number of Officers Needed to Respond to Calls for Service

MV00233969

For the remainder of this study the mid-range of percent time spent handling calls for service will be used for determining costs and other factors for establishing a City operated police department resulting in a requirement of 83 patrol officers to handle calls for service throughout a typical week. To match the changes in workload over the course of a day, the staffing levels for the police department should vary to allow for more officers to be on duty when the calls for service from City residents is highest. The Sheriff's Department currently has officers working 10 hour shifts with 4 shifts per day to allow for greater flexibility in covering those times of day when there are higher calls for service. Those shifts currently are:

- Watch 1: 2200 hours to 0800 hours
- Watch 2: 0600 hours to 1600 hours
- Watch 3: 1300 hours to 2100 hours
- Watch 4: 1700 hours to 0300 hours

At this time, the Riverside County Sheriff's Department has 82 deputies, including two K-9 Officers, assigned to the patrol division with ten sergeants and two lieutenants for supervision, giving a ratio of 8.2 deputies per sergeant (Note, due to the Deficit Elimination Plan, the number of patrol officers was reduced from 87 to 82. The City has not received the 4th amendment for the Contract to verify this, however, this is the change that is expected to occur). The ratio of sergeants to patrol officers does vary amongst other police departments and ranges from one sergeant per six officers to one sergeant per ten officers. The 2004 Maximus study suggested that since the City's own police department would most likely be lesser experienced that a patrol officer to sergeant ratio closer to one sergeant per six officers would provide for better supervision in the field. The Maximus study final allocation for patrol had 1 sergeant per 5.4 deputies as they allocated on additional sergeant to the 1:6 ratio for covering vacation, illness, or training. While staff is not suggesting that the City operated department be quite that aggressive in providing supervision for a lesser experienced workforce, it may be in the City's best interest to consider increasing the number of sergeants assigned to patrol in the first few years from the current level of 1:8.2 officers to 1:7 officers. However, for the purposes of generating a first year budget, City staff has kept the current number of sergeants as listed in the contract with the Riverside County Sheriff's Department.

The Riverside County Sheriff's Department provides two lieutenants to oversee patrol functions. These two lieutenants typically work Monday – Friday, however, they do adjust their schedules for special assignments, warrant sweeps, special holidays that adversely affect patrol such as New Years Eve, and are on call should an event arise requiring their expertise. Numerous police departments provide one lieutenant per patrol shift with one Captain overseeing the patrol division. This was the recommendation of the Maximus study that was performed in 2004 for the City. As the City is satisfied with the current level of staffing at the police department, this report will reflect only two lieutenants with patrol being placed under one captain in charge of the Field Operations Division.

SUPPLEMENTING PATROL

Currently the Riverside County Sheriff's Department supplements patrol services with traffic enforcement, problem oriented policing, community services, special enforcement team,

burglary suppression team, robbery suppression team, and a gang task force. The number of personnel assigned to these teams does vary depending on what is occurring within the City and is provided for within the hours contracted for with the Sherriff's Department. Additionally, the City specifically contracts for dedicated positions above the contract hours which includes:

- the captain (Police Chief)
- one lieutenant
- two sergeants
- ten motorcycle trained deputy sheriffs
- two K-9 deputy sheriffs
- three crime prevention officers
- one gang task force deputy
- one graffiti prevention officer
- one school resource officer

As of the third amendment for law enforcement services entered into by the City and the County on November 10, 2010 the additional personnel needed to supplement patrol were broken out as follows:

Traffic Unit: one lieutenant, two sergeants, 18 deputies, five community service officers, and one Management Analyst (City employee)

Problem Oriented Policing Team: two sergeants, nine deputies and two community service officers

Special Enforcement Team (SET): one lieutenant, two sergeants, one K-9 officer, and 14 deputies

Burglary Suppression Team: four deputies

Robbery Suppression Team: two deputies

Towngate Mall: two deputies (Note the Moreno Valley Mall pays the fully supported rate of 70 hours a week to have a deputy at the Mall 10 hours each day. These deputies work a combined 10 hours a week on patrol that is paid for by the City.)

Police Grant C-CAT: two deputies and one Sheriff's Service Officer II (all positions are currently 100% funded through a grant) who are in addition to the staffing listed for SET.

Overall, the City is satisfied with the performance of these teams at their current staffing levels. Due to this, the study has incorporated these positions in their entirety into the final staffing report.

In order to transport prisoners to the Riverside County Jail it is recommended that a City operated police department continue to primarily utilize Community Service Officers to fulfill this role so that sworn personnel can continue to handle calls for service in a timely manner. In addition to transporting prisoners, the Community Service Officers would be assigned calls for service where there is no suspect information available, such as a runaway juvenile or a burglary

DRAFT

where the resident does not know who may have committed the crime. This would allow for the patrol officers to handle call for service where crimes are in progress, take reports where there is suspect information as they may contact the suspect, or to perform proactive activities such as traffic stops.

Finally, Moreno Valley would lose access to a special weapons and tactics team (known as the emergency services team (EST) in the Sheriff's Department), hazardous device team (HDT, commonly referred to as the bomb squad), and assistance from the Riverside County Sheriff's Department helicopter as these services are provided as part of the contract with the County.

Currently, Moreno Valley does not have the frequency of calls for service that requires these specialized teams/units full time. Part-time emergency services teams, where officers have collateral duties, could be something for the City to consider as well contracting with either the Riverside County Sheriff's Department or the City of Riverside for EST services. Ideally, the City operated police department would deploy staff to stabilize the scene and hold a perimeter until such a specialized unit could be assembled and arrive on scene. This service, along with the Hazardous Device Team (HDT) and helicopter services, are currently provided to the City through the contract as part of the deputy hourly rate. Without entering into negotiations with either the County of Riverside, City of Riverside, or another local jurisdiction, it is difficult to estimate what contract costs might be for access to EST, HDT, or helicopter services.

City staff highly recommends that the City minimally contracts for helicopter services as the Riverside County Sheriff's helicopter does spend a considerable amount time patrolling the City during peak demand times for police services by the public. Again, without entering into negotiations with the County, it is difficult for City staff to determine an exact cost for helicopter services. However, in order to provide an idea of what a contract might cost the City, staff examined the aviation program costs for the City of Riverside and the City of Ontario.

The City of Riverside's Aviation program cost $1,886,899 in FY 10/11 operate, whereas in Ontario their aviation program cost $2,522,383. For the purposes of developing an estimated first year budget for a City operated police department, City staff assumed that the City could expect to pay approximately 20% of the costs associated with the City of Riverside's program which would be $377,380 per year. *Cost estimates for EST and HDT can not be accurately estimated at this time and therefore are not included in the budget.*

INVESTIGATIONS

The Riverside County Sheriff's Department, in their contract rate for a deputy sheriff, allocates one detective per 7.33 deputies paid for by a contract city. This has created a detective bureau at the Moreno Valley Police Department that is currently staffed with one lieutenant, two sergeants, 17 detectives, two deputies for burglary suppression, two forensic technicians, and one sheriff's service officer II. The Investigations Bureau also has three support staff consisting of one clerical position and two crime analysts, one of which is a City employee. As the homicides that occur in the City are handled by the Riverside County Sheriff's Department Criminal Homicide Unit, the City would need to consider adding two to three additional officers at the detective rank to address not only homicides but also the more violent crimes that occur in the City due to the length of time it takes to perform an in depth investigation. For the purposes of this study, City staff has allocated three additional officers to the Riverside County Sheriff's

Department current staffing level in order to ensure violent crimes are properly investigated in a timely manner.

City staff is proposing to eliminate the detective rank and assign patrol officers to conduct criminal investigations for prosecution by the District Attorney. Patrol officers assigned to the detective bureau would receive an additional pay incentive to work in this special assignment while allowing the City operated police department greater flexibility in transferring staff around to patrol, special operations, and other assignments without losing rank. This will further allow the department the ability to establish a rotation policy amongst patrol, problem oriented policing, special enforcement team, and the investigations bureau in order to provide for greater career development and job enrichment to the employee without creating entitled positions.

Since it is traditional in many Riverside and San Bernardino County police agencies to have an investigator rank the City may need to consider granting bonuses or supplemental pay to lateral transfers that have investigative experience in order to create a competent detective bureau in the beginning stages of the City operated police department. *The cost for granting these bonuses has not been included in the proposed first year budget or in the start up costs section.*

Another consideration, for operational reasons, would be locate the forensic unit within the Investigation Bureau for ease of communication between those that collect the criminal evidence and those that are pursuing criminal cases. The City already contracts specifically for two forensic technicians. This unit would need to be expanded to include hiring additional forensic technicians and supervisors who have the experience of handling major crime scenes as the current forensic technicians the City contracts for are specifically assigned to handle burglaries and vandalisms.

As previously noted, all homicides are handled by the Riverside Sheriff's Department Criminal Homicide Unit as well as their technicians, so additional forensic technicians are necessary to provide forensic support for the more complex crimes such as armed robberies, assaults with a deadly weapon, and homicides. Forensic support is needed 24 hours a day so on call pay would need to be a consideration during employee negotiations. This unit would consist of four forensic technicians, one senior forensic technician, and one forensic supervisor.

Finally, the City needs to consider adding additional officers to the Investigations Bureau to conduct internal affairs investigations. Presently, all personnel investigations that are not criminal in nature, and do not involve officer involved shootings are handled at the station level. As part of the City's contract with the Riverside County Sheriff's Department, personnel investigations that are more serious in nature are referred to the Administrative Investigations Department within the Sheriff's Department. After consulting with the Sheriff's Department, City staff is recommending that an additional two officers be added to the Investigations Bureau for the purposes of conducting the more serious personnel investigations

ADMINISTRATION AND SUPPORT

In order for a police department to operate effectively it needs administrative support and community programs. The Administrative Support Division would be overseen by one Captain who would oversee the Community and Administrative Services Division, Fiscal Administration, and Communication Center. The Community and Administrative Services Section would be overseen by a lieutenant and would consist of:

MV00233973

- Logistics Unit: Six Community Service Officers would be required to manage issues related to the building, fleet, weapons maintenance, and the issuance of radios and equipment. The unit would be responsible for tracking all equipment and uniform issuance. Additionally, a Police Fleet Maintenance Coordinator would need to be hired in order to coordinate all fleet maintenance issues with the City's Maintenance and Operations Division.
- Community Services Unit: would consist of two sergeants, five deputies, and three community service officers to keep staffing level equivalent to what the City contracts for with the County.
- Training Unit: would ensure that all training records for employees are accurate and would be in charge of scheduling employees for training. This unit would consist of a sergeant, one officer, and one office assistant.
- Records and Data Processing Unit: would process all police reports, input information into the records management system, and provide front office clerical support. The Riverside County Sheriff's Department currently has one supervising office assistant II, one supervising office assistant I, two office assistant III's, and fourteen office assistant II's who provide this support. While the Riverside County Sherriff's Department does most of the records management tasks at the Moreno Valley Police Station, records management does involve offsite Riverside County Sheriff personnel. The costs for those personnel are recovered through the deputy hourly rate that the County charges the City. As such, the City would need to consider additional staffing which should include a Police Administrative Services Supervisor, two Senior Administrative Assistants, and three more office assistants.

The Fiscal Administration Section would consist of a senior management analyst to monitor the various police department budgets and oversee the grants administered throughout the police department, one senior accountant, one accounting technician, and 2.5 accounting assistant II's to continue to provide the same level of accounting services that the police department currently has.

The Communications Center would consist of the City's Dispatch Center. Issues regarding the telephone system, computer aided dispatch system, and the radio system would be reported to, and handled by, the City's Technology Services Division. Additional staffing for Technology Services is accounted for in Table 5 on page 14. Through a review of other cities who staff their own police dispatch centers, and in consultation with the Moreno Valley Police Department's Administrative Lieutenant, it was determined that a total of 31 personnel would be required to effectively run a communication center. Personnel would consist of:

- One Public Safety Communications Manager
- Four Public Safety Communications Supervisors
- Two Senior Public Safety Communications Dispatchers
- 24 Public Safety Communication Dispatchers

OFFICE OF THE CHIEF

The Office of the Chief would include the Chief of Police, Executive Assistant, and an Administrative Sergeant. Some of the responsibilities of the Administrative Sergeant would

include acting as the public information officer for the police department, overseeing the reserve deputy program, and coordination of facility maintenance with Community Services.

ORGANIZATION CHART

The person hired by the City to act as the first Police Chief and establish a new police department will most likely change the organization chart presented here to fit their needs and the goals they have for the department, however, in order to give City Council, City staff, and the public an idea of how the police department might be organized, a chart was prepared and can be seen below.

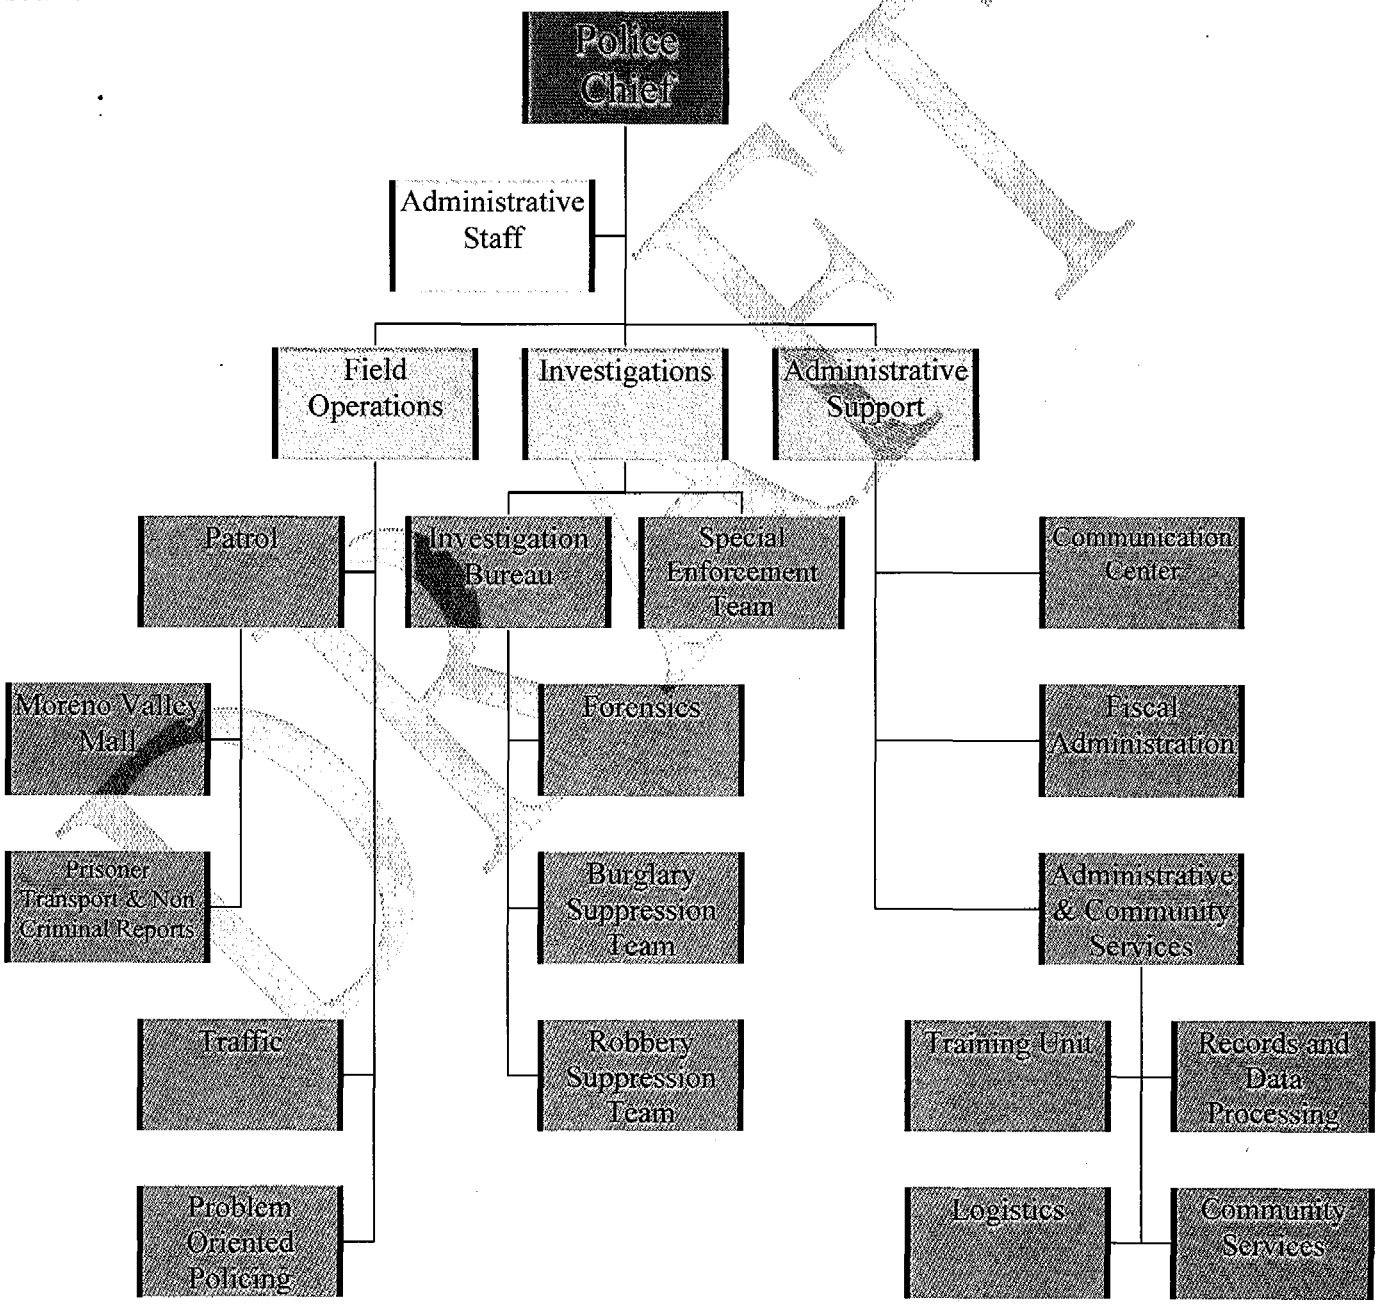

Chart 1: Proposed Organization Chart for a City Operated Police Department

MV00233975

SUMMARY OF STAFFING FOR MORENO VALLEY POLICE DEPARTMENT

A summary of staffing within each organizational unit of the organization chart above is shown below.

Title	Number Personnel
Office of the Chief	
Chief of Police	1
Executive Assistant	1
Administrative Sergeant	1
Field Operations	
Captain	1
Lieutenants – 2 Patrol, 1 Traffic	3
Sergeants	16
Officers - includes 2 K-9's, 2 Mall Officers, and 2 grant Officers	113
Community Service Officers – 16 Patrol, 5 Traffic, 2 POP	23
Management Analyst - Traffic	1
Investigations	
Captain	1
Lieutenant – 1 Investigations, 1 SET	2
Sergeants	4
Officers - includes Investigator Rank and K-9	46
Crime Analyst	2
Community Service Officer - Property	2
Office Assistant	1
Forensic Supervisor	1
Senior Forensic Technician	1
Forensic Technician	4
Administrative Support	
Captain	1
Lieutenants	1
Sergeants	3
Officers	6
Community Service Officers	9
Police Fleet Maintenance Coordinator	1
Public Safety Communications Manager	1
Public Safety Communications Supervisor	4
Senior Public Safety Communications Officer	2
Public Safety Communications Officer	24
Senior Management Analyst	1
Accounting Assistant II	2.5
Senior Accountant	1
Accountant Technician	1
Police Administrative Services Supervisor	1
Senior Administration Assistant	2
Office Assistant	22

Table 3: Staffing Summary Chart by Organizational Unit

The next table shows the number of employees for each position as well as salary, and benefits for personnel costs for a City of Moreno Valley Police Department. It excludes overtime, holiday pay, shift differential, and standby pay as well as additional City Hall staff.

Position Description	Number of Positions	Salary	Benefits	Total Personnel Costs
Police Chief	1	$193,042	$86,869	$279,911
Police Captain	3	$138,686	$62,409	$603,284
Police Lieutenant	6	$103,878	$46,745	$903,739
Police Sergeant	24	$85,849	$38,632	$2,987,545
Police Officer - Lateral	132	$73,410	$33,035	$14,050,674
Police Officer - Entry*	33	$72,494	$32,622	$3,468,838
Total Sworn =	**199**			**$22,293,991**
Accountant II	2.5	$63,410	$22,194	$214,009
Accounting Technician	1	$45,064	$15,773	$60,837
Community Service Officer I	13	$37,112	$12,989	$651,316
Community Service Officer II	17	$42,496	$14,874	$975,283
Executive Assistant II	1	$54,776	$19,172	$73,948
Forensic Supervisor	1	$68,049	$23,817	$91,866
Forensic Technician	4	$49,749	$17,412	$268,645
Management Analyst (Crime Analyst)	3	$63,410	$22,194	$256,811
Office Assistant	22	$33,628	$11,770	$998,739
Police Administrative Services Supervisor	1	$81,411	$28,494	$109,905
Police Fleet Maintenance Coordinator	1	$66,945	$23,431	$90,376
Public Safety Communications Manager	1	$84,391	$29,537	$113,928
Public Safety Communications Dispatcher I	6	$46,499	$16,275	$376,642
Public Safety Communications Dispatcher II	18	$53,293	$18,653	$1,295,020
Public Safety Communications Supervisor	4	$65,717	$23,001	$354,872
Senior Accountant	1	$66,581	$23,303	$89,884
Senior Administrative Assistant	2	$45,064	$15,773	$121,674
Senior Community Service Officer	4	$47,168	$16,509	$254,707
Senior Forensic Technician	1	$58,748	$20,562	$79,310
Senior Management Analyst	1	$73,405	$25,692	$99,097
Senior Public Safety Communications Dispatcher	2	$54,082	$18,929	$146,021
Non Sworn	**106.5**			**$6,722,888**
Total Positions & Costs=	**305.5**			**$29,016,878**

Table 4: Summary of First Year Salary and Benefit Cost for the Police Department Excluding Additional City Hall Staff

The information in Table 4 excludes costs for overtime, shift differential, holiday pay, and special duty pay. Those amounts are included in a simulated first year operating budget in Table 6 on page 16. Additionally, City personnel that will need to be hired as a result of creating the City's own police department can be found in Table 5 on the next page.

For positions that the City does not currently have in its salary schedule a salary survey was completed utilizing information from the current salaries paid by the Riverside County Sheriff's Department, the City of Riverside, and several other local agencies. A median of the minimum and maximum salaries for those jurisdictions was utilized to determine a midrange salary that the City could expect to pay experienced law enforcement personnel for both sworn and non sworn positions. The figures used to project salary costs overall pays 1.6% higher than the County, however, the figures are approximately 9% lower than the average salary for the City of Riverside.

The new Moreno Valley Police Department would need to hire both experienced and inexperience police employees. It would be preferable if at least 85% of the city operated police department's personnel had previous law enforcement experience. The City would need to pay salaries and benefits that reflect this accumulated knowledge, skill and abilities of a predominately veteran staff. The salaries reflected in the table above reflect a mid range for all positions in order to estimate the cost of hiring an experienced work force.

A fringe benefit rate of 35% was utilized for non sworn personnel while a 45% fringe benefit rate was used for sworn personnel due to the fact the City would be offering all sworn personnel 3% at 55 for their retirement, known as PERS (California Public Employee Retirement System). Workman's Compensation has not been calculated into the benefit rate and is accounted for separately in the first year budget (Table 6).

ADDITIONAL CITY STAFF

In order to support a City operated police department, it is imperative that the City recognizes the need to expand staffing in other City Departments and Divisions for services that were previously covered by the County as well as the demand for services that the additional 305.5 positions will create for other departments such as Human Resources and Finance. Below is a table listing the names and number of positions needed as well as a cost estimate for the salary and benefits of these positions.

Position Description	Number of Positions	Salary	Benefits	Total Personnel Costs
Deputy City Attorney I	1	$89,224	$31,229	$120,453
Human Resource Analyst	1	$63,410	$22,194	$85,604
Human Resource Technician	1	$45,064	$15,773	$60,837
Information Technology Technician	1	$52,168	$18,259	$70,426
Legal Secretary	1	$49,684	$17,389	$67,073
Network Administrator	1	$89,224	$31,229	$120,453
Payroll Technician	1.5	$45,064	$15,773	$91,256
Risk Management Analyst	1	$63,410	$22,194	$85,604
Senior Application Analyst	1	$73,405	$25,692	$99,097
Telecommunications Technician	2	$52,168	$18,259	$140,853
Vehicle Equipment Technician	5.5	$45,064	$15,773	$334,604
Subtotal	**17**			**$1,276,257**
Overtime				$45,000

Standby & Holiday Pay				$44,659
Total Personnel Costs				**$1,365,916**

Table 5: Summary of First Year Salary and Benefit Cost for Additional City Hall Staff to Support Police Department

FACILITY AND EQUIPMENT

The Moreno Valley Police Department would occupy the current City owned facility used by the Riverside County Sheriff's Department. The Public Safety Building (PSB) is owned by the City and was built specifically to be the headquarters for both the Police and Fire Departments. The City and Riverside County would need to jointly conduct a complete inventory of the building to determine what is owned by the City and what is owned by the County. Start up costs, which are listed on page 19, contain estimates for equipment the City might have to acquire to replace County owned equipment and/or purchase new equipment for the dispatch center.

While the City had initially allocated space for a dispatch center to be located in the PSB when it was constructed, that space had been temporarily converted into an emergency operations center (EOC) following the terrorist attacks in September 11, 2001 in New York. With the City's new EOC opening in September of 2010, this space became available for the reconfiguration of the PSB to accommodate a police department that has been outgrowing the current facility. Funding for that space to be converted into an area to accommodate the traffic division was approved in the Fiscal Year 2011/2012 Capital Project Budget and the conversion of this space is expected to be completed in Fiscal Year 2012/2013.

A master plan for the reconfiguration of the PSB was completed in 2010 however, while it included building an area for the secure storage of property and evidence as well as a vehicle impound area, it excluded building a criminal laboratory area for forensic technicians to utilize in order to process photographs, fingerprints, and other crime scene evidence as well as an area for a communications/dispatch center. This master plan would need to be updated and the City would need to be prepared to expand the PSB immediately in order to accommodate a dispatch center, a criminal laboratory for the forensic technicians to use, and an area for evidence and property storage as well as an area for vehicle impoundment. Currently, all of the property and evidence seized by deputies assigned to Moreno Valley is stored at the Riverside County Sheriff's Department Perris Station due to the lack of space at the PSB. Of the 4,400 square feet of evidence and property storage at the Perris Station, Moreno Valley occupies approximately 80% of that space. Due to these factors the City should consider moving forward on the PSB expansion as soon as possible should the City Council elect to start up a City operated police department.

Unfortunately, it is too difficult to estimate at this time what the cost for expanding the PSB to accommodate these new areas would cost. In the incremental growth plan completed for the City by Roesling Nakamura Terada Architects, the PSB is expanded over three phases for a total cost of $104.4 million dollars. The evidence, logistics, and property area, which included a parking structure of 871 stalls, was listed in Phase 3 of this plan at a cost of $27.9 million dollars. Again, this expansion excluded the addition of a criminal laboratory and a dispatch center.

Finally, the City would also need to ensure that there is adequate locker room space for the expanded size of the police department and the City would need to reexamine whether or not there was adequate space in the building for the sworn and non-sworn staff to utilize in the performance of their duties.

COMMUNICATIONS, INFORMATION TECHNOLOGY, AND DISPATCH

MV00233979

While the City can definitely consider contracting for dispatch services, ideally a City operated police department would want control over its own dispatching and information technology operations in order to ensure local priorities are being met. While it is not unheard of for a City to have its own police department and yet contract for police dispatch services (the City of Pacifica on June 27, 2011 decided to contract dispatch services with South San Francisco), it is highly unusual. Some of the concerns the need to be considered when examining whether or not to contract police dispatch services while maintaining a local police department includes: loss of local control, conflict resolution between police officers and dispatchers, and the ability to have immediate access to 9-1-1 tapes and radio transmissions. For the purposes of this study, City staff has assumed that the City will operate its own dispatch and communications center.

Personnel costs for a communications center is estimated at $2,630,388 for the first year of operation. Other costs that have been considered for a first year operating budget for a City police department include office supplies, training, recruitment costs, and internal service fund transfers to cover technology and facility maintenance costs. An additional budget item to consider for the future would be uniforms for dispatchers as several jurisdictions do provide uniforms for dispatchers to create a more professional environment and reinforce the idea that they are working for a paramilitary department.

FIRST YEAR OPERATING BUDGET

A potential first year operating budget for the first year for a City operated police department is shown on the next page. Of note, *there are no costs listed for either contracting emergency services team (EST) services and hazardous device team (HDT) services or providing equipment, training, and supplemental pay to City police officers to provide this service.* Additionally, it is difficult to determine the costs associated with operating a criminal laboratory and therefore *no cost estimate has been made for supplies for a criminal laboratory*. Included in the first year operating budget below is the costs for outside legal services, general liability, workmen's compensation, property damage insurance, and employment practices insurance.

Description	Cost
Salaries and Benefits	
Salaries - Sworn (199)	$15,375,166
Benefits - Sworn	$6,918,825
Salaries & Benefit Cost Sworn	**$22,293,991**
Overtime - Sworn	$2,121,420
Standby / Call Back Pay @ 0.5%	$111,470

Table 6: Proposed First Year Operating Budget Excluding Additional City Staff

In addition to the first year operating costs listed above, the City would need to augment other City departments with staff to support to the Police Department at a cost of $1,365,916 (from Table 5) in order to support a police department that operates seven days a week, 24 hours a day. *This would bring the total first year costs associated with a City operated police department to $50,616,269.*

City staff created the first year budget based on what the City allocated to the police department for Fiscal Year 2011/2012 and then supplemented the budget with additional funding for items such as contracting out helicopter services, additional funding for outside legal expenditures to address lawsuits, funding for replacing uniforms, and other such costs that are not currently in a separate line item budget for the police department and are currently provided as part of the contract with the Riverside County Sheriff's Department.

This first year budget is experimental to some extent as some costs can not be accurately predicted until a few budget cycles have passed, such as the cost for recruitment, replacement uniforms, and training. Items that are easier to predict, such as salary and benefits, are reliable as these are set costs that increase or decrease based on contracts with the various City unions.

The City, in FY 11/12, has budgeted $41,261,770 for 181 sworn positions and 52.5 non sworn positions. The proposed City operated police department would have 199 sworn positions with 106.5 non sworn positions for a cost of $49,250,353 plus an additional $1,365,916 to cover the costs of 17 new City positions for a total first year operating budget of $50,616,269. This is an increase of $8,969,529 or 22.7% for the City to operate its own police department.

START UP COSTS

The start up costs for a City operated police department include patrol cars, uniforms, background checks, dispatch equipment, information technology equipment, initial reserve fund money for general liability and workman's compensation, and capital outlay for radio towers and fueling station. The start up costs provided below is for items minimally required to begin

operating a City police department. As mentioned previously, it is quite possible that the start up costs listed for the communications/dispatch center could cost an additional $7 million dollars, bringing the total cost for communications and dispatch to over $17 million dollars.

Excluded from these start up costs is the expense to expand City Yard in order to provide routine service to police vehicles. While the City of Corona was able to expand their current City Yard as a cost of $1.5 million dollars to accommodate performing maintenance on police vehicles with their staff, it is quite possible that such an expansion could run $4 million to $6 million dollars should the City need to purchase land to build a police vehicle only facility that could be expanded to accommodate fire engines and fire trucks in the future.

Also not included in the start up costs is the cost to expand the Public Safety Building (PSB). As previously discussed, the incremental grown plan for the PSB would need to be reexamined to ensure there is adequate space for the proposed City operated police department as well as enough space for property and evidence storage, vehicle impoundment, a dispatch center, and a criminal laboratory. The project was last estimated in 2010 to have a total cost of $104.4 million dollars, with the phase 3 expansion that includes adequate space for property, evidence, and vehicle impoundment at a cost of $27.9 million dollars.

Finally, the City currently owns a few vehicles utilized by the Riverside County Sheriff's Department, such as the motorcycles for traffic enforcement, the traffic reconstruction truck, and the forensic technician's vehicle. These items have been excluded from the start up costs listed below.

Description	Cost	Units	Total Cost
Patrol Cars			
Patrol - Black and White - Crown Victoria	$26,000	122	$3,172,000
Patrol - K9 - Crown Victoria	$26,000	3	$78,000

Subtotal Of Start Up Costs =			**$28,243,868**
Contingency at 20%			$5,648,774
Total Costs =			**$33,892,642**

Table 7: Start Up Costs – Excludes the Cost to Expand the Public Safety Building and City Yard.

The City would require at least two years to build the communications infrastructure required to support its own police department. A large part of this two year process is the length of time it would take to work with the Federal Communications Commission to obtain radio frequencies, hiring project managers to ensure the project is completed in a timely manner, and the purchasing of land in order to build radio towers as well as the construction of those towers. As the Riverside County Sheriff's Department requires 12 months notice from the City in order to terminate the contract, this process would need to start one year prior to notifying the County that the City intends to operate its own police department.

New police officers, as opposed to lateral transfers from other jurisdictions, will require training at a Peace Officer Standards and Training (POST) certified academy which would be a cost incurred by the City as well as the salary and benefits paid to the employee during their training period. The cost at the Ben Clark Training Center for a basic POST certificate for law enforcement is minimally $5,579.62. *As it is difficult to determine how many new officers the City can expect to hire, the cost for an employee to attend the police academy, has been excluded*

from the start up costs. City staff can provide a rough estimate of the cost, which would assume 75% of the sworn staff hired would have previous law enforcement experience. Therefore, of the 199 sworn staff, 50 of the personnel hired by the City would require a basic POST certified academy, increasing the start up costs by $278,981. However, this amount could be much higher or lower, based on who is hired.

All employees within the police department would need to undergo an in depth background check and polygraph test. Additionally, all sworn staff would be required to pass a psychological evaluation. Based on information provided by other jurisdictions, the City can expect to spend $445 per officer for a psychological evaluation, $500 per person for a polygraph test, and approximately $3,250 per background investigation (estimated at $65.00 per hour at 50 hours per investigation). The line item was then increased by 40% to account for those individuals who will not pass their background check. As a side note, this could be extremely conservative as some jurisdictions see a failure rate higher than 40% when completing background investigations on police officers.

Finally, City staff has included overlap coverage between the Riverside County Sheriff's Department and a City operated police department. For example, the Police Chief would need to be hired six to nine month in advance of the desired start date for the police department. The Chief would then begin the process of hiring personnel, establish policy and procedures, and coordinating a smooth transition with the Sheriff's Department. There will also be a period of overlap between the deputies from the Sheriff's Department patrolling Moreno Valley and the officers from the City operated police department patrolling the City to give the new officers time to learn the City and meet key community members. These costs have been accounted for in the transition costs.

CONCLUSION

The City, in FY 2011/2012, has budgeted $41,261,770 for 181 sworn positions and 52.5 non sworn positions. The proposed City operated police department would have 199 sworn positions with 106.5 non sworn positions for a cost of $49,250,353 plus an additional $1,365,916 to cover the costs of 17 new City positions for a total first year operating budget of $50,616,269. This is an increase of $9,354,499 or 22.7% for the City to operate its own police department.

When comparing this to the Maximus study of 2004, the City had budgeted $23,030,031 for police services in Fiscal Year 2003/2004 which included 144 sworn positions and 43.5 non-sworn positions. The police department described by Maximus in that study would have had a first year operating cost of $28,756,493 with a staff of 166 sworn positions and 90.5 non-sworn positions. Maximus' proposed first year budget was a 24.9% increase over what the City had budgeted for police services.

City staff did expect to see a slight decrease in the percentage between what a City operated police department would cost compared to contracting with the Riverside County Sheriff's Department due to budget reductions to the police department's budget over the last few years. It is therefore not surprising to see a slight difference between the Maximus study and the City's own in house feasibility study.

The Maximus study in 2004 had an estimated start up cost of $19 million compared to the $33,892,642 of this study. In looking at their study it appears they may have underestimated the costs for communications in dispatch. They also allocated funding for 119 vehicles, both new and used, whereas this study assumes the City will need to buy all new vehicles as there is no

guarantee that there will be any serviceable used police vehicle that would fit the City's needs. The Maximus study also under allocated funding for background investigations and vehicle equipment.

Determining the exact size and cost of a City operated police department will depend on providing a satisfactory level of service to the residents of Moreno Valley. The size and cost recommendations made in this report are a low to mid range mix of personnel and functions designed to provide at least equivalent services to those currently being provided under contract. Adjustments can be made, based on policy preferences, by City Council or the City Manager. However, without a substantial decrease in personnel, the annual cost of providing police services that are equivalent to what the City is currently receiving will remain in the vicinity of $50,616,269, which includes the additional City staff needed in other departments to support a City operated police department.

Financial & Administrative Services Department

MEMORANDUM

To: Mayor and City Council

From: Rick Teichert, Financial & Administrative Services Director

Date: October 19, 2011

Subject: Update on Proposed Booking Fees for FY 2011-12

Background: Counties are authorized to charge a fee to cities for booking an arrestee into a county jail. This booking fee must not exceed the county's processing and booking costs. The purpose of the booking fee is to enable counties to recover costs associated with booking persons into county facilities from the arresting agencies. Counties argue that without the authorization to charge booking fees they would be forced to provide free services to cities. Cities have argued that jail booking services have been provided by counties in the past and paid from countywide tax revenues and imposing booking fees on cities is a means for the state to shift its funding burdens to the cities through the counties. The State budget appropriates funds into local detention facility revenue accounts for counties to use exclusively for the operation and administration of detention facilities. Counties receive this $35 million in funding in lieu of charging booking fees, however the amount is subject to annual appropriation in the State budget and Counties may charge cities a "jail access fee" for every booking in excess of that city's previous 3-year average.

The County of Riverside charges cities booking fees based on the following criteria:

- When the State budget appropriates $35 million or more for booking fees, the County cannot charge cities for this service. Cities can be charged the "jail access fee" for those bookings in excess of the 3-year average, however the fee cannot be more than the County's actual cost (proposed by the County to be $450.34).
- When the State budget appropriates less than $35 million for booking fees, the County may charge a booking fee for those booking within the 3-year average, based upon a percentage of the 2006 booking fee rate plus an annual adjustment for CPI plus 1% (calculated by the County to be $132.29). Cities can also be charged the "jail access fee" for those bookings in excess of the 3-year average, however the fee cannot be more than the County's actual cost (proposed by the County to be $450.34).
- When the State budget appropriates NO funds for booking fees, the County may charge cities booking fees limited to one-half their actual administrative costs.

MORENO VALLEY
RECEIVED
11 OCT 21 PM 1:10

Current Issue: For bookings that exceed the three-year average, the County charges the full actual cost per booking. The City received a letter from the County Executive Office Public Safety Group proposing an 8.7% increase in this fee for FY 2011/12 (from $414.45 to $450.34 per booking that exceeds our 3-year average). City Staff sent a letter to the County as part of the public hearing process for the fee increase raising concerns about the magnitude of the increase in light of recent labor cost reductions and based on the fact that no analysis or justification identifying the nature of the increases was provided.

In addition to the fact that the notice contained no justification for the proposed fee increase, Staff also takes issue with the County's statement that "If the State does not appropriate funding ... the County is able to charge the cities its actual cost for booking arrestees into detention facilities". There does not appear to be any language in the applicable Government Code Sections (29550-29553) or County Ordinance No. 702 that supports this statement. We would like to receive clarity on this point, since it is possible that the State may not provide funding for support of booking fees due to their continued deficit spending. It is our position that the Government Code and County Ordinance No. 702 support that in the absence of state funding, the maximum fee to be charged is limited to one-half their actual administrative costs, not the actual cost of $450.34 as stated in the County's letter.

According to the Government Code Section 29550(a)(2), an increase to the booking fees must be adopted prior to the beginning of the fiscal year and is subject to noticing the cities about a public meeting on the fee. Staff will be meeting with the County and inquiring as their legal basis for proposing a mid-year increase.

Also, Government Code Section 29550(a) (4) states that the booking fee legislation shall not apply to counties that are under a contractual agreement with a city that is subject to the fee. Therefore, we believe that the Government Code implementing booking fees does not apply to the City of Moreno Valley due to our police service contract.

The City Manager met with Sheriff Sniff earlier this week and he indicated that the booking fees are administered by the County Executive Office. We have requested information from County Administrative staff that determined the proposed Annual Booking Fee amount for FY 2011-12. Additionally, staff from Supervisor Ashley's office has contacted us about conducting a meeting with our City staff and surrounding contract cities to further discuss the booking fee issue. We will continue to provide you with updated information and we progress further in our discussions. We are also going to provide this information to the Sheriff and Supervisor Ashley as well.

CITY OF MORENO VALLEY
Parks and Community Services Department
Administration

MEMORANDUM

To: Mayor and City Council

From: Mike McCarty, Director of Parks and Community Services

Date: October 18, 2011

Subject: Quarterly Report THINK Together Contract

Beginning July 1, 2011, THINK Together, Inc., took over the day-to-day operation of the City's ASES after school program by entering into a contract with the City of Moreno Valley and the Moreno Valley Community Services District. Upon City Council's direction to proceed with this contract, I notified the Council that there would be periodic updates as to the status of this arrangement.

During the negotiation phase, THINK Together guaranteed that certain criteria would be met and maintained. Standards included the areas of securing a high percentage of existing STARS staff (City employees), adhering to all ASES state grant requirements, maintaining or increasing attendance levels, formulating a good working relationship with both local school districts, operating the program in such a manner as to "free" up the City from financial and liability responsibility, preserving activities established by the STARS program (spelling bee, Bill Batey Reading Contest, sports), and increasing the educational aspect of the ASES program.

I am happy to say THINK Together is off to a great start meeting all the aforementioned criteria and constantly keeping the City informed as to any issues or situations that arise. There are approximately 220 staff involved in the Moreno Valley ASES Program with more than 80% of these employees coming from the STARS Program. The attendance levels are being met at 100% for both school districts, and there is a constant participation rate of more than 4,200 students per day.

The State and Parks and Community Services Department's Management Analyst are satisfied that all grant requirements are being maintained, and school district administration and the majority of principals are satisfied with THINK Together running this program. By entering into this contract, financially the Parks and Community Services Department will be monetarily flush enough to offer other "free" activities and programs for the residents to enjoy. Preliminary competition has begun for the city-wide spelling bee with the finals

being held in November, while plans are underway for the sports program to begin after the first of the year. The Bill Batey Reading Contest will also be conducted in early 2012.

The focal point of Proposition 49 (ASES Grant) has always been on education for after school participants. The STARS Program adhered to this guideline for years with THINK Together continuing this tradition and increasing the educational awareness on many levels.

In conclusion, for years the ASES Program in Moreno Valley has been quite beneficial to many residents who truly cannot afford to pay the large cost that comes with after school child care. THINK Together has been true to its word in providing everything City staff and City Council asked for in order to take over the operation of this great and much-needed program.

MEMORANDUM

To: Mayor and City Council
Henry T. Garcia, City Manager

From: Mike McCarty, Director of Parks and Community Services

Date: October 10, 2011

Subject: Parks and Community Services Monthly Update

SPECIAL PROJECTS

As part of his Eagle Scout project, a volunteer has solicited and received funding and donations for the purchase of exercise equipment and decomposed granite surfacing to be installed at TownGate Memorial Park. Additionally, he has solicited contractors and volunteers to install the equipment at no cost to the City.

PARK PROJECTS

1. March Field Park Soccer Arena

   Project Description: Installation of synthetic turf on the concrete surface of the existing hockey rink. The hockey rink has not been utilized for years. Converting the hockey rink to arena soccer will provide the City another lighted soccer field as well as added revenue from the concession.

   Status: Staff is investigating synthetic turf for the site. The project is planned for completion by June 2012.

2. Replacement Play Equipment at Ridgecrest, Gateway and Sunnymead Parks

   Project Description: The playground equipment at these sites is outdated, not meeting current safety codes. The project will bring the play equipment up to current standards for safety and ADA.

   Status: A purchase order was issued to the vendor. Completion of the project is scheduled for December.

3. Lasselle Sports Park

   Project Description: This developer constructed (no cost to the City) project is 12¾ acres. Amenities are to include: restroom and concession, three turf football/soccer

fields with natural turf, security lighting, picnic facilities, play apparatus and parking for approximately 200 vehicles.

Status: The developer is in the process of obtaining required permitting from the Department of Water Resources, EMWD, and the City. Completion of the project is planned for fall/winter 2012.

PARKS MAINTENANCE DIVISION

1. Projects Completed

   - Trimmed hedges at parks.
   - Installed new trash containers at Shadow Mountain Park.

2. Projects in Progress

   - Plant trees at various park sites *(75% complete)*.
   - Repair and replant parking lot planter at Bethune Park.
   - Fertilize all parks.
   - Remove pepper trees at Parque Amistad.
   - Remove and replace concrete at Parque Amistad.
   - Trim palms at various park sites.
   - Trim trees in contract areas.
   - Repair east parking lot at Morrison Park.

3. Vandalism/Graffiti Damage

   Vandalism and graffiti have been reported at the following areas in September: Aqueduct Bikeway ($88), Bayside ($184), Bethune ($113), Celebration ($148), El Portero ($24), JFK ($153), Morrison ($64), Parque Amistad ($47), Rockridge ($50), Shadow Mountain ($71), Sunnymead ($363), Towngate ($231), Victoriano ($188), Vista Lomas ($43), Weston ($70), and Woodland ($141). The total cost for vandalism/graffiti during September 2011 was $1,978. Total labor hours for vandalism/graffiti were 38 hours, approximately 4.75 full-time work days.

4. Mobile Stage Unit

   September 10: Moreno Valley YouthFest at Community Park
   September 14: MVUSD "Parent Resource Center" Grand Opening

5. Training

   September 15: Playground Safety
   September 29: Grounds Keeping

MV00233992

6. Park Volunteers

Court referrals performed a total of 216 hours during September. The total hours for court referrals in 2011 are 8,273, which equates to approximately 1,034 full-time work days.

RECREATION DIVISION

1. Recreation and Sports

Many of the Time for Tots fall sessions continue to fill weeks in advance with new and continuing children. The month of September was spent enjoying creative curriculum and celebrating special activity days including Sensory Fair, Crazy Hat Day, Around the World Day, Apple Day, and Share Day. Staff are also busy preparing for the annual Time for Tots Fall Festival to be held at the Conference and Recreation Center on October 27 from 10:00 a.m. to 12:00 p.m. The annual event will feature Trunk-or-Treating, games and activities, a musical performance by the participants, and a pumpkin patch.

September was also a busy month for many recreation classes. The beginning of fall saw a dramatic increase in many of the youth dance classes. Ballet, Ballet/Acro, Dance Exploration, and Hip-Hop were full of young talented dancers. Adult education classes, such as GED and English as a Second Language, also had a rise in registrations. Recreation staff have been busy recruiting new contract instructors to teach new, exciting, and diverse classes.

Staff are busy preparing for the upcoming fall camp at the March Field Park Community Center. Attending children will spend their November vacation from school creating creative holiday and seasonal crafts, playing fun-filled games and activities, and much more.

YouthFest was held on September 10 at Moreno Valley Community Park. The annual event was extremely successful featuring live performances, many by recreation contract classes, a DJ, raffles, and local businesses/organizations distributing information to the community regarding youth programs and services available. The exciting event welcomed more than sixty venders whom met with at least 1,700 attendees. Event sponsors included Visterra Credit Union, Waste Management, Costco, Castle Park, Cal Skate, Brunswick, Fiesta Village, and John's Incredible Pizza. Parks and Community Services would like to thank all who made the event such a success.

Completed the Pee Wee/Junior Flag Football league, which had more than 100 children in the program. The league concluded with an award banquet for participants and parents on October 3-4.

The beginning Pee Wee/Junior Basketball league begins October 10-11. More than 100 youth will be participating in the six-week program.

MV00233993

A youth and teen basketball clinic will begin on October 17 and run for three weeks for three days a week at the CRC. This is the kickoff to the winter season league with the skill's day scheduled for November 12 and the draft on November 19.

Adult softball will begin their season at the end of October with four divisions.

2. Senior Community Center

On September 23 the Center held its annual Fall Festival sponsored by Health Net. There were more than 100 seniors attending the party. There was music, dancing, singing, and a chili cooking contest. There was also plenty of corn and chili to go around.

The September Senior Birthday Party was celebrated on September 29. This event was sponsored by the Friends of Moreno Valley Senior Center who provided a free meal and a box of candy. Miller Jones Mortuary donated the cake and ice cream.

The seniors participated in the following trips:

- September 3-4: Las Vegas
- September 5: Day trip to Las Viejas Casino
- September 10: Spotlight 29 Casino
- September 15: Valley View

3. Grant Programs

Attendance targets required by the ASES grant funding are being met at 100% at the Moreno Valley and Val Verde Unified School District sites. A total of 4,206 unduplicated students have been served since the first day of program.

The Annual Spelling Bee will begin with preliminaries in October. The final event will be held in November. All Moreno Valley and Val Verde school sites will participate.

Twenty elementary school sites in Moreno Valley and Val Verde schools will be participating in the Jumpstart Pilot STEM (Science, Technology, Engineering and Math) Project. We will be partnering with California Afterschool Network and Riverside County Office of Education. The pilot program has approved the Center Stage Math curriculum which was previously purchased by the City. Each of the pilot school sites will be providing 60 minutes of experiential hands-on math learning for a duration of 30 weeks. The other elementary sites will also be utilizing the curriculum, however, will not be assessed through the pilot program.

City of Moreno Valley schools have received an excess of 1,435 volunteer hours. The THINK Together Volunteer Department is currently partnering with Vista Del Lago, Valley View, Canyon Springs, and Rancho Verde high schools, Kohl's, Moreno Valley College, UCR, Cal State San Bernardino, Perris Valley Family Resource Center, and Moreno Valley's Promise the Alliance for Youth.

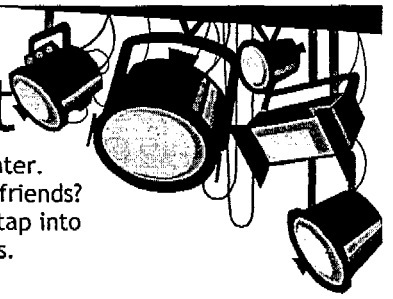
Senior Center Spotlight



Greeting from the Creative Writing Class at the Moreno Valley Senior Center.
Do you have memories, wit and wisdom you'd like to share with family and friends? Come join the class, share those memories, stimulate your imagination and tap into your creative well. Below are two pieces written by our class members.
Our Class meets every Tuesday from 10:00A to 11:30A.
-Ana Christian, Facilitator

Boil a Frog!

By Barbara Ethridge

This is rather a silly and meaningless adage, don't you think? It's an old adage which is rarely used; perhaps because no one knows how to accomplish that particular feat. If you've ever tried to boil a frog, you'll find it is not as simple as it appears. You can't toss it into the boiling water because it will feel the heat and simply hop out. However, if you really want to boil a frog, you must start with the cold water and place the unsuspecting frog in it. Then raise the temperature slowly and the frog will stay there until it boils.

At first this disgusting subject only made me cringe. But after mulling it over, I began to think that perhaps there might be a lesson there for us. The next time you want to influence someone to do something of which they are reluctant, remember to start with the "cold" water and work up to the "boiling point".

Indelible Memories of Halloween

Anonymous

Halloween- an ancient custom

Busy Parents days earlier explore 98 cent stores for costumes and masks, decorate front yard, creating gravesites, spooky dungeons, cobwebs and lighted pumpkins, preparing for the party, anticipating trick-or-treaters.

Night falls, warm and windy

Full moon rises, the once deserted streets now filled with little goblins, weird spirits, witches, ghosts, even animals rustling along small feet, patter up the stairs to another door, knock, wait with their plastic sacks to be filled with candy.

MORENO VALLEY
WHERE DREAMS SOAR

CITY COUNCIL
MORENO VALLEY
RECEIVED
11 OCT -3 PM 4:06

Financial & Administrative Services Department

MEMORANDUM

To: Mayor and City Council
Henry Garcia, City Manager

From: Rick Teichert, Financial & Administrative Services Director/City Treasurer

Date: October 02, 2011

Subject: Monthly Investment Report – August 2011

Attached is the Monthly Investment Report (Treasurer's Cash and Investments Report) for the month ended August 31, 2011. All investments comply with California Government Code Section 53601 as to the types of investments allowed and the limits of each type. In addition, all investments comply with the City's annually adopted Investment Policy.

The investments managed by Chandler Asset Management totaled $178,511,534 and achieved a Yield to Maturity (YTM) for August 2011 of 1.60%. This compares to a YTM in July 2011 of 1.55% and a YTM in August 2010 of 1.81%. In addition, the City maintained $28,318,822 in the State Local Agency Investment Fund Pool with a YTM of 0.48%.

Rates of return on fixed income investments continue to remain soft, reflecting the current efforts by the Federal Reserve to energize the economy. Staff does not anticipate any significant increase in the near future. The Federal Reserve Board has recently stated that they intend to keep rates low for the next two years.

The September Quarterly Investment Report will be presented at a regular City Council meeting in November 2011. Submitting this August 2011 Monthly Investment Report by internal memorandum ensures that the Council and City Manager are kept apprised of the City's investments between the regular quarterly reports.

Please contact me [redacted] or Brook McKinney [redacted] with any questions.

Holdings Report Glossary

CUSIP (Committee on Uniform Securities Identification Procedures) – A unique identification number assigned to all securities.

Security Description - The issuer name, coupon (periodic interest payment rate) and maturity.

Par Value/Units - The face value or number of units held in the portfolio.

Purchase Date - The settlement date on which the security was purchased.

Book Yield - The YTM that equates the current amortized value of the security to its periodic future cash flows.

Cost Value - The value at which the securities were purchased, excluding purchased interest.

Book Value - The value at which an asset is carried on a balance sheet. To calculate, take the cost of an asset +/- net accretion/amortization.

Mkt Price - The current fair value market price.

Mkt YTM – The internal rate of return that equates the periodic future cash flows (interest payments and redemption value) to the market price, assuming that all cash flows are invested at the YTM rate.

Market Value - The current fair value of an investment as determined by transactions between willing buyers and sellers.

Accrued Int. - The interest that has accumulated on a bond since the last interest payment up to, but not including, the settlement date.

% of Port. - The % of the portfolio that the security represents based on market value, including accrued interest.

Gain/Loss – The unrealized gain or loss on the security, compared to either cost or amortized value, as of the date of the report.

Moody - The Moody's rating for the security.

MV00234022

Holdings Report Glossary (continued)

S&P - The Standard and Poor's rating for the security.

Term (yrs) - The time, in years, until maturity.

Duration - The weighted average time to maturity of a bond where the weights are the present values of future cash flows. Duration measures the price sensitivity of a bond to changes in interest rates.

Corporate Bonds: A Primer. 3

Since 1988, Chandler Asset Management has specialized in the management of fixed income portfolios. Chandler's mission is to provide fully customizable, client-centered portfolio management that preserves principal, manages risk and generates income in our clients' portfolios.

Market Summary

Treasury yields moved sharply lower in August in response to concerns about a slowing global economy, equity market turmoil, and sovereign debt issues in the euro zone. Events in Europe have been the primary market mover over the past month, and policy makers there have so far been unable to contain the spreading turmoil. Market participants will be watching closely for a resolution to European sovereign debt issues in the weeks and months ahead.

Recent U.S. economic data has been consistent with a very sluggish pace of growth, but has not been indicative of a recessionary environment. The employment report was disappointing, as the economy did not add any jobs in August. On the plus side, retail sales and consumer credit improved, and leading economic indicators were positive. Some economists have begun to differentiate between "soft" data collected through surveys and "hard" data reflecting actual economic activity. While the former has been quite poor, "hard" data has improved slightly and has given some economists hope that the economy can avoid recession and perhaps even accelerate slightly.

The Federal Reserve kept the federal funds rate at a target range of 0.00% to 0.25% at its August 9 meeting, but deviated from previous policy by specifically stating that it expected to maintain exceptionally easy monetary conditions "at least through mid-2013." In its assessment of current economic conditions, the Fed noted, "economic growth so far this year has been considerably slower than the committee had expected." The Fed also "discussed the range of policy tools available to promote a stronger economic recovery." The next regularly scheduled FOMC meeting is September 20.

Economic Roundup

Consumer Prices

In July, the CPI showed that consumer prices increased 3.6% on a year-over-year basis. The year-over-year Core CPI (CPI less food and energy) increased at a 1.8% rate. Although some producer prices have begun to increase, prices on consumer goods are not expected to rise sharply in the months ahead. The Federal Reserve has noted that it is monitoring commodity price increases, but does not believe that they will flow through to sharply higher consumer prices

Retail Sales

In July, Retail Sales rose 8.5% on a year-over-year basis. Consumer spending has rebounded from the depths of the recession and recent activity has been moderate; however, activity is still far short of the heights of the previous economic expansion as a weak job market and high energy prices restrain consumer spending.

Labor Markets

The August employment report showed that the economy added zero jobs and the previous month's total was revised lower. The unemployment rate remained at 9.1%. This report was disappointing and confirmed that the employment situation in the country remains poor. Even though the economic recovery is two years old, the pace of recovery in the labor market is extremely weak by historical standards and is one of the primary reasons why the recovery has been tepid.

Housing Starts

Single-family housing starts declined 4.9% in July to 425,000, compared to 447,000 in June. The housing market seems to have stabilized following several years of sharp declines, but activity and prices have not yet shown substantial improvement.

Corporate Bonds: A Primer

While Corporate bonds are sometimes perceived as being risky, the fact of the matter is that investment grade (those rated BBB and above) Corporate bonds can enhance portfolio returns without a dramatic increase in risk. Corporate bonds carry higher yields than government bonds, which when combined with their diversification benefits and a rigorous security selection process, can result in an attractive combination of risk/reward for a portfolio.

Historically, Corporate bonds have carried higher yields than government or agency bonds. This difference between corporate and government bond yields, known as the spread, fluctuates over time, but it is always present. The reason that Corporate bonds have these higher yields is to compensate for the credit and default risk that they carry. Even though Corporate bonds are more risky than government bonds, prudent investors can avoid a large portion of this risk while capturing potentially higher returns.

There are two types of risk found in a portfolio: Systematic risk refers to the risk that is inherent throughout the market and thus cannot be avoided; Unsystematic risks are those that are found in an individual company or investment. A properly managed portfolio can reduce unsystematic risk by holding a diversified group of Corporate bonds.

INVESTMENT GRADE

AAA = Carry the smallest amount of investment risk; the obligor's capacity to meet its financial commitment on the obligation is *extremely strong.*
AA = Judged to be of high quality by all standards; differs from highest rated obligations in only a small degree; the obligor's capacity to meet its financial commitment on the obligation is *very strong.*
A = Somewhat more susceptible to adverse effects of changes in circumstances than higher rated obligations; capacity to meet financial commitment is still *strong.*
BBB = Security appears adequate for the present but certain protective elements may be lacking; exhibits *adequate* protection parameters.

SPECULATIVE GRADE

BB and Below = Contain speculative elements; their future can not be considered as well-assured.

Risk can be reduced further by employing a rigorous security selection process. A starting point for the security selection process is looking at issuers' securities ratings. Moody's, S&P, and Fitch are the largest ratings agencies in the United States. These agencies rate securities on a scale, with ratings above "BBB" indicating investment grade securities and ratings below this indicating high yield or speculative securities.

Moody's	S&P	Fitch
Aaa	AAA	AAA
Aa1	AA+	AA+
Aa2	AA	AA
Aa3	AA-	AA-
A1	A+	A+
A2	A	A
A3	A-	A-
Baa1	BBB+	BBB+
Baa2	BBB	BBB
Baa3	BBB-	BBB-
Ba1	BB+	BB+
Ba2	BB	BB
Ba3	BB-	BB-

Importantly, at this point, we do not feel that recent events warrant meaningful changes to investment portfolios. As always, we will continue to closely monitor developments and if circumstances change we will be in further contact with you. In the meantime, please do not hesitate to contact us if you have any questions regarding ongoing events.

While adding a small measure of risk to a portfolio, Corporate bonds also enhance portfolio returns over time. For example, during the ten year period ending 6/30/2011, the annualized return of a 1-5 year government bond portfolio was 4.29%. While this is an attractive return, it was exceeded by that of a 1-5 year portfolio that held 20% of its assets in Corporate bonds. The combined government and corporate portfolio posted an annualized return of 4.45% over the same period, while outperforming the government only portfolio in seven of the ten years. During the ten-year period ending 6/30/2011, the portfolio that held Corporate bonds would have produced excess returns that translated into an additional $2.2 million in growth for a $100 million portfolio.

While past performance is no guarantee of future success, the data does seem to indicate that holding a well-diversified group of Corporate bonds, as part of a portfolio is an attractive long-term proposition. The higher historical returns of such a portfolio, combined with a comprehensive credit review process, can combine to produce a portfolio with an attractive risk/reward profile.

Value on 6/30/2011 of $100 million invested 6/30/2001

	6/30/2011	Annualized Return
1-5 Year Government Benchmark	$152,268,169	4.29%
1-5 Yr Corp A-AAA/Govt Benchmark	$154,498,327	4.45%

RISKS AND OTHER IMPORTANT CONSIDERATIONS
This report is provided for general information purposes only and should not be construed as specific legal, tax, or financial planning advice. All opinions and views constitute judgments or relevant information as of the date of writing and such information may become outdated or superseded at any time without notice. This report is not intended to constitute an offer, solicitation, recommendation or advice regarding any securities or investment strategy. This information should not be regarded by recipients as a substitute for the exercise of their own judgment.

Fixed income investments are subject to interest, credit, and market risk. Interest rate risk: the value of fixed income investments will decline as interest rates rise. Credit risk: the possibility that the borrower may not be able to repay interest and principal. Low rated bonds generally have to pay higher interest rates to attract investors willing to take on greater risk. Market risk: the bond market in general could decline due to economic conditions, especially during periods of rising interest rates.

MORENO VALLEY
WHERE DREAMS SOAR

Community & Economic Development Department
Neighborhood Preservation Division

CITY COUNCIL
MORENO VALLEY
RECEIVED
11 SEP 28 PM 6:10

MEMORANDUM

To: Mayor and City Council/Board of Directors of the Community Redevelopment Agency

From: Barry Foster, Community & Economic Development Director

Date: September 28, 2011

Subject: Draft Recognized Obligation Payment Schedule

Enclosed is the Draft Recognized Obligation Payment Schedule ("DROPS"). The schedule was required to be prepared per Part 1.8 of Division 24 of the Health and Safety Code ("Part 1.8"), as added by ABX 1 26. Subdivision (h) of section 34169, which is included in Part 1.8, requires the Community Redevelopment Agency of the City of Moreno Valley ("Agency") to complete a preliminary DROPS by September 30, 2011.

Part 1.8 of Division 24 of the Health and Safety Code was the portion of the June 27, 2011 redevelopment legislation (ABX1 26 and 27) that the Supreme Court did not stay, the California Redevelopment Association is litigating the validity of ABX 1 26 and ABX 1 27 and the Supreme Court agreed to hear the case and issue a decision in January 2011. Until such time, the Agency is bound by the provisions of Part 1.8.

Part 1.8 includes Section 34169(h), which provides that the Agency is to complete the DROPS for the "successor agency". Unlike the Enforceable Obligation Payment Schedule (EOPS) that the Agency Board adopted on August 23, 2011, the DROPS is required to be completed by the due date, but is not required to be adopted by the Agency Board. (The successor agency is the entity that would take over if the Agency elected to dissolve.) Since the Agency has already elected to continue under AB 27, it would not be required to

prepare the DROPS but for the Supreme Court's stay of all of ABX 1 27 and all but Part 1.8 of ABX 1 26. The selection of a successor agency and/or the oversight board that the successor agency would report to under dissolution is part of ABX1 26 that the Supreme Court stayed. As a result, once the DROPS is completed, the Agency does not need to take any additional action on it.

The Agency is complying with the provisions of Part 1.8 of Section 24 of the Health and Safety Code under protest and under a reservation of rights as to any and all legal rights of the Agency and the City of Moreno Valley in respect to ABX 1 26, ABX 1 27 and the laws and Constitution of the State of California.

The preliminary DROPS is not required to be transmitted to the state or any other entities, and no Board action is required.

Name of Redevelopment Agency: The Community Redevelopment Agency of the City of Moreno Valley

Re: Opposition to the Increase in the County Criminal Justice Administration Fee

Dear Mr. Larry Parrish,

In a letter dated August 18, 2011, the County of Riverside notified the City of Moreno Valley that there will be a public hearing conducted on October 4 whereby a recommendation will be made to the County Board of Supervisors to approve an increase to the Criminal Justice Administration Fee, also known as a booking fee, from $414.45 to $450.34 for Fiscal Year 2011/12. Please consider this letter as a response as part of the public hearing process. Our City opposes this 8.7% fee increase.

As you know, jurisdictions throughout Riverside County are in financially dire straits due to the current recession. Many cities, as well as the County, have reduced their staffing levels, line item expenditures, and benefit packages in order to adopt balanced budgets. Additionally some jurisdictions have reduced their employees' work hours or pay to equate to reduced salary costs. The City of Moreno Valley has been on a 10% furlough program for over three years. With all of these expenditure decreases by surrounding local jurisdictions, it is disappointing that the County does not follow suit in this economy with similar cost reductions and instead continually increases the booking fee each year.

Furthermore, 78.6% of the proposed booking fee is directly related to salaries and benefits of personnel staffing the jail. The County Board of Supervisors just recently imposed a contract on the Riverside Sheriff's Department that reduces all compensation packages by 10%. How can the County justify an 8.7% increase in the booking fee given the significant salary and benefit savings that will occur in Fiscal Year 2011/12?

The City of Moreno Valley does not agree with the proposed increase to the County Criminal Justice Administration Fee, especially given these fiscally challenging times. We respectfully request that the booking fee at least remain at the FY 2010/11 level if not be reduced based on budgetary cost reductions that are or should be implemented.

Sincerely,

Richard Teichert
Financial and Administrative Services Director

Honorable Mary Bono Mack
45th Congressional District
104 Cannon House Office Bldg
Washington, D.C. 20515

Subject: **Request for Support for Time Extension for Submission of the Riverside County Multijurisdictional Hazard Mitigation Plan to the Federal Emergency Management Agency for Grant DR1731-0047-049 Extraordinary Circumstances Exception**

Dear Congresswoman Bono Mack:

The City of Moreno Valley is currently required by the Federal Emergency Management Agency (FEMA) to adopt its Local Hazard Mitigation Plan, as part of the Riverside County Multi-Jurisdictional Plan, by November 3, 2011 or risk losing $1,178,000 in federal funding that was awarded to the City under the Hazard Mitigation Grant Program. Unfortunately the completion of the Riverside County Multi-Jurisdictional Hazard Mitigation Plan was significantly delayed due to the severe winter flooding that both Riverside County and our City experienced in December 2010 for which the President declared a state of emergency for the region (DR1810). The County of Riverside has requested a time extension to complete the Multi-Jurisdictional Mitigation Plan that Moreno Valley is a part of, however, the California Emergency Management Agency has notified the County that FEMA intends to deny the request.

Moreno Valley accepted a Hazard Mitigation Grant award from the federal government on February 8, 2011 for the installation of a storm drain system in the middle of a tract bound by Redlands Boulevard and Merwin Street, from Alessandro Boulevard to Campbell Avenue, and connecting to the existing open channel on the southwest corner of Redlands Boulevard and Brodiaea Avenue. The design for this storm drain improvement is 35% complete and the City anticipates that it will be 65% complete by the end of December.

The City will lose the Hazard Mitigation Grant if FEMA does not grant a time extension to Riverside County to submit the Multi-Jurisdictional Hazard Mitigation Plan by December 31, 2011. This grant is providing critical funding for a much needed project in a flood prone area and it is also providing jobs to our community during a recession that has caused unemployment in Moreno Valley to reach 17.3% in July of this year.

The City of Moreno Valley is requesting your support in contacting FEMA to have the deadline extended to December 31, 2011 for the submission of the Riverside County Multi-Jurisdictional Mitigation Plan so that the City can continue to design and construct the storm drain improvement in the east end of our City that is being funded by the Hazard Mitigation Grant Program.

Sincerely,

Michelle Dawson

MEMORANDUM

To: Mayor and City Council
Henry T. Garcia, City Manager

From: Mike McCarty, Director of Parks and Community Services

Date: September 12, 2011

Subject: Parks and Community Services Monthly Update

PARK PROJECTS

1. Shadow Mountain Park Ballfield Lighting and Restroom Project

   Project Description: Installation of sports field lighting and a new prefabricated restroom.

   Status: The park is completed and reopened on September 3, approximately two months earlier than the planned date. The re-dedication is scheduled for September 12.

2. Replacement Play Equipment at Ridgecrest, Gateway and Sunnymead Parks

   Project Description: The playground equipment at these sites is outdated, not meeting current safety codes. The project will bring the play equipment up to current standards for safety and ADA.

   Status: The project is scheduled for approval on the consent agenda of September 13 council meeting. Installation is expected to be completed in the winter of 2011.

3. Lasselle Sports Park

   Project Description: This developer constructed (no cost to the City) project is 12¾ acres. Amenities are to include: restroom and concession, three turf football/soccer fields with natural turf, security lighting, picnic facilities, play apparatus and parking for approximately 200 vehicles.

   Status: The developer is in the process of obtaining required permitting from the Department of Water Resources, EMWD, and the City. Completion of the project is planned for fall/winter 2012.

MegaMind, How to Train Your Dragon, Despicable Me, Diary of a Wimpy Kid, Shrek Forever After, and Yogi Bear. Each week also featured water days and other fun-filled summer activities. As exciting as the summer was, staff did say goodbye to all graduating participants that began kindergarten in early August. We thank all parents and children for a wonderful summer experience.

The annual Time for Tots Open House was held on August 18 at the TownGate Community Center. This fun-filled event features an information booth, face painting, arts and crafts, a bouncer, police and fire vehicles tours, and light refreshments.

The fall Time for Tots sessions began on August 22. They created new inventive, hands-on, educational curriculum that will be sure to help the young Time for Totters be prepared for kindergarten in the near future.

Summer Valley Kids Camp came to a close on August 9. Registration held steady in the triple digits for seven out of eleven weeks. Local children in kindergarten through eighth grades enjoyed playing fun-filled games, performing creative skits, watching movies, playing video games, creating artistic crafts- including, carnival-like games and activities onsite including a wonderful session with Color Me Mine. Participants also attended action-packed field trips to Brunswick Moreno Valley Bowl, Los Angeles Zoo, Yucaipa Regional Park, Cal Skate, Pharaohs' Lost Kingdom, and Celebration Park.

Staff are preparing for the 2011 Fall Valley Kids Camp which will be open in November when local Moreno Valley and Val Verde Unified School Districts close for the week of Thanksgiving. It is sure to be a fun-filled, festive experience.

YouthFest 2011 is scheduled to be held on September 10 at Community Park. from 10:00 a.m. to 2:00 p.m. Local residents are welcome to join community youth-based businesses and organizations for complimentary festivities as they gather information regarding youth programs available in the community. The annual event also features a DJ, raffles, emergency vehicles available for public tours, and showcases dance and music performances. There are 62 organizations and businesses that are confirmed to attend.

The Summer Youth Basketball has completed. There were more than 260 youth participating.

Adult softball and soccer leagues are nearing the end of their competitive seasons. There were 35 adult teams participating.

Pee Wee and Junior Spudball ended with a successful awards ceremony. The program served 120 youth.

Adult basketball league ended with five teams of adults.

Pee Wee and Junior flag football began with more than 120 youth. Games begin September 8.

Senior Center Spotlight

Greeting from the Creative Writing Class at the Moreno Valley Senior Center.
Do you have memories, wit and wisdom you'd like to share with family and friends?
Come join the class, share those memories, stimulate your imagination and tap into your creative well. Below are two pieces written by our class members.
Our Class meets every Tuesday from 10:00A to 11:30A.
-Ana Christian, Facilitator

Marvels of the Mundane

By Anna Chase

I'm not talking about contemplating ones naval here, but rather about making a conscious effort to recognize and be grateful for those everyday things most of us take for granted. A good place to start is by imagining yourself without those most basic things, like a place to sleep, indoor plumbing, warm clothing or enough food.

Imagine being without your sense of sight, hearing or smell, or not being able to walk. Once we imagine being without these things, the simple pleasures we take for granted every day seem like heavenly gifts.

When I'm at home feeling bored or sorry for myself because I don't have money to take a vacation to some exotic destination, that's when I need to remind myself to take a good look at my surroundings- maybe at the peace and serenity of my favorite room. I am also blessed to be able to go outside and take a walk where there are trees and flowers. There's even a beautiful lake across the street. Then I begin to realize just how fortunate I am.

I think about savoring that first cup of morning coffee while watching the sun come up. I think about putting berries on my breakfast cereal and savoring each one. While showering, I think about the fact that I can simply turn the tap and have hot and cold running water. What a wondrous thing! These are just a few of the little things to think about as we start the day, but the possibilities are endless and can be done throughout the day, if we really make an effort to live in the moment.

I decided to make a list of some of my favorite simple pleasures to look at when I'm feeling a lack of excitement in my life. For example, walking barefoot in grass, listening to some mellow jazz, reading a good mystery novel, watching the sunset, dancing to reggae beats, having a good laugh with a friend, waking to a clean house, taking an afternoon nap, swinging on a swing, or having a picnic.

I must admit, I don't think about being grateful for the simplest things as often as I should, but when I do it really makes a difference in the way I feel. It reminds me of the positive things in my life and the people in my life, whether they are loved ones or maybe a stranger who was kind to me. It's hard to complain about the little things when I can be thankful that my loved ones and I are alive and healthy enough to be able to enjoy the simple things that are all around us every day.

July 12, 2011

CITY COUNCIL
MORENO VALLEY, CA
RECEIVED
11 JUL 13 AM 7:37

Mr. Aaron Stutzman
24383 Groven Lane
Moreno Valley, Ca 92557

Mr. Stutzman,

On June 30, 2011, Code Compliance staff received an anonymous complaint regarding the alleged storage of commercial vehicles at your residence. Consequently, staff sent an initial contact letter via regular mail requesting that you correct the alleged violation or notify our office if you felt the notification was sent to you in error.

It is my understanding you recently expressed concern regarding our correspondence to the Mayor Pro-Tem. Therefore, the City Manager's Office has requested that the Code & Neighborhood Services Division conduct an investigation into this matter.

I have completed my investigation and have found no evidence to support the initial complaint received by our office. The City of Moreno Valley's Municipal Code (section MVMC 12.38.020(B)(1)) does prohibit the storage of vehicles in excess of 10,000 pounds in residential zones. However, Code Compliance staff did not discover evidence to establish the alleged violation. Therefore, staff will immediately close our investigation.

Should you have any questions or require additional assistance, please contact me at (951) 413-3335 or via email at alb@moval.org. Thank you.

Sincerely,

Al Brady
Code and Neighborhood Services Official

Subject: Dog License Application

Dear Mr. Geller,

Thank you for your letter dated June 2, 2011 outlining your concerns regarding the city's on-line dog license application.

I agree the current on-line form is outdated so I've requested our Office Supervisor, Denise Raymond, to review the current dog license application form and make the necessary revisions to include additional information including tattoo and email information that we can include in our database system. The Animal Services Division is currently working on the revised form and plan to have it on-line within the next 30 days.

In April 2011 the Animal Services Division began researching the viability to allow Moreno Valley residents the ability to purchase both new and renewal dog licenses on-line using the latest technology available. We are in the process of purchasing the on-line Web License© Processing Services from HLP, Inc. This new technology will enable the Animal Services Division to reduce some operational costs, provide our staff with added information to better contact owners of lost pets, along with offering city residents the convenience of purchasing a new or renewal dog license on line. Last year Animal Services Division staff began collecting email addresses from customers renewing and purchasing new dog licenses at the animal shelter. Collecting email addresses will be an ongoing effort and will aid in further reducing operational costs by processing dog license renewals via email versus mailing postcards by utilizing the Postmaster module in our database system. Animal Services has also used email address to contact owners of lost pets.

HLP, Inc., "Chameleon" is the database system Moreno Valley Animal Services currently uses for all operational areas within the Animal Services Division.

Steve Friese, Animal Services Division Manager
City of Moreno Valley-Animal Services Division
PO Box 88005
Moreno Valley CA 92552-0805

Dear Mr. Friese:

I am a long time resident of this City and owner of many dogs over the years. I recently applied for a license for a new dog. I am sorry, but if your agency is really serious about returning lost dogs to their owners the data base needs to be changed. Your current application and data base looks like it did back in the 1980's. The data base and forms should be modernized to cover the modern era so that if an animal is found, the owner can be located and notified quickly. While collars are great, they do come off. Almost everyone has email and many, if not most, dogs have chips but some are not fully registered or not registered at all with the manufacturer. If you can do your own search on the chip ID, the time missing will be vastly reduced. The service dogs I raise have tattoos but no chips. There is no reason once identified, emails, sms messages and calls to the primary and emergency contact cannot be made immediately, even from the truck. Most people I know have phones with email capability and all phones can receive sms messages.

Here is my proposal:

Owner name _____
Street Address _____
City_____ Zip Code _____

Primary Phone Number _____
Cell Phone Number _____ Email _____
Emergency Contact Name _____ Phone _____

Dog Name _____ M/F _____ Age _____ Color _____ Breed _____
Microchip Type _____ Micro-Chip Number _____ Tattoo Y/N _____
Tattoo Location _____

MEMORANDUM

11 MAY 23 PM 2:58
CITY CLERK
MORENO VALLEY
RECEIVED

To: Mayor Stewart and City Council Members

From: Jeff Bradshaw, Associate Planner

Date: May 23, 2011

Subject: West Ridge Commerce Center project – appeal request

The West Ridge Commerce Center Project is comprised of five applications, which include a Zone Change from BP to LI, a Municipal Code Amendment, a Plot Plan, a Tentative Parcel Map, and an Environmental Impact Report, in order to develop a 937,260 square foot warehouse facility on a 55-acre site (Assessor's Parcel Numbers 488-330-003 through -006 and -026) located on south side of the Moreno Valley Freeway, on the north side of Fir Avenue/Future Eucalyptus Avenue and approximately 650 feet west of Redlands Boulevard.

This project was presented to the Planning Commission at a public hearing on May 12, 2011. Following the public hearing and commissioner debate, the Planning Commission voted 3-2 denying approval of the requested Zone Change, effectively denying the project.

The applicant, Ridge Rancho Belago, LLC, submitted an application on May 19, 2011 appealing the Planning Commission's denial of the project. The appeal application was received within the 15 day appeal period. Please find attached a copy of the appeal letter.

Planning staff is working with the applicant on the items required for the City Council staff report and will coordinate with the City Clerk' Office to place this project on a City Council agenda when it is complete.

Re: P08-133, PAO8-0097, 0098, 0022 and PA08-0017

Dear Council Members Stewart, Batey, Hastings, Molina and Co:

Please accept this letter as our formal appeal of the City of Moreno Valley Planning Commission denial of the proposed Westridge Commerce Center Project (the "Project") at the Planning Commission Meeting held on May 12, 2011. Specifics of the Project are as follows:

Case Description:
Plot Plan for a 937,260 square foot warehouse facility on 55 acres, Tentative Parcel Map No. 36027, Zone Change from BP to LI, a Municipal Code Amendment and an Environmental Impact Report.

Pursuant to the denial, there were many questions and discussions centered on the following:
1) Aesthetics (the Architecture of the building).
2) The uncertainty of a known lessee at this time.
3) Traffic
Our position and basis for our appeal relating to the above are:
1) We have constructed buildings in Centerpointe Business Park (across Frederick Street from City Hall) that are similar to what we are proposing at WestRidge Commerce Center and we have received many compliments from past planning commissions and city councils. This issue is totally personal, subjective, and without merit. We worked hard with staff to make this building appealing and to the level of standards Moreno Valley can be very proud of. In fact, the WestRidge Commerce Center architect, HPA, is the same architect for the Skechers building.
2) It is a very rare situation to have a lessee sign a lease for a building without the entitlements in place. The fact that Skechers signed a lease without entitlements is rare. Considering Skechers is a partner in the building with Highland Fairview and the fact there are very few, if any, sites available in the Inland Empire of a size to accommodate the large Skechers building.

MV00234048

3) Intersections and roadway improvements were clearly identified in the traffic analysis as being necessary to maintain or improve operational levels of service for this Project and General Plan. This Project will build all required improvements in the immediate vicinity as well as other off-site infrastructure required by the development. Furthermore, Redlands Blvd is a city designated truck route and the planning commission stated they did not want trucks mixing with automobiles.

Financial & Administrative Services Department

MEMORANDUM

CITY COUNCIL
MORENO VALLEY
RECEIVED
11 MAY 18 AM 11:45

To: Mayor and City Council Members

From: Rick Teichert, Financial & Administrative Services Director

Date: May 16, 2011

Subject: Response to inquiry about General Fund Reserves available for use for CSD Zone B Streetlight expenditures

At a recent Council meeting Resident Deanna Reeder asserted that there should have been some connection between the General Fund investment in 2007 Taxable RDA bonds by the General Fund in the amount of $22.5 million and the City Council's action to submit a fee increase for CSD Zone B Street Lighting to the voters.

As indicated below, these separate and independent actions taken by the Council in the management of the City's financial goals and services and have no relation to one another:

- 2007 taxable RDA Bonds. In October 2007, the City's Redevelopment Agency issued taxable bonds as Series A in an amount not to exceed $55 million and Series B in an amount not to exceed $22.5 million. Both of these issues were established to fund the completion of specific projects within the RDA area that would benefit the City by their completion. The Series A Bonds were issued to the public and committed RDA Property Tax increment to repay the bonds. At that time there was insufficient RDA Property Tax increment to publicly issue the Series B bonds. The City chose to purchase the bonds created as Series B with General Fund reserves to preserve the value of the work completed to this point. The intent was to issue the Series B bonds publicly when tax increment grew to support the debt service. The onslaught of the recession changed the course of this intended action for both the ability of the RDA to support the debt issue and creating a need for the fund balance in the General Fund.

- Zone B Street Lighting. The Community Services Districts operate as distinct, separate entities from the City. This is how the CSDs were intended to operate to provide specific services to the residents of Moreno Valley since the voters established the CSDs in 1984. Proposition 218 (passed by California voters in November 1996) changed how the CSD fees could be managed, requiring property owners votes to approve fee increases. Since the implementation of Prop. 218 in 1996, growth in parcels created enough growth in CSD revenues to fully fund the street lighting districts.

The recession changed the trend in parcel fee growth and the costs of operating streetlight services funded through CSD Zone B necessitated a fee increase in FY 2009/10. Council approved a request for a fee increase go to the voters in June 2009. When the voters denied the fee increase, the City Council requested a second vote to be sure the voters intended to experience the loss of street lighting services. A second vote was completed in September 2010. At that time the City Council made a decision to, for the first time since the CSDs were established, use General Fund to support a district, in this case Zone B. As indicated above, the CSDs were intended to operate independently from the City's General Fund. It was the decision of the City Council to provide funding to Zone B to keep the residential street lights on while staff pursues other possible solutions. Staff is currently working with the California City-County Street Light Association to have what we believe is an unfair tariff issue addressed in the hearings for the SCE rate case currently under review by the California Public Utilities Commission.

In conclusion, the debt between the City and the RDA was clearly documented in each annual audited financial report (CAFR). Any fund balance in General Fund was being held for purposes of managing through the significant General Fund deficit and was not contemplated to be used for an independent special district. Therefore, there was not and would continue to not be a connection to fund balance invested in the RDA by the General Fund and a fee increase request by an independent Special District.

MEMORANDUM

To: Mayor and City Council
Henry Garcia, City Manager

From: Rick Teichert, Financial & Administrative Services Director/City Treasurer

Date: June 28, 2011

Subject: Monthly Investment Report – May 2011

Attached is the Monthly Investment Report (Treasurer's Cash and Investments Report) for the month ended May 31, 2011. All investments comply with California Government Code Section 53601 as to the types of investments allowed and the limits of each type. In addition, all investments comply with the City's annually adopted Investment Policy.

The investments managed by Chandler Asset Management totaled $177,231,536 and achieved a Yield to Maturity (YTM) for May 2011 of 1.57%. This compares to a YTM in April 2011 of 1.64% and a YTM in May 2010 of 1.82%. In addition, the City maintained $37,578,573 in the State Local Agency Investment Fund Pool with a YTM of 0.52%. Rates of return on fixed income investments continue to remain soft, reflecting the current efforts by the Federal Reserve to energize the economy. Staff does not anticipate any significant increase in the near future.

The June Quarterly Investment Report will be presented at a regular City Council meeting in August 2011. Submitting this May 2011 Monthly Investment Report by internal memorandum ensures that the Council and City Manager are kept apprised of the City's investments between the regular quarterly reports.

Please contact me (951-413-3024) or Brook McKinney (951-413-3077) with any questions.

Holdings Report Glossary

CUSIP (Committee on Uniform Securities Identification Procedures) – A unique identification number assigned to all securities.

Security Description - The issuer name, coupon (periodic interest payment rate) and maturity.

Par Value/Units - The face value or number of units held in the portfolio.

Purchase Date - The settlement date on which the security was purchased.

Book Yield - The YTM that equates the current amortized value of the security to its periodic future cash flows.

Cost Value - The value at which the securities were purchased, excluding purchased interest.

Book Value - The value at which an asset is carried on a balance sheet. To calculate, take the cost of an asset +/- net accretion/amortization.

Mkt Price - The current fair value market price.

Mkt YTM – The internal rate of return that equates the periodic future cash flows (interest payments and redemption value) to the market price, assuming that all cash flows are invested at the YTM rate.

Market Value - The current fair value of an investment as determined by transactions between willing buyers and sellers.

Accrued Int. - The interest that has accumulated on a bond since the last interest payment up to, but not including, the settlement date.

% of Port. - The % of the portfolio that the security represents based on market value, including accrued interest.

Gain/Loss – The unrealized gain or loss on the security, compared to either cost or amortized value, as of the date of the report.

Moody - The Moody's rating for the security.

MV00234062

Holdings Report Glossary (continued)

S&P - The Standard and Poor's rating for the security.

Term (yrs) - The time, in years, until maturity.

Duration - The weighted average time to maturity of a bond where the weights are the present values of future cash flows. Duration measures the price sensitivity of a bond to changes in interest rates.

Since 1988, Chandler Asset Management has specialized in the management of fixed income portfolios. Chandler's mission is to provide fully customizable, client-centered portfolio management that preserves principal, manages risk and generates income in our clients' portfolios.

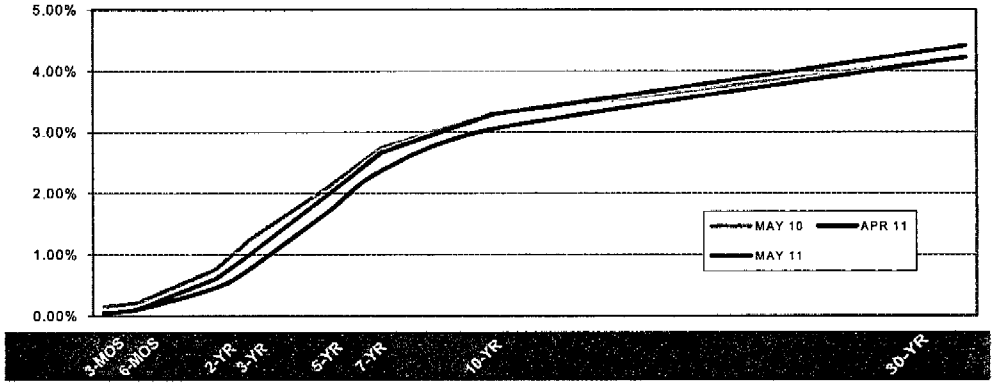
Market Summary

Treasury yields were lower in May as market participants debated whether weaker economic data is only temporary or if it is a sign of another economic slowdown. With the end of the Federal Reserve's asset purchase program (QE2) looming, market participants are also focusing on the future course of Fed policy.

Economic growth remains consistent with a sluggish economic recovery, although data last month was mostly disappointing. The non-farm payrolls report showed a weaker than expected gain of only 54,000 jobs, and the unemployment rate increased to 9.1%. The housing market remains very weak, and the impact of higher gas prices on consumer spending remains to be seen. Although raw material prices remain high, inflation talk has subsided slightly as market participants have shifted their focus to slower economic growth.

The Federal Reserve maintains its exceptionally easy monetary policy but will conclude its scheduled asset purchase program in June, as previously announced. The next Fed meeting is June 22, and market participants will be watching closely for signs of what the Fed will do following the completion of its asset purchase program (QE2).

TREASURY YIELDS LOWER IN MAY



Treasury yields ended the month lower, with yields on securities in the three to ten year range declining by more than shorter and longer term securities.

YIELDS	5/31/11	4/30/11	CHANGE
3 Month	0.05	0.04	0.01
2 Year	0.46	0.61	(0.15)
3 Year	0.76	1.00	(0.24)
5 Year	1.69	1.97	(0.28)
7 Year	2.38	2.67	(0.29)
10 Year	3.05	3.29	(0.24)
30 Year	4.22	4.41	(0.19)

Economic Roundup

Consumer Prices

In April, the CPI showed that consumer prices increased 3.2% on a year-over-year basis. The year-over-year Core CPI (CPI less food and energy) increased at a 1.3% rate. Although some producer prices have begun to increase, prices on consumer goods are not expected to increase sharply in the months ahead. The Federal Reserve has noted that it is monitoring commodity price increases but does not believe that they will flow through to sharply higher consumer prices.

Retail Sales

In April, Retail Sales rose 7.6% on a year-over-year basis. Consumer spending has rebounded from the depths of the recession, and recent activity has been promising. However, activity is still far short of the heights of the previous economic expansion.

Labor Markets

The May employment report showed that the economy added only 54,000 jobs, representing a significant decline from the past several months. Meanwhile, the unemployment rate rose for the second consecutive month and now stands at 9.1%. Even though the economic recovery is nearly two years old, the pace of recovery in the labor market is extremely weak by historical standards. Given the weakness in this report, market participants will watch next month's report carefully to see whether the employment situation is beginning to stagnate.

Housing Starts

Single-family housing starts declined 5.1% in April to 394,000, compared to 415,000 in March. On a year-over-year basis, housing starts were down 23.9% compared to April 2010. This report indicates that the housing market remains relatively weak and continues to struggle to gain momentum.

Why a U.S. Treasury Downgrade Shouldn't Matter for Bond Investors

Standard & Poor's decision on April 18, 2011, to place the United States' credit rating on negative outlook served as a shot across the bow for both U.S. policy makers and investors around the globe. The rating agency assigned a one in three probability that the U.S. will lose its pristine "AAA" credit rating, perhaps in the next 18-24 months. At this point, the prospects for a political compromise that would place the country on a path towards fiscal sustainability and forestall a downgrade appear bleak. Republicans are insistent that the deficit must be narrowed without any tax increases, while Democrats are adamant about not cutting entitlement spending.

Despite the seeming intractability of the two sides' respective positions, investors would do well to remember that, as Winston Churchill famously said, "Americans can always be counted on to do the right thing ... after they have exhausted all other possibilities." In other words, despite how poor the odds of compromise currently appear, there is still a very good chance that policymakers will eventually find a solution that will allow the U.S. to retain its "AAA" rating. In fact, S&P actually affirmed the country's current "AAA" rating, as did Moody's. On the other hand, if the U.S. does indeed suffer a ratings downgrade, the event would undoubtedly prove bruising to the psyche of a nation still reeling from the effects of the financial crisis and Great Recession. Furthermore, a downgrade would trigger an avalanche of negative commentary from market participants, politicians, and media pundits. All of this chatter will simply be background noise though because, as this article will demonstrate, a U.S. credit downgrade will ultimately have little real impact on investors.

Are U.S. Treasuries Junk?

A credit rating is ultimately an indication of the likelihood that bondholders will receive full and timely payment of all principal and interest. A higher rating indicates greater certainty of repayment, and a lower rating less certainty. However, even if the United States is downgraded, it will not materially impact the country's ability to repay its debt. As the world's reserve currency, the U.S. issues debt denominated in dollars, which means that in a worst-case scenario the government could simply print more money to pay back bondholders. Although this is an extremely unattractive option, it is unlikely that the U.S. reaches a point where it even needs to consider rolling the printing presses.

First, even in the event of a downgrade, the United States would likely carry an "AA" credit rating – one of the highest available and still indicative of exceptional credit worthiness. Second of all, the United States remains the world's largest economy and has one of the world's highest standards of living, a well-educated population, reasonably good demographics, and a well-established legal and political system. Additionally, if investors are to forsake the U.S., they need a viable investment alternative. With Europe and Japan facing their own issues, and the developing markets still developing, the U.S. is likely to remain the world's premier investment destination. Despite what doom-and-gloom pundits might say, this situation is unlikely to change in decades to come.

Finally, and counterintuitive as it might seem, a credit downgrade might actually help the United States. Ultimately, what matters is not the relative credit rating assigned by rating agencies, but rather the country's ability to pay back its debt. Regardless of any ratings action taken, the United States is currently on an unsustainable fiscal path. If a downgrade can help spur more timely action on some of the structural problems the country faces, such an event might actually prove beneficial in the long run.

Should You Be Selling Your Treasuries?

With all of the bad news about the Treasury market, many investors have recently been asking themselves if they should sell their U.S. Treasuries. Before doing so, it might be wise to consider several points. First, ratings agencies and other prognosticators have been wrong before and many large investors are on record as buyers of U.S. Treasury bonds. In fact, ten-year Treasury yields have fallen by around 40 basis points in the past six weeks, indicating that investor interest is strong.

More importantly, although some institutional fixed income investors have wide mandate to invest in nearly any fixed income asset class around the globe, most investors are more constrained and are limited by their investment mandate. For instance, they might be limited to purchase only domestic fixed income or only bonds rated "A" or better. Additionally, many institutions have structural reasons for purchasing Treasuries; for example, bank capital requirements encourage holding a certain percentage of Treasuries. This preference for holding "safe" assets has only been reinforced by the ongoing efforts at financial reform. These structural considerations greatly restrict the available investment

MV00234068

choices for many investors while also ensuring that there will continue to be a built-in investor base that purchases Treasuries.

In the end, an average high-quality fixed income investors' options are primarily limited to government bonds, government agency bonds, high-grade corporate bonds, and mortgage and asset-backed securities. For most of these investors, U.S. Treasury bonds will remain the safest possible investment alternative, regardless of what credit rating the U.S. carries. Furthermore, in the event that Treasuries are downgraded, many other instruments that receive implied or explicit rating support from the U.S. government might also be downgraded; including: government agency bonds, mortgage backed securities, and perhaps, the bonds of large banks whose ratings are currently enhanced by implied government support.

Finally, regardless of any ratings actions, the Treasury market will likely remain the most liquid fixed income market in the world. This liquidity is one of the primary reasons that foreign investors such as the Chinese government purchase Treasuries in the first place. Simply stated, not many other markets around the globe are capable of absorbing the huge amounts of money seeking a high-quality, low-risk outlet. This liquidity component is often demonstrated during times of market crisis, when investors generally bid up the price of Treasuries in a flight to quality. The dual characteristics of safety and liquidity are somewhat unique to Treasuries and represent a compelling argument for why they will continue to form an important component of many investment portfolios.

Tactics Versus Strategy

Speculation about a U.S. downgrade, or its actual occurrence, will likely have an impact on Treasury trading over a period of days or perhaps even weeks. However, in the longer term, this impact will be outweighed by market moving events, such as the economic cycle, the level of inflation and inflation expectations, and Federal Reserve monetary policy. The price of Treasuries will rise and fall across market cycles just as they always have, but any re-pricing that results from a credit downgrade is likely to be both minimal and transitory.

Savvy investors might try to time the market, and selling Treasuries at this point could be the right thing tactically (during the current market cycle) while still being incorrect strategically (over the life of your investment program.) Of course, selling Treasuries now requires the impeccable timing needed to repurchase them at precisely the right moment; some investors may be fortunate enough to have this timing, but it is a rare skill and the opportunity cost is high for those that get this wrong. For that reason, most investors are well advised to maintain their strategic allocation to U.S. Treasuries rather than abandoning them as part of a tactical market call.

Conclusion

A U.S. credit rating downgrade would undoubtedly hurt the nation's pride while unleashing a torrent of negative publicity, both domestically and abroad. Nevertheless, the real impact on investors would most likely be decidedly muted, particularly in the longer run. Treasury securities have a built-in investor base that has few investable alternatives, and those that do exist would likely be downgraded in line with Treasuries. Furthermore, even with an "AA" credit rating, U.S. Treasuries would remain among the safest, most liquid securities in the investment world.

In the end, it is possible that interest rates on Treasuries may rise, but this is far more likely to occur due to stronger economic growth or tighter monetary policy than as a result of any ratings actions S&P or Moody's might take. Regardless of headlines, Treasuries are set to remain the foundation of investment-grade fixed income portfolios for decades to come.

Mayor Stewart

MORENO VALLEY
WHERE DREAMS SOAR

CITY COUNCIL
MORENO VALLEY
RECEIVED
11 MAR 14 PM 12:41

Financial & Administrative Services Department

MEMORANDUM

To: Mayor and City Council
Henry Garcia, City Manager

From: Rick Teichert, Financial & Administrative Services Director/City Treasurer

Date: March 10, 2011

Subject: Monthly Investment Report – January 2011

Attached is the Monthly Investment Report (Treasurer's Cash and Investments Report) for the month ended January 31, 2011. All investments comply with California Government Code Section 53601 as to the types of investments allowed and the limits of each type. In addition, all investments comply with the City's annually adopted Investment Policy.

The March Quarterly Investment Report will be presented at a regular City Council meeting in May 2011. Submitting this January 2011 Monthly Investment Report by internal memorandum ensures that the Council and City Manager are kept apprised of the City's investments between the regular quarterly reports.

Please contact me [redacted] or Brook McKinney [redacted] with any questions.

Maximum maturity	5 years	Complies

Holdings Report Glossary

CUSIP (Committee on Uniform Securities Identification Procedures) – A unique identification number assigned to all securities.

Security Description - The issuer name, coupon (periodic interest payment rate) and maturity.

Par Value/Units - The face value or number of units held in the portfolio.

Purchase Date - The settlement date on which the security was purchased.

Book Yield - The YTM that equates the current amortized value of the security to its periodic future cash flows.

Cost Value - The value at which the securities were purchased, excluding purchased interest.

Book Value - The value at which an asset is carried on a balance sheet. To calculate, take the cost of an asset +/- net accretion/amortization.

Mkt Price - The current fair value market price.

Mkt YTM – The internal rate of return that equates the periodic future cash flows (interest payments and redemption value) to the market price, assuming that all cash flows are invested at the YTM rate.

Market Value - The current fair value of an investment as determined by transactions between willing buyers and sellers.

Accrued Int. - The interest that has accumulated on a bond since the last interest payment up to, but not including, the settlement date.

% of Port. - The % of the portfolio that the security represents based on market value, including accrued interest.

Gain/Loss – The unrealized gain or loss on the security, compared to either cost or amortized value, as of the date of the report.

Moody - The Moody's rating for the security.

MV00234079

Holdings Report Glossary (continued)

S&P - The Standard and Poor's rating for the security.

Term (yrs) - The time, in years, until maturity.

Duration - The weighted average time to maturity of a bond where the weights are the present values of future cash flows. Duration measures the price sensitivity of a bond to changes in interest rates.

Since 1988, Chandler Asset Management has specialized in the management fixed income portfolios. Chandler's mission is to provide fully customizable, client-centered portfolio management that preserves principal, manages risk and generates income in our clients' portfolios.

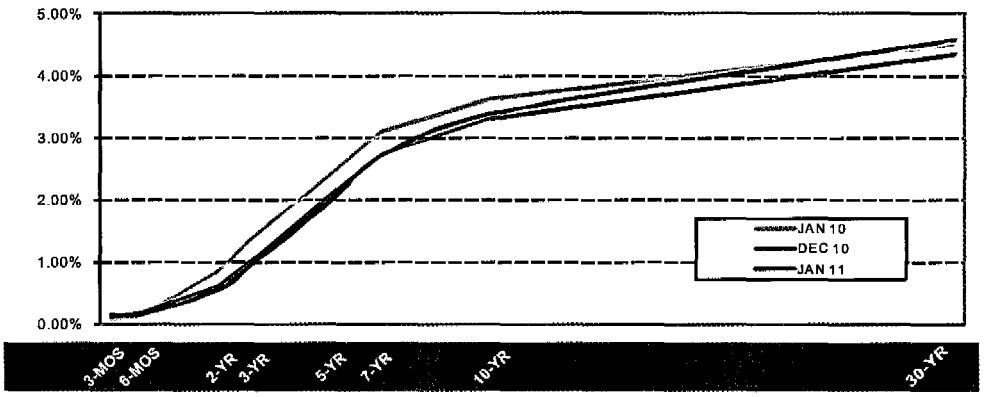
MARKET SUMMARY

Treasury yields were mixed in January, as better economic data led to higher long-term rates while market participants took advantage of Q4 2010's selloff to purchase some short and intermediate-term Treasuries.

Fears of a return to recession, or a prolonged period of deflation, have virtually disappeared for the moment, and many economists have begun revising their economic forecasts higher. The first reading of Q4 2010 GDP showed that the economy grew at a 3.2% annual pace, the fastest rate of growth since the previous spring. The report also indicated that companies had drawn down inventories in the fourth quarter—a bullish sign for future growth (lower inventories mean that companies will have to increase future production in order to restock the shelves.) However, the jobs report was somewhat disappointing, and the labor market has not yet picked up significantly making it unlikely that the economy is poised to enter a truly robust growth phase.

Although commodity prices have been increasing, inflation readings remain tame, with the Core CPI (ex-food & energy) report indicating a year-over-year increase of only 0.8%. Although fears of deflation have almost disappeared, most economists forecast continued moderate inflation well into 2011. The Federal Reserve maintains its exceptionally easy monetary policy, and continues to purchase longer-dated Treasury securities in an effort to promote economic growth. The next Fed meeting is March 15, and most market participants expect no change in Fed policy at least through mid-2011.

TREASURY YIELDS MIXED IN JANUARY



Treasury yields ended the month mixed as short-term rates declined slightly while long-term rates were moderately higher. The yield curve steepened and the spread between 2-year Treasuries and 10-year Treasuries is near a record high.

YIELDS	1/31/11	12/31/10	CHANGE
3 Month	0.15	0.12	0.03
2 Year	0.56	0.60	(0.04)
3 Year	0.96	1.00	(0.04)
5 Year	1.95	2.02	(0.07)
7 Year	2.71	2.72	(0.01)
10 Year	3.38	3.30	0.08
30 Year	4.57	4.35	0.22

ECONOMIC ROUNDUP

CONSUMER PRICES

In December, the CPI showed that consumer prices increased 1.5% on a year-over-year basis. The year-over-year Core CPI (CPI less food and energy) increased at a 0.8% rate. Although some producer prices have begun to increase, prices on consumer goods appear stable at this point. Many economists believe that inflation will remain moderate over the next 12 months, although fears of deflation appear to have subsided somewhat.

RETAIL SALES

In December, Retail Sales rose 7.9% on a year-over-year basis. Consumer spending has rebounded from the depths of the recession and recent activity has been promising; however, activity is still far short of the heights of the previous economic expansion. Consumers remain somewhat cautious due to job losses, home price declines, and a general tightening of credit standards.

LABOR MARKETS

The January employment report showed that the economy added just 36,000 jobs, significantly fewer than the market was expecting. The private sector added 50,000 jobs in January, while government jobs fell 14,000. Meanwhile, the unemployment rate unexpectedly dropped to 9.0% (from 9.4%). The consensus estimate was 9.5%. The decrease in the unemployment rate was largely due to a drop in the labor force. Overall, the latest employment report was mixed, but points to a gradually improving labor market. Severe winter weather may have hindered payroll growth in the month.

HOUSING STARTS

Single-family housing declined 9.0% in December, the lowest level since May 2009. This report was below expectations, but could be related to the difficult weather conditions experienced in certain regions of the country.

CREDIT SPREADS MIXED

CREDIT SPREADS	Spread to Treasuries (%)	One Month Ago (%)	Change
3-month top-rated commercial paper	0.11	0.17	(0.06)
2-year AA corporate note	0.35	0.40	(0.05)
5-year AA corporate note	0.55	0.61	(0.06)

On Raising the Debt Ceiling

The debt ceiling currently stands at $14.3 trillion; it is projected to be reached in early 2011. As this event nears, the question of whether to raise the federal debt ceiling or not will likely garner more interest and debate. This discussion should include consideration of the broader issues of deficits and the overall level of debt.

The debt ceiling statutorily restricts the total amount of debt the federal government can incur. Unique to the American political process is that Congress authorizes spending (including deficit spending) separately from issuing debt. Under this two part arrangement, Congress can spend more than it collects while, at the same time, denying the authority to borrow to make up the difference. Therefore, in theory, there could be a situation where the federal government spends but is hamstrung from borrowing by the debt ceiling. This could lead to the curtailment of some government activities, the halting of certain federal benefits or to default.

Depending on which side of the fence one sits, catastrophe looms with not raising the ceiling and calamity from raising the ceiling and continuing to issue debt. Raising the debt ceiling at this point would merely allow the Treasury to meet obligations that have already been authorized; it does not change or increase the debt outstanding.

One side of the debate argues that not raising the debt ceiling would have disastrous consequences for the U.S. economy and global financial markets. It would erode confidence in U.S. debt, the U.S. dollar, and the economy. Historically, U.S. debt has had zero default risk, and thus, has served as a safe haven for investors worldwide. Even the subtlest suggestion of risk introduces a risk premium and increases the interest rate investors would demand to hold U.S. Treasury securities. Global financial markets, already on edge from the European sovereign debt crises, would be in turmoil.

Furthermore, this side contends the budgetary consequences would be dire, especially in light of the economy's fragility. A drop in spending would cause a decrease in economic growth and employment as the economy is starting to recover. In a worst-case scenario, the United States would have to turn to the International Monetary Fund for assistance.

The opposing argument suggests that a choice between more debt and default is no choice at all. Raising the debt ceiling merely prolongs hard decisions on entitlements and spending, structural imbalances and necessary reforms. Instead of raising the ceiling to avoid default, it recommends significant spending cuts and sequencing debt payments. This side argues that any increase in the ceiling must be accompanied by a spending cut.

In the long run, more debt is likely to prove damaging to the economy. Interest rates would probably increase, and the value of the dollar would fall. The government might even allow this to happen so that debt repayment would be in cheaper dollars, and consequently, less expensive. Investors might then be less willing to buy U.S. debt, forcing interest rates even higher.

Historical Antecedent

The original debt ceiling crisis occurred in 1995, when partisan gridlock obstructed raising the debt ceiling for about six months. This roiled financial markets and forced two government shutdowns. In the past five years, the ceiling has been raised five times. The most recent increase, in February 2010, raised the ceiling by over 15%, or $1.9 trillion, from its previous level established in 2009.

Because the limit has been increased so often, it is perceived as having no real consequence on government finance. Even if Congress balanced the budget, the debt limit would eventually be reached by the very nature of growth.

Refocusing the Debate

Neither option is attractive. Refocusing this debate away from the ceiling question to a broader consideration of federal spending and entitlements, and the debt resulting from deficit spending, might prove more useful.

Government debt is the accumulation of budget deficits. The U.S. debt is the largest in the world. Tax cuts, two wars, high growth government spending, and structural imbalances have all contributed to the debt. The financial crisis exacerbated the situation. Unemployment benefits, bailout bills and the stimulus package added to the deficit. Further, the tax base and government revenues shrunk as unemployment skyrocketed. Each year, interest on the debt is added to the debt. Social Security and Medicare are mandatory costs that are spiraling. As Baby Boomers start retiring, more and more government spending will be devoted to this expense. Historically, the federal government benefited from more workers paying payroll taxes than retirees collecting benefits. Understanding, let alone controlling healthcare costs, has been elusive. Currently, debt levels are above historical averages by many measures. More worrisome, trends suggest more debt to come.

Realizing the unsustainability of the status quo, the Obama Administration created a bipartisan National Commission on Fiscal Responsibility and Reform with a mandate to propose ways of reducing the deficit. The Commission presented its findings and set forth bold proposals to slash the deficit by cutting expenses and reforming entitlements. It presented a restructuring of the tax code that both raises taxes and eliminates deductions and write-offs. Support for the proposals has been tepid. Proposed alternatives have not been meaningful enough to dent the problem.

Addressing the federal deficit requires difficult decisions, many unpopular, and changes to long held practices (ear marking and entitlements). With political will lacking, this is likely the explanation why nothing has been done about the deficit and debt problem to date. There is no winning answer to the question of whether to raise the debt ceiling.

MEMORANDUM

To: Robin Hastings, Councilwoman

From: John C. Terell, Planning Official

Date: January 24, 2011

Subject: Rancho Belago Sign Program

Pursuant to your request, this memorandum details the action taken by the City Council at its January 11, 2011, meeting in regards to the Rancho Belago Sign Program. At that meeting, the City Council approved an amendment to the Sign Program approved on May 25, 2010. The amendment included a number of modifications to the design of the community identification signs for the City Council designated Rancho Belago community in the eastern end of the City. As part of the original approval of the Sign Program, the City Council had requested modifications by the Sign Program applicant, the Rancho Belago Economic Council, to address concerns raised by the City of Beverly Hills City Attorney regarding potential trademark infringement on that city's signs. The modifications submitted by the applicant were reviewed by the Beverly Hills City Attorney's office, which subsequently advised our City Attorney they would not pursue any further their earlier raised concerns. As part of the approval of the revised design, the City Council stipulated that no City seal or logo be included on the signs. No other changes were made to the Sign Program on January 11th.

As part of the original approval of the Sign Program, the City Council took a separate action to allocate funding for installation of the signs. No modification was made to that earlier fiscal decision at the January 11th meeting. Installation of signs under the Sign Program will occur under the direction of the Public Works Department.

Should you need any further documentation or information about this matter, please let me know.

City Manager

ECONOMIC DEVELOPMENT ACTION PLAN

CITY COUNCIL
RENO VALLEY
RECEIVED
11 APR 25 PM 2:35

GOAL--Two-year action plan to capitalize on short-term opportunities

Objectives

- Create jobs locally to address City's high unemployment rate
- Address Community's jobs to housing imbalance
- Strengthen and broaden City's economic foundation
- Enhance City revenue generation to improve quality of life in Community

Action Plan-Areas of Opportunity

- TownGate
- Centerpointe Business Park
- South Industrial Area
- East Moreno Valley-Rancho Belago
- City Center

TownGate/Centerpointe/South Industrial Area

- Continue ongoing efforts for new major retail/restaurant uses
- Facilitate proposed new industrial building development aimed at producing new jobs (short-term with construction and long-term with new major employers)

Eastern Moreno Valley/Rancho Belago

- Work with Highland Fairview on creating new plan to replace expiring Moreno Highlands Specific Plan
- Evaluate highest/best land uses to address jobs to housing imbalance
- City's percentage of land use area (9%) for Industrial/Business Park zoning is very low

Survey of Industrial/Business Park Zoning

- Ontario 25.3%
- Perris 21.7%
- San Bernardino 18.0%
- Chino 17.1%
- Fontana 17.0%
- Rancho Cucamonga 15.3%
- Riverside 15.2%
- Corona 11.4%
- Moreno Valley 9.0%

City Center-why is area important from Economic Development perspective

- Geographic center of the City of Moreno Valley
- Home to major businesses and institutions—including Moreno Valley College, RCRMC, Kaiser Community Hospital, Stoneridge Towne Centre, Moreno Beach Plaza, and Auto Mall

Re-sequence CIP projects

- $33.8 million in planned CIP projects
- SR 60/Moreno Beach, including connection of Eucalyptus to Moreno Beach
- Cactus Avenue—between Lasselle and Nason
- Extension of Nason Street to connect Cactus to Iris

Why Re-sequence CIP Projects

- Enhances Economic Development efforts
- Builds improvements indentified in City's Circulation Plan
- Assists major stakeholders (shopping center, hospitals and college)

Highland Fairview's Aqua Bella Project

- Idea to reposition 200-acres on east side of new Nason St. extension to develop new world-class medical and health care related campus
- Connection between Kaiser's Community Hospital and RCRMC
- Expands City's overlay zone for creating medical corridor

Benefits by Re-sequencing CIP funding to three City Center Projects

- Maximize Economic Development efforts
- Strengthen important area of the City
- Produce new City revenue to pursue even more CI projects in the future

Summary of Staff Funding

- 4.0 FTE (Full-time Equivalent) Grant Funded Activities including CDBG, NSP, HOME, Stimulus, SCE
- 3.0 FTE General Fund for Non-Development Fee Eligible Activities (Counter, State Mandates, Special Fee collection such as TUMF, DIF, MHSHCP
- 4.5 FTE Development Services Funded for Projects/Fee Eligible Activities
- 0.5 FTE Planning Commission Funded

DEFUNDED Planning Positions

Two (2) Community Development Administration positions:

- Community Development Director (40%)
- Executive Assistant (40%)

Five (5) FTE Direct Planning staff positions:

- Sr. Office Assistant
- Associate Planners (4)

Planning Division Work Activities

Public Information

Provided by Planning Technicians, Planners and Planning Official. Service is completely funded by the General Fund since no fees are allowed to be charged for this type of activity. Respond to counter requests for information, telephone and e-mail inquiries from residents, property owners and developers regarding City development regulations (Zoning, General Plan Permitted Uses, Development Standards, pre-submittals). Also cooperate with Code Enforcement to respond to citizen complaints.

Counter open 7:30 a.m. to 5:30 p.m. Monday to Thursday

Total Counter Visits per Year: 3,823 in 2010

Counter Services

Provided by Planning Technicians with support by Planners. Service is funded by permit fees. Case intake and permit issuance. Includes review of minor applications. Project Applications, Home Occupancy Permits, Sign Permits, Temporary Use Permits, Building Permit Reviews, Business License Reviews.

Administrative Services

Provided by Clerical staff. Prepare all documentation for operation of the Planning Division, including budgets, Purchase Orders, and Invoices. Field and respond to phone calls from the public. Coordinate staffing schedules and meetings. Facilitate and coordinate agenda formulation and work Planning Division work product for Planning Commission and City Council. Prepare and update all handouts, pamphlets and web content related to Planning to assist the public.

Project Entitlement

Provided by Planners and Planning Official. Funded from Development Services fees. Review and approval of Planning applications for new construction, major modifications and changes of use. Project entitlement process coordinated by Planning staff, but process includes variety of steps throughout development services departments – Planning, Building, Land Development, Fire, MV Utility, Special Districts, and Transportation Engineering.

Case intake and review process for complete applications includes the following:

- Transmittal to internal and external review agencies
- Project Review Committee: review & provision of comments/corrections to applicant.
- Site Plan (All reviewers)
- Building Elevations and Environmental Studies (Planning)
- Preliminary Grading & Water Quality Plans (Land Development)
- Fire Flow Letter (Fire)
- Traffic Study (Transportation Engineering)
- Repeat Project Review until major issues settled
- Schedule Project Approval – City Council, Planning Commission, Administrative
- Prepare Conditions of Approval (All reviewers)
- Public Notice and Posting

- Issue Approval Letter

Project Plan Check and Impact Fee Payments
Provided by Planning Technicians and Planners. Funded by plan check fees. Review of detailed plans for grading and building projects, including landscaping and lighting. Planning coordinates some reviews and participates in others.

Project Inspection
Provided by Planners. Funded by inspection fees. Field review of in progress or completed grading, building and landscaping.

Planning Standards, Internal and Inter-governmental Reviews
Provided by Planners and Planning Official. Funded by the General Fund since no fees can be charged. Maintenance and updating of City standards to address changing development practices and State mandates. City initiated planning activities including General Plan and Zoning Changes, Municipal Code Amendments, Review project/environmental transmittals from outside agencies, TUMF, MSHCP, KRAT fee transmittal & audit compliance, environmental review of City capital projects.

Community & Economic Development - Building & Safety Division

Budget - Expenditures $1.19 Million Total Expenditures

- $60,000 reimbursement from CDBG
- $15,000 reimbursement from NSP
- $15,000 reimbursement from Nuisance Abatement Fund
- $46,000 reimbursement from Capital Project (Corp Yard and Morrison FS)
- $1,054,000 Development Services

Budget - Revenue Revenue Projection for B&S from Development Services is $1.19 Million

Building & Safety Staff

- Building Official (95% DS, 5% CP)
- Building Inspector II (100% DS)
- Building Inspector II (100% DS)
- Building Inspector II (50% DS, 50% CP)
- Building Inspector II (50% CDBG, 25% DS, 12.5%NSP, 12.5% AB)
- Senior Permit Technician (100% DS)
- Permit Technician (100% DS)
- Clerical (100% DS)
- Clerical (100% DS)

Key:
- DS: Development Services
- CP: Capital Projects
- CDBG: Community Development Block Grant
- NSP: Neighborhood Stabilization Program
- AB: AB 1137 Nuisance Abatement Funds

Summary of Staff Funding

- 0.75 FTE (Full-time Equivalent) Restricted Use Funded including CDBG, NSP and AB 1137 Abatement Fund
- 0.55 FTE Capital Projects- Inspection and Construction Management of new building construction for Public Works
- 7.70 FTE Development Services Funded for Projects

DEFUNDED Building & Safety Positions

Two (2) Community Development Administration positions:

- Community Development Director
- Executive Assistant
- Senior Office Assistant

Nine (9) FTE Direct B&S staff positions:

- Plans Examiner (100%)
- Senior Building Compliance Officer (100%)
- Senior Building Inspector (100%)
- Senior Building Inspector- Inspection Services (100%)

- Four (4) Building Inspector II (100%)
- Permit Technician (100%)

Building & Safety Division Work Activities

Inspection
Provided by Building Inspectors. In 2010, B&S undertook over 8000 inspections for permitted construction activity. Respond to complaints of illegal construction activities. Provide support and inspection services for all damaged buildings from fire, vehicle impacts and other causes.

Counter Services
Provided by Permit Technicians, with support by Building Inspectors and Building Official. Respond to inquires from the public in person and by phone regarding permit requirements for construction projects. Coordinate all City Departments for approval of permit issuance and project completion and occupancy. Process plans in and out of the office to plan check consultants. Review and approve plan check projects over the counter where possible.

Counter Open 7:30 a.m to 5:30 pm. Monday to Thursday

Total Counter Visit per Year: 6,400 in 2010, with issuance of 2,200 permits.

Administration Services
Provided by Clerical staff. Prepare all documentation for operation of the B&S Division, including Budgets, Purchase Orders and Invoices. Respond to over 1,500 phone calls monthly. Prepare and process all permit forms for final, occupancy and archiving. Coordinate and schedule 8,000 inspections for field staff. Prepare all ordinances and code revisions for adoption by City Council. Prepare and update all handouts, pamphlets and web content to assist the public.

Project Entitlement
Provided by Building Official. Review all projects from Planning Division to coordination with applicable construction codes and provide conditions of approval for inclusion in the project approval.

Capital Projects
Provided by Building Inspectors and Building Official. Assist the coordination of project development, design development, project bidding and award activities. Provide onsite inspection services and review and approval of all submittals for construction activities. Review and comment on contractors schedule. Review and approve contractor pay applications. Assist in project closeout including coordination of as built drawings and review of closeout submittal documents.

CDBG & NSP Programs
Provided by Building Inspectors. Provide proactive enforcement of minimum code standards within CDBG designed target areas by Foreclosure Strike Team. Approximately 100 properties presently in some stage of compliance.

MV00234094

Abatement

Provided by Building Inspectors, with support by Building Official. Provide technical services to support to the City Attorney's office for prosecution and resolution of non-compliance enforcement cases for illegal and unsafe construction.

Public Works – Land Development Division

Proposed Budget (FY11/12): $2.56 Million Total Expenditures

- $ 591,300 Development Services
- $ 1,081,500 General Fund
- $ 840,100 NPDES Tax Assessments
- $ 42,700 CFD#4M Assessment

Budget Revenue Projection for Land Development Division is $1,607,000 (For reference see attached Exhibits "A", "B" and "C")

Land Development Staff (FY 11/12):

Engineering Project Manager (40% DS; 60%GF)
Senior Engineers (2) (40% DS; 60%GF)
Storm Water Program Manager (100% NPDES)
Associate Engineer (40% DS; 60%GF)
Associate Engineer (100% NPDES)
Associate Environmental Engineer (100% NPDES)
Construction Inspectors (2) (40% DS; 60%GF)
Environmental Analyst (100% NPDES)
Permit Technician (40% DS; 60%GF)
Clerical (2) (40% DS; 60%GF)

Key: DS-Development Services; GF-General Fund; NPDES-includes a number of specialty tasks associated with managing the City's Storm Water Permit such as business inspections, basin plan check and inspections, management of basin maintenance efforts, processing developer agreements and revising the Muni Code in conformance with the permit provisions.

Summary of Staff Funding:

- 5.5 FTE General Fund for Non-Development Fee Eligible Activities (See attached exhibit)
- 4.0 FTE NPDES Tax Assessment Funded
- 3.5 FTE Development Services Funded for Projects/Fee Eligible Activities

Land Development Positions Defunded – Two (2) Associate Engineers, Assistant Engineer, Sr. Office Assistant, Public Works Development Coordinator, Construction Engineering Supervisor, three (3) Construction Inspectors and a Temporary Office Assistant

Land Development Positions Transferred to Other Divisions – Sr. Engineer, Associate Engineer, Sr. Office Assistant, Management Analyst, Management Assistant, three (3) Construction Inspectors, and a Permit Technician

(For reference see Exhibits "D" and "E" for Organizational Charts showing staffing in FY07/08 and FY11/12)

Land Development Division Work Activities:

Public Information (Provided by Permit Technicians, Engineers, clerical and Engineering Division Manager. Service is completely funded by the General Fund since no fees are allowed to be charged for this type of activity.)

- Respond to counter requests for information, telephone and e-mail inquiries from residents, property owners and developers regarding City development regulations (Development Standards, submittal requirements, project plan status, general inquiries and resident concerns). Also coordinate with Code Enforcement, M&O and Transportation Divisions to respond to citizen complaints.

  Counter open 7:30 a.m. to 5:30 p.m. Monday to Thursday

  Total Estimated Counter Visits per Year: 3,500 in 2010

Counter Service (Provided by Permit Technicians with backup by all Engineers and clerical staff. Service is funded by both General Fund and permit fees.)

- Project Plan intake and permit issuance. Includes review of minor submittals.

- Project Applications, Permit Applications, Schedule inspections, Special Event Coordination, Insurance Certificate reviews, Contractor License review, explain processes, Evaluate Flood Plane questions and address general inquiries.

Project Entitlement (Provided by Engineers and Engineering Division Manager. Funded from Development Services fees.)

- Review and approval of Planning applications for new projects/Maps, major modifications and changes of use.

- Project entitlement process coordinated by Planning staff, but process includes variety of steps throughout development services departments – Planning, Building, Land Development, Fire, MV Utility, Special Districts, and Transportation Engineering.

Case intake and review process for complete applications includes the following:

-Attend Project Review Committee: review & provision of comments/corrections to applicant.
-Review and comment on Site Plan (All reviewers)
-Preliminary Grading & Water Quality Plans
-Coordinate with Transportation Engineer on the Traffic Study results and Street Plans
-Repeat Project Review until major issues settled
-Upon Project Approval, attend City Council and Planning Commission Meetings
-Prepare Conditions of Approval (All reviewers)
-Issue Approval Letter to Case Planner

Project Plan Check and Impact Fee Payments (Provided by Associate Engineers, Sr. Engineers and Engineering Division Manager. Funded by Developer plan check fees.)

- Review of detailed plans for grading and public improvement projects, including Final Maps, Grading, Street, Sewer, Water, Storm Drain, Drainage Studies, LOMR Reports, Traffic Control, Signing and Striping, Horizontal Control and On-site Improvement plans. Coordinate plan distribution and review by other City divisions as well as outside agencies.

Project Inspection (Provided by Construction Inspectors and Engineers. Funded by inspection fees).

- Field review of grading and construction of all public improvements, including Street, Sewer, Water, Storm Drain, traffic control and signing and striping.

- Coordinate with Field personnel and other divisions to ensure public safety and that all items are constructed in accordance with City Standards and practices.

- Respond to requests from Council, City Manager, City Engineer and other City Hall staff for investigation of concerns, problems or accidents. Provide photographic evidence as requested.

- Provide research to requests for information and claims against the City. Also provide on-call response as needed for traffic, pavement, utility or other matters on nights and weekends.

Maintenance Standards, Internal and Inter-governmental Reviews (Provided by Engineers and Engineering Division Manager. Funded by the General Fund since no fees can be charged.)

- Maintenance and updating of City standards and Plan Check Manual to address changing development practices and State mandates.

- City initiated planning/development activities including General Plan updates, Municipal Code Amendments, Review project/environmental transmittals from outside agencies, TUMF and DIF fees compliance/updates, plan check review of City capital projects.

Storm Water Program Management - Maintain Standards, Internal and Inter-governmental documents and processes as required by State Mandated Water Quality Permit Regulations (Provided by Engineers and Engineering Division Manager. Funded by Tax Assessment.)

- Maintenance and updating of City standards and Plan Check Manual to address changing development practices and State mandates related to Water Quality.

- Review of detailed plans for grading and public improvement projects, including Final Maps, Grading, Street, Sewer, Water, Storm Drain, Drainage Studies, LOMR Reports, Traffic Control, Signing and Striping, Horizontal Control and On-site Improvement plans. Coordinate plan distribution and review by other City divisions as well as outside agencies.

- Provide environmental field inspections, including general construction sites and water quality basins. Respond to calls regarding possible violations of State Water Quality regulations.

- Provide State-mandated business inspections for water quality regulations.

- Perform State-mandated Municipal Code Amendments, Review project/environmental conditions, ensure the City remains in compliance with the current regulations for water quality, attend regular meetings with other co-permitee Cities and assist in the drafting of the new regulation template for the updated water quality permit.

(For reference see Exhibit "F" for a list of tasks performed by LD staff which are funded entirely by the General Fund. Also see Exhibits "G" thru "J" for a general list of tasks by position.)

Anticipated Development Projects (FY11/12):

Industrial/Logistics – Estimated at 4.3 Million Total Square Feet

- Alere Property Group – San Michele/Indian (423,000 s.f.)
- First Industrial 1 – Nandina/Perris (174,000 s.f.)
- First Industrial 2 – Nandina/Perris (866,000 s.f.)
- IDS – Nandina/Indian (770,000 s.f.)
- Panatonni Development – Indian/Iris (1,560,000 s.f.)
- HF Corporate Park, Phs II – SR60/Redlands (500,000 s.f.)
- Robertson's Ready-Mix – Old 215 Frontage Road

Office – Estimated at 75,000 Total Square Feet

- Kaiser Permanente – Iris w/o Oliver (75,000 s.f.)

Residential – Estimated at 165 SF Lots and 329 MF Units

- Beazer – Stoneridge Ranch (75 Lots)
- GFR – Perris/Ironwood (20 Lots.)
- DR Horton – Landon/Cactus (20 Lots.)
- Continental East – Lasselle (25 Lots)
- Continental East – Lasselle (75 Units)
- Continental East – Iris/Vista Del Lago (100 Units)
- PDDC/Rancho Dorado, Phs II – Perris/JFK (79 Units)

Anticipated Development Projects (FY12/13):

Industrial/Logistics – Estimated at 7.1 Million Total Square Feet

- Komar-Trammel Crow – San Michele/Heacock (1,770,000 s.f.)
- Ridge Centerointe – Joy/Cactus (354,000 s.f.)
- Ridge Centerointe – Graham/Brodiaea (391,000 s.f.)
- Overton Moore – Cactus/Frederick (520,000 s.f.)
- Bill Vogel – Indian/Perris (1,616,000 s.f.)
- Western Realco – SR60/Redlands (1,484,000 s.f.)
- Rados – Iris/Heacock (410,000 s.f.)
- Westridge –SR60/Redlands (944,000 s.f.)

Retail – Estimated at 75,000 Total Square Feet

- Moreno Valley Mall Expansion – (75,000 s.f.)

Residential – Estimated at 695 SF Lots and 287 MF Units

- Beazer – Stoneridge Ranch (200 Lots)
- GFR – Perris/Ironwood (20 Lots.)
- DR Horton – (125 Lots.)
- Pacific Communities – Iris (100 Lots)
- Westcap/PF Homes – Cactus (125 Lots)
- Continental East – Lasselle (125 Lots)
- Continental East – Lasselle (75 Units)
- Continental East – Moreno Beach/Broadia (40 Units)
- Granite Capital – Iris/Vista Del Lago (75 Units)
- Frederick Home – Indian/Webster (24 Units)
- Hemlock Apartments – Hemlock/Perris (73 Units)

EXHIBIT "C"

10. **Conducting research for other departments** – determine if certain streets are accepted, developer projects in the area, who to contact for utility problems, easements and ROW locations, taking photos, investigating encroachments or possible illegal grading activities, coordinating on major traffic incidents, etc.

11. **Attending Pre-PRSC and PRSC Meetings as part of the Entitlement Process**

12. **Responding to Requests for Public Information**

13. **Responding to request for service during storm events**

14. **Responding to Confidential Claims against the City** – investigate traffic conditions, take photos, write a report to Risk management, review permits and files to determine if there was developer or utility company activity in the vicinity of the incident

15. **Revising/modifying our boilerplate agreements for special developer requests** – Public Improvement Agreements, special notifications, etc.

16. **Special assignments from the City Manager** – Street name changes, banner program/permitting

MV00234113

EXHIBIT "F"

Associate Engineer

PART A – City Job Description

1. Provides engineering support for land development projects in progress, including calculating and collecting fees and issuing permits and occupancy releases; attends pre-construction meetings; tracks construction process and milestones; maintains detailed project records and documentation; coordinates on-going work with developers, consultants, private engineers and contractors; prepares and submits staff reports on project progress to the Planning Commission, City Council, department heads and division managers.

2. Performs engineering plan review and plan checks to ensure contractor compliance with federal, state and City requirements and regulations; reviews and analyzes a variety of engineering reports and technical documentation, including water quality management plans, land title surveys, conceptual designs and hydrology, hydraulic, geotechnical and soils reports.

3. Performs land documentation review and basic survey work; performs land documentation reviews of lot line adjustments, parcel mergers, records of survey, title reports, legal descriptions, dedications, vacations, reversions to acreage, easements and monumentation.

4. Provides customer service and information on City land development policies and projects to external and internal City customers; serves as Engineer-of-the-Day at the public counter; performs preliminary research and review of proposed projects; provides land development information to other City departments and divisions.

5. Performs construction site field inspections prior to, during and at the close of projects to monitor project progress, resolve field issues and ensure compliance with approved plans, specifications and standards.

6. Attends Project Review Staff Committee meetings during the entitlement process, as required.

PART B – Staff Description of Duties

Construction Plan Review – Included grading plans, on-site and off-site improvement plans, easements, deeds, dedications, lot line adjustments, certificates of correction, certificates of compliance, parcel mergers, etc.

Construction Monitoring – Work closely with our Division's Inspection Services staff to ensure compliance with approved plans. This requires field visits and meetings with the developer/owner, design engineer, and City personnel to resolve issues. This often times

requires analytical research of federal, state, and local regulations to apply to complex construction issues

Permits Plus Workflow – Act as a liaison with the Technology Services (TS) Division as well as coordinating Division staff training. Includes being involved with the design, configuration, implementation, and testing of Permits Plus. This is an on-going project which will allow the Division to track projects within the Permits Plus system.

Technical Support – Provide computer support for issues with software applications, printing, network access, support for new employees' set-up, preparing Requests for Service (RFS), research and order computer equipment, and coordinate with Technology Services for global issues within the Division.

City Standard Drawings – Perform the yearly review of the City Standards.. This requires a detailed review of the City Standards pertaining to the Land Development Division as well as other City departments/divisions

Plan Check Manual –Research, investigate, and review various documents to ensure that the City Standards are in compliance with policies, procedures, and municipal codes.

Engineering Plans

Rough Grading
Precise Grading
Street Improvement (Signing/Striping, Traffic Signal)
Storm Drain/Drainage Channel
Sewer and Water
Final Maps and Parcel Maps

Reports
Hydrology/Hydraulics
Soils/Geotechnical
Title
CLOMAR (Conditional Letter of Map Revision)
LOMAR
Staff Reports

Documentation
Engineer's Cost Estimates (on-site/off-site)
Easements Deeds/Grant Deeds/Dedications
Tri-party agreements
Street Vacations
Certificates of Compliance
Certificates of Correction (Maps)

Mutual/reciprocal access agreements
Covenants
PIA

Project Management
Monitor activity throughout project lifecycle
Coordinate with other agencies, divisions and, most importantly, LDD staff
Fees, Building Permits, Certificates of Occupancy/Final Inspection
Bond Reductions/Substitutions

Technical Support
Permits Plus

TS Task force

EXHIBIT "G"

Senior Engineer Duties

Planning Commission - Represent Land Development at Planning Commission Meetings. Meet with developers prior to the meeting to review and discuss conditions of approval which help minimize revision memos to the Planning Commission.

Entitlement Database – Keep database current. Log in out dates upon completion of plan review. Run monthly reports for Workload Indicator information. *(Track Deadlines)*

Entitlement Spreadsheet – Keep spreadsheet current. Log in due and completed dates. Review Associate Engineer's estimated project public improvement costs and estimated project plan check fees. *(Project Revenue)*

Entitlement Common Special Conditions of Approval – Update and add/revise to Special Conditions of Approval list. The lists of Special COAs separated by project type have streamlined the process of writing COAs. *(Improved Efficiency)*

Entitlement Standard Conditions of Approval – Update and add/revise the division's standard conditions of approval.

Entitlement PRSC Committee – Participate as a member of the project review staff committee reviewing development plans. Coordinate with staff from other departments/divisions.

Plan Check – Conduct weekly plan check meetings of engineering staff. Review database records to ensure compliance with Division's plan review turn around policy. *(Supervise)*

Plan Check - Perform plan checks. Review engineering staff's plan checks at mylar stage. Perform quality control of mylar ready plans prior to routing for Division Manager signature. *(Supervise)*

Special Projects – EMWD Booster Station Relocation, NextG Agreement, T-Mobile Agreement, DIF Study Update.

Special Projects – Review DIF and TUMF Actual Cost Binders. Prepare DIF and TUMF Agreements. Determine DIF Study Project Costs.

Division Policies - Review the proposed "As-Built Procedure and Division Policy". Review the proposed "Revision Procedure and Division Policy". *(Supervise)*

Division Budget – Work closely with the Division Manager and Storm Water Manager in creating and managing the division's budget.

Division Manager – Assist the Division Manager address developer and citizen requests/complaints.

Division Software – Contribute ideas to the Division's Time and Material Database created in response to the City Manager's Office direction.

Division Education – Attend seminars to keep current with new development best management practices for water quality treatment. Continuing education will assist with Entitlement and Plan Check project reviews.

City Standard Plan Update – Provide/log in comments pertaining to standard plan updates. *(Update City Standards)*

City Development Impact Fees – Assist developers determine credit and reimbursement amounts. Review three-ring binders containing actual costs. Inform developers of new DIF Policy.

City Capital Project Division – Attend CIP project related meetings. Coordinate private development projects with City projects. *(Assist Others)*

Supervision – Review staff's work consisting of a variety of work including development review projects, engineering plan check, staff reports, development impact fees, project fees, division budget. *(Support Staff)*

Supervision – Assist staff in meeting deadlines; shared ways to increase efficiency; multi-task and use available resources. Work with staff to achieve common goals. *(Work with Staff)*

Supervision – Encourage staff to attend seminars, obtain special licenses. *(Encourage Staff)*

Engineer-of-the-Day – Include in rotation of EOD to respond to technical questions from callers or the people at the public counter.

Telephone Back-up – Assist with answering the telephone throughout the day or when clerical staff is not available.

EXHIBIT "H"

Management Analyst

1. Prepare public improvement agreements and bonds for new developments (requires coordination with Plan Check engineers to process engineer's cost estimates in order to calculate bond amounts
2. Prepare staff reports
3. Process final maps and notify internal departments & external agencies
4. Track expiration dates of public improvement agreements
5. Process 10% warranty bond exoneration requests associated with public improvement agreements (release security one year after CC acceptance)
6. Prepare public improvement extension agreements or security replacement request, collect fee, prepare staff report
7. Request clearances from internal departments and external agencies to begin 90% bond reduction and prepare staff report (release security 90 days after Council acceptance)
8. Process new street name requests and requests to change exist. street name
9. Prepare reports recommending appropriate action
10. Process Special Event applications, street closure requests, etc. set up meetings with the applicant and various departments, verify all fees paid and prepare encroachment permit
11. Prepare Right-of-Way Acquisition Agreements and related staff report
12. Assist with preparation of DIF & TUMF Agreements and related staff reports
13. Prepare correspondence (letters, memos, emails)
14. Provide front counter assistance
15. Assist with phone coverage for main line
16. Attend various meetings with developers including meeting with developers regarding status of projects
17. Coordinate with Plan Check engineers to process engineer's cost estimates
18. Calculate bond amounts
19. Calculate and collect final fees prior to Final Map approval/final clearance
20. Coordinate with ESA to calculate electrical fees
21. Calculate and collect 4th and subsequent plan check fee
22. Manage consultant plan check accounts by processing purchase orders, tract invoices, change orders, etc.
23. Prepare reports recommending appropriate action
24. Prepare certain policies & procedures
25. Assist with Budget preparation and quarterly reports
26. Provide front counter assistance as needed
27. Tract trust accounts (deposits, transfers, payments)

EXHIBIT "I"

Permit Technician

1. Sees to it that permits are issued on time.
2. Sees to it that information copies of permits are distributed to inspectors and corresponding requesting/end users.
3. Sees to it that information on permit application are properly done, requirements are met, evaluated accurately and fees are paid.
4. Sees to that information are inputted in the data base.
5. Sees to it that customers requests are served on time and satisfied on the information provided.
6. Sees to it that map room is properly maintained. Mylars are indexed .
7. Sees to it that log book are maintained and inputted in the data base.
8. Sees to it that approved plans are coordinated with the developer/designer. Copies are provided, distributed to Inspector, and processed into Bid America.
9. Sees to it that research requests are provided on time , collects fees and invoices are receipted and entered in the permit plus.
10. Manages data base for fees, plans, Bid America, blue print, inspector log, insurance certificate , center line ties, archived mylars, archived files
11. Inputs all submittals and issued receipts are input into permit plus and data base. Receipts are logged and plans are distributed to different dept, consultants and the assigned plan checker.
12. Prepares monthly utility billings on time. Send copies to Finance Dept.
13. Sees to it that pink receipts are updated and logged, Prepares monthly reports.
14. Sees to it that blanket permit is issued upon request by utility companies.
15. Sees to it that permits issued, certificate of insurance, hydrology reports, centerline ties, etc are entered in the database and scanned.
16. Sees to it that requests from the division staff for archived material are processed and managed.
17. Sees to it that telephone queries are answered and any voice mail is retrieved and returned.

EXHIBIT "J"

STORM WATER PROGRAM STAFF (NPDES)

Storm Water Program Manager

- Prepares CSA 152 and NPDES Regulatory Rate Schedules Budgets
- Represents City on TMDL Task Force
- Represents City on NPDES Technical Advisory Committee
- Represents City on NPDES Management Steering Committee
- Representative for WRCOG for NPDES Roads Standards and Guidance
- Manage budgets for four business units
- Supervise/mentor three staff
- Represent City of the San Jacinto Groundwater Management Plan Steering Committee
- Manages NFIP Flood Plain program
- Manages Community Rating System (CRS) Flood Plain Program
- Manages maintenance contract for Water Quality Basins
- Analyzes storm water related legislation for city impacts
- Prepare NPDES Regulatory Rate Schedule annual report
- Seeks grant and other funding opportunities for storm water program
- Assist consulting engineers on water quality issues associated with development projects
- Assist Capital Improvement Projects' staff on water quality issues

Associate Environmental Engineer

- Back-up to Storm Water Program Manager
- Oversees NPDES inspection databases
- Represents City on Storm Water Quality Task Force and other TAC Committees
- Evaluates consultants' work products and contracts
- Works with consulting engineers on development projects
- Prepares RFPs and staff reports
- Prepares/comments on draft NPDES Implementation documents, i.e. LIP and WQMP
- Prepares long-term maintenance agreements with HOAs for water quality basins
- Prepares/manages Maintenance and Access Covenants for private development BMPs
- Collects data and prepares City-wide NPDES annual report
- Analyzes storm water related legislation for city impacts
- Coordinates/provides NPDES training to staff
- Assist/manages city's NPDES permit to ensure compliance with mandates
- Conducts business and construction site inspections as needed

- Assist in preparation/development of storm water program budget
- Mailings and federal express shipping
- Process various payments

Associate Engineer

- Verify if projects require a WQMP
- Determine NPDES plan check fees due/paid
- Review BMP design calcs./compare plans against approved F-WQMP
- Counter & telephone assistance (EOTD)
- Assist public on floodzone inquiries
- Review of SWPPPs for Capital Improvement Projects
- Review of Verizon FTTP plans and other similar types of utility plans (Sunesys, NextG, etc)
- Community Rating System (CRS) recertification
- Answer inquiries regarding compliance with MS4 permit
- Prepare Request for proposals as necessary
- Manages maintenance contract for CFD #4 Maintenance
- Site visits to WQMP basins as necessary
- Annual training (WQMP) classes
- Attend weekly LDD Plan Check staff meetings
- Provide annual feedback on the city stds.
- Update City Municipal Code regarding storm water & floodplain management as necessary
- Attend flood plain certificate training

Environmental Analyst

Construction Site Inspections

- Conduct mandated stormwater compliance inspections of active and in-active construction sites
- Document and analyze the implementation of various Best Management Practices (BMPs)
- Verify that appropriate documentation (SWPPP, WDID, Erosion Control Plan) is on-site and available for review
- Discuss with site-contact observations made, deficiencies or areas of concern and efforts that will be made to rectify any noted violations
- Prepare site-specific inspection reports detailing site conditions, violations when observed, and pertinent communication between myself and site-contact
- Conduct follow-up inspections when appropriate to verify that noted water quality deficiencies have been addressed and resolved
- Input inspection results and maintain current records for tracking and monitoring of compliance in permit required database

MV00234122

- Prepare invoice statements and other applicable material for the collection of inspection fees
- Send invoices and monitor status of payments received

Business Site Inspections

- Conduct mandated stormwater compliance inspections of commercial and industrial facilities
- Meet with facility owner/operators to analyze inspection results/findings and discuss possible ways to rectify any observed deficiencies and/or violations
- Review individual business location and practices in order to prepare site-specific educational material to be distributed to owner/operators during inspections
- Input inspection results and findings (documents and/or photos) into permit required database for tracking and monitoring of business compliance
- Conduct follow-up inspections of businesses to ensure previously documented violations have been thoroughly recited and business has been brought into compliance
- Respond to and investigate resident and staff complaints regarding possible water quality violations. Work with city residents and various other departments/agencies to address observed water quality problems
- Follow-up to ensure violations have been removed
- Prepare invoice statements and other applicable material for the collection of inspection fees
- Send invoices and monitor status of payments received

Board of Directors
Community Redevelopment Agency of the City of Moreno Valley
Moreno Valley, California

INDEPENDENT AUDITORS' REPORT

We have audited the accompanying financial statements of the governmental activities and each major fund of the Community Redevelopment Agency of the City of Moreno Valley ("Agency"), a component unit of the City of Moreno Valley, California, as of and for the year ended June 30, 2010, which collectively comprise the Agency's basic financial statements, as listed in the accompanying table of contents. These financial statements are the responsibility of the management of the Community Redevelopment Agency of the City of Moreno Valley. Our responsibility is to express opinions on these component unit financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the component unit financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the component unit financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall component unit financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of governmental activities and each major fund of the Community Redevelopment Agency of the City of Moreno Valley at June 30, 2010, and the respective changes in financial position of the Agency for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The Agency has not presented *Management's Discussion and Analysis* that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be a part of, the basic financial statements.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Community Redevelopment Agency of the City of Moreno Valley's basic financial statements. The supplementary schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MV00234161

In accordance with *Government Auditing Standards*, we have also issued a report dated December 21, 2010 on our consideration of the Community Redevelopment Agency of the City of Moreno Valley's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Community Redevelopment Agency
of the City of Moreno Valley

Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances of Governmental Funds to the Statement of Activities
June 30, 2010

Net change in fund balances of governmental funds	$	(1,517,041)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlay as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense.		
Depreciation expense		(581,285)
Redevelopment projects that develop capital assets for the City of Moreno Valley are not recognized as assets of the Agency (construction in progress), but are reported as community development expenditures.		(4,637,036)
Repayment of principal on long-term debt consumes current financial resources of governmental funds, but does not have any effect of net assets in the statement of activities.		330,436
Accrued interest payable on long-term debt reported in the statement of activities does not require the use of current financial resources and, therefore, is not reported as an expenditure in governmental funds.		(1,570,521)
Revenues in the statement of activities that do not provided current financial resources are not reported as revenues in the statement of revenues, expenditures, and changes in fund balances. These revenues are reported as deferred revenue in the balance sheet of governmental funds.		60,887
Net assets of governmental activities	$	(7,914,560)

Community Redevelopment Agency
of the City of Moreno Valley

Notes to Financial Statements
Year Ended June 30, 2010

Note 1: Organization and Summary of Significant Accounting Policies

a. Description of the Reporting Entity

The Community Redevelopment Agency of the City of Moreno Valley, California, is a component unit of a reporting entity that consists of the following primary and component units:

Reporting Entity:

Primary Government:

City of Moreno Valley

Component Units:

Community Redevelopment Agency of the City of Moreno Valley
Community Services District of the City of Moreno Valley
Community Facilities Districts No. 2 and No. 3
Towngate Community Facilities District No. 87-1
Moreno Valley Public Facilities Financing Corporation
Moreno Valley Public Financing Authority
Industrial Development Authority

The attached basic financial statements contain information relative only to the Community Redevelopment Agency of the City of Moreno Valley as one component unit, which is an integral part of the total reporting entity. They do not contain financial data relating to the other component units.

The Community Redevelopment Agency of the City of Moreno Valley (the Agency) was created by a City Council ordinance adopted on February 18, 1986. The Agency was established pursuant to the State of California Health and Safety Code, Section 33000, entitled Community Redevelopment Law. Its purpose is to prepare and carry out plans for the improvement, rehabilitation and redevelopment of blighted areas within the City of Moreno Valley (the City).

Governmental Accounting Standards define the reporting entity as the primary government and those component units for which the primary government is financially accountable. Financial accountability is defined as appointment of a voting majority of the component unit's board, and either: a) the primary government has the ability to impose its will, or b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government. Since the City Council of the City of Moreno Valley also serves as the Governing Board of the Agency, the City, in effect, has the ability to influence and control operations. Therefore, the City has oversight responsibility for the Agency. Accordingly, in applying the criteria of Governmental Accounting Standards, the financial statements of the Agency are included in the City's Comprehensive Annual Financial Report. There are no other entities that are considered to be component units of the Agency. The Agency has the same fiscal year end as the City and its financial statements can be obtained from the City Clerk.

MV00234169

Note 1: Organization and Summary of Significant Accounting Policies (Continued)

b. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Major individual governmental funds are reported as separate columns in the fund financial statements.

c. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period, while grant revenues have an availability period of 120 days. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

MV00234170

Note 1: Organization and Summary of Significant Accounting Policies (Continued)

c. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

The Agency reports the following major governmental funds:

The Projects & Administration Capital Projects Fund accounts for the financing, construction and administrative activities of the Agency.

The Low and Moderate Housing Capital Projects Fund accounts for 20% of tax increment set aside for low and moderate housing activities.

The Debt Service Fund accounts for the accumulation of resources for the payment of interest and principal on long-term debt of the Agency.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed.

d. Assets, Liabilities and Net Assets or Equity

1. Investments

Investments for the Agency are reported at fair value. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

2. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds".

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are shown net of an allowance for uncollectibles.

Property tax revenue attach as an enforceable lien on property as of January 1. All secured personal property taxes and one-half of the taxes on real property are due November 1; the second installment is due February 1. All taxes are delinquent, if unpaid, on December 10 and April 10, respectively. Unsecured personal property taxes become due on the first of March each year and are delinquent on August 31. The County of Riverside bills and collects the property taxes, and remits them to the Agency in installments during the year. Property taxes received within 60 days after the Agency's fiscal year end are considered "measureable" and "available" and are accrued in the Agency's financial statements.

3. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

MV00234171

Note 1: Organization and Summary of Significant Accounting Policies (Continued)

d. Assets, Liabilities and Net Assets or Equity (Continued)

4. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the governmental activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than $5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and Improvements	5 – 50
Furniture and Equipment	3 – 15
Vehicles	3 – 10
Infrastructure	25 – 50

In accordance with GASB Statement No. 34, the Agency is required to report general infrastructure assets.

Buildings are depreciated using the straight-line method over the estimated useful life of 50 years.

5. Deferred Revenue

The government reports unearned revenue on its combined balance sheet. Deferred revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the balance sheet and revenue is recognized.

6. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net assets.

7. Salary Expenditures

The Agency does not employ any personnel and relies on the City of Moreno Valley (City) for administrative services. The financial statements include expenditures for salary and other benefits, which were allocated to the Agency by the City.

MV00234172

Note 1: Organization and Summary of Significant Accounting Policies (Continued)

d. Assets, Liabilities and Net Assets or Equity (Continued)

8. Land Held for Redevelopment

Land purchased for the purposes of resale (or contribution to a redevelopment project) is recorded at the Agency's cost to purchase the property or, upon entering into a contract for sale, the estimated net realizable value, if lower.

9. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Note 2: Stewardship, Compliance and Accountability

a. Budgetary Data

General Budget Policies

Budgets are legally adopted and formal budgetary integration is employed as a management control device during the year for all Governmental Fund types. From the effective date of the budget, the amounts stated therein as proposed expenditures become appropriations to the various Agency departments.

Reported budget amounts represent the original legally adopted budget as amended. The City Council, acting as the Agency Board, may approve amendments to the budget during a regular meeting, providing that sufficient monies are available and that expenditures of proceeds of taxes will not be increased beyond the constitutional appropriations limit as imposed by Article XIIIB of the State Constitution.

Individual fund budgets are, in all cases where appropriations are required, the same as the appropriation amounts. In the case of the Governmental Fund types, unexpended budgeted amounts, except for amounts relating to capital projects, lapse at the end of the budget year. Spending control for most funds is established by the amount of expenditures budgeted for each department within the fund, but management control is exercised at budgetary line item levels within the departments. Management can transfer budgeted amounts between operating programs, departments, or funds, provided that such transfers do not increase the overall budget. Appropriations that increase the budget require City Council, acting as the Agency Board, approval.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the governmental funds. Unexpended and unencumbered appropriations of the governmental funds automatically lapse at the end of the fiscal year. Encumbrances at year-end are a portion of the reserved fund balance and are reappropriated the following year.

MV00234173

Note 2: Stewardship, Compliance and Accountability (Continued)

b. Budgetary Data (Continued)

Budget Basis Accounting

Budgets for governmental funds are adopted on a basis consistent with generally accepted accounting principles (GAAP).

Note 3: Cash and Investments

Cash and investments reported in the accompanying financial statements consisted of the following:

Cash and investments pooled with the City	$81,080,237

The Agency's funds are pooled with the City of Moreno Valley's cash and investments in order to generate optimum interest income. The information required by GASB Statement No. 40 related to authorized investments, credit risk, etc. is available in the annual report of the City.

Note 4: Notes and Loans Receivable

Notes and Loans receivable of $17,567,422 consisted primarily of loans and advances to developers for various projects. A summary of amounts owed to the Agency at June 30, 2010 follows:

Cottonwood Properties	$ 3,847,806
Rancho Dorado	2,800,000
Sheila Street Rehabilitation	2,651,875
Oakwood	2,250,000
RHDC Properties	1,892,166
CVHC	1,639,450
Crippled Children	824,917
Bay Family Apartments	755,000
Perris Isle	413,000
Others	493,208
Total	$ 17,567,422

Note 5: Capital Assets

A summary of changes in capital assets follows:

Depreciation expense was charged to functions/programs of the Agency as follows:

Governmental Activities:	
Community development	$ 581,285

Note 6: Long-Term Liabilities

a. A description of the Agency's long-term liabilities outstanding is as follows:

Note Payable, Price Company

The Agency had recorded a long-term payable in the original amount of $2,433,744 under a development and disposition agreement and promissory note with Price Company for the reimbursement of costs of construction of a 130,000 square-foot-retail store. The note bears interest at 8% per annum and is payable solely from 50% of site-generated sales tax. Any remainder payable after September 2015 will be forgiven. The amount outstanding as of June 30, 2010 was $2,023,648.

Long-Term Liabilities to the City of Moreno Valley:

The Towngate Regional Mall notes (Sears Note), totaling $13,000,000, originated from a participation agreement (as amended) whereby the Agency acquired certain parcels within the mall for subsequent transfer to major tenants. The notes bear interest of 7.25% and are payable solely from available site-generated property tax increment and up to 50% of site-generated sales tax. Furthermore, the Agency had covenanted to use reasonable best efforts to refinance these notes with Tax Allocation Bonds, provided such financing is determined to be fiscally feasible. At June 30, 2010, accrued interest amounted to $4,489,369. During 2003-2004, the City purchased the rights to the notes from the holder. These amounts are now payable to the City and were previously reported in the Project Fund and are now reported as a long-term liability in the government-wide financial statements.

In 2005, the Agency purchased improved property from the City – the Conference and Recreation Center. The purchase price was $14,203,946. The loan note was $11,503,946 after the initial payment of $2,700,000. A subsequent principal payment of $29,124 was made in 2004-2005. The term is 20 years with 12% simple interest. The Agency will make partial interest only annual payments with a balloon payment due at the end of the term. At June 30, 2010, the outstanding principal and accrued interest balances are $11,474,822 and $5,517,792, respectively.

MV00234175

Note 6: Long-Term Liabilities (Continued)

The Agency owes the City a total of $652,248 in future sales tax revenue for funds borrowed to finance redevelopment activities. $518,520 represents monies borrowed during 2006-2007 by the Agency. $133,728 represents monies borrowed during 2007-2008 by the Agency. The interest rate on the borrowings is 12% and repayment of the long-term payable is made when funds become available. At June 30, 2010, the outstanding accrued interest on these borrowings is $218,760.

In November 2007, the Agency issued 2007 Series B, Subordinate Taxable Tax Allocation Bonds in the original issue amount of $22,500,000. These bonds were purchased by the City of Moreno Valley. The proceeds of the bonds will remain unspent pending the outcome of litigation between the Agency and the County of Riverside concerning the interpretation of a pass-through agreement between the Agency and the County. The Agency will pay monthly interest only debt service payments to the City of Moreno Valley. The interest rate is variable and is expected to approximate a rate of return the Agency achieves from investing the bond proceeds. During the year, the amount of interest earned and paid to the City was $457,378. If the Agency is successful in its litigation, it would begin receiving additional tax increment revenue to pay all or part of the debt service on the bonds. At that point, the bonds will be remarketed within five years and the proceeds used for the purpose of financing various redevelopment improvement projects. The bonds may be redeemed in total or in part at any time. At June 30, 2010, the outstanding principal balance is $22,500,000.

A summary of amounts owed to the City at June 30, 2010 follows:

Borrowing Purpose	Principal	Interest
Towngate Regional Mall (Sears)	$13,000,000	$4,489,369
Conference and Recreation Center	11,474,822	5,517,792
2007 TABs Series B	22,500,000	-
Redevelopment	652,248	218,760
Total	$47,627,070	$10,225,921

2007 Tax Allocation Bonds, Series A

In November 2007, the Agency issued 2007 Tax Allocation Bonds, Series A, in the original issue amount of $43,495,000 for the purpose of financing various redevelopment activities and other undertakings permitted under the Redevelopment Law, to fund a reserve for the bonds and to pay issuance costs. The bonds mature in serial and term fashion through August 1, 2038 and bear interest ranging from 3.5% to 5.0%. The bonds are subject to both optional and mandatory redemption prior to maturity beginning on August 1, 2017. The bonds are payable solely from Tax Increment Revenues and other funds and amounts pledged therefore pursuant to the Indenture. This issue is fully insured in the event of nonpayment by the Agency.

Totals	$ 3,564,945	$ 3,564,945

MV00234177

Note 7: Interfund Receivables, Payables and Transfers (Continued)

a. Advances to / from other funds (Continued)

In June 2007, the Low and Moderate Income Housing Capital Projects Fund advanced to the Tax Increment Capital Projects Fund $4,157,976 to finance the purchase of certain properties. Repayments will be made annually in an amount equal to 5% of the principal balance. Interest payments will be made annually based on the Agency's approximate average investment returns on monies. During the year, the initial principal payment of $187,628 was made. The outstanding balance as of June 30, 2010 was $3,564,945.

b. Transfers to / from other funds

Funds	Transfers In	Transfers Out	Net Transfers In (Out)
Capital Projects Fund:			
Administration	$ 704,381	$ -	$ 704,381
Capital Projects	1,314,308	-	1,314,308
Total Projects and Administration	2,018,689	-	2,018,689
Debt Service Fund:			
Tax Increment	-	(4,653,848)	(4,653,848)
2007 TABSs Series A	2,177,781	-	2,177,781
2007 TABSs Series B	457,378	-	457,378
Total Debt Service	2,635,159	(4,653,848)	(2,018,689)
Total Transfers In (Out)	$ 4,653,848	$ (4,653,848)	$ -

The Tax Increment Capital Projects Fund transferred $704,381 and $1,314,308 to the Administration Capital Projects Fund and the Projects Capital Projects Fund, respectively, to cover operating expenditures for the year.

The Tax Increment Capital Projects Fund transferred $2,177,781 and $457,378 to the 2007 TABs Series A Debt Service Fund and the 2007 TABs Series B Debt Service Fund, respectively, to cover debt service expenditures for the year.

Note 8: Prior Period Adjustments

During the year, the Agency split their Capital Projects fund into two funds: the Projects and Administration Capital Projects Fund and the Debt Service Fund. This was done to better identify debt service activity for the Agency. As such the beginning fund balance of the funds changed as follows:

Fund Financial Statements:

	Capital Projects Fund Projects and Administration Fund	Debt Service Fund
Fund balance at beginning of year, as previously reported	$ 71,448,769	$ 0
Fund balance split for debt service	(29,690,579)	29,690,579
Fund balance at beginning of year, as restated	$ 41,758,190	$ 29,690,579

MV00234178

Note 9: Commitments and Contingencies

Riverside County Agreement

During December 1987, the City of Moreno Valley and the Agency entered into an agreement with the County of Riverside to reimburse the County for the portion of tax increment the County would have been allocated and paid had there not been a redevelopment project adopted in the City. The Agency receives these amounts up to $7 million annually. The County will receive all annual tax increment in excess of $7 million until the total increment reaches $12 million and half of annual tax increment in excess of $12 million. When total tax increment paid to the County under this agreement from increments between $7 million and $12 million reaches $75 million, tax increment in excess of $7 million annually will be split equally between the Agency and County.

During April 1988, the City of Moreno Valley and the Agency entered into an agreement with the Riverside County Flood Control and Water Conservation District (District) which specifies that the Agency shall receive 100% of the District share of the tax increment until such time the total tax increment exceeds $12 million at which time the District shall receive at least 50% of its share.

The Agency must annually demonstrate, on a project-by-project basis, that the cumulative project costs paid by the Agency for the project improvements exceed the cumulative total of District share received by the Agency. To the extent that the cumulative project costs paid by the Agency exceed the cumulative total of District share received by the Agency, the Agency will receive the balance needed from the remaining 50% of the District share.

Beginning in 2004-2005 the Agency's tax increment exceeded $12 million. The County deducts its proportionate share from the Agency's remittances. The amount retained by the County is included shown as a reduction in tax revenue, "pass through agreement payments" in the financial statements. An additional amount of $4,846,739 for pass through agreements that have not yet been remitted is included in Due to Other Governments.

Community Facilities District No. 3 Agreement

In conjunction with the issuance of the Moreno Valley Auto Mall Special Tax Bonds Series 2000 (Auto Mall Refinancing), the Agency and the City are parties to an owner participation agreement which provides that the Agency will transmit to the District the available property tax increment it receives on parcels within the District as a credit against the special parcel taxes that otherwise would be payable by the owners. Furthermore, the City has agreed to loan the Agency available sales tax generated within the District for payment directly to the parcel owners should the increment be insufficient to offset the special parcel taxes. In addition, the Agency has agreed to pay to the parcel owners, subject to certain restrictions, certain available surplus sales tax from within the District. The obligations to remit sales tax terminate by December 1, 2010.

This agreement replaces a previous arrangement involving these parcels when they were included in Community Facilities District No. 2.

The amounts remitted during the year under the replacement and previous agreement to parcel owners totaled $ 692,744.

Community Facilities District No. 87-1 Agreement

In connection with the issuance of the Community Facilities District No. 87-1 (CFD) Towngate 2007 Special Tax Refunding Bonds, the Agency entered into an owner participation agreement whereby the Agency has committed tax increment for the payment of debt service requirements for these Bonds.

MV00234179

Note 9: Commitments and Contingencies (Continued)

Self-Insurance

The Agency is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, and injuries to employees. The City of Moreno Valley established two self-insurance funds (internal service funds) to account for and finance its uninsured risks of loss. Under this program, the self-insurance funds provide coverage for up to a maximum of $300,000 for each workers' compensation claim and $250,000 for each general liability claim. The City purchases commercial insurance for claims in excess of coverage provided by the funds and for all other risks of loss. Settled claims have not exceeded this commercial coverage in any of the past three years. All funds of the Agency participate in the program and make payments to the self-insurance funds based on actuarial estimates of the amounts needed to pay prior and current year claims.

SERAF Shift

In July of 2009, the California Legislature enacted ABX4-26 provides for a Supplemental Educational Revenue Augmentation Funds (SERAF). Redevelopment agencies are collectively mandated to place $1.7 billion in the SERAF in fiscal year 2009-2010, and $350 million in 2010-2011. The Agency's share of the SERAF for fiscal year 2009-2010 is $5,258,237. The California Redevelopment Association is continuing to be actively engaged in litigation to invalidate ABX4-26.

Note 10: Subsequent Events

Subsequent events are those events and transactions that occur after the end of the fiscal period but prior to issuance of the financial statements that are important for readers of the financial statements to be aware of. The Agency does not have any subsequent events to report.

Board of Directors
Community Redevelopment Agency of the City of Moreno Valley
Moreno Valley, California

REPORT ON COMPLIANCE AND OTHER MATTERS AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

We have audited the governmental activities, each major fund, of the Community Redevelopment Agency of the City of Moreno Valley (the Agency), as of and for the year ended June 30, 2010, which collectively comprise the Agency's basic financial statements and have issued our report thereon dated December 21, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Agency's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

MV00234187

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all the deficiencies in the internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

We noted certain other matters we reported to the management of the City of Moreno Valley in a separate letter.

This report is intended solely for the information of the Board of Directors, management of the Community Redevelopment Agency of the City of Moreno Valley, State Controller, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

CITY COUNCIL
MORENO VALLEY
RECEIVED
11 JAN -3 PM 3:49

MORENO VALLEY
WHERE DREAMS SOAR

City of Moreno Valley
Economic Development Department

MEMORANDUM

To: Mayor and City Council/Board of Directors of the Community Redevelopment Agency

From: Barry Foster, Economic Development Director BF

Date: December 31, 2010

Subject: TRANSMITTAL OF THE REDEVELOPMENT AGENCY'S FISCAL YEAR 2009/10 ANNUAL REPORT TO THE STATE CONTROLLER'S OFFICE

State Redevelopment Law (section 33080.1 of the Health & Safety Code) requires redevelopment agencies (RDAs) to submit annual reports to the State Controller's Office by December 31 of each year. The same reports are also to be submitted to each agency's Governing Board by this date, though no Board action is required.

Attached please find the following reports, which when combined are referred to as the "RDA Annual Report":

1. State Controller's Report
2. Statement of Indebtedness Report
3. Annual Audit Report
4. Department of Housing & Community Development Report
5. Default Report that provides the status report on loans exceeding $50,000 that were in default during FY 09/10
6. RDA Property Report
7. Bureau of the Census survey (Supplement to the Annual Report)

Per Health and Safety Code section 33080, this report is due within six months after the end of the fiscal year. The report is to include two (2) copies of the agency's component unit audited financial statements, and the report on the Status and Use of the Low and Moderate Income Housing Fund (HCD report). To meet the filing requirements, all portions must be received by the California State Controller's Office.

To file electronically:

1. Complete all forms as necessary.
2. Transmit the completed output file using a File Transfer Protocol (FTP) program or via diskette.
3. Sign this cover page and mail to either address below with 2 audits and the HCD report.

Report will not be considered filed until receipt of this signed cover page.

To file a paper report:

1. Complete all forms as necessary.
2. Sign this cover page, and mail complete report to either address below with 2 audits and the HCD report.

Reconciliation Dates: From July 1, 2009 to June 30, 2010

1.	Beginning Balance, Available Revenues	$ 17,280,687
	Adjustment made after SOI filed	
2.	Tax Increment Received - Gross All Tax Increment Revenues, to include any Tax Increment passed through to other local taxing agencies.	$ 20,411,208
3.	All other Available Revenues Received (See Instructions)	$ 880,256
4.	Revenues from any other source, included in Column E of the Reconciliation Statement, but not included in (1-3) above	$ 3,406,735
5.	Sum of Lines 1 through 4	$ 41,978,886
6.	Total amounts paid against indebtedness in previous year. (D + E on Reconciliation Statement)	$ 29,233,065
7.	Available Revenues, End of Year (5-6) **FORWARD THIS AMOUNT TO STATEMENT OF INDEBTEDNESS, COVER PAGE, LINE 4**	$ 12,745,821

NOTES:

9/30/2010

Tax Increment Revenues:

The only amount(s) to be excluded as Tax Increment Revenue are any amounts passed through to other local taxing agencies pursuant to Health and Safety Code Section 33676. Tax Increment Revenue set-aside in the Low and Moderate Income Housing Fund will be washed in the above calculation, and therefor omitted from Available Revenues at year end.

Item 4. above:

This represents any payments from any source other than Tax Increment OR available revenues. For instance, an agency funds a project with a bond issue. The previous SOI included a Disposition Development Agreement (DDA) which was fully satisfied with these bond proceeds. The DDA would be shown on the Reconciliation Statement as fully repaid under the "other" column (Col E), but with funds that were neither Tax Increment, nor "Available Revenues" as defined. The amounts used to satisfy this DDA would be included on line 4 above in order to accurately determine ending "Available Revenues".

Accountants' Compilation Report

Governing Board
Redevelopment Agency
of the City of Moreno Valley
Moreno Valley, California

We have compiled the balance sheet of the Redevelopment Agency of the City of Moreno Valley as of June 30, 2010 and the related statements of revenue and expenditures, and changes in fund balances for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

The accompanying statements were prepared on forms prescribed by the California State Controller's Office and do not include all applicable notes and disclosures as required by generally accepted accounting principles.

This report is intended solely for filing with the State Controller's Office and is not intended for any other purpose.

Moreno Valley Redevelopment Agency

Redevelopment Agencies Financial Transactions Report

Achievement Information (Unaudited)

Fiscal Year 2010

Indicate Only Those Achievements Completed During the Fiscal Year of this Report as a Direct Result of the Activities of the Redevelopment Agency.

Please provide a description of the agency's activities/accomplishments during the past year.

(Please be specific, as this information will be the basis for possible inclusion in the publication.)

Activity Report

The Community Redevelopment Agency of the City of Moreno Valley (RDA) hereby reports on the financial transactions, activities, and achievements accomplished in FY 2009/10.

A. RDA Administration

Objective: To manage and coordinate the activities of the City's Redevelopment Plan and provide programs and projects which improve the physical, social and economic conditions in the Redevelopment Project Area.

With RDA funds, the agency administered the infrastructure improvements, housing, and economic development activities described on the following pages:

B. RDA Housing

Objective: To develop and implement housing programs and projects, resulting in the improvement and expansion of the City's affordable housing opportunities that relate specifically to the Redevelopment Area. Program results are described in the Housing and Community Development (HCD) Annual Report of Housing Activity of Community Redevelopment Agencies for fiscal year ended June 30, 2007. Program descriptions are listed below.

1. Housing Development Projects

Square Footage Completed

Enter the amount of square footage completed this year by building type and segregated by new or rehabilitated construction.

	New Construction	Rehabilitated
Commercial Buildings	269,771	
Industrial Buildings	612,000	
Public Buildings

MV00234204

Achievement Information (Unaudited)

a. Oakwood Apartments: The 241-unit Oakwood Apartments project is under construction and scheduled for completion at the end of 2010. The RDA has committed $3,000,000 in financial assistance. $2,250,000 was disbursed during the final stages of construction and $750,000 will be disbursed at the achievement of stabilized occupancy.

b. Rancho Dorado Housing Project: The RDA committed a total of $4,750,000 to the first phase of the 150 unit affordable apartment project to be developed by Palm Desert Development Company. The project will be constructed in two phases, with 15 units reserved as permanent supportive housing for formerly homeless people. Construction has begun on the first phase consisting of 79 units, including a manager's unit.

c. Alessandro and Day Street: The Agency acquired approximately 8.5 acres of land at the northeast corner of Alessandro Boulevard and Day Street for use in a new affordable housing project. After an extensive selection process, Palm Desert Development Company was selected to develop the 220-225 units affordable housing project. A Negotiation Agreement was executed in May 2009; the Disposition and Development Agreement is currently being drafted.

□
2. Perennial Housing Programs

a. Homebuyer Assistance Program (HAP): The HAP provides up to 20% of the purchase price towards down payment assistance to income-eligible households purchasing an existing single family home or condominium in the City. The loan is a silent second, deferred, and repayable in 30 years.

b. Homeowner Assistance for Minor Rehabilitation (HAMR): The HAMR provides a $7,500 maximum loan to a homeowner in need of minor home repairs such as fencing or front yard landscaping. The loan is financed at a 3% to 5% annual interest rate with payments amortized over a ten year period. Monthly payments are approximately $71 to $78 per month. The loan would become immediately due and payable upon sale, refinance, or lease of the property.

c. Home Improvement Loan Program (HILP): The HILP provides a $40,000 maximum loan with a 3% annual interest rate. Payment and interest is deferred for 20 years or until the owner sells and/or ceases to occupy the property. This program is designed for homeowners who have equity in the properly to provide collateral for the loan and require multiple repairs and improvements, such as the

CLIENT COPY

MV00234205

Achievement Information (Unaudited)

upgrade of existing electrical and plumbing, roof replacement, and other major interior and exterior repairs. Priority is given to repair work that violates health and safety and/or building codes.

d. Mobilehome Grant Program (MHG): A $10,000 maximum grant amount is available to income eligible owner-occupied mobilehome residents. The units must be located in an established Moreno Valley mobilehome park where a monthly space rent is paid. Eligible improvements include health and safety related repairs, roofing, flooring and exterior paint.

C. Economic Development

Description: Because a significant portion of the land zoned for commercial, industrial or retail uses in Moreno Valley is located within the redevelopment project area, Economic Development staff spent a majority of their time working on projects that are eliminating blighting conditions within the project area.

Objective: to promote the City of Moreno Valley as a place to do business. Specifically, the Economic Development Department facilitates the development of employment opportunities and dynamic retail centers to (1) increase assessed valuations, (2) increase sales tax revenues, (3) create jobs, and (4) enhance Moreno Valley's image. To accomplish these goals, the Economic Development Department performs business attraction and business retention, ombudsman activities for Moreno Valley.

1. Business Attraction

In FY 09/10, the Economic Development Division (EDD) pursued business attraction efforts through the provision of assistance to developments and new business by site selection, project coordination, ombudsman, and/or project marketing services that facilitated the projects. Some of the projects are described below.

a. Commercial: EDD serves as advocate for approximately 2.6 million sq. ft. of commercial development, including the following projects (NOTE: bolded projects are located in project area):

1. Elsworth Plaza: EDD provided marketing assistance to this 30,000 sq. ft. project near the southwest corner of Alessandro Blvd. and Elsworth St. and ombudsman services to permitting assistance to Subway Sandwich Shop, an

CLIENT COPY
MV00234206

Achievement Information (Unaudited)

inline shop tenant of the center.

2. Iris Plaza: EDD assisted this 109,289 sq. ft. commercial projectwith resolution of permitting and construction issues. Tenants now open include Walgreen's, Fresh & Easy, Fitness 19, Carl's Jr., Quizno's, Del Taco, AutoZone, Provident Bank, KFC and Goodyear Tire.

3. Moreno Beach Plaza: This 350,000 sq. ft. center expanded and completed construction for the 86,500 sq. ft. Phase II EDD provided permitting assistance.

4. Moreno Marketplace: This 10 acre, 93,788 sq. ft. neighborhood shopping anchored by Stater Bros. and Wells Fargo and tenanted by Jack in the Box, Chop Stix, Fantastic Sams and other inline shops is now open. EDD provided extensive assistance with resolving development and permitting issues.

5. Moreno Valley Mall: General Growth Properties has completed more than 300,000 sq. ft. of renovation, remodeling and addition of new stores to the regional mall.

6. Stoneridge Towne Centre: Construction continued in this 579,000 sq. ft. lifestyle center. Construction was completed for Wachovia Bank and Chevron adding to the tenant list that includes: SuperTarget, Best Buy, Office Max, Kohl's, Dress Barn, Famous Footwear, Chili's, See's Candies, PFF Bank and Trust, and Bob's Big Boy Restaurant.

7. TownGate Center / Plaza: EDD executed intergovernmental agency and lease agreements with the County of Riverside and the Fritz Duda Company in 2008/2009, for tenant improvements of a 3,200 square foot Employment Resource Center. An expansion to the center was completed in 2009/2010. Burlington Coat Factory also opened its doors during this fiscal year.

8. TownGate Crossing: EDD assisted this 237,000 sq. ft. shopping center, anchored by Lowe's with the opening of Sports Authority, Nubi, and 99 cents Stores.

9. TownGate Promenade: EDD provided ombudsman service to this 200,000 sq. ft. shopping center with the opening of the 115-room Hampton Inn and Suites and 127-room Ayres Suites.

10. TownGate Square: EDD assisted this mixed-use development by helping

CLIENT COPY
MV00234207

Achievement Information (Unaudited)

secure successful negotiations between the commercial developer and landowner to acquire adjacent property for future expansion.

b. Office: EDD provided ombudsman and marketing services Moreno Valley Professional Village - WesTech College during their completed expansion project increasing their 7,703 square foot facility by 4,122 square feet.

c. Industrial: EDD is providing ombudsman support to more than 23 million sq. ft. of industrial projects within the city. The following are located within the project area:

1. Alere Property Group: Alere completed the first phase of their second Moreno Valley project – a 401,000 sq. ft. distribution/manufacturing facility, which Economic Development promoted at tradeshows. O'Reilly Automotive, Inc., with the assistance of EDD, negotiated the purchase of the facility and began tenant improvements. Alere's second phase, another 411,000 sq. ft. building, is underway.

2. BAS Recycling: EDD was actively involved with the site selection and relocation activities of the crumb rubber manufacture to a 66,000 sq. ft. facility in Moreno Valley. EDD provided extensive interdepartmental and interagency support during the entitlement, permitting and construction phases.

3. First Industrial Realty Trust: This major developer began grading the site the first of their three Moreno Valley projects totaling more than 3.5 million sq. ft. EDD provided extensive support and assistance with development issues during the entitlement stage.

4. Ridge Property Trust: Economic Development continues to assist Ridge during the construction and/or entitlement of several buildings in their two projects that will offer a combined total of more than 3.2 million sq. ft. Minka Lighting, Serta Mattress, ResMed and the United States Postal Service are tenants at Centerpointe, Ridge's 2.5 million sq. ft. business park (which is located in the RDA project area). EDD provided site selection assistance to prospective tenants.

5. Robertson's Ready Mix: This long time Moreno Valley business received approval and entitlements to relocate and expand their concrete batch plant to a new facility within city limits. EDD has provided extensive assistance resulting in the approval of the project.

CLIENT COPY

Achievement Information (Unaudited)

d. Hospitality: Economic Development is providing ombudsman services to the following proposed hotels (NOTE: bolded projects are located in project area):

1. Ayres Suites: 127-guest room project began construction. EDD EDD provided assistance with resolving development and permitting issues.

2. Hampton Inn & Suites: 115-room hotel opened May 2009. EDD EDD provided assistance with resolving development and permitting issues.

2. Business Retention: In addition to attracting new businesses to Moreno Valley, EDD pursued several business retention efforts.

a. Business Roundtable: EDD facilitated eight meetings between Moreno Valley businesses, the Chambers of Commerce, the City's Executive Team, and the Mayor to encourage dialogue and build relationships.

b. Business Visitation: EDD strengthened business retention efforts by holding nine one-on-one meetings with major employers and top sales tax producing businesses within the project area.

c. Chambers of Commerce: EDD provides financial support to Moreno Valley's three chambers of commerce in exchange for their provision of services to the business community.

3. Marketing: EDD continued various marketing activities supporting business attraction and retention activities.

a. Advertising: EDD placed advertisements in several nationally-recognized and local publications in the real estate/ retail / site selection industries and with a local business focus.

b. Tradeshows / Event Sponsorships: EDD enhanced the City's regional and national visibility by increasing our participation in tradeshows.

c. Website: EDD began a project to develop a site selection website providing a tool for businesses or consultants improving the rate of shared information between the City, site selectors, and real estate brokers.

d. Development Sign Program: EDD implemented a new public relations

CLIENT COPY

MV00234209

Achievement Information (Unaudited)

program. The program included the placement of eighteen attractively-designed, reusable development signs to announce the arrival of new businesses and development projects

Confirmation of Redevelopment Agency On-Line Filing of Annual HCD Report

FY: Fiscal Year: 2009/2010

FM: Redevelopment Agency: MORENO VALLEY
Agency Administrator: Annie Clark
Date: 12/22/2010
Time: 02:44 pm

TO: State Controller
Division of Accounting and Reporting
Local Government Reporting Section
P.O.Box. 942850
Sacramento, CA 94250

This notice is automatically generated by HCD's On-Line Reporting System. The purpose is to file with the State Controller's Office verification the redevelopment agency has complied with Health and Safety Code (H&SC) Section 33080(a) and submitted the annual HCD report required by H&SC Section 33080.1.

HCD Notification: For the Fiscal Year 2009-2010 Supplemental Education Revenue Augmentation Fund (SERAF) payment, the agency:

☐ Did use revenue/funds that reduced the amount available to the Housing Fund

☐ Did not use revenue/funds that reduced the amount available to the Housing Fund

To the best of my knowledge the representations made above and the agency information reported are correct.

Any person with a disability who requires a modification or accommodation in order to participate in a meeting should direct such request to **Mel Alonzo** at **951.413.3027,** at least 48 hours before the meeting. The 48-hour notification will enable the City to make reasonable arrangements to ensure accessibility to this meeting.*

MORENO VALLEY
CITY MANAGER'S OFFICE

PSSC MINUTES

To: Public Safety Subcommittee

From: Michelle Dawson, Assistant City Manager

Date: October 13, 2011

Subject: Meeting Notes for September 26, 2011

Present: William Batey II, Richard Stewart, Michelle Dawson, Paul Early, John Anderson, Cheryl Evans, Steve Curley, Abdul Ahmad, Cindy Owens, LeAnn Coletta

Absent: Marcelo Co, Randy Metz

Guests: Prem Kumar (PW-Capital Projects), Henry Ngo (PW-Capital Projects), Nestor Ignacio (TTG Corporation)

1. Introductions
Meeting was called to order by Councilmember William Batey II at 10:00 a.m. in the City of Moreno Valley, City Hall.

2. Public Comments
None

3. Approval of Minutes
Minutes of August 22, 2011 were approved as written.

4. Family Care Center – Emergency Generator
Prem Kumar introduced the presenters for the analysis and study report for the existing and proposed generator for the civic center buildings. The presenters were Henry Ngo, Public Works Capital Projects, and Nestor Ignacio from TMAD, Taylor & Gaines Corporation.

The presentation consisted of the following assessments:

1. Existing 800 KW Standby Emergency Generator System
2. Existing Building Emergency System Needs
3. Possibility of a Redundant System
4. Project Timeline

Following the assessments, five scenarios of proposed solutions and a summary of opinion of probable costs for the scenarios were presented.

MV00234261

After reviewing the scenarios, Mayor Stewart stated that the circuitry to link the existing generator to the CRC is very costly and suggested going with what the City could afford. He suggested adding a new generator at the CRC building, and upgrading the fuel tank at the existing generator to increase the running time to at least four days. He stated that as funds become available in the future, the new generator at the CRC building can be connected and serve as a backup for the existing generator.

Councilmember Batey agreed and requested that this be presented to City Council in October in an effort to expedite this project so that the final grant is not lost.

Urban Search and Rescue Trailer

Battalion Chief Abdul Ahmad provided a presentation of the Urban Search and Rescue Trailer. He gave examples of types of rescues that have occurred in Moreno Valley, which most are type 2 oriented and require technical experts for recommendations, such as cadaver dogs, doctors, etc.

Councilmember Batey asked if this would sustain us in an emergency until these experts and resources arrive. Fire Chief Curley responded yes, that we have multiple teams to utilize, and that there are future plans to add more. Councilmember Batey stated that he would like to see a goal for an additional Type-2 team.

5. Police Services

   A. ***Police Personnel Status Report***: Police Chief Anderson reported that Lt. Chad Bianco has been transferred out of Moreno Valley Police Department, and Lt. Cheryl Evans has moved into that position. Lt. Cheryl Evans provided the Police Personnel Status Report as of September 1, 2011.

6. Other Items of Interest

   A. Mayor Stewart reported that at a recent League Conference he saw a demonstration by the Santa Cruz Police Department of a software application that allows citizens to obtain information such as crime statistics, information from the Police Department, listen to Police scanner, etc.

7. Future Agenda Items

   A. None to report.

Meeting adjourned at 11:00 a.m.

Next meeting scheduled for October 31.

Additional Information

EOC Family Care Center Generator Project Update	The EOC Family Care Center generator project analysis and solution is scheduled to be presented to City Council on October 25, 2011. The project will then proceed to design and construction. Timeline: City Council Review/Approval: Oct 25, 2011 Design: Nov 2011 to June 2012 Bid/Award: July - Oct 2012 Const/Completion: Sept 2012 to April 2013
Emergency Operations Center	In early 2011, the City was awarded a hazard mitigation grant from FEMA in the amount of $1.5 million for storm drain improvements in the southeast area of Alessandro and Redlands Blvd. FEMA notified the City that our Local Hazard Mitigation Plan (LHMP) is outdated and we must adopt a new one by November 3, 2011 or risk losing the awarded grant funding. The City had initially participated in a county-wide multi-jurisdiction LHMP, which was facilitated by Riverside County; however, that 5-year plan expired in 2009 and Riverside County was not scheduled to complete a new countywide plan by the November 3, 2011 deadline. Therefore, Office of Emergency Management staff recently completed a new City of Moreno Valley LHMP, which is scheduled for City Council adoption on October 25, 2011.

APPROVALS	
BUDGET OFFICER	
CITY ATTORNEY	
CITY MANAGER	

Report to City Council

TO: Public Safety Committee

FROM: John Anderson, Chief of Police

AGENDA DATE: October 31, 2011

TITLE: Asset Forfeiture Expenditures

RECOMMENDATION:

Staff recommends that the Public Safety Committee, recommend the proposed spending plan for the Asset Forfeiture Funds for FY 2010, and recommend the 11/12 Police Department budget be amended for revenue and expenditure amounts in Fund #62710-6381.

BACKGROUND:

The Asset Forfeiture Funds are received through investigations (typically narcotic related), which were seized during the previous fiscal year. As a result of these investigations, various property and monies are determined to be proceeds of, and associated with, a particular criminal enterprise. Subsequently, when the investigations are adjudicated the funds are then distributed accordingly to the associated jurisdictional area. Historically, these funds have been utilized by law enforcement to purchase equipment or other resources to enhance future investigative abilities. Lastly, this allows law enforcement to bridge the gap between the ever changing and evolving criminal element. Currently there is a fund balance of $145,575.91

DETAILS:

The Moreno Valley Police Department proposes that the Asset Forfeiture Funds be utilized for the following categories:

Training/Equipment:

A. *Training* – **California Narcotic Officer's Association Annual Conference** – In an effort to stay abreast of the current trends in narcotic activity, The Moreno Valley Police Department Narcotic Special Enforcement Team (SET) is requesting to attend the annual CNOA conference held on November 11, 2011 to November 15, 2011, in Sparks Nevada. There will be 35 workshops available for attendees throughout the conference. A few of the workshops offered will include Current Trends, Cartel Activity, Highway Interdiction, Asset Seizure, Medical Marijuana Laws and Dispensaries, Search and Seizure, Surveillance Techniques, Officer Safety, Courtroom Testimony and Informant Management. The conference offers a chance for the SET team to network with other agencies throughout California. This would provide contacts to resources well beyond the means of the Moreno Valley Police Department. These resources include wire taps, cell phone trackers, funding for special operations and aerial surveillance. The total projected cost of the training for the team is $9,624.00. This includes airfare ($2079.00), lodging ($1980.00), conference registration ($3,465.00) and per diem ($2100.00).

Total Estimated Cost: $9,624.00

B. *Police Services* – **Scorpion compact digital recorder** - The Moreno Valley Police Department Special Enforcement Team regularly serves search warrants, conducts probation/parole searches, vehicle stops and pedestrian checks. As a result, team members are in contact with people from all walks of life and are placed in precarious situations. Some of these contacts result in citizen complaints and physical altercations. SET team members would be well served by a compact digital recording device that would provide video and audio record of the contact. The recorded contact could be used to cut down on fraudulent citizen complaints and prevent man hours from being wasted investigating these claims. The recording would also be invaluable evidence in the event of a critical incident or lawsuit. The system proposed is manufactured by Scorpion. We are also asking to purchase eight gigabyte memory cards for the recorders. The Scorpion comes with a two gigabyte memory, but through experience we found the memory fills quickly. The additional memory will enable officers to record longer before having to download the recording. We are asking for authorization to purchase fourteen of these units and memory cards.

Estimated Cost: $2,668.77

C. *Police Services* – **External drive** - The Moreno Valley Police Department Special Enforcement Team conducts in depth and lengthy investigations into drug and gang activity in the city of Moreno Valley. As a result of these investigations, officers save lengthy reports and photographic evidence on their computer. Additionally, SET officers conduct presentations for the public and outside law enforcement agencies on a regular basis. Officers store power point

presentations on their computers and have the need for a portable storage device. The external computer hard drive has a memory capacity of 500 gigabytes. These hard drives would allow SET members to have ease of access to their information on any computer without the worry of using too much computer storage space and slowing their computers. We are asking for the purchase of sixteen of these external hard drives.

Estimated Cost: $1,212.23

D. *Police Services* – **Night Vision Equipment** - The Moreno Valley Police Department Special Enforcement Team regularly conducts surveillance operations at all hours of the day and night. Because of the need to conduct surveillance in hours of low or no light, SET officers require night vision equipment. In the past, surveillance operations have been terminated once the ambient light was such that visibility was impaired. This creates an officer safety concern in that officers may be in an area where they cannot be seen in low light. Thermal imaging and night vision devices can be used during day and night without any ambient light, and can detect activity in a variety of environmental conditions. SET officers have tried several types of night vision equipment and have found the Morovision night vision and thermal imaging scopes to best fit our needs. We are asking for the ITT Night Enforcer NEPVS-14 Monocular ($3,595.50), the PVS-7 Goggle Gen3 PINNACLE ($4080.25), Insight Technologies MTM Mini Thermal Monocular w/visible Red Marking Laser ($16,290.00), MONOCAM Digital Camera Adapter Kit ($795.05) and Guardian IR Mockingbird Marker ($70.30).

Total Proposed Expenditures: $26,964.67

E. *Police Services* – **Upgrades for Surveillance Van** - The Moreno Valley Police Department Special Enforcement Team conducts many different types of surveillance operations. During these operations, specialized surveillance equipment is needed to observe areas where officers would not be able to set up for long periods of time. In these instances, unmanned surveillance vehicles are utilized. These specialized vehicles allow for surveillance to be conducted through vehicle mounted camera systems. The officers can monitor, via laptop computers, from remote sites while avoiding detection. The current surveillance system in our surveillance vehicle is outdated and has been experiencing several problems during use. The picture and video quality is not very good and the system overheats on extended operations or on hot days. An upgrade will eliminate the problems we have experienced and improve our video and picture quality. We are requesting an upgrade of the remote monitoring and recording equipment, install wi-fi and broadband modem, install new cameras, new deep cycle battery and charger. We also request an upgrade of surveillance system to

allow remote monitoring of the recording system through the internet when the surveillance vehicle is in cellular coverage. The package price includes a four hour training session.

Total Proposed Expenditure: $17,400.00

F. *Office Equipment* – **Office Furniture** - The Moreno Valley Police Department Gang Special Enforcement Team has recently added additional personnel and an additional sergeant position. With limited office space, the gang sergeant's office has to be reconfigured to accommodate the additional sergeant. In order to accomplish this, new desks and furniture are needed. A dual desk set was located through Systems Source. The desk set allows for both gang sergeants to have their own storage and desk space while making the most of the limited space in the office. The cost of the desk system is $1,528.10, which will require installation at a cost of $600.00.

Total Proposed Expenditure: $2,314.28

G. *Police Services* – **Digital Camcorder** – The Moreno Valley Police Department Special Enforcement Team regularly conducts surveillance operations and executes search warrants. The need to document these operations is crucial. The documentation can be used for both criminal and civil court proceedings. We are requesting the purchase of two digital camcorders with 30x zoom capability. This would allow us to digitally record activity and information from a greater distance, so as to not compromise our location. The cost of two camcorders, cases, card readers and three year warranty is $1,264.90 with a sales tax of $93.18.

Total Proposed Expenditure: $1,358.08

H. *Ballistic Upgrades* – The Moreno Valley Police Department Reception Counter Area and Access Doors are not currently upgraded to withstand any type of firearm assault. On January 23, 2011, shortly after 4 p.m., the Detroit Police Department had a person enter their front lobby area. The person produced a firearm and began to shoot at the officers in the area. A total of four sworn personnel (a commander, two sergeants, and one officer) were struck by gunfire. All of the officers survived their injuries. It is unknown why the person committed this violent act. The Detroit shooting is not an isolated incident. In early 2010, the Hemet Police Department became the target of violent acts, including one act involving a firearm. In the interest of protecting our officers from a similar situation, we are requesting to upgrade the front counter area and side access doors on both sides of the reception area with ballistic material. The cost of the level IV ballistic upgrades will not exceed $70,000.

Total Proposed Expenditure: $ 70,000.00

Amounts presented above are estimates based on current preliminary information received. If prices change or estimates are lower than the final bids, expenditures will be adjusted or items removed to keep expenses within the approved purchase amount.

Total Proposed Expenditures: $131,542.03

ALTERNATIVES:

1. By motion approve and authorize the spending plan as presented.
2. Provide staff with further direction.

FISCAL IMPACT:

This is a stand-alone sum of money in the amount of $131,542.03 and no matching funds are required.

Fund #62710-6381, SET Operating Equipment, will be amended for the following revenue and expenditure accounts and amounts:

Available Asset Seizures & Fines: $ 145,575.91

*Upon request, this agenda will be made available in appropriate alternative formats to persons with disabilities, in compliance with the Americans with Disabilities Act of 1990. Any person with a disability who requires a modification or accommodation in order to participate in a meeting should direct such request to **Mel Alonzo** at **951.413.3027,** at least 48 hours before the meeting. The 48-hour notification will enable the City to make reasonable arrangements to ensure accessibility to this meeting.*

MORENO VALLEY
CITY MANAGER'S OFFICE

PSSC MINUTES

To: Public Safety Subcommittee

From: Michelle Dawson, Acting Assistant City Manager

Date: April 13, 2011

Subject: Meeting Notes for April 11, 2011

Present: William Batey II, Marcelo Co, Michelle Dawson, Suzanne Bryant, Chad Bianco, Steve Curley, Cindy Owens, Randy Metz

Absent: John Anderson, LeAnn Coletta

Public: Deanna Reader, Alvin Horn

1. Introductions
   Meeting was called to order by Councilmember William Batey II at 10:05 a.m. in the City of Moreno Valley, City Hall.

2. Public Comments
   Deanna Reeder requested the ratio of management to non-management employees in both the Police and Fire departments; Lt Bianco and Chief Curley indicated they would provide her that information before Tuesday's Council meeting. (Alvin Horn arrived after public comments).

3. Approval of Minutes
   Minutes of March 23, 2011 were approved as written.

4. Proposed Revision to the Marijuana Dispensary Chapter 11.10 Ordinance
   Suzanne Bryant, Deputy Attorney III stated that the City Attorney's Office is monitoring cases involving other cities that are pending before the Court of Appeals. She added that appeals take some time. She indicated that there is no new information at this time involving those cases pending before the Court of Appeals. City Attorney's Office will continue to monitor these cases.

5. Police Services
   A. ***Police Personnel Status Report:*** - Lt. Bianco reported that there are 6 vacancies in filled, billable positions.

6. Fire Services
   A. ***Fire Services Report:*** - Chief Curley indicated that the Fire Department has

MV00234278

seen a 9% increase in workload from the previous year. Councilmember Co asked if the Fire Department would be adding any personnel due to the dry season coming up. Chief Curley answered no; they do not hire seasonal personnel. Councilmember Co indicated that he has received 4-5 calls from residents complaining about their weed abatement notices. Chief Curley indicated that they would be happy to address any concerns and that they have in fact cleared some cases upon talking to residents and getting additional information. Batey indicated that if Councilmember Co would forward any complaints to Cindy Miller in the Council office and she will track them in the CRM system and Councilmember Co would receive a summary of how the cases were resolved by Fire Prevention.

B. ***Office of Emergency Management Report***: - No report.

7. Other Items of Interest

A. Chief Curley reported that at the April 4 Board of Supervisors budget workshop, County Fire Chief Hawkins proposed eliminating the County funding for the 3 Captains that staff the truck company at Moreno Valley Station 91. The loss of funding to the City would be over $500,000/year. Councilman Batey stated that this was another reason for the City to look into bringing the fire services in-house. Michelle Dawson reported that staff had talked to Council Member Robin Hastings in her role as Chief of Staff for Supervisor Ashley because Staff felt that since the Supervisor was not in attendance at that workshop and was participating via conference call, that the City did not have an advocate to talk in opposition to this cut. She indicated that the City Manager's Office was drafting a strongly-worded letter to Chief Hawkins from the Mayor and that it would be forwarded for signature today.

8. Future Agenda Items

A. Morrison Park Fire Station - Chief Curley will indicate when he is ready to discuss this item.

Meeting adjourned at 10:25 a.m.

Next meeting: May 23, 2011

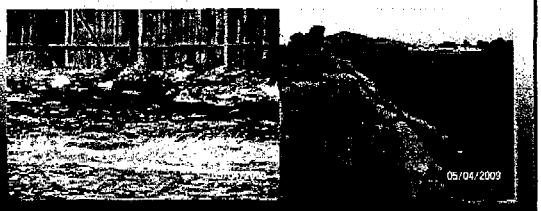
City of Moreno Valley
Fire Department

Community Hazard Reduction Program



Objectives

- **Identify** vacant parcels that are not maintained by property owners
- **Reduce** risk of fire hazard on identified vacant parcels in Moreno Valley by abating overgrown weeds and vegetation
- **Provide** due process by giving property owners time to abate their property
- **Record** parcels that have not met *City of Moreno Valley standards* for abatement
- **Abate** non-compliant properties after proper notification to property owners that [illegible]

History

- January 2009 – Program transferred from Code Services to Fire Prevention – 800 parcels in manual program.
- Spring 2009 – GIS automates the inspection program.
- Fall 2009 – FP and GIS identify approximately 2200 parcels that are not in the program. Total Parcels = 3000

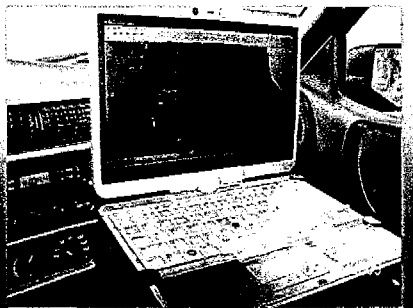
History

- Spring 2010 – FP completes 2nd year of Hazard Reduction.
- 2010 inspections identify 1000 parcels that should be voided from program.
- Spring 2011 - Removed State & Federal land from program due to jurisdictional limitations.
- 2011 inspections # approximately 1800.

Staffing

- Fire Chief – Executive Program Director
- Fire Marshal – Program Administrator
- 2 Fire Inspectors – Perform all field inspections and abatement contractor oversight.
- Sr. Admin Asst. – Performs all paperwork such as mailings, invoicing, PO management, county processing, payment processing, etc.

Identification of Parcels



Fire Prevention Inspectors will identify and record parcels requiring abatement

Identification of Parcels

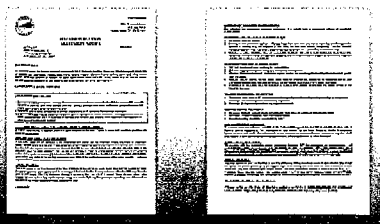
Each parcel will have a fire prevention permit number assigned to identify the parcel, to track inspections, and document the contractor's work on the parcel.

04/21/2009

What are the Qualifiers?

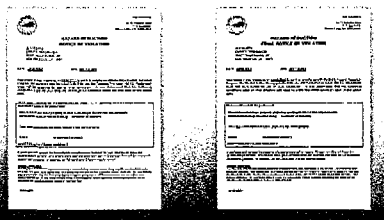
- What category does the property belong to?
- Are weeds or vegetation cleared?
- Is there trash or debris on parcel?
- Are tree branches hanging below 8 feet?
- Are fire breaks provided on parcels over 5 acres?
- Is the parcel properly abated to current City of Moreno Valley standards?

Courtesy Notice



- Mailed to all Parcel Owners April 1
- Outlines all clearance requirements

Notices of Violation



- 1st NOV Letter – 14 Days to Comply
- Final NOV Letter – 10 Days to Comply

ABATEMENTS MUST INCLUDE:

1. Handwork along perimeters: Removal of weeds/debris from parkway area and edge of street pavement to property; removal of concrete*, asphalt*, junk, trash, tires, etc.; disking more than once where soil has not adequately mixed with grass; disking twice where tumbleweeds exist.

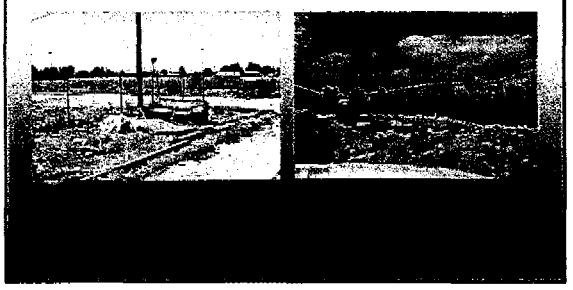
2. Fire Officials may require additional abatement work to maximize fire hazard reduction. Owner may be held liable for costs associated with any Fire Suppression Services that occur on your property which result from dry vegetation or other types of combustible material.

Contractor to verify removal with fire inspector

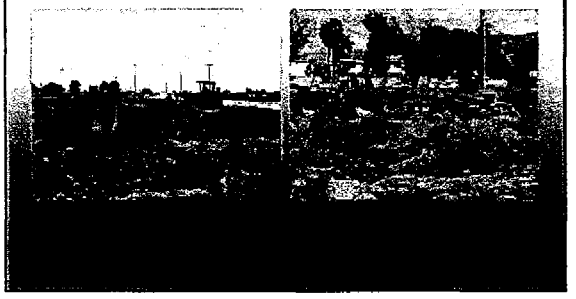
Non Compliant Abatement

MV00234281

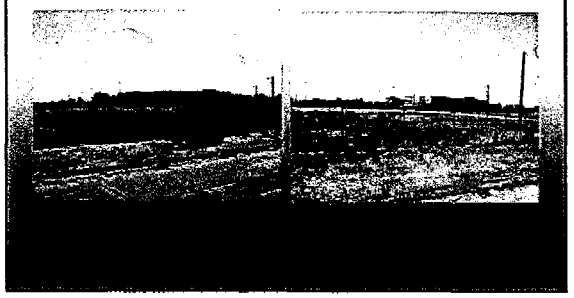
Non Compliant Abatement



In Process Abatement

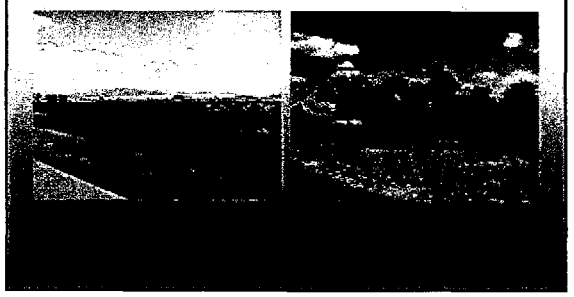


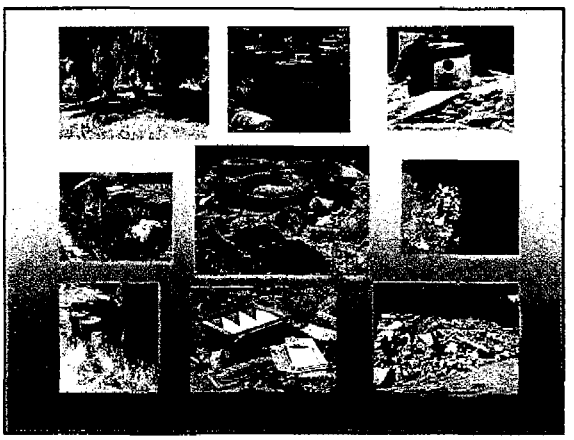
Perris & Iris – Before & After



Compliant Abatement

Compliant Abatement





MV00234282

Removal of tree limbs (branches)

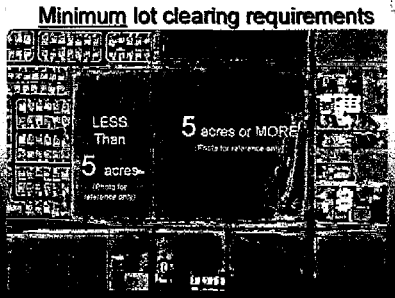
To provide a minimum of an 8' clearance from ground to branches.

There are 5 Categories of Parcels

- Parcels less than 5 acres in size
- Parcels over 5 acres in size
- Agricultural properties
- Hillside Residential Properties
- State Governed Agency properties

City of Moreno Valley *

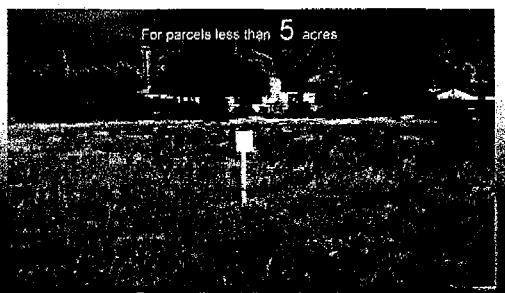
Minimum lot clearing requirements



5 acres is the determining factor for vacant parcel abatement requirements

City of Moreno Valley *

Minimum lot clearing requirements



Remove all vegetation and weeds

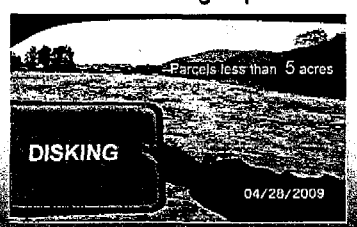
City of Moreno Valley *

Minimum lot clearing requirements

- All weeds must be abated
- Piles of Cuttings are to be removed from parcel
- Lot should be essentially cleared of weeds and or vegetation.

City of Moreno Valley *

Minimum lot clearing requirements



- Disking should turn over the soil
- Weeds and Vegetation are to be buried by disking
- Additional disking may be required if soil does not mix with weeds adequately

(Photo shows lot that was disked inadequately.)

MV00234283

Minimum lot clearing requirements

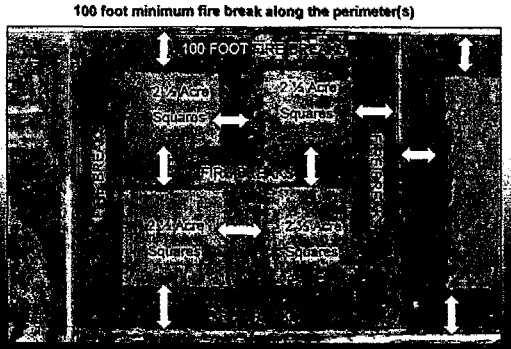
- Mowing of vegetation may be approved in some situations.
- Mowing doesn't alleviate the need to remove cut fuel through haul off or disking
- Mowing presents additional fire hazards and extra precautions must be taken in order to be done safely.
- Contact MVFD for direction on safety procedures while mowing

Property 5 acres or more

- **100 foot minimum fire break around perimeter**
- **200 foot minimum firebreak along any residential developments**
- **100 foot minimum crosscut firebreaks**
  - **Applied so that no remaining un-cleared portion of the property is greater than 2.5 acres**

5 Acres or more

100 foot minimum fire break along the perimeter(s)

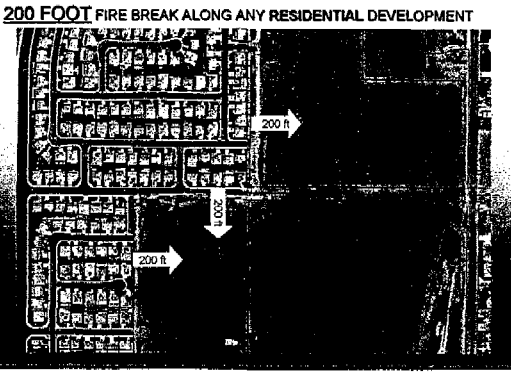


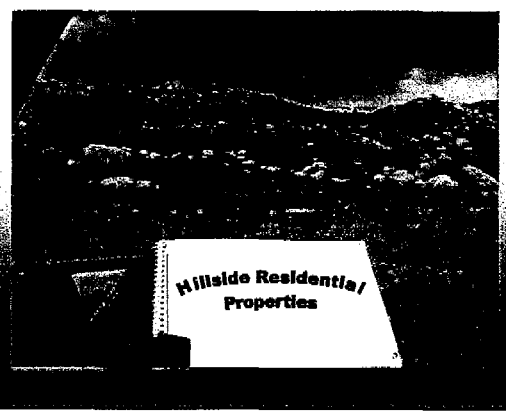
5 Acres or more

Property should look like this

Parcels 5 Acres or more

200 FOOT FIRE BREAK ALONG ANY RESIDENTIAL DEVELOPMENT



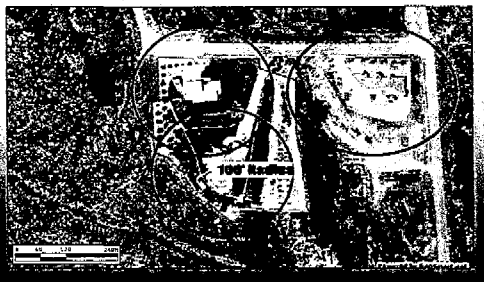


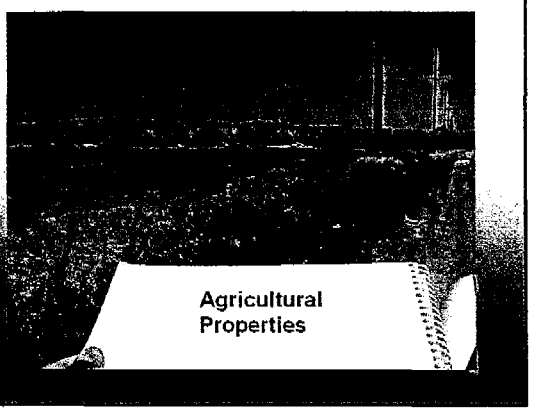
MV00234284

Hillside Residential Properties

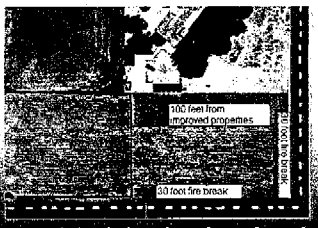
- Structures must have a 100 foot clearance from any flammable/combustible materials or dry vegetation.
- Minimum 100 foot firebreak from heavy vegetation.
- Minimum 30 foot clearance from any mature tree trunk.

Hillside Residential Properties:





Agricultural Properties

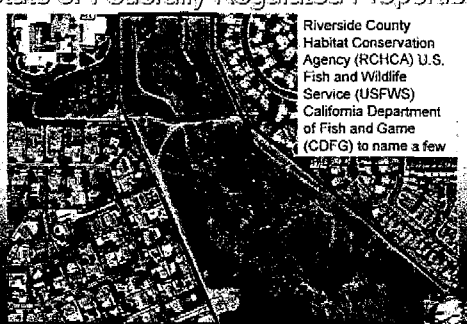


- Minimum 30 foot firebreak along the perimeter from edge of road.
- Minimum 100 foot firebreak from improved property

Agricultural Property

- Crop Harvesting to should be completed by July 1, 2010

State or Federally Regulated Properties



Riverside County Habitat Conservation Agency (RCHCA) U.S. Fish and Wildlife Service (USFWS) California Department of Fish and Game (CDFG) to name a few

- Notices to abate do not authorize any persons to violate the Federal Endangered Species Act or any State/Federal laws or regulations.

MV00234285

U.S. FISH & WILDLIFE SERVICE

WHERE REGULATED BY THE FEDERAL ENDANGERED SPECIES ACT

DISKING IS PROHIBITED !

State or Federally Regulated Properties

- Information on the alteration of a stream channel, wetland or irrigation which may require a state or federal permit contact:
- City of Moreno Valley Planning Division at (951) 413-3206

STATE GOVERNED AGENCIES

Administrative Process

- Database ordered from GIS
- Request to TS for Case #'s to be created
- 2000 Courtesy Notices printed, stuffed & mailed
- Weekly NOV's printed & mailed
- Contractor abatement lists created
- Process abatement contractor invoices
- File Intent to Lien with County Recorder
- Create individual case folder for each parcel abated
- Manage invoicing process to reconcile with Purchase Order

Abatement Administrative Process

- Prepare Statement of Costs info in Permits Plus
- Print & mail SOC to all parcel owners
- Prepare Parcel Abatement List for Council
- Prepare lien forms for signature
- Process lien forms at County Recorder
- Process payments received from SOC's
- Prepare & print invoice for cashier
- Create, prepare & mail lien release to parcel owner
- Answer all calls to the HR Hotline and public counter
- Create all documents for Council Meeting

Timeline

- March – GIS Parcels ordered for tablet computers
- March – F-Weed Cases created by TS
- April 1 – Courtesy Notice mailed to all parcel owners
- April 15 – Initial inspections begin
- March 15 – 2nd inspections begin
- June 15 – Final inspections performed & non compliant property forwarded to contractor

MV00234286

Timeline

- June 15 to July 15 – Inspectors coordinate city abatement crews
- July 31 – All invoices submitted to FP admin for processing
- August 15 – All lien holder letters filed with the County Recorder
- September 1 – Statement of Cost letters mailed to parcel owners
- Sept to Nov – Payments received & processed
- November – Public Nuisance Staff Report & PAL log presented to Council for Approval

Fees

- Actual cost of abatement as submitted by contractor.
- $151 Inspection Fee
- $240 Administrative Fee
- Fees only charged to those parcels where city abatement contractors perform work.
- Parcel owners may get up to 3 inspections from FP without any costs being absorbed by parcel owner.

Additional Information

Riverside County Operational Area Mass Care and Shelter Task Force Update	The Riverside County Operational Area Task Force was formed in 2006 after almost 2000 Hurricane victims arrived in the county, requesting assistance. It was also formed as a result of a National Homeland Security review of catastrophic planning of the Riverside urban area. These types of reviews were conducted in 9 urban areas within California and 131 urban areas nationally. Since the Task Force inception, LeAnn Coletta, Office of Emergency Management, has been designated as its chairperson. Initially, the Task Force completed a Findings and Recommendations Report to Riverside County Board of Supervisors, identifying shortcomings within Riverside County. From that, the County received Homeland Security grant funding for 64 mass care trailers to be distributed throughout the county once the project is complete. Each 100-person trailer will have 90 regular cots and 10 larger, special needs cots, as well as equipment and supplies for shelter operations. Recently, the Task Force completed a Mass Care and Shelter Guidance for Emergency Planners and accompanying Standardized Operating Procedures checklists. The Task Force has received many accolades for the two documents and FEMA is utilizing them as a template. The Task Force recently conducted training on the two documents, which are located in the Emergency Management section of the City's website.

MV00234295

EXECUTIVE SUMMARY

Moreno Valley enjoys a good public safety and traffic safety record, verified by State and Federal crime and traffic safety audits. Most recently, Moreno Valley was ranked 3rd in the Nation for traffic safety and Moreno Valley has seen a decline in crime over the last three years. Policing services are currently delivered to the City through a contract with the Riverside County Sheriff's Department. The purpose of this study is to examine the feasibility, possible structure, and cost if the City were to create and maintain a City operated police department.

For Fiscal Year 2011/2012 the City has budgeted $41,261,770 for police services which includes 181 sworn positions and 52.5 non-sworn positions from the Sheriff's Department. This cost represents the direct cost of the police contract and other budgeted items, but does not include any City overhead costs such as contract management and financial administration. The City operated police department described in this study would have an estimated first year cost of $49,556,989 with a staff of 199 sworn positions and 107.5 non-sworn positions. Additionally, the City would need to increase staff in other City departments, such as Human Resources, in order to sufficiently support a City operated police department. The cost for the additional City staff, including overtime pay, holiday pay, and standby pay is $1,365,916 with another 17 non sworn positions added to the various City departments. ***This brings the total cost for a City operated police department to $50,922,905.***

As this study will explain, there are certain first year operating costs that can not be estimated at this time. For instance, the City does not require the full time services of an emergency services team (more commonly known as a special weapons and tactics team, SWAT), however, the City would need to consider either contracting for this service with another jurisdiction or consider training its own police officers to act in this capacity on a part time basis. Furthermore, there is the expense of purchasing specialized equipment for this team as well as the cost for the additional training for the members of the team. Another expense that can not be estimated is the cost of a City operated criminal laboratory. As these costs can not be predicted they have been excluded from the first year operating budget, however, the City could expect to see the budget increase $350,000 to $750,000 for just these two items.

As is explained in the "Police Staffing" section, the staff numbers for a City police department are higher since a City police department would need to have sufficient staff to cover absences that are now covered under the constant staffing provided in the contract with the Riverside County Sheriff's Department. Rather than contract for a particular number of people, the City contracts for a particular number of hours of service with the County. Consequently, if a deputy assigned to Moreno Valley is absent, another deputy will fill his place.

The City operated police department budget also includes the cost of a City operated police communications/dispatch center. Of the $50,922,905 total budget for a City operated police department, $2,630,388 is for personnel costs associated with operating a communications center. This amount includes overtime, shift differential, holiday pay, and standby pay. The cost does not include workman's compensation, training costs, internal service fees, and other budgetary costs associated with operating a communications center.

Minimally the City should expect to spend $34,144,562 in start up costs to establish its own police department. Major components would include vehicles and vehicle equipment; communications, dispatch and computer aided dispatch systems; records management and information technology; a telephone system; and transition costs. Of these start up costs, the most expensive component are the items required to effectively establish a communications and

MV00234296

dispatch center, which totals $10,416,050 and includes the cost for telecommunication towers. It should be noted that $10.4 million is considered a minimum cost for dispatch and communications. The cost for dispatch and communications could increase to over $17 million dollars depending on final quotes for purchasing equipment, purchasing land, construction of the radio towers, and other expenses. These start up costs are outlined in Table 7 on page 19; however, *not included in these start up costs is the expense of expanding the Public Safety Building to accommodate evidence and property storage, vehicle impoundment for criminal investigations, a communications/dispatch center, and a criminal laboratory as well as the expansion of City Yard for the maintenance of police vehicles.*

The City recently completed a master plan for the incremental growth of the Public Safety Building. In that incremental plan the evidence, property and logistics expansion is included in Phase 3 along with a parking structure. The cost for that phase is estimated at $27.9 million dollars with a total cost for the expansion $104.4 million. To some extent, the City would need to revisit this master plan and potentially reprioritize the phases in order to add space to the building to accommodate a larger police force, criminal laboratory, evidence storage, property storage, vehicle impoundment, and a communications/dispatch center. The costs mentioned here are not included in the start up costs but do need to be considered in the overall strategy for implementing a City operated police department should that be the desire of City Council.

This study will begin with an examination of patrol staffing and the number of officers needed for calls for service response and self initiated police work. It describes the number of officers needed for special units such as traffic, problem oriented policing, and special enforcement teams which provide a vital supplement to patrol.

Additional sections will describe investigative support, administrative support, and other components that are required for a City operated police department. There will then be a brief overview of the facility and equipment as well as communications and information technology. Based on the information in those sections, City staff will then outline a first year operating budget. Finally, there will be a brief discussion on the start up costs involved for creating a City operated police department.

POLICE STAFFING

In order to determine the number of police officers required to staff a City operated police department it is necessary to understand that there are two primary workload indicators for patrol operations, which are calls for services and self initiated activity.

Calls for service occur when someone contacts the police department and requests assistance. They can contact the police department by calling 9-1-1, calling the non-emergency phone number for the police department, walking into the police station, or by stopping a police officer on the street. Calls for service can be managed to some extent by separating urgent, life threatening calls from non-life threatening calls, however, the number of calls for service cannot be directly controlled by the police department.

Self initiated activity occurs at an individual officer's discretion whereby they initiate a traffic stop due to a vehicle code violation, check on parked vehicle due to suspicious circumstances, stop a pedestrian, check on a building, or perform other tasks. Self initiated work is generally started by the police officer and is not in response to a citizen request. Self initiated work can be deferred by the police officer to when the calls for service workload is lighter,

MV00234297

however, this type of activity does depend on legitimate opportunities being available which can coincide with peak times for calls for service.

To determine the number of patrol officers needed to respond for calls for service as well as to perform self-initiated work, City staff examined 12 months of data supplied by the Riverside County Sheriff's Department from their data warehousing system (April 1, 2010 - March 31, 2011). The data warehousing system utilizes information from the computer aided dispatch (CAD) system to generate information on each dispatch event. The resulting data was composed of 129,255 useable calls for service and 27,466 self initiated records for that time period.

Data obtained from the Riverside County Sheriff's Department only contains information for the primary unit that responded to a call for service or performed a self initiated activity; however, the total time consumed by an event includes not only the primary unit assigned but also the time spent on the call for service by the backup units. The amount of time spent on a call by backup units will typically be less than that of the primary unit. Backup units tend to be dispatched after the primary unit is assigned and will oftentimes clear the scene sooner than the primary unit. In order to account for the backup unit's time consumed by an event, City staff increased the average total time consumed by calls for service by 40%, which is the number MAXIMUS used in their 2004 police feasibility study.

MEASURING CALLS FOR SERVICE WORKLOAD

In order to determine how many patrol officers are needed to meet the demand for police services in the community City staff measured how much time needs to be devoted to call responses by hour of the day and day of the week. The amount of time spent on a call was measured from the time the officer was dispatched to the call to when the call for service was closed out by the officer.

Each record was broken into the time spent on the call for service by the hour of day and the appropriate day of the week. For example, a call that began at 11:45 p.m. on a Tuesday night and concluded at 1:00 a.m. on Wednesday morning was broken into 15 minutes for the 11:00 p.m. to 12:00 a.m. block of time on Tuesday with the remaining 60 minutes placed in the Wednesday 12:01 a.m. to 1:00 a.m. block.

Utilizing staff from the City's Technology Services Division, all calls for service were broken up into their appropriate day of the week and hour of day. This time was then increased by 40% to account for the time back up units may have spent on the activity and then converted from minutes to hours. The total number of hours for the day of the week and the hour of day was then averaged for the year to produce the number of hours per day of week and per hour of day that the City could expect the patrol division of the police department to spend responding to calls for service. The information in the table below reflects this information.

Hour	Mon	Tues	Wed	Thurs	Fri	Sat	Sun		Totals

Table 1: Time Spent on Call for Service by Patrol Units in Moreno Valley April 2009 to March 31, 2010 (includes 40% assumption of time spent by back up units)

Moreno Valley experiences its highest call volume on weekdays from 1800 hours to 2000 hours. The single busiest period is from 1500 hours through 2300 hours on Fridays. Given that Moreno Valley is a suburban community, this is to be expected.

Each block of time in Table 1 can be interpreted as the amount of personnel hours needed to handle calls for service only during that time on that day. For example the 12.80 figure on Friday night from 2300 hours until midnight means that at least 13 officers are needed on average to handle the calls for service generated by citizens. However, staffing cannot be only for calls for service. Having sufficient time available for self initiated activity is important if the department wants to work proactively to solve crime, violence, and disorder problems through community policing. The best self initiated work involves not only vehicle stops and pedestrian checks but also time for officers to work with residents and business to solve the problems of underlying crime, violence, and disorder. Time spent in these endeavors can reduce calls for service as the conditions causing the problems improve.

Staff could not locate a universally accepted standard for how much patrol time should be consumed by calls for service. A common assumption, prior to the establishment of community oriented policing, was that a third of an officer's time should be spent on calls for service, a third of their time on self initiated activity, and a third of the time on uncommitted patrol activities.

MV00234299

Departments have a varying degree of time spent on patrol ranging from 30% to 65% of an officers time.

The percent of time an officer should spend responding to calls for service is a policy decision based on how the department and the community would like to see an officer spend their patrol hours. Having a large amount of time consumed by calls for service may increase response time as officers will frequently be busy on other calls. It will also reduce the time available to spend on problem solving and community policing by police officers. The department can counteract a portion of this by assigning officers, on a rotating basis, to special assignments such as problem oriented policing, burglary task force, special enforcement teams, etc.

When determining patrol staffing levels it is important to consider that in a police department, as with any other City department or organization, the number of personnel available and actually working will vary daily. Not everyone comes to work every day. Patrol officers are absent from work for a variety reasons including training, vacation, illness, court time, and special assignments. Over time, schedules may vary due to transfers, promotions, long-term injury leave and general vacancies within the police department.

For an agency the size of Moreno Valley, the City can expect to see a show up rate between 75% to 85% for patrol officers. Variables affecting sick leave usage include: the seniority of employees since more senior employees typically accrue more leave than those who are newly hired; department sick leave policies; other available leave such as compensation time in lieu of paid overtime; and work schedules. The later factor, work schedules, has an impact on the show-up rate in that if an officer perceives that they can never have a "favorable" day off then sick leave abuse may occur. There are various models of scheduling that can be reviewed to provide a greater variety of favorable shifts, however, the final shift schedule should be determined by the initial Chief of Police hired by the City should the City elect to form its own police department.

DETERMINING THE NUMBER OF OFFICERS FOR CALLS FOR SERVICE RESPONSE

Table 1 accounts for an average of 1,412 hours per week that the Moreno Valley Police Department will spend on calls for service regardless of whether the City continues to contract with the Riverside County Sheriff's Department or if the City decides to operate its own police department. Table 2 below shows the number of patrol officers needed given the current hours spent on calls for service, for dedicating 35% of a patrol officers time to calls for service, 50% of their time to calls for service and 65% of their time handling calls for service. The table also estimates the show-up rate for officers at 85%, which equates to 34 hours per week per officer based on a 40 hour work week, or of the 2,080 hours an officer is scheduled to work, he/she will attend work 1,780 hours in a given year.

Hours Per Week Spent on Calls for Service	Percent Time Spent Handling Calls For Service	Officers Needed for an 85% Show Up Rate
1,412	35%	119
1,412	50%	83
1,412	65%	64

Table 2: Number of Officers Needed to Respond to Calls for Service

MV00234300

For the remainder of this study the mid-range of percent time spent handling calls for service will be used for determining costs and other factors for establishing a City operated police department resulting in a requirement of 83 patrol officers to handle calls for service throughout a typical week. To match the changes in workload over the course of a day, the staffing levels for the police department should vary to allow for more officers to be on duty when the calls for service from City residents is highest. The Sheriff's Department currently has officers working 10 hour shifts with 4 shifts per day to allow for greater flexibility in covering those times of day when there are higher calls for service. Those shifts currently are:

- Watch 1: 2200 hours to 0800 hours
- Watch 2: 0600 hours to 1600 hours
- Watch 3: 1300 hours to 2100 hours
- Watch 4: 1700 hours to 0300 hours

At this time, the Riverside County Sheriff's Department has 82 deputies, including two K-9 Officers, assigned to the patrol division with ten sergeants and two lieutenants for supervision, giving a ratio of 8.2 deputies per sergeant. The ratio of sergeants to patrol officers does vary amongst other police departments and ranges from one sergeant per six officers to one sergeant per ten officers. The 2004 Maximus study suggested a patrol officer to sergeant ratio closer to one sergeant per six officers, which would provide for better supervision in the field as the City operated police department would most likely be lesser experienced than the current department. The Maximus study final allocation for patrol had 1 sergeant per 5.4 deputies as they allocated on additional sergeant to the 1:6 ratio for covering vacation, illness, or training. While staff is not suggesting that the City operated department be quite that aggressive in providing supervision for a lesser experienced workforce, it may be in the City's best interest to consider increasing the number of sergeants assigned to patrol in the first few years from the current level of 1:8.2 officers to 1:7 officers. However, for the purposes of generating a first year budget, City staff has kept the current number of sergeants as listed in the contract with the Riverside County Sheriff's Department.

The Riverside County Sheriff's Department provides two lieutenants to oversee patrol functions. These two lieutenants typically work Monday – Friday, however, they do adjust their schedules for special assignments, warrant sweeps, special holidays that adversely affect patrol such as New Years Eve, and are on call should an event arise requiring their expertise. Numerous police departments, such as the City of Riverside and the City of Corona, provide one lieutenant per patrol shift with one Captain overseeing the patrol division. This was the recommendation of the Maximus study that was performed in 2004 for the City. As the City is satisfied with the current level of staffing at the police department, this report will reflect only two lieutenants with patrol being placed under one captain in charge of the Field Operations Division.

SUPPLEMENTING PATROL

Currently the Riverside County Sheriff's Department supplements patrol services with traffic enforcement, problem oriented policing, community services, special enforcement team, burglary suppression team, robbery suppression team, and a gang task force. The number of

MV00234301

personnel assigned to these teams does vary depending on what is occurring within the City and is provided for within the hours contracted for with the Sherriff's Department. Additionally, the City specifically contracts for dedicated positions above the contract hours which includes:

- the captain (Police Chief)
- one lieutenant
- two sergeants
- ten motorcycle trained deputy sheriffs
- two K-9 deputy sheriffs
- three crime prevention officers
- one gang task force deputy
- one graffiti prevention officer
- one school resource officer

As of the third amendment for law enforcement services entered into by the City and the County on November 10, 2010 the additional personnel needed to supplement patrol were broken out as follows:

Traffic Unit: one lieutenant, two sergeants, 18 deputies, five community service officers, and one Management Analyst (City employee)

Problem Oriented Policing Team: two sergeants, nine deputies and two community service officers

Special Enforcement Team (SET): one lieutenant, two sergeants, one K-9 officer, and 14 deputies

Burglary Suppression Team: four deputies

Robbery Suppression Team: two deputies

Towngate Mall: two deputies (Note the Moreno Valley Mall pays the fully supported rate of 70 hours a week to have a deputy at the Mall 10 hours each day. These deputies work a combined 10 hours a week on patrol that is paid for by the City.)

Police Grant C-CAT: two deputies and one Sheriff's Service Officer II (all positions are currently 100% funded through a grant) who are in addition to the staffing listed for SET.

Overall, the City is satisfied with the performance of these teams at their current staffing levels. Due to this, the study has incorporated these positions in their entirety into the final staffing report.

It is recommended that a City operated police department continue to primarily utilize Community Service Officers to transport prisoners to the Robert Presley Detention Center so that sworn personnel can continue to handle calls for service in a timely manner. In addition to transporting prisoners, the Community Service Officers would be assigned calls for service where there is no suspect information available, such as a runaway juvenile or a burglary where

DRAFT

MV00234302

the resident does not know who may have committed the crime. This would allow for the patrol officers to handle calls for service where crimes are in progress, take reports where there is suspect information as they may contact the suspect, or to perform proactive activities such as traffic stops.

Finally, Moreno Valley would lose access to a special weapons and tactics team (known as the emergency services team (EST) in the Sheriff's Department), hazardous device team (commonly referred to as the bomb squad), and assistance from the Riverside County Sheriff's Department helicopter as these services are provided as part of the contract with the County.

Currently, Moreno Valley does not have the frequency of calls for service that requires these specialized teams/units full time. Part-time emergency services teams, where officers have collateral duties, could be something for the City to consider as well contracting with either the Riverside County Sheriff's Department or the City of Riverside for EST services. Ideally, the City operated police department would deploy staff to stabilize the scene and hold a perimeter until such a specialized unit could be assembled and arrive on scene. This service, along with the Hazardous Device Team (HDT) and helicopter services, are currently provided to the City through the contract as part of the deputy hourly rate. Without entering into negotiations with either the County of Riverside, City of Riverside, or another local jurisdiction, it is difficult to estimate what contract costs might be for access to EST, HDT, or helicopter services.

City staff highly recommends that the City minimally contracts for helicopter services as the Riverside County Sheriff's helicopter does spend a considerable amount time patrolling the City during peak demand times for police services by the public. Again, without entering into negotiations with the County, it is difficult for City staff to determine an exact cost for helicopter services. However, in order to provide an idea of what a contract might cost the City, staff examined the aviation program costs for the City of Riverside and the City of Ontario.

The City of Riverside's Aviation program cost $1,886,899 in FY 10/11 operate, whereas in Ontario their aviation program cost $2,522,383. For the purposes of developing an estimated first year budget for a City operated police department, City staff assumed that the City could expect to pay approximately 20% of the costs associated with the City of Riverside's program which would be $377,380 per year. *Cost estimates for EST and HDT can not be accurately estimated at this time and therefore are not included in the budget.*

INVESTIGATIONS

The Riverside County Sheriff's Department, in their contract rate for a deputy sheriff, allocates one detective per 7.33 deputies paid for by a contract city. This has created a detective bureau at the Moreno Valley Police Department that is currently staffed with one lieutenant, two sergeants, 17 detectives, two deputies for burglary suppression, two forensic technicians, and one sheriff's service officer II. The Investigations Bureau also has three support staff consisting of one clerical position and two crime analysts, one of which is a City employee. As the homicides that occur in the City are handled by the Riverside County Sheriff's Department Criminal Homicide Unit, the City would need to consider adding two to three additional officers at the detective rank to address not only homicides but also the more violent crimes that occur in the City due to the length of time it takes to perform an in depth investigation. For the purposes of this study, City staff has allocated three additional officers to the Riverside County Sheriff's Department current staffing level in order to ensure violent crimes are properly investigated in a timely manner.

MV00234303

City staff is proposing to eliminate the detective rank and assign patrol officers to conduct criminal investigations for prosecution by the District Attorney. Patrol officers assigned to the detective bureau would receive an additional pay incentive to work in this special assignment while allowing the City operated police department greater flexibility in transferring staff around to patrol, special operations, and other assignments without losing rank. This will further allow the department the ability to establish a rotation policy amongst patrol, problem oriented policing, special enforcement team, and the investigations bureau in order to provide for greater career development and job enrichment to the employee without creating entitled positions.

Since it is traditional in many Riverside and San Bernardino County police agencies to have an investigator rank the City may need to consider granting bonuses or supplemental pay to lateral transfers that have investigative experience in order to create a competent detective bureau in the beginning stages of the City operated police department. *The cost for granting these bonuses has not been included in the proposed first year budget or in the start up costs section.*

Another consideration, for operational reasons, would be locate the forensic unit within the Investigation Bureau for ease of communication between those that collect the criminal evidence and those that are pursuing criminal cases. The City already contracts specifically for two forensic technicians. This unit would need to be expanded to include hiring additional forensic technicians and supervisors who have the experience of handling major crime scenes as the current forensic technicians the City contracts for are specifically assigned to handle burglaries and vandalisms.

As previously noted, all homicides are handled by the Riverside Sheriff's Department Criminal Homicide Unit as well as their technicians, so additional forensic technicians are necessary to provide forensic support for the more complex crimes such as armed robberies, assaults with a deadly weapon, and homicides. Forensic support is needed 24 hours a day so on call pay would need to be a consideration during employee negotiations. This unit would consist of four forensic technicians, one senior forensic technician, and one forensic supervisor.

Finally, the City needs to consider adding additional officers to the Investigations Bureau to conduct internal affairs investigations. Presently, all personnel investigations that are not criminal in nature, and do not involve officer involved shootings are handled at the station level. As part of the City's contract with the Riverside County Sheriff's Department, personnel investigations that are more serious in nature are referred to the Administrative Investigations Department within the Sheriff's Department. After consulting with the Sheriff's Department, City staff is recommending that an additional two officers be added to the Investigations Bureau for the purposes of conducting the more serious personnel investigations

ADMINISTRATION AND SUPPORT

In order for a police department to operate effectively it needs administrative support and community programs. The Administrative Support Division would be overseen by one Captain who would oversee the Community and Administrative Services Division, Fiscal Administration, and Communication Center. The Community and Administrative Services Section would be overseen by a lieutenant and would consist of:

- Logistics Unit: Six Community Service Officers would be required to manage issues related to the building, fleet, weapons maintenance, and the issuance of radios and

MV00234304

equipment. The unit would be responsible for tracking all equipment and uniform issuance. Additionally, a Police Fleet Maintenance Coordinator would need to be hired in order to coordinate all fleet maintenance issues with the City's Maintenance and Operations Division.

- Community Services Unit: would consist of two sergeants, five deputies, and three community service officers to keep staffing level equivalent to what the City contracts for with the County.
- Training Unit: would ensure that all training records for employees are accurate and would be in charge of scheduling employees for training. This unit would consist of a sergeant, one officer, and one office assistant.
- Records and Data Processing Unit: would process all police reports, input information into the records management system, and provide front office clerical support. The Riverside County Sheriff's Department currently has one supervising office assistant II, one supervising office assistant I, two office assistant III's, and fourteen office assistant II's who provide this support. While the Riverside County Sherriff's Department does most of the records management tasks at the Moreno Valley Police Station, records management does involve offsite Riverside County Sheriff personnel. The costs for those personnel are recovered through the deputy hourly rate that the County charges the City. As such, the City would need to consider additional staffing which should include a Police Administrative Services Supervisor, two Senior Administrative Assistants, and three more office assistants.

The Fiscal Administration Section would consist of a senior management analyst to monitor the various police department budgets and oversee the grants administered throughout the police department, one senior accountant, one accounting technician, and 2.5 accounting assistant II's to continue to provide the same level of accounting services that the police department currently has.

The Communications Center would consist of the City's Dispatch Center. Issues regarding the telephone system, computer aided dispatch system, and the radio system would be reported to, and handled by, the City's Technology Services Division. Additional staffing for Technology Services is accounted for in Table 5 on page 14. Through a review of other cities who staff their own police dispatch centers, and in consultation with the Moreno Valley Police Department's Administrative Lieutenant, it was determined that a total of 31 personnel would be required to effectively run a communication center. Personnel would consist of:

- One Public Safety Communications Manager
- Four Public Safety Communications Supervisors
- Two Senior Public Safety Communications Dispatchers
- 24 Public Safety Communication Dispatchers

OFFICE OF THE CHIEF

The Office of the Chief would include the Chief of Police, Executive Assistant, and an Administrative Sergeant. Some of the responsibilities of the Administrative Sergeant would include acting as the public information officer for the police department, overseeing the reserve deputy program, and coordination of facility maintenance with Community Services.

MV00234305

ORGANIZATION CHART

The person hired by the City to act as the first Police Chief and establish a new police department will most likely change the organization chart presented here to fit their needs and the goals they have for the department, however, in order to give City Council, City staff, and the public an idea of how the police department might be organized, a chart was prepared and can be seen below.

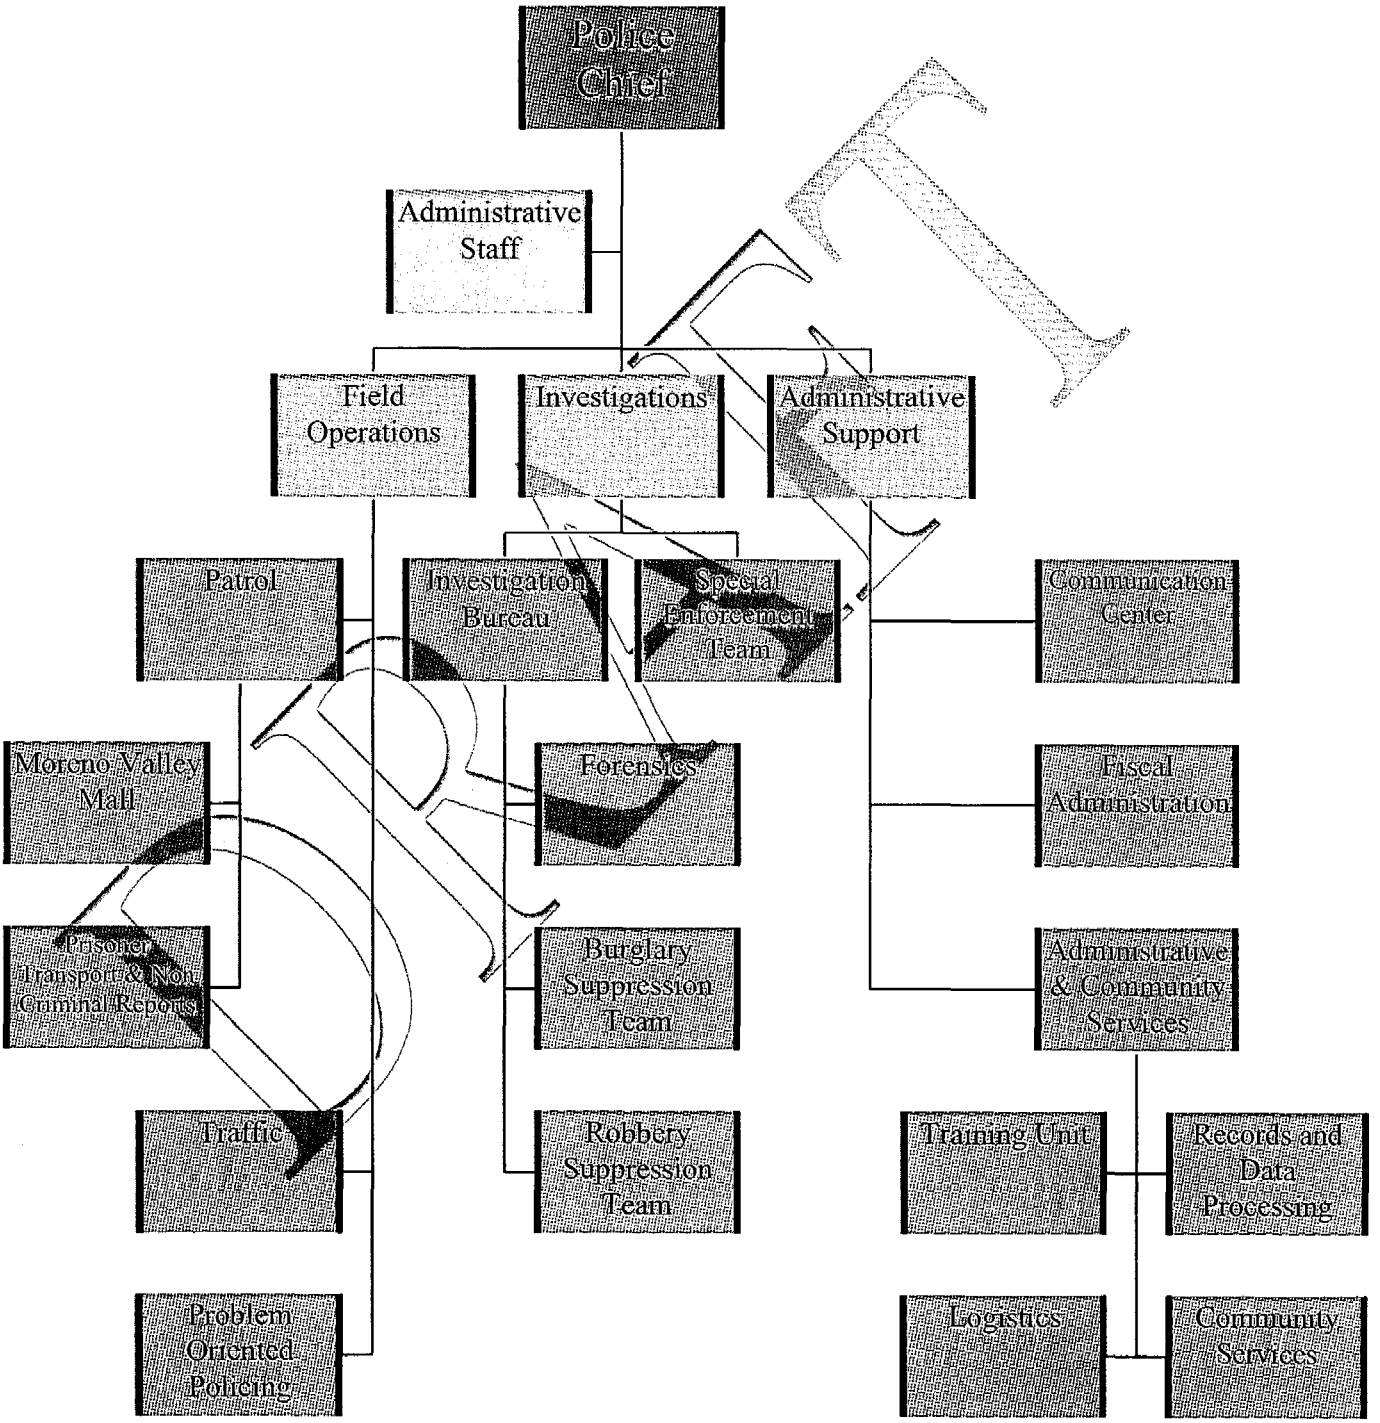

Chart 1: Proposed Organization Chart for a City Operated Police Department

MV00234306

SUMMARY OF STAFFING FOR MORENO VALLEY POLICE DEPARTMENT

A summary of staffing within each organizational unit of the organization chart above is shown below.

Title	Number Personnel
Office of the Chief	
Chief of Police	1
Executive Assistant	1
Administrative Sergeant	1
Field Operations	
Captain	1
Lieutenants – 2 Patrol, 1 Traffic	3
Sergeants	16
Officers - includes 2 K-9's, 2 Mall Officers, and 2 grant Officers	113
Community Service Officers – 16 Patrol, 5 Traffic, 2 POP	23
Management Analyst - Traffic	1
Investigations	
Captain	1
Lieutenant – 1 Investigations, 1 SET	2
Sergeants	4
Officers - includes Investigator Rank and K-9	46
Crime Analyst	2
Community Service Officer - Property	2
Office Assistant	1
Forensic Supervisor	1
Senior Forensic Technician	1
Forensic Technician	4
Administrative Support	
Captain	1
Lieutenants	1
Sergeants	3
Officers	6
Community Service Officers	9
Police Fleet Maintenance Coordinator	1
Public Safety Communications Manager	1
Public Safety Communications Supervisor	4
Senior Public Safety Communications Officer	2
Public Safety Communications Officer	24
Senior Management Analyst	1
Accounting Assistant II	2.5
Senior Accountant	1
Accountant Technician	1
Police Administrative Services Supervisor	1
Senior Administration Assistant	2
Office Assistant	22

Table 3: Staffing Summary Chart by Organizational Unit

MV00234307

The next table shows the number of employees for each position as well as salary, and benefits for personnel costs for a City of Moreno Valley Police Department. It excludes overtime, holiday pay, shift differential, and standby pay as well as additional City Hall staff.

Position Description	Number of Positions	Salary	Benefits	Total Personnel Costs
Police Chief	1	$194,489	$87,520	$282,009
Police Captain	3	$139,940	$62,973	$608,739
Police Lieutenant	6	$119,960	$53,982	$1,043,652
Police Sergeant	24	$96,636	$43,486	$3,362,933
Police Officer - Lateral	132	$72,342	$32,554	$13,846,259
Police Officer - Entry*	33	$70,845	$31,880	$3,389,933
Total Sworn =	**199**			**$22,533,525**
Accountant II	2.5	$63,410	$22,194	$214,009
Accounting Technician	1	$45,064	$15,773	$60,837
Community Service Officer I	13	$37,112	$12,989	$651,316
Community Service Officer II	17	$42,496	$14,874	$975,283
Executive Assistant II	1	$54,776	$19,172	$73,948
Forensic Supervisor	1	$68,049	$23,817	$91,866
Forensic Technician	4	$49,749	$17,412	$268,645
Management Analyst (Crime Analyst)	3	$63,410	$22,194	$256,811
Office Assistant	23	$33,628	$11,770	$1,044,136
Police Administrative Services Supervisor	1	$81,411	$28,494	$109,905
Police Fleet Maintenance Coordinator	1	$66,945	$23,431	$90,376
Public Safety Communications Manager	1	$84,391	$29,537	$113,928
Public Safety Communications Dispatcher I	6	$46,499	$16,275	$376,642
Public Safety Communications Dispatcher II	18	$53,293	$18,653	$1,295,020
Public Safety Communications Supervisor	4	$65,717	$23,001	$354,872
Senior Accountant	1	$66,581	$23,303	$89,884
Senior Administrative Assistant	2	$45,064	$15,773	$121,674
Senior Community Service Officer	4	$47,168	$16,509	$254,707
Senior Forensic Technician	1	$58,748	$20,562	$79,310
Senior Management Analyst	1	$73,405	$25,692	$99,097
Senior Public Safety Communications Dispatcher	2	$54,082	$18,929	$146,021
Non Sworn	**107.5**			**$6,768,285**
Total Positions & Costs=	**306.5**			**$29,301,810**

Table 4: Summary of First Year Salary and Benefit Cost for the Police Department Excluding Additional City Hall Staff

The information in Table 4 *excludes costs for overtime, shift differential, education incentive pay, holiday pay, and special duty pay*. Those amounts are included in a simulated first year operating budget in Table 6 on page 16. Additionally, City personnel that will need to be hired as a result of creating the City's own police department can be found in Table 5 on the next page.

MV00234308

For positions that the City does not currently have in its salary schedule a salary survey was completed utilizing information from the current salaries paid by the Riverside County Sheriff's Department, the City of Riverside, and several other local agencies. A median of the minimum and maximum salaries for those jurisdictions was utilized to determine a midrange salary that the City could expect to pay experienced law enforcement personnel for both sworn and non sworn positions. The figures used to project salary costs overall pays .05% less than the County, and 7.2% lower than the average salary for the City of Riverside.

The new Moreno Valley Police Department would need to hire both experienced and inexperience police employees. It would be preferable if at least 85% of the city operated police department's personnel had previous law enforcement experience. The City would need to pay salaries and benefits that reflect this accumulated knowledge, skill and abilities of a predominately veteran staff. The salaries reflected in the table above reflect a mid range for all positions in order to estimate the cost of hiring an experienced work force.

A fringe benefit rate of 35% was utilized for non sworn personnel while a 45% fringe benefit rate was used for sworn personnel due to the fact the City would be offering all sworn personnel 3% at 55 for their retirement, known as PERS (California Public Employee Retirement System). Workman's Compensation has not been calculated into the benefit rate and is accounted for separately in the first year budget (Table 6).

ADDITIONAL CITY STAFF

In order to support a City operated police department, it is imperative that the City recognizes the need to expand staffing in other City Departments and Divisions for services that were previously covered by the County as well as the demand for services that the additional 306.5 positions will create for other departments such as Human Resources and Finance. Below is a table listing the names and number of positions needed as well as a cost estimate for the salary and benefits of these positions.

Position Description	Number of Positions	Salary	Benefits	Total Personnel Costs
Deputy City Attorney I	1	$89,224	$31,229	$120,453
Human Resource Analyst	1	$63,410	$22,194	$85,604
Human Resource Technician	1	$45,064	$15,773	$60,837
Information Technology Technician	1	$52,168	$18,259	$70,426
Legal Secretary	1	$49,684	$17,389	$67,073
Network Administrator	1	$89,224	$31,229	$120,453
Payroll Technician	1.5	$45,064	$15,773	$91,256
Risk Management Analyst	1	$63,410	$22,194	$85,604
Senior Application Analyst	1	$73,405	$25,692	$99,097
Telecommunications Technician	2	$52,168	$18,259	$140,853
Vehicle Equipment Technician	5.5	$45,064	$15,773	$334,604
Subtotal	**17**			**$1,276,257**
Overtime				$45,000
Standby & Holiday Pay				$44,659
Total Personnel Costs				**$1,365,916**

Table 5: Summary of First Year Salary and Benefit Cost for Additional City Hall Staff to Support Police Department

MV00234309

FACILITY AND EQUIPMENT

The Moreno Valley Police Department would occupy the current City owned facility used by the Riverside County Sheriff's Department. The Public Safety Building (PSB) is owned by the City and was built specifically to be the headquarters for both the Police and Fire Departments. The City and Riverside County would need to jointly conduct a complete inventory of the building to determine what is owned by the City and what is owned by the County. Start up costs, which are listed on page 19, contain estimates for equipment the City might have to acquire to replace County owned equipment and/or purchase new equipment for the dispatch center.

While the City had initially allocated space for a dispatch center to be located in the PSB when it was constructed, that space had been temporarily converted into an emergency operations center (EOC) following the terrorist attacks in September 11, 2001 in New York. With the City's new EOC opening in September of 2010 this space became available for the reconfiguration of the PSB to accommodate a police department that has been outgrowing the current facility. Funding for that space to be converted into an area to accommodate the traffic division was approved in the Fiscal Year 2011/2012 Capital Project Budget and the conversion of this space is expected to be completed in Fiscal Year 2012/2013.

A master plan for the reconfiguration of the PSB was completed in 2010 however, while it included building an area for the secure storage of property and evidence as well as a vehicle impound area, *it excluded building a criminal laboratory area for forensic technicians to utilize in order to process photographs, fingerprints, and other crime scene evidence as well as an area for a communications/dispatch center*. This master plan would need to be updated and the City would need to be prepared to expand the PSB immediately in order to accommodate a dispatch center, a criminal laboratory for the forensic technicians to use, and an area for evidence and property storage as well as an area for vehicle impoundment. Currently, all of the property and evidence seized by deputies assigned to Moreno Valley is stored at the Riverside County Sheriff's Department Perris Station due to the lack of space at the PSB. Of the 4,400 square feet of evidence and property storage at the Perris Station, Moreno Valley occupies approximately 80% of that space. Due to these factors the City should consider moving forward on the PSB expansion, with modifications for a criminal laboratory and communications/dispatch center, as soon as possible should the City Council elect to start up a City operated police department.

Unfortunately, it is too difficult to estimate at this time what the cost for expanding the PSB to accommodate these new areas would cost. In the incremental growth plan completed for the City by Roesling Nakamura Terada Architects, the PSB is expanded over three phases for a total cost of $104.4 million dollars. The evidence, logistics, and property area, which included a parking structure of 871 stalls, was listed in Phase 3 of this plan at a cost of $27.9 million dollars. Again, this expansion excluded the addition of a criminal laboratory and a dispatch center.

Finally, the City would also need to ensure that there is adequate locker room space for the expanded size of the police department and the City would need to reexamine whether or not there was adequate space in the building for the sworn and non-sworn staff to utilize in the performance of their duties.

COMMUNICATIONS, INFORMATION TECHNOLOGY, AND DISPATCH

While the City can definitely consider contracting for dispatch services, ideally a City operated police department would want control over its own dispatching and information

MV00234310

technology operations in order to ensure local priorities are being met. While it is not unheard of for a City to have its own police department and yet contract for police dispatch services (the City of Pacifica on June 27, 2011 decided to contract dispatch services with South San Francisco), it is highly unusual. Some of the concerns the need to be considered when examining whether or not to contract police dispatch services while maintaining a local police department includes: loss of local control, conflict resolution between police officers and dispatchers, and the ability to have immediate access to 9-1-1 tapes and radio transmissions. For the purposes of this study, City staff has assumed that the City will operate its own dispatch and communications center.

Personnel costs for a communications center is estimated at $2,630,388 for the first year of operation. Other costs that have been considered for a first year operating budget for a City police department include office supplies, training, recruitment costs, and internal service fund transfers to cover technology and facility maintenance costs. An additional budget item to consider for the future would be uniforms for dispatchers as several jurisdictions do provide uniforms for dispatchers to create a more professional environment and reinforce the idea that they are working for a paramilitary department.

FIRST YEAR OPERATING BUDGET

A potential first year operating budget for the first year for a City operated police department is shown on the next page. Of note, *there are no costs listed for either contracting emergency services team (EST) services and hazardous device team (HDT) services or providing equipment, training, and supplemental pay to City police officers to provide this service.* Additionally, it is difficult to determine the costs associated with operating a criminal laboratory and therefore *no cost estimate has been made for supplies for a criminal laboratory*. Included in the first year operating budget below is the costs for outside legal services, general liability, workmen's compensation, property damage insurance, and employment practices insurance.

Projected Annual Budget City Operated Police Department	
Description	**Cost**
Salaries and Benefits	
Salaries - Sworn (199)	$15,540,362
Benefits - Sworn	$6,993,163
Salaries & Benefit Cost Sworn	**$22,533,525**
Overtime - Sworn	$2,130,944
Standby / Call back pay @ 0.5%	$112,668
Shift Differential @ 1.5%	$338,003
Holiday Pay @ 1.5%	$338,003
Special Duty Pay @ .5%	$112,668
Cost for Overtime, Shift Differential, Etc. for Sworn	**$3,032,285**
Salaries - Non Sworn (106.5)	$5,013,544
Benefits - Non Sworn	$1,754,741
Salaries - Additional City Staff (17)	$945,376
Benefits - Additional City Staff	$330,882
Salaries & Benefit Cost Non Sworn	**$8,044,542**

MV00234311

Overtime - Non Sworn	$541,586
Overtime - Additional City Staff	$45,000
Standby / Call back pay @ 0.5%	$40,223
Shift Differential - Non Sworn @ 1.5%	$120,668
Holiday Pay @ 1.5%	$120,668
Salaries & Benefit Cost Non Sworn, Including City Personnel	**$868,145**
Personnel Costs - Subtotal	**$34,478,497**
Maintenance & Operation	
Contractual Services - Background	$185,470
Contractual Services - Helicopter	$377,380
Communications - Telephone/Radio/Cell	$11,500
Training	$140,000
Adverstising	$3,000
Other Agency - State	$23,000
Dues and Subscriptions	$6,400
Software Maint/Support/Lic	$21,100
Admin Citation Services	$50,000
M & R Building and Grounds	$19,300
M&R Improvement	$600
M & R Machinery	$1,070,080
Vehicle Towing	$12,000
Booking Fees	$285,000
City Copier Charges	$18,000
Office Supplies and Expenses	$25,300
Printed Supply	$14,600
Postage	$19,000
Uniforms - Replacement	$91,550
Badges, Name Plates	$800
Awards	$500
Books	$1,300
Computer Hardware	$1,000
Computer Software	$6,700
Miscellaneous Office Equipment	$4,800
Janitorial	$12,800
Bldg Supp: Plumbing/Electrical	$2,900
Coffee/Kitchen Supplies	$1,200
Miscellaneous Equipment	$4,000
Miscellaneous Furniture & Fixtures	$600
Operational Material & Supply - Equipment	$101,100
Other Materials	$61,300
Legal Costs	$750,000
Maintenance & Operational Costs	**$3,322,280**
Insurance	
General Liability	$2,058,097
Property Damage	$33,933

MV00234312

Workmen's Compensation	$2,046,835
Employment Practices	$622,940
Annual Payment to Gen. Liability Reserve	$500,000
Annual Payment to Workmen's Comp Reserve	$500,000
Insurance - Subtotal	**$5,761,805**
ISF Charges	
Replacement Charges - Vehicles	$2,003,280
ISF - General Liabilty	$4,516
ISF - Tech Serv	$2,558,500
ISF - Facilities	$247,454
ISF- Replacement	$470,700
Annual costs for maintaining police and dispatch equipment	$2,075,873
ISF - Subtotal	**$7,360,323**
Total Costs	
Personnel Costs - Subtotal	$34,478,497
Maintenance & Operational Costs	$3,322,280
Insurance - Subtotal	$5,761,805
ISF - Subtotal	$7,360,323
Annual Costs	**$50,922,905**

Table 6: Proposed First Year Operating Budget Including Additional City Staff

City staff created the first year budget based on what the City allocated to the police department for Fiscal Year 2011/2012 and then supplemented the budget with additional funding for items such as contracting out helicopter services, additional funding for outside legal expenditures to address lawsuits, funding for uniform replacement, and other such costs that are not currently in a separate line item budget for the police department and are currently provided as part of the contract with the Riverside County Sheriff's Department.

This first year budget is experimental to some extent as some costs can not be accurately predicted until a few budget cycles have passed, such as the cost for recruitment, replacement uniforms, and training. Items that are easier to predict, such as salary and benefits, are reliable as these are set costs that increase or decrease based on contracts with the various City unions.

The City, in FY 11/12, has budgeted $41,261,770 for 181 sworn positions and 52.5 non sworn positions. The proposed City operated police department would have 199 sworn positions with 107.5 non sworn positions for a cost of $49,556,989 plus an additional $1,365,916 to cover the costs of 17 new City positions for a total first year operating budget of $50,922,905. This is an increase of $9,661,135 or 23.4% for the City to operate its own police department.

START UP COSTS

The start up costs for a City operated police department include patrol cars, uniforms, background checks, dispatch equipment, information technology equipment, initial reserve fund money for general liability and workman's compensation, and capital outlay for radio towers and fueling station. The start up costs provided below is for items minimally required to begin operating a City police department. As mentioned previously, it is quite possible that the start up costs listed for the communications/dispatch center could cost an additional $7 million dollars, bringing the total cost for communications and dispatch to over $17 million dollars.

MV00234313

Excluded from these start up costs is the expense to expand City Yard in order to provide routine service to police vehicles. While the City of Corona was able to expand their current City Yard as a cost of $1.5 million dollars to accommodate performing maintenance on police vehicles with their staff, it is quite possible that such an expansion could run $4 million to $6 million dollars should the City need to purchase land to build a police vehicle only facility that could be expanded to accommodate fire engines and fire trucks in the future.

Also not included in the start up costs is the cost to expand the Public Safety Building (PSB). As previously discussed, the incremental grown plan for the PSB would need to be reexamined to ensure there is adequate space for the proposed City operated police department as well as enough space for property and evidence storage, vehicle impoundment, a communicatons/dispatch center, and a criminal laboratory. The project was last estimated in 2010 to have a total cost of $104.4 million dollars, with the phase 3 expansion that includes adequate space for property, evidence, and vehicle impoundment at a cost of $27.9 million dollars.

Finally, the City currently owns a few vehicles utilized by the Riverside County Sheriff's Department, such as the motorcycles for traffic enforcement, the traffic reconstruction truck, and the forensic technician's vehicle. These items have been excluded from the start up costs listed below.

Description	Cost	Units	Total Cost
Patrol Cars			
Patrol - black and white - Crown Victoria	$26,000	122	$3,172,000
Patrol - K9 - Crown Victoria	$26,000	3	$78,000
Unmarked - Make/Model Varies	$20,000	45	$900,000
Transport Van	$30,000	2	$60,000
		Subtotal Vehicle Cost =	**$4,210,000**
Vehicle Equipment			
Equipment for Patrol Vehicle (includes K-9)	$32,920	125	$4,115,000
Equipment for Detective Vehicle	$23,920	45	$1,076,400
		Subtotal Vehicle Equipment =	**$5,191,400**

Contingency at 20%			$5,690,760
Total Costs =			**$34,144,562**

Table 7: Start Up Costs – Excludes the Cost to Expand the Public Safety Building and City Yard.

The City would require at least two years to build the communications infrastructure required to support its own police department. A large part of this two year process is the length of time it would take to work with the Federal Communications Commission to obtain radio frequencies, hiring project managers to ensure the project is completed in a timely manner, and the purchasing of land in order to build radio towers as well as the construction of those towers. As the Riverside County Sheriff's Department requires 12 months notice from the City in order to terminate the contract, this process would need to start one year prior to notifying the County that the City intends to operate its own police department.

New police officers, as opposed to lateral transfers from other jurisdictions, will require training at a Peace Officer Standards and Training (POST) certified academy which would be a cost incurred by the City as well as the salary and benefits paid to the employee during their training period. The cost at the Ben Clark Training Center for a basic POST certificate for law enforcement is minimally $5,579.62. *As it is difficult to determine how many new officers the City can expect to hire, the cost for an employee to attend the police academy, has been excluded from the start up costs*. City staff can provide a rough estimate of the cost, which would assume

MV00234315

75% of the sworn staff hired would have previous law enforcement experience. Therefore, of the 199 sworn staff, 50 of the personnel hired by the City would require a basic POST certified academy, increasing the start up costs by $278,981. However, this amount could be much higher or lower, based on who is hired.

All employees within the police department would need to undergo an in depth background check and polygraph test. Additionally, all sworn staff would be required to pass a psychological evaluation. Based on information provided by other jurisdictions, the City can expect to spend $445 per officer for a psychological evaluation, $500 per person for a polygraph test, and approximately $3,250 per background investigation (estimated at $65.00 per hour at 50 hours per investigation). The line item was then increased by 40% to account for those individuals who will not pass their background check. As a side note, this could be extremely conservative as some jurisdictions see a failure rate higher than 40% when completing background investigations on police officers.

Finally, City staff has included overlap coverage between the Riverside County Sheriff's Department and a City operated police department. For example, the Police Chief would need to be hired six to nine month in advance of the desired start date for the police department. The Chief would then begin the process of hiring personnel, establish policy and procedures, and coordinating a smooth transition with the Sheriff's Department. There will also be a period of overlap between the deputies from the Sheriff's Department patrolling Moreno Valley and the officers from the City operated police department patrolling the City to give the new officers time to learn the City and meet key community members. These costs have been accounted for in the transition costs.

CONCLUSION

The City, in FY 2011/2012, has budgeted $41,261,770 for 181 sworn positions and 52.5 non sworn positions. The proposed City operated police department would have 199 sworn positions with 107.5 non sworn positions for a cost of $49,509,033 plus an additional $1,365,916 to cover the costs of 17 new City positions for a total first year operating budget of $50,922,905. This is an increase of $9,661,135 or 23.4% for the City to operate its own police department.

When comparing this to the Maximus study of 2004, the City had budgeted $23,030,031 for police services in Fiscal Year 2003/2004 which included 144 sworn positions and 43.5 non-sworn positions. The police department described by Maximus in that study would have had a first year operating cost of $28,756,493 with a staff of 166 sworn positions and 90.5 non-sworn positions. Maximus' proposed first year budget was a 24.9% increase over what the City had budgeted for police services.

City staff did expect to see a slight decrease in the percentage between what a City operated police department would cost compared to contracting with the Riverside County Sheriff's Department due to budget reductions to the police department's budget over the last few years. It is therefore not surprising to see a slight difference between the Maximus study and the City's own in house feasibility study.

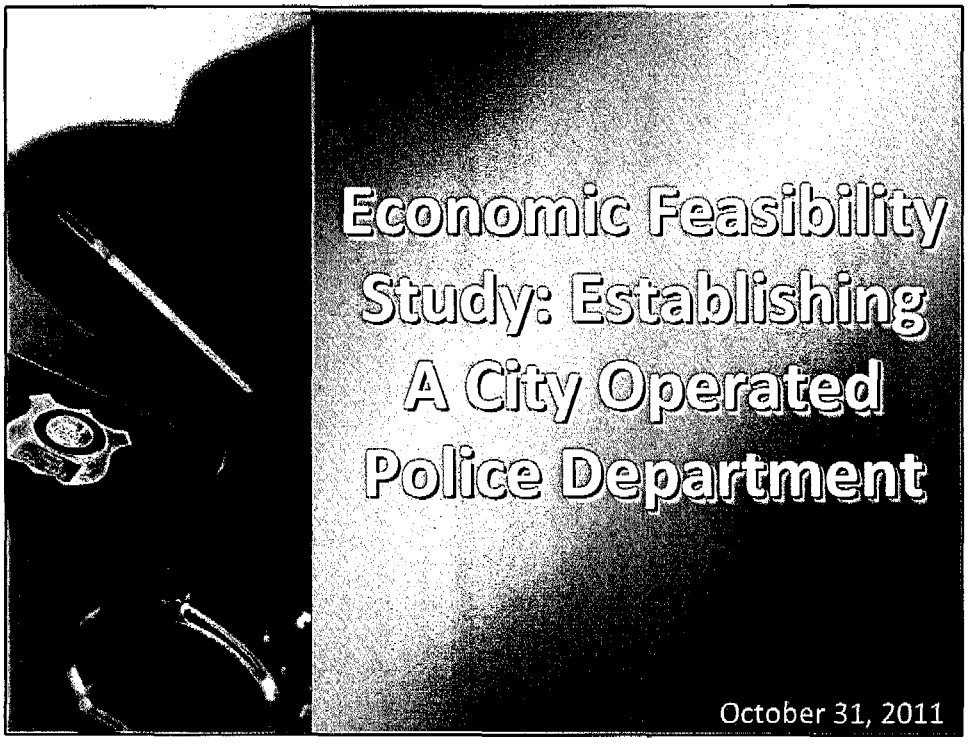
The Maximus study in 2004 had an estimated start up cost of $19 million compared to the $34,144,562 of this study. In looking at their study it appears they may have underestimated the costs for communications in dispatch. They also allocated funding for 119 vehicles, both new and used, whereas this study assumes the City will need to buy all new vehicles as there is no guarantee that there will be any serviceable used police vehicles that would fit the City's needs.

MV00234316

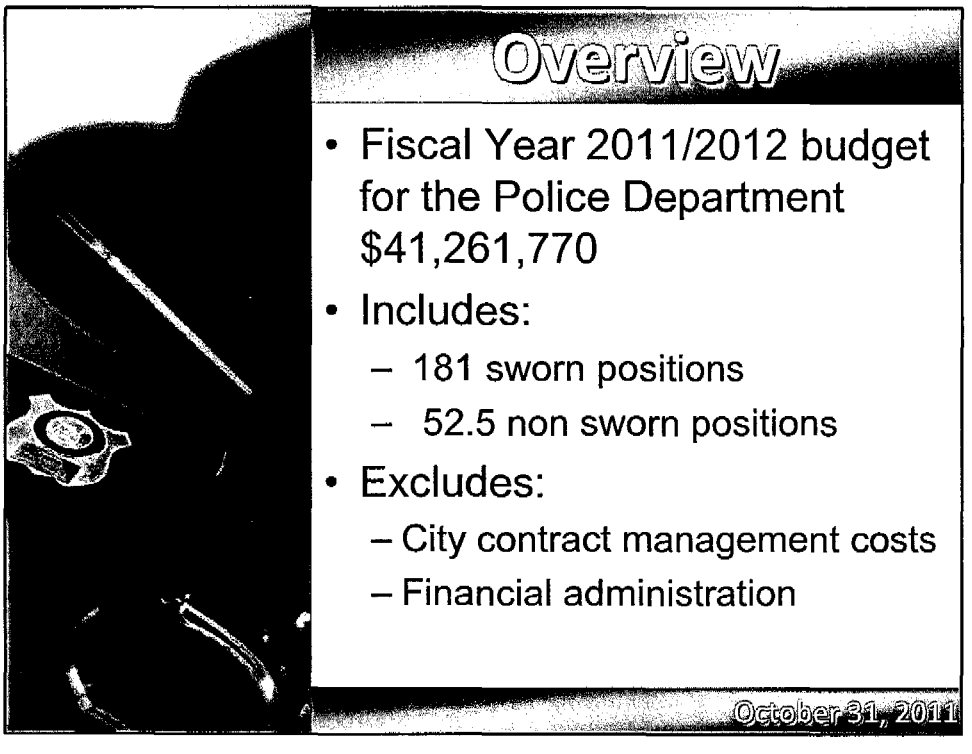
The Maximus study also under allocated funding for background investigations and vehicle equipment.

Determining the exact size and cost of a City operated police department will depend on providing a satisfactory level of service to the residents of Moreno Valley. The size and cost recommendations made in this report are a low to mid range mix of personnel and functions designed to provide at least equivalent services to those currently being provided under contract. Adjustments can be made, based on policy preferences, by City Council or the City Manager. However, without a substantial decrease in personnel, the annual cost of providing police services that are equivalent to what the City is currently receiving will remain in the vicinity of $50,922,905, which includes the additional City staff needed in other departments to support a City operated police department.

MV00234317

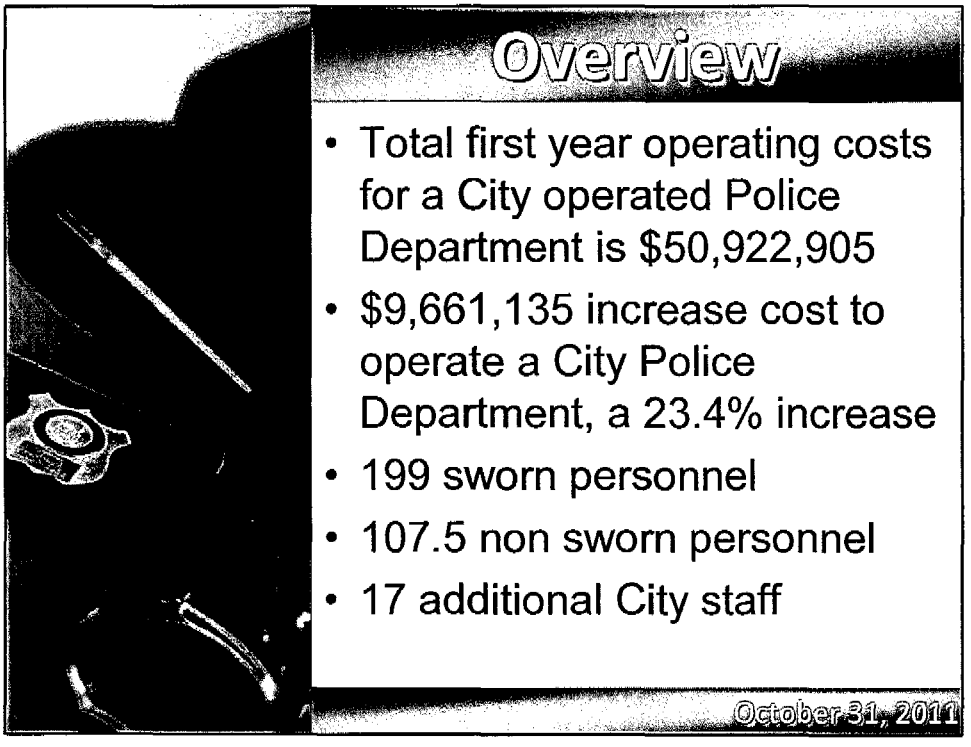


Economic Feasibility Study: Establishing A City Operated Police Department
October 31, 2011

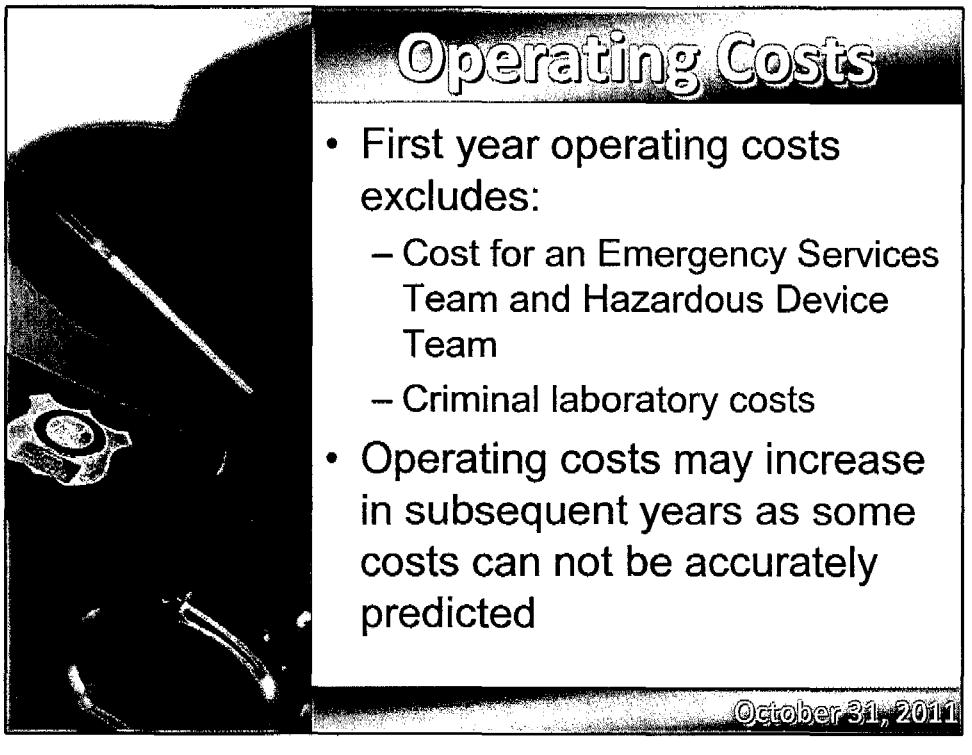


Overview
• Fiscal Year 2011/2012 budget for the Police Department $41,261,770
• Includes:
– 181 sworn positions
– 52.5 non sworn positions
• Excludes:
– City contract management costs
– Financial administration
October 31, 2011

MV00234318

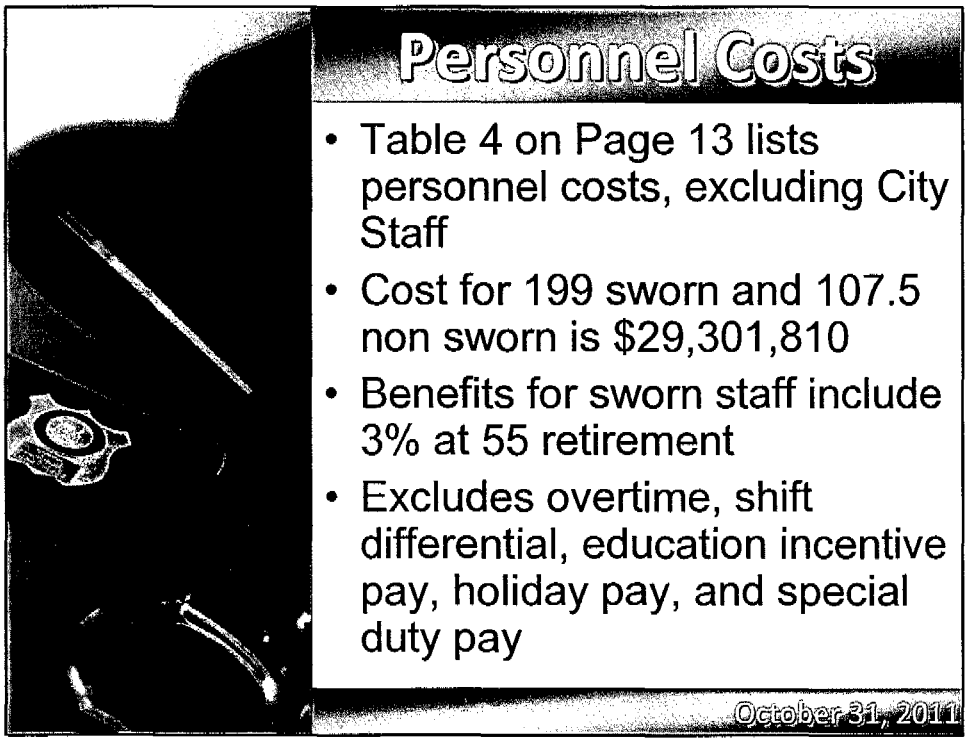


Overview
• Total first year operating costs for a City operated Police Department is $50,922,905
• $9,661,135 increase cost to operate a City Police Department, a 23.4% increase
• 199 sworn personnel
• 107.5 non sworn personnel
• 17 additional City staff
October 31, 2011

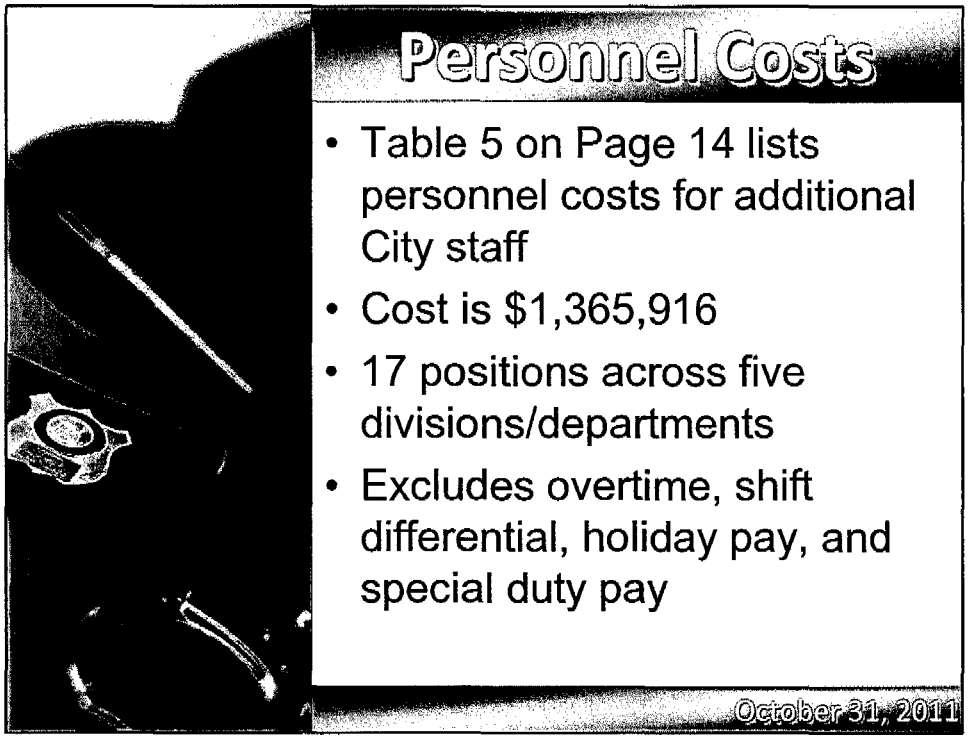


Operating Costs
• First year operating costs excludes:
– Cost for an Emergency Services Team and Hazardous Device Team
– Criminal laboratory costs
• Operating costs may increase in subsequent years as some costs can not be accurately predicted
October 31, 2011

MV00234319

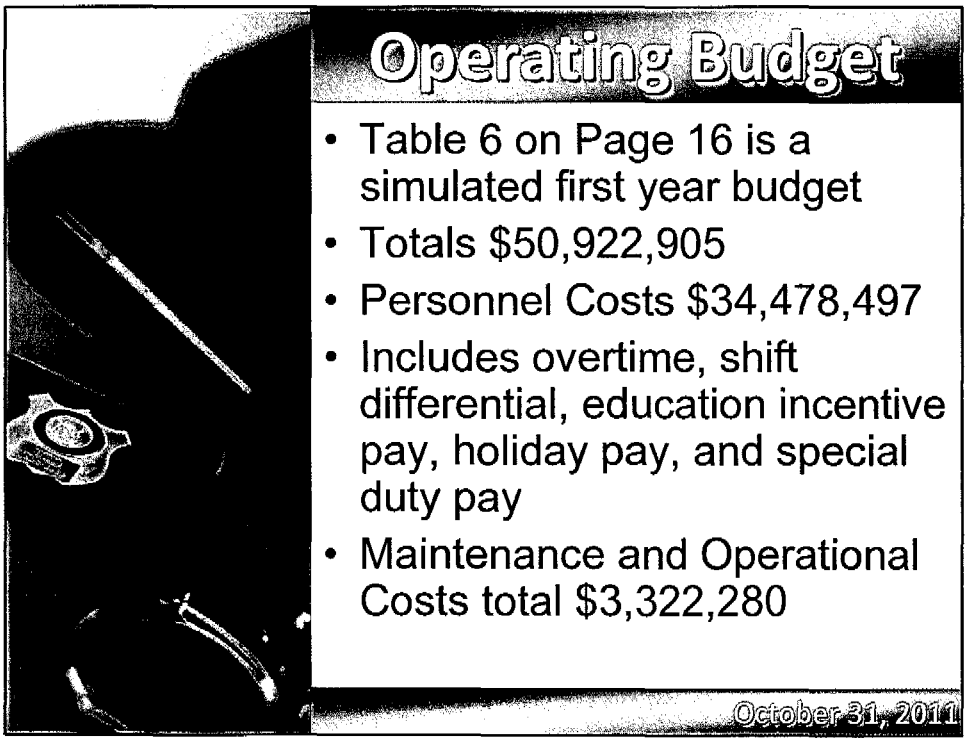


Personnel Costs
• Table 4 on Page 13 lists personnel costs, excluding City Staff
• Cost for 199 sworn and 107.5 non sworn is $29,301,810
• Benefits for sworn staff include 3% at 55 retirement
• Excludes overtime, shift differential, education incentive pay, holiday pay, and special duty pay
October 31, 2011

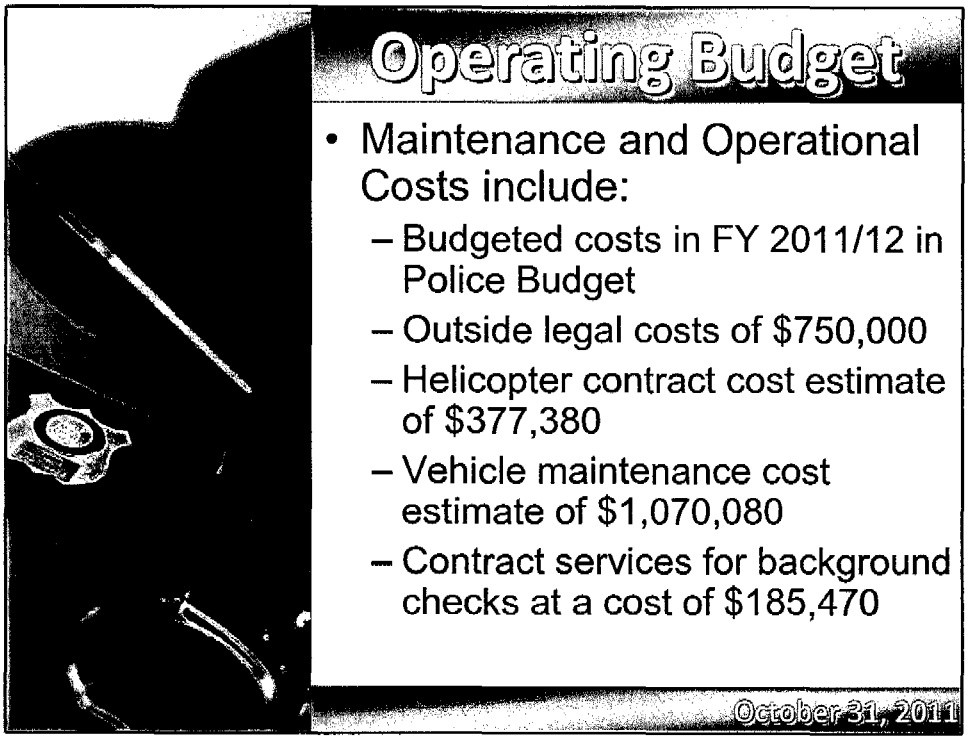


Personnel Costs
• Table 5 on Page 14 lists personnel costs for additional City staff
• Cost is $1,365,916
• 17 positions across five divisions/departments
• Excludes overtime, shift differential, holiday pay, and special duty pay
October 31, 2011

MV00234320

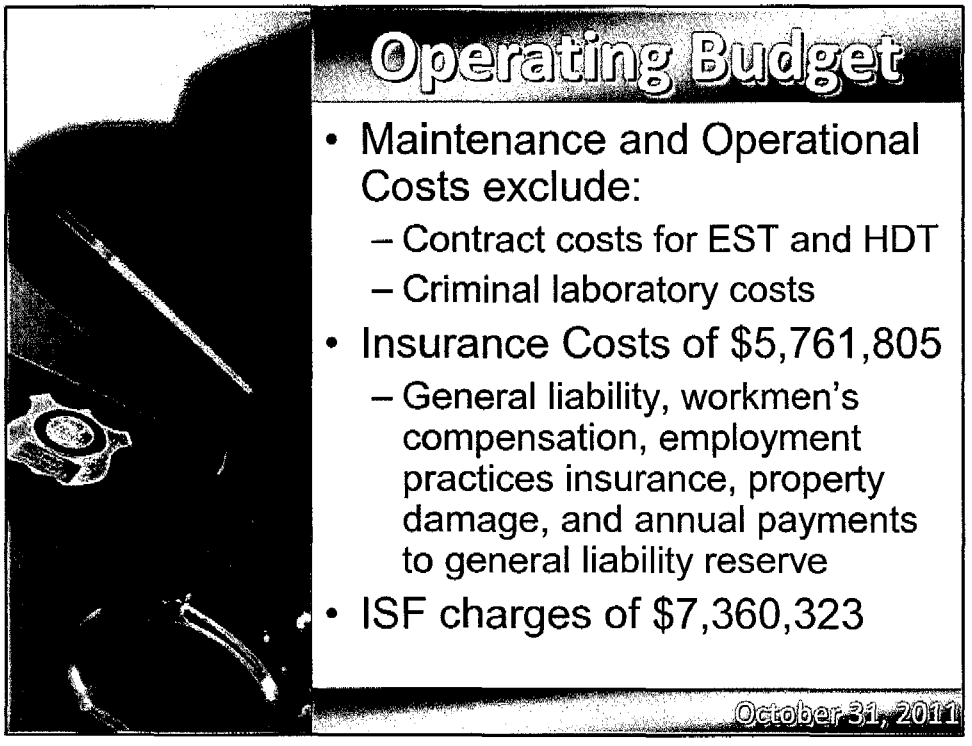


Operating Budget
• Table 6 on Page 16 is a simulated first year budget
• Totals $50,922,905
• Personnel Costs $34,478,497
• Includes overtime, shift differential, education incentive pay, holiday pay, and special duty pay
• Maintenance and Operational Costs total $3,322,280
October 31, 2011

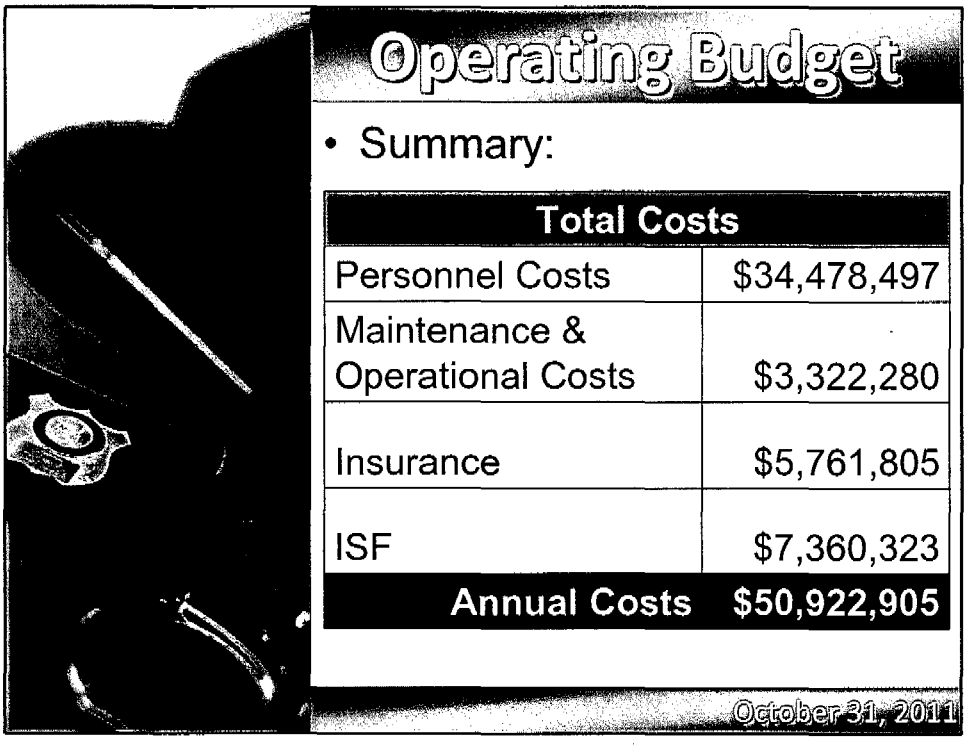


Operating Budget
• Maintenance and Operational Costs include:
– Budgeted costs in FY 2011/12 in Police Budget
– Outside legal costs of $750,000
– Helicopter contract cost estimate of $377,380
– Vehicle maintenance cost estimate of $1,070,080
– Contract services for background checks at a cost of $185,470
October 31, 2011

MV00234321

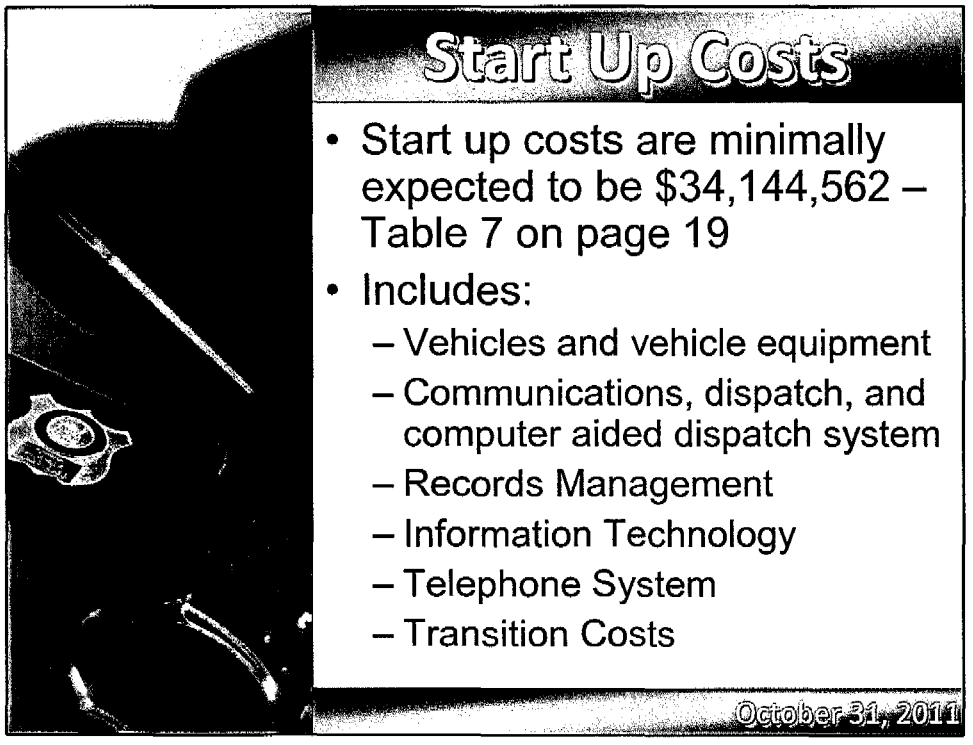


Operating Budget
• Maintenance and Operational Costs exclude:
– Contract costs for EST and HDT
– Criminal laboratory costs
• Insurance Costs of $5,761,805
– General liability, workmen's compensation, employment practices insurance, property damage, and annual payments to general liability reserve
• ISF charges of $7,360,323
October 31, 2011

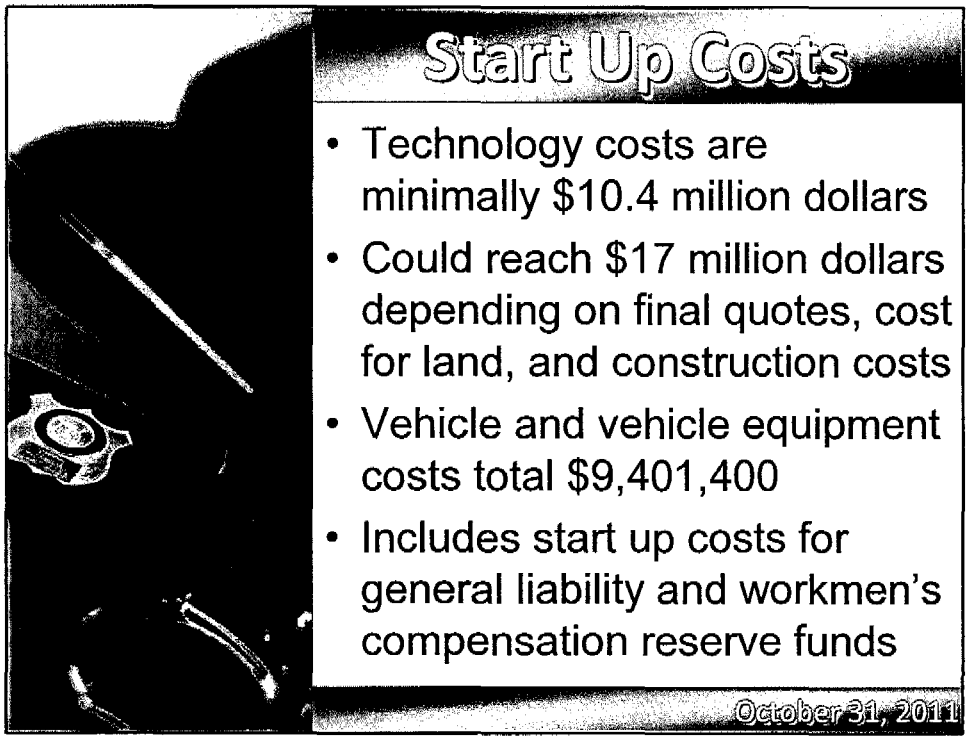


Operating Budget
• Summary:
Total Costs
Personnel Costs $34,478,497
Maintenance & Operational Costs $3,322,280
Insurance $5,761,805
ISF $7,360,323
Annual Costs $50,922,905
October 31, 2011

MV00234322

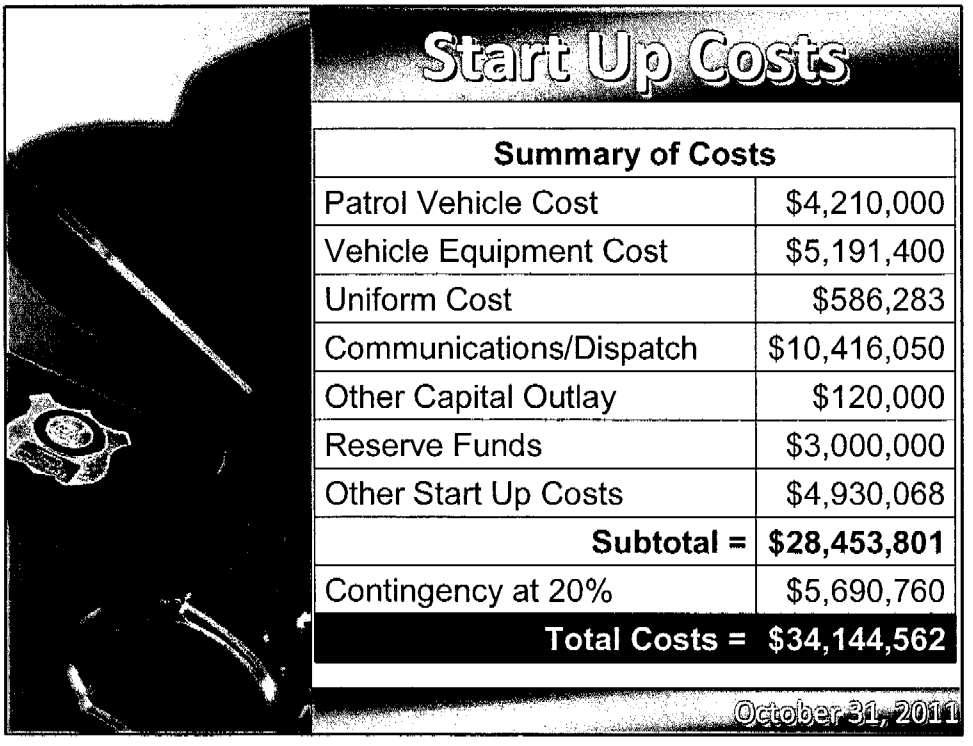


Start Up Costs
• Start up costs are minimally expected to be $34,144,562 – Table 7 on page 19
• Includes:
– Vehicles and vehicle equipment
– Communications, dispatch, and computer aided dispatch system
– Records Management
– Information Technology
– Telephone System
– Transition Costs
October 31, 2011

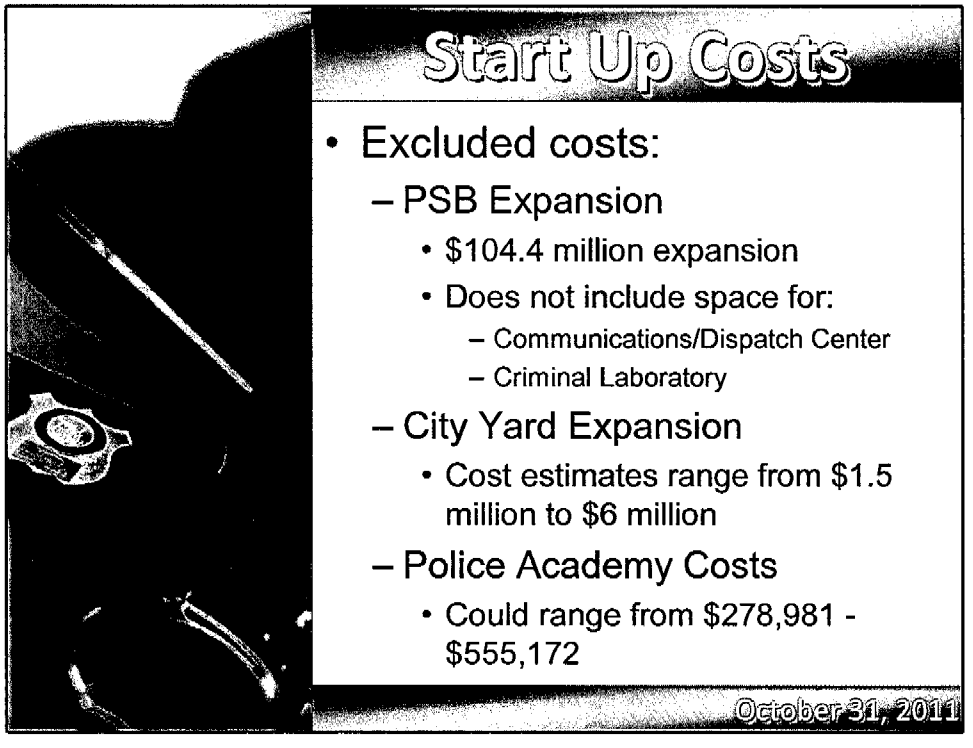


Start Up Costs
• Technology costs are minimally $10.4 million dollars
• Could reach $17 million dollars depending on final quotes, cost for land, and construction costs
• Vehicle and vehicle equipment costs total $9,401,400
• Includes start up costs for general liability and workmen's compensation reserve funds
October 31, 2011

MV00234323

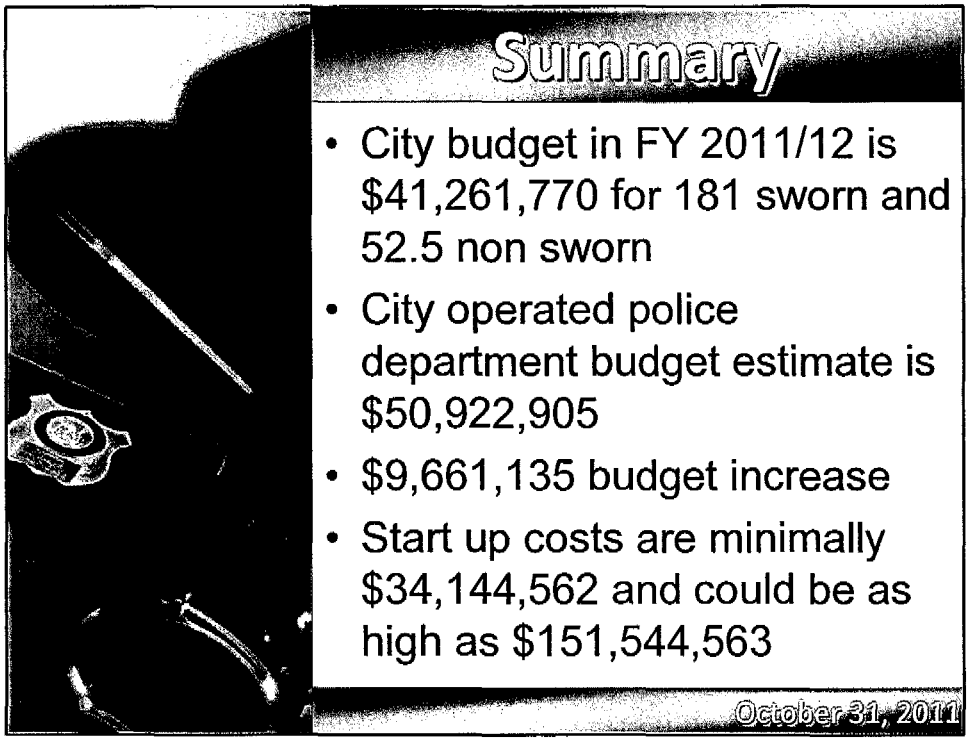


Start Up Costs
Summary of Costs
Patrol Vehicle Cost $4,210,000
Vehicle Equipment Cost $5,191,400
Uniform Cost $586,283
Communications/Dispatch $10,416,050
Other Capital Outlay $120,000
Reserve Funds $3,000,000
Other Start Up Costs $4,930,068
Subtotal = $28,453,801
Contingency at 20% $5,690,760
Total Costs = $34,144,562
October 31, 2011



Start Up Costs
• Excluded costs:
– PSB Expansion
• $104.4 million expansion
• Does not include space for:
– Communications/Dispatch Center
– Criminal Laboratory
– City Yard Expansion
• Cost estimates range from $1.5 million to $6 million
– Police Academy Costs
• Could range from $278,981 - $555,172
October 31, 2011

MV00234324



Summary
• City budget in FY 2011/12 is $41,261,770 for 181 sworn and 52.5 non sworn
• City operated police department budget estimate is $50,922,905
• $9,661,135 budget increase
• Start up costs are minimally $34,144,562 and could be as high as $151,544,563
October 31, 2011

REPORTER'S TRANSCRIPT OF PROCEEDINGS

Proceedings of Monday, August 2, 2010, before the Honorable Gloria Connor Trask, Judge, Department 1.

COPY

Patricia L. Hanson, CSR 2329
Riverside Superior Court
4050 Main Street, Department 1
Riverside, California 92501

APPEARANCES OF COUNSEL

For Petitioner:	JOHNSON & SEDLACK By: Kimberly Foy, Esq. 26785 Camino Seco Temecula, California 92590
For Respondent: City of Moreno Valley	OFFICE OF THE CITY ATTORNEY By: Suzanne M. Bryant, Esq. 14177 Frederick Street Post Office Box 88055 Moreno Valley, California 92552-0805
For Real Parties in Interest: Highland Fairview Properties; HF Logistics-SKX T1	COX, CASTLE & NICHOLSON LLP By: Kenneth B. Bley, Esq. 2049 Century Park East, 28th Floor Los Angeles, California 90067-3284

PROCEEDINGS OF MONDAY, AUGUST 2, 2010

* * *

THE COURT: All right. Moreno Valley Citizens for Lawful Government.

(Whereupon, a discussion is held off the record.)

THE COURT: Okay. We'll do this again.

I have read and considered the following documents:

Petitioner's notice re an ex parte application for temporary restraining order and order to show cause re preliminary injunction; petition for writ of mandate; memorandum of points and authorities in opposition filed by Mr. Bley; declaration of John Terell in opposition; declaration of Kenneth Bley --

It is Bley, correct?

MR. BLEY: Yes, Your Honor.

THE COURT: Declaration of Kenneth Bley in opposition; declaration of Jane Halstead in opposition; declaration of Iddo Benzeevi in opposition.

I received this morning a memorandum of points and authorities in reply to the opposition filed by Johnson & Sedlack, declaration of Kathleen Dale in support of petitioner's reply, and then Mr. Bley's memorandum of points and authorities. I just received them a few minutes before this hearing, and so I did not have an opportunity to fully study, examine, and research them. And so I skimmed over the reply and did not read or consider the ones submitted -- the ones submitted by Mr. Bley as a supplemental to the reply.

All right. It is the court's intention to deny the TRO

MV00234329

for the following reasons. And that is, first of all, first and foremost, that the reason for the TRO is that real parties in interest are proceeding in violation of Government Code Section 66451.10 in that a building permit cannot be issued until there is a final map. I don't believe that that is what the code section stands for. And I'm quoting directly from Subdivision (a), which says: Notwithstanding Section 66424, except as is otherwise provided for in this article, two or more contiguous parcels or units of land which have been created under the provisions of this division, or any prior law regulating the division of land, or a local ordinance enacted pursuant to thereto, or which were not subject to those provisions at the time of their creation, shall not be deemed merged by virtue of the fact that the contiguous parcels or units are held by the same owner.

I don't see that that stands for the proposition that a building permit can't be issued until -- until there's a final map merging all of those parcels. It just doesn't seem to say that.

The other code section that then I would say bootstraps onto 66451 is 66499, which says: No person shall sell, lease, finance any parcel or parcels or commence construction of any building for sale, lease, or financing, except -- well, never mind the exception -- for which a final map is required by the subdivision.

So it's that section that says for which a final map is required. I don't see that in the first instance 66451

MV00234330

requires a final map. So that's the starting point.

Mr. Bley, any comment?

MR. BLEY: I'm sorry, Your Honor?

THE COURT: Any comment?

MR. BLEY: No.

MS. FOY: Your Honor, if I may. The final map was required by the Conditions of Approval for the project by the City. It was also required under the Subdivision Map Act. So the reason that we cited to 66451 is because the City claimed that the parcels could be merged because they were owned by the same person. 66451 stands for the opposite, stating that two or more parcels are not deemed merged by virtue of that. So that's why we stayed to that.

As to 66499.30 it states that no person shall commence construction of any building for which a final map is required. A final map was required in this instance by the Conditions of Approval. So, as such, the final map was required and construction could not be commenced until the Map Act was satisfied.

THE COURT: But wasn't that the very purpose of the covenant?

MS. FOY: However -- That makes it the purpose of the covenant; however, since it was underneath -- or since it was governed by the Map Act, they couldn't take that step.

THE COURT: That's circular reasoning, to my mind. So that just doesn't -- that doesn't work.

Mr. Bley, do you want to comment?

MR. BLEY: No, Your Honor.

MV00234331

THE COURT: All right.

Then additionally, just to cover a couple of the other points, one thing I did want to clear up, and that is whether or not this is going to be several weeks or several months. So is the -- is the final map going to be submitted in August or in October? Because I can see their position, --

MR. BLEY: Excuse me.

THE COURT: --just hypothetically speaking, if there is grading and construction going on at the same time that was not anticipated, if it was anticipated that first there would be grading, grading would be completed and then construction would commence, then that's one thing. If you're joining both of those, there is the potential for increased CEQA violations.

MR. BLEY: Let me respond to Your Honor's question.

First, grading ceased on Parcel 1 on July 9th of 2010. Construction began five days -- six -- five days later, on July 14th. That's in Mr. Benzeevi's declaration. There is no overlap.

THE COURT: Stop for a minute.

When you say on -- Parcel 1?

MR. BLEY: Parcel 1.

THE COURT: When you refer to Parcel 1, you are referring to the parcels as though they were merged.

MR. BLEY: That's correct. The eleven parcels which are held together under the covenant to hold and treat them as though they were merged.

THE COURT: So that brings me to another point. To my

MV00234332

mind, there are nine parcels -- nine or eight parcels that comprise that under which the building is going -- or -- yeah, under which the building is going to be, and then the other two or three or four peripheral things like freeway access?

MR. BLEY: Yes.

What happened, Your Honor, is that the City wanted to have all of the parcels which ultimately will be merged into Parcel 1 held as one. And one of the exhibits -- I think it's either A, B, or C -- shows where all of those eleven parcels are. And as Your Honor has correctly noted, there are several of them which are between the 60 and the building. But we're holding all of them together. And the parcel has been graded entirely.

THE COURT: So the entirety, eleven parcels, are graded.

MR. BLEY: Yes, Your Honor.

THE COURT: Eleven parcels, but eleven parcels are really Parcel 1.

MR. BLEY: They will be once the final map is recorded.

That brings me to your second question, Your Honor; and that is this. Excuse me. All of the conditions which were imposed at the time the project was approved in February of 2009 have now been satisfied. The final map will be presented to the city council no later than August 24th. And it will be approved because, as Your Honor knows, the approval of a final map is a ministerial map once the conditions have been satisfied. The building permit for the entire building will be issued the next day, and construction

MV00234333

will then go forward under the building permit for the entire building. The reason that the October date was put in to the City's motion was just to leave a little leeway in case something happened. But come October -- come August 25th HF is going to have its building permit to allow the entirety of the building to be constructed.

THE COURT: Miss Foy, comments?

MS. FOY: If I may backtrack --

THE COURT: Certainly.

MS. FOY: -- a point. As to the nine parcels being merged to one, that's the point in the Map Act that requires the final map to be approved and -- created and approved and recorded by the city council. The Map Act governs any mergers of land that involve greater than five lots. So I can't cite to the code section because I don't have it in front of me. But as this was nine plots being merged into one, it's governed under the Map Act. Their city attorney stated repeatedly it was governed by the Map Act because it was nine parcels. So I just wanted to make that point.

Additionally, as to the all conditions being satisfied and being approved in August, they have had over a year to get this final map approved and recorded by the City. They have not done it. Whether it will be done in August is still questionable. They say that it will, but we have nothing to ensure that it will be done. And in fact at one of the city council meetings they stated that they would have the papers in by August, but that due to all sorts of administrative work that needed to be done it could be weeks after that that

MV00234334

it could be approved. So we have no proof that it will be done by August. All we know is it will be done by October, and any further damage to the environment that could be done by then would already be completed.

MR. BLEY: Your Honor, I will represent to the court that it is my understanding that all of the conditions have been satisfied; and there are representatives of HF here if Your Honor wants to take testimony to that effect.

With respect to Miss Foy's comment about the application of the Subdivision Map Act, I'm afraid she has it completely backwards. The Map Act applies when you divide land, not when you treat it as one. We're not claiming they're merged. They won't be merged until the final map is recorded. We're just holding them as one parcel.

THE COURT: That's my understanding.

Anything else we need to talk about, Miss Foy?

MS. FOY: Um --

THE COURT: Do you disagree with the comments that grading has ceased and it is the construction that has begun and there is no overlap -- or overlay?

MS. FOY: I don't disagree with that. The declaration stated that it's been done. So I will accept the declaration as accurate.

I would like to point out to Your Honor that there are additional environmental as well as other injuries that are being caused by this.

THE COURT: By what?

MS. FOY: By them beginning construction of the project

MV00234335

prior to the original time that they were given to begin construction by moving it up those six weeks.

THE COURT: That are in your papers? Because all I saw was the violation -- because they didn't have a final map and the overlay of -- or the increased potential for changes to the environment by having both grading and construction going on at the same time.

MS. FOY: Correct, Your Honor.

THE COURT: Is there something else?

MS. FOY: But in addition to that, by moving construction up, any particulate matter in the atmosphere will not be given a chance to disperse. Additionally any noise injury to the environment has already been done to the environment.

THE COURT: Stop for a minute.

The initial CEQA contemplated grading upon completion of grading construction, true?

MS. FOY: Correct. But over a certain timeline.

JUSTICE GAUT: Sorry.

THE COURT: Off the record.

(Whereupon, a discussion is held off the record.)

THE COURT: Go ahead. I'm sorry, Miss Foy.

Back on the record.

Go ahead.

MS. FOY: Okay.

So that was just regarding those minor air quality impacts, noise impacts beneath that.

In addition by --

MV00234336

THE COURT: Stop for a minute.

MS. FOY: Yes.

THE COURT: You say that it was contemplated that there would be some sort of time delay from the grading to the construction?

MS. FOY: Not a time delay, Your Honor, but a certain timeline, a certain time frame that it would have been done during. That had it been done at a slower pace, there would have been particulate matter emitted into the atmosphere. So any extension of that time would allow that matter to disperse before --

THE COURT: Is that in your TRO?

MS. FOY: It is not.

THE COURT: Then it would not be proper to consider or expect anyone to be prepared to answer or discuss or rule on that.

MS. FOY: Okay.

THE COURT: Is there something else --

MS. FOY: Yes, Your Honor.

THE COURT: -- in your --

MS. FOY: Yes, Your Honor.

THE COURT: -- in your papers?

MS. FOY: Our papers also discuss the fact that --

THE COURT: Could you speak slowly --

MS. FOY: Yes.

THE COURT: -- for the --

MS. FOY: Oh.

THE COURT: -- court reporter.

MV00234337

MS. FOY: By amending the Conditions of Approval which were -- by amending to defer -- or to delay that, which the covenant did and which the building permit and appeal -- or sorry -- the amendment on the July 13th hearing also did, the City deferred mitigation as required by CEQA. Many of the Conditions of Approval were intended to mitigate the environmental impacts. By deferring that, such mitigation is not being done.

THE COURT: I'm not sure I understand what you're saying. They said that all the Conditions of Approval have been complied with.

MS. FOY: I have not seen anything to state that other than what he has stated here today in court.

THE COURT: But you're saying they have not? Is that --

MS. FOY: I'm saying that the acts of the city council on July 13th specifically amended the Conditions of Approval to delay them and allow them not to be complied with.

THE COURT: But now Mr. Bley represents that all of the Conditions of Approval have been complied with.

MS. FOY: But --

MR. BLEY: That is correct.

MS. FOY: But compliance would have been done after the fact, after the actions were taken by the City after this was all approved. None of it was done beforehand, as was required by CEQA.

THE COURT: Okay. But a TRO seeks to stop work today, --

MS. FOY: Correct.

MV00234338

THE COURT: -- but based upon what? Because now all the conditions have been complied with.

MS. FOY: Okay.

One of --

THE COURT: So is it not moot at this point?

MS. FOY: I don't know the answer to that 'cause I don't know what conditions they're referring to that have been complied with. And I would like to --

THE COURT: Well, why don't we take a brief recess; and maybe you can talk with this gentleman who's here to testify and tell you all the things that have been complied with.

MS. FOY: Okay.

THE COURT: I'm perfectly happy to accept Mr. Bley's representation as an officer of the court. But if the gentleman is here, why don't you spend a few minutes and talk with him.

MR. BLEY: Your Honor, I may be able to save a few moments.

THE COURT: Okay.

MR. BLEY: Because the only conditions which were delayed -- not deferred -- the only conditions that -- I'll try it again.

The only conditions that were delayed were those which were not in any way affected by the issuance of the limited purpose building permit. Such things as, for instance -- excuse me -- the compliance with Title 24 energy requirements which deal with the building itself. Nothing that affected -- Nothing that was in in any way involved with the

MV00234339

work that was authorized by the limited purpose building permit was deferred. All of those things had to be satisfied before that permit was issued.

THE COURT: Okay.

MR. BLEY: So the things we have done since are those which were necessary to go ahead and record the final map and have the final building permit issued.

THE COURT: Such as paying, what was it, the school fee?

MR. BLEY: We paid -- We couldn't even get that deferred. We paid those $855,000 in change.

THE COURT: I need to take a brief recess anyway.

Justice Gaut, I'll see you now.

We'll go off the record. And if you want to talk to that gentleman and see what you need.

(A recess is taken.)

THE COURT: My apologies for the interruption.

We're back on the record.

Miss Foy, I think maybe off the record I heard you say that you would accept counsel's representation that all the conditions had been satisfied at this point?

MS. FOY: Yes, Your Honor.

THE COURT: All right.

Anything further?

MS. FOY: I would like to bring up the fact that none of -- none of this was decided before the July 13th or even after that city council hearing. None of it was decided before the approval of the covenant. And therefore any actions taken by the City were in violation of CEQA. There

MV00234340

would have been an exacerbation of environmental harms. In addition, the fact that a building plan was not approved prior to -- to the extending -- or to the giving out of the building permit could have resulted in duplicative building, it could have been denied, the building plan. Obviously those things don't come into play now if they say that that building plan has now been approved. However, as a matter of public policy the fact that they did this to defeat the CEQA suit shouldn't be allowed to basically make it so that the project wasn't disputed anymore.

They violated CEQA blatantly. They violated the Map Act, though Your Honor disagrees. They filed the Covenants of Approval. They've acted in utter violation of their own municipal code by doing this by city council and not by the planning commission. And the fact that they've just completed the project to a greater extent --

THE COURT: I need to stop you. You are making some very gross generalities and using words that are -- blatant violation. You may disagree from a legal standpoint; but nearly everything that you've said is in -- is -- is speculative and/or moot. And I don't see any good cause to grant the TRO.

Counsel....

MR. BLEY: Nothing further, Your Honor.

THE COURT: I know you could say volumes, and I appreciate your restraint.

MR. BLEY: You'll notice the saliva coming out of my mouth where I've bitten my tongue.

MV00234341

I would ask one thing. I'm not sure with whether the status conference which was originally scheduled for August 18th -- 16th has been vacated or not. But I would suggest, Your Honor, that if it hasn't been vacated, it be continued to the week of September 7th or the week of September 13th. At that point we should be able to provide the information to the court showing that the case is completely moot.

THE COURT: Question: Who is this case assigned to?

MR. BLEY: Well, that a good question. I think it has been -- What happened was this. It was originally assigned to Judge Fisher. Judge Fisher was papered by Mr. Johnson. It was then assigned to Judge Tranbarger. We had submitted and then withdrew a paper because we understood he didn't have much CEQA experience and asked that it be --

THE COURT: Stop for a minute.

He is not a CEQA judge.

MS. FOY: Right.

THE COURT: He maintains he is not a CEQA judge. And not only is he not a CEQA judge, he does not want to have anything to do with CEQA.

MR. BLEY: I thought he had sent it over to you and I figured it would either -- in fact we asked that if he was going to be disqualified that it go to either Your Honor or Judge Waters, we understand, the other two CEQA judges. And so I guess from an administrative point of view, given that there really shouldn't be anymore, I'd ask that it --

THE COURT: See the steam coming out of her ears?

MV00234342

MR. BLEY: My -- My -- My apologies. I know that -- that the reporter's the second most important person in the court; and I apologize for speeding up.

What I would suggest, Your Honor, is that from an administrative point of view that it remain in this court; that you set a status conference for, as I said, the week of the 7th of September or the week of the 13th of September, as your calendar permits; and at that point it should be moot.

THE COURT: No objection, Miss Foy?

MS. FOY: No objection, Your Honor. However, I would still like to request a preliminary injunction hearing on this matter, at which time we may be able to present greater law and evidence regarding the Map Act violation as well as other violations.

MR. BLEY: Your Honor, may I suggest then that if an OSC is granted, be issued, that it be set for the same day as the status conference?

THE COURT: Any objection to that?

MS. FOY: No.

THE COURT: All right.

We'll set a preliminary injunction for September 7.

Can you work out a briefing schedule, or do you need me to do that for your?

MR. BLEY: We'll work out a briefing schedule, I'm sure.

MS. FOY: Yeah.

THE COURT: Thank you.

And the case is assigned to Department 1 for all purposes.

MV00234343

MR. BLEY: It will be at 8:30 on the 7th?

THE COURT: Let's make that -- Oh, give me a minute.

No. That will have to be September 10 or 17 because it should be a Friday. I hear these things on Friday.

MR. BLEY: Either one is fine for me, Your Honor.

MS. FOY: Yeah.

THE COURT: Let's do September 10 at 10:00 o'clock.

MR. BLEY: 10:00 o'clock.

And I'll work out the briefing schedule --

MS. FOY: Right.

MR. BLEY: -- with Miss Foy.

Thank you, Your Honor.

MS. FOY: Thank you, Your Honor.

THE COURT: Thank you.

Court is in recess.

(Proceedings are adjourned.)

MV00234344

STATE OF CALIFORNIA)
) ss.
COUNTY OF RIVERSIDE)

I, PATRICIA L. HANSON, a Certified Shorthand Reporter, Number 2329, do hereby certify:

That on August 2, 2010, in the County of Riverside, State of California, I took in shorthand a true and correct report of the proceedings had in the above-entitled cause and that the foregoing transcript is a true and accurate transcription of my shorthand notes, taken as aforesaid.

DATED: Riverside, California, August 3, 2010.

Patricia L. Hanson CSR

Patricia L. Hanson, CSR 2329

MV00234345

Proposed Motion:

Approve and accept Highland Fairview's Covenant to Hold as One Parcel subject to the following conditions:

1. The covenant is amended to state that it is for the issuance of a limited purpose building permit for commencement of construction of the foundation and slab and the poring of wall panels only, which permit shall automatically expire on October 20, 2010, if the final parcel map is not recorded prior to that date;

2. That Highland Fairview agree in writing in the covenant or other recordable agreement to the following terms and conditions prior to issuance of the limited purpose building permit:

    a. The parcels which are the subject matter of the covenant be owned by the same entity,

    b. Separate foundation, slab and wall panel building plans be submitted and approved,

    c. Compliance with all conditions of approval for the issuance of a building permit except recording of the final map,

    d. Compliance with all requirements for recording the final map except for actual final map approval and recordation, and Public Improvement Agreements and security for same for any public improvements not occurring in the public right-of-way or on public property,

    e. All Public Improvement Agreements for improvements that will be undertaken in the public right-of-way or on public property pursuant to the limited purpose building permit have been executed and the required security has been posted prior to the time commencement of actual public improvement construction starts,

    f. The final lot configuration be shown on the map that is being processed,

    g. The covenant to hold property as one parcel be recorded,

    h. The holders of all easements across which construction will occur have either abandoned or given written permission for construction across their easements,

    i. Execution of an encroachment and removal agreement,

j. The City is only issuing a limited purpose building permit for foundation, slab and the poring of wall panels only. The erection of any walls is specifically prohibited under this limited permit.

k. The final parcel map shall be recorded before 12:01 a.m. on October 21, 2010,

l. The limited purpose building permit shall automatically expire at 12:01 a.m. on October 21, 2010, if the final parcel map has not been recorded,

m. All construction pursuant to the limited purpose building permit shall cease at 12:01 a.m. on October 21, 2010 if the final parcel map has not been recorded,

n. It will be solely responsible for removal of any improvements and restoration of the site to its pre-construction condition if ordered by any court,

o. It and its partners waive any and all recourse against the City which may arise out of this action,

p. Neither the agreement, nor the time for recordation of the final parcel map will be extended beyond October 20, 2010,

q. It will defend and indemnify the City for all judgments, costs and legal fees which may be incurred as a result of said agreement or the issuance of a limited purpose building permit for the foundation and slab only, and

HIGHLAND FAIRVIEW RATIONALE FOR MOTION TO APPROVE LOT TIE COVENANT

Over the years as a member of this City council I have been faced with several occasions in which I voted to take an action against the advice of the City Attorney. One was the denial of the RADOS project; another was to deny the pass through costs on the mobile home park at Nason and Alessandro. In both of those instances we took the action we took as it was in our opinions in the best interests of our citizens and the City as a whole.

Now I am again facing another scenario in which the city Attorney is advising against our approving a "Lot Tie Covenant, or agreement" in order to allow the huge Sketchers building project to continue construction and avoid a work stoppage while they wait for the paperwork to catch up with them.

I have read and re-read the applicable provisions of the Subdivision Map Act, reviewed the opinions and correspondence from all sides, and have concluded that the "spirit of the law" would be met by an ironclad covenant as an interim until the final map can be filed.

It appears that the law is intended to protect potential purchasers of individual lots and the covenant does just that. I don't see any down side nor risk for the city at all, especially considering that the developer will be stipulating to hold harmless and indemnify the City against any potential court action on this issue should such arise.

If we don't take this action then all construction will stop, resulting in hundreds of construction workers being laid off for a few weeks or longer, and the timing of the completion of this important building is slipped, possibly causing havoc with the large shipment of merchandise that is being manufactured now and due to arrive in Moreno valley at about the building's estimated completion date.

After careful review of all the issues I have decided to support our approving the covenant and issuing a LIMITED building permit to allow the concrete work on the foundation and slab, as well as the pouring (only) of the walls, but NOT the raising of the walls or any other "vertical" aspect of the building.

By the time all this is done, the final map should be filed and everything will again be back on a normal track towards completion.

The spirit of the law will be maintained, and no harm, legal or otherwise, will be done.

DRAFT

LIMITED PURPOSE BUILDING PERMIT ISSUANCE AGREEMENT

This limited purpose building permit issuance agreement (this "Agreement") is made at Moreno Valley, California, as of June 22, 2010, between the CITY OF MORENO VALLEY, a California general law city (the "City"), on the one hand, and HF LOGISTICS-SKX T1, LLC, a Delaware limited liability company ("HF"), on the other hand, with the respect to the following facts:

A. HF is the sole owner of approximately 83 acres located in the City which currently consists of 11 legal lots (the "building site") and which is currently entitled to be improved with a single building containing approximately 1,820,000 sq. ft (the "building") which will be constructed over portions of nine of the existing lots. The building site is shown on Exhibit A.

B. The building site will become a single parcel, Parcel 1 of Parcel Map 35629 (the "Parcel Map"), upon final approval and recordation of the Parcel Map.

C. HF desires the City to issue a limited purpose building permit allowing HF to begin construction of the building's foundation and slab and to pour and construct, but not erect, walls only prior to the recordation of the Parcel Map and the consolidation of the 11 existing lots into a single legal parcel.

D. HF agrees to assume all risks associated with the issuance of the limited purpose building permit for the construction of the building's foundation and slab and the pouring and construction, but not the erection, of the building's walls (the "limited purpose building permit") and agrees to secure the City with additional commitments to further protect the City included hereinbelow.

E. On June 22, 2010, the City Council authorized the acceptance of the covenant and agreement to hold property as one parcel and to enter into an agreement providing for the issuance of the limited purpose building permit subject to certain terms and conditions included hereinbelow.

THEREFORE, IT IS MUTUALLY AGREED AS FOLLOWS:

1. Prior to issuance of the limited purpose building permit, HF shall record a covenant and agreement to hold property as one single parcel in the form of Exhibit B.

2. Prior to issuance of the limited purpose building permit, HF shall provide the City with written documentation to the City's satisfaction that all parcels, which are the subject matter of the covenant, are owned by HF.

3. Prior to issuance of the limited purpose building permit, HF shall submit separate foundation, slab, and wall panel building plans to City for approval, which plans must be approved by City prior to issuance of the limited purpose building permit.

4. Prior to issuance of the limited purpose building permit, HF shall comply with all conditions of approval for issuance of a building permit except for the final approval and recording of the Parcel Map, Public Improvement Agreements and security for those improvements occurring solely on private property, and those conditions specifically deferred until issuance of the general building permit as set forth in Exhibit C. The City's Building

MV00234351

Official shall have the discretion to interpret any condition not listed on Exhibit C to determine whether it must be satisfied prior to issuance of the limited purpose building permit.

5. Prior to issuance of the limited purpose building permit, HF shall satisfy all conditions for final approval of the Parcel Map other than those relating to (a) the preparation, approval or recordation of the final Parcel Map, (b) Public Improvement Agreements and security for those improvements occurring solely on private property, and (c) those conditions specifically deferred until issuance of the general building permit as set forth in Exhibit C. HF hereby acknowledges that all such public improvement agreements and the required security for those improvements occurring solely on private property shall be executed and posted prior to final approval of the Parcel Map.

6. Prior to commencement of construction of, and the issuance of any required permits for, public improvements to be constructed in any public right-of-way or on public property, HF shall execute public improvement agreements and provide the required security for any such public improvement. HF hereby acknowledges that all such public improvement agreements and the required security shall be executed and posted prior to final approval of the Parcel Map if not accomplished sooner pursuant to this agreement.

7. Prior to issuance of the limited purpose building permit, HF shall execute an encroachment and removal agreement, in the form of Exhibit D, requiring HF, at its own expense, to remove any improvements constructed in public rights-of way or on public property if the limited purpose building permit expires and the City so requests.

8. Prior to issuance of the limited purpose building permit, HF shall have relocated or removed all easements encumbering the area under the building or have provided the City with written permission from easement holders authorizing HF to build over the easements.

9. HF agrees and acknowledges that the Parcel Map shall receive final approval by the City and be recorded in the Riverside County Recorder's Office before 12:01 a.m. on October 21, 2010.

10. HF agrees and acknowledges that the limited purpose building permit shall automatically expire at 12:01 a.m. on October 21, 2010 if the Parcel Map has not been recorded in the Riverside County Recorder's Office.

11. HF agrees and acknowledges that all construction shall immediately cease by 12:01 a.m. on October 21, 2010, upon expiration of the limited purpose building permit if the final Parcel Map has not been recorded.

12. If the limited purpose building permit expires as a result of the failure to record the final Parcel Map by 12:01 a.m. on October 21, 2010, HF shall be required to obtain a new building permit after the final Parcel Map has been recorded.

13. Neither this Agreement, the limited purpose building permit, nor the time in which to record the final Parcel Map in order to maintain the limited purpose building permit in effect, shall be extended beyond 12:01 a.m. on October 21, 2010.

14. HF shall remove all improvements and construction related materials from the project site, and shall restore the project site to its pre-construction condition, upon the expiration of the limited purpose building permit if ordered to do so by any court.

MV00234352

15. HF hereby expressly waives any claims of vested rights that it might otherwise have if the limited purpose building permit is suspended or terminated regardless of the extent of HF's reliance on its issuance and expressly acknowledges that the limited purpose building permit allows only the construction of the building's foundation and slab and the pouring and construction, but not the erection, of the building's walls.

16. HF hereby expressly waives any rights it might otherwise have for any recourse against the City in any way connected to the issuance of the limited purpose building permit.

17. HF shall defend, indemnify and hold harmless the City and its agents, officers and employees from any claim, action or proceeding against the City or its agents, officers or employees to attack, set aside, void or annul the issuance of the limited purpose building permit. In any claim, action or proceeding against the City arising out of this agreement, or for the issuance of the limited purpose building permit, the City shall be entitled to recover from HF the actual expenditures for its attorneys' fees and all costs including, but not limited to, expert witness fees, in addition to any other relief to which it may be entitled.

18. The parties to this Agreement shall act in good faith and shall take all further actions reasonably necessary to effectuate the letter and the spirit of this Agreement.

19. This Agreement and all rights and obligations arising out of it shall be construed in accordance with the laws of the State of California.

20. Any litigation arising out of this Agreement shall be conducted only in the Riverside County Superior Court.

21. This Agreement is entered into solely for the benefit of the parties hereto. Other than the parties hereto, no third party shall be entitled, directly or indirectly, to base any claim, or to have any right arising from, or related to, this Agreement.

22. This Agreement contains the entire agreement and understanding between the parties and supersedes and replaces all prior negotiations or proposed agreements, written or oral. Each of the parties hereto acknowledges that no other party, nor the agents nor the attorneys for any party, has made any promise, representation or warranty whatsoever, express or implied, not contained herein, to induce the execution of this Agreement and acknowledges that this Agreement has not been executed in reliance upon any promise, representation or warranty not contained herein.

23. This Agreement may not be amended except in a writing signed by all the parties hereto.

24. Each individual signing this Agreement represents and warrants that he or she has been authorized to do so by proper action of the party on whose behalf he or she has signed.

25. This Agreement may be signed in one or more counterparts and, when all parties have signed the original or a counterpart, such counterparts, whether originals, facsimiles or e-mail attachments, together shall constitute one original document.

COVENANT AND AGREEMENT TO HOLD PROPERTY AS ONE PARCEL

The undersigned ("Owner") hereby certifies to the City of Moreno Valley (the "City") that it is the lawful owner of the real property described in **Exhibit "A"** attached hereto (the "Property"), which Property is located in the City, County of Riverside, State of California.

Owner does hereby covenant and agree with the City that the Property shall be held as one parcel and no portion less than the whole thereof will be sold, disposed of, or in any way divided or hypothecated for any purpose whatsoever other than in accordance with the California Subdivision Map Act, any other applicable State law, and the Municipal Code of the City. As a result, the Property will remain as eleven (11) separate legal parcels until released as provided below.

Owner further covenants that Parcel Map No. 35629 covering the Property will be recorded in the office of the Riverside County Recorder no later than October 20, 2010.

This covenant and agreement shall run with the land and shall be binding upon Owner, any future owners or encumbrancers of the Property, and their respective successors, heirs and assigns. This covenant and agreement shall continue in effect until such time that the City releases the Property from the effect hereof by a written and recorded instrument, upon request of Owner and evidence that this covenant and agreement is no longer required by law.

The purpose of this covenant and agreement is to enable Owner to obtain a limited purpose building permit in accordance with that certain Limited Purpose Building Permit Issuance Agreement between the City and the Owner.

ENCROACHMENT AND REMOVAL AGREEMENT

This encroachment and removal agreement (this "Agreement") is made at Moreno Valley, California, as of June 22, 2010, between the CITY OF MORENO VALLEY, a California general law city (the "City"), on the one hand, and HF LOGISTICS-SKX T1, LLC, a Delaware limited liability company ("HF"), on the other hand, with the respect to the following facts:

A. HF is the sole owner of approximately 83 acres located in the City which currently consists of 11 legal lots and which is currently entitled to be improved with a single building containing approximately 1,820,000 sq. ft (the "building") which will be constructed over portions of nine of the existing lots (the "building site"). The building site is shown on Exhibit A.

B. The building site will become a single parcel, Parcel 1 of Parcel Map 35629 (the "Parcel Map"), upon final approval and recordation of the Parcel Map.

C. HF wishes to begin construction of the building's foundation and slab and to pour and construct, but not erect, walls prior to the recordation of the final Parcel Map and the consolidation of the 11 existing lots into a single legal parcel.

D. On June 22, 2010, the City Council authorized the issuance of a limted purpose building permit for the construction of the building's foundation and slab and the pouring and construction, but not the erection, of the building's walls only (the "limited purpose building permit") prior to the recordation of the final Parcel Map upon the terms set forth in the Limited Purpose Building Permit Issuance Agreement dated June 22, 2010.

E. HF will be required to construct improvements in public rights-of-way or on public property in connection with the construction authorized by the limited purpose building permit.

F. The Limited Purpose Building Permit Issuance Agreement requires that HF agree to remove all improvements constructed in public rights-of-way or on public property in connection with the construction authorized by the limited purpose building permit if the limited purpose building permit expires as a result of the final Parcel Map not being recorded prior to 12:01 a.m. on October 21, 2010. This Agreement is intended to satisfy that requirement.

THEREFORE, IT IS MUTUALLY AGREED THAT:

1. If the limited purpose building permit expires as a result of the final Parcel Map not being recorded prior by 12:01 a.m. on October 21, 2010, HF shall, upon request by the City, prior to February 21, 2011, and at its sole expense, remove all improvements constructed in public rights-of-way or on public property in connection with the construction authorized by the limited building permit and shall restore the public rights-of-way or public property to their pre-construction conditions.

2. HF hereby expressly waives any rights it might otherwise have for any recourse against the City in any way connected to this Agreement or HF's obligation to remove improvements constructed in public rights-of-way or on public property in connection with the

MV00234363

construction authorized by the limited purpose building permit if the limited purpose building permit expires as a result of the Parcel Map not being recorded by 12:01 a.m. on October 21, 2010.

3. HF shall defend, indemnify and hold harmless the City and its agents, officers and employees from any claim, action or proceeding against the City or its agents, officers or employees to attack, set aside, void or annul this Agreement. In any claim, action or proceeding against the City arising out of this Agreement, the City shall be entitled to recover from HF the actual expenditures for its attorneys' fees and all costs including, but not limited to, expert witness fees, in addition to any other relief to which it may be entitled.

4. The parties to this Agreement shall act in good faith and shall take all further actions reasonably necessary to effectuate the letter and the spirit of this Agreement.

5. This Agreement and all rights and obligations arising out of it shall be construed in accordance with the laws of the State of California.

6. Any litigation arising out of this Agreement shall be conducted only in the Riverside County Superior Court.

7. This Agreement is entered into solely for the benefit of the parties hereto. Other than the parties hereto, no third party shall be entitled, directly or indirectly, to base any claim, or to have any right arising from, or related to, this Agreement.

8. This Agreement contains the entire agreement and understanding between the parties and supersedes and replaces all prior negotiations or proposed agreements, written or oral. Each of the parties hereto acknowledges that no other party, nor the agents nor the attorneys for any party, has made any promise, representation or warranty whatsoever, express or implied, not contained herein, to induce the execution of this Agreement and acknowledges that this Agreement has not been executed in reliance upon any promise, representation or warranty not contained herein.

9. This Agreement may not be amended except in a writing signed by all the parties hereto.

10. Each individual signing this Agreement represents and warrants that he or she has been authorized to do so by proper action of the party on whose behalf he or she has signed.

11. This Agreement may be signed in one or more counterparts and, when all parties have signed the original or a counterpart, such counterparts, whether originals, facsimiles or e-mail attachments, together shall constitute one original document.

MV00234366

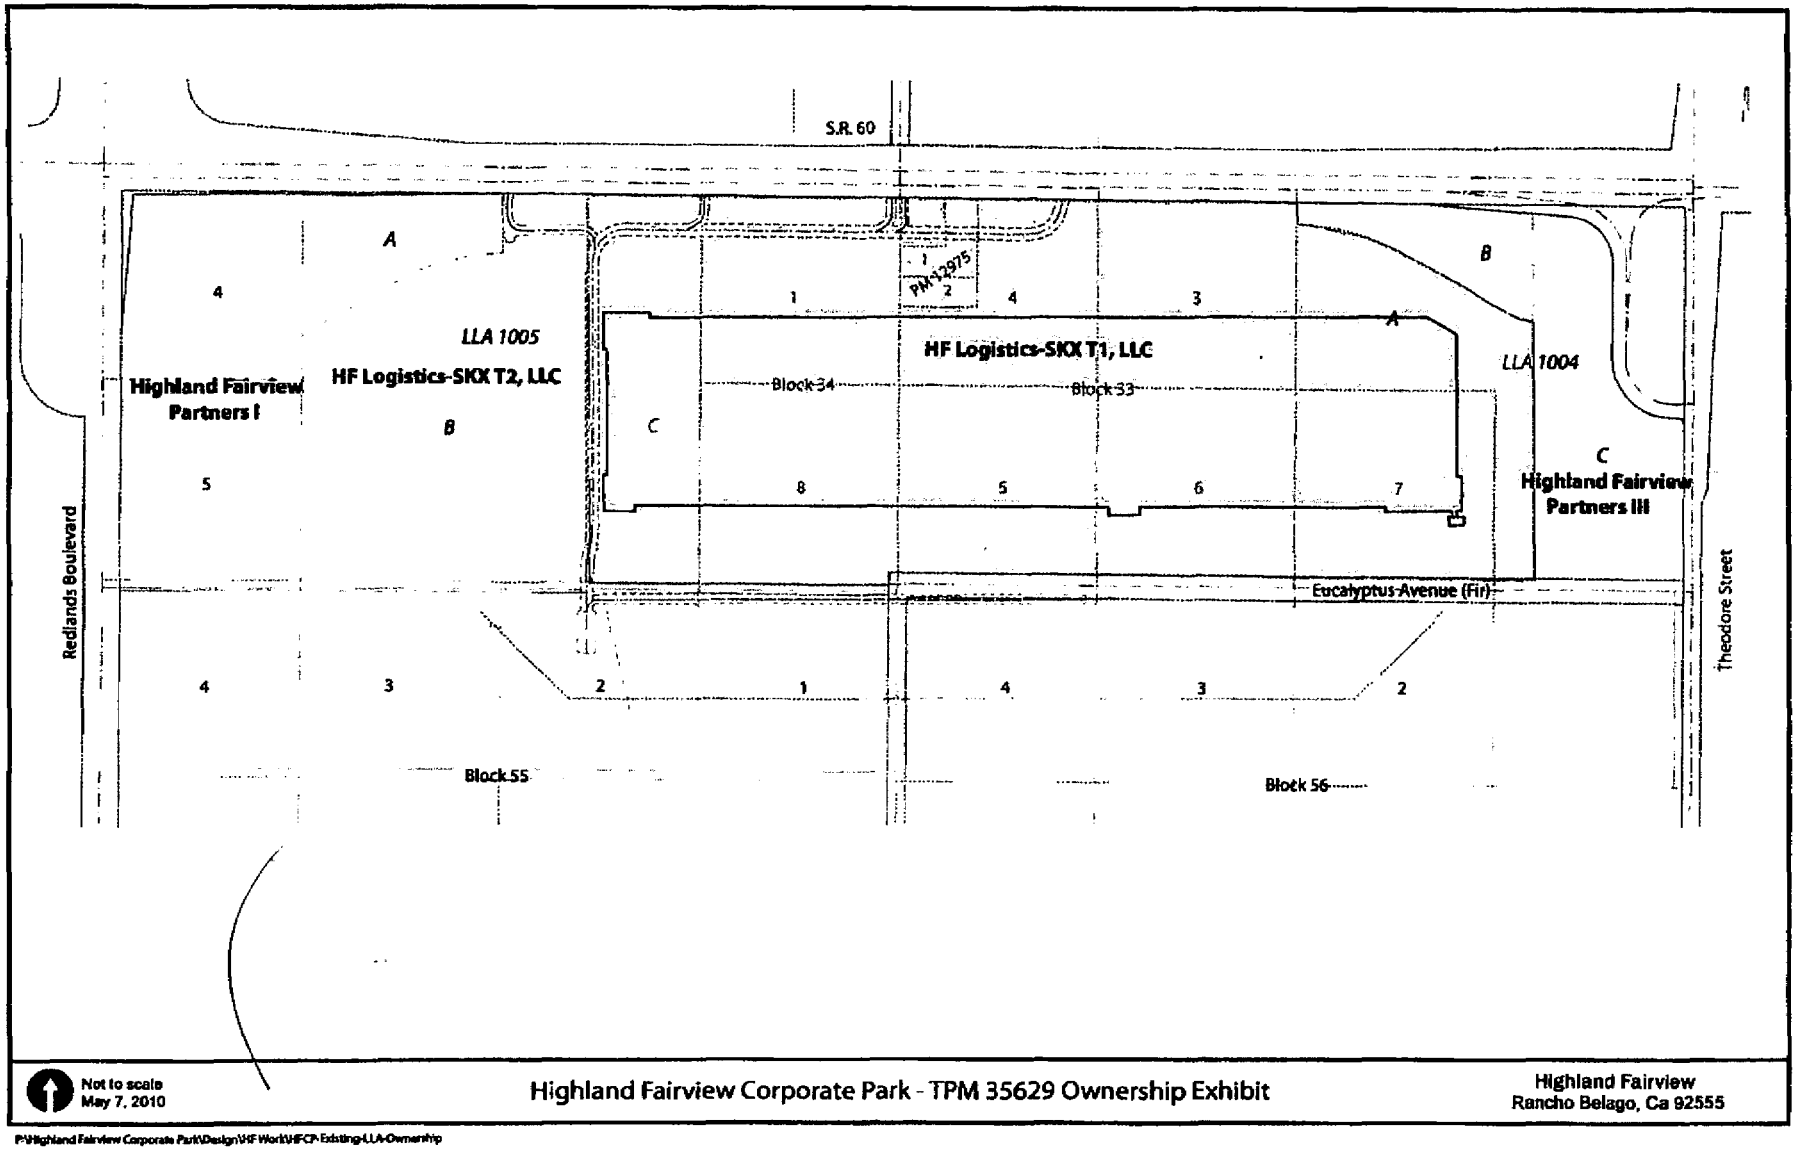

Exhibit A

Proposed Motion:

I move that the City Council amend the action taken on June 22, 2010, approving and accepting Highland Fairview's Covenant to Hold as One Parcel subject to certain conditions. ~~It is proposed that the City Council hereby amend its action taken on June 22, 2010~~ as follows:

1. That this activity is not a "project" under CEQA Guidelines Section 15378, and none of the conditions described in Section 15162 of the CEQA Guidelines have occurred that would warrant a subsequent EIR or an addendum to the EIR. Further, the City Council finds that the absence of any change in the project, the absence of any change in the circumstances under which the project is being undertaken, the absence of any new information which would bring into question the adequacy of the EIR, the fact that all of the project impacts were analyzed in the EIR and the fact that all mitigation measures must be satisfied prior to the building's completion means that there is no need for further environmental review.

2. That the terms and conditions are amended to provide that, prior to issuance of a limited purpose building permit for foundation, slab and pouring of wall panels only, Highland Fairview shall comply with all conditions of approval for issuance of a building permit except as follows, which excepted conditions shall be complied with as provided for in applicable City Council Resolutions, Approval and/or Recording of the final Parcel Map, or issuance of the general building permit, whichever is applicable. The excepted conditions are:

   a. Final approval and recording of the Parcel Map,

   b. Public Improvement Agreements and security for same for any public improvement occurring solely on private property owned or controlled by Highland Fairview,

   c. Payment of DIF and TUMF are deferred until issuance of any temporary, conditional or unconditional certificate of occupancy for the Skechers building as provided for in City Council Resolutions 2009-37 and 2009-38,

   d. Payment of MSHCP fees,

   e. Approval of Building Plans for vertical construction,

   f. Public Drainage easements,

   g. Slope easements,

   h. Reciprocal Access easements,

i. Spreading Basin easement,

j. Off-site easements,

k. Median Landscape Plans approval,

l. Final Trail Plan approval,

m. Site Lighting Plan,

n. Title 24 Plans,

o. Solar Panels for Phase 1 Office,

p. Payment of School fees, contingent upon Highland Fairview providing the City with written agreement from the Moreno Valley Unified School District for deferral of school fees until issuance of the general building permit, ~~or~~ AND

q. Fire Access Plan.

3. All other terms, conditions and actions pursuant to this matter taken by the City Council on June 22, 2010, shall remain unchanged and in full force and effect.

City Manager's Office

MORENO VALLEY
CITY MANAGER'S OFFICE

MEMORANDUM

To: Mayor Bonnie Flickinger and Members of the City Council

From: William L. Bopf, Interim City Manager

Date: June 22, 2010

Subject: Processing Problems – Highland Fairview

I am writing this e-mail realizing that it could become public; hence, I will include nothing that I would not repeat in public.

The Staff started processing the Highland Fairview (HF) documents in March 2010 after their long delay. During that time Staff has had to review and revise almost every document they submitted. In spite of this Staff is often criticized by HF. I will not allow this to go unchallenged. If HF publically demeans the Staff I will respond publically. While I am Interim City Manager for the City of Moreno Valley, whether it is for one more day or two more months, I am totally committed to its well-being; that is what a professional City Manager does.

From this point on I will be professionally responsible for all actions of the Staff with respect to HF processing. If they have any complaints they should be directed toward me, and I keep very thorough records.

The reason this e-mail has arisen is in part due to HF quoting Staff out of context, and through their own indecision created a problem for themselves. On Monday, June 21, 2010, HF delivered a Sewer Agreement Surety Agreement that they wanted to have placed on the June 22 Council Agenda. This cannot be accomplished since the Agenda was posted on June 17, 2010. It would be a violation of State Law to take action on an item not included on the posted agenda. However, the City Council can add an item to the agenda by a 4/5 vote if the item arose after the posting of the agenda and there is a good reason to do so (i.e., grant deadline, escrow closing, etc.) Council must make that finding. The total staff has not reviewed the requested item and there is no staff report. Unless Council takes action, the requested item will appear on the July 13, 2010 agenda. HF also delivered on Monday, June 21, 2010, five (5) more documents they wanted to have included on the July 13th agenda. Monday was the deadline for the July 13th agenda. In all likelihood, a number of those items will not appear on the July 13th agenda. There is a way for Council to address HF's documents, but it will require the Council to call a Special Meeting after July 13 or the next meeting will be held in August.

The complexity of the late submitted documents will take at least one working week to review, and if true to form, will require a number of revisions.

I am meeting with Staff to discuss this e-mail, and we will subsequently follow Council's direction within established policies and protocols.

AGREEMENT FOR PUBLIC IMPROVEMENTS
FOR REDLANDS SEWER IMPROVEMENTS AND ESCROW INSTRUCTIONS
PROJECT NO. PA07-0090 (TENTATIVE PARCEL MAP 35629)

This Agreement, made and entered into by and between the City of Moreno Valley , State of California , hereinafter called City, and **HF Logistics-SKX T1, LLC** herein after called Developer, on the date the City signs this agreement..

WITNESSETH:

FIRST: Developer, for and in consideration of the approval by the City of the final map of that certain land division, or that certain other land development project, known as **PA07-0090 (Tentative Parcel Map 35629)** agrees, at Developer's own expense, to furnish all labor, equipment and material necessary, and within **TWENTY-FOUR (24)** months from the date this Agreement is executed, to perform and complete in a good and workmanlike manner, all of the required improvements in accordance with those improvement plans for said project which have been approved by the City Engineer, and are on file in the office of the City Engineer, and to do all work incidental thereto in accordance with the standards set forth in City ordinances and regulations, and pay all costs of engineering necessary in connection therewith, which are expressly made a part of this Agreement. All of the above required work shall be done under the inspection of and to the satisfaction of the City Engineer, and shall not be deemed complete until approved and accepted as complete by the City. Developer further agrees to guarantee the required improvements for a period of one year following acceptance by the City and during this one year period to repair and replace, to the satisfaction of the City Engineer, any defective work or labor done or defective materials furnished. Developer shall complete the improvements described in this paragraph pursuant to Section 66462, Government Code. Developer shall also complete any offsite improvements required as a condition of approval and with plans approved by the City Engineer at such time as the City acquires an interest in the land which will permit the improvements to be made, and the Developer waives the 120 day time limitation set forth in Section 66262.5, Government Code. The estimated cost of said work and improvements, pursuant to the Preliminary Estimate of Cost labeled Exhibit A attached hereto, is the sum of **FIVE HUNDRED SIXTY THREE THOUSAND AND NO/100** Dollars (*****$563,000*****).

SECOND: Developer agrees to pay to the City the actual cost of such inspection of the works and improvements as may be required by the City Engineer. Developer further agrees that, if suit is brought upon this Agreement or any security guaranteeing the completion of the required improvements, all costs and reasonable expenses and fees incurred by the City in successfully enforcing such obligations shall be paid by Developer and guaranteed by the security, including reasonable attorney's fees, and that, upon entry of judgment, such costs, expenses and fees shall be taxed as costs and included in any judgment rendered.

THIRD: City shall not, nor shall any officer or employee of City, except for its or their sole negligence, be liable or responsible for any accident, loss or damage happening or occurring to the works specified in this Agreement prior to the completion and approval thereof, nor shall City or any officer or employee thereof, be liable for any persons or property injured by reason of the nature of the work, or by reason of the acts or omissions of Developer, his agents or employees, in the performance of the work, and all of said liabilities are assumed by Developer. Developer agrees to protect, defend and hold harmless City and the officers and employees thereof from all loss, liability or claim because of, or arising out of the acts or omissions of Developer, his agents and employees, in the performance of this Agreement, or arising out of the use of any patent or patented article in the performance of this Agreement.

FOURTH: The Developer hereby grants to the City and/or to any authorized agent or employee of the City, the irrevocable permission to enter upon the lands of the above-referenced land division for the purpose of completing the Improvements. This permission shall terminate in the event that the Developer has completed the work within the time specified or any extension thereof granted by the City.

FIFTH: Developer agrees at all times, up to the completion and acceptance of the improvements by the City, to give good and adequate warning to the traveling public of each and every dangerous condition caused by the construction of the Improvements, and to protect the traveling public from such defective or dangerous conditions. The Developer shall keep all traveled ways that are a part of, or affected by the construction of this project free and clear of mud, dirt and debris and shall provide twice monthly street sweeping service. A copy of the contract for street sweeping service shall be provided to the City. The Developer's obligation under this provision shall be secured by the security in escrow securing performance of this Agreement.

SIXTH: The Developer, his agents and employees, shall give notice to the City Engineer at least 48 hours before beginning any work and shall furnish said City Engineer all reasonable facilities for obtaining full information with respect to the progress and manner of work.

SEVENTH: If the Developer, or his agents or employees, neglects, refuses, or fails to prosecute the work with such diligence as to insure its completion within the specified time, or within such extensions of time as have been granted by the City, or if the Developer violates, neglects, refuses, or fails to perform satisfactorily any of the provisions of the plans and specifications, he shall be in default of this Agreement and notice in writing of such default shall be served upon him. Whereupon, the City Engineer shall unilaterally have the ability to withdraw from escrow all funds necessary to correct the violation(s). The City Council shall have the power, on recommendation by the City Engineer, to terminate all rights of the Developer because of such default. The determination by the City Engineer of the question as to whether any of the terms of the Agreement or specifications have been violated, or have not been performed satisfactorily, shall be conclusive upon the Developer, and any and all parties who may have any interest in the Agreement or any portion thereof. The foregoing provisions of this section shall be in addition to all other rights and remedies available to the City under law.

EIGHTH: Developer agrees prior to the date this Agreement is executed, to deposit into two separate escrow accounts United States currency for 1) the estimated cost of the work and improvements, totaling $563,000, for the faithful performance of the terms and conditions of this Agreement (First American Title Insurance Company Escrow Number: 445220), and 2) the estimated cost of labor and materials, in the amount of $281,500, for the payment of labor and materials (First American Title Insurance Company Escrow Number: 445221) as prescribed by City ordinances and regulations to secure the claims to which reference is made in Title 15 (commencing with Section 3082) of Part 4 of Division 3 of the Civil Code of the State of California. The escrow accounts shall be established at First American Title Insurance Company, 4380 La Jolla Village Drive, Suite 200, San Diego, Ca 92122, Attn: Verna Gregory-Senior Commercial Escrow Officer. Developer agrees to maintain said escrow account(s) with good and sufficient funds or increase the amounts of said escrow account(s), or both, within ten (10) days after being notified by the City Engineer that the amounts are insufficient. Notwithstanding any other provision herein, if Developer fails to take such action as is necessary to comply with said notice, he shall be in default of this Agreement unless all required Improvements are completed within ninety (90) days of the date on which the City Engineer notified the Developer of the insufficiency of said escrow account(s). Developer reserves the right to substitute the form of security, in accordance with the Moreno Valley Municipal Code, at anytime during the term of this agreement, subject to approval of the City Engineer and City Attorney. At twenty percent (20%) completion, forty percent (40%) completion, sixty percent (60%) completion, eighty percent (80%) completion, and ninety percent (90%) completion of the public improvements, as measured by the dollar value of said improvements as set forth in the Engineer's Preliminary Estimate of Cost and associated unit costs (Exhibit A) and upon written request by the Developer for a partial reduction of the security, the surety company shall be instructed by the City Engineer in writing to reduce the amount of the account(s). A total of ten (10%) percent of the original amount shall be retained until expiration of the twelve (12) month warranty period pursuant to Government Code Section 66499 to secure required warranty work.

NINTH: It is further agreed by and between the parties hereto, including the escrow account(s) securing this Agreement that, in the event it is deemed necessary to extend the time of completion of the work contemplated to be done under this Agreement, extensions of time **may** be granted by the City from time to time, either at its own option, or upon request of Developer, and such extensions shall in no way affect the validity of this Agreement or release the funds from escrow. Developer further agrees to maintain the aforesaid funds in full force and effect during the terms of this Agreement, including any extensions of time as may be granted therein.

TENTH: It is understood and agreed by the parties hereto that if any part, term or provision of this Agreement is by the courts held to be unlawful and void, the validity of the remaining portions shall not be affected and the rights and obligations of the parties shall be construed and enforced as if the Agreement did not contain the particular part, term or provision held to be invalid.

ELEVENTH: Any notice or notices required or permitted to be given pursuant to this Agreement shall be served on the other party by mail, postage prepaid, at the following addresses:

SUPPLEMENTAL ESCROW INSTRUCTIONS

ESCROW NO.: NCS-445220-SD / NCS-445221-SD DATE: 06/21/2010

First American Title Insurance Company is hereby handed by the undersigned parties, that certain "original" document entitled Agreement for Redlands Sewer Improvement plans. Security Project No. PA07-0090 (Tentative Parcel Map 35629) dated June 8, 2010 executed by and between City of Moreno Valley, ("City") and HF Logistics –SKX-T1,LLC, ("Developer").

First American Title Insurance Company is hereby requested to accept the "Agreement for Redlands Sewer Plans" Security Project No. PA07-0090 (Tentative Parcel Map 35629)" as its escrow instructions and to act as escrow agent for the parties in accordance with the terms and conditions contained in said document.

Each of the parties to this escrow specifically acknowledges that the consummation of this escrow is contingent upon compliance with some or all of the executory terms and provisions of this "Agreement", and that the parties to this "Agreement" are and shall be the sole persons entitled to and authorized to determine whether all of said executory terms and provisions due to be performed prior to the close of escrow have been met or complied with prior to such close. Accordingly, the parties hereby agree that prior to the scheduled close of escrow they shall each deposit with Escrow Holder a **written** instruction or acknowledgement specifying that all the executory terms and provisions of this "Agreement", insofar as the same pertain to each said party respectively and any obligation of escrow holder relative thereto, have been fully met or complied with, or are waived.

Further, each said party shall specifically release Escrow Holder from all liability, if any, which it may have in connection with this escrow because of any party's failure to meet or comply with any such executory term or provision of this "Agreement", prior to close of escrow. Deposit of written instruction or acknowledgement with Escrow Holder shall constitute each said party's specific authorization to close this escrow.

General provisions of First American Title Insurance Company, attached hereto and made a part hereof, are hereby incorporated in said "Agreement". To the extent that the agreement contains any provisions inconsistent with or contrary to the provisions of the General Provisions attached hereto, such "Agreement" shall remain as the agreement of the parties thereto but First American Title Insurance shall be guided by the terms of their General Provisions.

City of Moreno Valley

By:

HF Logistics-SKX-T1, LLC, *a* California limited liability company

By: Iddo Benzeevi, President and CEO

MV00234391

Escrow General Provisions

The parties understand and acknowledge:

1. Special Disclosures:

A. Deposit of Funds & Disbursements

Unless directed in writing to establish a separate, interest-bearing account together with all necessary taxpayer reporting information, all funds shall be deposited in general escrow accounts in a federally insured financial institution including those affiliated with Escrow Holder ("depositories"). All disbursements shall be made by Escrow Holder's check or by wire transfer unless otherwise instructed in writing. The Good Funds Law (California Insurance Code 12413.1) mandates that Escrow Holder may not disburse funds until the funds are, in fact, available in Escrow Holder's account. Wire transfers are immediately disbursable upon confirmation of receipt. Funds deposited by a cashier's or certified check are generally available on the next banking day following deposit. Funds deposited by a personal check and other types of instruments may not be available until confirmation from Escrow Holder's bank which can vary from 2 to 10 days.

B. Disclosure of Possible Benefits to Escrow Holder

As a result of Escrow Holder maintaining its general escrow accounts with the depositories, Escrow Holder may receive certain financial benefits such as an array of bank services, accommodations, loans or other business transactions from the depositories ("collateral benefits"). All collateral benefits shall accrue to the sole benefit of Escrow Holder and Escrow Holder shall have no obligation to account to the parties to this escrow for the value of any such collateral benefits.

C. Miscellaneous Fees

Escrow Holder may incur certain additional costs on behalf of the parties for services performed, or fees charged, by third parties. The fees charged by Escrow Holder for services including, but not limited to, wire transfers, overnight delivery/courier services, recording fees, notary fees, etc. may include a mark up over the direct cost of such services to reflect the averaging of direct, administrative and overhead charges of Escrow Holder for such services which shall, in no event, exceed $10 for each markup.

D. Method To Deliver Payoff To Lenders/Lienholders

To minimize the amount of interest due on any existing loan or lien, Escrow Holder will deliver the payoff funds to the lender/lienholder in an expeditious manner as demanded by the lender/lienholder using (a) personal delivery, (b) wire transfer, or (c) overnight delivery service, unless otherwise directed in writing by the affected party.

2. Prorations & Adjustments

The term "close of escrow" means the date on which documents are recorded. All prorations and/or adjustments shall be made to the close of escrow based on the number of actual days, unless otherwise instructed in writing.

3. Contingency Periods

Escrow Holder shall not be responsible for monitoring contingency time periods between the parties. The parties shall execute such documents as may be requested by Escrow Holder to confirm the status of any such periods.

4. Reports

As an accommodation, Escrow Holder may agree to transmit orders for inspection, termite, disclosure and other reports if requested, in writing or orally, by the parties or their agents. Escrow Holder shall deliver copies of any such reports as directed. Escrow Holder is not responsible for reviewing such reports or advising the parties of the content of same.

5. Information from Affiliated Companies

Escrow Holder may provide the parties' information to and from its affiliates in connection with the offering of products and services from these affiliates.

6. Recordation of Documents

Escrow Holder is authorized to record documents delivered through escrow which are necessary or proper for the issuance of the requested title insurance policy(ies). Buyer will provide a completed Preliminary Change of Ownership Report form ("PCOR"). If Buyer fails to provide the PCOR, Escrow Holder shall close escrow and charge Buyer any additional fee incurred for recording the documents without the PCOR. Escrow Holder is released from any liability in connection with same.

7. Personal Property Taxes

No examination, UCC search, insurance as to personal property and/or the payment of personal property taxes is required unless otherwise instructed in writing.

8. Real Property Taxes

Real property taxes are prorated based on the most current available tax statement from the tax collector's office. Supplemental taxes may be assessed as a result of a change in ownership or completion of construction. Adjustments due either party based on the actual new tax bill issued after close of escrow or a supplemental tax bill will be made by the parties outside of escrow and Escrow Holder is released of any liability in connection with such adjustments. The first installment of California real property taxes is due November 1st (delinquent December 10th) and the second installment is due February 1st (delinquent April 10th). If a tax bill is not received from the County at least 30 days prior to the due date, buyer should contact the County Tax Collector's office and request one. Escrow Holder is not responsible for same.

9. Cancellation of Escrow

(a) Any party desiring to cancel this escrow shall deliver written notice of cancellation to Escrow Holder. Within a reasonable time after receipt of such notice, Escrow Holder shall send by regular mail to the address on the escrow instructions, one copy of said notice to the other party(ies). Unless written objection to cancellation is delivered to Escrow Holder by a party within 10 days after date of mailing, Escrow Holder is authorized, at its option, to comply with the notice and terminate the escrow. If a written objection is received by Escrow Holder, Escrow Holder is authorized, at its option, to hold all funds and documents in escrow (subject to the funds held fee) and to take no other action until otherwise directed by either the parties' mutual written instructions or a final order of a court of competent jurisdiction. If no action is taken on this escrow within 6 months after the closing date specified in the escrow instructions, Escrow Holder's obligations shall, at its option, terminate. Upon termination of this escrow, the parties shall pay all fees, charges and reimbursements due to Escrow Holder and all documents and remaining funds held in escrow shall be returned to the parties depositing same.

(b) Notwithstanding the foregoing paragraph, Escrow Holder shall have the right to unilaterally terminate any escrow which is subject to the provisions of the Equity Purchaser Law (CA Civil Code Section 1695 et seq.) and may return all documents and funds without any consent by or notice to the buyer.

10. Conflicting Instructions & Disputes

If Escrow Holder becomes aware of any conflicting demands or claims concerning this escrow, Escrow Holder shall have the right to discontinue all further acts on Escrow Holder's part until the conflict is resolved to Escrow Holder's satisfaction. Escrow Holder has the right at its option to file an action in interpleader requiring the parties to litigate their claims/rights. If such an action is filed, the parties jointly and severally agree (a) to pay Escrow Holder's cancellation charges, costs (including the funds held fees) and reasonable attorneys' fees, and (b) that Escrow Holder is fully released and discharged from all further obligations under the escrow. If an action is brought involving this escrow and/or Escrow Holder, the party(ies) involved in the action agree to indemnify and hold the Escrow Holder harmless against liabilities, damages and costs incurred by Escrow Holder (including reasonable attorneys' fees and costs) except to the extent that such liabilities, damages and costs were caused by the negligence or willful misconduct of Escrow Holder.

THIS COMPANY CONDUCTS ESCROW BUSINESS UNDER CERTIFICATE OF AUTHORITY ISSUED BY THE STATE OF CALIFORNIA DEPARTMENT OF INSURANCE.

Escrow General Provisions

11. USURY

Escrow Holder is not to be concerned with usury as to any loans or encumbrances in this escrow and is hereby released of any responsibility and/or liability therefore.

12. AMENDMENTS TO ESCROW INSTRUCTIONS

Any amendment to the escrow instructions must be in writing, executed by all parties and accepted by Escrow Holder. Escrow Holder may, at its sole option, elect to accept and act upon oral instructions from the parties. If requested by Escrow Holder the parties agree to confirm said instructions in writing as soon as practicable. The escrow instructions as amended shall constitute the entire escrow agreement between the Escrow Holder and the parties hereto with respect to the subject matter of the escrow.

13. INSURANCE POLICIES

In all matters relating to insurance, Escrow Holder may assume that each policy is in force and that the necessary premium has been paid. Escrow Holder is not responsible for obtaining fire, hazard or liability insurance, unless Escrow Holder has received specific written instructions to obtain such insurance prior to close of escrow from the parties or their respective lenders.

14. COPIES OF DOCUMENTS; AUTHORIZATION TO RELEASE

Escrow Holder is authorized to rely upon copies of documents, which include facsimile, electronic, NCR, or photocopies as if they were an originally executed document. If requested by Escrow Holder, the originals of such documents shall be delivered to Escrow Holder. Escrow Holder may withhold documents and/or funds due to the party until such originals are delivered. Documents to be recorded ***MUST*** contain original signatures. Escrow Holder may furnish copies of any and all documents to the lender(s), real estate broker(s), attorney(s) and/or accountant(s) involved in this transaction upon their request. Delivery of documents by escrow to a real estate broker or agent who is so designated in the purchase agreement shall be deemed delivery to the principal.

15. EXECUTION IN COUNTERPART

The escrow instructions and any amendments may be executed in one or more counterparts, each of which shall be deemed an original, and all of which taken together shall constitute the same instruction.

16. TAX REPORTING, WITHHOLDING & DISCLOSURE

The parties are advised to seek independent advice concerning the tax consequences of this transaction, including but not limited to, their withholding, reporting and disclosure obligations. Escrow Holder does not provide tax or legal advice and the parties agree to hold Escrow Holder harmless from any loss or damage that the parties may incur as a result of their failure to comply with federal and/or state tax laws. ***WITHHOLDING OBLIGATIONS ARE THE EXCLUSIVE OBLIGATIONS OF THE PARTIES. ESCROW HOLDER IS NOT RESPONSIBLE TO PERFORM THESE OBLIGATIONS UNLESS ESCROW HOLDER AGREES IN WRITING.***

A. TAXPAYER IDENTIFICATION NUMBER REPORTING

Federal law requires Escrow Holder to report seller's social security number or tax identification number (both numbers are hereafter referred to as the "TIN"), forwarding address, and the gross sales price to the Internal Revenue Service ("IRS"). To comply with the USA PATRIOT Act, certain taxpayer identification information (including, but not limited to, the TIN) may be required by Escrow Holder from certain persons or entities involved (directly or indirectly) in the transaction prior to closing.

Escrow cannot be closed nor any documents recorded until the information is provided and certified as to its accuracy to Escrow Holder. The parties agree to promptly obtain and provide such information as requested by Escrow Holder.

B. State Withholding & Reporting

Under California law (Rev & Tax Code §18662), a buyer may be required to withhold and deliver to the Franchise Tax Board (FTB) an amount equal to 3.33% of the sales price in the case of disposition of California real property interest ("Real Property") by either: 1) a seller who is an individual, trust or estate or when the disbursement instructions authorize the proceeds to be sent to a financial intermediary of seller; OR 2) a corporate seller that has no permanent place of business in California immediately after the transfer of title to the Real Property. Buyer may be subject to a penalty (equal to the greater of 10% of the amount required to be withheld or $500) for failing to withhold and transmit the funds to FTB in the time required by law. Buyer is not required to withhold any amount and will not be subject to penalty for failure to withhold if: a) the sales price of the Real Property does not exceed $100,000; b) the seller executes a written certificate under penalty of perjury certifying that the seller is a corporation with a permanent place of business in California; OR c) the seller, who is an individual, trust, estate or a corporation without a permanent place of business in California, executes a written certificate under penalty of perjury certifying one of the following: (i) the Real Property was the seller's or decedent's principal residence (as defined in IRC §121); (ii) Real Property being conveyed was last used by the seller as sellers principal residence within the meaning of IRC §121 (even if the seller did not meet the two out of the last five years requirement or one of the special circumstances in IRC §121); (iii) the Real Property is or will be exchanged for property of like-kind (as defined in IRC §1031) and that the seller intends to acquire property similar or related in service or use so as to be eligible for nonrecognition of gain for California income tax purposes under IRC §1031; (iv) the Real Property has been compulsorily or involuntarily converted (as defined in IRC §1033) and the seller intends to acquire property similar or related in service or use so as to be eligible for nonrecognition of gain for California income tax purposes under IRC §1033; or (v) the Real Property sale will result in a loss (or net gain not required to be recognized) for California income tax purposes. Seller is subject to penalties for knowingly filing a fraudulent certificate for the purpose of avoiding the withholding laws.

Contact FTB: For additional information regarding California withholding, contact the Franchise Tax Board at (toll free) 888-792-4900), by e-mail nrws@ftb.ca.gov; or visit their website at www.ftb.ca.gov.

C. FEDERAL WITHHOLDING & REPORTING

Certain federal reporting and withholding requirements exist for real estate transactions where the seller (transferor) is a non-resident alien, a non-domestic corporation, partnership, or limited liability company; or a domestic corporation, partnership or limited liability company controlled by non-residents; or non-resident corporations, partnerships or limited liability companies.

D. TAXPAYER IDENTIFICATION DISCLOSURE

Federal and state laws require that certain forms include a party's TIN and that such forms or copies of the forms be provided to the other party and to the applicable governmental authorities. Parties to a real estate transaction involving seller-provided financing are required to furnish, disclose, and include the other party's TIN in their tax returns. Escrow Holder is authorized to release a party's TINs and copies of statutory forms to the other party and to the applicable governmental authorities in the foregoing circumstances. The parties agree to hold Escrow Holder harmless against any fees, costs, or judgments incurred and/or awarded because of the release of their TIN as authorized herein.

First American Title Company

Privacy Policy

We Are Committed to Safeguarding Customer Information

In order to better serve your needs now and in the future, we may ask you to provide us with certain information. We understand that you may be concerned about what we will do with such information – particularly any personal or financial information. We agree that you have a right to know how we will utilize the personal information you provide to us. Therefore, together with our parent company, The First American Corporation, we have adopted this Privacy Policy to govern the use and handling of your personal information.

Applicability

This Privacy Policy governs our use of the information which you provide to us. It does not govern the manner in which we may use information we have obtained from any other source, such as information obtained from a public record or from another person or entity. First American has also adopted broader guidelines that govern our use of personal information regardless of its source. First American calls these guidelines its *Fair Information Values*, a copy of which can be found on our website at www.firstam.com.

Types of Information

Depending upon which of our services you are utilizing, the types of nonpublic personal information that we may collect include:

- Information we receive from you on applications, forms and in other communications to us, whether in writing, in person, by telephone or any other means;
- Information about your transactions with us, our affiliated companies, or others; and
- Information we receive from a consumer reporting agency.

Use of Information

We request information from you for our own legitimate business purposes and not for the benefit of any nonaffiliated party. Therefore, we will not release your information to nonaffiliated parties except: (1) as necessary for us to provide the product or service you have requested of us; or (2) as permitted by law. We may, however, store such information indefinitely, including the period after which any customer relationship has ceased. Such information may be used for any internal purpose, such as quality control efforts or customer analysis. We may also provide all of the types of nonpublic personal information listed above to one or more of our affiliated companies. Such affiliated companies include financial service providers, such as title insurers, property and casualty insurers, and trust and investment advisory companies, or companies involved in real estate services, such as appraisal companies, home warranty companies, and escrow companies. Furthermore, we may also provide all the information we collect, as described above, to companies that perform marketing services on our behalf, on behalf of our affiliated companies, or to other financial institutions with whom we or our affiliated companies have joint marketing agreements.

Former Customers

Even if you are no longer our customer, our Privacy Policy will continue to apply to you.

Confidentiality and Security

We will use our best efforts to ensure that no unauthorized parties have access to any of your information. We restrict access to nonpublic personal information about you to those individuals and entities who need to know that information to provide products or services to you. We will use our best efforts to train and oversee our employees and agents to ensure that your information will be handled responsibly and in accordance with this Privacy Policy and First American's *Fair Information Values*. We currently maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

HIGHLAND FAIRVIEW

14225 Corporate Way
Moreno Valley, CA 92553
[redacted]

June 21, 2010

Mayor Flickinger and Members of the City Council
City of Moreno Valley
14177 Frederick Street
Moreno Valley, California

SUBJECT: Highland Fairview Corporate Park – City Council Review of Public Improvement Agreement for Redlands Sewer – Application of Government Code Section 54954.2(b)(2).

Dear Mayor Flickinger and Members of the City Council:

Highland Fairview respectfully requests that the City Council exercise its authority under Government Code Section 54954.2(b)(2) to review and approve a Public Improvement Agreement for Redlands Sewer Improvements related to the Highland Fairview Corporate Park project.

This section of the Government Code permits the City Council to act on items not on its regular agenda when the Council determines that "there is a need to take immediate action and that the need for action came to the attention of the local agency subsequent to the agenda being posted..." (Attached for reference). Please note a two-thirds vote of the Council is necessary.

The specifics of this request are as follows:

Highland Fairview and City staff have been working diligently to prepare and process the numerous plans, documents, agreements, easements, licenses, etc. that are necessary in order to construct the Highland Fairview Corporate Park project and the Skechers building.

The schedule for the project is extraordinarily tight and every day is critical to allowing Skechers to occupy their building as soon as physically possible.

On June 17, 2010, Highland Fairview was refused an encroachment permit to commence the Redlands sewer improvements without a Public Improvement Agreement (PIA) and security. Due to a miscommunication by both City staff and Highland Fairview, the City

has decided that a PIA and security would, in fact, be required before an encroachment permit for Redlands Sewer would be issued.

The construction of the Redlands sewer improvements is critical to the overall project schedule and delays in that schedule will be extremely difficult, if not impossible to recover.

There are no issues with the sewer improvement plans, and the proposed PIA and cash security are consistent with established City guidelines and procedures. Two escrows were opened Friday June 18th with cash totaling $844,500 for the security in order to expedite the process. There is no compelling reason that the Council cannot act on the PIA and security at its June 22nd meeting.

Highland Fairview respectfully requests the Council consideration of this request to enable the project to continue moving ahead.

Sincerely,

Iddo Benzeevi

Excerpt from California Government Code

54954.2. (a) (1) At least 72 hours before a regular meeting, the legislative body of the local agency, or its designee, shall post an agenda containing a brief general description of each item of business to be transacted or discussed at the meeting, including items to be discussed in closed session. A brief general description of an item generally need not exceed 20 words. The agenda shall specify the time and location of the regular meeting and shall be posted in a location that is freely accessible to members of the public. If requested, the agenda shall be made available in appropriate alternative formats to persons with a disability, as required by Section 202 of the Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12132), and the federal rules and regulations adopted in implementation thereof. The agenda shall include information regarding how, to whom, and when a request for disability related modification or accommodation, including auxiliary aids or services may be made by a person with a disability who requires a modification or accommodation in order to participate in the public meeting.

(2) No action or discussion shall be undertaken on any item not appearing on the posted agenda, except that members of a legislative body or its staff may briefly respond to statements made or questions posed by persons exercising their public testimony rights under Section 54954.3. In addition, on their own initiative or in response to questions posed by the public, a member of a legislative body or its staff may ask a question for clarification, make a brief announcement, or make a brief report on his or her own activities. Furthermore, a member of a legislative body, or the body itself, subject to rules or procedures of the legislative body, may provide a reference to staff or other resources for factual information, request staff to report back to the body at a subsequent meeting concerning any matter, or take action to direct staff to place a matter of business on a future agenda.

(b) Notwithstanding subdivision (a), the legislative body may take action on items of business not appearing on the posted agenda under any of the conditions stated below. Prior to discussing any item pursuant to this subdivision, the legislative body shall publicly identify the item.

(1) Upon a determination by a majority vote of the legislative body that an emergency situation exists, as defined in Section 54956.5.

(2) Upon a determination by a two-thirds vote of the members of the legislative body present at the meeting, or, if less than two-thirds of the members are present, a unanimous vote of those members present, that there is a need to take immediate action and that the need for action came to the attention of the local agency subsequent to the agenda being posted as specified in subdivision (a).

(3) The item was posted pursuant to subdivision (a) for a prior meeting of the legislative body occurring not more than five calendar days prior to the date action is taken on the item, and at the prior meeting the item was continued to the meeting at which action is being taken.

(c) This section is necessary to implement and reasonably within the scope of paragraph (1) of subdivision (b) of Section 3 of Article I of the California Constitution.

Brian,

Please do not have Chris Fryer deliver the PIA forms to Mr. Bopf. They should all go to the Land Development Division, attention Liz Plazola seeing as she is the person responsible for creating the original colored agreements. Delivering the forms to the City Manager's office or the City Engineer will only add a layer to the processing and could slow the overall timeline. Thank you.

Subject: 2010-06-21 June 22nd and July 13th Council Agendas
Importance: High

Mark,

I need your help with the following:

1) **June 22nd City Council Agenda** – As you know the Redlands Sewer is a critical item in the construction schedule. We have begun this work based upon approval from the City. The recent change in security requirements for the Redlands Sewer, due to the discrepancy in the City letter from Mr. Bopf, dated May 26, 2010; the attached Redlands Sewer PIA must be placed on the City Council Agenda for June 22nd in order to continue the construction. **(Chris Fryer will bring Bill Bopf, you and Chris Vogt a signed hard copy Monday morning.)** *We* are proposing to post cash security for the Redlands Sewer work in order to expedite the process. We need the City's assistance with resolving this situation by placing the item on the agenda for June 22nd. The same PIA we have been working on for the 20% reductions was used. Also I have included an updated Engineers Estimate along with the plan quantity sheet for reference.

2) **July 13th City Council Agenda** – We need to reserve the following as agenda items for the July 13th agenda. We may not need them but we want to cover all options:

   a) HFCP - Phase 1 Public Improvement Agreement (PIA)
   b) HFCP - Phase 2/3 PIA *(Lien)*
   c) Final Parcel Map Recordation 35629
   d) Redlands Electrical PIA
   e) Any other item(s) related to Parcel Map Recordation?

-NOT RECEIVED
-ONLY REQUESTED A PLACE HOLDER ON AGENDA

3) **Security Form Substitution** – We will be substituting the escrow security for Line F and Redlands Sewer with surety bonds sometime in the near future. I believe this can be done administratively via City Engineer and City Attorney? If for some reason it requires City Council action then I want to be sure we include these on the July 13th agenda.

I appreciate all your help!

May 26, 2010

Mr. Iddo Benzeevi
Highland Fairview Properties, LLC
14225 Corporate Way
Moreno Valley CA 92553

Dear Mr. Benzeevi,

In anticipation of the start of the project construction, City staff met to discuss the construction and timing of the Public Improvement Agreements, cost estimates and other supporting documents for the Logistics project (Skechers). The following are the action items resulting from our conversation:

1. The City of Moreno Valley will not require a Public Improvement Agreement (PIA) and corresponding security for the construction of any City-maintained public improvements until the Final Parcel Map is submitted to City Council for approval.

2. The City of Moreno Valley requires the developer to provide both the Faithful Performance (100%) and Material and Labor (50%) security prior to the start of construction of any Flood Control District-maintained storm drain facilities.

3. In regards to the developer using real property as security for the Phase 2 and 3 improvements, Highland Fairview must provide the City with an appraisal and Title Report (as required by City Policy).

4. The value of the property must be a minimum of 2.5 times the estimated costs of the public improvements within Phases 2 and 3. As a cost estimate for the latter phases of the project has not been provided by the developer's engineer, City staff extrapolated the Phase 1 estimate to determine that the approximate costs for the remaining public improvements is about $2,900,000, therefore the land proposed as security must be valued at a minimum of $7,250,000.

5. Highland Fairview must provide the City with all securities, Public Improvement Agreement(s) and related Engineer's Cost Estimates and exhibits, title reports and appraisals no later than **June 7th** in order to get on the agenda for the July 13th

MV00234403

City Council meeting. If all of the required information is not provided by this date, the item will be re-scheduled for the next available public hearing.

Feel free to contact me if there are questions on the above information.

Sincerely,

William L. Bopf

RE: Opposition to SB 7 (Steinberg) Charter Cities: Unlawful Conditions on State Funding

Dear Assembly Member Gatto:

The City of Moreno Valley opposes SB 7 (Steinberg), which would prohibit a charter city from receiving or using state funding or financial assistance for a construction project if the city has a charter provision or ordinance that authorizes a contractor to not comply with state prevailing wage requirements on local construction projects funded by (non-state) city funds.

This measure violates the fundamental principle of local control and the constitutional limits of state authority over charter cities, as recently held by the Court in the Vista decision. This measure conflicts with Vista by attempting, via the Legislature, to leverage a different outcome than the Court's ruling by withholding vital state construction funds, derived from all of the state's taxpayers, from charter cities that fail to adopt prevailing wage requirements for projects built with local funds. Such a condition is unlawful because the state is seeking to leverage outcomes it lacks the legal authority to compel.

While the City of Moreno Valley is a general law city, we oppose this measure for its intrusion into local authority as well as the effort to undercut the flexibility provided in the Constitution to charter cities. In fact, Moreno Valley is pursuing public consideration of becoming a charter city for reasons such as increased flexibility and authority. The state should respect the Vista court decision.

This measure would establish a disturbing framework for future state micromanaging of charter city laws and policies by the tactic of withholding state funds as political leverage to attempt to force changes to city charters and ordinances.

For these reasons, the City of Moreno Valley opposes this legislation.

Sincerely,

Michelle Dawson

MEMORANDUM

To: Mayor and City Council
Michelle Dawson, City Manager

From: Rick Teichert, Chief Financial Officer/City Treasurer

Date: October 1, 2013

Subject: Monthly Investment Report – August 2013

Attached is the Monthly Investment Report (Treasurer's Cash and Investments Report) for the month ended August 31, 2013. All investments comply with California Government Code Section 53601 as to the types of investments allowed and the limits of each type. In addition, all investments comply with the City's annually adopted Investment Policy.

The investments managed by Chandler Asset Management totaled $142,774,990 and achieved a Yield to Maturity (YTM) for August 2013 of 1.21%. This compares to a YTM in July 2013 of 1.29% and a YTM in August 2012 of 1.34%. In addition, the City maintained $14,860,042 in the State Local Agency Investment Fund Pool with a YTM of 0.27%.

Rates of return on fixed income investments continue to remain soft. The fixed income market has experienced significant volatility as the Fed discusses the wind down of the qualitative easing policies. We have seen a slight increase in rates for both the very short-term and the long term rates while intermediate-term rates have declined slightly. The City portfolio trades in the short-term range of the yield curve.

The June 2013 Quarterly Investment Report was presented at the City Council meeting on September 10, 2013. Submitting this August 2013 Monthly Investment Report by internal memorandum ensures that the Council and City Manager are kept apprised of the City's investments between the regular quarterly reports.

Please contact me (951-413-3024) or Brooke McKinney (951-413-3077) with any questions.

Bond Proceeds with Fiscal Agents	Market Value
Construction Funds	1,104,312
Principal & Interest Accounts	536,141
Debt Service Reserve Funds	6,661,484
Custody Accounts	0
Arbitrage Rebate Accounts	0
Other Accounts	10,920
Total Bond Proceeds	**8,312,857**

Deferred Compensation Funds	Market Value as of June 30, 2013
Nationwide	10,713,851
ICMA	4,743,306
Total Deferred Compensation Funds	**15,457,157**
Total Investment Portfolio	**183,593,406**

1. I hereby certify that the investments are in compliance with the investment policy adopted by the City Council. There are no items of non-compliance for this period.
2. The market values for the specific investments in the General Portfolio are provided by the City's investment advisor, Chandler Asset Management.
3. The market value for LAIF is provided by the State Treasurer.
4. The market values for investments held by fiscal agents and the deferred compensation plans are provided by each respective trustee or fiscal agent.
5. The City has the ability to meet its budgeted expenditures for the next six months pending any future action by City Council or any unforeseen catastrophic event.

Richard Teichert
City Treasurer

Holdings Report Glossary

CUSIP (Committee on Uniform Securities Identification Procedures) – A unique identification number assigned to all securities.

Security Description - The issuer name, coupon (periodic interest payment rate) and maturity.

Par Value/Units - The face value or number of units held in the portfolio.

Purchase Date - The settlement date on which the security was purchased.

Book Yield - The YTM that equates the current amortized value of the security to its periodic future cash flows.

Cost Value - The value at which the securities were purchased, excluding purchased interest.

Book Value - The value at which an asset is carried on a balance sheet. To calculate, take the cost of an asset +/- net accretion/amortization.

Mkt Price - The current fair value market price.

Mkt YTM – The internal rate of return that equates the periodic future cash flows (interest payments and redemption value) to the market price, assuming that all cash flows are invested at the YTM rate.

Market Value - The current fair value of an investment as determined by transactions between willing buyers and sellers.

Accrued Int. - The interest that has accumulated on a bond since the last interest payment up to, but not including, the settlement date.

% of Port. - The % of the portfolio that the security represents based on market value, including accrued interest.

Gain/Loss – The unrealized gain or loss on the security, compared to either cost or amortized value, as of the date of the report.

Moody - The Moody's rating for the security.

MV00234417

Holdings Report Glossary (continued)

S&P - The Standard and Poor's rating for the security.

Term (yrs) - The time, in years, until maturity.

Duration - The weighted average time to maturity of a bond where the weights are the present values of future cash flows. Duration measures the price sensitivity of a bond to changes in interest rates.

Since 1988, Chandler Asset Management has specialized in the management of fixed income portfolios. Chandler's mission is to provide fully customizable, client-centered portfolio management that preserves principal, manages risk and generates income in our clients' portfolios.

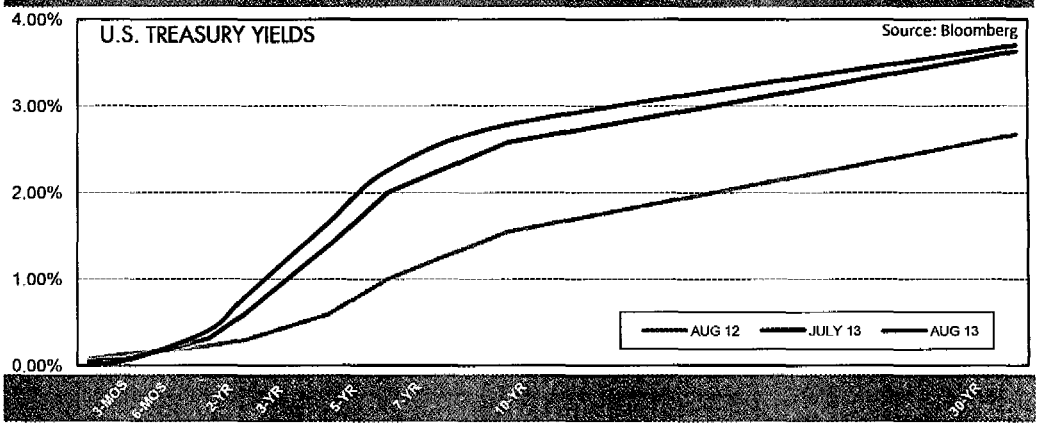
Market Summary

The economy remains on a slow growth trajectory, and the labor market continues to improve modestly. Nonfarm payrolls rose 169,000 in August, which was less than the consensus forecast of 175,000. Average nonfarm payroll growth over the past three months has been about 148,000 per month. The unemployment rate declined to 7.3% from 7.4% due to a decline in the labor participation rate. Overall, the labor market continues to improve at a lackluster pace. Manufacturing and consumer spending trends have been mixed. Housing trends remain generally positive, but there are some signals that rising interest rates could begin to pressure the sector. Meanwhile, geopolitical concerns and uncertainty about Fed policy have continued to create volatility in the financial markets.

There has also been increased volatility in Treasury yields over the past few months. In August, rates generally increased, particularly in the 3-year to 10-year portion of the curve.

The timing of future Fed tapering remains uncertain, but several market participants are expecting the Fed to announce a modest reduction to their bond buying program at the next Federal Open Market Committee meeting on September 18. For the past few months, the Fed has been signaling that changes to the pace of its bond purchases are ahead, but hasn't pinpointed the magnitude or timing of the changes. At its previous meeting in July, the FOMC left the fed funds rate unchanged and we expect the fed funds rate to remain unchanged for at least the next six months. The Fed continues to assure investors that all policy changes will depend on the state of the economy, and that the general thresholds for contractionary policy action are an unemployment rate of 6.5% and/or expectations of 2.5% inflation.

TREASURY YIELDS REMAIN VOLATILE IN AUGUST



There has been increased volatility in Treasury yields over the past few months as Fed policymakers discuss winding down quantitative easing. In August, rates generally increased, particularly in the 3-year to 10-year portion of the curve.

TREASURY YIELDS	8/31/2013	7/31/2013	CHANGE

Economic Roundup

Consumer Prices

In July, overall CPI inflation rose to 2.0% on a year-over-year basis from 1.8% in June. The year-over-year Core CPI (CPI less food and energy) rose slightly to 1.7% from 1.6%. The core inflation rate is still trending below the Fed's long-term goal of 2.0% and remains below the trigger rate for policy action of 2.5%.

Retail Sales

In July, Retail Sales rose 5.4% on a year-over-year basis. On a month-over-month basis, Retail Sales increased 0.2% in July which was slightly below the 0.3% consensus forecast. Overall, recent consumer spending trends have been healthy, but not robust.

Labor Markets

The August employment report was disappointing as payrolls increased by 169,000 versus the 175,000 consensus estimate. The net revisions for job growth in June and July were -74,000. Average nonfarm payroll growth over the past three months has been about 148,000. Private payrolls increased 152,000 in August while government jobs rose 17,000. The unemployment rate declined to 7.3% from 7.4% due to a decline in the labor participation rate. Overall, the jobs report was lackluster.

Housing Starts

Single-family housing starts fell 2.2% in July to 591,000 from 604,000 in June. Meanwhile multifamily starts rose 24.8% in the month. Housing permits rose 2.7% in July. Recent housing data has been mixed, but mostly favorable.

Europe's Nascent Economic Recovery

After six quarters of declining gross domestic product in the euro zone, economic growth finally turned positive in the second quarter of 2013, marking the end of a long recession in the region. Several recent economic data points have also been indicative of improving economic conditions in Europe. Meanwhile, fears of a potential breakup in the euro zone which rattled the financial markets over the past few years have diminished significantly, due in large part to accommodation from the European Central Bank and stabilization in demand. It appears that market participants have become more complacent about Europe as tail risks from a European breakup have dissipated. Many investors are now looking to Europe for undervalued investment opportunities. However, Europe is not completely out of the woods in our view, as core structural economic issues have not been completely resolved and many of the peripheral countries continue to struggle.

RECENT EURO ZONE ECONOMIC DATA (Aggregate data for euro zone member states)
Positive
Industrial output rose 1.1% in 2Q13 (the fastest pace since 4Q10).
2Q13 GDP rose 0.3% (following 6 quarters of declines).
Construction output rose 1% in 2Q13 (the strongest rise since1Q11).
Manufacturing PMI rose to 51.4 in August from 50.3 in July (above 50 indicates growth).
Consumer confidence rose to -15.6 in August from -17.4 in July (better than expected).
Business Climate Indicator rose to -0.21 in August from -0.52 in July (the 4th monthly increase).
Gross fixed capital formation rose 0.3% in 2Q13 from 1Q13.
Exports rose 3% in June from May (seasonally adjusted basis), while imports rose 2.5%.
Government spending rose 0.4% in 2Q13 from 1Q13 (a sign that austerity is easing).
Neutral
CPI remained unchanged at 1.6% year-over-year in July. Core CPI also remained unchanged at 1.1%.
Unemployment remained steady at 12.1% in July (highest in Greece and Spain, lowest in Austria and Germany).
PPI rose to 0.2% year-over-year in July, after rising at a rate of 0.3% in June (slightly higher than expected).
Retail sales declined 1.3% year-over-year in July, but rose 0.1% from June.
Negative
M3 money supply slowed in July to 2.2% year-over-year from 2.4% in June (lower than expected).
Private sector loans declined 1.9% year-over-year in July, faster than the 1.6% decline in June.

While economic data in the euro zone has improved, GDP growth in the region is still lagging behind growth in other parts of the world such as the United States and China. Moreover, improving economic data in the euro zone has also largely been fueled by gains in core nations such as Germany and France. Meanwhile, economic growth in many of the southern peripheral countries such as Cyprus, Greece, Italy, and Spain, has continued to contract and unemployment levels remain unfavorably high. The unemployment rates in Greece and Spain remain well over 20%. Many of the peripheral countries also continue to contend with very high government debt to GDP ratios. At the end of the first quarter, the sovereign debt to GDP ratios in Greece, Italy, Portugal and Ireland were each above 100%.

European Central Bank (ECB) policymakers have made strides toward stabilizing the European economy and tackling the region's debt crisis. They have lowered interest rates (the ECB's benchmark interest rate currently stands at a record low of 0.5%, down from 4.25% in 2008) and provided cheap financing to euro zone banks through the Long-Term Refinancing Operations (LTRO), which launched in December 2011. However, governments are largely expected to maintain their austerity policies, in an effort to curtail their heavy sovereign debt loads. In our view, this means the euro zone is unlikely to see a significant jump in economic growth anytime soon. In addition, the ECB is unlikely to keep its key interest rate low for long, given that its primary mandate is to protect price stability (unlike the Federal Reserve's dual mandate of maximizing employment and price stability). As such, we believe investment downside risks still remain and investors should be selective about their exposure to Europe.

MV00234423

We remain particularly cautious about many European banks, which are still working to implement stricter capital requirements. The euro zone is also still in the early stages of developing a banking union in which the ECB and national supervisory authorities will jointly assess the health of systemically important banks. European leaders are taking steps in the right direction, but structural reforms take time to implement.

Nevertheless, we believe improving economic conditions in Europe could be a tailwind for corporate earnings in the second half of 2013. Economists at BCA Research estimate that corporate operating earnings in the euro zone could rebound meaningfully by the end of this year. They believe the catalysts for improvement in corporate profits will be a decline in borrowing and labor costs, as well as a reduction in government fiscal austerity.

We believe earnings upside exists not only for European-based corporations, but also for U.S.-based multinationals. Whereas Europe has been a weak spot for many corporations (such as Ford, Staples, and Coca-Cola) over the past year, we believe improving economic fundamentals in Europe could contribute to positive earnings surprises for these companies in coming quarters.

RISKS AND OTHER IMPORTANT CONSIDERATIONS
This report is provided for informational purposes only and should not be construed as specific investment or legal advice. The information contained herein was obtained from sources believed to be reliable as of the date of publication, but may become outdated or superseded at any time without notice. Any opinions or views expressed are based on current market conditions and are subject to change. This report may contain forecasts and forward-looking statements which are inherently limited and should not be relied upon as an indicator of future results. Past performance is not indicative of future results. This report is not intended to constitute an offer, solicitation, recommendation or advice regarding any securities or investment strategy and should not be regarded by recipients as a substitute for the exercise of their own judgment.

Fixed income investments are subject to interest, credit, and market risk. Interest rate risk: the value of fixed income investments will decline as interest rates rise. Credit risk: the possibility that the borrower may not be able to repay interest and principal. Low rated bonds generally have to pay higher interest rates to attract investors willing to take on greater risk. Market risk: the bond market in general could decline due to economic conditions, especially during periods of rising interest rates.

MORENO VALLEY
WHERE DREAMS SOAR

CITY COUNCIL
MORENO VALLEY
RECEIVED
13 AUG 28 PM 4:39

Financial & Management Services Department

MEMORANDUM

To: Mayor and City Council
Michelle Dawson, City Manager

From: Rick Teichert, Chief Financial Officer/City Treasurer

Date: August 27, 2013

Subject: Monthly Investment Report – July 2013

Attached is the Monthly Investment Report (Treasurer's Cash and Investments Report) for the month ended July 31, 2013. All investments comply with California Government Code Section 53601 as to the types of investments allowed and the limits of each type. In addition, all investments comply with the City's annually adopted Investment Policy.

The investments managed by Chandler Asset Management totaled $147,301,329 and achieved a Yield to Maturity (YTM) for July 2013 of 1.29%. This compares to a YTM in June 2013 of 1.25% and a YTM in July 2012 of 1.31%. In addition, the City maintained $8,901,042 in the State Local Agency Investment Fund Pool with a YTM of 0.24%.

Rates of return on fixed income investments continue to remain soft. The fixed income market has experienced significant volatility as the Fed discusses the wind down of the qualitative easing policies. We have seen a slight increase in rates for both the very short-term and the long-term rates while intermediate-term rates have declined slightly. The City portfolio trades in the short-term range of the yield curve.

The June 2013 Quarterly Investment Report is scheduled to be presented at the City Council meeting on September 10. Submitting this July 2013 Monthly Investment Report by internal memorandum ensures that the Council and City Manager are kept apprised of the City's investments between the regular quarterly reports.

Please contact me (951-413-3024) or Brooke McKinney (951-413-3077) with any questions.

Holdings Report Glossary

CUSIP (Committee on Uniform Securities Identification Procedures) – A unique identification number assigned to all securities.

Security Description - The issuer name, coupon (periodic interest payment rate) and maturity.

Par Value/Units - The face value or number of units held in the portfolio.

Purchase Date - The settlement date on which the security was purchased.

Book Yield - The YTM that equates the current amortized value of the security to its periodic future cash flows.

Cost Value - The value at which the securities were purchased, excluding purchased interest.

Book Value - The value at which an asset is carried on a balance sheet. To calculate, take the cost of an asset +/- net accretion/amortization.

Mkt Price - The current fair value market price.

Mkt YTM – The internal rate of return that equates the periodic future cash flows (interest payments and redemption value) to the market price, assuming that all cash flows are invested at the YTM rate.

Market Value - The current fair value of an investment as determined by transactions between willing buyers and sellers.

Accrued Int. - The interest that has accumulated on a bond since the last interest payment up to, but not including, the settlement date.

% of Port. - The % of the portfolio that the security represents based on market value, including accrued interest.

Gain/Loss – The unrealized gain or loss on the security, compared to either cost or amortized value, as of the date of the report.

Moody - The Moody's rating for the security.

MV00234434

Holdings Report Glossary (continued)

S&P - The Standard and Poor's rating for the security.

Term (yrs) - The time, in years, until maturity.

Duration - The weighted average time to maturity of a bond where the weights are the present values of future cash flows. Duration measures the price sensitivity of a bond to changes in interest rates.

Who's Next? Filling. 3
The Chair at the Fed

Since 1988, Chandler Asset Management has specialized in the management of fixed income portfolios. Chandler's mission is to provide fully customizable, client-centered portfolio management that preserves principal, manages risk and generates income in our clients' portfolios.

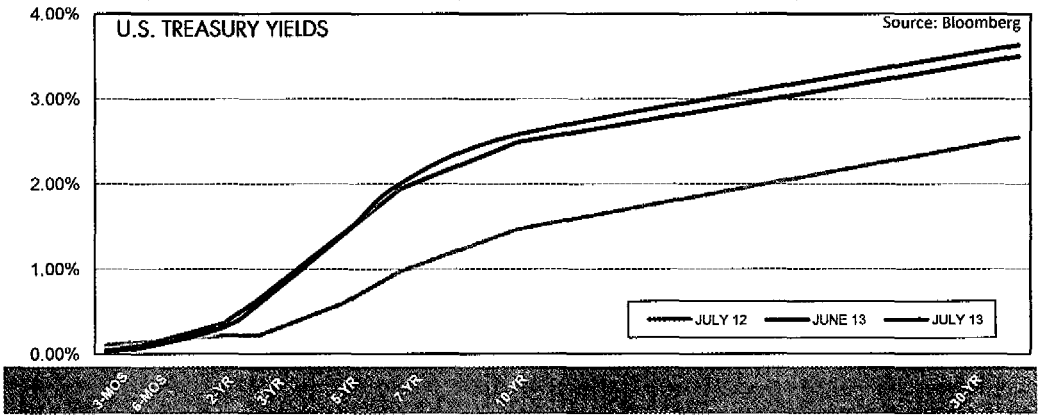
Market Summary

The economy continues to grow at a slow pace driven by modest improvement in the labor market. Nonfarm payrolls rose 162,000 in July, which was less than the consensus forecast of 175,000. Average nonfarm payroll growth over the past 3 months has been about 175,000 per month. The unemployment rate declined to 7.4% from 7.6%. Overall, the jobs report for July was weak, but the labor market continues to improve. Meanwhile, manufacturing trends have been showing positive momentum over the past few months. Housing trends also remain favorable, but there are some early signals that the recent jump in interest rates is beginning to pressure homebuyers.

There has been increased volatility in Treasury yields over the past few months as Fed policymakers discuss winding down quantitative easing. In July, intermediate-term rates declined while very short- and longer-term rates increased.

The Federal Open Market Committee left policy rates unchanged at its July 30-31 meeting and did not announce any changes to the pace of its bond purchases. The Fed continued to assure investors that policy changes will be data dependant and that the general thresholds are an unemployment rate of 6.5% and/or expectations of 2.5% inflation. The Fed slightly downgraded its view of the economy by stating that "economic activity expanded at a modest pace" versus the June statement that "economic activity expanded at a moderate pace." There was no press conference after the release of the July FOMC statement, leaving market participants to continue speculating about the timing of future Fed tapering. The Fed has signaled that changes to the pace of its bond purchases are ahead, but the timing and magnitude remain uncertain and will depend on the economy.

VOLATILITY IN TREASURY YIELDS HAS INCREASED IN JULY



There has been increased volatility in Treasury yields over the past few months as Fed policymakers discuss winding down quantitative easing. In July, intermediate-term rates declined while very short- and longer-term rates increased.

TREASURY YIELDS	7/31/2013	6/30/2013	CHANGE
3 Month	0.04	0.03	0.01
2 Year	0.31	0.36	(0.05)
3 Year	0.59	0.65	(0.06)
5 Year	1.38	1.40	(0.02)
7 Year	2.00	1.94	0.06
10 Year	2.58	2.49	0.09
30 Year	3.64	3.50	0.14

Economic Roundup

Consumer Prices

In June, overall CPI inflation rose to 1.8% on a year-over-year basis from 1.4% in May. The year-over-year Core CPI (CPI less food and energy) declined slightly to 1.6% from 1.7%. The core inflation rate is trending below the Fed's long-term goal of 2.0% and remains below the trigger rate for policy action of 2.5%.

Retail Sales

In June, Retail Sales rose 5.7% on a year-over-year basis. On a month-over-month basis, Retail Sales increased 0.4% in June which was below the +0.8% consensus forecast. Overall, recent consumer spending trends have been healthy.

Labor Markets

The July employment report was disappointing as payrolls increased by 162,000 vs. the 175,000 consensus estimate. The net revisions for job growth in May and June were negative 26,000. Average nonfarm payroll growth over the past three months has been about 175,000. Private payrolls increased 161,000 in July while government jobs rose 1,000. The unemployment rate declined to 7.4% from 7.6%. Overall, the jobs report was somewhat weak.

Housing Starts

Single-family housing starts fell slightly in June to 591,000 from 596,000 in May. Meanwhile, multifamily starts dropped 26.2% in the month. Housing permits also declined in June by 7.5% after falling 2.0% in May. Recent housing data has been generally favorable, but the most recent housing starts report was disappointing.

Credit Spreads Tightened in July

CREDIT SPREADS	Spread to Treasuries (%)	One Month Ago (%)	Change
3-month top-rated commercial paper	0.12	0.13	(0.01)
2-year A corporate note	0.63	0.71	(0.08)
5-year A corporate note	0.77	0.86	(0.09)
5-year Agency note	0.26	0.24	0.02

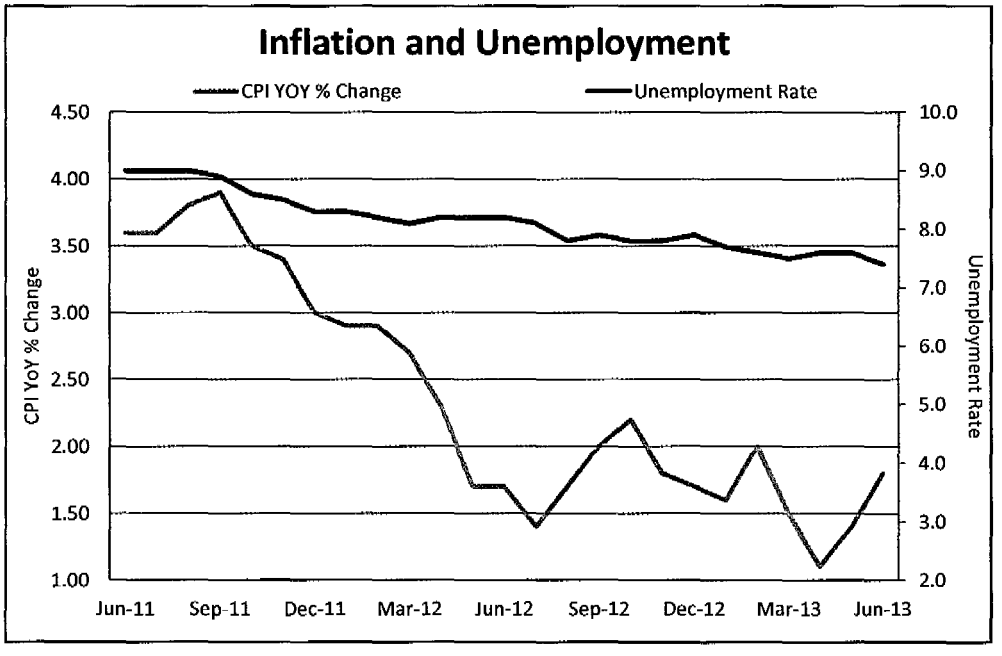
Who's Next? Filling the Chair at the Fed

The term of current Fed Chair Ben Bernanke ends January 31, 2014. The President has said he is likely to make an appointment of the new Chair this fall; an appointment that will have to be vetted and consented to by Congress. There has been considerable analysis and opinion in the financial and political press of late about who will succeed Bernanke as Chairman of the Federal Reserve. Mr. Bernanke, who has led the Fed since 2006, began a welcome policy of transparency regarding Fed thought and actions, for which he will long be remembered. Perhaps higher in the ranks of current thinking about his tenure, is that he imposed the drastic monetary policies known as "Quantitative Easing," QEs 1 through 4, which have worked well to bring the US out of the financial meltdown of 2008 and the "Great Recession" of 2007-2009. Since that time, the unemployment rate has gone from a high of 10% in October 2009 to its July 2013 level of 7.4%, while inflation has remained in check, as the chart on the right shows.



Like most seemingly successful strategies, QE came at a price—the expansion of the Fed's balance sheet. The mechanism for implementing QE was the Fed's purchase of an immense amount of US Treasury and mortgage debt. The goal was to take so much of the supply of high quality debt out of the market that scarcity would bring prices higher, and concomitantly bring interest rates down. The low interest rates would then stimulate borrowing and help bring the economy back from the brink. Furthermore, extremely low rates on high quality fixed income debt created significant demand for higher "beta", *i.e.*, riskier, asset classes. As these riskier asset classes, primarily equities and foreign debt, increased in value, consumer balance sheets (particularly IRAs and other retirement savings accounts) began to look much stronger. The net effect was that consumers, with a cushion of savings and normalizing home prices began to feel comfortable spending again.

We have shown the Fed balance sheet several times before in our Newsletter, but let us look at it again on the next page.

Fed assets jumped vertically from less than $1 billion to almost $2.5 billion as the crisis began to unfold in 2008. After the initial leap until the present time, assets continued to climb, albeit more gradually, to the current level of approximately $3.5 billion.

Most market observers believe (and hope!) that over the next few years, the economy will continue to expand, perhaps even at an accelerated pace, and that inflation will remain contained. If the future unfolds in that way, the main focus of the new Fed Chair is likely to be the controlled unwinding of QE. The period of QE unwinding is likely to be both delicate and treacherous. The Fed's twin mandates of full employment and constrained inflation can be at odds, and thus difficult to achieve during the expected unwinding of QE over the next few years.

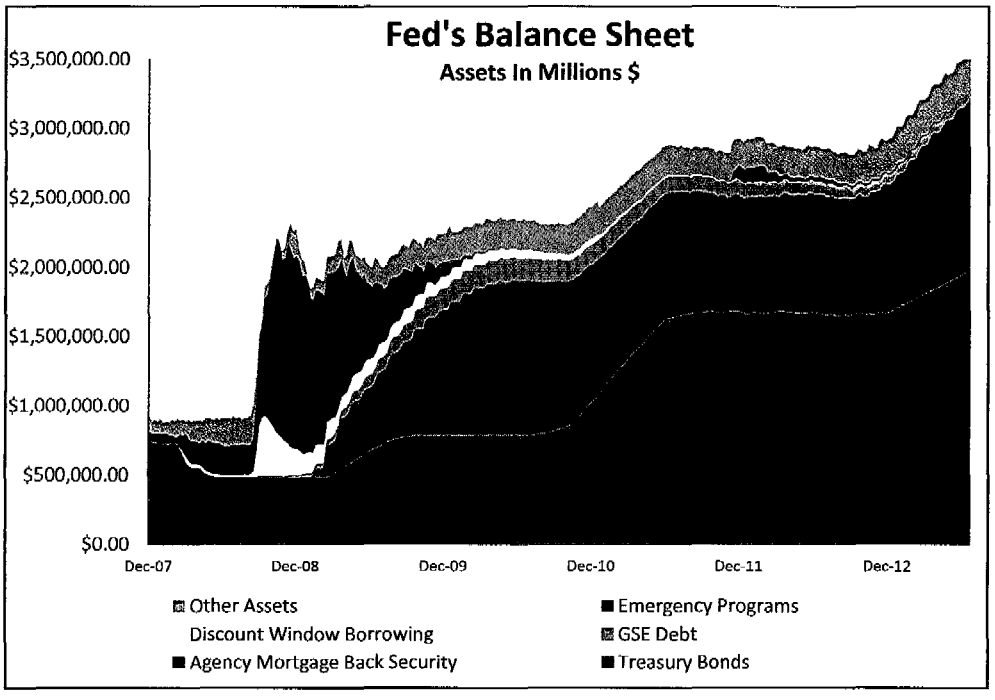
Given that critical task, who might be the best candidate to lead the Fed next?

Janet Yellen

At this point in the process, the clear leader among market prognosticators is Janet Yellen.

MV00234440

Dr. Yellen is an experienced economist and a veteran at the Fed. She earned her PhD in economics at Yale in 1971 and taught at Harvard University before becoming an economist at the Fed. Since 1980, she has taught macroeconomics to MBA students and done research at UC Berkeley. She served as Chair of President Clinton's Council of Economic Advisers for two years, and was Chair of the Federal Reserve Bank of San Francisco and a voting member of the Federal Open Market Committee (FOMC). She currently serves as a Fed Governor and as Vice-Chair of the Federal Reserve System.



Yellen has been seen as a Fed "Dove," meaning that she is more concerned with unemployment than with price stability. She might be slower to reverse QE than other candidates for the job; perhaps boosting employment while risking higher inflation. Still, in recent years, she has made more balanced statements and is highly regarded within the Fed.

Lawrence Summers

The second major contender is Lawrence Summers, former Treasury Secretary under President Obama, as well as Obama's Director of the National Economic Council. He is somewhat more outspoken than Yellen and is viewed as provocative, or even polarizing. His credentials for taking on the Chairmanship include his work as an economic adviser and Treasury secretary under President Clinton, and his close relationship with President Obama as an adviser. Currently, he seems to be more constructive than Yellen about US near-term economic prospects. Market fears around Summers may be geared more to an unwinding of QE that is too quick, thus presenting a risk to economic growth.

The Field

Other possible candidates include **Donald Kohn**, a 40-year veteran of the Fed; **Roger Ferguson**, an Obama adviser and Chair of the bank supervision committee of the FOMC; **Christina Romer**, another Obama economic adviser; **Alan Blinder**, former Vice-Chair of the FOMC; **Tim Geithner**, former Treasury Secretary and President of the New York Fed; and, finally, **Ben Bernanke** himself—the current Chair and father of QE may be the best person to undo QE.

The next Chairman of the US Federal Reserve, whoever it may be, will face the challenge of developing monetary policies that will invigorate a US economy that is tepid now, and maintain inflation at an acceptable level, while, at the same time, unwinding the Quantitative Easing that is one of the hallmarks of Ben Bernanke's tenure as Fed Chair.

- Kay Chandler, CFA
President

RISKS AND OTHER IMPORTANT CONSIDERATIONS
This report is provided for informational purposes only and should not be construed as specific investment or legal advice. The information contained herein was obtained from sources believed to be reliable as of the date of publication, but may become outdated or superseded at any time without notice. Any opinions or views expressed are based on current market conditions and are subject to change. This report may contain forecasts and forward-looking statements which are inherently limited and should not be relied upon as an indicator of future results. Past performance is not indicative of future results. This report is not intended to constitute an offer, solicitation, recommendation or advice regarding any securities or investment strategy and should not be regarded by recipients as a substitute for the exercise of their own judgment.

Fixed income investments are subject to interest, credit, and market risk. Interest rate risk: the value of fixed income investments will decline as interest rates rise. Credit risk: the possibility that the borrower may not be able to repay interest and principal. Low rated bonds generally have to pay higher interest rates to attract investors willing to take on greater risk. Market risk: the bond market in general could decline due to economic conditions, especially during periods of rising interest rates.

MORENO VALLEY
WHERE DREAMS SOAR

City Manager's Office

MEMORANDUM

To: Mayor and Members of the City Council, Council-Elect

From: Michele Patterson, Assistant to the City Manager

Date: December 3, 2012

Subject: Squatters Remedies in Moreno Valley - Executive Summary

The City has recently received attention from Press Enterprise (PE) representatives Lora Hines and Dan Bernstein on the topic of residential squatters in Moreno Valley. This Executive Summary is intended to correct some misinformation.

ARE THE PRESS ENTERPRISE'S COMMENTS TRUE? Both Hines and Bernstein claim that other cities have been pro-active against squatters but Moreno Valley hasn't. This is NOT true. In reality, Moreno Valley established an effective program early and the Press Enterprise even published the attached articles in 2008 and 2009 praising the program's success. Other cities have adopted unnecessary, feel-good programs that generate a little revenue but don't really address the squatter problem.

Unfortunately, the PE is currently confusing two separate issues: vacant bank-owned property registration ordinances by which some cities address code compliance violations in foreclosed properties vs. unauthorized occupancy of vacant residential units (squatting).

The Moreno Valley City Council has considered both issues and rightly recognized that:

1. VACANT PROPERTY REGISTRATION: Existing State Law and the Municipal Code (Chapter 6.04 – Abatement of Public Nuisances, adopted by Ordinance 772 in 2008 and found on the website at http://qcode.us/codes/morenovalley/) provide all the authorization needed to enforce property maintenance regulations.

   Vacant / foreclosed residential properties sometimes become public nuisances. The Municipal Code defines public nuisances in detail and provides authorization for enforcement activities. In general, public nuisances include:
   - Buildings / pools / landscaping that is not maintained.
   - Properties that are an open / accessible / attractive nuisances.

   Cities that have adopted vacant property registration ordinances require banks to submit contact information for all foreclosed / abandoned properties and pay a nominal annual registration fee (in the range of $70 - $150). These ordinances do

not address trespass / squatter issues but provide cities with contact information in the event there are code enforcement violations. Instead of adopting something similar, Moreno Valley utilizes DataQuick, RealQuest, Lane Guide, Spokeo, and the Mortgage Electronic Registration System ("MERS" - www.mersinc.org) to gain the same information.

Recognizing the negative impact of foreclosures to Moreno Valley neighborhoods' / residents' quality of life, the City Council approved the creation of a Foreclosure Strike Team in 2008. The Foreclosure Strike Team responds to complaints and works with banks to enforce State Law and the Municipal Code's existing property maintenance requirements. Moreno Valley, through the Code & Neighborhood Services, Building & Safety, and City Attorney offices, has aggressively enforced public nuisance violations using the authority granted in the Municipal Code to rehabilitate and secure more than 2,000 bank-owned, vacant and deteriorating homes in the past four years, all at the banks' expense. In addition, by utilizing the fines allowed under Senate Bill 1137 (up to $1,000-per-day-per-violation), Moreno Valley's program has not only been more successful than those of other cities described in the recent PE articles but also generated sufficient revenue to be self-sustaining.

2. TRESPASS / UNAUTHORIZED OCCUPANCY OF RESIDENTIAL UNITS: Trespassers (squatters) can be removed when identified through "Trespass Letters" submitted in advance by the property owners to the Moreno Valley Police Department (MVPD). If people are found occupying a property for which the owner has submitted a Trespass Letter, the MVPD may remove them.

In addition, the Municipal Code declares that properties without utility services (water, sewer, heat, and electricity) may not be occupied. If people are found inside a building without utilities, the Building Official has the authority to remove them. However, if people establish utility service, the property becomes habitable. If the owner has not already submitted a Trespass Letter to the MVPD, the owner must utilize the Unlawful Detainer eviction process to remove them. According to State and Federal Fair Housing Laws, if the squatter refuses to comply, enforcement is a civil, landlord-tenant dispute matter, handled through the courts.

Upon property owner request, Code & Neighborhood Services staff members work with Moreno Valley Electric Utility (MVU) to prevent new utility service connections on vacant homes. Unfortunately, Southern California Edison has so far refused to honor hold requests, so only properties within MVU territory have been eligible for this service.

DOES THE PRESS ENTERPRISE ACCURATELY DESCRIBE THE MAGNITUDE OF PROBLEM? It appears that the Press Enterprise has overstated the magnitude / urgency of the squatter issue in Moreno Valley. The Bernstein article quotes a resident who claims 60 squatters have moved into properties in the Celebrations Homeowners' Association (HOA) alone. While not insignificant, the reality is that MVPD's Problem Oriented Policing (POP) Team reports they have worked on just 28 properties throughout the entire City during 2012.

Publication of the PE articles came after Robin Gilbert, the president of the Celebrations HOA expressed dissatisfaction with the City's responsiveness to his complaints. An interdepartmental team of staff from Code & Neighborhood Services, MVPD, and the City Attorney's offices have worked with Mr. Gilbert to remove squatters from properties in Celebrations HOA. However, Mr. Gilbert also seeks City adoption of an ordinance that the City Council declined in September 2012.

ARE THE MORENO VALLEY STAFF MEMBERS WHO RESPOND TO SQUATTER ISSUES TRAINED AND COMPETENT? The Press Enterprise articles quotes Assistant Riverside County District Attorney Rick Majchrzak, who describes the training programs his office provides to police departments regarding squatter identification and housing scams. The article implies that Moreno Valley isn't doing a good job because MVPD officers have not contacted his office for training. The article fails to mention that Moreno Valley contracts with the Riverside County Sheriff's Department or that the other cities mentioned operate their own police departments. As a division of the Riverside County Sheriff's Department, MVPD's POP Team officers have received extensive training on squatter identification, housing scams, and on their authority to enforce Trespass laws. When a property likely to house potential squatters is identified, MVPD deputies have the knowledge and skill to perform the extra investigation and enforcement actions to respond appropriately to the problem.

FOR A COMPREHENSIVE DISCUSSION OF VACANT PROPERTY REGISTRATION AND TRESPASS ISSUES, please refer to the audio recording from the Moreno Valley City Council Study Session on September 18, 2012 which can be found on the City's website at www.moreno-valley.ca.us/city_council/agendas-sire.shtml. Third on the agenda, the topic discussion began at approximately 1 hour 10 minutes into the meeting.

In addition, the Community & Economic Development Department provided a report on the issue in the City Manager's Update dated 11/13/12. This report can be found on the City's website at www.moval.org/city_hall/departments/city_mgr-update.shtml on page 5.

Cases opened on 680 foreclosures // MORENO VALLEY: Banks and others face misdemeanor court sanctions for failing to maintain the properties.

October 31, 2008

By DAN LEE THE PRESS-ENTERPRISE
{SOURCE:+}

MORENO VALLEY

City officials have created a strike team dedicated solely to citing banks and property owners for not maintaining foreclosed homes, a process that sometimes has resulted in criminal prosecutions.

The wave of foreclosures that has swept the Inland area has hit Moreno Valley hard, leaving empty homes and dead lawns that blight neighborhoods and lower property values.

Unattended swimming pools become breeding grounds for mosquitoes while vandals break in to steal anything that's left in the homes.

"They're disassembling the air conditioner to get the copper wiring," city code compliance Officer **Lori Miller** said.

In July, the city created a strike team of code and building inspectors, including Miller, to deal with the poorly maintained properties. The team has opened code violation cases on about 680 foreclosed homes in Moreno Valley.

Some banks cooperate, but city officials have started misdemeanor criminal prosecutions against banks controlling 110 homes for failing to obey city nuisance abatement laws.

They also have placed liens against the properties, saying the homes are not up to code.

If convicted, the banks could be subject to a $1,000 fine per violation, potentially every day the condition exists, said Deputy City Attorney Paul Early.

Mike Novak-Smith, a local real estate agent, said he thinks that criminal prosecution is "a little extreme."

Most banks cooperate because they understand that maintaining a house helps the sales price and avoids fines, he said.

"When you can pay $500 to $600 on grass seed, why would you want to pay a $3,000 fine?" Novak-Smith asked by phone.

But the prosecutions and liens seem to be the only way to get banks to deal with the homes, Early said.

"Most lenders won't loan money when a lien is recorded on the property," he said by phone. "It makes it difficult to purchase the property."

MV00234454

Many of the foreclosures are in relatively new tracts in the southern and eastern parts of Moreno Valley.

On Clydesdale Lane, city officials have opened code violation cases on more than 30 foreclosed homes, Miller said.

Most of the mainly two-story houses were built in 2004 and are up to 3,600 square feet, she said.

In addition to dead vegetation, signs of neglect include advertising in yellow wrappers on driveways, a snail stuck to the doorbell button, unsecured doors, campaign fliers, and even business cards for landscaping services stuck in doors.

Gelding Way homeowner James Vega has one foreclosed house next door to his home and another across the street.

The house next door has dropped in price from $530,000 to $229,000 in about 18 months, the licensed real estate appraiser said.

Real estate agents are overwhelmed, Vega said.

"They have way too many properties to deal with," he said.

City officials also are trying to deal with the foreclosure problem on other fronts.

Moreno Valley has received about $11.4 million in neighborhood foreclosure stabilization funding from the U.S. Department of Housing and Urban Development. It's the fourth-largest amount awarded to any California city, behind only Los Angeles, Sacramento and Stockton, according to HUD.

City Economic Development Director Barry Foster said the city plans to use the funding to create a first-time homebuyer program for foreclosed properties; help developers buy and rehabilitate repossessed homes; and help nonprofit housing organizations repair repossessed apartments.

"The goal is to get the foreclosed homes back on the market as quickly as possible and occupied again," Foster said by phone.

The City Council also allocated $15,000 earlier this year to start a program offering assistance and counseling to those at risk of or already in foreclosure.

`Attacking foreclosures'

September 20, 2009

By LAURIE LUCAS THE PRESS-ENTERPRISE {SOURCE:+}

Lori Miller's and **Patty Posey**'s enemies are derelict homes, dead grass, rusting fountains, neglected pools and littered lawns that blight Moreno Valley and lower its property values.

They're code compliance officers, dedicated to citing banks and property owners for neglecting residences. Since the city launched its foreclosure strike team in July 2008, Miller and Posey have helped open 1,420 cases.

When a property is foreclosed on, ownership reverts to the lender, who is legally obligated to keep up the property. Most lenders cooperate and comply with citations for violations, said Al Brady, an official with the city's code and enforcement services.

When warnings fail, Deputy City Attorney Paul Early pursues the lenders in Riverside County Superior Court.

As a result, Brady said, in 14 months the city has collected $200,000 in fines and significantly reduced the number of substandard properties.

"We're definitely pleased," Brady said. "Our aggressive policy and compliance with the city attorney's office has established a tone for attacking foreclosures.

"Unfortunately, new ones keep coming," he said.

Budget cuts in March have exacerbated the problem, cutting the number of full-time officers from three to two. They handle between 3,000 and 3,500 foreclosures, in addition to other code infractions.

"It's overwhelming," Posey said. "Lori and I each have over 400 foreclosure cases."

A more manageable, "normal" load would be 120 to 150 cases apiece, she said.

Thus Miller, 49, of Romoland, and Posey, 42, of Riverside, have designated every Wednesday as "foreclosure day."

ON THE PROWL

On a recent one, they trolled neighborhoods separately in their white Ford Ranger pickups, ready to pounce on parched lawns and withered vegetation.

They usually select the newer tracts plagued by foreclosures in the southern and eastern parts of Moreno Valley.

"We've addressed 75 percent of the city," Brady said.

But every time the team returns for follow-ups, they discover a dozen new cases have popped up.

MV00234456

That was precisely the situation when they revisited Clydesdale Lane, where they've opened code violation cases on more than 30 foreclosed homes, Miller said.

In this neighborhood of horse-themed streets, developers built most of the two-story homes between 2004 and 2006. These large abodes that once fetched from $500,000 to $600,000 sprawl up to 3,600 square feet with three-car garages.

"This one will get maybe $180,000," Miller said as she breezed through an unlocked house on Mare Lane that the owners walked away from, leaving kitchen and living room curtains.

She and Posey, both dressed in jeans and sweat shirts, lingered less than three minutes at each property. The goal is to whip through as many foreclosures as possible without sacrificing other code enforcement duties. Sometimes they'll return for reinspections three and four times.

The duo said they've encountered only three squatters. The chief headaches are graffiti, vandalism and theft, especially of copper wire in backyard air-conditioning units.

GOING AFTER OWNERS

The foreclosures, desolate still lifes with brown yards, are easy to spot. What's harder to find is a phone number to contact the lender or property owner.

"It's like pulling needles out of a haystack, the whole process of whom to cite," Posey said as she copied information from the bank foreclosure notice in the window.

When the officers find a poorly maintained property, they record and place a lien against it, specifying that the house is not up to code and requiring repair work within 30 days.

Most banks cooperate because swift maintenance attracts buyers and avoids fines, Brady said.

Miller and Posey revisit the cited homes to check on restored landscaping. The first two inspections are free, but the lender is charged $181 for each subsequent visit.

If the lender ignores the violations, Early files misdemeanor criminal charges for failure to obey the city's nuisance abatement laws.

He gives the lender two weeks to contact him. They typically ignore him.

"They almost never respond till we're in court," Early said. "They hope to sell the property before they have to do anything, but the liens inhibit the sale."

If convicted in misdemeanor criminal prosecutions, banks could be subject to a $1,000 fine per violation per day, potentially every day the blight exists, according to law. But Early considers that excessive and said he has never imposed it.

As an alternative, the court fines lenders $1,000 per count and a penalty assessment close to $3,000.

The foreclosure team will be in business for awhile, spurred by people out of work and subprime loans due to reset soon, Brady said.

Between now and 2011, experts expect a wave of another 8 million foreclosures to hit the nation.

Melinda Johnston
23934 Cedar Creek Terrace
Moreno Valley, CA 92557

Dear Ms. Johnston,

First of all, thank you for taking the time and effort to write your letter commending Animal Care Technician Johnny Dunn and one of our Animal Shelter volunteers, Erika Saunders, for the service they provided you with the adoption of a new pet from the Moreno Valley Animal Shelter. I am pleased that Mr. Dunn and Ms. Saunders were able to assist you with finding the right pet as a new family member.

With respect to Mr. Dunn, I am writing him a letter personally commending him for his professionalism and providing excellent customer service. A copy of that letter will also be provided to his Director and Division Manager. At Mr. Dunn's discretion, a copy of that letter will be placed in his personnel file as well.

The value of our City volunteers is highlighted by your comments regarding Erika Saunders. Our organization appreciates the services provided by our volunteers who willingly donate their time and talent to improve the quality of life for Moreno Valley residents. I am also writing a letter to Ms. Saunders commending her for her valuable service to the community.

I can assure you that as City Manager I am grateful when we receive favorable comments about the professional services provided by our City employees and volunteers. Your letter is certainly appreciated by the Animal Services Division, and will help to inspire other employees and volunteers.

Sincerely,

Henry T. Garcia
City Manager

Moreno Valley, CA 92557

Subject: **Translation Services at Council Meetings**

Dear Ms. Baca:

As a follow up to our meeting, City staff has been researching your request for Spanish translation services at the Moreno Valley City Council meetings. We have determined that the City is not legally required to provide this service, however it is still City practice to translate public comments at the Council meetings when a request is made in advance.

You indicated that the law requires the City to provide translation services. In our research we found no law, including the Dymally-Alatorre Bilingual Services Act, which requires a local agency to provide translation or interpreter services. If there is a specific section of any law with which you believe the City is in violation please let me know and I will ask the City Attorney to review.

The City currently provides the following translation services:

- The City's website, www.moval.org, is the best place to find information about City services and programs. With the use of the Google Translate button located on the web site, the City's web pages can be translated into 65 different languages.
- Numerous City publications are available in Spanish, including the registration materials for our Parks and Community Services programs and the Moreno Valley Public Library's online catalog. These are among the most popular programs provided by the City of Moreno Valley.
- Many of our neighborhood preservation materials are provided in both English and Spanish. This includes affordable housing and foreclosure prevention materials.
- We maintain a language translation service comprised of bilingual City staff ready to assist anyone that calls the City and requests this service.

Again, the City is willing to accommodate requests for translation for residents wishing to speak before the City Council at our meetings. This requires a request in advance in order that we can schedule a bilingual staff member to attend the night meetings.

12 MAY -1 PM 4:48

April 19, 2012

Charles R. Hoppin, Chair
State Water Resources Control Board
1001 I Street, Sacramento, CA 95814

Subject: **Health, Safety & Welfare Issues Related to Box Springs Mutual Water Company**

Dear Chairman Hoppin:

The purpose of this letter is to request your assistance on behalf of the Moreno Valley residents served by the Box Springs Mutual Water Company (BSMWC).

Moreno Valley is home to a private, nonprofit water company that serves approximately 3,300 people in the area of the community known as Edgemont. Much of BSMWC's water system is critically deteriorated. The entire water system infrastructure (pipelines, reservoir and booster station) is desperately inadequate and needs to be replaced. Furthermore, private development and basic publicly-funded street improvements in this economically distressed area of our community cannot occur due to the inadequacy of the water system. Most recent estimates on upgrading the water system to an adequate standard project a cost of $15 million.

In addition to infrastructure challenges, BSMWC's leadership is experiencing political turmoil. On March 21, 2012, the BSMWC shareholders ousted the entire Board; the former General Manager has been arrested on charges of embezzling $784,000 and spending it on gambling and cruises; and the Press-Enterprise newspaper reported this week that the interim board members indicate that the company currently has less than $120,000 in the bank.

Of primary concern to me as the City Council representative to District 5, which includes Edgemont and BSMWC's service area, is the fact that the existing system is hydraulically incapable of meeting the City's minimum fire flow requirements. It is capable of less than 1,000 gpm @ 20 psi for fire suppression; the required City fire flow

ranges from 1,500 gpm @ 20 psi to 4,000 gpm @ 20 psi. I am gravely concerned for the safety of our residents and our fire protection personnel in case of fire in this area.

The City of Moreno Valley has made numerous overtures to BSMWC, attempting to assist in some way to identify funding for the necessary system upgrades and/or to help negotiate for one of the two large, stable water districts in our area to absorb BSMWC. Unfortunately for our residents, we have been unsuccessful in these attempts. Considering the inadequate fire flow, the deteriorated infrastructure, and the level of instability and dysfunction that currently exists at BSMWC, I implore the State to take immediate action to step in and assist with this situation on behalf of the health, safety, and welfare of our residents.

Please don't hesitate to contact me if you need additional information. I thank you in advance for your assistance.

Sincerely,

William H. Batey II

Perris, CA 92572-8300

Subject: Shared Benefit of EMWD Facilities in Cactus Avenue/Nason Street Improvement Project
City Project No. 12-12599520

Dear Mr. Jones:

This week, the City has begun advertising of construction bids for the Cactus Avenue/Nason Street Improvement Project, which is part of the City's Economic Development Plan. With the economy starting to improve, the City is providing a positive economic stimulus to facilitate job creation by upgrading the strategic business corridor of Cactus Avenue from Lasselle Street to Nason Street and Nason Street from Cactus Avenue to Iris Avenue. As noted on the attached location map, Cactus Avenue and Nason Street are located in the City center, close to major medical facilities, the community college, the Auto Mall, several shopping centers, and a large number of the newer housing developments in the community.

The improvements on Cactus Avenue and Nason Street are expected to cost approximately $20.5 million. In general, the improvements are anticipated to include curb, gutter, street pavement reconstruction and widening, street lights, sidewalk, 12-inch, 18-inch, and 24-inch domestic water, 21-inch, 24-inch, and 42-inch sanitary sewer, 12-inch reclaimed water and master planned storm drain improvements, traffic signal work, and a bridge along Nason Street over flood control channel Line F. It is always more cost effective to install all underground utilities during the time of initial construction, however, due to a budgetary shortfall, the City does not anticipate having sufficient funding to provide for the ultimate expansion of all the utilities/infrastructures without some assistance from the utility companies.

The street improvements will enhance traffic flow to commercial areas and will ease commutes for residential areas in Moreno Valley Ranch and the southerly section of the community. Currently, Moreno Valley College, Kaiser Permanente's Community Hospital, and Riverside County Regional Medical Center have plans to expand or have started construction of their expansion. With the continued growth of the area, there will be a need for EMWD to update, expand and advance its facilities. The City believes that the proposed EMWD infrastructure for

MV00234466

this project will also enhance the hydraulic efficiencies of its existing system to the current and future customers. It is estimated that approximately $2.4 million of this project is EMWD related costs. Postponing the construction of EMWD facilities to a future date could cost as much as $5 million in overall construction costs due to depth of trenching, street pavement repair cost, and loss of opportunity cost in the larger project economics of scale benefit. Therefore, the City believes that this is an opportunity for EMWD to save the public's future cost while strategically placing yourselves as economic development partners by funding its infrastructure at this time. The City believes that EMWD will be able to recoup the cost of the investment as part of the fees it will collect from the future development that this project will generate.

The bid opening for this project will occur in February 2012 and construction is anticipated to take 14 months to complete. The City has completed the plans in accordance with EMWD requirements and prepared the bid schedule to identify EMWD's infrastructure costs separately.

A response by **January 31, 2012** to the City's request for assistance with funding of the EMWD's facilities would be appreciated. This date is critical for the City to be able to guarantee the installation of EMWD's facilities in conjunction with the roadway construction.

Colonel Mary E. Aldrian
Commander, 452d Air Mobility Wing
2145 Graeber Street, Suite 117
March Air Reserve Base, CA 92518-1667

Subject: **Cactus Avenue Eastbound 3rd Lane Street Improvement Project**
City of Moreno Valley Project Nos.: 07-41678527 and 07-41683328

Dear Colonel Aldrian:

The City of Moreno Valley (City) is seeking your help and cooperation in obtaining the necessary Right of Way (ROW) and Right of Entry (ROE) documents from March Air Reserve Base (MARB). The City has been trying to obtain the ROW and ROE from MARB for the Cactus Avenue Eastbound 3rd Lane between Interstate 215 and Heacock Street project since providing these documents to MARB Civil Engineers Base Operating Support Unit in November 2009. ROEs from LNR Properties and March Joint Powers Authority (MJPA), the adjacent property owners, were executed between March and May of 2010.

Specific improvements fronting MARB property were incorporated into the City's street improvement plans at the request of MARB personnel and validated in an April 2009 letter from MARB Commander James L. Melin (see attachment). These improvements will enhance and facilitate access for MARB personnel at the Elsworth Street entrance, particularly for the large weekend Reservist envoys that often back up traffic beyond the Interstate 215 ramps and onto the freeway. The proposed additional lane widening will enhance right turn access into MARB and the intersection widening will accommodate a future dedicated northbound right turn lane. The project will also relocate existing traffic signals and public utilities to facilitate ADA access.

The City worked directly with Mr. Richard Eunice, the previous Base Civil Engineer, on developing the plans beneficial to MARB. In a memorandum dated January 20, 2010 (see attachment) to the City, Mr. Eunice provided his and MARB Space Utilization Board's concurrence that the requested ROW and ROE documents would proceed without issue. On August 9, 2010, Mr. Eunice and Mr. Paul E. Pitman, MARB Environmental Protection Specialist, signed off on the Environmental Baseline Survey (see attachment) with a recommendation that the easement be issued to the City. With MARB's documented support and environmental clearance obtained, the City proceeded to finalize and approve the street improvement plans and specifications after obtaining approvals from all other agencies and utilities. The City has exhausted all of its available project funds and does not have the available resources to make any changes to the plans, specifications, ROW or ROE documents at this point.

Since Mr. Eunice's departure as the Base Civil Engineer, the momentum and support of MARB personnel to bring this issue to a timely and successful conclusion has diminished significantly. Because the attempts to obtain the dedicated ROW and ROE from MARB have been unsuccessful, the City has

missed critical opportunities to secure grant funding for construction of the improvements which would have greatly benefitted MARB as well. During these challenging economic times, federal, state, and other funding agencies are providing grant funds to "shovel ready" projects only. Without securing the final outstanding ROW and ROE documents from MARB, this project would not be considered "shovel ready" and will likely remain uncompetitive in any pursuit for grant funding.

The City respectfully requests your immediate attention to this matter before March 30, 2012, resulting in the successful dedication of the necessary ROW and ROE, which in turn will allow the City to pursue eligible grant monies. If you require additional information, please contact Guy Pegan, Senior Engineer, P.E., of our staff, at [redacted] or via email at guyp@moval.org.

Sincerely,

Henry Garcia
City Manager

MEMORANDUM FOR CITY OF MORENO VALLEY PUBLIC WORKS DIRECTOR/CITY ENGINEER/PUBLIC WORKS – CAPITAL PROJECTS (MR. CHRIS A. VOGT)

FROM: 452 AMW/CC
2145 Graeber St Ste 117
March ARB CA 92518-1667

SUBJECT: City of Moreno Valley, Surface Transportation High Priority Projects Nomination SAFETEA-LU Request -- Project: 3d Eastbound Lane of Cactus Avenue from I-215 to Heacock Street

1. This memorandum serves as the affirmation of support from March Air Reserve Base for the City of Moreno Valley's Surface Transportation High Priority Projects Nomination application for the SAFETEA-LU funding program.

2. It is my understanding that the City of Moreno Valley has the opportunity to apply for additional funding and continue with design and to construct a third eastbound lane on Cactus Avenue between the I-215 and Heacock Street. This project will enhance safety and mobility at the key point of access to this installation and improve the operational capabilities of all of the organizations on this installation that provide critical support to our national defense.

3. The leadership of March Air Reserve Base supports the City of Moreno Valley's application and stands ready to be actively involved in the design and coordination necessary to achieve the maximum benefit of this project for this installation and community. I recommend that this project receive full consideration when determining projects for the Surface Transportation High Priority Nomination SAFETEA-LU Request. If I can be of further assistance, please contact this office at (951) 655-4520.

SUBJECT: Cactus Widening Project

1. With regards to the Cactus Widening Project, the Space Utilization Board met on 10 December 2009 and unanimously approved easements and right of entry necessary to accommodate the widening of Cactus Avenue with the caveat of including a tie in for March Air Reserve Base's right lane turning off base onto Eastbound Cactus Avenue..

2. We look forward to assisting you in completing this project. If you have any questions please do not hesitate to contact Jack Porter Jr. at [redacted]

Environmental Baseline Survey
Application for Easement for the City of Moreno Valley
MARCH AIR RESERVE BASE, CALIFORNIA

I. INTRODUCTION:

A. **Purpose of Survey:** To facilitate the request for easement to the city of Moreno valley; to allow Moreno Valley to proceed with the Street improvement project for Cactus Avenue.

B. **PARCEL BOUNDARY AND SCOPE OF SURVEY:** The parcel boundary is located on Cactus Ave and is about 84,005 sq. ft.

II. SURVEY METHODOLOGY:

A. **DOCUMENTS REVIEWED:** Conducted a search through various records for reported spills. There are no reports of hazardous material spills. Reviewed published document, Environmental Baseline Survey, March ARB, CA, November 1994.

B. **INSPECTION OF PORPERTY:** A site inspection was conducted by Mr. Paul E. Pitman on August 5, 2010. Locate or observe any present environmental problems; none noted.

III. FINDINGS:

A. Introduction & Project Description

B. Cactus Avenue is designated as a Divided Major Arterial with a reduced Cross section. The lane will be added along the south side of Cactus Avenue, which there is currently two eastbound lanes. The study focused on the existing and/or General Plan build-out traffic volume requirements at the intersection of Cactus Avenue and Elsworth Street, and the intersection of Graham Street and Heacock Street. Therefore by doing this a third lane will be added that will supply March ARB with a right turn lane. They will be adding culverts for the Cactus channel for the drainage problem that March has experienced in the past.

C. DESCRIPTION OF SITE ENVIRONMENTAL SETTING:

Location of nearby release of contamination: March ARB is on the National Priorities List (NPL), and all studies required under CERCLA are ongoing.

D. MEDIA ADDRESSED AT Easement for the City of Moreno Valley

1. Hazardous Materials Use and Storage Area: None observed
2. Solid and Hazardous Waste Disposal: None observed

MV00234473

3. PCB Containing Electrical Equipment: None observed
4. Soil Contamination: None observed
5. Groundwater: Approximately 50 feet below grade
6. Asbestos: None observed
7. Other Issues: No other environmental concerns identified

E. **APPLICABLE REGULATORY COMPLIANCE ISSUES: None**

F. **CONCLUSION:** Based solely upon review of documents and site inspection, it is the position of the undersigned that the present condition of the property does not pose environmental problems. Consequently, no additional environmental analysis is deemed necessary at this time.

G. **RECOMMENDATION:** That the easement be issued to the City of Moreno Valley for Street Improvement Project for Cactus Avenue.

DEPARTMENT OF THE AIR FORCE
RIGHT OF ENTRY

Former March Air Force Base, Riverside County, California

The Secretary of the Air Force (the "Government" or "Air Force"), acting through the duly delegated official who has signed this document, grants to City of Moreno Valley, a municipal corporation in the State of California (the "Applicant") a non-exclusive, nonassignable right ("Right of Entry"), revocable at the will of the Government, for the premises depicted and/or described in Exhibit A (the "Premises") for the period of nine (9) months, beginning at commencement of the construction of Cactus Avenue Widening project and shall end after the completion of construction of the improvements. The Premises will be used only for the purposes of construction plans, PROJECT NO. 07-41678527 and No. 07-41683328 which includes but not limited to: Grading; paving; relocation of signal poles, and EMVD facilities. Exercise of this Right of Entry is subject to the following terms and conditions:

1. Applicant will use this Right of Entry without cost or expense to the Government and subject to any regulations or directives that may be prescribed by the Government from time to time.

2. Any property of the Government damaged or destroyed by the Applicant incident to the exercise of this Right of Entry must be promptly repaired or replaced by the Applicant to the satisfaction of the Government, or, in lieu of repair or replacement, the Applicant must, if required by the Government, pay to the Government money in an amount sufficient to compensate it for such damage or destruction.

3. All portions of the Premises, including any improvements, must be protected and maintained in good order and condition at all times by and at the expense of the Applicant to the extent of its usage.

4. In consideration of the Air Force granting this Right of Entry, **the Applicant agrees, to the extent allowable by applicable law, to indemnify, defend, and hold harmless the Air Force, its agents, officers, servants, and employees, from and against all liability or claims for injury, death, or damage to person or property, including any of its contractors, subcontractors, agents, consultants, employees, volunteers, contract bidders, or any other entity or individual, which injury or damage arises by reason of the granting of access to, or presence on, or use of the premises. The Applicant further agrees and covenants not to sue the Government, or any of its officers, agents, servants, or employees, in connection with any such claim or suit.**

5. The liability obligations of the Applicant must be secured by a policy of liability insurance in an amount, and with terms, reasonably satisfactory to the Government under the circumstances, which must be delivered to the Air Force before entry onto the Premises and must name the Government as an additional insured without right of subrogation.

6. The Applicant must comply with all applicable Federal, State and local laws, regulations and standards, including, without limitation, those regarding environmental protection and pollution control and abatement.

7. Any notice under this Right of Entry must be given in writing, signed by a duly authorized representative of the party giving such notice, and appropriately delivered or transmitted to the other party.

8. Additional terms: Grantor acknowledges that the rights granted under this Right of Entry would be extended to Applicant's agents, employees, persons under contract with said City and their employees, as well as, Public Utilities, and EMWD to perform necessary work related to their facility, under the direction and supervision of the applicant.

2012 Incoming Correspondence
Stewart, Richard
Financial & Administrative Services

MORENO VALLEY
WHERE DREAMS SOAR

CITY COUNCIL
MORENO VALLEY
RECEIVED
12 JUN 26 PM 4:24

Financial & Administrative Services Department

MEMORANDUM

To: Mayor and City Council
Henry Garcia, City Manager

From: Rick Teichert, Financial & Administrative Services Director/City Treasurer

Date: June 25, 2012

Subject: Monthly Investment Report – April 2012

Attached is the Monthly Investment Report (Treasurer's Cash and Investments Report) for the month ended April 30, 2012. All investments comply with California Government Code Section 53601 as to the types of investments allowed and the limits of each type. In addition, all investments comply with the City's annually adopted Investment Policy.

The investments managed by Chandler Asset Management totaled $166,633,985 and achieved a Yield to Maturity (YTM) for April 2012 of 1.33%. This compares to a YTM in March 2012 of 1.40% and a YTM in April 2011 of 1.64%. In addition, the City maintained $27,254,703 in the State Local Agency Investment Fund Pool with a YTM of 0.37%.

Rates of return on fixed income investments continue to remain soft, reflecting the current efforts by the Federal Reserve to energize the economy. Staff does not anticipate any significant increase in the near future. The Federal Reserve Board has recently stated that they intend to keep rates low for the next two years.

The March 2012 Quarterly Investment Report was presented at a regular City Council meeting in May 2012. Submitting this April 2012 Monthly Investment Report by internal memorandum ensures that the Council and City Manager are kept apprised of the City's investments between the regular quarterly reports.

Please contact me (951-413-3024) or Brooke McKinney (951-413-3077) with any questions.

Ongoing Debate: Money Market Funds 3

Since 1988, Chandler Asset Management has specialized in the management of fixed income portfolios. Chandler's mission is to provide fully customizable, client-centered portfolio management that preserves principal, manages risk and generates income in our clients' portfolios.

Market Summary

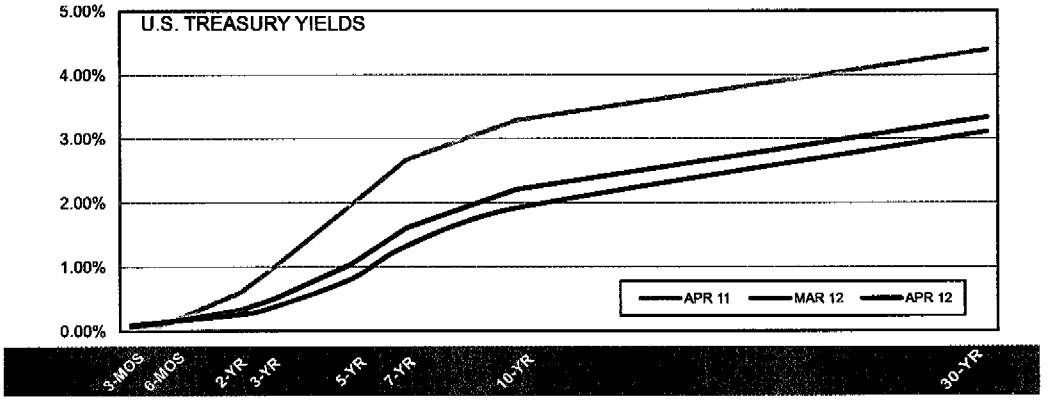
Treasury rates moved lower in April as economic data was slightly weaker than expected. Oil prices also subsided in the month, abating some concerns about accelerating inflation. In addition, Operation Twist (which expires at the end of June) continues to put downward pressure on longer-term interest rates.

Though some recent domestic economic data has been weaker than expected, we continue to believe the data is consistent with a slow growth environment. The labor market continues to improve (albeit at a slow pace), consumer spending trends have been healthy and the manufacturing sector remains strong. First quarter corporate earnings have also been generally better than expected. While it seems the pace of the domestic economic recovery has recently moderated, we believe the overall trajectory remains positive. Meanwhile, political turmoil related to the sovereign debt crisis in Europe, along with growing concerns about slowing economic growth in China, continues to create volatility in the global financial markets.

In April, The Federal Reserve Open Market Committee kept policy rates unchanged, with the fed funds target rate remaining in the range of 0.0-0.25%. The FOMC statement was virtually unchanged from March. There was no change to the Fed's assurance that the fed funds rate will remain exceptionally low through late 2014. Overall, the Fed continues to see the economy as "expanding moderately." However, comments about the labor market were somewhat cautionary. The Fed held off announcing any additional forms of quantitative easing, and we expect that the Fed will remain on hold for at least the next few months. The next FOMC meeting is scheduled for June 19th and 20th.

TREASURY YIELDS FELL IN APRIL

Source: Bloomberg



Treasury yields declined in April as economic data was slightly weaker than expected.

TREASURY YIELDS	4/30/12	3/31/12	CHANGE
3 Month	0.09	0.07	0.02
2 Year	0.26	0.33	(0.07)
3 Year	0.37	0.50	(0.13)
5 Year	0.81	1.04	(0.23)
7 Year	1.32	1.61	(0.29)
10 Year	1.91	2.21	(0.30)
30 Year	3.11	3.34	(0.23)

Source: Bloomberg

Consumer Prices

In March, the CPI showed consumer prices increased 2.7% on a year-over-year basis. The year-over-year Core CPI (CPI less food and energy) increased at a 2.3% rate. Improvement in the domestic economy, coupled with rising oil prices, raised investors' concerns about accelerating inflation.

Retail Sales

In March, Retail Sales rose 6.8% on a year-over-year basis. Consumer spending rebounded from the depths of the recession and recent activity has been healthy. Nevertheless, elevated unemployment levels continue to restrain consumer spending to some degree.

Labor Markets

The April employment report showed the economy added 115,000 jobs. The report was disappointing though the unemployment rate declined slightly to 8.1%. Although the unemployment rate remains elevated, current economic data suggests that the labor market is improving at a slow but steady pace.

Housing Starts

Single-family housing starts edged down slightly in March to 462,000, compared to 463,000 in February. The housing market remains under pressure, but seems to have stabilized following several years of sharp declines.

Ongoing Debate: Money Market Funds

Debate about how to strengthen money market funds (MMFs) has raged since the Reserve Fund repriced its securities under $1 a share, known as "breaking the buck", in September 2008. This occurrence ignited a run on MMFs that threatened to freeze capital markets. Since then, regulators, investors, short-term credit issuers, financial intermediaries and various other concerned parties have deliberated ways to strengthen MMFs to avoid a similar crisis in the future.

By investing only in very short-term, high-quality fixed income securities, MMFs sought to maintain the value of their shares at a stable $1 per share. The stable value of these funds makes them attractive to investors – individuals, businesses and governmental entities - who want to avoid risk and manage their cash investments without principal variation. At the same time, MMFs have also provided a cost-effective credit option for businesses, financial institutions and governmental entities in need of short-term funding. The fact that MMFs held approximately 40% of outstanding commercial paper, 67% of short-term state and local government debt and significant portions of outstanding short-term Treasury and federal agency securities in late 2010 highlights the vital funding role MMFs play in the United States economy.[1]

The stable value of these funds makes them attractive to investors – individuals, businesses, and governmental entities - who want to avoid risk and manage their cash investments without principal variation.

When the Reserve Fund "broke the buck", an extremely rare event, investors withdrew their funds at a dramatic pace while issuers struggled to refinance their short-term debt. With investors cashing out, the nation's short-term credit markets virtually froze, threatening businesses and government entities. Some argue, without urgent stabilizing actions by the Federal Reserve and Treasury, the negative consequences to the economy and capital markets would have been far worse.

The Securities and Exchange Commission (SEC) adopted new rules in January 2010 to enhance MMFs' stability and resiliency, and to ultimately stave off future stress in MMFs. The changes included raising credit quality, shortening maturity, increasing liquidity and enhancing transparency of MMFs.

Continuing Area of Disagreement

Since the financial crisis, the SEC has grappled with whether to permit MMFs to maintain their net asset value (NAV) at a stable price without valuing their holdings using current market prices. The SEC believes stable value MMFs leave investors with a false sense of confidence, and that eliminating this feature would lead to more informed investors who would be less likely to panic the next time a MMF is unable to maintain a stable NAV.

Although MMFs seek to maintain price stability, there has never been a guarantee. Fluctuations in NAV have always been possible, but rare. MMFs typically do not value the securities in the fund at the current market value when calculating the NAV. Rather, they use the amortized cost method for valuing securities (securities are valued at cost, plus or minus any accreted discount or amortized premium). The rationale for maintaining stable NAVs is that a portfolio of high credit quality and short maturities of securities, limits significant volatility in the NAV. Nonetheless, MMFs continue to "shadow price" their portfolios, whereby the amortized cost is compared to mark-to-market values. If the difference between the methods is more than one half of one percent, MMFs must reprice shares at less than one dollar. Historically, sponsors of MMFs have supported the funds if the value of the fund has fallen below $1. There is no obligation to do so, however, and in the case of the Reserve Fund, the sponsor did not have the financial resources needed to provide such support.

---

(1) Money Market Fund Reform Options report by President Obama's Working Group on Financial Markets, dated October 2010.

MV00234488

Many investors along with the mutual fund industry are opposed to a floating net asset value. In general, investors in MMFs are conservative and use MMFs for cash management purposes. They also argue the accounting and tax issues involved with purchases and sales of shares of fluctuating value MMFs would unreasonably burden cash managers and treasurers. Further, many state and municipal government investors are required by statute to use MMFs as an investment tool for cash management because of their stable net asset value feature. If a floating net asset value is imposed upon MMFs, then government entities may be forced out of these funds or incur unneeded expenses related to legislative changes.

An alternative perspective postulates that since MMFs are not guaranteed, changing to a floating NAV is merely an accounting convention and would not alter the underlying investments held by MMFs. By reflecting the current market value, fluctuating NAV MMFs would provide investors with more transparent disclosure of their holdings.

Next Phases

The SEC has continued to evaluate various ways to strengthen MMFs while making them less susceptible to irrational investor behavior in times of crisis and less of a source of systemic risk to the capital markets and economy. The SEC is expected to submit proposals for public comment in the Spring of 2012. While the final form is not yet fully known, there are various options being considered to strengthen MMFs.

Under one alternative, MMFs could continue to use the stable NAV accounting convention if the MMF builds up a capital buffer and imposes "redemption restrictions", both intended to diminish large redemptions. There are costs associated with each change. A capital buffer could squeeze MMF yields. Any negative effect on yield would be exacerbated by the current low yield environment. The size and scope of such a cushion is not known. A challenge to this approach is how to establish a capital buffer that offers meaningful protection without unnecessarily interfering with the efficiency of the market. The proposed redemption restrictions, a freeze on 3% to 5% of an account's assets for 30 days after each redemption, would bar investors from making full use of their assets, limiting liquidity.

Under an alternative option, MMFs could simply abandon the stable NAV accounting convention. The change would drive home the point to investors that money funds are not federally insured, nor is their share price guaranteed. This explicit acknowledgement might discourage panic if a fund's share price fell below $1. The change could make every money fund transaction into a taxable event, forcing investors to calculate even small gains and losses in share prices.

Deadlock?

Opposition to additional regulation of MMFs from various directions appears to have made it difficult for the SEC to reach a defined course of action. If the SEC is unable to reach an agreement, the Financial Stability Oversight Council established by the 2010 Dodd-Frank Act to monitor large risks to the economy may decide to officially designate money funds as "systemically important." Such a move would increase pressure on the SEC to overcome disagreements to the new rules.

We believe it is likely that many MMFs would continue to maintain their stable value, by investing in a conservative portfolio of securities, making it less likely that the fund's share price would fall below $1. These new rules may lead to a stratification of money market funds, with those more likely to have fluctuating net asset values offering higher yields, while those geared toward the most conservative investors with higher quality, shorter maturity funds offering lower yields.

Any of the approaches currently being considered would meaningfully affect MMFs. Investors in MMFs should stay current with information from the SEC and consider how the eventual changes will affect their liquidity.

RISKS AND OTHER IMPORTANT CONSIDERATIONS

Past performance is not indicative of future results. This report is provided for general information purposes only and should not be construed as specific legal, tax, or financial planning advice. All opinions and views constitute judgments or relevant information as of the date of writing and such information may become outdated or superseded at any time without notice. Forecasts are inherently limited and should not be relied upon as an indicator of future results. This report is not intended to constitute an offer, solicitation, recommendation or advice regarding any securities or investment strategy. This information should not be regarded by recipients as a substitute for the exercise of their own judgment.

Fixed income investments are subject to interest, credit, and market risk. Interest rate risk: the value of fixed income investments will decline as interest rates rise. Credit risk: the possibility that the borrower may not be able to repay interest and principal. Low rated bonds generally have to pay higher interest rates to attract investors willing to take on greater risk. Market risk: the bond market in general could decline due to economic conditions, especially during periods of rising interest rates.

Holdings Report Glossary

CUSIP (Committee on Uniform Securities Identification Procedures) – A unique identification number assigned to all securities.

Security Description - The issuer name, coupon (periodic interest payment rate) and maturity.

Par Value/Units - The face value or number of units held in the portfolio.

Purchase Date - The settlement date on which the security was purchased.

Book Yield - The YTM that equates the current amortized value of the security to its periodic future cash flows.

Cost Value - The value at which the securities were purchased, excluding purchased interest.

Book Value - The value at which an asset is carried on a balance sheet. To calculate, take the cost of an asset +/- net accretion/amortization.

Mkt Price - The current fair value market price.

Mkt YTM – The internal rate of return that equates the periodic future cash flows (interest payments and redemption value) to the market price, assuming that all cash flows are invested at the YTM rate.

Market Value - The current fair value of an investment as determined by transactions between willing buyers and sellers.

Accrued Int. - The interest that has accumulated on a bond since the last interest payment up to, but not including, the settlement date.

% of Port. - The % of the portfolio that the security represents based on market value, including accrued interest.

Gain/Loss – The unrealized gain or loss on the security, compared to either cost or amortized value, as of the date of the report.

Moody - The Moody's rating for the security.

MV00234498

Holdings Report Glossary (continued)

S&P - The Standard and Poor's rating for the security.

Term (yrs) - The time, in years, until maturity.

Duration - The weighted average time to maturity of a bond where the weights are the present values of future cash flows. Duration measures the price sensitivity of a bond to changes in interest rates.

MORENO VALLEY
WHERE DREAMS SOAR

Financial & Administrative Services Department

MEMORANDUM

CITY COUNCIL
MORENO VALLEY
RECEIVED
12 APR 16 PM 1:16

To: Mayor and City Council
Henry Garcia, City Manager

From: Rick Teichert, Financial & Administrative Services Director/City Treasurer

Date: April 16, 2012

Subject: Monthly Investment Report – February 2012

Attached is the Monthly Investment Report (Treasurer's Cash and Investments Report) for the month ended February 29, 2012. All investments comply with California Government Code Section 53601 as to the types of investments allowed and the limits of each type. In addition, all investments comply with the City's annually adopted Investment Policy.

The investments managed by Chandler Asset Management totaled $165,420,407 and achieved a Yield to Maturity (YTM) for February 2012 of 1.40%. This compares to a YTM in January 2012 of 1.43% and a YTM in February 2011 of 1.57%. In addition, the City maintained $33,849,881 in the State Local Agency Investment Fund Pool with a YTM of 0.38%.

Rates of return on fixed income investments continue to remain soft, reflecting the current efforts by the Federal Reserve to energize the economy. Staff does not anticipate any significant increase in the near future. The Federal Reserve Board has recently stated that they intend to keep rates low for the next two years.

The March 2012 Quarterly Investment Report will be presented at a regular City Council meeting in May 2012. Submitting this February 2012 Monthly Investment Report by internal memorandum ensures that the Council and City Manager are kept apprised of the City's investments between the regular quarterly reports.

Please contact me (951-413-3024) or Brooke McKinney (951-413-3077) with any questions.

Total Investment Portfolio	**233,511,348**

1. I hereby certify that the investments are in compliance with the investment policy adopted by the City Council. There are no items of non-compliance for this period.
2. The market values for the specific investments in the General Portfolio are provided by the City's investment advisor, Chandler Asset Management.
3. The market value for LAIF is provided by the State Treasurer.
4. The market values for investments held by fiscal agents and the deferred compensation plans are provided by each respective trustee or fiscal agent.
5. The City has the ability to meet its budgeted expenditures for the next six months pending any future action by City Council or any unforeseen catastrophic event.

Richard Teichert
City Treasurer

Holdings Report Glossary

CUSIP (Committee on Uniform Securities Identification Procedures) – A unique identification number assigned to all securities.

Security Description - The issuer name, coupon (periodic interest payment rate) and maturity.

Par Value/Units - The face value or number of units held in the portfolio.

Purchase Date - The settlement date on which the security was purchased.

Book Yield - The YTM that equates the current amortized value of the security to its periodic future cash flows.

Cost Value - The value at which the securities were purchased, excluding purchased interest.

Book Value - The value at which an asset is carried on a balance sheet. To calculate, take the cost of an asset +/- net accretion/amortization.

Mkt Price - The current fair value market price.

Mkt YTM – The internal rate of return that equates the periodic future cash flows (interest payments and redemption value) to the market price, assuming that all cash flows are invested at the YTM rate.

Market Value - The current fair value of an investment as determined by transactions between willing buyers and sellers.

Accrued Int. - The interest that has accumulated on a bond since the last interest payment up to, but not including, the settlement date.

% of Port. - The % of the portfolio that the security represents based on market value, including accrued interest.

Gain/Loss – The unrealized gain or loss on the security, compared to either cost or amortized value, as of the date of the report.

Moody - The Moody's rating for the security.

MV00234511

Holdings Report Glossary (continued)

S&P - The Standard and Poor's rating for the security.

Term (yrs) - The time, in years, until maturity.

Duration - The weighted average time to maturity of a bond where the weights are the present values of future cash flows. Duration measures the price sensitivity of a bond to changes in interest rates.

Corporate Credit Overview. 3

Since 1988, Chandler Asset Management has specialized in the management of fixed income portfolios. Chandler's mission is to provide fully customizable, client-centered portfolio management that preserves principal, manages risk and generates income in our clients' portfolios.

Market Summary

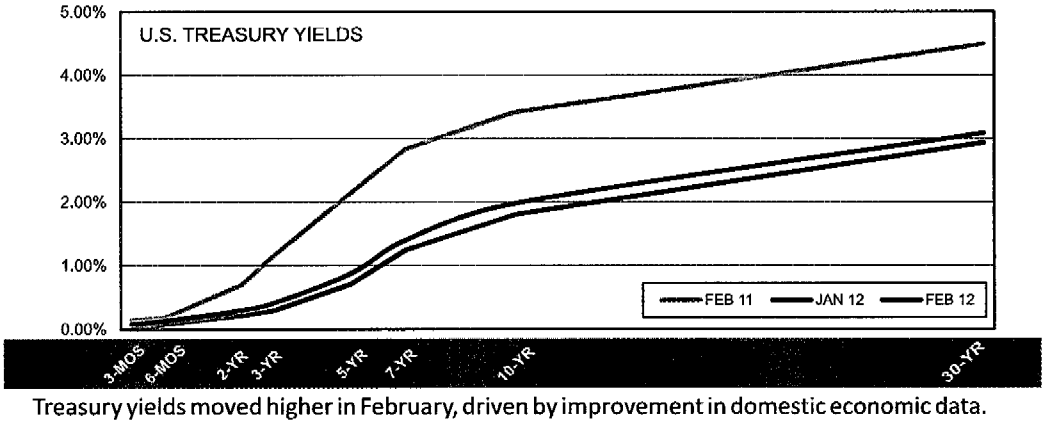
Treasury rates moved higher in February, driven by recent improvement in domestic economic data. However, the move up was modest, as the impacts of Operation Twist as well as ongoing uncertainty about global growth, continue to keep a lid on rates. Looking back over the past three months, the Treasury yield curve experienced a modest twist with shorter maturities rising and longer maturities falling slightly.

Domestic economic news continues to support our view that the U.S. economy is growing at a modest pace. In February, payroll jobs grew by 227,000, better than the 204,000 boost the market was expecting. The unemployment rate remained unchanged at 8.3%. Meanwhile the manufacturing sector continues to expand, and consumer spending was relatively strong in spite of rising gas prices. Several banks reported signs of growing loan demand in their recent quarterly results and consumer credit expanded. In addition, the Federal Reserve indicated it will remain accommodative, which could be a tailwind for further domestic economic growth. However, the European economy remains under stress and market participants continue to be concerned about global growth trends. We believe the European Central Bank is unlikely to be as accommodative as the Fed, since the ECB has a heightened focus on promoting fiscal austerity in Greece and other weak European economies. And, unlike the Fed, which has a dual mandate to promote employment and control inflation, the ECB has only one mandate, price stability. Looking ahead, we anticipate that ongoing turmoil in Europe will continue to create volatility in global financial markets over the near- to intermediate-term.

Last week, the Fed announced it would retain the policy rate range of 0.0-0.25%. The Fed provided a generally upbeat assessment of the economy and held off announcing any new forms of quantitative easing, despite market speculation the Fed might announce a new form of monetary stimulus. There was no change to the Fed's assurance that the fed funds rate will remain exceptionally low through late 2014. Recent increases in gas prices were acknowledged, but the Fed expects the impact on overall inflation will be temporary. The Fed noted that while strains on global financial markets have eased, they continue to pose a significant downside risk to the economic outlook.

TREASURY YIELDS ROSE IN FEBRUARY

Source: Bloomberg



Treasury yields moved higher in February, driven by improvement in domestic economic data.

Economic Roundup

Consumer Prices

In January, the CPI showed consumer prices increased 2.9% on a year-over-year basis. The year-over-year Core CPI (CPI less food and energy) increased at a 2.3% rate. Overall, price increases remained subdued. However, concerns have recently developed about rising oil prices and the negative impact higher prices at the pump could potentially have on consumer spending.

Retail Sales

In December, Retail Sales rose 6.5% on a year-over-year basis. Consumer spending has rebounded from the depths of the recession and recent activity was moderate; however, high unemployment continues to restrain consumer spending.

Labor Markets

The February employment report showed the economy added 227,000 jobs, with the six-month average slightly higher than 200,000 jobs. The unemployment rate remained unchanged at 8.3%. This report was better than analysts' expectations. Although the unemployment rate remains elevated, current economic data suggests the labor market is improving at a slow but steady pace.

Housing Starts

Single-family housing starts declined 1.0% in January to 508,000, compared to 513,000 in December. The housing market remains under pressure, but seems to have stabilized following several years of sharp declines, and some housing data has recently surprised to the upside.

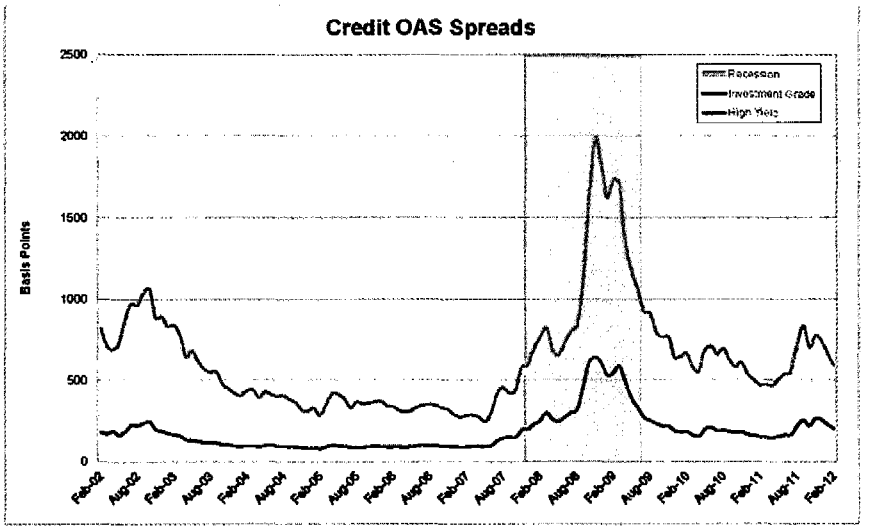
Corporate Credit Overview

During 2011, investment grade option adjusted credit spreads (OAS) widened approximately 90 basis points on average. During the first two months of this year, investment grade OAS, tightened approximately 50 basis points, to an average OAS of about 200. This level is meaningfully higher than the 10-year median investment grade corporate OAS of approximately 150. Although the 10-year data set includes the financial crisis, when corporate OAS rose to unusually high levels, we believe current corporate bond valuations remain attractive.
We believe the overall credit cycle is favorable, driven by improving domestic economic activity. During 4Q 2011, the U.S. GDP grew by 3.0%. This year, the consensus GDP forecast calls for about 2.2% growth. We are positive on the domestic economy and believe the ongoing recovery in consumer demand will continue to benefit corporate earnings and credit trends. However, we anticipate that ongoing turmoil in Europe will lead to continued volatility in the financial markets.



Source: Bank of America Merrill Lynch

Fourth Quarter Earnings Review
Fourth quarter earnings season was generally better than expected. On average, companies in the S&P 500 reported nearly 5% quarterly earnings growth on a year-over-year basis. Average EPS results were about 3% better than expected, with 320 companies in the S&P 500 posting upside earnings surprises.

In the consumer sector, higher-end retailers continued to outperform mid- and lower-tier retailers during the holiday season. In the food and grocery sectors, price increases helped drive revenue growth in the fourth quarter, though earnings continued to be pressured by high input costs. High energy and commodities prices were also a headwind to some industrial companies. Meanwhile, several oil and gas companies reported strong revenue growth, driven by increased volume and higher pricing, though the higher prices were a hindrance to refining margins. Earnings in the technology sector were mixed with results for hardware companies significantly outpacing results from semiconductor, software, and services companies, on average.

During the fourth quarter, the financial sector faced a challenging environment of low interest rates, slow economic growth, and new regulations. Banks with exposure to investment banking and trading revenues were negatively impacted in the quarter by client risk reduction and lower trading volumes. Meanwhile, banks with less international exposure and larger commercial lending activity performed better. Some banks did see positive growth in the quarter, and credit quality trends continued to show modest improvement. Overall, earnings results in the financial sector were mixed. Expectations were generally low prior to the earnings season, helping some banks post better than expected results. Looking ahead, several banks plan to reduce expenses through layoffs. Increased regulation is another obstacle for bank earnings. Yet, stricter capital requirements and increased oversight has generally been beneficial to credit quality. In summary, the financial sector continues to look attractively priced relative to the overall corporate bond market.

Earnings Outlook
Few companies raised their earnings guidance for the year during fourth quarter earnings season. We expect first quarter earnings to show year-over-year

MV00234517

growth on average, and to be in-line or better than analysts' consensus views. Earnings results in the banking sector may be more favorable, as trading volumes seem to have improved during the first quarter vs. 4Q11. Some companies may have also benefitted in the latest quarter from recent easing in non-energy commodities prices. Notably, over the past few quarters, the magnitude of overall upside earnings surprises declined, and we expect this trend will continue in the first quarter. We anticipate companies with significant international exposure to remain cautious, in light of uncertainties about global growth (Europe and China in particular). While companies with significant business will benefit from ongoing improvement in the U.S. economy. We also expect in many cases, strategic deployment of capital (via share repurchases and acquisitions) will help drive earnings growth, as several companies have recently used cash to buy back shares.

Looking further ahead, global event risk, employment trends, and oil prices are likely to have an important impact on corporate credit throughout the remainder of the year. These are just a few of the key data points we will be watching closely.

Global Event Risk. The European economy remains under stress and market participants continue to be concerned about global growth trends. We anticipate ongoing turmoil in Europe will continue to create volatility in the global financial markets over the near- to intermediate-term. Furthermore, exogenous shocks to the U.S. economy, such as an unexpected escalation of the fiscal crisis in Europe or heightened Iranian tensions, could have a meaningful impact on the financial markets and credit spreads.

Employment. U.S. unemployment also continues to be one of the most closely watched economic data points. The unemployment rate is currently 8.3%, which remains high but is down from the recent recession peak of 10.1% during the third quarter of 2009. According to Bloomberg data, market participants expect a slow decline in the unemployment rate over the next year and are calling for a rate of 7.8% by the second quarter of 2013. We expect an improving labor market will help drive slow and steady demand and corporate earnings growth, which will continue to support corporate credit quality.

Oil Prices. Rising oil prices could be a hindrance to corporate earnings over the next year. According to the Energy Information Administration's Short-Term Energy Outlook as of March 6th, the price of regular-grade motor gasoline is expected to average $3.79 per gallon in 2012, compared with $3.53 cents per gallon last year. The EIA recently raised its forecasted price of West Texas Intermediate (WTI) crude oil by $5 per barrel to an average of about $106 per barrel in 2012, $11 per barrel higher than the average price last year. Supply disruptions in the Middle East and Africa contributed to a significant increase in world crude oil prices during February. Although we are not forecasting a significant increase in the price of crude oil, we believe a rise in prices to the $130-$150 per barrel range would begin to put pressure on consumer spending levels and the overall domestic economy.

Conclusion

Overall, we believe the outlook for corporate credit remains favorable this year. Given our expectation for volatility in the financial markets, we believe the investment grade corporate bond sector provides an attractive risk/reward profile. Though the pace of earnings growth and corporate credit rating upgrades has slowed, in light of ongoing economic uncertainty and market volatility, we remain constructive on corporate earnings and expect the overall economy will continue to grow.

This report is not intended to constitute an offer, solicitation, recommendation or advice regarding any securities or investment strategy. This information should not be regarded by recipients as a substitute for the exercise of their own judgment.

Fixed income investments are subject to interest, credit, and market risk. Interest rate risk: the value of fixed income investments will decline as interest rates rise. Credit risk: the possibility that the borrower may not be able to repay interest and principal. Low rated bonds generally have to pay higher interest rates to attract investors willing to take on greater risk. Market risk: the bond market in general could decline due to economic conditions, especially during periods of rising interest rates.

CHIEF'S MESSAGE

Steve Curley
Fire Chief

As the City's former Fire Chief and current Western Operations Deputy Chief for Riverside County Fire, I am pleased to present the Moreno Valley Fire Department's Strategic Plan 2012-2022. This plan clearly defines the mission and goals of the Moreno Valley Fire Department while providing a guide for continuing the excellent services that we provide to the community for the next ten years.

The Moreno Valley Fire Department has seen an 11.1% increase in emergency calls for service over the last five years and it is anticipated that the total calls for service for 2011 will exceed 14,000 calls. We are expecting to open our seventh fire station, the Morrison Park Fire Station, in the Fall of 2012 to help meet the growing needs of the community. This will also help us continue to meet one of our goals for Fire Operations which is to arrive on scene within 5 minutes of dispatch 90% of the time. The funding for this station was made possible through the issuance of redevelopment agency bonds.

Furthermore, I am excited to announce that in October 2011 we hired four part time Fire Prevention Technicians for the Fire Prevention Bureau for the new Multi-Family Residential Inspection Program. This program will enhance our ability to safe guard the community from fire and environmental hazards by ensuring that each multi-family residential unit is inspected on an annual basis. We are also looking forward to hiring two additional part time Fire Prevention Technicians in 2012 to help ensure that all vacant lots in the City receive an annual hazard abatement inspection. By hiring these six Fire Prevention Technicians, the City's Fire Prevention Bureau will be better able to achieve one of their goals, which is to ensure all business and commercial occupancies receive annual fire and life safety inspections. It also provides the beginning steps to ensuring a second goal is met within the next ten years which is to perform hazard abatement inspections biannually.

Additionally, our Office of Emergency Management (OEM) Program coordinates the City's prevention, preparedness, response, recovery, and mitigation efforts for all natural and man-made disasters. Most recently the City Council adopted a local hazard mitigation plan written by the OEM Program Manager. The goals of the plan are to protect life, property and the environment; provide public awareness; protect the continuity of government; and to improve emergency management, preparedness, collaboration and outreach. The plan contains a profile of the City, a detailed assessment of disasters that could occur in Moreno Valley and the mitigation goals of the City to reduce long-term vulnerabilities. The plan can be found on our City website at www.moval.org.

Finally, once the strategic plan is implemented it will be modified periodically for priority changes, budgetary constraints, and planning refinements. This plan provides an overview of anticipated Fire Department activities as related to the goals contained within this plan. General economic conditions and the capability to fund projects will play a crucial role in determining the actual time that resources are secured and projects completed, however, I strongly feel that the goals, and the strategies to reach those goals, are well within our reach.

MV00234522

EXECUTIVE SUMMARY

The Moreno Valley Fire Department is the primary response agency for fires, emergency medical service, hazardous materials incidents, traffic accidents, terrorist acts, catastrophic weather events, and technical rescues for the City of Moreno Valley. The Fire Department also provides a full range of fire prevention services including public education, code enforcement, plan check and inspection services for new and existing construction, and fire investigation. Additionally, the City's Office of Emergency Management is located within the Fire Department allowing for a well-coordinated response to both natural and man-made disasters.

Anticipating the future, in terms of building a flexible organization, is an important facet of this strategic plan. The Fire Department must be able to react to change, resolve problems, and work together with other departments and agencies on issues that might arise. It must assess the needs of the community and develop resources to meet those needs. As such, any strategic plan must be adaptable enough to accommodate the needs of the community as they arise.

This plan identifies five goals for Fire Operations, Fire Prevention, and the Office of Emergency Management for a total of fifteen goals which are listed below. The strategies for accomplishing these goals can be found on pages 14-22.

FIRE OPERATION GOALS

- ***Goal 1:*** Financial Management and Accountability
- ***Goal 2:*** Arrive On Scene within 5 Minutes of Dispatch 90% of the Time
- ***Goal 3:*** Reduce the Risk of Fire to Residents through Prevention Campaigns and Mitigation Efforts
- ***Goal 4:*** Maintain a Strong Partnership with Riverside County Fire Department
- ***Goal 5:*** Ensure Fire Administration Staffing is Sufficient for the Needs of the Department

FIRE PREVENTION GOALS

- ***Goal 1:*** Fiscal Sustainability
- ***Goal 2:*** Ensure All Business and Commercial Occupancies Receive Annual Fire and Life Safety Inspections
- ***Goal 3:*** Perform Hazard Abatement Inspections Bi-Annually
- ***Goal 4:*** Provide Efficient Plan Review
- ***Goal 5:*** Evaluate Management Structure and Career Advancement within the Bureau

OFFICE OF EMERGENCY MANAGEMENT

- ***Goal 1:*** Provide Training to Employees and Citizens
- ***Goal 2:*** Incorporate Federal and State Legal Mandates and Standards into City Emergency Management Strategies
- ***Goal 3:*** Continually Improve Emergency Operations Center Functions and

MV00234523

Capabilities Based on a Comprehensive Assessment
- ***Goal 4:*** Manage FEMA and State Disaster Recovery Projects to Ensure Timely Completion of Required Documentation
- ***Goal 5:*** Maintain Effective Coordination and Partnerships with Local, Regional, and State Agencies

This strategic plan is a living document and will be a continuous work in progress. The plan will guide the Fire Department's development over the next ten years and will inform the public and its Fire Department members of the goals and strategies that the Fire Department has for the future. It will also serve as the foundation document for informing City Council as to the direction the Fire Department is headed in order to ensure the community receives outstanding fire protection services. The Fire Department will review this plan biennially to ensure the goals outlined in this plan are being met.

MISSION STATEMENT AND VALUES

The mission of the Moreno Valley Fire Department is:

> *The Moreno Valley Fire Department serves the community with pride, integrity, and professionalism while providing quality emergency services to protect and preserve life and property of its citizens when exposed to fires, medical emergencies, natural or man-made disasters, hazardous materials incidents, and rescue emergencies in a safe, efficient and cost effective manner as a result of a cooperative, regionalized fire and rescue delivery system with the Riverside County Fire Department. To minimize the impact of natural or man-made disasters by identifying and mitigating known hazards and to enhance our response to these disasters by providing quality training to the community on disaster preparedness, response, and recovery.*

The core values for the Moreno Valley Fire Department are:

Safety – Leadership – Integrity – Competence – Customer Service

ORGANIZATIONAL HISTORY

On December 3, 1984, the City of Moreno Valley officially incorporated as a California general law municipality. The residents of Edgemont, Sunnymead, and Moreno recognized there was a need for managed growth as the population in Moreno Valley had more than doubled from 18,871 residents in 1970 to 49,702 in 1984 and therefore approved the measure to incorporate.

Prior to incorporation, the areas of Edgemont, Sunnymead, and Moreno were serviced by the Riverside County Fire Department which has contracted with the California Department of Forestry and Fire Protection (CAL Fire) since 1921. The initial contracts with CAL Fire augmented the level of wild land fire protection to Riverside County and then evolved as the area grew in population.

Since its incorporation in 1984, the City of Moreno Valley has contracted for fire protection services with the Riverside County Fire Department which contracts with CAL Fire. CAL Fire provides full-service fire protection to many jurisdictions in California through the administration of 145 cooperative fire protection agreements in over 30 counties, including cities, fire districts as well as special districts and service areas. As a full-service fire department CAL Fire responds to wildland fires, structure fires, floods, hazardous material spills, swift water rescues, civil disturbances, earthquakes, and medical emergencies. Local governments, such as Riverside County, are able to utilize this diversity through their agreements with CAL Fire.

The City's Fire Department has grown significantly since 1984, expanding from three fire stations in 1984 to six fire stations in 2002 with a seventh fire station slated to open in the Fall of 2012. The six fire stations currently house a total of six fire engines, two aerial ladder trucks, one brush engine, three reserve fire engines, one reserve fire truck, and two fire rescue squads. The primary fire engines are staffed with one Fire Captain, one Fire Apparatus Engineer, and one Firefighter II Paramedic. The two aerial ladder trucks are staffed with one Fire Captain, one Fire Apparatus Engineer, and two Firefighter II's. Staffing for both the fire engines and trucks is continuous, 24 hours a day, seven days a week. Two Battalion Chiefs supervise 69 firefighting personnel with a Riverside County Fire/CAL Fire Division Chief supervising the two Battalion Chiefs. These two Battalion Chiefs also supervise a reserve firefighters program of up to 50 Reserves and a Fire Explorer Program of up to 25 Explorers.

The Riverside County Fire/CAL Fire Division Chief is also appointed as the City's Fire Chief and oversees the City's Fire Prevention Bureau and Office of Emergency Management. The City's Fire Prevention Bureau provides planning and engineering services to the City; conducts fire and life safety inspections, and oversees the City's hazard abatement program. The Office of Emergency Management program provides a wide variety of training, such as Community Emergency Response Team training and Terrorism Awareness, to both employees and residents. Additionally, this program is tasked with preparing the City for any emergency situation through prevention, mitigation, preparedness, response, and recovery for a variety of natural or man made disasters that may occur in the community.

COOPERATIVE FIRE PROTECTION AGREEMENT

CAL Fire's mission, as directed and authorized by the State Legislature and statutes, is to provide contractual emergency service to local governments throughout California when requested. CAL Fire has provided cooperative fire protection services for over 100 years to various jurisdictions throughout the state including contracts with more than 140 cities, special districts, and counties. Locally CAL Fire, through Riverside County Fire, provides cooperative fire protection services to 21 of the 28 cities in Riverside County as well as to the Rubidoux Community Services District.

Riverside County Fire is a modern, full-service fire protection and emergency management agency that provides comprehensive fire protection services to its contract city partners. As part

of the contract with Riverside County Fire, the City receives the benefit of a cost effective regionalized cooperative fire protection system which includes:

- Consolidated dispatch center for emergency medical and fire dispatch
- Regionalized training program
- Hazardous materials response team
- Fire arson investigation
- Immediate use of fire hand crews, bulldozers, and aircraft
- Public information and education
- Assistance from the Riverside County Fire Office of Emergency Services

Riverside County Fire is committed to quality fire protection services to its contract partners. The County Fire Department strives to make the most effective use of limited emergency protection resources by efficiently sharing valuable personnel and equipment as part of the Riverside County Fire Department cooperative, integrated, regional fire protection system which includes all the resources from the 21 contract cities and Riverside County.

Through the City's cooperative agreement with Riverside County Fire, the City's Fire Chief is appointed by the Riverside County Fire Chief, John Hawkins. The Fire Chief acts as the City's liaison to Riverside County Fire, relaying information from City Council or the City Manager's Office directly to the Riverside County Fire/CAL Fire Western Deputy Chief who in turn reports to the Riverside County Fire Chief. Furthermore, the City's Fire Chief oversees the City's Fire Prevention Bureau, Office of Emergency Management, and handles all Fire Department related administrative issues.

The City of Moreno Valley is able to determine its staffing levels for various fire apparatus as long as those levels meet the minimum safe and acceptable levels for the Riverside County Fire Department. For example, the City could increase the daily staffing on fire engines from three firefighters to four, however, the City is unable to decrease from three personnel to two due to the minimum standard staffing level that has been established by the Riverside County Fire Department. The City ultimately retains control of the budget for the Fire Department as well as determining fire station locations. The City has worked in conjunction with the Riverside County Fire Strategic Planning Bureau in order to determine fire station locations. A discussion of the methodology for determining fire station locations is located on page 9.

CLIMATE AND TOPOGRAPHY

The City of Moreno Valley encompasses 51.5 square miles and is located in the northwestern portion of Riverside County with a population of 193,365. Moreno Valley is a mixture of residential, commercial, industrial properties with wildland urban interface areas on the north, east, and south sides of the City which includes Box Springs Mountain and San Timoteo Canyon to the north, the "Badlands" to the east, and Lake Perris State Park to the south.

The elevation in Moreno Valley ranges from 1,450 feet in the south to over 2,700 feet in the north. The slopes of the Box Spring Mountain, Reche Canyon, San Timoteo Canyon, the

"Badlands", and Lake Perris State Park are covered with volatile chaparral fuels and grass ground cover which are susceptible to fires and rapid growth. Once a fire starts, it can spread quickly to the surrounding vegetation and threaten homes located in the wildland urban interface.

Moreno Valley has a semi-arid climate that is similar to the climate found in many Mediterranean regions. The City experiences an average of 10 inches of rainfall a year with minimal threats of frost in the winter months. A majority of the rainfall in Moreno Valley occurs from December to March.

Moreno Valley can also experience strong wind conditions, known as the Santa Ana Winds, from late October through March. These winds can be extremely strong and blow from the north and northeast. These winds will greatly increase the intensity of any wildland fire should a fire occur during Santa Ana Wind conditions.

Summers in Moreno Valley are generally sunny with very warm to hot days. While average temperatures in July and August are in the mid 90's, it is not unusual to experience numerous days of 100 degree heat prior to a slight cooling off period. Monsoonal moisture can occur during the summer when moist air from the tropical regions of the Pacific and Gulf of Mexico bring higher humidity to the area, causing afternoon and evening thunderstorms.

BUDGET

The City of Moreno Valley continues to reel from the impacts of the Great Recession which is the worst economic crisis faced by this nation since the Great Depression of the 1930's. City operations rely heavily on revenue that is generated through economic stability, activity, and

MV00234527

growth. During this recession, Moreno Valley's General Fund revenue base has declined from a high of $97.8 million in Fiscal Year (FY) 2007-08 to a low of $68.0 million in FY 2010-11. This represents a reduction of $29.8 million or 30.4% in just three years.

Furthermore, the number of General Fund employees in Moreno Valley has declined from 283 employees in Fiscal Year 2007-08 to a low of 147 in FY 2011-12. Additional staffing reductions are planned for the next two fiscal years which will result in a workforce of 138 employees by FY 2013-14. This represents a 51.2% reduction in general fund employees over the course of five years.

To further exasperate the financial situation in Moreno Valley, the unemployment rate has ranged from 16.3% to a high of 17.6% over the last three years. Most recently, the unemployment rate decreased from 16.9% in August 2011 to 16.1% in September 2011. While the unemployment rate is improving, it is still well above the current nation unemployment average of 9% as reported in October 2011. This means that City residents have less discretionary income available to spend which results in less sales tax revenue for Moreno Valley. As sales tax revenue is second only to property tax revenue for the City's General Fund, any decrease in spending by consumers greatly affects the revenue for Moreno Valley.

Property values have also declined sharply since the beginning of the recession. Home values peaked at an average price of $400,678 in 2006 and sharply declined to a low of $137,748, a decrease of 65%. Property values are beginning to recover and as of the second quarter of 2011 the median home price in Moreno Valley was $266,000.

Similarly, property tax revenue for the City has declined over this period of time causing a major decrease in general fund revenue. A portion of the property tax revenue is designated as a structural fire tax and is utilized to help offset the cost for the City's fire protection services, however, these services have never been fully funded by the structural fire tax revenue. In FY 2007-06 the City collected a high of $6,858,622 in structural fire tax revenue which funded 54.8% of the fire services contract cost. By FY 2009-10, the revenue had declined to a low of $4,701,647 and only funded 36.3% of the contract costs. The City has had to cover this decline in revenue with other general fund revenue which has impacted the availability of funds to other City Departments.

While the City Council has tried to keep staffing levels in public safety at the same levels as FY 2007-08, the deep fiscal crisis facing Moreno Valley has forced City Council to decrease the number of public safety employees. As part of a 3-year deficit elimination plan, police department staffing levels are scheduled to be reduced by 12.7% by FY 2013-14 and the fire department was scheduled for a 15.5% reduction in staffing, which included the defunding of a truck company. However, this reduction will only be 8.2% when the Morrison Park Fire Station opens in the Fall of 2012 as the Fire Department will minimally increase staffing by seven firefighter personnel.

There are some signs that the economy in the Inland Empire, including Moreno Valley, is stabilizing. According to the November 2011 Beacon Economics report the combined Riverside and San Bernardino counties are stabilizing and can expect slow growth in employment for at

least the next five years. This strategic plan is formulated with the idea that the economic recovery for Moreno Valley will occur over the course of five to ten years.

ORGANIZATION OF THE MORENO VALLEY FIRE DEPARTMENT

The Moreno Valley Fire Chief oversees the City's Fire Operations, Fire Prevention, and the Office of Emergency Management programs. The structure of the City of Moreno Valley Fire Department can be seen below.

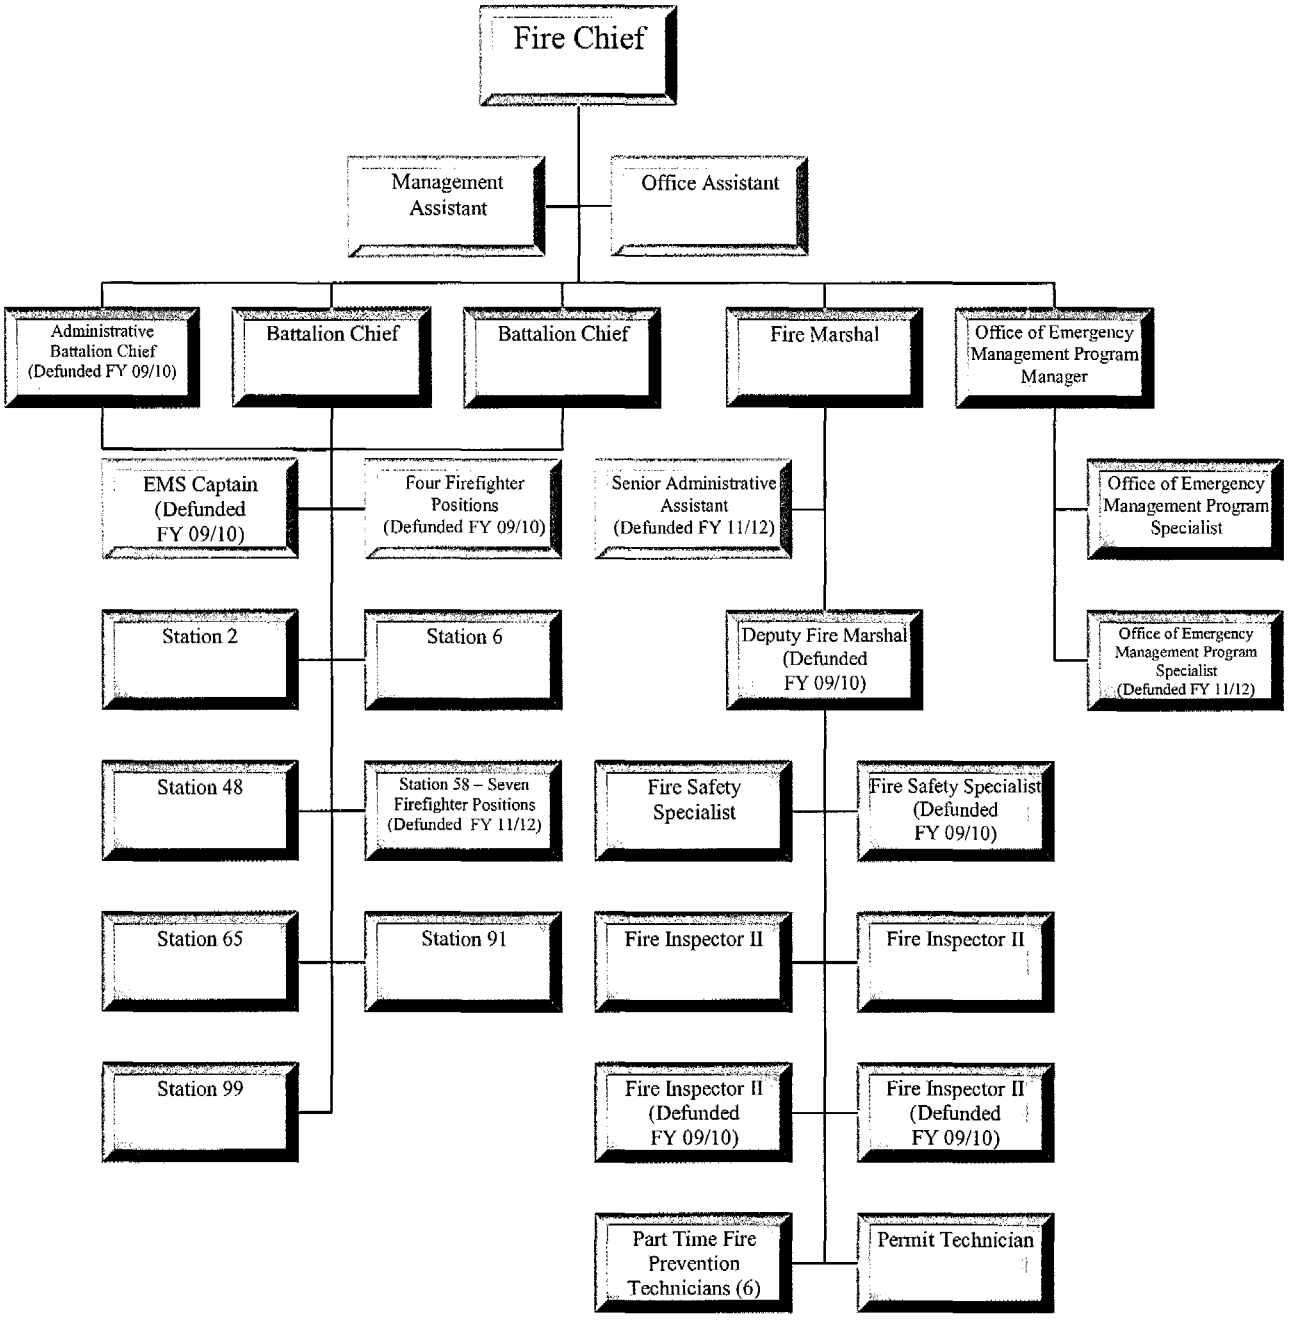

Chart 1: Moreno Valley Fire Department Organizational Chart

MORENO VALLEY
FIRE DEPARTMENT

MV00234529

The Fire Chief for the Moreno Valley Fire Department is a Division Chief within Riverside County Fire/CAL Fire. Below is an overview of the Riverside County Fire Department organizational chart for Western Operations.

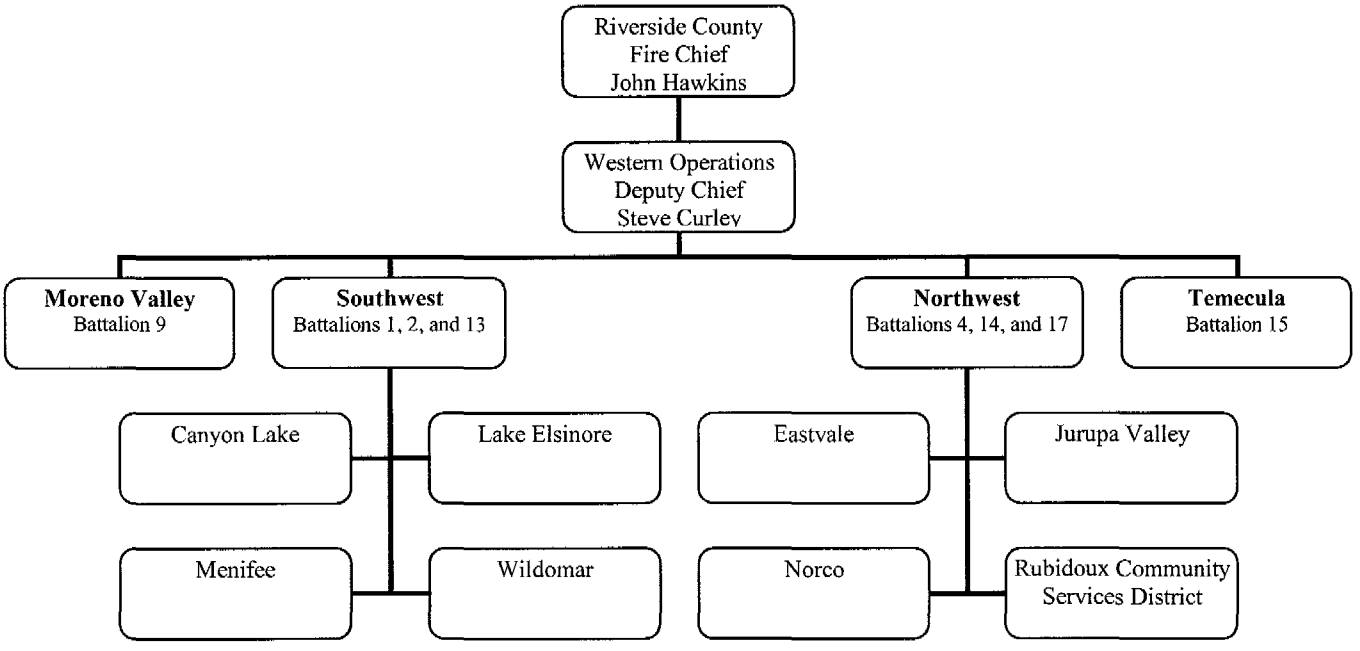

Chart 2: Riverside County Fire Department Organizational Chart Western Operations

FIRE STATION LOCATION METHODOLOGY

The Moreno Valley Fire Department, through their contract with Riverside County Fire, works with the Riverside County Fire Strategic Planning Bureau to determine fire station locations utilizing an established fire station location methodology. The purpose of having an objective fire station location methodology is to ensure that emergency services are delivered efficiently and effectively throughout the City.

The guiding principles for fire station locations are found in the National Fire Protection Association (NFPA) Fire Protection Handbook, Volume II, 20th edition. They include:

- Consideration of the criteria established by the Insurance Services Offices, Inc. (ISO) regarding the distribution of fire companies within a community
- Consideration of the NFPA Standard 1710 which calls for an engine company to arrive on scene within 4 minutes of travel time to fire incident and emergency medical aid calls 90% of the time. Additionally, this standard calls for a full first alarm assignment within 8 minutes of travel time 90% of the time
- Consideration of the proximity of travel time to other fire station protection zones for timely inclusion in the full first alarm assignment
- Consideration of rapid and safe access to multi-directional major response routes
- Consideration of appropriate locations, given the land use issues in the surrounding environment

MORENO VALLEY
FIRE DEPARTMENT

MV00234530

- Consideration of utility availability, plot size, land availability, and surrounding traffic control issues
- Consideration of historical and projected call volume (response workload) in the area under consideration using risk versus cost analysis

The process that the City of Moreno Valley utilizes when working with the Riverside County Fire Strategic Planning Bureau for determining future fire station locations include:

1. Identifying the geographic area of concern on a regional map
2. Utilizing computer response mapping software, locate a hypothetical station at or near the center of the geographic area of concern or near a major response route
3. Utilizing a realistic, safe response speed or appropriately varied response speeds, plot color-coded two-minute timed distances on all street and roads emanating from the hypothetical station spreading out from two minutes to ten minutes
4. Determine the number of responders and types of apparatus that would respond from that station for various types of calls and compare with department standards of cover for that type of area and its hazards
5. Evaluate the response time and resources that would be dispatched to fire and emergency medical aid calls for services from other stations to make-up the first alarm assignment standards of cover set by policy for that area
6. Adjust hypothetical station location, if necessary, while maintaining the station location as close to the center of that geographical area as possible to maintain equity of response times
7. Utilization of existing specific plan agreements that identify when a fire station will be built based on the development of a specific area reaching a set number of residential units or commercial/industrial square footage.

FIRE STATION LOCATIONS

The City of Moreno Valley has six fire stations with a seventh currently under construction. The locations for all seven fire stations are listed below. A map is located on the next page that indentifies their locations. Additionally, a second map has been included that shows the locations where the City is in the process of acquiring land or has completed land acquisitions for future fire station locations.

Fire Station 2

MV00234533

ANNUAL CALLS FOR SERVICE

Over the last five years the Moreno Valley Fire Department has seen an 11.1% increase in calls for service (Table 1). Through October of 2011, the City has seen a 6% increase over the same period of time for 2010 and it is anticipated that the total calls for service in 2011 will exceed 14,000.

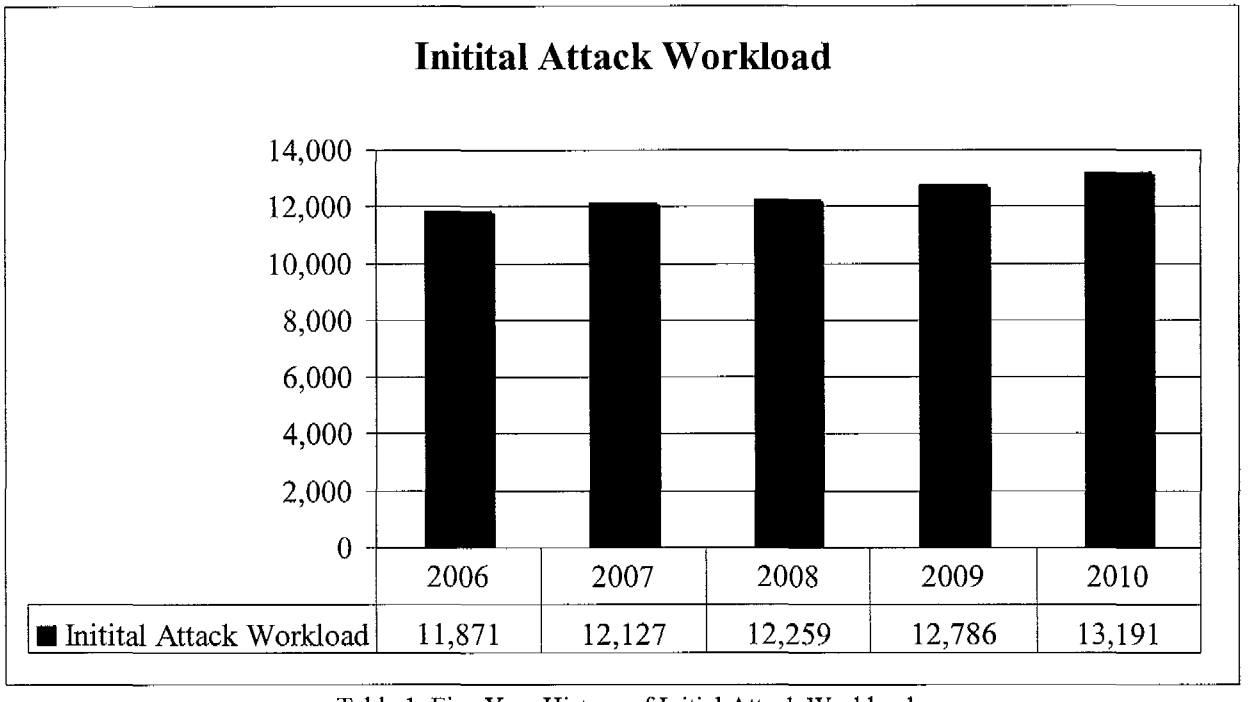

Table 1: Five Year History of Initial Attack Workload

ORGANIZATIONAL GOALS AND OBJECTIVES

The strategic plan for the Moreno Valley Fire Department establishes goals and objectives for Fire Operations, Fire Prevention, and the Office of Emergency Management. The Fire Chief directly oversees each division and these divisions have their own set of goals and objectives outlined below.

FIRE OPERATIONS

Fire Operations is the largest division within the Moreno Valley Fire Department, consisting of 72 sworn staff and 2 non sworn staff as of December 2011. The main mission of Fire Operations is to respond to emergency calls for service from the community and provide quality emergency services while protecting the life and property of the citizens of Moreno Valley. Although responding to emergencies is the primary mission of Fire Operations, there are several support activities conducted by both the sworn and non sworn staff that are vital to the operation of the division including:

MORENO VALLEY
MV00234534

- Fire company annual business/commercial fire inspections
- Development and management of the Department budget
- Coordinating and responding to non emergency requests for Fire Department services from both the City Council Office as well as the public
- Long range planning for the Fire Department
- Applying for Assistance to Firefighters grant and other grant opportunities

Goal 1: Financial Management and Accountability

Over the last several fiscal years the City of Moreno Valley has seen a reduction of $29.8 million in General Fund revenue. As public safety is funded out of the City's General Fund, staffing reductions have been made to both the Police Department and Fire Department by City Council. As the economy slowly begins to recover in Moreno Valley it is critical that the Fire Department continues to provide the best possible service to the community while maintaining a fiscally conservative mindset.

Strategies

1. Annually review the Fire Department false alarm fee to ensure all costs are being recovered for responses to commercial and residential fire alarm calls

MV00234535

   a. This fee has not increased since the ordinance was initially established in 1997. Currently the fee is set at $100 per residential fire false alarm and $200 for a commercial fire false alarm
   b. Propose a fee increase in FY 2012-13 to cover actual costs utilizing the Riverside County Fire model
2. Provide a five year forecast for expenditures and revenues for the Fire Department based on the current economic climate
3. Be an active, cooperative partner with Riverside County Fire/CAL Fire Cost Recovery Unit for recovering the costs associated with hazardous materials spills, negligent fire starts, and traffic accidents with an identified negligent driver
4. Review and revise staffing assumptions to provide the maximum coverage for all fire apparatus while minimizing the overall contract costs to the City
5. Apply for Assistance to Firefighters Grants for staffing, equipment, and fire safety items

Goal 2: Arrive On Scene within 5 Minutes of Dispatch 90% of the Time

The Moreno Valley Fire Department strives to meet the National Fire Protection Association (NFPA) 1710 guideline for fire department responses which allows firefighters one minute to don their turnouts once an emergency call for service is received from dispatch and four minutes of drive time. A fire department is to meet this 5 minute response standard 90% of the time (see Figure 1 on page 16). By maintaining this standard response time, the Moreno Valley Fire Department can minimize deaths and injuries associated with fires; minimize the direct and indirect losses due to fires; and minimize deaths for people experiencing sudden illness, accidents, or injuries.

Response times in Moreno Valley, until January of 2008, were tracked manually by fire station personnel and were reported to fire administration. Overall, response time statistics varied from 85% to 99% compliance with this goal depending on the time of year and the fire station. The manual process of tracking response times was discontinued when Riverside County Fire began a transition process in 2008 to track response times utilizing mobile data computers. This has been part of the Public Safety Enterprise Communication Project, also known as PSEC, which should be completed in early 2012. PSEC will enhance communication capabilities, data transmissions, and radio interoperability for both Riverside County Fire and the Riverside County Sheriff's Department. Information on response times will once again be available to the City when the system becomes fully operational.

Strategies

1. Review response times on a monthly basis beginning in 2012 to ensure this goal is being met
2. Evaluate current and future fire station locations with Riverside County Strategic Planning to ensure proper locations are selected for new fire stations so the NFPA 1710 response time standard can be met

MV00234536

3. Review staffing assumptions to ensure the appropriate amount of equipment is adequately staffed to respond to emergency calls for service, including a potential shift to paramedic rescue squads as discussed on page 29.
4. Support Riverside County Fire's efforts as they perform system upgrades to an emergency fire dispatch system that will allow them to dispatch and/or reroute the closest available unit for an emergency call for service
5. Support the City's Public Works Department with traffic mitigation efforts during peak hours of travel

Figure 1: NFPA Response Timeline Recommendations for Career Firefighters

Goal 3: Reduce the Risk of Fire to Residents through Prevention Campaigns and Mitigation Efforts

The best method for reducing fire fatalities and property loss is through fire prevention and public education initiatives. Public fire safety education initiatives play a major role in the prevention of fires. Public fire safety education through educational programs for schools, businesses, and civic associations have significantly reduced the numbers of fires in the community and have reduced the number of deaths and injuries associated with home fires.

MV00234537

Strategies

1. Coordinate with Riverside County Fire Department's Public Information Officers to:
   a. Continue to provide educational programs, such as the 9-1-1 for Kids program, to the community
   b. Submit articles on fire safety, flood safety, and disaster preparedness for inclusion in the City's monthly "e-newsletter" *City Link*
   c. Coordinate with the City's Media and Communication Division to post press releases from Riverside County Fire on the City's website when they contain information pertinent to City residents
2. Coordinate with Riverside County Fire Department's Public Information Officers and the City's Media and Communication Division to have public service announcements air on the City's government access channel MVTV-3 and develop new program content to address specific fire safety and disaster preparedness needs in the community
3. Continue to support fire personnel participation in fire safety education for school age children
4. Enhance the Moreno Valley Fire Department website with more fire safety and disaster preparedness information

Goal 4: Maintain a Strong Partnership with Riverside County Fire Department

The City of Moreno Valley has contracted with Riverside County Fire for fire protection services since 1984. Through open dialogue with the County, the City has expanded its services since incorporation to include municipal staffing and the addition of paramedic firefighters to all fire engine companies. It is important that the City maintains an open relationship to ensure that the City is receiving cost effective, quality fire protection services. The contract the City maintains with the County allows the City to provide excellent fire protection services and advance life support care at a cost savings to the City.

Strategies

1. Actively participate in all quarterly Contract Partners meetings with Riverside County Fire
2. Participate in subcommittees associated with cost allocation planning for fire protection services
3. Provide feedback on services, costs and other issues of concerns to the Riverside County Fire Chief and his staff
4. Review cost allocation plan and quarterly billing statements for transparency

Goal 5: Ensure Fire Administration Staffing is Sufficient for the Needs of the Department

To properly oversee Fire Operations it is important to both increase and enhance staffing in Fire Administration to ensure there is quality assurance oversight for the paramedic program as well as sufficient administrative staff to support the Fire Chief, two Battalion Chiefs, and in the future an Administrative Battalion Chief. The Fire Department, which consists of Fire Operations, Fire

Prevention, and the Office of Emergency Management, consists of 69 firefighter personnel, three chief officers, and nine City personnel for a total of 81 employees. The increase and enhancement of administrative staffing is necessary in order to ensure appropriate span of control is maintained, workloads are manageable, and job titles/descriptions are in line with the type of work being performed.

Strategies

1. Reestablish the Administrative Battalion Chief position to oversee personnel issues, schedule training, and provide leadership when the Fire Chief is unavailable
2. Reestablish the Emergency Medical Services (EMS) Captain to directly oversee the QA/QI of the City's paramedic program
3. Reclassify the Office Assistant position in Fire Administration to a Senior Administrative Assistant to provide improved administrative support for the Fire Chief, Battalion Chiefs, and EMS Captain
4. Reclassify the Management Assistant position to a Management Analyst position due to the type of work being performed in support of the Fire Chief
5. Consider adding two Battalion Chiefs when the City begins construction on an 8th fire station

FIRE PREVENTION

The Fire Marshal, under direction of the Fire Chief, manages the Fire Prevention Bureau. The Fire Prevention Bureau conducts fire and life safety inspections as well as plan reviews for new construction, existing buildings, and special events. The Bureau also oversees the City's Hazard Abatement Program and Multi-Family Residential Inspection Program to ensure multi-housing units receive state mandated annual inspections.

Fire Prevention is the second largest division of the Fire Department consisting of five non-sworn full time personnel and six non-sworn part time personnel. The division also has five defunded positions due to budget constraints.

Goal 1: Fiscal Sustainability

A brief overview of the fees charged for plan review and inspection of new development, existing construction, and hazard abatement shows that the City does not recover 100% of the costs associated with providing the staff and materials for these programs. As state legislation allows the City to recover all costs associated with providing these services, the Fire Department will continue to review the costs associated with performing these services and increase fees where appropriate.

Strategies

1. Examine cost recovery options that would lead to a cost neutral business model
2. Review fire fees to ensure appropriate cost recovery for services provided

3. Establish an appropriate fee schedule for the Multi-Family Residential Inspection Program

Goal 2: Ensure All Business and Commercial Occupancies Receive Annual Fire and Life Safety Inspections

Both Fire Prevention and Fire Operations perform annual fire and life safety inspections on business and commercial occupancies in Moreno Valley, however, not all of these occupancies receive an annual inspection. Currently, Fire Prevention is conducting a windshield survey to capture 100% of the businesses in Moreno Valley that are required to have annual fire and life safety inspections, including multi-family residential complexes.

Strategies

1. Complete the windshield survey to create a database that captures every business and commercial occupancy in the City
2. Ensure each occupancy that is required to have an annual fire and life safety inspection is assigned to a Fire Prevention Technician, Fire Prevention Inspector, or Fire Engine Company each year
3. Examine the use of new technology applications, such as iPad based inspection software, in order to automate inspection process, scheduling, and data entry

Goal 3: Perform Hazard Abatement Inspections Bi-Annually

The Fire Prevention Bureau conducts a hazard abatement inspection program on all vacant parcels of land in Moreno Valley on an annual basis. This process begins in the spring and concludes in the early summer. Typically, due to the climate conditions that exist in Moreno Valley, regrowth of grasses and tumbleweeds occur in early fall. Due to budget constraints, the Fire Prevention Bureau addresses the fall hazard abatement program on a case by case basis rather than performing a comprehensive, proactive city wide inspection program.

Strategies

1. Establish a Fall season hazard abatement program to address the accumulation of tumbleweeds and regrowth of vegetation from the Spring hazard mitigation efforts

Goal 4: Provide Efficient Plan Review

The Fire Prevention Bureau currently utilizes a 3rd party consultant to review all technical plans submitted to the City. All non-technical site review plans are reviewed by the City's Fire Safety Specialist. The Fire Prevention Bureau is examining a variety of measures to improve customer service including decreasing the turn-around times for initial review as well as evaluating the current fee schedule. The Fire Prevention Bureau is also investigating the utilization of electronic plan check submittal as an avenue for improving customer service.

MV00234540

Strategies

1. Examine methods for improving the Bureau's efficiency in reviewing building plans, such as electronic plan review and web based plan submittals
2. Develop an "Over the Counter" plan review pilot program for reviewing non-technical plans in order to reduce plan check turnaround times and decrease the cost to the customer

Goal 5: Evaluate Management Structure and Career Advancement within the Bureau

The Fire Marshal oversees five full time staff members and six part time staff. Over the last three years the Fire Prevention Bureau has been assigned the City's Hazard Abatement program and has recently implemented an inspection program to ensure every multi-family residential housing unit is inspected annually in accordance with state law. In order to improve supervision of field staff, the Fire Prevention Bureau has identified the need to re-establish the Deputy Fire Marshal position. Additionally, in order to promote staff from within the Bureau, the Fire Marshal will identify training opportunities for staff to improve their qualifications for career advancement.

Strategies

1. Identify a revenue stream to re-establish funding for the Deputy Fire Marshal position
2. Develop a level of succession to meet the needs of the Bureau

OFFICE OF EMERGENCY MANAGEMENT

The Fire Department's Office of Emergency Management is responsible for minimizing the impact of natural and man-made disasters by establishing readiness through city-wide prevention, preparedness, response, recovery and mitigation. This includes coordinating and conducting drills for the City's Emergency Operations Center (EOC) as well as providing a wide variety of training to both employees including Community Emergency Response Team (CERT) training, Terrorism Awareness training, and emergency preparedness training.

As part of the Moreno Valley Fire Department, and hence the Riverside County Fire Department, it is critical that the City's Office of Emergency Management collaborates projects, emergency management grants, emergency management exercises, and the management of declared local disasters with the Riverside County Fire Department Office of Emergency Services. Having an integrated, cooperative approach for addressing regional disasters benefits the community as resources can be allocated to areas where they are most critically needed during a major incident.

Goal 1: Provide Training to Employees and Citizens

Unfortunately, disasters take place all the time around the United States and the world. These can be naturally occurring disasters such as hurricanes, floods, wildfires, and tornados, or they can be man-made events such as terrorism attacks. It is very important that all City employees are

trained in their roles and responsibilities as disaster service workers and, even more importantly, that the citizens of Moreno Valley are trained so they are better able to provide for themselves and their families after a major event.

Strategies

1. Continue to conduct 2 ½ day Federal Emergency Management Agency (FEMA) CERT training a minimum of four times a year
2. Continue to provide emergency preparedness outreach activities to the community and utilize Riverside County Fire Office of Emergency Services as an additional training resource
3. Evaluate reinstating the City's CPR and First Aid program as cost neutral, alternative funding sources are identified
4. Work with the Riverside County Fire Public Information Officer and the City's Media & Community Division to have Earthquake Preparedness videos presented on the City's Government Access Channel, MVTV-3, as well as to place relevant emergency preparedness information on the City's website
5. Define priorities, develop and implement a five year emergency management exercise program
6. Utilize resources from the Riverside County Fire Office of Emergency Services to provide National Incident Management System (NIMS) training requirements
7. Continue NIMS training of City employees
8. Coordinate and manage citizen sworn disaster servicer workers

Goal 2: Incorporate Federal and State Legal Mandates and Standards into City Emergency Management Strategies

The Robert T. Stafford Disaster Relief and Emergency Assistance Act is a federal law designed to bring an orderly and systemic means of federal disaster assistance to state and local governments to assist them in carrying out their responsibilities to aid citizens. Congress' intention was to encourage states and local governments to develop comprehensive disaster preparedness plans, prepare for better intergovernmental coordination, and provide federal assistance programs for losses due to a disaster. There are several other pieces of legislation, such as the Emergency Services Act of 2006, that place mandates on local governments to ensure that local areas are prepared to respond to an emergency effectively and proficiently.

Strategies

1. Utilize the NIMS Capability Assessment Tool (NIMSCAST) process in developing NIMS compliancy
2. In coordination with the Riverside County Fire Office of Emergency Services and the California Emergency Management Agency (Cal EMA), complete NIMS resource typing and credentialing requirements
3. Update the City's Emergency Action Plan
4. Update the City's Local Hazard Mitigation Plan for submittal to FEMA by October 2016

5. Maintain an effective Emergency Operations Plan (EOP) consistent with local needs as well as state and national requirements

Goal 3: Continually Improve Emergency Operations Center (EOC) Functions and Capabilities Based on a Comprehensive Assessment

In order for the City to quickly and effectively manage any disaster it is essential to continually evaluate and improve the EOC to ensure it is in a constant state of readiness and to provide appropriate training to City staff.

Strategies

1. Improve and test EOC Standard Operating Procedures
2. Train EOC staff on updated protocols
3. Build personnel depth in EOC functional areas
4. Maintain and test City emergency management equipment and supplies to ensure the City remains in a constant state of readiness

Goal 4: Manage FEMA and State Disaster Recovery Projects to Ensure Timely Completion of Required Documentation

Large disasters such as Hurricane Katrina, the Loma Prieta Earthquake and the Northridge Earthquake have a major impact on local residents, the government, and the impacted areas' economic activity and base. The City of Moreno Valley expends resources in preparing for, responding to, and recovering from a disaster event. As an event progresses from preparatory activities to response activities to post event recovery, it is critical that the City maintains appropriate records to ensure that Moreno Valley can successfully recover costs associated with the disaster from federal and state disaster assistance programs. Appropriate documentation will also prepare the City to apply for future Hazard Mitigation Grants from the federal government.

Strategies

1. Coordinate with departments to provide accurate information for Preliminary Damage Assessment and appropriate documentation for Project Worksheets
2. Complete close out documentation and coordinate a FEMA review of completed projects

Goal 5: Maintain Effective Coordination and Partnerships with Local, Regional, and State Agencies

Maintaining and strengthening the City's relationships with various local, regional, and state agencies is vital to effectively coordinating emergency responses during disasters. The ability to interact with other jurisdictions, jointly perform emergency management exercises, and discuss regional response scenarios is vital to ensuring that not only do the citizens of Moreno Valley

MV00234543

receive assistance during a major disaster but also that the region receives assistance where it is most critically needed. More importantly, the City's Office of Emergency Management will need to work closely with the Riverside County Fire Office of Emergency Services to ensure preparedness activities as well as disaster responses are more regional in concept and in application.

Strategies

1. Participate in operational area, regional, and strategic planning activities
2. Provide feedback and participate in coordinated multi-jurisdictional/multi-agency exercises
3. Coordinate emergency response preparedness, exercises, and other activities with Riverside County Fire Office of Emergency Services, Riverside County operational area agencies, Cal EMA, and other local and regional stakeholders such as the school districts, hospitals, and March Air Reserve Base

FIRE FACILITY AND EQUIPMENT MASTER PLAN

Evaluating the existing and future infrastructure requirements for the Moreno Valley Fire Department is vital to ensuring the safety and protection of lives and property for the citizens of Moreno Valley. Having the appropriate facilities and equipment available are critical to the effective operation of the Moreno Valley Fire Department. As part of this strategic plan, the Fire Department is providing a ten year master plan for fire department facilities, equipment needs, and the importance of traffic mitigation.

FIRE FACILITIES

The Moreno Valley Fire Department participates in the City's Capital Improvement Project (CIP) budget each fiscal year. This budget identifies the fire facilities that are to be constructed in the next five fiscal years as well as future fire station locations and CIP needs (see Table 2 on page 24). Due to the size of Moreno Valley and the projected population at build out it is estimated that the City will need to plan for the construction of a total of 12-13 fire stations with a possible 14th fire station as an in fill fire station. The exact locations for all the necessary fire stations to provide adequate fire and medical aid responses to Moreno Valley residents and businesses will be determined utilizing the fire station methodology on page 8. The Fire Department has already identified the exact locations for the eighth and ninth fire stations which are located on the map on page 11.

In addition to building new facilities in accordance with the fire station methodology illustrated on page 8, the Fire Department needs to maintain its existing facilities as each fire station is expected to have a 50 year life span. This requires fire station personnel to continue to maintain these facilities at their current levels and to work with the Facilities & Maintenance Division to ensure the appropriate preventive maintenance work is being performed on the buildings.

The two oldest fire stations in Moreno Valley, Fire Station 48 and Fire Station 65, were built in the mid 1980's. Fire Station 65 is slated to be relocated in the next five to ten years as the southern area of the City continues to grow. Due to the construction of warehousing and distribution centers in that region of Moreno Valley, the Fire Department will need to build the Industrial Fire Station to provide adequate fire and emergency medical response coverage to that area. In order to maintain appropriate response times and emergency response coverage in the City, Fire Station 65 will need to be relocated northwest from its current location to accommodate the emergency response area of the Industrial Fire Station.

Description of Project	Projected Fiscal Year to Begin	Estimated Cost
Morrison Park Fire Station, Fire Station #99	FY 2010-11	$5,925,460
Remodel Fire Station 48	FY 2013-14	$4,173,000*
Relocation of Fire Station 65 (Note land acquisition occurred in FY 2011-12)	FY 2015-16 and Beyond	$7,540,000
Redlands Boulevard Fire Station (Note land acquisition occurred in FY 2011-12)	FY 2015-16 and Beyond	$7,640,000
Industrial Fire Station with Training Tower (Note land acquisition occurred in FY 2011-12)	FY 2015-16 and Beyond	$8,350,000
Public Safety Conversion – Includes Expansion of Fire Administration	FY 2015-16 and Beyond	$107,639,939
Cottonwood Park Fire Station – Infill Fire Station	FY 2015-16 and Beyond	$6,760,000
Fire Station (Future) Land Acquisition	FY 2015-16 and Beyond	$739,000
Gilman Station (Future)	FY 2015-16 and Beyond	$6,500,000
Northeast Station (Future)	FY 2015-16 and Beyond	$6,500,000
Fire Station 6 Storage Shed	FY 2015-16 and Beyond	$150,000
Total Estimated CIP Costs		**$161,917,399**

Table 2: Fire Department Capital Improvement Projects as Listed in the FY 2011-12 CIP Book
*Cost for the Fire Station 48 remodel is being reevaluated for the FY 2012-13 CIP

The current CIP proposes a major remodel/renovation of Fire Station 48 in FY 2013-2014 to extend the life span of the current facility. This remodel would include bathroom renovations to comply with ADA requirements; semi-privatization of sleeping quarters for privacy and modesty; kitchen renovations; and construction of an exercise room. A funding source for this project has yet to be identified.

FIRE APPARATUS

The Moreno Valley Fire Department currently has six fire stations staffed by six fire engines and two aerial apparatus (also known as truck companies) that respond to emergency calls for service

such as fires, medical emergencies, traffic accidents natural and manmade disasters, hazardous materials incidents, and rescue emergencies. A seventh fire station is slated to open in October of 2012 and will minimally be staffed with a fire engine.

Fire engines provide the initial response to any request for emergency service. These fire apparatus are staffed with paramedic firefighters to provide advance life support care for any medical emergency. Additionally, when responding to a fire, their primary responsibilities include laying water supply lines; locating, accessing, and extinguishing the fire; search and rescue if no truck company is available; and assisting in the overhaul and salvage. Truck companies provide search and rescue; forcible entry; a rapid intervention crew (RIC) in case of a building collapse; ventilation of smoke and hot gases; aerial water application; staffing to augment the engine company compliment; and provide backup response to emergency calls for service when engine companies are committed elsewhere.

Truck company personnel are trained to a higher level than fire engine personnel due to the nature of the calls they respond to. These incidents include swift water rescue, low angle rescue, high rise incidents, wide rise incidents, confined space rescue, and trench rescues. Truck companies also carry equipment not normally located on a fire engine. This equipment includes heavy rescue equipment, confined space rescue equipment, low angle rescue equipment, auto extrication equipment (Jaws of Life), a variety of ground ladders, smoke removal fans, and large water delivery appliances.

On an initial report of a fire there is an automatic dispatch of three fire engines, one truck company, and one Battalion Chief for a total of 13 personnel. When the fire is confirmed to be a working fire, there are two additional units dispatched providing a minimum of 19 fire personnel on scene per Riverside County Fire Department Policy which results in a total of 6 fire apparatus and one Chief Officer committed to the incident. This leaves a total of two fire apparatus available for dispatch in the City until Riverside County Fire is able to move up additional fire apparatus from neighboring jurisdictions to cover the City's vacant stations. This process could take up to 30 minutes, and not every vacant station in the City would be covered by the County or other local agencies.

The City participates in a cooperative, regionalized fire and rescue delivery system with the Riverside County Fire Department through the fire services contract the City has with the County. As part of this regionalized system, additional resources are available from the County and surrounding jurisdictions to Moreno Valley when there is an emergency in the City that is utilizing a majority of the City's resources. This allows some of the City's vacant fire stations to be staffed with fire apparatus from surrounding cities or from the County. Conversely, the City provides fire apparatus to local jurisdictions when they are experiencing either a major incident, or a series of incidents, that has left very few, if any, fire resources available for dispatch in that area. Through the Master Mutual Aid Agreement, the City is obligated to provide fire apparatus to other jurisdictions to assist in handling emergency calls for service, just as those jurisdictions are obligated to provide resources to the City.

As future fire stations are constructed to address new residential, commercial, and industrial development the Fire Chief will need to evaluate what existing fire stations and apparatus can

service the newly developed areas. This includes considering the ability to provide an emergency response into the new planning area within 5 minutes of receiving a dispatch from the Emergency Command Center and the ability to have an aerial apparatus on scene within 8 minutes of dispatch for any reported fires.

As new specific plans are submitted for the developing areas on the east end of Moreno Valley the Fire Department will need to consider what types of occupancies will be built; square footage of any commercial or industrial complexes, the number of new residential complexes that will be built; development of the roads servicing the area; and population increases in that area in order to appropriately staff any existing fire station or new fire station. This information will be utilized to determine what type(s) of fire apparatus will need to be purchased in order to provide adequate fire protection and emergency medical services to the new development area. The table below shows recommended first alarm responses for fires at high-hazard, medium-hazard, and low-hazard occupancies.

TRAFFIC MITIGATION

Traffic is, and will continue to be, an issue in the City of Moreno Valley. Traffic affects the safety of both firefighters and citizens in the community as well as response times to emergency calls for service and increases equipment wear. A recently published study by the United States Fire Administration, and the Department of Homeland Security, reported that since 1984 the percent of firefighter fatalities attributable to vehicle accidents has ranged annually from 20% to 25%. The same study discussed the importance of controlling traffic flow through an intersection to ensure the safety of the emergency responders as this is when emergency vehicles are most likely to be involved in an accident.

The City currently has 172 active traffic signals. Forty-two of these traffic signals have an emergency vehicle preemption system installed on them so that when an emergency vehicle equipped with a transponder can trigger a traffic signal to either remain green or turn a red light to green so that an emergency vehicle can traverse a signalized intersection with the right of way.

On December 6, 2011 the City's Public Works Department began the process to retrofit 115 intersections with an emergency vehicle preemption system, known as Opticom. It is estimated that this project will be completed in June 2012. Once the installation is complete, the Public Works Department will then budget funding to install Opticom at the remaining 15 intersections. At the direction of City Council, all new signalized intersections will have Opticom installed so that the City will have 100% of its signalized intersections covered by an emergency vehicle preemption system. This will vastly increase the safety to firefighters, the community, and reduce response times.

EMERGENCY MEDICAL DISPATCH

Emergency medical dispatch (EMD) is a recognized structured system used to determine the nature and severity of a medical problem, prioritize it so the appropriate level of Emergency Medical Services is dispatched safely, and provides the caller with instructions on how to assist

MV00234547

the patient until emergency medical services arrive. The system also allows dispatchers, based on a set of protocol and answers obtained from the caller, to triage emergency calls for service and dispatch a tiered level of emergency response. This reduces the risk to firefighters when responding to emergencies and also keeps units available for more urgent calls for service.

Dispatchers are the primary link between the public, who are in need of emergency medical care, and firefighters/ambulance personnel who can provide the required level of medical care. Dispatchers who utilize emergency medical dispatch protocols can assist with the immediate implementation of CPR, airway maintenance, hemorrhage control, emergency birthing instructions for women in labor, c-spine precautions, treatments for heat related or cold related emergencies, and auto injectors (Epi-pens) for allergic reactions.

Not all Public Safety Answering Points (PSAP) provide this service. In Riverside County only the cities of Riverside and Corona provide this service. In 2012, the Riverside County Fire Department Emergency Command Center will begin instituting several of the protocols associated with EMD. Riverside County will then look at utilizing EMD as a way to triage calls for service in order to dispatch the appropriate level of medical care, allowing fire apparatus to remain ready for emergency calls that may be more serious in nature. This system may also be used for coordinating a tiered level of response to fires.

FUTURE CONSIDERATIONS

The goal of any strategic plan is to map out the future direction for the Fire Department. Over the next ten years there will be items that will need to be discussed with the Riverside County Fire Department and with City Council in order to better serve the needs of the community and the needs of firefighting personnel. These items include:

- Construction of a training/drill tower
- Four person staffing
- Paramedic squads
- Dividing the City into two battalions
- Riverside County Fire Department fire apparatus lease program

CONSTRUCTION OF A TRAINING/DRILL TOWER

The Ben Clark Training Center, located at 16791 Davis Avenue in Riverside, is a regional training center for both law enforcement agencies and fire departments. The drill tower at this location is a regional training tower serving not only the Riverside County Fire Department but also the students at Moreno Valley College.

When utilizing the training tower, three fire apparatus are out of service in the City due to the distance they would need to travel from the Ben Clark Training Center back to Moreno Valley to respond to an emergency call for service. A local training tower would allow fire apparatus to stay within the city limits of Moreno Valley for multi-company training and be available to respond to emergencies.

Furthermore, training could be scheduled more frequently for City personnel. Being able to drill on a daily or weekly basis is an important component of building an effective and efficient fire ground operation for when a fire emergency occurs. The main benefit to being able to train more frequently for high rise emergencies is that it raises the level of safety for fire personnel. Additionally, they are able to provide a more organized response to high hazard incidents which can ultimately affect the outcome of the emergency situation.

Having a training tower located in Moreno Valley has been recognized in the City's Capital Improvement Project (CIP) budget since 1992 when the Fire Chief at the time requested its construction as part of the ten year CIP with construction to begin in Fiscal Year 1998–99. Due to financial considerations, and the size of property that would need to be purchased to accommodate a joint fire station and drill tower, the fire department has continuously deferred this project. However, with the pending land acquisition in the south end of the City of 4.78 acres, there is now not only the appropriate land size available but also the location is ideal as it is not near a residential development. The fire station and drill tower will be constructed shortly after Fiscal Year 2015-16.

FOUR PERSON STAFFING

A landmark study released by the National Institute of Standards and Technology (NIST) released in 2010 confirms that the size of fire fighting crews has a substantial effect on the fire service's ability to protect lives and property in residential fires. Conducted by a broad coalition in the scientific, fire fighting and public safety communities, the study results found that four person fire fighting crews were able to complete 22 essential fire fighting and rescue tasks in a typical residential structure 30% faster than two person crews and 25% faster than three person crews. This study was the first to quantify the effects of crew sizes and arrival times on the fire service's lifesaving and fire fighting operations.

Additionally, the Fire Department is subject to the Federal Regulation 1910.134 issued by the U.S. Department of Labor, Occupational Safety and Health Administration (OSHA) which requires two firefighters to enter a burning building together and two firefighters to be outside the building who are able to render immediate assistance should a rescue need to be made. This is commonly called the "two in/two out" rule. As the City staffs all fire engines with three fire personnel and the truck companies with four fire personnel, the engine is oftentimes waiting for the arrival of another fire apparatus in order to safely enter a burning building. The impact of not having essential equipment on scene in a timely manner could lead to an increase in the amount of property loss due to fires and potentially increase the loss of life should anyone be trapped inside. There is also an inherent risk to the firefighters the longer it takes to initiate an interior fire attack due to flashover conditions typically developing within 8 minutes of the start of a fire.

While the Fire Department desires to have four person staffing on all fire apparatus to increase the effectiveness of fire fighting operations it is unlikely that this will occur in the next five to ten years due to the economic situation in Moreno Valley and the cost associated with increasing staffing from three fire personnel on a fire engine to four. Utilizing information from the City's

contract with Riverside County Fire for Fiscal Year 2011-12, the cost per engine company per year would be $419,972 to add an additional firefighter or a total of $2,939,804 when accounting for the six fire engines the City currently staffs and the seventh fire engine that will be staffed when the Morrison Park Fire Station opens in 2012.

The City will need to consider the importance of increasing staffing to four person fire engine crews versus the importance of opening additional fire stations as calls for service increase due commercial and industrial buildings being constructed and population growth. With the approximate operating costs for a three person staffed engine company at $1.1 million a year, in theory, the City could staff two fire engines at two new fire stations with the savings from having three person staffed engine companies versus four person staffed engine companies. The Fire Chief is estimating the City will need to build its next two fire stations within the next eight years given the projected population growth and increase in commercial development for Moreno Valley.

The Fire Chief does recommend that the City, and specifically City Council, be aware of the importance of staffing fire engines with four fire personnel versus three and consider upgrading to four person staffing as economic conditions permit. The Fire Chief will work with the City to determine a way to balance the need to increase staffing to four person fire engine companies with the need to open new fire stations. One possibility for meeting the need to increase staffing for safer fire ground operations is presented in the Paramedic Squad section below.

PARAMEDIC SQUADS

The City's six fire engines are staffed with firefighter paramedics who provide advance medical care for medical emergencies and trauma. As calls for service continue to increase in the City of Moreno Valley, the Fire Chief will need to consider adding additional fire emergency response units to the existing fire stations in order to provide adequate personnel and equipment for emergency responses. As 84.4% of the Fire Department's emergency calls for service are for medical emergencies it is possible that the additional equipment would consist of a paramedic squad in lieu of a fire engine or fire truck.

One advantage to a paramedic squad is that it will allow for a tiered level of response for both medical and fire emergencies as discussed in the Emergency Medical Dispatch section of this strategic plan. The paramedic squads will also provide additional coverage at the busier fire stations for medical responses requiring advance life support and will provide more staffing for fire ground operations. Finally, there is a cost savings to both purchasing and staffing a paramedic squad. The cost for a paramedic rescue squad and its equipment is $92,907, which is over $400,000 less than the cost of a paramedic fire engine. Additionally, a squad is staffed with two Firefighter Paramedic personnel versus a fire engine that is staffed with one Fire Captain, one Fire Apparatus Engineer, and one Firefighter Paramedic. The cost for two Firefighter Paramedic personnel to cover the paramedic rescue squad seven days a week is estimated at $625,000, which is a 52% savings in personnel costs versus a paramedic fire engine which is approximately $1.2 million a year.

DIVIDING THE CITY INTO TWO BATTALIONS

The Moreno Valley Fire Department's Battalion Chiefs are responsible for the management of the City's six fire stations and 69 firefighting personnel, with one Battalion Chief on duty at all times. With the level of emergency activity in a city as large and complex as Moreno Valley, when the Morrison Park Fire Station opens in October 2012, the Fire Department will be at its upper most limit for reasonable efficiency expectations for a single battalion with only two Battalion Chiefs supervising field staff.

In order to provide appropriate supervision to field staff, accomplish administrative tasks, and respond to emergency calls for service, the Fire Chief will need to consider splitting the City into two battalions and adding two additional Battalion Chiefs when construction begins on an 8th fire station as the span of control for two Battalion Chiefs will be exceeded when the fire station opens and additional personnel are added. Battalion Chiefs ensure that fire stations are maintained, schedule personnel for training, investigate complaints from the public, and a variety of other administrative tasks in addition to providing operational expertise on the fire grounds. As the number of personnel and fire stations are expanded, the Fire Department need to hire additional Battalion Chiefs to ensure that the myriad of administrative tasks assigned to Battalion Chiefs as well as supervision of employees can be accomplished in an efficient and effective manner.

RIVERSIDE COUNTY FIRE APPARATUS LEASE PROGRAM

The City of Moreno Valley currently owns three of the six fire engines present in the City as well as the two 100' aerial ladder companies and one 75' quint that is a reserve ladder truck. The cost to purchase and equip a fire engine is estimated at $545,000 and is depreciated over 10 years. In order to cover the replacement cost of the fire engine, the City's Finance department charges the Fire Department an amount equal to the purchase price of the fire engine and its equipment divided by ten each fiscal year. Currently, this would be $54,500 per year for a new fire engine. The vehicle equipment replacement account allows the Fire Department to replace vehicles as needed once they have reached the end of their useful life span.

Three of the City's fire engines are leased from the County of Riverside at a cost of $19,200 per year per vehicle and includes preventive maintenance as well as the cost of both minor and major vehicle repairs. If the City was to transfer the title of the City owned fire engines to the County, the City would save $35,300 each year in vehicle replacement costs. Additionally, the City would save money on the repair of City owned fire engines as the City currently budgets money for any repair that exceeds $5,000. Should an expensive item such as a transmission or axle break on a fire engine the City would need to pay for the cost of the repair. For any leased fire engine the County is responsible for the maintenance of the vehicle and all vehicle repair work. This is a major benefit to the City as the Fire Department would no longer need to budget for expensive vehicle repairs. Furthermore, while it would be a minor savings, the City would no longer need to insure the City owned fire engines. The total insurance cost savings to the City would be $4,960 annually.

Under this program, the City would still need to make the initial purchase of the fire engine, and then transfer the title to the County. Once the title is transferred to the County it is then becomes the responsibility of the County to allocate the appropriate funding to replace the fire engines in the future and to budget for all vehicle repair costs. The County depreciates their vehicles over 20 years, however, when the fire engines reach a certain age, mileage, or condition it is placed into reserve status to extend its useful life to reach the full 20 years

Vehicles that are not covered by this program include the City's two 100' aerial ladder trucks and the 75' quint. The City will still be required to budget for any repair exceeding $5,000 on these two vehicles as well as budget for their replacement.

SUMMARY

This strategic plan lays the foundation for the development of the Moreno Valley Fire Department over the next ten years by identifying five goals for Fire Operations as well as five goals each for Fire Prevention and Fire Operations. These goals are:

FIRE OPERATION GOALS

- ***Goal 1:*** Financial Management and Accountability
- ***Goal 2:*** Arrive On Scene within 5 Minutes of Dispatch 90% of the Time
- ***Goal 3:*** Reduce the Risk of Fire to Residents through Prevention Campaigns and Mitigation Efforts
- ***Goal 4:*** Maintain a Strong Partnership with Riverside County Fire Department
- ***Goal 5:*** Ensure Fire Administration Staffing is Sufficient for the Needs of the Department

FIRE PREVENTION GOALS

- ***Goal 1:*** Fiscal Sustainability
- ***Goal 2:*** Ensure All Business and Commercial Occupancies Receive Annual Fire and Life Safety Inspections
- ***Goal 3:*** Perform Hazard Abatement Inspections Bi-Annually
- ***Goal 4:*** Provide Efficient Plan Review
- ***Goal 5:*** Evaluate Management Structure and Career Advancement within the Bureau

OFFICE OF EMERGENCY MANAGEMENT

- ***Goal 1:*** Provide Training to Employees and Citizens
- ***Goal 2:*** Incorporate Federal and State Legal Mandates and Standards into City Emergency Management Strategies
- ***Goal 3:*** Continually Improve Emergency Operations Center Functions and Capabilities Based on a Comprehensive Assessment
- ***Goal 4:*** Manage FEMA and State Disaster Recovery Projects to Ensure Timely Completion of Required Documentation

MV00234552

- ***Goal 5:*** Maintain Effective Coordination and Partnerships with Local, Regional, and State Agencies

This plan also identifies five key areas that need to be considered as the City continues to grow. These items will need to be assessed over the next decade and potentially implemented in order to provide quality services to Moreno Valley. These areas are:

- Construction of a training/drill tower
- Four person staffing
- Paramedic squads
- Dividing the City into two battalions
- Riverside County Fire Department fire apparatus lease program

Finally, the Moreno Valley Fire Department is a dynamic organization that must be able to react to change, resolve problems, and work together with other departments and agencies on issues that might arise. The intent of this plan is to serve as a guide for the Fire Department's development over the next ten year. It also serves as the foundation document for informing City Council as to the direction the Fire Department is headed in order to ensure the community continues to receive outstanding fire protection services. The Fire Department will review this plan biennially to ensure the goals outlined in this plan are being met.

MEMORANDUM

To: Mayor and City Council
Henry T. Garcia, City Manager

From: Mike McCarty, Director of Parks and Community Services

Date: June 6, 2012

Subject: Parks and Community Services Monthly Update

SPECIAL EVENTS

The City of Moreno Valley's July 4th Celebration will take place on July 4. The Independence Celebration will kick off with a parade sponsored by Waste Management from 9:30 a.m. to noon. The parade route will begin at Alessandro Boulevard, head north on Frederick Street, go west on TownGate Boulevard, and end at the TownGate Plaza at approximately 12:00 noon. The parade theme this year is *"United We Stand - A Moreno Valley 4th."* Organizations are invited to enter a float. Parade entry forms are currently available at Moreno Valley Conference and Recreation Center.

The festivities continue at Morrison Park and Mountain View Middle School located at the corner of Dracaea and Morrison. Gates open at 1:00 p.m. with the festival beginning at 2:00 p.m. NEW this year will be a Wine and Beer Garden. There will be food, arts and crafts, game booths, clowns, and entertainment. There may be a minimal fee for the various activities, such as the bouncers and game booths.

A main stage and a youth stage will guarantee enjoyment for the entire family. There will be several entertainers this year. At 3:00 p.m. the excitement will begin on stage when finalists compete for Moreno Valley Idol and only one will leave the stage as Moreno Valley Idol. At 4:00 p.m. a performance by "Michael John's Tribute to Billy Joel," followed by "BELLA DONNA - A Tribute to Stevie Nicks and Fleetwood Mac," and then "The Joshua Tree – A Tribute to U2." As a grand finale, the event will conclude with a fireworks extravaganza at 9:00 p.m., which will be simulcast with patriotic music by KOLA (99.9 FM). This promises to be the best July 4th show ever! Presale tickets for the event are available at the Moreno Valley Conference and Recreation Center from June 11 to July 3. Cost is $2 per person or $10 for a family (up to 6 people). On July 4, entry is free between 1:00 p.m. and 4:00 p.m. After 4:00 p.m. entry fee is $3 per person. Military service members with valid identification and children under 5 are free.

We thank the following sponsors who have contributed to our Celebration: City of Moreno Valley, KOLA 99.9, Moreno Valley Unified School District, Pepsi, Accurate Accessories, Waste Management, and Supervisor Marion Ashley.

The Moreno Valley Parks and Community Services Department announces the first annual Free Summer Movies in the Park series during the summer. Running from June 7 through August 2, please join us on Thursday evenings for fun, family-friendly movies at the Moreno Valley Conference and Recreation Center located at 14075 Frederick Street. All movies will begin at dusk with exciting pre-show activities also scheduled. Come early with your beach chairs and blankets to enjoy the show! Visit www.moval.org for a complete schedule of movies. For general information regarding Free Summer Movies in the Park, please contact the Moreno Valley Parks and Community Services Department at 951.413.3280.

PARK PROJECTS

1. March Field Park Soccer Arena

   Project Description: Installation of synthetic turf on the concrete surface of the existing hockey rink. The hockey rink has not been utilized for years. Converting the hockey rink to arena soccer will provide the City another lighted soccer field as well as added revenue from the concession.

   Status: The project was approved by City Council on April 10, 2012. Currently, the synthetic turf is being installed. Completion is scheduled for June 14.

2. Conference and Recreation Center – Ballroom Patio

   Project Description: Concrete will replace the turf between the concrete squares on the Ballroom's west patio.

   Status: The contract for work was awarded to NPG Inc. Work commenced on May 30. The project will take approximately three weeks.

3. Lasselle Sports Park

   Project Description: This developer-constructed (no cost to the City) project is 12¾ acres. Amenities are to include: restroom and concession, three turf football/soccer fields with natural turf, security lighting, picnic facilities, play apparatus, and parking for approximately 200 vehicles.

   Status: Completion of the project is planned for spring 2013. Listed below is a detailed status of the project.

   The developer is in the process of obtaining required permitting from the Department of Water Resources and the City.
   SWPP has been submitted.
   Fees for MSHCP, Parks Plan Check and Parks Inspection/testing have been paid by the developer.
   Burrowing Owl study needs to be performed.
   Grading Plans: Mylars signed.
   Building Plans: Plans have been approved.
   Site Improvement Plans: Plans and structurals are approved.
   Project Specifications: Under Parks and Community Services review.

MV00234556

Eastern Municipal Water District: Civil engineering, Recycled Water Use and Irrigation plans are approved.
Department of Water Resources: Approval of the Encroachment Permit has been granted.
Jurisdictional Permit #401: Pacific Development Inc. is working with the environmental consultant to obtain documentation, in order to proceed with the project.

4. Sports Field Automated Lighting Upgrade

Project Description: Upgrade lighted sports fields, utilizing an automated system meeting current City standards. This will allow staff to utilize one program for all lighted sports fields and save electricity.

Status: This phase of the project is completed. March Field Park Field #1 is planned for FY 12/13.

5. TownGate Community Center Exterior Painting

Project Description: Repaint exterior of the 7-year old TownGate Community Center. This will freshen up the facility and add years to the life of the building.

Status: The work has been completed.

6. TownGate Community Center Interior Painting

Project Description: Repaint interior of the 7-year old TownGate Community Center entrance and banquet room. This project includes minor repairs and new paint to freshen up the facility.

Status: The work is scheduled for the week of June 4.

PARKS MAINTENANCE DIVISION

1. Projects Completed

- Repaired playground at Patriot Park.
  - Repaired main line leaks golf course.
- Repaired mail box at golf course.
- Repaired and replanted parking lot planter at Bethune Park.
- Relamped sports field lighting at various parks.
- Trimmed and/or removed trees at various park sites.

2. Projects in Progress

- Weed abate Equestrian Center and Markborough property.
- Aerate sports fields and fertilize *(75% complete)*.
- Reseed turf areas from tree removals at various park sites.
- Top off playground fiber at Bethune, Pedrorena, Weston, and College parks.

MV00234557

- Install new exterior doors on restroom buildings at John F. Kennedy Memorial and Fairway Parks *(Ridgecrest Park completed)*.
- Repair playground Celebration Park.
- Weed all trails and parks.
- Trim trees in Celebration Park.
- Mulch all flower beds in all CFD #1 parks.
- Put decomposed granite on all trails.
- Work on CRC patio concrete.
- Place fiber at Patriot Park playground.
- Resurface Shadow Mountain.
- Sand and aerate greens and fertilizer greens.
- Verticut golf course.
- Aerate and fertilize parks.

3. Vandalism/Graffiti Damage

Vandalism and graffiti have been reported at the following areas: Adrienne Mitchell ($411), Aqueduct Bikeway ($335), Bayside ($103), Celebration ($123), Community ($644), El Potrero ($24), Gateway ($24), JFK ($76), Parque Amistad ($24), Sunnymead ($217), Towngate ($132), Victoriano ($24), Weston ($82), and Woodland ($228). The total cost for vandalism/graffiti was $2,447. Total labor hours for vandalism/graffiti were 52 hours, approximately 6½ full-time work days.

4. Mobile Stage Unit

May 5, 2012: Cinco de Mayo, Sponsored by Hispanic Chamber of Commerce

5. Park Volunteers

Court referrals performed a total of 369 hours during May. The total hours for court referrals in 2012 are 1,848 which equates to approximately 231 full-time work days.

RECREATION DIVISION

1. Recreation and Sports

May was busy for each of the three Time for Tots sites. New registration of children ages three to five years continued to increase as summer approached. All three sites were consistently full of children preparing for kindergarten as the 2011-2012 school year concluded. The registered participants enjoyed fun-filled, educational, and creative-themed curriculum during the month of May. In addition to the curriculum, special activity days were held throughout the month including Cinco de Mayo Celebrations, Mother's Day Celebration, Sports Day, and the annual end of the school year celebrations.

More than 100 mothers/grandmothers/aunts joined the Time for Tots' children and staff for the annual Mother's Day Celebration on May 9. The Conference and Recreation Center ballroom was full of music, multiple crafts, hot dogs barbequed

MV00234558

by the program's fathers, raffles, and a song performance by the program's participants.

The Time for Tots annual graduation ceremony will be held at the Conference and Recreation Center on June 6 at 6:00 p.m. inside the Grand Valley Ballroom.

The Time for Tots staff are also preparing for the summer sessions beginning June 18.

May was once again a busy month for recreation program and classes. Many of the dance and marital arts classes were filled with children and adults students learning a new art or skill. Several of these classes were also featured at the annual Spring Contract Class Performance, which was held on May 16 at the Conference and Recreation Center. The Grand Valley Ballroom was filled with more than 600 family members and friends to support more than 180 contract class participants. Twenty-two youth and adult contract classes performed for the supportive audience through two performances.

Sunshine Social's annual prom was held on May 9 at the TownGate Community Center. This year's theme was the '80's, and participants dressed in their favorite 1980's attire and danced the night away to the music hits of that time period. A royal court was crowned and announced during the event.

Summer Valley Kids Camp opened on May 29 for local children from the Val Verde Unified School District. Children enjoyed their break from school with recreational games, movies, video games, arts and crafts, and field trips. Registration numbers are expected to increase when students from the Moreno Valley Unified School District join Summer Valley Kids camp on June 11.

There are more than 150 participants for the Pee Wee and Junior T-ball program. The children will be learning the fundamentals of baseball two times a week at Bethune Park and Shadow Mountain Park.

More than 300 participants are registered for the Summer Youth and Teen Basketball League. Games will be held at the CRC on Tuesday, Wednesdays, Thursdays, and Saturdays throughout the summer. Championship games will be held on August 4.

All the adult sports programs have ended, and staff are gearing up for all to start in late June and early July.

2. Senior Community Center

On May 3 the Center held its Cinco de Mayo BBQ, which was sponsored by Easy Choice, with 100 seniors attending. The seniors had grilled chicken, hot dogs, potato salad, rice, beans, chips, and salsa, provided by Jose's.

On May 9 a Mother's Day Garden Party was held and sponsored by Health Net, with 56 mothers attending. The mothers were served tea and delicious desserts. The Ballet Folklorico Orgullo Mexicano performed for the mothers making this a memorable occasion for all.

MV00234559

The May Senior Birthday Party was celebrated on May 24. This event was sponsored by the Friends of Moreno Valley Senior Center, which provided a free meal. Miller Jones Mortuary donated a cake and ice cream.

Upcoming events include the Father's Day BBQ on June 14 and a Texas BBQ on July 12.

On May 6, May 12, and May 25, the seniors went on day trips to Spotlight 29 Casino, which cost $25 with $25 back in free play.

On May 7-9 there was a three day trip to Laughlin. The trip cost $70 for double occupancy with two free buffets.

On May 23 there was a day trip to Indian Casino Valley View at a cost of $25 with $15 back at the casino in free play.

On May 27 the seniors went on a day trip to Harrah's. The cost was $25 with $25 back at the casino in free play.

On May 28 the seniors went on a day trip to Buffalo Bills. The cost was $30 with a free buffet.

Donovan - A Tribute to Elvis

Donovan Chavez is an Elvis tribute artist. Donovan started singing when he was a child being inspired by the music of Elvis Presley. At the age of 17 he performed before a live audience. He placed in the top ten at Elvis Tribute Artist competition in Yuma, Arizona, was titled Ultimate Elvis in Temecula, California, as well as was voted #1 Elvis Tribute Artist in the Inland Empire in 2010 by Inland Empire Variety Magazine.

Donovan's father encouraged him to sing by telling him "You will get into singing when you grow up." Now, Donovan loves entertaining audiences while keeping the memory of Elvis alive.

His musical tribute will include greats like Rubberneckin', Return to Sender, A Little Less Conversation, Blue Moon of Kentucky, Suspicious Minds and a crowd favorite the gospel number How Great Thou Art.

The Moreno Valley Senior Community has booked ***Donovan's A Tribute to Elvis*** show for a live performance on ***Friday, June 8 from 11:30am to 12:30pm.***

Booking information for private engagements is available at 951-220-0914 or 909-519-9682.

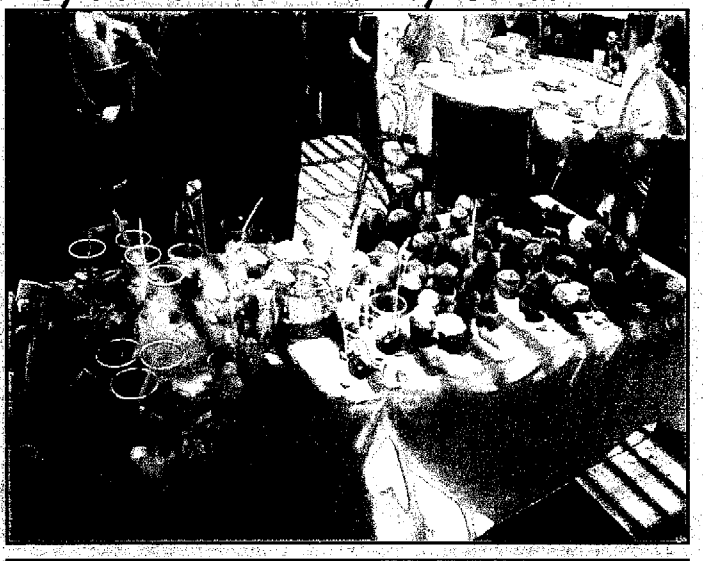
Mother's Day Tea at Moreno Valley Senior Community Center



Thanks to Health Net for co-sponsoring our Mother's Day Tea held on Wednesday, May 9. Colorful spring flowers adorned the outdoor patio and seashore inspired centerpieces were the topic of conversation among the fifty-six in attendance. Delightful staff served the traditional tea along with deliciously delectable desserts.

The honored mothers of the Moreno Valley Senior Community Center were also treated to a special performance by Ballet Folklorico Orgullo Mexicano making the afternoon a memorable occasion for all.

Mr. Adolf Kruger
11350 Lombardy Lane
Moreno Valley, CA 92557

Subject: Complaints Related to Noise Ordinance and Police Department Responsiveness

Dear Mr. Kruger:

The following is the response from the City Manager's Office regarding the complaints and concerns you expressed during our May 2, 2012 meeting:

Failure of the Moreno Valley Police Department to enforce the City's noise ordinance: We have discussed this matter with a number of Moreno Valley Police Department officials and are of the opinion that your complaints about the noise levels have been appropriately addressed by the City.

Formal complaints: You indicated in our meeting that you had approximately 24 outstanding formal complaints filed against members of the Moreno Valley Police Department. We have followed up with the Sheriffs' Department and confirmed that they are in fact investigating your complaints. You can expect to receive the final outcome on all of these complaints in June.

We are not unsympathetic to the frustrations you are experiencing regarding the toxic atmosphere that exists between you and your neighbors. However, by all accounts of everyone else we have spoken with, you are identified as the instigator in the majority of these incidents. For example, last week approximately 10 residents from your neighborhood attended the meeting of the City Council specifically to complain about you.

We understand that you feel as if City officials are not taking your concerns seriously. On the contrary, the Police Department estimates that you have been provided more service by their staff than probably any other resident in Moreno Valley. The Moreno Valley Police Department has the full confidence of the City Manager's Office. That being said, should the findings of your formal complaints ultimately warrant any disciplinary action, we are confident that the Sheriffs' Department will act accordingly.

Sincerely,

Michelle Dawson

Subject: Parks and Community Services Monthly Update

SPECIAL EVENTS

The City of Moreno Valley's July 4th Celebration will take place on July 4. The Independence Celebration will kick off with a parade sponsored by Waste Management from 9:30 a.m. to noon. The parade route will begin at Alessandro Boulevard, head north on Frederick Street, go west on TownGate Boulevard, and end at the TownGate Plaza at approximately 12:00 noon. The parade theme this year is *"United We Stand - A Moreno Valley 4th."* Organizations are invited to enter a float. Parade entry forms are currently available at Moreno Valley Conference and Recreation Center.

The festivities continue at Morrison Park and Mountain View Middle School located at the corner of Dracaea and Morrison. Gates open at 1:00 p.m. with the festival beginning at 2:00 p.m. NEW this year will be a Wine and Beer Garden. There will be food, arts and crafts, game booths, clowns, and entertainment. There may be a minimal fee for the various activities, such as the bouncers and game booths.

A main stage and a youth stage will guarantee enjoyment for the entire family. There will be several entertainers this year. At 3:00 p.m. the excitement will begin on stage when finalists compete for Moreno Valley Idol and only one will leave the stage as Moreno Valley Idol. At 4:00 p.m. a performance by "Michael John's Tribute to Billy Joel," followed by "BELLA DONNA - A Tribute to Stevie Nicks and Fleetwood Mac," and then "The Joshua Tree – A Tribute to U2." As a grand finale, the event will conclude with a fireworks extravaganza at 9:00 p.m., which will be simulcast with patriotic music by KOLA (99.9 FM). This promises to be the best July 4th show ever! Presale tickets for the event are available at the Moreno Valley Conference and Recreation Center from June 11 to July 3. Cost is $2 per person or $10 for a family (up to 6 people). On July 4, entry is free between 1:00 p.m. and 4:00 p.m. After 4:00 p.m. entry fee is $3 per person. Military service members with valid identification and children under 5 are free.

We thank the following sponsors who have contributed to our Celebration: City of Moreno Valley, KOLA 99.9, Moreno Valley Unified School District, Pepsi, Accurate Accessories, Waste Management, and Supervisor Marion Ashley.

The City of Moreno Valley offers local artists the opportunity to showcase their artwork in City facilities this summer. Through an Art Loan Policy adopted by the City Council, artists (living or deceased) who are connected to Moreno Valley through residence, work, or birth are encouraged to display their artwork in City Hall and the Council Chamber Lobby. The City's Arts Commission considers each work of art for quality, style, the type of media the artwork is displayed on, the nature of the artwork, diversity, and family-friendliness in order to make a recommendation to the City Manager for all exhibits at City facilities. Applications and the Art Loan Policy are available at the webpage for the City's Parks and Community Services Department: http://www.moval.org/city_hall/departments/pcs/index-parks.shtml. The submittal deadline for the summer 2012 season is June 7. Selected art pieces will be displayed between July 1 and September 30. For more information, please feel free to contact Moreno Valley Parks & Community Services at 951.413.3280.

The Moreno Valley Parks and Community Services Department announces the first annual Free Summer Movies in the Park series during the summer. Running from June 7 through August 2, please join us on Thursday evenings for fun, family-friendly movies at the Moreno Valley Conference and Recreation Center located at 14075 Frederick Street. All movies will begin at dusk with exciting pre-show activities also scheduled. Come early with your beach chairs and blankets to enjoy the show! Visit www.moval.org for a complete schedule of movies. For general information regarding Free Summer Movies in the Park, please contact the Moreno Valley Parks and Community Services Department at 951.413.3280.

PARK PROJECTS

1. March Field Park Soccer Arena

   Project Description: Installation of synthetic turf on the concrete surface of the existing hockey rink. The hockey rink has not been utilized for years. Converting the hockey rink to arena soccer will provide the City another lighted soccer field as well as added revenue from the concession.

   Status: The project was approved by City Council on April 10, 2012. A purchase order is being processed.

2. Conference and Recreation Center – Ballroom Patio

   Project Description: Concrete will replace the turf between the concrete squares on the Ballroom's west patio.

   Status: Quotes for the work are being obtained.

3. Lasselle Sports Park

   Project Description: This developer-constructed (no cost to the City) project is 12¾ acres. Amenities are to include: restroom and concession, three turf football/soccer fields with natural turf, security lighting, picnic facilities, play apparatus, and parking for approximately 200 vehicles.

MV00234576

Status: Completion of the project is planned for winter/spring 2013. Listed below is a detailed status of the project.

The developer is in the process of obtaining required permitting from the Department of Water Resources and the City. Completion of the project is planned for spring 2013.
SWPP is in progress.
Final City fees need to be paid by Developer.
Burrowing Owl study needs to be performed.
Grading Plans: Mylars signed.
Building Plans: Plans have been approved.
Site Improvement Plans: Plans and structurals are approved.
Project Specifications: Under Parks and Community Services review.
Eastern Municipal Water District: Civil engineering, Recycled Water Use and Irrigation plans are approved.
Department of Water Resources: Approval of the Encroachment Permit has been granted.
Jurisdictional Permit #401: Pacific Development Inc. is working with the environmental consultant to obtain documentation, in order to proceed with the project.

4. Sports Field Automated Lighting Upgrade

Project Description: Upgrade lighted sports fields, utilizing an automated system meeting current City standards. This will allow staff to utilize one program for all lighted sports fields and save electricity.

Status: Materials are expected to be delivered early this month. The project is in progress. Completion is estimated for May 2012.

5. TownGate Community Center Exterior Painting

Project Description: Repaint exterior of the 7-year old TownGate Community Center. This will freshen up the facility and add years to the life of the building.

Status: The work is in progress.

PARKS MAINTENANCE DIVISION

1. Projects Completed

- Replaced slide at Bethune Park playground.
- Removed barbeques from TownGate Park.
- Got Celebration Park water feature ready for summer.
- Removed sand and aerated all greens and tees.

2. Projects in Progress

- Repair and replant parking lot planter at Bethune Park.
- Aerate sports fields and fertilize.

MV00234577

- Relamp sports field lighting at various parks.
- Tree trimming and removal at various park sites (80% complete).
- Reseed turf areas from tree removals at various park sites.
- Top off playground fiber at Bethune, Pedrorena and Weston Parks.
- Install new exterior doors on restroom buildings at JFK and Ridgecrest Parks.
- Repair playgrounds at Patriot and Celebration Parks.
- Weed all trails and parks.
- Repair main line leaks golf course.
- Repair mail box at golf course.
- Trim trees in all parks.
- Mulch all flower beds in all CFD #1 parks.
- Put decomposed granite on all trails.
- Work on CRC patio concrete.
- Place fiber at Patriot Park playground.

3. Vandalism/Graffiti Damage

Vandalism and graffiti have been reported at the following areas during April: Adrienne Mitchell ($41), Aqueduct Bikeway ($679), Bayside ($91), Bethune ($41) Community ($601), El Potrero ($108), Gateway ($24), JFK ($43), Morrison ($82), Parque Amistad ($111), Rancho Verde Trail ($82), Sunnymead ($834), Towngate ($621), Victoriano ($82), Westbluff ($24), Weston ($87), and Woodland ($230). The total cost for vandalism/graffiti during April was $3,781. Total labor hours for vandalism/graffiti were 82½ hours, approximately 10 full-time work days.

4. Mobile Stage Unit

April 8: Calvary Chapel of Moreno Valley Easter Service

5. Staff Training

April 26: Softball Fields Tips and Techniques for Professional Groundskeeping

6. Park Volunteers

Court referrals performed a total of 270 hours during April. The total hours for court referrals in 2012 are 1,479 which equates to approximately 185 full-time work days.

RECREATION DIVISION

1. Recreation and Sports

New enrollments in the Time for Tots program is expected to increase as spring progresses. All three sites are consistently full of children preparing for kindergarten. The registered participants enjoyed fun-filled, educational, and creative themed curriculum during the month of April. In addition to the curriculum, special activity days were held throughout the month including a field trip to the fire

MV00234578

station, Around the World Day, the annual Spring Celebration, Arbor Day, and Lifetouch Spring/Graduation Picture days.

On April 17 the children took a walking field trip from TownGate Community Center to Fire Station #6 at TownGate. More than 90 children and 25 parents visited the station and had first-hand tours of the various trucks, equipment, kitchen, and sleeping quarters of the local firefighters. We thank Fire Station #6 for being such gracious hosts and answering the many (many) questions our children ages 3 to 5 years asked.

Staff continue to stay busy planning the end of the year Time for Tots activities. The regular school year will come to a close on May 31. The annual graduation ceremony will be held at the Conference and Recreation Center on June 6 at 6:00 p.m. inside the Grand Valley Ballroom

The Time for Tots staff are also currently creating curriculum for the summer session beginning June 18.

Children's dance classes, including Dance Exploration, Ballet, Ballet/Acro, Hip-hop, Folkloric, and Hawaiian continued to fill with children eager to prepare for the upcoming Spring Contract Class Performance to be held on May 16 at 6:00 p.m. at the Conference and Recreation Center's Grand Valley Ballroom. With summer quickly approaching, recreation staff have been busy recruiting contract instructors for a variety of new classes and programs to begin in the summer sessions. New classes being introduced include Electric Guitar, CPR, Comic Book Creation, and soccer camp.

Sunshine Social's annual prom is quickly approaching. This year's theme is the '80's and will be held at the TownGate Community Center on May 9. Participants will come dressed in their favorite 1980's attire and dance the night away to the music hits of that time period. A royal court will be crowned and announced during the event. It will be an exciting event too special to miss!

Spring Valley Kids Camp concluded on April 6 for children in kindergarten through eighth grades. Local children from Moreno Valley and Val Verde Unified School Districts enjoyed their break from school spending their days at camp playing exciting recreational games, watching movies, playing video games, and nurturing their creativity with arts and crafts. Registration numbers showed an increase from last year's Spring Camp, and staff look forward to Summer Valley Kids Camp beginning May 29.

2. Senior Community Center

On April 4 the Center held its Spring Bonnet Parade sponsored by Health Net. There were five contestants, who all received prizes.

The final day of free tax service by AARP was April 17.

The April Senior Birthday Party will be celebrated on April 26 at 12 p.m. This event is sponsored by the Friends of Moreno Valley Senior Center, which provides a free meal and a box of candy. Miller Jones Mortuary donates a cake and ice cream.

MV00234579

Upcoming events include Cinco de Mayo BBQ on May 3 and Mother's Day Tea on May 9.

Trips included day trips to Spotlight 29 Casino on April 5, April 11, and April 27 for $25, which included $25 back in free play; an overnight trip to Las Vegas on April 7-8 for $55, which included two free buffets; and a day trip to Harrah's on April 29 for $25, which included $25 back in free play.

Activity Spotlight

Cinco de Mayo BBQ

at the Senior Center
from 1-3pm
Thursday, May 3

In the United States, Cinco de Mayo has taken on a significance beyond that in Mexico. The date is perhaps best recognized in the United States as a date to celebrate the culture and experiences of Americans of Mexican ancestry.

Food and fun for all seniors.

Memorial Day

Formerly known as Decoration Day, it originated after the American Civil War to commemorate the fallen Union soldiers of the Civil War. Southern ladies organizations and southern schoolchildren had decorated Confederate graves in Richmond and other cities during the Civil War, but each region had its own date. Most dates were in May. By the 20th century Memorial Day had been extended to honor all Americans who have died in all wars. Memorial Day is a day of remembering the men and women who died while serving in the United States Armed Forces.

Moreno Valley Senior Community Center will be CLOSED Monday, May 28

E-Books at Moreno Valley Public Library

Doors opened July 1, 1998 to the Moreno Valley Public Library. Today, the library announces that electronic books, better known as e-books, are now available to library cardholders through the library's website. Cardholders will be able to check out e-books for up to two weeks through the Axis 360 service. E-books include color picture books for children, and fiction and non-fiction titles for all ages. Browse by subject, by book reviews, or consider the recommended reading titles. Thanks to the generous support from the Moreno Valley Friends of the Library.

This service makes getting to the library possible even from home. Enjoy your e-reading!

The PEARLS Program (Program to Encourage Active, Rewarding Lives) is a highly effective method designed to reduce depressive symptoms and improve quality of life in older adults and in all-age adults with epilepsy. During six to eight in-home sessions that focus on brief behavioral techniques the PEARLS Program counselors empower individuals to take action and to make lasting changes so that they can lead more active and rewarding lives. As part of the Riverside County Department of Mental Health the program is offered at no-cost.

PEARLS

The PEARLS Program is a highly effective method designed to reduce depressive symptoms and improve quality of life in older adults and in

THE PROGRAM

- Focuses on teaching each client the skills necessary to move to action and make lasting life changes
- Is delivered in the client's home
- Is designed to be delivered in the community, primarily through existing service-provision programs
- Takes a team-based approach, involving PEARLS counselors, supervising psychiatrists and medical providers
- Aims to improve quality of life as well as reduce depressive symptoms and Is well-suited for individuals with chronic illness

The PEARLS Program's in-home delivery method overcomes limitations in ambulation or transportation that are common in the populations it serves. By providing "house calls" for depression, PEARLS counselors can ensure more regular contact with their clients than would often be possible in outpatient settings. This feature of PEARLS is based on evidence that home-based treatment can reduce depression among socially isolated, older or chronically ill adults.

PEARLS Program counselors can meet with individuals and help identify and solve problems that are linked to making one feel the way they do. Additionally, they will help you find ways to become physically and socially active.

Angie Elizondo and Sheila Smith are Behavioral Health Specialists for the PEARLS Program. They will be at our center on **Wednesday, May 23 from 11:30am to 1:30pm.**

Their office is located at Tyler Village Wellness and Recovery Clinic for Mature Adults at 10182 Indiana Av, Riverside, CA 92503, 951-509-2400.

MORENO VALLEY
WHERE DREAMS SOAR

CITY OF MORENO VALLEY
Parks and Community Services Department
Administration

CITY COUNCIL
MORENO VALLEY
RECEIVED
12 APR 10 PM 2:00

MEMORANDUM

To: Mayor and City Council
Henry T. Garcia, City Manager

From: Mike McCarty, Director of Parks and Community Services

Date: April 9, 2012

Subject: Parks and Community Services Monthly Update

SPECIAL EVENTS

The City of Moreno Valley's July 4th Celebration will take place on July 4. The Independence Celebration will kick off with a parade sponsored by Waste Management from 9:30 a.m. to noon. The parade route will begin at Alessandro Boulevard, head north on Frederick Street, go west on TownGate Boulevard, and end at the TownGate Plaza at approximately 12:00 noon. The parade theme this year is *"United We Stand - A Moreno Valley 4th."* Organizations are invited to enter a float. Parade entry forms are currently available at Moreno Valley Conference and Recreation Center.

The festivities continue at Morrison Park and Mountain View Middle School located at the corner of Dracaea and Morrison. Gates open at 1:00 p.m. with the festival beginning at 2:00 p.m. NEW this year will be a Wine and Beer Garden. There will be food, arts and crafts, game booths, clowns, and entertainment. There may be a minimal fee for the various activities, such as the bouncers and game booths.

A main stage and a youth stage will guarantee enjoyment for the entire family. There will be several entertainers this year. At 3:00 p.m. the excitement will begin on stage when finalists compete for Moreno Valley Idol and only one will leave the stage as Moreno Valley Idol. At 4:00 p.m. a performance by "Michael John's Tribute to Billy Joel," followed by "BELLA DONNA - A Tribute to Stevie Nicks and Fleetwood Mac," and then "The Joshua Tree – A Tribute to U2." As a grand finale, the event will conclude with a fireworks extravaganza at 9:00 p.m., which will be simulcast with patriotic music by KOLA (99.9 FM). This promises to be the best July 4th show ever! Presale tickets for the event are available at the Moreno Valley Conference and Recreation Center from June 11 to July 3. Cost is $2 per person or $10 for a family (up to 6 people). On July 4, entry is free between 1:00 p.m. and 4:00 p.m. After 4:00 p.m. entry fee is $3 per person. Military service members with valid identification and children under 5 are free.

We thank the following sponsors who have contributed to our Celebration: City of Moreno Valley, KOLA 99.9, Moreno Valley Unified School District, Pepsi, Accurate Accessories, Waste Management, Supervisor Marion Ashley.

Moreno Valley's first annual Wine and Art Show is scheduled to take place at the TownGate Community Center on May 11 from 7 pm to 10 pm. The Moreno Valley Arts Commission and the Moreno Valley Parks and Community Services Department invite artists to exhibit their original artwork at the event. Participation is open to all artists to showcase their works of original concept, design and execution in painting, drawing, collage, graphics, photography and mixed media. Applications are available at www.moval.org. The application deadline is April 22. Contacts for more information: Carlos Castillo, Arts Commissioner, mypainting@castilloportraits.com or 909.894.8191. Parks and Community Services at recreation@moval.org or [redacted] or [redacted]

The Moreno Valley Arts Commission is sponsoring a Community Arts Forum from 10:00 a.m. to 12:00 noon on April 21. This event is free to the public and will be held at the Moreno Valley Senior Citizens' Center located at 25075 Fir Avenue. This Forum is open to anyone who has an interest in developing a vibrant arts community in Moreno Valley. "We are especially trying to reach out to artists, writers, dancers, singers, musicians, as well as any performing groups currently active in the city," noted Commissioner Van Hala. "We are hoping to form a working liaison with as many arts groups as possible, in order to promote and support their activities. One of our goals is to have all arts events listed on a community calendar that would be easily accessible on the city website."

Another topic on the agenda will be the formation of an arts-oriented 501(c)(3) non-profit organization that will support community art projects, such as the opening of an arts gallery in the TownGate Mall, and eventually help raise funds for a much-needed performing arts center in the city. Along with these activities, the Arts Commission hopes to establish an arts guild of volunteers who are willing to donate their time and talents to help revitalize the arts in Moreno Valley.

The City of Moreno Valley offers local artists the opportunity to showcase their artwork in City facilities this summer. Through an Art Loan Policy adopted by the City Council, artists (living or deceased) who are connected to Moreno Valley through residence, work, or birth are encouraged to display their artwork in City Hall and the Council Chamber Lobby. The City's Arts Commission considers each work of art for quality, style, the type of media the artwork is displayed on, the nature of the artwork, diversity, and family-friendliness in order to make a recommendation to the City Manager for all exhibits at City facilities. Applications and the Art Loan Policy are available at the webpage for the City's Parks and Community Services Department: http://www.moval.org/city_hall/departments/pcs/index-parks.shtml. The submittal deadline for the summer 2012 season is June 7. Selected art pieces will be displayed between July 1 and September 30. For more information, please feel free to contact Moreno Valley Parks & Community Services at [redacted]

The Moreno Valley Parks and Community Services Department announces the first annual Free Summer Movies in the Park series during the summer. Running from June 7 through August 2, please join us on Thursday evenings for fun, family-friendly movies at the Moreno Valley Conference and Recreation Center located at 14075 Frederick Street. All movies will begin at dusk with exciting pre-show activities also scheduled. Come early with your beach chairs and blankets to enjoy the show! Visit www.moval.org for a complete schedule of movies. For general information regarding Free Summer Movies in the Park, please contact the Moreno Valley Parks and Community Services Department at [redacted]

MV00234595

The Moreno Valley Wind Symphony will present their annual spring concert on April 19 at the Conference and Recreation Center. The concert will begin at 7:00 p.m. The concert series is sponsored by the City of Moreno Valley and open to the public with no admittance fee required.

PARK PROJECTS

1. March Field Park Soccer Arena

   Project Description: Installation of synthetic turf on the concrete surface of the existing hockey rink. The hockey rink has not been utilized for years. Converting the hockey rink to arena soccer will provide the City another lighted soccer field as well as added revenue from the concession.

   Status: The project's report is scheduled for City Council review on April 10, 2012.

2. Celebration Park Splash Pad Surfacing

   Project Description: The splash pad will be coated with a slip resistant clear sealer, prior to its opening for the summer season.

   Status: The project has been completed.

3. Lasselle Sports Park

   Project Description: This developer-constructed (no cost to the City) project is 12¾ acres. Amenities are to include: restroom and concession, three turf football/soccer fields with natural turf, security lighting, picnic facilities, play apparatus, and parking for approximately 200 vehicles.

   Status: Completion of the project is planned for winter/spring 2013. Listed below is a detailed status of the project.

   The developer is in the process of obtaining required permitting from the Department of Water Resources and the City. Completion of the project is planned for spring 2013.

   SWPP is in progress
   Final City Fees need to be paid by Developer
   Burrowing Owl study needs to be performed
   Grading Plans: Mylars signed
   Building Plans: Plans have been approved
   Site Improvement Plans: Plans and structurals are approved
   Project Specifications: Under Parks and Community Services review
   Eastern Municipal Water District: Civil engineering, Recycled Water Use and Irrigation plans are approved.
   Department of Water Resources: Informal approval of the Encroachment Permit has been granted. Waiting for the issuance of the signed permit.
   Jurisdictional Permit #401: Pacific Development Inc. is working with the environmental consultant to obtain documentation, in order to proceed with the project.

MV00234596

4. Sports Field Automated Lighting Upgrade

Project Description: Upgrade lighted sports fields, utilizing an automated system meeting current City standards. This will allow staff to utilize one program for all lighted sports fields and save electricity.

Status: Materials are expected to be delivered early this month. The project's completion is estimated for summer 2012.

5. TownGate Community Center Exterior Painting

Project Description: Repaint exterior of the 7-year old TownGate Community Center. This will freshen up the facility and add years to the life of the building.

Status: A purchase order has been issued. The work will be completed by June 30.

PARKS MAINTENANCE DIVISION

1. Projects Completed

- Repaired drain pipe at Cottonwood Golf Course.
- Sprayed all trails for weeds.
- Sprayed all parks for weeds.
- Sprayed herbicides for annual weed control at all park sites.

2. Projects in Progress

- Repair and replant parking lot planter at Bethune Park.
- Aerate sports fields.
- Relamp sports field lighting at various parks.
- Tree trimming and removal at various park sites *(80% complete)*.
- Reseed turf areas from tree removals at various park sites.
- Replace slide at Bethune Park playground.
- Top off playground fiber at Bethune, Pedrorena and Weston Parks.
- Remove barbeques from TownGate Park.
- Get Celebration Park water feature ready for summer.
- Repair playgrounds at Patriot and Celebration Parks.
- Weed all trails and parks.
- Remove sand and aerate all greens and tees.

3. Vandalism/Graffiti Damage

Vandalism and graffiti have been reported in March at the following areas: Aqueduct Bikeway ($486), Bayside ($106), Celebration ($41), Community ($1,924), El Portero ($159), Fairway ($25), JFK ($230), Ridgecrest ($47), Shadow Mountain ($24), Sunnymead ($226), TownGate ($268), Victoriano ($60), Weston ($47), and Woodland ($299). The total cost for vandalism/graffiti in March was $3,942. Total labor hours for vandalism/graffiti were 82.5 hours, approximately 10 full-time work days.

MV00234597

4. Mobile Stage Unit

March 31, 2012: City of Perris, Relay for Life

5. Training

March 15, 2012: Tree Trimming Safety
March 30, 2012: Preventing Trip and Slip Injuries

6. Park Volunteers

Court referrals performed a total of 288 hours during March 2012. The total hours for court referrals in 2012 are 1,209 which equates to approximately 151 full-time work days.

RECREATION DIVISION

1. Recreation and Sports

March was full of excitement for the Time for Tots Program with each of the three sites full of children ages three to five years. In addition to the creative educational curriculum preparing the children for kindergarten, children celebrated special activity days in March by learning about one of our favorite children's authors on Dr. Seuss Day, visiting with officers from the Moreno Valley Police Department and Roberto Ramos (one of the city's youth martial arts instructors) on Safety Day, learning about the color green on St. Patrick's Day, learning about the change of seasons on the first day of spring, and learning about the origin of pizza on Pizza Mania Day.

March also saw a continued increase in new registrations for many youth classes including Dance Exploration, Hip-hop, Ballet, Ballet/Acro, Tae Kwon Do, Kinder Karate, and Kung Fu. Staff have also continued to be busy recruiting new contract class instructors for additional classes to be offered during the summer.

The Spring Contract Class Performance is scheduled for May 16 at the Conference and Recreation Center for participating classes.

Spring Valley Kids Camp began on March 26 with steady enrollment for children in kindergarten through eighth grades. Local children spent their spring breaks enjoying exciting recreational games, watching movies, playing video games, and nurturing their creativity with seasonal arts and crafts. Spring Valley Kids Camp concluded on April 6.

The annual youth Spring Activities began on March 31 with the annual Easter Egg Hunt and Bunny Brunch. The free Easter Egg Hunt was held for children ages 2 to 12 years at 9:00 a.m. at Sunnymead Park. More than 600 children attended the event and searched for 13,000 candy and prize filled eggs. Event sponsors included Sketchers, Waste Management, Wal-Mart, Food 4 Less, Costco, Castle Park, Stator Bros., 66er's Baseball, Fiesta Village, Splash Kingdom at Pharaoh's, Cal

MV00234598

Skate, Shakey's, Fantastic Sam's, and Target.

In addition the Parks and Community Services Department, in conjunction with Animal Control Services, held the Adopt a Pet in the Park event during the Easter Egg Hunt, which was very successful. A total of 35 pets found new homes, 27 from the adoption event and 8 from the Animal Shelter. Only 4 pets were brought back from the park, and Animal Services is hopeful that they will soon be adopted or sent to one of our many animal rescue organizations. This is another great example of how well the departments in the City work cooperatively together for the good of the organization while continuing to provide quality services to the residents.

Also held on March 31 was the annual Bunny Brunch held at the Senior Community Center. There were approximately 125 children ages 3 to 12 years enjoying an exciting morning of crafts, music, games, face painting, a bouncer, raffles, a special visit from the Easter Bunny, and a filling breakfast prepared by the Moreno Valley Optimist Club consisting of pancakes, eggs, sausage, and juice. Staff would like to thank the local chapter of the Moreno Valley Morning Optimist Club for their continual support.

The Parks and Community Services Department held its championships games for winter youth basketball league on March 3. The winners of that event included: "C" Division Celtics; "B" Division Knicks; and "A" Division Lakers. These teams, along with the "A" Division Bulls, then competed in the SCMAF Inland Valley's Youth Basketball Tournament held in surrounding cities on March 17 and 18. The "C" Division Celtics won the championship in their division, and the "A" Division Bulls finished in the runner-up position in their division. The "C" Division Celtics then advanced to the SCMAF Southern California Tournament of Champions event, where they placed second and finished the year with a 23-1 record.

Pee Wee/Junior Soccer completed another successful season with approximately 120 participants in the program. The Pee Wee/Junior Flag Football program will begin on April 10-11 with youth ages 3-7 competing.

2. Senior Community Center

On March 15 the Center held its annual St. Patrick's Day Carnival sponsored by Health Net. There were about 65 seniors participating in the event which included a movie, opportunity prizes and a dance performance by the Line Dancing Class.

The March Senior Birthday Party was celebrated on March 26. This event was sponsored by the Friends of Moreno Valley Senior Center, which provided a free meal and a box of candy. Miller Jones Mortuary donated a cake and ice cream.

Upcoming events include the Spring Bonnet Parade on April 4; Crazy Clothes Bingo on April 11, Senior Prom on April 20; and Cinco de Mayo barbeque on May 3.

Senior trips included the following:

Trips to Spotlight Casino on March 3, March 11, and March 25. The cost was $25 with $25 back at the casino in free play.

MV00234599

An overnight trip to Colorado Belle March 4-6. The cost was $65 and included two free buffets.

A trip to Buffalo Bills Casino with a stop by the Paris Casino on March 24. The cost was $25 and included one free buffet.

3. Grant Program

"A Child's Place" program finished the annual William Batey Reading Contest. A total of 4,506 points were achieved. The sites enjoyed a special guest reader Dr. Judy White, MVUSD Superintendent. The winner of the contest was Armada Elementary School, and these winners will be attending a special movie field trip to Harkins Theatre on April 30.

Spring break was full of different activities that kept the children busy during the two weeks off. The children enjoyed walking field trips to Bethune Park, listened to Native Americans' guest speakers, and enjoyed learning to make Marionettes Puppets on strings. All sites are preparing for our annual self review that will begin in May.

Blood Pressure Screening

Monday, April 23, 2012 from 10 to 11:30 am

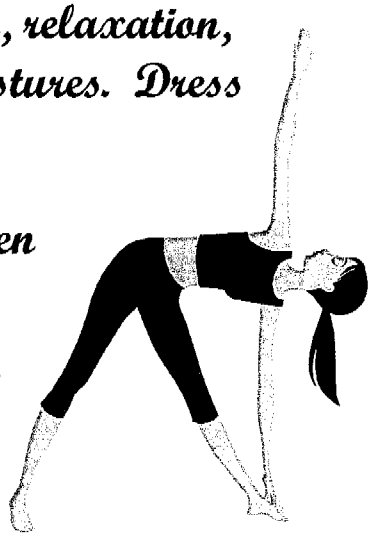
Not sure what your blood pressure is? Attend Inland Valley SynerMed's Blood Pressure Screening. There is no fee.

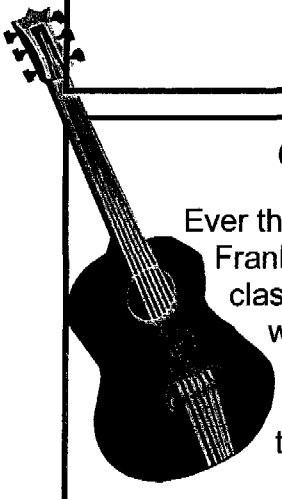
Yoga for Seniors

Introduction to the basics of yoga, including breathing, relaxation, meditation, and postures. Dress comfortably.

Instructor Pat Soden

Class is held every Tuesday from 9:15 am to 10:30 am.



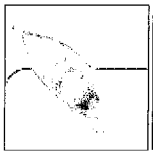


Guitar Class at Moreno Valley Senior Community Center

Ever thought about learning to play the guitar? Learn the fundamentals of guitar with instructor Frank L. Garcia. Beginners may start with *You are My Sunshine* and work toward playing the classic *La Malagueña*. Frank has been teaching with us since 2008. He started playing guitar when he was four years old and has been playing for 52 years now. Frank says "I still enjoy it." He started with six students and now teaches 15. He encourages seniors to join the class because guitar playing "relaxes the mind." Classes are free. Students must provide their own guitar and a desire to have fun while learning.

Class meets Thursdays from 1 - 3:30pm

Foster and Kinship Care Education



Riverside City College

Healthy Nutrition on a Budget

Tuesday, April 24 from 9am to 12pm

This class explores healthy nutrition - purchasing and preparing appropriate, cost-effective foods on a budget for foster families. The class also helps caregivers assist youth who are about to emancipate understand how to buy and prepare meals on a budget.

Senior Birthday Celebration

Thursday, April 26, 2012 at 12 pm
Please sign up with the Nutrition Program located in the Banquet Room from 8 am to 12 pm

Sponsored by MILLER-JONES Mortuary

Exercise Tips for Senior Citizens

No matter your age or your current physical condition, you can benefit from exercise. Reaping the rewards of exercise doesn't require strenuous workouts. It's about adding more movement and activity to your life. There are many easy ways to get your body moving and improve your health. The following is presented as general information only.

Walking

Walking is good for overall health. Walking is a perfect way to start exercising. It requires no special equipment, aside from a pair of comfortable shoes, and can be done anywhere. You can walk alone or with friends. You should walk according to your ability.

Strength Training

Regular exercise by building strength and stamina, prevents loss of bone mass and improves balance, actually reducing the risk of falling. Exercise and strength training helps you look and feel younger and stay active longer. Research shows that a sedentary lifestyle is unhealthy for the elderly. You can do exercises with weights or an exercise band. Start with one pound free weights and work your way up. Don't try to life more weight than you can comfortably handle.

Get Medical Clearance First

Consult your doctor before starting any exercise program. Exercise is good for you but your doctor may have special instructions for you to follow. Always warm up to protect your muscles. Start slow. Build up your exercise program little by little. Get a combination of cardiovascular exercise and weight bearing exercise so your muscle groups and cardiovascular system both get a workout. Stop exercising and call your doctor if you experience dizziness or chest pain when you work out. You are never too old to start exercising but if it has been a long time since you have, start out slowly so you can build your endurance and stamina.

Exercise & Physical Fitness Room

Enjoy your exercise program in our Exercise & Physical Fitness Room. The room features two treadmills, two exercise bikes, a weight-strength training gym, and a thigh exercise unit. Enjoy your favorite television show while you workout.

Thanks to Friends of Moreno Valley Senior Center for donating the funds to purchase our second SportsArt Fitness treadmill. Friends of Moreno Valley Senior Center raise funds for equipment, programs and special activities needed. General meetings are held the 2nd Thursday of every month (except July and August) at 1pm.

Health Insurance Counseling and Advocacy Program
Most People Call it HICAP

HICAP is a state health insurance assistance program. The program helps Medicare beneficiaries identify and understand Medicare programs and plans. Through one-on-one personalized counseling, education, and outreach, HICAP provides free and objective information about Medicare, managed care (HMOs), long-term care insurance and other related health insurance issues. Trained volunteer counselors offer objective information to help seniors and other Medicare beneficiaries make good health care decisions. When problems arise, HICAP counselors can help resolve them. All services are free of charge.

Appointments available. Call 1-800-434-0222 for more information or visit their website at www.inlandagency.org/hicap

MORENO VALLEY
WHERE DREAMS SOAR

CITY OF MORENO VALLEY
Parks and Community Services Department
Administration

CITY COUNCIL
MORENO VALLEY
RECEIVED
12 FEB -2 PM 5: 16

MEMORANDUM

To: Mayor and City Council
Henry T. Garcia, City Manager

From: Mike McCarty, Director of Parks and Community Services

Date: February 6, 2012

Subject: Parks and Community Services Monthly Update

PARK PROJECTS

1. March Field Park Soccer Arena

   Project Description: Installation of synthetic turf on the concrete surface of the existing hockey rink. The hockey rink has not been utilized for years. Converting the hockey rink to arena soccer will provide the City another lighted soccer field as well as added revenue from the concession.

   Status: The agreement for construction is in the process of being signed by the contractor. The project is planned for completion in summer 2012.

2. Celebration Park Splash Pad Surfacing

   Project Description: The splash pad will be coated with a slip resistant clear sealer, prior to its opening for the summer season.

   Status: The project is scheduled for April 2012.

3. Lasselle Sports Park

   Project Description: This developer-constructed (no cost to the City) project is 12¾ acres. Amenities are to include: restroom and concession, three turf football/soccer fields with natural turf, security lighting, picnic facilities, play apparatus, and parking for approximately 200 vehicles.

   Status: Completion of the project is planned for winter/spring 2013. Listed below is a detailed status of the project.

   The developer is in the process of obtaining required permitting from the Department of Water Resources and the City. Completion of the project is planned for fall/winter 2012/2013.

Grading Plans: Mylars signed.
Building Plans: Plans have been approved.
Site Improvement Plans: Plans completed and will be submitted upon revisions to structural details.
Project Specifications: Architect finalizing for City review.
Eastern Municipal Water District: Civil engineering, Recycled Water Use and Irrigation plans are approved.
Department of Water Resources: Informal approval of the Encroachment Permit has been granted. Waiting on the issuance of the signed permit.
Jurisdictional Permit #401: Pacific Development Inc. is working with the Army Corp. of Engineers to resolve potential issues.

4. Hound Town Dog Park at the Moreno Valley Equestrian Center

Project Description: Improvements to the City's dog park.

Status: A parking stall was added for Americans with Disabilities requirement.

5. Sports Field Automated Lighting Upgrade

Project Description: Upgrade lighted sports fields, utilizing an automated system meeting current City standards. This will allow staff to utilize one program for all lighted sports fields and save electricity.

Status: It is expected to have a purchase order issued to Musco Lighting within the month. The project's completion is estimated for summer 2012.

PARKS MAINTENANCE DIVISION

1. Projects Completed

- Aerated Celebration, Vista Lomas, Shadow Mountain and Towngate II Parks.
- Fertilized Celebration, Vista Lomas, Shadow Mountain and Towngate II Parks.
- Trimmed palms at various park sites.
- Trimmed trees in contract areas.
- Installed monument sign at Ridgecrest Park.

2. Projects in Progress

- Repair and replant parking lot planter at Bethune Park.
- Install drainage V-ditch at Gateway Park.
- Remove and repair the infield turf transitions at Morrison Park ball fields.
- Aerate sports fields.
- Fertilize parks.
- Trim Rockridge and Patriot Parks.
- Trim palm trees at CRC.
- Repair drain pipe at Cottonwood Golf Course.
- Check all parking lot lights and timers.
- Check Specturf Training and Playground Inspection Training.

MV00234616

3. Vandalism/Graffiti Damage

Vandalism and graffiti have been reported at the following areas in January: Adrienne Mitchell ($161), Aqueduct Bikeway ($542), Bayside ($114), Bethune ($66), Community ($471), El Portero ($115), Gateway ($41), JFK ($300), Morrison ($234), Patriot Park ($62), Pedrorena ($138), Rockridge ($71), Shadow Mountain ($24), Sunnymead ($1,729), Towngate ($707), Victoriano ($222), Westbluff ($103), Weston ($216), and Woodland ($333). The total cost for vandalism/graffiti was $5,649. Total labor hours for vandalism/graffiti were 123 hours, approximately 15 full-time work days.

4. Park Volunteers

Court referrals performed a total of 360 hours during January. The total hours for court referrals in 2012 are 360 which equates to approximately 45 full-time work days.

RECREATION DIVISION

1. Recreation and Sports

The Time for Tots program returned from their winter break on January 2 with several of the classes filled to capacity. In addition to creative curriculum, children celebrated special activity days by dressing originally on Mix-Match Day, learning about pilots on Amelia Earhart Day, enjoying Disney Day, and learning about different cultures on International Day.

January saw an increase in new registrations for many youth and adult contract classes including Belly Dancing, Drawing for Kids, Kung-fu, and Traditional Karatedo. Many of the young dance classes, such as Dance Exploration, also had new participants.

Winter Valley Kids Camp, held at the March Field Park Community Center, came to a close on January 6. This year's camp saw an increase in registration compared to years past. Attending kindergarten through eighth graders spent their vacations from school enjoying newly added video games, foosball table, and electronic basketball. They also created creative holiday and seasonal crafts, played festive fun-filled games and activities, and much more.

Valley Kids Camp will be open for two weeks beginning March 26 for local children in kindergarten through eighth grades.

Recreation staff are planning and preparing for the spring events scheduled during the month of April. The annual Easter Egg Hunt, Bunny Brunch, Hop Down the Craft Trail, and Spring Easter Chef's Workshop will all be held for local children. More information to come!

The Pee Wee and Junior Soccer League for ages 3 to 7 has 100 participants registered. The league is held Monday through Thursday at Community Park soccer fields beginning February 6 and lasting six weeks.

MV00234617

Youth Winter Basketball League is at its midway point and going well.

The City will be holding an All Star competition. Children will be participating in this multiple all star event including a creative lay-up contest, 3-point shooting contest, and 2-ball competition.

The adult softball winter league has concluded. Registration is underway for the spring season.

2. Senior Community Center

On January 5, the Center held its first ever New Year's dance. The seniors did lots of dancing, with the live DJ. The event was sponsored by Meeting Seniors Needs. About 80 seniors were in attendance.

The January Senior Birthday Party was celebrated on January 26. This event was sponsored by the Friends of Moreno Valley Senior Center, which provided a free meal and a box of candy. Miller Jones Mortuary donated the cake and ice cream.

On January 7 there was a trip to Spotlight 29 Casino for $25 with $25 back in free play.

On January 16 there was a trip to Soboba Casino for $20 with $20 back in free play.

On January 21 there was a trip to Harrah's Casino for $25 with $25 back in free play.

On January 28-29 there was a trip to Las Vegas with an overnight stay at Hacienda Casino for $55 per person and two free buffets

Tax assistance for seniors will begin on February 1 and continue until April 17, Monday through Friday, 12:00 noon to 4:00 p.m. All taxes will be done at no charge to those with low to moderate income by AARP.

Friday, March 2 from 8am — 1pm

Vendors sign up beginning Wednesday, February 1st at front office $5 per table

MV00234626

AARP/IRS Income Tax Preparation for 2011

IRS

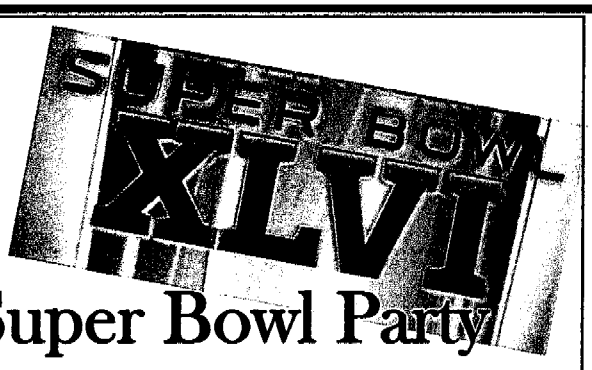
1 800 906 9887

AARP/IRS trained tax aides offer free tax help to low-to moderate income people who cannot prepare their own tax returns. Certified volunteers receive training to help prepare basic tax returns in communities across the country.

Beginning Wednesday, February 1, 2012 through Tuesday, April 17, 2012
Service begins at 12pm and ends by 3pm
Sign up at front office at 11:30am due to limited space available

Bring last year's tax returns, w-2s, 1099s, Social Security statements, information relating to income or earnings, rent or mortgage payments, property taxes, job related expenses, IRAs, retirement plans, social security number(s), and any other related documents and information.

We cannot help with complicated business returns, business or rental with depreciation, cancellation of debt (1099A or 1099C), nor extensive or complicated capital gains (stocks).



Super Bowl Party

Friday, February 3
1 – 3pm
Pizza and Hot Wings
Fun Football Games

Winning Touchdown for *Meeting Seniors Needs Hotline*

CITY COUNCIL
MORENO VALLEY
RECEIVED
12 FEB 16 PM 4:57
Financial & Administrative
Services Department

MEMORANDUM

To: Mayor and City Council
Henry Garcia, City Manager

From: Rick Teichert, Financial & Administrative Services Director/City Treasurer

Date: February 14, 2012

Subject: Monthly Investment Report – January 2012

Attached is the Monthly Investment Report (Treasurer's Cash and Investments Report) for the month ended January 31, 2012. All investments comply with California Government Code Section 53601 as to the types of investments allowed and the limits of each type. In addition, all investments comply with the City's annually adopted Investment Policy.

The investments managed by Chandler Asset Management totaled $164,854,671 and achieved a Yield to Maturity (YTM) for January 2012 of 1.43%. This compares to a YTM in December 2011 of 1.57% and a YTM in January 2011 of 1.57%. In addition, the City maintained $33,849,881 in the State Local Agency Investment Fund Pool with a YTM of 0.38%.

Rates of return on fixed income investments continue to remain soft, reflecting the current efforts by the Federal Reserve to energize the economy. Staff does not anticipate any significant increase in the near future. The Federal Reserve Board has recently stated that they intend to keep rates low for the next two years.

The December 2011 Quarterly Investment Report will be presented at a regular City Council meeting on February 28, 2012. Submitting this January 2012 Monthly Investment Report by internal memorandum ensures that the Council and City Manager are kept apprised of the City's investments between the regular quarterly reports.

Please contact me [redacted] or Brooke McKinney [redacted] with any questions.

1. I hereby certify that the investments are in compliance with the investment policy adopted by the City Council. There are no items of non-compliance for this period.
2. The market values for the specific investments in the General Portfolio are provided by the City's investment advisor, Chandler Asset Management.
3. The market value for LAIF is provided by the State Treasurer.
4. The market values for investments held by fiscal agents and the deferred compensation plans are provided by each respective trustee or fiscal agent.
5. The City has the ability to meet its budgeted expenditures for the next six months pending any future action by City Council or any unforeseen catastrophic event.

Richard Teichert
City Treasurer

Holdings Report Glossary

CUSIP (Committee on Uniform Securities Identification Procedures) – A unique identification number assigned to all securities.

Security Description - The issuer name, coupon (periodic interest payment rate) and maturity.

Par Value/Units - The face value or number of units held in the portfolio.

Purchase Date - The settlement date on which the security was purchased.

Book Yield - The YTM that equates the current amortized value of the security to its periodic future cash flows.

Cost Value - The value at which the securities were purchased, excluding purchased interest.

Book Value - The value at which an asset is carried on a balance sheet. To calculate, take the cost of an asset +/- net accretion/amortization.

Mkt Price - The current fair value market price.

Mkt YTM – The internal rate of return that equates the periodic future cash flows (interest payments and redemption value) to the market price, assuming that all cash flows are invested at the YTM rate.

Market Value - The current fair value of an investment as determined by transactions between willing buyers and sellers.

Accrued Int. - The interest that has accumulated on a bond since the last interest payment up to, but not including, the settlement date.

% of Port. - The % of the portfolio that the security represents based on market value, including accrued interest.

Gain/Loss – The unrealized gain or loss on the security, compared to either cost or amortized value, as of the date of the report.

Moody - The Moody's rating for the security.

MV00234641

Holdings Report Glossary (continued)

S&P - The Standard and Poor's rating for the security.

Term (yrs) - The time, in years, until maturity.

Duration - The weighted average time to maturity of a bond where the weights are the present values of future cash flows. Duration measures the price sensitivity of a bond to changes in interest rates.

January FOMC Meeting Introduces New Communication Strategy and Communicates Subtle Shift. 3

Since 1988, Chandler Asset Management has specialized in the management of fixed income portfolios. Chandler's mission is to provide fully customizable, client-centered portfolio management that preserves principal, manages risk and generates income in our clients' portfolios.

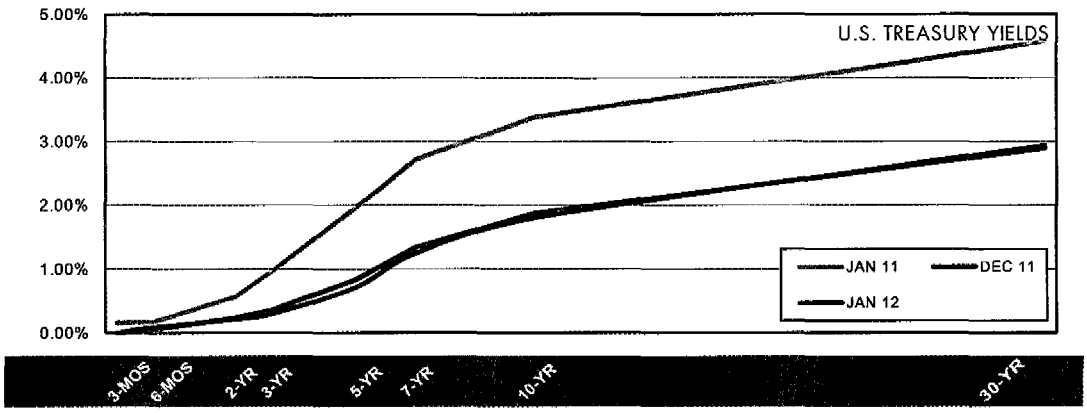
Market Summary

Treasury rates in the belly of the yield curve moved lower in January, while shorter rates and the long end moved modestly higher. Domestic economic indicators continued to improve during the month, but not enough to push interest rates significantly higher. Uncertainty about global growth continues to affect the financial markets keeping demand for dollar based assets firm. Operation Twist, which doesn't expire until June, is also keeping a lid on rates.

U.S. economic data over the last several weeks has been indicative of a slow-to-modest growth environment. The manufacturing sector continues to show strength and the labor market is improving. In January, payroll jobs grew by 243,000, much better than the 135,000 boost that the market was expecting. The unemployment rate dropped to 8.3% in January from 8.5% in December. After the employment report, comments from Federal Reserve Chairman Bernanke remained dovish; foreshadowing the Federal Reserve does not intend to alter its accommodative stance. Though recent economic indicators have improved, we remain cautious about the global economy, particularly in light of the ongoing turmoil in Europe and concerns about decelerating growth in China. A severe contraction in the European economy caused by its debt crisis could impair the U.S. economic recovery. Furthermore, though the overall domestic economy seems to be strengthening, the housing sector remains sluggish and consumer spending continues to be uneven.

In January, the Fed announced that it would retain the policy rate range of 0.0-0.25%. Notably, the Fed stated that it now expects the fed funds rate to remain exceptionally low through late 2014, versus its previous statement that rates would remain exceptionally low through mid-2013; otherwise, the statement was virtually unchanged from December. The Fed continues to believe that the economy is expanding moderately despite a slowing in global growth.

TREASURY YIELDS MOSTLY LOWER IN JANUARY



Treasury yields moved modestly lower in January, with the exception of the long end of the curve which moved slightly higher.

TREASURY YIELDS	1/31/12	12/31/11	CHANGE
3 Month	(0.01)	(0.01)	(0.01)
2 Year	0.21	0.24	(0.03)
3 Year	0.29	0.35	(0.06)
5 Year	0.71	0.83	(0.12)
7 Year	1.24	1.34	(0.10)
10 Year	1.80	1.87	(0.07)
30 Year	2.93	2.89	0.04

Consumer Prices

In December, the CPI showed that consumer prices increased 3.0% on a year-over-year basis. The year-over-year Core CPI (CPI less food and energy) increased at a 2.2% rate. Overall, price increases remained subdued, and the Federal Reserve has recently noted that some cost pressures have eased.

Retail Sales

In December, Retail Sales rose 6.5% on a year-over-year basis. Consumer spending has rebounded from the depths of the recession and recent activity has been moderate; however, high unemployment continues to restrain consumer spending.

Labor Markets

The January employment report showed that the economy added 243,000 jobs with the six-month average at 167,000 jobs. The unemployment rate fell from 8.5% to 8.3%. This report was better than analysts' expectations with many markets participants forecasting continued positive labor market momentum into early 2012. Although the unemployment rate remains elevated, current economic data suggests the labor markets maybe entering a period of slow sustained growth.

Housing Starts

Single-family housing starts rose 4.4% in December to 470,000, compared to 450,000 in November. The housing market remains under pressure, but seems to have stabilized following several years of sharp declines, and some housing data has recently surprised to the upside.

January FOMC Meeting Introduces New Communication Strategy and Communicates Subtle Shift

At the January 24-25 meeting, the Federal Reserve put into practice a new approach to communicate with the public. The new strategy features meaningful changes in the way the FOMC publicizes its opinions about the future state of the economy and its intentions about policy actions.

The FOMC has a dual mandate: fostering maximum employment and ensuring price stability. The way the FOMC communicates its policy goals and actions plays an important role in enhancing monetary policy and reduces economic and financial uncertainty. The January changes are the most recent in the FOMC's evolution to greater transparency in the interest of making financial markets less volatile and more reflective of relevant information for monetary policy.

Specifically, the new approach will provide information in three areas:

- FOMC members' projections of the appropriate level of the target federal funds rate in the fourth quarter of 2012, the next few calendar years, and over the "longer run."

It is worth noting, the FOMC does not forecast the Federal Funds rate since it actually sets the Fed Funds target. The forecasts for inflation, GDP and unemployment are dependent upon the interest rate it sets. Each committee participant is instructed to assume the path consistent with the committee's longer-run objectives and then provide forecasts of GDP, inflation, and unemployment.

- FOMC members' projections of the timing of the first increase in the target rate.
- A narrative describing factors underlying the assessments and qualitative information about participants' expectations for the Fed's balance sheet

The forecasts do not identify participants individually.

The January changes are the most recent in the FOMC's evolution to greater transparency in the interest of making financial markets less volatile and more reflective of relevant information for monetary policy.

While there are benefits to greater transparency and accountability that the enhanced communication fosters, arguments may be made that providing such information might increase market volatility especially during times when forecasting is more challenging than today.

What the Fed Actually Said

Market expectations have been that the Federal Reserve would maintain its target Federal Funds (Fed Funds)[1] rate at current low levels through mid 2013. Significantly, the Fed pushed back the date for any likely increase in this interest rate by at least a year and a half, until late 2014. The Fed stated that rates at such levels continue to be needed to help boost an improving but still sluggish economy.

Beyond the adjusted outlook for interest rates, Wednesday's statement closely tracked the Fed's previous comments about economic conditions. The Federal Reserve reduced its outlook for economic growth for 2012 but expressed a slightly more optimistic view about the unemployment rate. It expects the economy to grow between 2.2 percent and 2.7 percent this year, a decrease from the November forecast of between 2.5 percent and 2.9 percent. It expects unemployment to fall as low as 8.2 percent this year, an improvement over the earlier forecast of 8.5 percent.

[1] The Federal Funds rate is the interest rate at which depository institutions actively trade balances held at the Federal Reserve, called federal funds, with each other, usually on an overnight basis. Institutions with surplus balances in their accounts lend those balances to institutions in need of larger balances. The federal funds target rate is an administered rate, determined by a meeting of the members of the Federal Open Market Committee.

MV00234647

In implementing the new communication strategy, the Fed provided a rate forecast and a forecast of the timing, along with the expectations of the 17 individual Fed policymakers.[2] The distribution charts clarify the consensus and range of forecasts amongst the participants. Some Fed participants forecast record-low interest rates beyond late 2014 while others see increases sooner. While the consensus is to hold rates low and the Fed stated there will be "exceptionally low rates through at least 2014" reviewing dispersion of the forecasts in the charts suggests that this does not necessarily mean 0.00-0.25%. The Fed could raise rates slightly before the end of 2014 and the rate would still be "exceptionally low." Individual forecasts of the movement of the Federal Funds rate were revealed, with six participants anticipating interest rate hikes in 2012 or 2013, in contrast to the broader expectation for low rates through 2014.

Market Reaction

Market reaction to the new communication approach was subdued, with some concern about policy error, increased risk of inflation and its consequent effects on fixed income securities. In the future, the dispersion of the participants' Fed Funds rate and timing forecasts may heighten market volatility.

Continuing Operation Twist

The Fed sees the economy growing at a modest pace. It held off on any further bond-buying programs to try to increase growth at this point. During 2011, the Fed implemented a program of buying government bonds and mortgage-backed securities with the goal of driving down long-term rates and easing borrowing costs. In driving down interest rates, the Fed seeks to encourage people and businesses to borrow and spend, bringing down unemployment. While not announcing further bond buying, the Fed did hold out the possibility of doing so later. It said it was prepared to adjust its "holdings as appropriate to promote a stronger economic recovery in the context of price stability."

Concluding Thoughts

The recent action to detail the interest rate projections of each of the 17 members who participate in policy meetings, without identifying them by name, advances the Federal Reserve towards more open communication. While market response to the inaugural implementation of this approach was muted, it will be interesting to gauge the market's response in the future.

Market reaction to the new communication approach was subdued, with some concern about policy error, increased risk of inflation and its consequent effects on fixed income securities.

- Sofia Anastopoulos
VP, Client Service

[2] Currently there are 17 participants: Five are Federal Reserve Board Governors and twelve are Federal Reserve Bank Presidents. There are two Federal Reserve Board Governor positions that are unfilled. Only five of the 12 regional Federal Reserve Bank Presidents get to vote at meetings, on a rotating basis, meaning seven people get express their views but not decide.

RISKS AND OTHER IMPORTANT CONSIDERATIONS
This report is provided for general information purposes only and should not be construed as specific legal, tax, or financial planning advice. All opinions and views constitute judgments or relevant information as of the date of writing and such information may become outdated or superseded at any time without notice. This report is not intended to constitute an offer, solicitation, recommendation or advice regarding any securities or investment strategy. This information should not be regarded by recipients as a substitute for the exercise of their own judgment.

Fixed income investments are subject to interest, credit, and market risk. Interest rate risk: the value of fixed income investments will decline as interest rates rise. Credit risk: the possibility that the borrower may not be able to repay interest and principal. Low rated bonds generally have to pay higher interest rates to attract investors willing to take on greater risk. Market risk: the bond market in general could decline due to economic conditions, especially during periods of rising interest rates.

MV00234648

CITY COUNCIL
MORENO VALLEY
RECEIVED
12 FEB -7 PM 4:48

MORENO VALLEY
WHERE DREAMS SOAR

Financial & Administrative Services Department

MEMORANDUM

To: Mayor and City Council
Henry Garcia, City Manager

From: Rick Teichert, Financial & Administrative Services Director/City Treasurer

Date: January 25, 2012

Subject: Monthly Investment Report – November 2011

Attached is the Monthly Investment Report (Treasurer's Cash and Investments Report) for the month ended November 30, 2011. All investments comply with California Government Code Section 53601 as to the types of investments allowed and the limits of each type. In addition, all investments comply with the City's annually adopted Investment Policy.

The investments managed by Chandler Asset Management totaled $174,990,567 and achieved a Yield to Maturity (YTM) for November 2011 of 1.56%. This compares to a YTM in October 2011 of 1.56% and a YTM in November 2010 of 1.69%. In addition, the City maintained $20,338,953 in the State Local Agency Investment Fund Pool with a YTM of 0.40%.

Rates of return on fixed income investments continue to remain soft, reflecting the current efforts by the Federal Reserve to energize the economy. Staff does not anticipate any significant increase in the near future. The Federal Reserve Board has recently stated that they intend to keep rates low for the next two years.

The December 2011 Quarterly Investment Report will be presented at a regular City Council meeting on February 28, 2012. Submitting this November 2011 Monthly Investment Report by internal memorandum ensures that the Council and City Manager are kept apprised of the City's investments between the regular quarterly reports.

Please contact me [redacted] or Brook McKinney [redacted] with any questions.

Deferred Compensation Funds	Market Value as of Sept 30, 2011
Nationwide	8,977,493
ICMA	3,663,332
Total Deferred Compensation Funds	**12,640,825**
Total Investment Portfolio	**219,622,581**

1. I hereby certify that the investments are in compliance with the investment policy adopted by the City Council. There are no items of non-compliance for this period.
2. The market values for the specific investments in the General Portfolio are provided by the City's investment advisor, Chandler Asset Management.
3. The market value for LAIF is provided by the State Treasurer.
4. The market values for investments held by fiscal agents and the deferred compensation plans are provided by each respective trustee or fiscal agent.
5. The City has the ability to meet its budgeted expenditures for the next six months pending any future action by City Council or any unforeseen catastrophic event.

Richard Teichert
City Treasurer

Holdings Report Glossary

CUSIP (Committee on Uniform Securities Identification Procedures) – A unique identification number assigned to all securities.

Security Description - The issuer name, coupon (periodic interest payment rate) and maturity.

Par Value/Units - The face value or number of units held in the portfolio.

Purchase Date - The settlement date on which the security was purchased.

Book Yield - The YTM that equates the current amortized value of the security to its periodic future cash flows.

Cost Value - The value at which the securities were purchased, excluding purchased interest.

Book Value - The value at which an asset is carried on a balance sheet. To calculate, take the cost of an asset +/- net accretion/amortization.

Mkt Price - The current fair value market price.

Mkt YTM – The internal rate of return that equates the periodic future cash flows (interest payments and redemption value) to the market price, assuming that all cash flows are invested at the YTM rate.

Market Value - The current fair value of an investment as determined by transactions between willing buyers and sellers.

Accrued Int. - The interest that has accumulated on a bond since the last interest payment up to, but not including, the settlement date.

% of Port. - The % of the portfolio that the security represents based on market value, including accrued interest.

Gain/Loss – The unrealized gain or loss on the security, compared to either cost or amortized value, as of the date of the report.

Moody - The Moody's rating for the security.

MV00234658

Holdings Report Glossary (continued)

S&P - The Standard and Poor's rating for the security.

Term (yrs) - The time, in years, until maturity.

Duration - The weighted average time to maturity of a bond where the weights are the present values of future cash flows. Duration measures the price sensitivity of a bond to changes in interest rates.

BOND MARKET REVIEW

A MONTHLY REVIEW OF FIXED INCOME MARKETS

WHAT'S INSIDE

Market Summary 1
Yield Curve
Current Yields

Economic Round-Up 2
Credit Spread
Economic Indicators

Since 1988, Chandler Asset Management has specialized in the management of fixed income portfolios. Chandler's mission is to provide fully customizable, client-centered portfolio management that preserves principal, manages risk and generates income in our clients' portfolios.

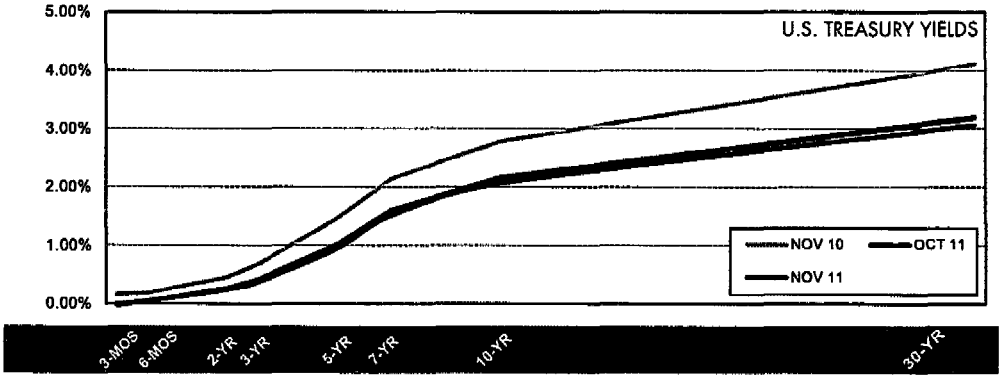
Market Summary

Treasury yields in the long end of the curve moved lower in November as concerns about sovereign debt issues in the euro zone escalated. Operation Twist continues to have a large influence on prices for longer-term Treasury securities as well.

Domestic economic data has continued to improve and fears of another U.S. recession have declined. In November, payroll jobs advanced 120,000 and the unemployment rate unexpectedly fell to 8.6% from 9.0%. Consumer Confidence has recently improved and the early read on holiday spending has been solid, with retailers posting record Black Friday weekend sales this year. In our view, domestic economic data remains indicative of a slow growth environment, but has nonetheless surprised modestly to the upside. However, the sovereign debt crisis in Europe continues to largely overshadow any positive or negative domestic economic news.

Monetary policy in the United States remains very accommodative with the Fed Funds rate on hold at 0.00-0.25% until mid-2013, and with Operation Twist pressuring long end rates lower. The European Central Bank (ECB) has been far less accommodative than the Federal Reserve throughout 2011, but has recently stepped up its involvement in the market. On December 8, the ECB announced a cut in their benchmark rate of 25 basis points to 1.00%, a cut in the reserve requirement for commercial banks, a loosening of collateral requirements for ECB loans, and, perhaps most noteworthy, two new operations to offer term loans to European banks of up to 36 months. Although these actions are significant they are still short of market expectations for some form of quantitative easing from the ECB. We expect markets to remain volatile through year end and the treasury markets to remain well supported.

A TWIST IN THE YIELD CURVE



The longer-end of the yield curve declined in November, while shorter-term rates remained stable.

TREASURY YIELDS	11/30/11	10/31/11	CHANGE
3 Month	0.00	(0.01)	0.01
2 Year	0.25	0.26	(0.01)
3 Year	0.39	0.42	(0.03)
5 Year	0.95	1.01	(0.06)
7 Year	1.52	1.61	(0.09)
10 Year	2.07	2.17	(0.10)
30 Year	3.06	3.20	(0.14)

Consumer Prices

In October, the CPI showed that consumer prices increased 3.5% on a year-over-year basis. The year-over-year Core CPI (CPI less food and energy) increased at a 2.1% rate. Overall, price increases remained subdued, and the Federal Reserve has recently noted that some cost pressures have eased.

Retail Sales

In October, Retail Sales rose 7.2% on a year-over-year basis. Consumer spending has rebounded from the depths of the recession and recent activity has been moderate; however, high unemployment continues to restrain consumer spending.

Labor Markets

The November employment report showed that the economy added 120,000 jobs and the previous two month's totals were revised higher by 72,000. The unemployment rate fell to 8.6% from 9.0%. Market participants were expecting the unemployment rate to remain unchanged at 9.0%. Although the report was an improvement, the greater than expected decline in the unemployment rate was largely due to a decline in the participation rate. Overall, unemployment remains elevated, but trends suggest that the labor market is slowly improving.

Housing Starts

Single-family housing starts rose 3.9% in October to 430,000, compared to 414,000 in September. The housing market remains weak, but seems to have stabilized following several years of sharp declines.

MORENO VALLEY
WHERE DREAMS SOAR

CITY OF MORENO VALLEY
Parks and Community Services Department
Administration

CITY COUNCIL
MORENO VALLEY
RECEIVED
12 MAR -7 PM 5:02

MEMORANDUM

To: Mayor and City Council
Henry T. Garcia, City Manager

From: Mike McCarty, Director of Parks and Community Services

Date: March 7, 2012

Subject: Parks and Community Services Monthly Update

SPECIAL EVENT

Moreno Valley 's Independence Day Celebration

It's BACK! "The City of Moreno Valley's July 4th Celebration" will take place on July 4, 2012. The Independence Celebration will kick off with a parade Sponsored by Waste Management from 9:30 a.m. to noon. The parade route will begin at Alessandro Boulevard, head north on Frederick Street, go west on TownGate Boulevard and end at the TownGate Plaza at approximately 12:00 noon. The parade theme this year is *"United We Stand- A Moreno Valley 4th."* Organizations are invited to enter a float. Parade entry forms are currently available at Moreno Valley Conference and Recreation Center.

Get ready to really celebrate! The festivities continue at Morrison Park and Mountain View Middle School located at the corner of Dracaea and Morrison. Gates open at 1:00 pm with the festival beginning at 2:00 p.m., NEW this year will be a Wine and Beer Garden. There will be food, arts and crafts, game booths, clowns and entertainment. An entry may be charged to get into the festival, and there may be a minimal fee for the various activities, such as the bouncers and game booths.

As the day progresses, get ready for excellent entertainment. A main stage and a youth stage will guarantee enjoyment for the entire family. There will be several entertainers this year. At 3:00 p.m., the excitement will begin on stage when finalists compete for Moreno Valley Idol and only one will leave the stage as Moreno Valley Idol. At 4:00 pm a performance by "Michael John's Tribute to Billy Joel," followed by "BELLA DONNA - A Tribute to Stevie Nicks and Fleetwood Mac," and then "The Joshua Tree – A Tribute to U2." As a grand finale, the event will conclude with a fireworks extravaganza at 9:00 p.m., which will be simulcast with patriotic music by KOLA (99.9 FM). This promises to be the best July 4th show ever! Presale tickets for the event are available at the Moreno Valley Conference and Recreation Center from June 11 to July 3. Cost is:$2 per person or $10 for a family (up to 6 people). On July 4, entry is free between 1:00 p.m. and 4:00 pm. After 4:00 p.m., entry fee is $3 per person. Military service members with valid identification and

children under 5 are free.

We thank the following sponsors who have contributed to our Celebration: **City of Moreno Valley, KOLA 99.9, Moreno Valley Unified School District, Pepsi, Accurate Accessories, Waste Management, Supervisor Marion Ashley.**

For more information contact the Moreno Valley Parks and Community Services office at 413.3280.

PARK PROJECTS

1. March Field Park Soccer Arena

   Project Description: Installation of synthetic turf on the concrete surface of the existing hockey rink. The hockey rink has not been utilized for years. Converting the hockey rink to arena soccer will provide the City another lighted soccer field as well as added revenue from the concession.

   Status: This project goes to the City Council on March 13, 2012 for approval.

2. Celebration Park Splash Pad Surfacing

   Project Description: The splash pad will be coated with a slip resistant clear sealer, prior to its opening for the summer season.

   Status: The project is scheduled for April 2012.

3. Lasselle Sports Park

   Project Description: This developer-constructed (no cost to the City) project is 12¾ acres. Amenities are to include: restroom and concession, three turf football/soccer fields with natural turf, security lighting, picnic facilities, play apparatus, and parking for approximately 200 vehicles.

   Status: Completion of the project is planned for winter/spring 2013. Listed below is a detailed status of the project.

   The developer is in the process of obtaining required permitting from the Department of Water Resources and the City. Completion of the project is planned for fall/winter 2012/2013.

   Grading Plans: Mylars signed.
   Building Plans: Plans have been approved.
   Site Improvement Plans: Plans and Structural's are approved.
   Project Specifications: Under Parks and Community Services review.
   Eastern Municipal Water District: Civil engineering, Recycled Water Use and Irrigation plans are approved.
   Department of Water Resources: Informal approval of the Encroachment Permit has been granted. Waiting for the issuance of the signed permit.
   Jurisdictional Permit #401: Pacific Development Inc. is working with the

MV00234665

environmental consultant to obtain documentation, in order to proceed with the project.

4. Sports Field Automated Lighting Upgrade

Project Description: Upgrade lighted sports fields, utilizing an automated system meeting current City standards. This will allow staff to utilize one program for all lighted sports fields and save electricity.

Status: It is expected to have a purchase order issued to Musco Lighting within the month. The project's completion is estimated for summer 2012.

PARKS MAINTENANCE DIVISION

1. Projects Completed
   - Trimmed Rockridge and Patriot Parks.
   - Checked all parking lot lights and timers.
   - Trimmed palm trees at CRC.
   - Removed and repaired the infield turf transitions at Morrison Park ball fields.
   - Fertilized parks.

2. Projects in Progress

   - Repair and replant parking lot planter at Bethune Park.
   - Install drainage V-ditch at Gateway Park.
   - Aerate sports fields.
   - Relamp sports field lighting at various parks.
   - Spray herbicides for annual weed control at all park sites.
   - Tree trimming and removal at various park sites.
   - Remove barbeques from TownGate Park.
   - Repair drain pipe at Cottonwood Golf Course *(75% complete)*.
   - Spray all trails for weeds.
   - Spray all parks for weeds

3. Vandalism/Graffiti Damage

Vandalism and graffiti have been reported at the following areas in February: Adrienne Mitchell ($80), Aqueduct Bikeway ($397), Bayside ($49), Bethune ($61), Celebration ($100), Community ($667), El Portero ($161), JFK ($239), Morrison ($88), Parque Amistad ($99), Pedrorena ($57), Rancho Verde Trail ($285), Ridgecrest ($30), Sunnymead ($268), TownGate ($440), Victoriano ($25), Westbluff ($24), and Woodland ($132). The total cost for vandalism/graffiti was $3,202. Total labor hours for vandalism/graffiti were 67 hours, approximately 8 full-time work days.

4. Training

February 29, 2012: Tractor Safety Begins with You
February 29, 2012: Chain Saw Safety

MV00234666

5. Park Volunteers

Court referrals performed a total of 561 hours during February. The total hours for court referrals in 2012 are 921 which equates to approximately 115 full-time work days.

RECREATION DIVISION

1. Recreation and Sports

The Time for Tots program was busy during the month of February with an increasing number of registrations for classes. In addition to the expanded creative curriculum, children celebrated special activity days by learning about our favorite underground weather reporter on Groundhog Day, dressing originally on Super Hero Day, enjoying Valentine's Day, learning about the movie's favorite snack on Popcorn Mania Day, and learning about the most famous of leapers, the frog, on Leap Day.

February saw an increase in new registrations for many youth classes including Dance Exploration, Hip-hop, Ballet, Ballet/Arco, Drawing for Kids, Kung-fu, and Folkloric Dance. Staff have also been busy recruiting new contract class instructors. More information regarding additional summer classes coming soon.

Valley Kids Camp staff were busy in February preparing fun-filled activities for Spring Camp for local Moreno Valley and Val Verde Unified School Districts during their scheduled spring breaks to be held March 26 through April 6. While the kindergarten through eighth graders enjoy their break from school, they will spend their days at camp playing exciting recreational games, watching movies, playing video games, and nurturing their creativity with arts and crafts.

Recreation staff have been busy planning and preparing for the spring events scheduled during the months of March and April. The annual spring activities will begin on March 31 with the free Easter Egg Hunt for community children ages 2 to 12 years to be held at 9:00 a.m. at Sunnymead Park. More than 500 children are expected to attend the event and search for thousands of candy and prize filled eggs.

During this event, Parks and Community Services Department, in conjunction with the Moreno Valley Animal Shelter, will host a "Spring Pet in the Park Adoption Day." This paw-friendly event will be held from 8:30 a.m. to 1:00 p.m. at Sunnymead Park. The adoption fee will be $50 for each pet adopted. The fee includes the first round of puppy vaccinations, microchip, 1-year altered dog license, spay/neuter surgery, and a pet bed and blanket. Come visit with various local animals currently available for adoption. The new pet addition to your family may be there.

Also scheduled on March 31 is the annual Bunny Brunch to be held at the Senior Community Center. The two-hour brunch will begin at 10:00 a.m. for children ages 3 to 12 years. For a resident fee of $6, children will enjoy a morning of crafts, a specially-prepared brunch, and a visit from the Easter Bunny. The Morning Optimist Club of Moreno Valley is donating their time to assist staff in preparing the breakfast

MV00234667

for this fun-filled spring event.

The Spring Easter Chef's Workshop will be held on April 3 at the TownGate Community Center from 6:00 p.m. to 8:00 p.m. For the resident fee of $8, children ages 5 to 12 years will be able to make yummy holiday goodies to take home and enjoy.

The spring activities will conclude on April 5 with the Hop Down the Craft Trail at the TownGate Community Center for children ages 5 through 12 years. The event will be held from 6:00 p.m. to 8:00 p.m. for an $8 resident fee. Children will make fun and exciting spring crafts.

The Youth Basketball League had their championship games on March 3. The winning teams from the championship games will represent the City of Moreno Valley in the Inland Valley's Tournament of Champions to be held on March 17 and March 18 in local Inland Empire cities.

The Adult Softball League was on break during the winter months, and competition will begin again in early March. Teams will compete in five different divisions on three different nights of the week.

The Pee Wee/Junior Soccer program is underway and has been a huge success. There are more than 220 participants in the age range of 3 to 7 years in the program. This is the fourth year of a completely revamped Pee Wee/Junior year-round sports schedule. Other upcoming sports include a basketball clinic, T-ball, flag football, and a basketball league.

The Women's Adult Soccer League will be ending their season on March 18. Registration for the following season will start soon with play beginning shortly thereafter. Participants will play Sunday evenings throughout the year at Community Park.

2. Senior Community Center

On February 1 AARP began to provide free tax help Monday through Friday, 12:00 p.m. to 4:00 p.m. This assistance will be provided through April 17.

On February 3 the Super Bowl Pizza Party was held. There were approximately 80 seniors participating.

On February 14 the Center held its Black History Celebration, which was sponsored by Meeting Senior Needs. There was dancing, popcorn, and a Black History slideshow presentation. About 50 seniors attended the celebration.

Also on February 14 was the annual Valentines Day Dance, which was sponsored by Health Net. A DJ provided the seniors with music, and cupcakes, punch, and gift boxes filled with candy were provided to each senior in attendance. There were 80 people that attended.

The February Senior Birthday Party was celebrated on February 23 at 12:00 p.m. This event was sponsored by the Friends of Moreno Valley Senior Center, which

MV00234668

provided a free meal and box of candy. Miller Jones Mortuary donated the cake and ice cream.

Trips scheduled in February included a trip to Spotlight 29 Casino on February, 5; a 3-day trip to Laughlin at the Colorado Belle on February 12-14; and a trip to Buffalo Bills on February 25.

3. Grant Program

"A Child's Place" after school program is seeking volunteers to read to the children at the program sites to promote The William Batey Annual Reading Program. The reading program began on February 14 and concludes on March 23. Readers will be needed between the hours of 3:00 p.m. and 5:00 p.m., Monday through Friday, and it only takes about 15 minutes of time. The sites have plenty of books on hand but readers are welcome to bring in their own books to read if they wish.

Readers should contact Georgina Lundberg, Parks and Community Services, at (951) 413-3286 to schedule a date and time or to ask any questions.

Zumba with Moreno Valley Senior Community Center

This class is part of our fitness-class group designed to promote healthy life styles for 50+ active adults.

Are you ready to party yourself into shape? That's exactly what the Zumba® class is all about. It's an effective, exhilarating, easy-to-follow, Latin dance that involves dance and aerobic elements. Zumba incorporates hip-hop, soca, samba, salsa, merengue, mambo, martial arts, and some Bollywood, and belly dance moves.

Class meets Mondays and Fridays from 12:30 to 1:30pm

UnitedHealthcare

Now's the perfect time to ask about your Medicare options. Get the facts you need.

Call Esmeralda or visit her at the Moreno Valley Senior Community Center on Mondays in March from 10:30am - 12:15pm.

Foster and Kinship Care Education

Positive Discipline Series

RCC Riverside City College

Tuesdays, 9am to 12pm
March 6, 13, and 20

This series of classes introduces caregivers to the theories of Positive Discipline, then moves on to discuss academic issues, the importance of routines and structure, and finally explores behavior issues.

For registration information call 951.222.8198

Spring Cleaning in the 1940's

by Dottie Cox of the Creative Writing Class

In many homes each year in the spring, there came "refresh and renew." I especially remember the 1940's as a preteen and teen. Even WWII didn't stop spring-cleaning.

Since my mother worked in a factory full-time, the yearly chore was accomplished in a few weekends. My father was designated "heavy furniture, rug and carpet mover." The large rugs were hung over the clothesline to be beaten by a wire beater that in my vague memory closely resembled a tennis racquet.

We usually started with the living room. The walls were cleaned or painted as needed. Next, the floors, and woodwork were scrubbed (usually by me as I got older). No mops were allowed. I had to do it on my hands and knees. The room was about 16 feet square. After the floors were thoroughly dry, we tackled the windows with vinegar and water and crumpled newspaper until they sparkled.

I think the part I hated most was dealing with the curtains. My mother used to take me with her to shop for curtains. It was probably the more boring time in my life during my teens. To this day, I have great difficulty making myself deal with curtains and drapes. In our spring-cleaning, we took the curtains down, washed them, and put them out in the sun on an adjustable wooden-framed contraption that my mother called a "curtain-stretcher." It was a tedious job securing the curtains to tiny nail-like prongs all along the frame - but at least we didn't have to iron them.

The furniture was cleaned and polished and returned to the living room. We then moved on to the dining room, bedrooms, and bathrooms, going through the same process.

In the kitchen the cupboards were thoroughly washed. The stove was taken apart and de-greased. The refrigerator was emptied out and scrubbed with baking soda and water. The floor was scrubbed with Spic & Span, which took the dirt off the floor and the skin off my hands.

Just about the last thing done was my only favorite part - choosing the new oil cloth for the kitchen table. I was allowed to choose the color and pattern. It gave the kitchen a whole new look.

After we put the house back together. It smelled fresh and clean and could have easily passed a white-glove inspection. We celebrated all our hard work, now finished, by going out for a Sunday drive and to a nice restaurant for dinner, appreciating the fact that we wouldn't have to face spring cleaning for another year. ***Creative Writing meets Tuesdays 10-11:30am***

Profile On ... Riverside County Office on Aging

The **Riverside County Office on Aging** was designated on June 18, 1974, by the Board of Supervisors, as a County Department on Aging for Planning and Service Area. It serves as the official Area Agency on Aging throughout Riverside County, California.

Riverside County Office on Aging, under the Federal Older Americans Act and Older Californians Act, is charged to provide leadership in developing a system of care services for older persons and adults with disabilities in Riverside County. The Office on Aging provides customer-centered services based on the vision, purpose, core value, and its promise statement "Bridging the Generations for the Future...A Compass for Quality Aging."

Funds are used to provide core services to the county in the form of planning and needs assessments, Advocacy, Coordination, Education and Outreach, Information, Program Development, and Service Delivery.

The Office on Aging leadership team has a variety of liaisons with government, professional and community organizations and networks. The goals of these leadership initiatives are: to influence public policy and service funding, to remain informed on emerging trends, needs and available resources, to effect change in service delivery systems, and to promote education on the impact of aging and longevity.

Service Delivery includes these home and community-based services:

Alzheimer's Day Care Resource Center
Care Coordination
Care Giving
Community Education
Adult Day Care
Community Elder Abuse Education
Disease Prevention
Fit After 50
Grandparents Raising Grandchildren
Health Insurance Counseling and Advocacy
Legal Assistance
Network of Care
Nutrition Program
Ombudsman Services
Personal Care / Homemaker Services
Senior Employment Program
Senior Helplink
Surplus Food Distribution
Transportation
Volunteer Services and Opportunities
911 Senior Emergency Cellular Phone Program

Senior Community Service Employment Program

The Senior Community Service Employment Program (SCSEP) is a community service and work based training program for older workers. Authorized by the Older Americans Act, the program provides subsidized, service-based training for low-income persons 55 or older who are unemployed and have poor employment prospects. Eligible program participants must be at least 55, unemployed, and have a family income of no more than 125% of the federal poverty level.

SCSEP provides both community services and work-based training. Participants work an average of 20 hours a week, and are paid minimum wage. They are placed in a wide variety of community service activities at non-profit and public facilities, including day-care centers, senior centers, schools and hospitals. It is intended that community service training serves as a bridge to unsubsidized employment opportunities.

A representative from the Office on Aging will be at our center on Monday, March 19 from 12 to 3pm.

CITY COUNCIL
MORENO VALLEY
RECEIVED
12 JAN 12 PM 4:56

MORENO VALLEY
WHERE DREAMS SOAR

CITY OF MORENO VALLEY
Parks and Community Services Department
Administration

MEMORANDUM

To: Mayor and City Council
Henry T. Garcia, City Manager

From: Mike McCarty, Director of Parks and Community Services

Date: January 9, 2012

Subject: Parks and Community Services Monthly Update

PARK PROJECTS

1. March Field Park Soccer Arena

   Project Description: Installation of synthetic turf on the concrete surface of the existing hockey rink. The hockey rink has not been utilized for years. Converting the hockey rink to arena soccer will provide the City another lighted soccer field as well as added revenue from the concession.

   Status: Staff is working on details so a contract can be submitted for review. The project is planned for completion by June 2012.

2. Replacement Play Equipment at Ridgecrest, Gateway and Sunnymead Parks

   Project Description: The playground equipment at these sites is outdated, not meeting current safety codes. The project will bring the play equipment up to current standards for safety and ADA.

   Status: The project is completed.

3. Lasselle Sports Park

   Project Description: This developer constructed (no cost to the City) project is 12¾ acres. Amenities are to include: restroom and concession, three turf football/soccer fields with natural turf, security lighting, picnic facilities, play apparatus and parking for approximately 200 vehicles.

   Status: The developer is in the process of obtaining required permitting from the Department of Water Resources and the City. Completion of the project is planned for fall/winter 2012/2013.

4. Cell Tower at Cottonwood Equestrian Station

Project Description: An application by T-Mobile for a 50' monopine cell tower has received a conditional use permit.

Status: The Department is waiting for a signed Telecommunications License Agreement, bonds and insurance to be submitted from the applicant. Once received and approved, T-Mobile will be able to commence construction.

PARKS MAINTENANCE DIVISION

1. Projects Completed

- Repaired east parking lot at Morrison Park.
- Planted trees at Sunnymead Park.
- Cleaned storage area at golf course.
- Trimmed shrubs at all parks.
- Replaced oak tree at CRC.
- Repaired gate at Celebration Park.
- Repaired drain on north side of golf course building.
- Winterized the water feature at Celebration Park.
- Verticut greens.
- Sanded and aerated greens.

2. Projects in Progress

- Repair and replant parking lot planter at Bethune Park.
- Trim palms at various park sites.
- Trim trees in contract areas *(75% complete)*.
- Install drainage V-ditch at Gateway Park.
- Install monument sign at Ridgecrest Park.
- Remove and repair the infield turf transitions at Morrison Park ball fields.
- Aerate Celebration, Vista Lomas, Shadow Mountain and Towngate II Parks.
- Trim Rockridge and Patriot Parks.
- Remove barbeques from Towngate Park.
- Fertilize Celebration, Vista Lomas, Shadow Mountain and Towngate II Parks.

3. Vandalism/Graffiti Damage

Vandalism and graffiti have been reported at the following areas during December: Aqueduct Bikeway ($730), Bayside ($189), Bethune ($130), Celebration ($100), Community ($753), El Portero ($270), Gateway ($24), JFK ($247), Moreno Valley Equestrian Center ($12,459), Morrison ($49), Patriot Park ($47), Pedrorena ($26), Rancho Verde Trail ($335), Ridgecrest ($25), Rockridge ($129), Shadow Mountain ($24), Sunnymead ($380), Towngate ($927), Victoriano ($188), Westbluff ($148), Weston ($120), and Woodland ($222). The total cost for vandalism/graffiti was $17,522. Total labor hours for vandalism/graffiti were 168½ hours, approximately 19 full-time work days.

MV00234684

4. Park Volunteers

Court referrals performed a total of 306 hours during December. The total hours for court referrals in 2011 are 9,263, which equates to approximately 1,157 full-time work days.

RECREATION DIVISION

1. Recreation

The Time for Tots program was full of activity for the month of December. In addition to the winter-themed educational curriculum, December also featured special activity days such as Snow Day, Bring Your Favorite Book Day, Ginger Bread Day, and Polar Express and Pajama Day. The fun-filled experiences concluded on the last day of the 2011 session held on December 22.

December also featured special seasonal activities including the Time for Tots Winter Celebration held at the Conference and Recreation Center on December 7 and caroling with the children from A Child's Place program on December 13.

Winter Valley Kids Camp opened at the March Field Park Community Center December 19 and saw an increase in registration compared to years past. Children in grades kindergarten through eighth are spending their vacation from school creating holiday and seasonal crafts, playing festive fun-filled games and activities, and much more. Winter camp is available through January 6.

2. Senior Community Center

On December 1 Health Net sponsored the annual tree trimming party.

On December 1 the holiday barbeque was sponsored by United Health Care. Hot links, chicken, hamburgers, chips, and drinks were provided.

On December 2 a Swap Meet was held in the Senior Center north parking lot There were about 30 vendors in attendance with approximately 200 visitors attending.

On December 13 the Chaparral Elementary students came by and sang holiday songs for the seniors' entertainment.

On December 16, the Center held its holiday party. There were 85 seniors in attendance enjoying games, food, and prizes.

On December 22 local student piano players played holiday music during the lunch period.

Greetings from the Creative Writing class at Moreno Valley Senior Center. ***Do you have vivid memories, wit and wisdom you'd like to share with family and friends? Come join the class and share those memories. Below is a personal essay written by a member of the class that we would like to share with you. Our class meets every Tuesday from 10:00 am to 11:30 am.***

Anna Christian, Facilitator

TEN WACKY NEW YEAR'S RESOLUTIONS for 2012

1. I promise to change my socks everyday.
2. I promise to eat vegetables at least three times a week.
3. I will learn to tap dance while singing "Rocked the Cradle of the Deep" and juggling six champagne glasses at the same time.
4. I will learn a useful second language like Latvian.
5. I will turn up my hearing aid, clean my glasses, and dance the Charleston.
6. I will remember to flip pancakes, eggs and Pop's burgers.
7. I will not remind my spouse twenty times to turn down the TV and/or radio.
8. I will leave my Christmas decorations up until Easter.
9. I will care for friends and neighbors and be thankful to be alive despite how hard it is.
10. I will not hide my lima beans under my plate at the Senior Center.

WISHING EVERYONE A HEALTHY, HAPPY NEW YEAR

Dear Sir or Madam,

The Moreno Valley Police Department will be hosting its 19th annual Holiday Cheer Program on Friday, December 21, 2012, in the Grand Valley Ballroom at the Moreno Valley Recreation Center located at 14075 Frederick Street in the City of Moreno Valley.

This outreach program is intended to brighten the lives of children and adults in our community during the holiday season; as well as foster good will between members of the community and the Moreno Valley Police Department. This program has met with great success over the years due to the financial support of businesses and people within our community.

During the 2011 Holiday Cheer Program, the generous support on the part of Moreno Valley business, local residents, and civic leaders enabled 49 families, including 149 children and 75 adults to attend a catered holiday party complete with food, gifts, live entertainment, games, and other festivities. Each family also received a turkey dinner, complete with all of the holiday trimmings, courtesy of local grocers.

In order for the Moreno Valley Police Department to continue a tradition of helping those who are less fortunate and brighten the holiday spirits of Moreno Valley youth and adults, we are asking for your financial support and generosity, which is paramount to the success of this program.

Without the support of local businesses, residents, and civic leaders, this program would not be a success. **Please contact the Moreno Valley Police Department's Problem Oriented Policing Team at [redacted] to make a donation or you can send it to the above listed address.**

Thank you in advance for your consideration and generosity in supporting the Moreno Valley Police Department with its 2012 Holiday Cheer Program.

Sincerely,

Chief John Anderson

Subject: Crosswalk at the intersection of Ironwood Avenue and Hubbard Street

Dear Mrs. Gordon:

The Traffic Safety Commission meeting scheduled for June 6, 2012, was cancelled. As you requested, this letter shall serve as confirmation of the meeting cancellation. The next regular scheduled Traffic Safety Commission meeting will be on August 1, 2012, at 6:00 P.M. Attached please find a copy of the Traffic Investigation Report regarding your item.

Although your agenda item will not be heard by the Traffic Safety Commission until the next meeting date, we would like to invite you to meet at the intersection of Ironwood Avenue and Hubbard Street to further discuss your request. We will invite Councilmember Jesse Molina and the Public Works Director to be present at the meeting. Please contact my office at your earliest convenience to schedule a meeting date and time that will fit your schedule.

Thank you and we hope to hear from you soon. If you have any questions or concerns, or need additional information, please contact Edward I. Init, Senior Engineering Technician at [redacted], or myself at [redacted]

Sincerely,

Eric Lewis, P.E., T.E.

CITY OF MORENO VALLEY
TRAFFIC SAFETY COMMISSION

TRAFFIC INVESTIGATION REPORT

DATE:

June 6, 2012

REQUESTED BY:

Harriet Gordon
11898 Kilgore Street, 92557

LOCATION:

Ironwood Avenue and Hubbard Street

REQUEST:

The installation of a crosswalk at the intersection of Ironwood Avenue and Hubbard Street.

BACKGROUND:

Ironwood Avenue is an east/west 54 feet wide minor arterial, and has two travel lanes, and is divided by a continuous left-turn lane. Currently, the north side of Ironwood Avenue is being improved from Indian Street to Perris Boulevard. The improvements include street widening, the installation of sidewalk, and the installation of curb and gutter. When completed, Ironwood Avenue will be 64 feet wide and will have 4-travel

lanes and will be divided by a continuous left turn lane. There is a stop sign installed on Hubbard Street at the subject intersection to control traffic entering onto Ironwood Avenue.

Hubbard Street is a residential collector and forms a "T" intersection with Ironwood Avenue. The ADT on Ironwood Avenue is approximately 10,500 vehicles per day. The ADT on Hubbard Street is 1,300 vehicles per day. The 85th percentile speed on Ironwood Avenue is approximately 43 MPH with a posted speed limit of 40 MPH.

Mrs. Gordon resides on Kilgore Street which is just west of Hubbard Street. She utilizes the RTA bus as her primary mode of transportation to get to and from her residence. Because of the location of the existing bus stop, Mrs. Gordon has to cross at the intersection of Ironwood Avenue and Hubbard Street to get to Kilgore Street.

A request was submitted by Mrs. Gordon to have a crosswalk installed at the intersection of Ironwood Avenue and Hubbard Street to assist her and other pedestrians crossing Ironwood Avenue.

DISCUSSION:

Crosswalk

The Transportation Engineering Division has evaluated the subject intersection to determine if a crosswalk is applicable based on guidelines established by the CA Manual of Uniform Traffic Control Devices (CA MUTCD) and information produced by the Federal Highway Administration (FHWA).

Crosswalks can be either "marked" or "unmarked." The California Vehicle Code defines a "crosswalk" as the portion of a roadway at an intersection, which is an extension of the curb and property lines of the intersecting street, or is any other portion of a roadway which is marked as a pedestrian crossing location by painted lines.

A "marked crosswalk" is any crosswalk which is delineated by white or yellow painted markings placed on the pavement. All other crosswalk locations are therefore "unmarked." Pedestrians can cross at unmarked crosswalks unless prohibited by appropriate signage.

Crosswalk markings are used to provide guidance for pedestrians who are crossing roadways by defining and delineating paths on approaches to and within *signalized intersections*, and on approaches to other intersections *where traffic stops*. Compliance to yield to pedestrian right-of-way is higher at traffic controlled locations such as traffic signals and stops signs because pedestrian activity is generally expected.

The installation of a marked crosswalk should not be performed indiscriminately. Crosswalk markings should not be used at all intersections. If used extensively, many

marked crosswalks would be underused and motorists would tend to be desensitized to their presence. This could lead to problems at heavily used crosswalks and detract from potential safety value at these locations. Crosswalks should be used, in general, only at locations where pedestrian activity is significant. This will ensure that motorists come to associate crosswalks and pedestrian activity.

Furthermore, research has shown that there are several disadvantages to installing marked crosswalks at uncontrolled multi-lane, high speed arterial intersections.

1. It may generate a "multi-threat" condition where one vehicle yields to the pedestrian and another vehicle does not due to a lack of visibility.
2. It may cause the pedestrian to think that the driver can and will stop in all cases, even when it is impossible to do so.
3. It may cause a greater number of rear-end and associated collisions due to pedestrians not waiting for gaps in traffic.
4. It may cause a general disrespect for all pedestrian regulations and traffic controls where crossings are very infrequent.

Also, wider, multi-lane streets are difficult for many pedestrians to cross, particularly if there is an insufficient number of adequate gaps in traffic due to heavy traffic volume and high vehicle speed.

Relocation of Existing Bus Stop

A review of the area and information received from the Riverside Transit Agency (RTA) suggests that there is a minimal amount of pedestrians crossing at the subject location. According to ridership data, on average there are approximately 1-2 boarding's per day for this particular bus stop.

Channelizing pedestrians to established locations such as traffic signals is preferred. By doing so, pedestrians are provided with a traffic control device to assist them across locations where motorist are expected to yield. The proximity to traffic controlled intersections provides convenience and increased safety to transit patrons, minimizes mid-block pedestrian crossings, and reduces walking distance to transfer locations.

Alternatives are available to the public if traditional bus services can not be utilized. "Dial-A-Ride" is a curb-to-curb advanced reservation transportation service for seniors and persons with disabilities. "Dial-A-Ride vehicles travel to areas within three-quarters of a mile of an RTA local fixed route. Service is provided during the same hours of operation as local fixed-route bus service in that area.

Currently, there is a Capital Improvement Project (CIP) to construct missing sidewalk on the north side of Ironwood Avenue. These improvements will provide a complete

walking path for pedestrians to travel to and from the bus stops to connect to adjacent neighborhoods and arterials.

A proposal has been submitted to RTA to relocate the existing bus stop on the south side of Ironwood Avenue at Hubbard Street to the intersection of Ironwood Avenue and Indian Street. It has been noted by staff that our recommendation may inconvenience the public by increasing their walking distance, however, it was estimated that the relocation would only increase pedestrian walking trip time by approximately 5 minutes or by an additional 500 feet.

Lastly, by grouping several transit riders at one location, the bus stop may qualify for upgraded amenities to include benches, shelters, smart stop technology, and lighting.

RECOMMENDATION:

Based upon all the above, staff's recommends:

1. Not to install a crosswalk at the intersection of Ironwood Avenue and Hubbard Street at this time.
2. To request RTA to relocate the existing bus stop located on the south side of Ironwood Avenue at Hubbard Street to the far side of Ironwood Avenue and Indian Street.

MEMORANDUM

To: Honorable Mayor and Members of City Council
(Via: Henry T. Garcia, City Manager)

From: Ahmad R. Ansari, P.E., Public Works Director/City Engineer

Date: May 10, 2012

Subject: **SR-60/Nason Overcrossing Bridge Improvements**

As an update on the subject project and assessment of the anticipated bidding schedule, we have examined remaining items, including Caltrans and RCTC review and approval process. The following is a summary of required milestones and target dates so that the project can be advertised for construction bids.

A. BID DOCUMENTS

1. Caltrans Approval of Plans:
   Several comments have been submitted to Caltrans or exceptions requested, and are under review. Upon resolution of affected sheets and specifications, Caltrans is anticipated to approve by May 28, 2012.

2. Caltrans Environmental Certification:
   Typically requires 4 weeks after plan approval (#1 above); however, Caltrans Environmental has already signed off the plans, so is only expected to take a maximum of 2 weeks. Staff is working to expedite and further shorten. Expected complete by June 26, 2012.

3. Caltrans Local Assistance Process and RCTC Coordination in Order to Use $4.1 million in Federal Funds:
   Forms are currently being processed by the local District. Caltrans Headquarters review and FHWA allocation of funds is also required. Staff is working daily with Caltrans to advance the approval. RCTC staff is also working closely with City staff and Caltrans to ensure the Regional Transportation Improvement Program (RTIP) documents are in conformance with funding. Within the local District, this milestone proceeds concurrently with #1 and #2 above. Prior to sending to Caltrans Headquarters, #1 and #2

Date: May 2, 2012

Subject: **SR-60/Moreno Beach Improvements (Phase I)**

As an update on the subject project and assessment of the anticipated bidding schedule, we have examined all remaining items, including Caltrans and utilities review and approval process. The following is a summary of required milestones and target dates before the project can be advertised for construction bids.

1 – **Caltrans R/W Certification:**
Southern California Edison is anticipated to record last easement deed by May 17, 2012, so that Caltrans can approve R/W certification by June 1, 2012.

2 - **EMWD approval of waterline plans:**
This item is anticipated to be completed by May 24, 2012.

3 – **Caltrans approval of plans:**
Comments are received yesterday, May 1, 2012. Upon corrections and resubmittal, Caltrans is anticipated to approve by June 15, 2012.

4 – **Caltrans Environmental Certification:**
This is anticipated to occur from June 15, 2012 to July 13, 2012. The process requires four weeks after plan approval. Staff is working to expedite and shorten this process.

5 - **Caltrans Encroachment Permit:**
Typically occurs five business days following #4 above. Anticipated date is July 23, 2012.

Realistically and based on the above schedule, staff anticipates to bid the project by **July 26, 2012**. If we are successful in expediting as noted in Item #4 above, an earlier date of July 12, 2012 or hopefully latter part of June may be conceivable. If we experience unexpected delays particularly from utility agencies due to emergencies or work load, the target date for bidding may be August 9, 2012. As always, staff is doing what they can to expedite this high priority project.

Please feel free to contact me at Ext. 3105 with any questions.

Warren D. Williams.
General Manager – Chief Engineer
Riverside County Flood Control and Water Conservation District
1995 Market Street
Riverside, CA 92501

Subject: **Shared Benefit of Flood Control Facilities in Cactus Avenue/Nason Street Improvement Project**
City Project No. 12-12599520

Dear Mr. Williams:

On February 15, 2012, the City opened bids for the construction of Cactus Avenue/Nason Street Improvement Project, which is part of the City's Economic Development Plan. The City is providing a positive economic stimulus to facilitate job creation by upgrading the strategic business corridor of Cactus Avenue from Lasselle Street to Nason Street and Nason Street from Cactus Avenue to Iris Avenue. Cactus Avenue and Nason Street are located in the City center, close to major medical facilities, the community college, the Auto Mall, several shopping centers, and a large number of the newer housing developments in the community. The street improvements will enhance traffic flow to commercial areas and will ease commutes for residential areas in Moreno Valley Ranch and the southerly section of the community. Currently, Moreno Valley College, Kaiser Permanente's Community Hospital, and Riverside County Regional Medical Center have plans to expand or have started construction of their expansion.

The improvements on Cactus Avenue and Nason Street are expected to cost approximately $23.5 million. In general, the improvements include curb, gutter, street pavement reconstruction and widening, Master Planned Storm Drain Lines I, J and J-9, domestic water, reclaimed water, traffic signal work, and a bridge along Nason Street over flood control channel Line F. It is always more cost effective to install all underground utilities during the time of initial construction, however, due to a budgetary shortfall, the City does not have sufficient funding to provide for the ultimate expansion of all the utilities/infrastructures without some assistance from the utility companies and the District. To date, EMWD is readily cooperating to fund their water and recycled water facilities and the District has graciously participated by absorbing half of the District costs during the Design Phase of Line I, J and J-9.

MV00234713

Based on the apparent low bid for the project, the City currently has a funding shortfall of approximately $705,000 to construct Master Planned Storm Drain Line J-9, compared to total construction cost of $950,000 that includes construction engineering. Furthermore, against the available $6,000,000 funding pursuant to the City/District pass-through agreement to construct Line I and J, the total cost based on the low bid adds up to $7,750,000. Fortunately, the City has funding to cover this Line I and J deficit of $ 1,750,000.The City is funding the Line I and J funding shortfall through other available project funding sources due to savings realized in road improvements portion of the project..

Therefore, the City requests the District to consider absorbing all the construction phase related District costs for Line I, J and J-9 estimated at $140,000 and contribute an additional $565,000 to assist the City to overcome the Line J-9 funding shortfall of $705,000. With your assistance, a substantial network of significant flood control improvements would be completed for this very strategic City business center that is poised for job creation and economic development.

A response by **February 23, 2012** to the City's request for assistance with funding of the District's facilities would be appreciated. This date is critical for the City to be able to guarantee the installation of the flood control facilities in conjunction with the roadway construction as part of the construction contract award.

If you have any questions, please call Prem Kumar, Deputy Public Works Director/Assistant City Engineer, at [redacted]

Sincerely,

Henry Garcia
City Manager

OFFICE OF
THE DISTRICT ATTORNEY
COUNTY OF RIVERSIDE

PAUL E. ZELLERBACH
DISTRICT ATTORNEY

CITY COUNCIL
MORENO VALLEY
RECEIVED
12 APR 16 PM 4:23

MEMORANDUM
March 16, 2012

TO: City Attorneys within the County of Riverside

FROM: Paul Zellerbach, District Attorney

SUBJECT: Applicability of Government Code section 1222 Criminal Sanctions to Violations of Brown Act Closed Sessions

The Ralph M. Brown Act requires the "legislative bodies" of "local agencies" to hold their meetings open to the public unless expressly excepted by the Act or impliedly excepted by another provision of law pertaining to confidential communications. The Act contains numerous provisions authorizing the holding of closed sessions. The public policy reasons for authorizing closed sessions for public body deliberations are almost as numerous as the individual exemptions contained in the Act itself.

Not only does the Act authorize closed sessions, it specifies that the minute book containing "a record of topics discussed and decisions made at" a closed session "is not a public record . . . and shall be kept confidential" and "available only to members of the legislative body or . . . to a court . . . ." If the recording of a closed session discussion must be kept in confidence, it follows that oral communications of such information may not be made to the public.

Sanctions that may be imposed upon a person who discloses confidential information include barring the person from future closed sessions, obtaining an injunction against the person's public disclosures, or filing an accusation against the person for "willful or corrupt misconduct in office."

In addition, Government Code section 1222 provides as follows:

> "Every willful omission to perform any duty enjoined by law upon any public officer, or person holding any public trust or employment, where no special

MV00234993

provision is made for the punishment of such delinquency, is punishable as a misdemeanor."

In the case of *Alder v. City Council* (1960) 184 Cal. App. 2d 763, 774-775, the court specifically held that the misdemeanor sanction set forth in Government Code section 1222 applies to violations of the Brown Act. Therefore, public officials who violate provisions of the Brown Act will be subject to criminal prosecution, which may include up to six months in county jail and a fine of up to $1,000.00.

CITY OF MORENO VALLEY
Community Development Department
Planning Division

MEMORANDUM

To: Robert Hansen, City Attorney

From: Chris Ormsby, AICP, Senior Planner

Date: July 13, 2010

Subject: Environmental Determination Regarding Amendment of City Council Action on June 22 Regarding Applicant's Covenant to Hold as one Parcel subject to certain Conditions (City Council Agenda July 13, 2010, Item G.6)

The proposed action by City Council is not a "project" as defined in CEQA Guidelines Section 15378. There would be no direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment that would result from the proposed action. The site has already been disturbed and graded under authorized grading permit consistent with the approved conditions of approval. The activity of allowing a limited purpose building permit for foundation, slab, and pouring of wall panels would not result in a physical change to the environment that was not already contemplated by the approval of the "project". All applicable conditions of approval, including excepted conditions, would be required to be complied with prior to the issuance of the general building permit.

The "project" as defined in the CEQA Guidelines is the construction of Highland Fairview's Corporate Park. The first phase of the project consists of the construction of a single building permit containing approximately 1,820,000 sq. ft. which will be used as a logistics facility. The impacts of the entire project, including Phase 1, were carefully analyzed in an EIR certified by the Council as having been prepared in full compliance with CEQA on February 10, 2009. The EIR identified a number of potential mitigation measures which were made conditions of the project's approval.

The only effect of the City Council's approval of issuing the limited purpose building permit is to allow the construction for Phase 1 to begin a month earlier than would otherwise be the case. It is merely an approval of one stage of the previously analyzed project, it is not itself a new project. There is no change in the project, as analyzed in the EIR, and all of the conditions imposed at the time the project was approved in 2009 and as amended in 2010 are still in place and must be satisfied before construction of the building can be completed.

When an EIR has been certified, additional CEQA review is very limited. It is required only if certain conditions exist. They are:

1. There are substantial changes in the project which will require major changes in the EIR because there are new significant environmental impacts or a substantial increase in the severity of previously identified significant impacts.

This condition does not apply because there is no change in the project (only the timing of the start of construction is involved), no new environmental impacts of any kind and no new increase in any environmental impact. The covenant to have the 11 existing lots held as a single parcel has no environmental impact at all because it is consistent with what will happen when Parcel Map 35629 is approved and recorded and the 11 existing lots are merged into the new Parcel 1.

2. There are substantial changes in the circumstances under which the project is undertaken which will require major changes in the EIR because there are new significant environmental impacts or a substantial increase in the severity of previously identified significant environmental impacts.

This condition does not apply because there is no change in the circumstances under which the project is being undertaken (no change in air quality, traffic or any other environmental issue which affects the project), no new environmental impacts of any kind and no new increase in any previously identified environmental impact.

3. There is new information of substantial importance which was not, and could not have been, known at the time the EIR was certified which would bring into question the analysis and the mitigation measures set forth in the EIR.

This condition does not apply because no such information has been identified by anyone.

Based on these facts, planning staff recommends the following environmental determination:

This activity is not a "project" under CEQA Guidelines Section 15378, and none of the conditions described in Section 15162 of the CEQA Guidelines have occurred that would warrant a subsequent EIR or an addendum to the EIR. Further, staff finds that the absence of any change in the project, the absence of any change in the circumstances under which the project is being undertaken, the absence of any new information which would bring into question the adequacy of the EIR, the fact that all of the project impacts were analyzed in the EIR and the fact that all mitigation measures must be satisfied prior to the building's completion means that there is no need for further environmental review.

Proposed Motion:

Approve and accept Highland Fairview's Covenant to Hold as One Parcel subject to the following conditions:

1. The covenant is amended to state that it is for the issuance of a limited purpose building permit for commencement of construction of the foundation and slab only, which permit shall automatically expire on October 20, 2010, if the final parcel map is not recorded prior to that date;

2. That Highland Fairview agree in writing in the covenant or other recordable agreement to the following terms and conditions prior to issuance of the limited purpose building permit:

    a. The parcels which are the subject matter of the covenant be owned by the same entity,

    b. Separate foundation and slab only building plans be submitted and approved,

    c. Compliance with all conditions of approval for the issuance of a building permit except recording of the final map,

    d. Compliance with all requirements for recording the final map except for actual final map approval and recordation, and Public Improvement Agreements and security for same for any public improvements not occurring in the public right-of-way or on public property,

    e. All Public Improvement Agreements for improvements that will be undertaken in the public right-of-way or on public property pursuant to the limited purpose building permit have been executed and the required security has been posted,

    f. The final lot configuration be shown on the map that is being processed,

    g. The covenant to hold property as one parcel be recorded,

    h. The holders of all easements across which construction will occur have either abandoned or given written permission for construction across their easements,

    i. Execution of an encroachment and removal agreement,

    j. The City is only issuing a limited purpose building permit for foundation and slab construction only,

k. The final parcel map shall be recorded before 12:01 a.m. on October 21, 2010,

l. The limited purpose building permit shall automatically expire at 12:01 a.m. on October 21, 2010, if the final parcel map has not been recorded,

m. All construction pursuant to the limited purpose building permit shall cease at 12:01 a.m. on October 21, 2010 if the final parcel map has not been recorded,

n. It will be solely responsible for removal of any improvements and restoration of the site to its pre-construction condition if ordered by any court,

o. Prior to execution of the agreement it will provide adequate security for removal of any improvements and restoration of the site to its pre-construction condition if ordered by any court,

p. It and its partners waive any and all recourse against the City which may arise out of this action,

q. Neither the agreement, nor the time for recordation of the final parcel map will be extended beyond October 20, 2010,

r. It will defend and indemnify the City for all judgments, costs and legal fees which may be incurred as a result of said agreement or the issuance of a limited purpose building permit for the foundation and slab only, and

s. Any other terms and conditions the City Manager and City Attorney deem necessary to implement the agreement and the purposes of this action.
